ARKANSAS VALLEY BROADCASTING CO.

ORDER DESIGNATING APPLICATION FOR CONSOLIDATED HEARING ON STATED ISSUES

In re application of Arkansas Valley Broadcasting Company, Fort Smith, Arkansas, Docket No. 7157, File No. B3–P–4200; for construction permit.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 19th day of December 1946;

The Commission having under consideration the above-entitled application for a construction permit for a new standard broadcast station to operate on the frequency 1270 kc, with 1 kw power, using directional antenna, unlimited time, at Fort Smith, Arkansas;

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said application be, and it is hereby, designated for hearing, at a time and place to be designated by subsequent order of the Commission, upon the following issues:

1. To determine the legal, technical, financial, and other qualifications of the applicant corporation, its officers, directors and stockholders, to construct and operate the proposed station.

2. To determine the areas and populations which may be expected to gain or lose primary service from the operation of the proposed station and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of the proposed station would involve objectionable interference with Stations KTFI, Twin Falls, Idaho, and KGCU, Mandan, North Dakota, or with any other existing broadcast stations and, if so, the nature and extent thereof, the areas

and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of the proposed station would involve objectionable interference with the services proposed in the pending application of Big Sioux Broadcasting Company (File No. B4–P–4734), requesting 1270 kc, with 1 kw power, unlimited time, using directional antenna at night, at Sioux Falls, South Dakota, or in any other pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of the proposed station would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations.

It is further ordered, That Radio Broadcasting Corporation, licensee of Station KTFI, Twin Falls, Idaho, and Mandan Radio Association, licensee of Station KGCU, Mandan, North Dakota, be, and they are hereby, made parties to this proceeding.

By the Commission.

[Docket Nos. 8011, 8012]

AMERICAN BROADCASTING CO., INC., ET AL.

ORDER DESIGNATING APPLICATION FOR CONSOLIDATED HEARING ON STATED ISSUES

In the matter of applications of American Broadcasting Company, Inc. (KGO), San Francisco, California, for modification of construction permit, Docket No. 8011, File No. B5–MP–2157; Denver Broadcasting Company, Denver, Colorado, for construction permit, Docket No. 8012, File No. B5–P–5141; and Modification of Broadcast License of General Electric Company (WGY), Schenectady, New York, File No. B1–S–264.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 17th day of December 1946;

The Commission having under consideration the following matters:

(1) Application of American Broadcasting Company, Inc. (File No. B5–MP–2157) requesting a modification of construction permit to authorize changes in the directional antenna of Station KGO, San Francisco, California;

(2) Application of Denver Broadcasting Company (File No. B5–P–5141) for a construction permit for a new standard broadcast station to operate on the frequency 810 kc with power of 25 kw, 50 kw-LS, using directional antenna day and night at Denver, Colorado; and

(3) Request of American Broadcasting Company (KGO) that Station WGY, Schenectady, New York, be required to install a directional antenna which would afford nighttime protection to Station KGO operating as proposed in the aforesaid application; and

It appearing, that Station WGY now operates unlimited time at Schenectady, New York, on the frequency 810 kc with 50 kw power; that Station KGO is authorized to operate unlimited time, with directional antenna, on the same frequency at San Francisco, California, with 50 kw power; and that the said request of American Broadcasting Company, Inc. pertaining to the installation of a directional antenna by Station WGY, would, if granted, be a modification of the broadcast license of Station WGY;

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the above entitled applications of American Broadcasting Company (KGO) and Denver Broadcasting Company be, and they are hereby, designated for hearing in a consolidated proceeding, at a time and place to be designated by subsequent order of the Commission, and that as a part of the said proceeding, and in consolidation therewith, the licensee of Station WGY, General Electric Company, be, and it is hereby, afforded the opportunity to show cause why the broadcast license issued to the said General Electric Company, for the operation of Station WGY, should not be modified so as to specify a directional antenna which would afford nighttime protection to the said proposed operation of Station KGO.

It is further ordered, That the said applications of American Broadcasting Company, Inc. (KGO) and Denver Broadcasting Company be heard upon the following issues:

1. To determine the legal, technical, financial and other qualifications of the applicant, Denver Broadcasting Company, its officers, directors and stockholders, to construct and operate its proposed station, and the technical, financial and other qualifications of the applicant American Broadcasting Company, Inc., its officers, directors and stockholders, to construct and operate Station KGO as proposed.

2. To determine the areas and populations which may be expected to gain or lose primary service from the proposed operations and the character of other

broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether ft would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the proposed operations, or either of them, would involve objectionable interference with any existing broadcast station and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the proposed operations would involve objectionable interference, each with the other, or with the services proposed in any other pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether Station WGY, Schenectady, New York, would involve objectionable interference with the proposed operations, particularly with the operation of Station KGO as proposed, whether such interference, if any, could be eliminated by the installation of a directional antenna by Station WGY, and whether it would be in the public interest to modify Station WGY's broadcast license to specify such a directional antenna.

7. To determine whether the installations and operations proposed by the applicants would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations.

8. To determine on a comparative basis, which, if either, of the applications in this consolidated proceeding should be granted.

By the Commission.

EXTENSION, OR REINSTATEMENT AND EXTENSION, OF CERTAIN AMATEUR LICENSES [1]

JANUARY 3, 1947.

The Federal Communications Commission has announced that on January 3, 1947, it adopted and made effective immediately its Order 115-C pertaining to amateur radio operator and station licenses. This order is comprehensive in its provisions. Except for amateur licenses which have been or subsequently are suspended, revoked, or voluntarily surrendered and to which the order does not apply, the order applies to every amateur operator and station license which was issued on or between December 7, 1938, and December 31, 1944. With regard to these licenses to which the order applies, the effect of the order is to reinstate any licenses that may have expired on or since December 7, 1946, and to extend the terms of these licenses and of unexpired licenses so that all such licenses will expire in 1948, at 3 a. m., eastern standard time, the same day and month as the date of issuance shown on the operator license. Station and operator licenses held by the same licensee will expire concurrently. Under this order, it will not be necessary for any amateur to refer to the earlier Commission Orders 115, 115-A, 115-B and 136-F. If the license was issued on or between the indicated dates, and has not been or is not subsequently suspended, revoked, or voluntarily surrendered, the application of Order 115-C is automatic and no action by the licensee is required.

The Commission also pointed out that, as a result of the fact that all amateur licenses originally issued for a three-year term were issued on or before December 31, 1945, and only five-year term licenses have been issued on and since January 1, 1946, all amateur licenses originally issued for a three-year term, whether covered by this Order 115-C or not, will expire during the year 1948.

STANDARD BROADCAST APPLICATIONS [1]

ADOPTION OF TEMPORARY EXPEDITING PROCEDURE

JANUARY 8, 1947.

On August 16, 1946, the Commission announced the adoption of a new procedure for processing applications for standard broadcast stations. Under this procedure applications which present relatively simple engineering problems are placed in Processing Line No. 1 and those involving complicated engineering problems are placed in Processing Line No. 2. Within each processing line priority in starting the processing of applications is determined by the file number of the application.

Since that time satisfactory progress has been made with respect to Line 1. As a result, as things stand today, the time between the filing of an application which is placed in Line 1 and when it is acted upon by the Commission by granting it or designating it for hearing is between one and three months.

The progress on Line 2 has not been nearly so satisfactory. As of January 6, 1947 there were still 188 applications in this line. While this does represent an improvement over the situation which has existed in the past, it is still far from satisfactory and applications which are destined for Line 2 have no reasonable prospect even today of being acted on short of 9 to 12 months.

The main reason for the slowness in moving Line 2 cases results from the fact that these applications generally raise complex engineering questions requiring in almost all cases a complete channel survey. Channel surveys in general are difficult to make and are time-consuming. What has complicated the problem even more is that channel surveys are practically out of date before they are completed because in the meantime additional applications have been filed for operation on the frequency in question. With no immediate prospect in sight of any substantial lessening in the number of applications to be filed, it is obvious that no improvement in the movement of Line 2 applications can be expected as long as applications are continued to be accepted for filing.

In order to meet this situation, the Commission has determined to institute a temporary expediting procedure for the handling of standard broadcast applications for construction permits or modifications of permits. Any such standard broadcast application which is filed after February 7, 1947 and before May 1, 1947 will be placed in temporary pending files and will not be acted upon by the Commission nor considered by the Commission in acting upon applications filed on or before February 7, 1947. This procedure will apply not only to applications that would be placed in Line 2 but also to those would be placed in Line 1. It is necessary to include Line 1 applications as well as those in Line 2 because of the adjacent channel interference problems that are presented. In addition, except as set forth below, during the period that the temporary expediting procedure is in effect, amendments to applications that affect the engineering aspects of the application, other than equipment, will result in the application being placed in the temporary pending files. This will apply to cases in hearing as well as those not designated for hearing. The only exception to the procedure for placing in the temporary pending files applications that are filed after February 7, 1947 are applications for modification of permit the filing of which is ordered by the Commission as a condition to a grant of a construction permit and those applications for modification of permit which do not request a change of frequency, power or hours of operation and which in addition do not involve any interference to any existing station or to any proposed station.

It is the Commission's intention to act upon all applications filed on or before February 7, 1947 by May 1, 1947; all such applications will either be granted or designated for hearing. In addition, the Commission will endeavor to dispose of as many hearing cases as possible. So far as nonhearing cases are concerned, applications in Line 1 will continue to be processed as at the present time; the applications will be taken up in the order of their file number. So far as Line 2 applications are concerned, a different procedure will oe followed. Since experience has shown that in practically all such cases a channel survey is required, the Line 2 applications will be taken up channel by channel. The formula to be followed by the Commission in determining the order in which the various channels will be considered will be announced shortly after February 7.

When the Commission is ready to act on a channel survey, it will give notice to the engineers and attorneys for the applicants on that channel that an informal engineering conference will be held at a designated time and place. Representatives of applicants on adjacent channels may also be invited if this appears to be desirable. The engineers should be prepared to bring to this conference such engineering studies as are requested by the Commission.[2] All technical phases of the applications will be considered at the conference. In many cases the discussions at the conference will disclose methods by which interference can be eliminated or reduced. After the conference is concluded, the parties will be given a reasonable time (15 days if possible) to make appropriate amendments to their applications to eliminate or reduce interference. In this connection no amendments will be accepted which would change the frequency requested or which would increase power or hours of operation unless the applicant desires to have his application placed in the temporary pending files. Following such amendments a second conference will be held to consider such amendments. At this conference a committee of consulting engineers under the chairmanship of a Commission engineer will be appointed for the purpose of preparing a channel survey within a specified period. It is hoped that as a result of these conferences a channel survey can be prepared which the parties will accept as accurate. Of course, parties will not be expected to agree to the exact amount of interference that would be acceptable or that specified directional antennas will prove to be feasible in operation. Upon the completion of the survey, the applications will be presented to the Commission for action.

It should be pointed out that during the period the temporary expediting procedure is in effect, the Commission will continue to act periodically on all standard broadcast applications filed on or before February 7, 1947 and to decide as many hearing cases as possible.

Beginning with May 1, 1947, applications will once again be processed in the usual manner. Applications designated for hearing during the period the temporary expediting procedure is in effect as to which the hearing begins after such period will be subject to the rules on consolidation, intervention, petitions for reconsideration in the same manner as other applications.

The substance of the procedure which is provided for by this public notice was discussed at an informal conference held with the consulting radio engineers on January 6, 1947 in order to determine whether their cooperation and assistance could be enlisted. It is obvious from a consideration of the plan that its success depends on the Commission being able to secure the assistance of additional outside engineers, since it is not possible to provide for additional engineers within the Commission's budget. The feasibility and desirability of this procedure was endorsed by these consulting engineers and they have promised their fullest support and cooperation.

The Commission is of the opinion that the temporary expediting procedure will not result in any prejudice to the rights of applicants. All interested persons will have until February 7, 1947 to file any applications they intend to file. As a result of the procedure the Commission will be enabled to move all applications now on file, or which may be filed on or before February 7, 1947. In addition, it should be possible to expedite decisions on cases in hearing. Finally, as a result of the removal of the backlog, applications which are placed in the temporary pending files as well as those filed after May 1, 1947 should receive much more expeditious consideration than is now possible and indeed Line 2 cases placed in the temporary pending files will in all probability receive earlier action as a result of the new procedure than they could have received were they required to wait the 9 or 12 months necessary for action on Line 2 cases under present procedure.

[2] In this connection, if no substantial changes are suggested in the proposed amendments to the Standards of Good Engineering Practice as adopted on December 20, 1946, the Commission will make such amendments effective by February 10, 1947 so that the engineering data at the conference may be submitted on the basis of the new standards.

FEDERAL FARM MORTGAGE CORPORATION

[Surplus Property Transfer Order 2]

JEFFERSON NATIONAL FOREST

TRANSFER OF JURISDICTION OF SURPLUS FOREST LANDS

Transferring jurisdiction of surplus forest lands in the Jefferson National Forest, Virginia, to the Forest Service pursuant to the provisions of the Surplus Property Act of 1944 (58 Stat. 765).

Whereas, the following described lands, title to which was acquired by the United States of America in the condemnation suit entitled United States of America vs. 1830.62 acres of land, more or less, in Botetourt County, Virginia, Triton Chemical Company, Inc., et al., Civil No. 60, situate within the exterior boundaries of the Jefferson National Forest have been declared surplus and classified as forest lands pursuant to the provisions of the Surplus Property Act of 1944 (58 Stat. 765):

All that certain piece or parcel of land lying in the County of Botetourt near Glen Wilton, Virginia, bounded and described in plat and survey made by S. S. Lynn, State Certified Surveyor, December, 1940. Beginning at a point 1, said point being and old iron rail set just North of some large rocks and a little southeast of a larger rock; thence South 48 degrees East 2472 feet to point 2, an iron rod; thence South 59 degress 45 minutes East 2821 feet to point 3, a dead locust; thence North 26 degrees 05 minutes East 1049 feet to point 4, a black oak; thence South 23 degrees 34 minutes East 614 feet to point 5, a larger black oak; thence North 78 degrees 51 minutes East 137 feet to point 6, a corner locust post; thence South 31 degrees 57 minutes East 353.5 feet to point 7, an iron pipe; thence South 38 degrees 35 minutes East 209 feet to point 8; thence North 31 degrees 18 minutes East 172 feet to a point; thence North 82 degrees East 40 feet to point 9 in the westerly right-of-way line of the C & O Railroad; thence 8 courses with the said right-of-way line North 19 degrees 05 minutes East 1054 feet to point 10; thence on a curve to the right, the radius of which is 3869.8 feet a distance of 518 feet to point 11; thence North 26 degrees 45½ minutes East 3876 feet to point 12; thence along a curve to the left, the radius of which is 1860.5 feet for a distance of 386.6 feet to point 13; thence North 14 degrees 50½ minutes East 300 feet to point 14; thence on a curve to the right, the radius of which is 1482.7 feet for a distance of 240 feet to point 15; thence North 24 degrees 7 minutes East 300 feet to point 16; thence North 27 degrees 07 minutes East 149 feet to point 17; thence leaving the C & O right-of-way line North 35 degrees West 1931.5 feet to point 18, a stake; thence North 88 degrees 20 minutes West 304 feet to point 19, a fat pine stake; thence North 78 degrees West 1918 feet to point 20, a stake on a flat ridge; thence North 25 degrees 45 minutes East 297 feet to point 21, a concrete post; thence by the land of the United States National Forest North 78 degrees 30 minutes West 7140 feet to point 22, a United States Forest corner on top of mountain; thence South 2 degrees West 1820 feet to point 23, a pine stake and rock pile; thence South 13 degrees West 323 feet to point 24, a rock pile near South end of a ridge; thence South 23 degrees West 883 feet to point 25, a rock pile at turn of ridge; thence South 10 degrees 12 minutes West 1952 feet to point 26, a rock 3 feet square; thence South 27 degrees 45 minutes West 1799 feet to point 27, a 30 inch rock on a larger sloping rock; thence South 14 degrees 15 minutes East 1257 feet to point 28, a red sand stone rock; thence South 51 degrees 21 minutes East 561 feet to point 29, a pine knot on steep South slope; thence South 38 degrees 15 minutes East 792 feet to point 30, a stone with a pile of rocks; thence South 78 degrees 24 minutes East 2082 feet to point 31, a stake; thence North 13 degrees 30 minutes East 1584 feet to point 1, the place of beginning.

Excepting and excluding from the above-described lands the following tracts or parcels:

1. All that certain tract or parcel of land being in the County of Botetourt, State of Virginia, near the Village of Glen Wilton and formerly known as the Superintendent's House of the Longdale Iron Company, being described as metes and bounds as follows:

Beginning at the North corner of said lot, an iron pipe; thence South 60 degrees 22 minutes East 234 feet to an iron pipe; thence South 29 degrees 38 minutes West 166.5 feet to an iron pipe in northeast edge of road; thence along the northeast edge of road North 56 degrees 1 minute West 91.5 feet to an iron pipe, North 48 degrees 12 minutes West 80 feet to a short railroad iron, North 24 degrees 26 minutes West 50 feet to a short railroad iron; thence North 6 degrees 28 minutes West 40 feet to an iron rod; thence North 26 degrees 30 minutes East 81.4 feet to the Beginning, containing 0.78 acres, more or less. Excepted in condemnation suit.

2. That portion of the above-described lands upon which a spur track of the Chesapeake and Ohio Railway is located, which land was conveyed by deed dated March 8, 1941, and recorded in Deed Book 91, Page 384 in the office of the Clerk of the Circuit Court of Botetourt County, and is more particularly described as follows:

Beginning at a point in the existing right-of-way line 50 feet northwesterly at right angles from center line of main track of the James River Sub-Division of The Chesapeake and Ohio Railway at station 5468 plus 36.3, also being 25 feet northwesterly at right angles from center line of spur track serving Triton Chemical Company, Inc., at station 2 plus 73; thence northwesterly parallel with and 25 feet from center line of spur track which is on a 10 degree 00 minute curve to the left to station 8 plus 25, continuing on a tangent North 36 degrees 04 minutes 30 seconds West to station 12 plus 37.4, continuing on a 6 degree 00 minute curve to the right to station 15 plus 39 and continuing parallel with and 25 feet from main spur track a total distance of 1379 feet, more or less, to a point opposite station 16 plus 66; thence northeasterly and radially toward center line of main spur track 13 feet; thence northwesterly parallel with and 12 feet from center line of main spur track and spur track produced which is on a curve to the right and tangent North 6 degrees 32 minutes 30 seconds West a total distance of 360 feet, more or less; thence northeasterly at right angles to center line of main spur track produced at station 20 plus 25, 21 feet; thence parallel with and 9 feet from center line of main spur track produced and main spur track on a tangent South 6 degrees 32 minutes 30 seconds East and curve to the left a total distance of 359 feet, more or less, to a point opposite station 16 plus 66; thence northeasterly and radially from center line of main spur track 31 feet; thence southeasterly parallel with and 25 feet from center line of siding and main spur track which is on a 6 degree 00 minute curve to the left to station 12 plus 37.4, continuing on a tangent South 36 degrees 04 minutes 30 seconds East to station 8 plus 25 and continuing on a 10 degree 00 minute curve to the right a total distance of 1168 feet, more or less, to a point in right-of-way line; thence South 19 degrees 07 minutes 30 seconds West on right-of-way line parallel with and 50 feet from center line of main track 228 feet, more or less, to point of Beginning and containing 1.66 acres, more or less. Excepted in condemnation suit.

3. 3.45 acres, more or less, conveyed by United States to County School Board of Botetourt County, Virginia, by deed dated October 30, 1946. Described by metes and bounds as follows:

Beginning at a point on the edge of the Virginia Highway No. 718 and the boundary line between the property of the Glen Wilton Corporation and the United States of America, also known as the Virginia Ordnance Works, Glen Wilton, Virginia, thence from said point of beginning parallel to and along said highway No. 718, North 59 degrees 45 minutes West 250 feet to a point; thence North 26 degrees 5 minutes East 600 feet to a point, thence South 59 degrees 45 minutes East 250 feet to a point on the property line between the said Glen Wilton Corporation and the said Virginia Ordnance Works Reservation; thence to and along said property line South 26 degrees 5 minutes West 600 feet to the point of beginning, containing 3.45 acres, more or less.

4. Lot No. 811 containing .70 of an acre, exclusive of the area in the road which is to be used in common with others, conveyed by the United States to Aubrey W. Keyser of Eagle Rock, Virginia by deed dated September 5, 1946. Described by metes and bounds as follows:

Beginning at a stake on the southern boundary of the 1830.62 acre tract owned by the United States of America corner to Lot No. 808 sold to Jake E. Fairburn and wife, running thence with the western boundary of Lot No. 808 North 34½ degrees East, crossing road, 270 feet to a stake corner to Lots No. 812, No. 809 and No. 808; thence with the southern boundary of Lot No. 812, North 54½ degrees West 150 feet to the line of Second Street; thence partly with the line of Second Street and partly with the eastern boundary of Lot No. 814, South 28 degrees West, crossing road, 280 feet to a stake in the aforesaid southern boundary of the 1830.62 acre tract; thence with said southern boundary, South 59 degrees 45 minutes East 116 feet to the beginning.

5. Lot No. 813 containing .60 of an acre, conveyed by the United States to Houston L. Thurston of Glen Wilton, Virginia, by deed dated September 5, 1946. Described by metes and bounds as follows:

Beginning at a stake corner to Lots No. 812, No. 809 and No. 810 and running thence with Lot No. 810, sold to Parker L. Dudley, North 34½ degrees East 162 feet; thence North 61½ degrees West 157 feet to Second Street; thence with the east side of Second Street South 28 degrees West 143 feet to a stake corner to Lot No. 812; thence with the northern boundary of Lot No. 812 South 50½ degrees East 153 feet to the beginning.

6. Lot No. 808 containing .90 of an acre, exclusive of the area in the road which is to be used in common with others, conveyed by the United States to Jake E. Fairburn and Margaret G. Fairburn, his wife, of Glen Wilton, Virginia, by deed dated September 5, 1946. Described by metes and bounds as follows:

Beginning at a stake on the southern boundary of the 1830.62 acre tract owned by the United States of America, said stake being on the west side of the road entering the property; thence with the west line of said road in a northwesterly direction 150 feet to the west side of First Street; thence with the west side of First Street North 36 degrees East 118 feet to a stake at the southeast corner of Lot No. 809; thence with same North 54½ degrees West 152 feet to a stake corner to Lots No. 809, No. 812 and No. 811; thence with Lot No. 811 sold to Aubrey W. Keyser South 34½ degrees West crossing the road 270 feet to a stake on the southern boundary of said 1830.62 acre tract; thence with said southern boundary South 54 degrees 45 minutes East 280 feet to the beginning.

7. Lot No. 807 containing .78 of an acre, conveyed by the United States to J. S. Thurston of Glen Wilton, Virginia by deed dated September 5, 1946. Described by metes and bounds as follows:

Beginning at a stake on the east side of First Street corner to the lot containing 0.78 of an acre, on which was located what was formerly known as the Superintendent's House of the Longdale Iron Company; thence with the northern boundary of said lot South 58½ degrees East 195 feet; thence North 13 degrees East 223 feet; thence North 61½ degrees West 151 feet to the east side of First Street; thence along east side of said First Street South 36 degrees West 213 feet to the place of beginning.

8. Lot No. 810 containing .66 of an acre, conveyed by the United States to Parker L. Dudley of Botetourt County, Virginia by deed dated September 5, 1946. Described by metes and bounds as follows:

Beginning at a stake on the west side of First Street corner to Lot No. 809 and running thence with the west side of First Street North 36 degrees East 172 feet to a stake; thence North 61½ degrees West 180 feet to a stake corner to Lot No. 813 sold to Houston L. Thurston; thence with the eastern boundary of said Lot No. 813, South 34½ degrees West 162 feet to a stake corner to Lots No. 813, No. 812 and No. 809; thence with the northern boundary of Lot No. 809; South 50½ degrees East 152 feet to the place of beginning.

9. Five parcels containing 75.06 acres, conveyed by the United States to Arnold M. Frazier and Lorene Frazier of Botetourt County, Virginia, by deed dated October 29, 1946. Described by metes and bounds as follows:

Tract No. 1 containing 70.98 acres. Beginning at a stake at the west corner of the school lot and thence with the outside line North 59 degrees 45 minutes West 1830 feet to the corner of lot formerly known as the Superintendent's House of the Longdale Iron Company; thence North 33 degrees East 190 feet; North 58½ degrees West 20 feet to the corner of Lot No. 807; and with the same North 19 degrees East 223 feet; North 61½ degrees West 151 feet to First Street; and with the same North 36 degrees East 152 feet; thence North 61½ degrees West 470 feet passing Lots No. 810, No. 813 and No. 815, to a stake corner to Lot No. 815, near the water tank; thence North 36 degrees East 60 feet to a stake in the center of the Dinkey R. R. and with the center of same South 78½ degrees East 100 feet; South 85½ degrees East 800 feet; North 88½ degrees East 100 feet; North 82 degrees East 239 feet to center of Plant Road; North 75¾ degrees East 100 feet; North 71 degrees East 100 feet; North 68 degrees East 100 feet; North 66 degrees East 200 feet; North 69½ degrees East 100 feet; North 83¾ degrees East 100 feet, South 87¾ degrees East 100 feet; South 77 degrees East 100 feet; South 64½ degrees East 100 feet; South 53½ degrees East 100 feet; South 42¼ degrees East 100 feet; South 31 degrees East 100 feet; South 28½ degrees East 1025 feet; to a stake in said Dinkey line; thence leave the Dinkey line South 46 degrees West 52 feet to corner; thence South 73 degrees 51 minutes West 137 feet to a Black oak; North 23 degrees 34 minutes West 61.4 feet to a black oak; thence South 26 degrees 05 minutes West 449 feet to a stake corner to the School lot; thence with the same North 59 degrees 45 minutes West 250 feet; South 26 degrees 05 minutes West 600 feet to the beginning, containing 70.98 acres according to a survey made March 26 1946.

Lot No. 809 containing .47 of an acre. Beginning at a stake on the west side of First Street corner to Lot No. 808 sold to Jake Fairburn; thence with the west side of said street North 36 degrees East 116 feet to a stake corner to Lot No. 810 sold to Parker L. Dudley; thence with the southern boundary of same North 50½ degrees West 152 feet to a stake corner to Lot No. 813 sold to Houston L. Thurston and Lot No. 812 hereinafter described; thence with the eastern boundary of Lot No. 812 South 34½ degrees West 123 feet to a stake corner to Lot No. 811 sold to Aubrey W. Keyser and Lot No. 808 sold to Jake Fairburn; thence with the northern boundary of Lot No. 808 South 54½ degrees East 150 feet to the beginning.

Lot No. 812 containing .44 of an acre. Beginning at a stake corner to Lot No. 809 described above, and corner to Lot No. 809 sold to Jake Fairburn and Lot No. 811 sold to Aubrey W. Keyser; thence with the western boundary of Lot No. 809 North 34½ degrees East 123 feet to a stake corner to Lot No. 810 sold to Parker L. Dudley and Lot No. 813 sold to Houston L. Thurston; thence with Lot No. 813 North 50½ degrees West 153 feet to a stake on the east side of Second Street; thence with the east side of Second Street South 28 degrees West 133 feet to a stake corner to Lot No. 811 sold to Aubrey W. Keyser; thence with the northern boundary of said Lot No. 811 South 54½ degrees East 150 feet to the beginning.

Lot No. 814 and a strip of land 75 feet by 380 feet adjoining said lot on the west, containing 2.17 acres, exclusive of the area in Second Street, which street is to be used in common with others. Beginning at a stake on the southern boundary of the 1830.62 acre tract owned by the United States, corner to Lot No. 811 sold to Aubrey W. Keyser; thence with the western boundary of said Lot No. 811 and partly with the western boundary of Lot No. 812 described above North 28 degrees East 360 feet to a stake on the east side of Second Street; thence North 53 degrees West to a stake on the west side of Second Street corner to Lot No. 815 hereinafter described; thence with the southern boundary of said Lot No. 815 North 53 degrees West 190 feet to the western boundary of Lot No. 814; thence North 53 degrees West 75 feet; thence South 36 degrees West, by a line parallel to the western boundary of Lot No. 814, 380 feet to the aforesaid southern boundary of the 1830.62 acre tract; thence with the same South 48 degrees East 75 feet to the western boundary of Lot No. 814; thence continuing with said southern boundary South 48 degrees East 32 feet to an iron pin and South 59¾ degrees East 225 feet to the beginning.

Lot No. 815 and a strip of land 75 feet by 194 feet adjoining said lot on the west, containing 1 acre. Beginning at a stake on the west side of Second Street corner to Lot No. 814 described above; thence with the west side of Second Street North 28 degrees East 205 feet to the southern boundary of Tract No. 1 described above; thence with said southern boundary North 61½ degrees West 173 feet to the westernmost corner of said Tract No. 1; and the northwestern corner of Lot No. 815; thence North 61½ degrees West 75 feet; thence South 36 degrees West by a line parallel to the western boundary of Lot No. 815 194 feet; thence South 53 degrees East 75 feet to the southwestern corner of Lot No. 815 corner to Lot No. 814 described above; thence with the northern boundary of Lot No. 814 South 53 degrees East 190 feet to the place of beginning. Lands being transferred by this Order to the jurisdiction of the Forest Service contain 1748.48 acres, more or less.

Subject to: 1. Existing easements for public roads, railroads, and public utilities therein; and

2. The interest conveyed by quitclaim deed dated October 29, 1946 from the United States to Arnold M. Frazier and Lorene Frazier, their heirs and assigns, both at law and in equity, in and to the log and wood dam and concrete dam located in the southern part of the 1830.62 acre tract known as the Virginia Ordnance Works near the Village of Glen Wilton, said dams being located about midway between the east and west boundaries of said tract. Also, all sources of water supplying said dams, four wells, water tank, and all pipe lines, mains, pumps, connections, pipes, valves, tanks, drains and facilities in connection with the operation of the water system on the aforesaid 1830.62 acre tract of land and with full right of ingress and egress at all times for the purpose of inspecting, constructing, maintaining, repairing, replacing, renovating and relocating any of the foregoing.

Whereas the Forest Service is desirous of acquiring administrative control and jurisdiction over the above described lands for administration as a part of the Jefferson National Forest and the acquisition has been approved by the National Forest Reservation Commission; and

Whereas, the Forest Service has caused the sum of $8200.37, which is the fair value of the lands, to be covered into the Treasury of the United States as miscellaneous receipts from funds appropriated by the Congress for the acquisition of lands under the provisions of the act of March 1, 1911 (36 Stat. 961), as amended:

Now therefore, the Federal Farm Mortgage Corporation, pursuant to the authority vested in it in the disposal of surplus agricultural or forest property, by virtue of delegations of authority issued pursuant to the provisions of the aforementioned act of 1944, does hereby transfer the aforesaid lands to the Forest Service as of this date.

In witness whereof, the Federal Farm Mortgage Corporation has, on this 13th day of December, 1946, caused these presents to be duly executed for and in its name and behalf and the seal of the said corporation to be hereunto affixed.

[Docket No. G-839]

MICHIGAN CONSOLIDATED GAS CO.

NOTICE OF APPLICATION

JANUARY 10, 1947.

Notice is hereby given that on December 26, 1946, an application was filed with the Federal Power Commission by Michigan Consolidated Gas Company (Applicant), a Michigan corporation with its principal place of business in Detroit, Michigan, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, to authorize Applicant to install additional wells, field lines and appurtenant facilities in Austin and Reed City fields, located near Big Rapids, Michigan, which fields, upon the completion of a proposed interstate natural-gas transmission pipeline project to be constructed and operated by Michigan-Wisconsin Pipe Line Company (Michigan-Wisconsin), are to be leased to and operated by and subsequently sold to Michigan-Wisconsin as gas storage fields as integral parts of said proposed pipeline project, all as hereinafter more particularly described. This application was filed pursuant to the Commission's order of November 30, 1946, in Docket No. G-669, "In the matter of Michigan-Wisconsin Pipe Line Company."

(a) Applicant seeks authorization to install the following described additional facilities in Austin Field:

(1) Twenty-seven gas wells, eight dry holes, forty wellhead-piping-and-structures units, forty well heaters, and appurtenant facilities;

(2) Field lines consisting of approximately 3,286 feet of 3-inch pipe, 17,393 feet of 4-inch pipe, 8,523 feet of 6-inch pipe, 6,295 feet of 8-inch pipe, 6,411 feet of 12-inch pipe, 1,244 feet of 16-inch pipe, and 200 feet of 24-inch pipe.

(b) Applicant seeks authorization to install the following described additional facilities, first group facilities, in Reed City Field:

(1) Twenty-five gas wells, twenty-five wellhead - piping - and - structures units, and appurtenant facilities;

(2) Field lines consisting of approximately 5,280 feet of 3-inch pipe, 8,580 feet of 4-inch pipe, 3,960 feet of 6-inch pipe, 6,600 feet of 8-inch pipe, 1,980 feet of 10-inch pipe, 1,320 feet of 12-inch pipe, and 22,012 feet of 24-inch pipe.

(c) Applicant seeks authorization to install the following described additional facilities, second group facilities, in Reed City Field:

(1) Thirty-four gas wells, fifty-nine wellhead - piping - and - structures units, eighty-three well heaters, and appurtenant facilities.

(2) Field lines consisting of approximately 15,780 feet of 3-inch pipe, 19,800 feet of 4-inch pipe, 13,320 feet of 6-inch pipe and 6,600 feet of 8-inch pipe.

Applicant states that prior to the aforementioned Commission's order of November 30, 1946, it had substantially completed the installation of the additional facilities in Austin Field, described in paragraphs (a) (1) and (a) (2) above and had completed the installation of a portion of the first group of additional facilities in Reed City Field described in paragraphs (b) (1) and (b) (2) above. It is further stated that the remainder of the facilities to be installed in Austin Field and of the first group of facilities to be installed in Reed City Field will be completed prior to January 1, 1948, and that the second group of facilities in the Reed City Field will be installed prior to January 1, 1952.

Applicant owns and operates Austin and Reed City fields and proposes to continue to operate these fields pending completion of the aforementioned proposed pipeline project to be constructed and operated by Michigan-Wisconsin, whereby natural gas is to be transported from the Hugoton Field in Texas and Oklahoma to various markets, including several districts of Applicant. Upon completion of this proposed pipeline project Michigan-Wisconsin will lease Austin and Reed City fields from Applicant and operate them as gas storage fields as integral parts of the proposed pipeline project, and will thereafter, on or before December 31, 1951, purchase such fields from Applicant. The lease, operation, and subsequent purchase of these fields by Michigan-Wisconsin are covered by a gas contract dated December 4, 1945, and a lease dated December 9, 1946, entered into between Michigan-Wisconsin and Applicant.

Applicant estimates the total over-all capital cost of all of the proposed facilities described herein to be $1,572,450, which it proposes to finance with funds from its own treasury. Of this amount, $502,250 has been expended by Applicant for that portion of the facilities described herein and already installed, leaving $1,070,200 as the total over-all capital cost of the facilities described herein which remain to be installed.

Any interested State commission is requested to notify the Federal Power Commission whether the application should be considered under the cooperative provisions of the Commission's rules of practice and procedure, and, if so, to advise the Federal Power Commission as to the nature of its interest in the matter and whether it desires a conference, the creation of a board, or a joint or concurrent hearing, together with the reasons for such request.

Any person desiring to be heard or to make any protest with reference to the application of Michigan Consolidated Gas Company should file with the Federal Power Commission, Washington 25, D. C., not later than fifteen days from the date of publication of this notice in the FEDERAL REGISTER, a petition or protest in accordance with the Commission's rules of practice and procedure.

[SEAL] LEON M. FUQUAY,
Secretary.

[Docket No. G-704]

TRANS-CONTINENTAL GAS PIPE LINE CO., INC.

NOTICE OF AMENDED APPLICATION

JANUARY 10, 1947.

Notice is hereby given that on December 11, 1946, Trans-Continental Gas Pipe Line Company, Inc. (Applicant), a corporation organized and existing under the laws of the State of Texas and having its principal place of business at Longview, Texas, filed with the Federal Power Commission "its First Amended Application in lieu of its Original Application filed herein on March 1, 1946" [1] and applies for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, authorizing the construction and operation of the following described facilities:

(1) A 26-inch transmission line beginning at a point in the Old Ocean Gas Field, near Houston in Brazoria County, Texas, and proceeding northeasterly a distance of 200 miles to Applicant's proposed Compressor Station No. 1, located near the town of Hemphill in Sabine County, Texas. This 26-inch pipe line will have a capacity of 200,000,000 cu. ft. of gas per day.

(2) A 20-inch transmission line beginning from a point near the town of Carthage in the Carthage Gas Field, Panola County, Texas, and proceeding thence in a southeasterly direction a distance of approximately 65 miles to Applicant's proposed Compressor Station No. 1, near the town of Hemphill in Sabine County, Texas. This 20-inch transmission line will have a capacity of 225,000,000 cu. ft. of gas per day.

(3) A 26-inch transmission line beginning at Applicant's proposed Compressor Station No. 1, which is located near the town of Hemphill, in Sabine County, Texas, thence in a northeasterly direction a distance of approximately 1380 miles to various points of delivery located in the Eastern Seaboard area of the states of New York, New Jersey, Pennsylvania, Delaware and Maryland. This 26-inch transmission line will have a delivery capacity at its eastern end of 325,000,000 cu. ft. of gas per day.

(4) A 12-inch transmission line beginning at a point near the town of Pledger, in the Pledger Gas Field, Brazoria County, Texas, thence in a southeasterly direction a distance of approximately seven miles terminating at the intersection with the 26-inch transmission line described in paragraph (1). This 12-inch transmission line will have a capacity of 50,000,000 cu. ft. of gas per day.

(5) A 16-inch transmission line beginning at a point near the town of Alvin, in the Chocolate Bayou Gas Field, Brazoria County, Texas, thence in a northwesterly direction a distance of approximately 24 miles terminating at the intersection with the 26-inch transmission line described in paragraph (1). This 16-inch transmission line will have a capacity of 50,000,000 cu. ft. of gas per day.

(6) A 14-inch transmission line beginning at Applicant's proposed 26-inch transmission line described in paragraph (3), near the town of Baltimore, Maryland, in Baltimore County, Maryland, thence in a southeasterly direction a distance of approximately five miles to a point near the city limits of Baltimore, Maryland. This 14-inch transmission line will have a capacity of approximately 50,000,000 cu. ft. of gas per day.

(7) A 10-inch transmission line beginning at Applicant's proposed 26-inch transmission line described in paragraph (3) near the town of Kennett Square, Pennsylvania, in Chester County, Pennsylvania, thence in a southeasterly direction a distance of approximately 12 miles to a point near the city limits of Wilmington, Delaware. This 10-inch transmission line will have a capacity of approximately 20,000,000 cu. ft. of gas per day.

(8) A 12-inch transmission line beginning at Applicant's proposed 26-inch transmission line described in paragraph (3) near the town of Newton Square, Pennsylvania, in Chester County, Pennsylvania, thence in a southeasterly direction a distance of approximately 10 miles to a point near the south city limit of the city of Philadelphia, Pennsylvania. This 12-inch transmission line will have a capacity of approximately 40,000,000 cu. ft. of gas per day.

(9) A 12-inch transmission line beginning at Applicant's proposed 26-inch transmission line described in paragraph (3), near the town of Horsham, Pennsylvania, in Montgomery County, Pennsylvania, thence in a southeasterly direction a distance of approximately 10 miles to a point near the north city limits of Philadelphia, Pennsylvania. This 12-inch transmission line will have a capacity of approximately 40,000,000 cu. ft. of gas per day.

(10) An 8-inch transmission line beginning at Applicant's proposed 26-inch transmission line described in paragraph (3), near the town of Titusville, New Jersey, in Mercer County, New Jersey, thence in a southeasterly direction a distance of approximately eight miles to a point near the city limits of Trenton New Jersey. This 8-inch transmission line will have a capacity of approximately 10,000,000 cu. ft. of gas per day.

(11) A Compressor Station with eleven 1,000 horsepower units, together with the necessary equipment for the operation of same, which is to be located near the town of Hemphill, in Sabine County, Texas, with a capacity of 362,223,000 cu. ft. of gas per day.

(12) A Compressor Station with ten 1000 horsepower units, together with the necessary equipment for the operation of same, which is to be located approximately 13 miles in a southeasterly direction from the town of Winfield, Louisiana, near U. S. Highway 167, in Grant Parish, Louisiana, with a capacity of 359,206,080 cu. ft. of gas per day.

(13) A Compressor Station with ten 1000 horsepower units, together with the necessary equipment for the operation of same, which is to be located approximately 16 miles in a southerly direction from Tallulah, Louisiana, near U. S. Highway 65, in Madison Parish, Louisiana, with a capacity of 356,315,000 cu. ft. of gas per day.

(14) A Compressor Station with ten 1000 horsepower units together with the necessary equipment for the operation of same, which is to be located approximately seven miles in a southeasterly direction from the town of Canton, Mississippi, near State Highway 18, in Madison County, Mississippi, with a capacity of 353,349,000 cu. ft. of gas per day.

(15) A Compressor Station with ten 1000 horsepower units, together with the necessary equipment for the operation of same, which is to be located approximately 13 miles in a southeasterly direction from the town of Macon, Mississippi, near U. S. Highway 45, in Noxubee County, Mississippi, with a capacity of 350,407,000 cu. ft. of gas per day.

[1] On March 1, 1946, Trans-Continental Gas Pipe Line Company, Inc., filed an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, for authority to acquire, construct and operate facilities for the transportation and sale of natural gas in interstate commerce, subject to the jurisdiction of the Commission.

Applicant then proposed to purchase from the War Assets Corporation the Big Inch, Little Big Inch and Southwest Emergency Pipe Lines, and to construct all necessary facilities including extensions necessary to convert such pipe lines to gas transmission.

In the application, it was stated that in the event Applicant is not successful in purchasing the Big Inch, Little Big Inch and Southwest Emergency Pipe Lines, it proposes to construct a 26-inch pipe line from Corpus Christi, Texas, to the States of Pennsylvania, New Jersey and New York with an initial full load capacity of 300 million cubic feet per day. It is also proposed that such line will be looped by a 26-inch line as the market develops and facilities permit in order to insure continuous service.

(16) A Compressor Station with ten 1000 horsepower units, together with the necessary equipment for the operation of same, which is to be located approximately seven miles in a southerly direction from Bessemer, Alabama, near U. S. Highway 11, in Jefferson County, Alabama, with a capacity of 347,490,000 cu. ft. of gas per day.

(17) A Compressor Station with ten 1000 horsepower units, together with the necessary equipment for the operation of same, which is to be located approximately three miles in a northeasterly direction from the town of Edwardsville, Alabama, near U. S. Highway 78, in Cleburne County, Alabama, with a capacity of 344,597,000 cu. ft. of gas per day.

(18) A Compressor Station with ten 1000 horsepower units, together with the necessary equipment for the operation of same, which is to be located approximately five miles in an easterly direction from the town of Buford, Georgia, near U. S. Highway 23, in Gwinnett County, Georgia, with a capacity of 341,728,000 cu. ft. of gas per day.

(19) A Compressor Station with ten 1000 horsepower units, together with the necessary equipment for the operation of same, which is to be located approximately two miles in an easterly direction from the town of Piedmont, South Carolina, near State Highway 86, Anderson County, South Carolina, with a capacity of 338,872,000 cu. ft. of gas per day.

(20) A Compressor Station with ten 1000 horsepower units, together with the necessary equipment for the operation of same, which is to be located approximately 10 miles in an easterly direction from the town of Lincolnton, North Carolina, near State Highway 16, in Lincoln County, North Carolina, with a capacity of 336,052,000 cu. ft. of gas per day.

(21) A Compressor Station with ten 1000 horsepower units, together with the necessary equipment for the operation of same, which is to be located approximately four miles in a northwesterly direction from the town of Reidsville, North Carolina, near State Highway 87, in Rockingham County, North Carolina, with a capacity of 333,254,000 cu. ft. of gas per day.

(22) A Compressor Station with ten 1000 horsepower units, together with the necessary equipment for the operation of the same, which is to be located approximately five miles in a westerly direction from the town of Buckingham, Virginia, near U. S. Highway 60, in Buckingham County, Virginia, with a capacity of 330,480,000 cu. ft. of gas per day.

(23) A Compressor Station with ten 1000 horsepower units, together with the necessary equipment for the operation of same, which is to be located approximately five miles in a southerly direction from Manassas, Virginia, near State Highway 234, in Prince William County, Virginia, with a capacity of 327,729,000 cu. ft. of gas per day.

(24) A Compressor Station with ten 1000 horsepower units, together with the necessary equipment for the operation of same, which is to be located approximately four miles in a westerly direction from the town of Dublin, Maryland, near State Highway 440, in Hartford County, Maryland, with a capacity of 325,000,000 cu. ft. of gas per day.

(25) A Gas Dehydration Plant, which is to be located in the Carthage Gas Field, Panola County, Texas, with a capacity of 115,000,000 cu. ft. of gas per day.

(26) A second Gas Dehydration Plant, which is to be located in the Carthage Gas Field, Panola County, Texas, with a capacity of 115,000,000 cu. ft. of gas per day.

(27) A Gas Dehydration Plant, which is to be located in the Old Ocean Gas Field, Brazoria County, Texas, with a capacity of 100,000,000 cu. ft. of gas per day.

(28) A Gas Dehydration Plant, which is to be located in the Chocolate Bayou Gas Field, Brazoria County, Texas, with a capacity of 50,000,000 cu. ft. of gas per day.

(29) A Gas Dehydration Plant, which is to be located in the Pledger Gas Field, Brazoria County, Texas, with a capacity of 50,000,000 cu. ft. of gas per day.

(30) A Sales Gas Meter Station, which is to be located near the junction of 122d Street and the Hudson River, New York City, New York, with a capacity of 150,000,000 cu. ft. of gas per day.

(31) Four Sales Gas Meter Stations, which are to be located at various points near Newark, New Jersey, each to have a capacity of 30,000,000 cu. ft. of gas per day, or a combined capacity of 120,000,000 cu. ft. of gas per day.

(32) A Sales Meter Station, which is to be located near Trenton, New Jersey, with a capacity of 10,000,000 cu. ft. of gas per day.

(33) A Sales Gas Meter Station, which is to be located near Elizabeth, New Jersey, with a capacity of 10,000,000 cu. ft. of gas per day.

(34) Eight Sales Gas Meter Stations, which are to be located near Philadelphia, Pennsylvania, four of which will have a capacity of 20,000,000 cu. ft. of gas per day each. The other four will have a capacity of 10,000,000 cu. ft. of gas per day each. The total capacity of the eight Sales Gas Meter Stations will be 120,000,000 cu. ft. of gas per day.

(35) A Sales Gas Meter Station, which is to be located near Wilmington, Delaware, with a capacity of 10,000,000 cu. ft. of gas per day.

(36) A Sales Gas Meter Station, which is to be located near Baltimore, Maryland, with a capacity of 20,000,000 cu. ft. of gas per day.

(37) Five Gathering System Meter Stations, which are to be located at various points in the Carthage Gas Field, Panola County, Texas, with a capacity of 50,000,000 cu. ft. of gas per day each, or a total capacity of 250,000,000 cu. ft. of gas per day.

(38) A Gathering System Meter Station, which is to be located in the Old Ocean Gas Field, Brazoria County, Texas, with a capacity of 100,000,000 cu. ft. of gas per day.

(39) A Gathering System Meter Station, which is to be located in the Pledger Gas Field, Brazoria County, Texas, with a capacity of 50,000,000 cu. ft. of gas per day.

(40) A Gathering System Meter Station, which is to be located in the Chocolate Bayou Field, Brazoria County, Texas, with a capacity of 50,000,000 cu. ft. of gas per day.

(41) A Check Meter Station, which is to be located at Applicant's proposed Compressor Station No. 1, near the town of Hemphill in Sabine County, Texas, with a capacity of 365,264,000 cu. ft. of gas per day.

(42) A Check Meter Station, which is to be located at Applicant's proposed Compressor Station No. 14, near the town of Dublin, in Hartford County, Maryland, with a capacity of approximately 325,000,000 cu. ft. of gas per day.

The following statements, among others, are made in the application concerning the proposed project:

Applicant is a new corporation, recently organized for the sole purpose of buying, constructing and operating the pipe lines hereinbefore described for the transportation of sweet natural gas. Applicant owns no gas producing, manufacturing or distributing properties and has no other interest except that which is connected with this proposed project.

Applicant will, at the proper time, make application to do business in States of Louisiana, Mississippi, Alabama, Georgia, South Carolina, North Carolina, Virginia, Maryland, Delaware, Pennsylvania, New Jersey and New York.

The proposed facilities are designed to deliver at the eastern terminal approximately 325,000,000 cu. ft. of gas per day, using all the facilities described herein. The pressure at the delivery end of the line will be maintained at approximately 400 psig, by the use of Compressor Stations installed at regular intervals, compressing the gas to 800 psig. The line will be installed with the ultimate compressor capacity and will begin operation delivering the maximum flow. The line capacity can be increased by looping and adding compressor horsepower. These facilities can be installed as the need for gas is developed in the market area. It is contemplated that Applicant will operate its proposed facilities at a load factor of at least 92% during all of the months of the year.

Applicant proposes to supply the requirements of the proposed line from residue gas produced in connection with oil now being vented to the air for lack of a market, and from high pressure gas distillate wells located in Panola and Brazoria Counties, Texas. Applicant will require the various producers to furnish gas reserves of 1,500,000 cu. ft. for each 1,000,000 cu. ft. of gas which they will be obligated to furnish applicant under their gas contracts.

Applicant is negotiating for reserves from operators and owners in Panola County, Texas for 1,459,606,000,000 cu. ft. of gas. Applicant is negotiating for reserves from owners and operators in Brazoria County, Texas of 3,915,000,000,000 cu. ft. of gas. Under the proposed rated withdrawal Applicant will have reserves to supply gas at the rate of 365,264,000 cu. ft. of gas per day for approximately 40 years. In addition to gas reserves from Panola and Brazoria Counties, Applicant is negotiating for reserves of 830,000,000,000 cu. ft. of gas from Harrison and Marion Counties, Texas.

Applicant will reserve 25% of the capacity of the proposed line for flare and residue gas.

It is proposed by Applicant to supply natural gas to major gas companies now supplying the consumers market in the eastern seaboard area of the States of New York, Pennsylvania, New Jersey, Delaware and Maryland. Applicant has negotiated for contracts for the sale of natural gas to the following companies in this area:

Consolidated Edison Co., New York, N. Y.
Brooklyn Union Gas Co., Brooklyn, N. Y.
Public Service Corp., Newark, N. J.
Philadelphia Gas Works Co., Philadelphia, Pa.
Philadelphia Electric Co., Philadelphia, Pa.
Consolidated Gas Electric & Power Co., Baltimore, Md.
Delaware Power & Light Co., Wilmington, Del.
Elizabeth Consolidated Gas Co., Elizabeth, N. J.

In addition to these companies various other companies and industries in the area will be served wherever the economics justify the construction of facilities to serve them.

The natural gas supplied to these companies will be used mainly for enrichment and reforming in connection with their manufactured gas product. The area is presently being served with various combinations of carbonated water gas, coke oven gas and refinery gas.

Applicant has agreed with the utilities serving the territory to expand the market for domestic and superior use of natural gas. In negotiations with utility companies Applicant and the utility companies have tentatively agreed upon a contract whereby the only gas not used for enriching or reforming purposes in connection with their manufacturing and distributing business will be used by them during off heating season in their electric generating stations.

The proposed rate at which this gas is to be sold to all distributing companies in the eastern seaboard area is or will be on a rate schedule basis equivalent to 2.25¢ per therm when the total contract volume of each company is taken for the month.

The total estimated overall capital cost of Applicant's project including working capital is $130,000,000. Applicant proposes to issue $12,000,000 of Common Stock, all of which will be subscribed to by Applicant's present stockholders; $15,000,000 of 4½% Preferred Stock which will be privately sold by one of the investment houses Applicant is negotiating with; $78,000,000 of First Mortgage Bonds which will be sold to a number of Insurance Companies with whom Applicant is now negotiating; and bank loans of $25,000,000 from banks in Texas and New York with whom Applicant is now negotiating. Applicant does not contemplate a public offering of its stock or securities. A small brokerage fee, not exceeding 3%, will be paid the investment house that sells privately Applicant's Preferred Stock. No fee will be paid for the sale of Bonds to the Insurance Companies or for the bank loans.

Applicant proposes to begin surveying, preparing rights-of-way maps, buying rights-of-way, compressor station sites, ordering materials, etc. immediately after the granting of the Certificate of Public Convenience and Necessity. Applicant proposes to begin construction of said facilities within 90 days after the granting of Certificate of Public Convenience and Necessity, and to complete construction of said facilities within 18 months thereafter.

Any interested State commission is requested to notify the Federal Power Commission whether the application should be considered under the cooperative provisions of the Commission's rules of practice and procedure, and, if so, to advise the Federal Power Commission as to the nature of its interest in the matter and whether it desires a conference, the creation of a board, or a joint or concurrent hearing, together with the reasons for such request.

Any person desiring to be heard or to make any protest with reference to the application of Trans-Continental Gas Pipe Line Company, Inc. should file with the Federal Power Commission, Washington 25, D. C., not later than fifteen days from the date of the publication of this notice in the FEDERAL REGISTER, a petition or protest in accordance with the Commission's rules of practice and procedure.

[Docket No. G-234]

BORDER PIPE LINE CO.

ORDER FIXING DATE OF HEARING

JANUARY 10, 1947.

It appears to the Commission that:

(a) On February 11, 1942, Border Pipe Line Company ("Applicant"), a Delaware corporation with its principal legal office at Wilmington, Delaware, and its operating office at Houston, Texas, filed an application (Docket No. G-234) for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, authorizing it to construct and operate certain facilities in the State of Texas, particularly described as follows:

(i) A 1,100 H. P. compressor station at a point in the northwesterly portion of Jim Hogg County, Texas.

(ii) An 8⅝-inch pipe line, approximately 38 miles in length, extending from such compressor station in a northwesterly direction to a point at or near the easterly bank of the Rio Grande River approximately seven miles south of Laredo, Texas, and attendant metering and regulating equipment.

(b) Prior to the filing of such application, Applicant, on February 2, 1942, filed an application pursuant to section 3 of the Natural Gas Act (Docket No. G-228) for an order authorizing it to export natural gas from the United States to Mexico by means of the above-described facilities. Applicant proposed that the gas to be exported would be produced in San Salvador Field, Hidalgo County, Texas, and would be transported by means of facilities of Rio Grande Valley Gas Company to the aforementioned compressor station in Jim Hogg County, whence Applicant would transport the gas to the aforementioned point south of Laredo, Texas, at or near the easterly bank of the Rio Grande River. There, Applicant would sell the same to American Smelting and Refining Company ("American Company") for transportation to, and consumption at, a zinc smelter of American Company in La Rosita, Mexico.

(c) On February 26, 1942, and June 17, 1942, respectively, Applicant and American Company filed applications for Presidential Permits, pursuant to Executive Order No. 8202, for the construction, operation, maintenance and connection, at the international boundary of the United States, and at the aforementioned location approximately seven miles south of Laredo, Texas, of facilities for the exportation of natural gas to Mexico (Docket No. G-228). On September 14, 1942, American Company filed an application (Docket No. G-228) in which it joined in the application of Border Pipe Line Company for an order authorizing the exportation of natural gas.

(d) On October 10, 1942, the Commission issued an order in Docket No. G-228 which, as modified by a supplemental order on November 4, 1942, authorized Applicant and American Company to export natural gas from the United States to Mexico for a period of 10 years from October 10, 1942, upon certain conditions therein specified. Presidential Permits, approved by the President on September 29, 1942, were in due course issued to Applicant and American Company, authorizing the construction, operation, maintenance and connection, at the border of the United States, of the proposed facilities to be there located.

(e) Thereafter, Applicant proceeded to construct its proposed facilities above-described, which included the facilities authorized under the Presidential Permit issued to it. In June 1943, Applicant commenced, and has since continued, to operate the same in the manner and for the purposes proposed by it, as above referred to.

(f) On November 8, 1945, the Secretary of the Commission addressed a letter to Applicant, notifying said company that on December 12, 1945, oral argument would be had before the Commission at Washington, D. C., "In the Matter of Reynosa Pipe Line Company," Docket Nos. G-594, G-595 and G-596, respecting the question whether a company which is engaged in the transportation of natural gas from the United States to a foreign country is a "natural-gas company" within the meaning of the Natural Gas Act, and subject to the provisions of section 7 thereof, as amended; and inviting Border Pipe Line Company to participate in such oral argument. Argument before the Commission upon the stated question was had at the time and place fixed, Applicant not participating therein. On June 6, 1946, in Docket No. G-595, the Commission rendered Opinion No. 135, in which it held that a company is required to obtain a certificate of public convenience and necessity pursuant to section 7 of the act, as amended, authorizing the construction and operation, within the boundaries of a single State, of facilities for the transportation of natural gas for public consumption in a foreign country. On December 17, 1946, in accordance with such opinion, the Commission entered an order whereby it found that Reynosa Pipe Line Company would be a "natural-gas company" within the meaning of that term as used in the Natural Gas Act upon engaging in the transportation and sale of natural gas for public consumption in Mexico by means of facilities which that company proposed to construct from a point within Texas to the international boundary between the United States and Mexico, and whereby the Commission issued a certificate of public convenience and necessity to Reynosa Pipe Line Company authorizing the construction and operation of such facilities (Docket No. G-748).

(g) Good cause exists for setting a hearing date respecting the issues presented by the application in Docket No. G-234.

(h) Said proceeding is a proper one for disposition by abridged hearing procedure.

The Commission, therefore, orders that:

(A) A public hearing be held commencing on January 27, 1947, at 9:45 a. m. (e. s. t.), in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue, N. W., Washington, D. C., concerning the matters of fact and law asserted in the application filed in Docket No. G-234: *Provided, however,* That if no request to be heard, or protest or petition to intervene raising in the judgment of the Commission an issue of substance, has been filed or allowed prior to the date hereinbefore set for hearing, the Commission may, after a noncontested hearing, forthwith dispose of the proceeding by order upon consideration of the application and the evidence filed therewith and incorporated in the record of the proceeding, together with such additional evidence as may be available or as the Commission may require to be filed and incorporated in the record for its consideration.

(B) Interested State commissions may participate in this hearing as provided in the Commission's rules of practice and procedure.

Date of issuance: January 13, 1947.

By the Commission. Commissioner Draper dissented, stating that it is his view that Border Pipe Line Company is not now and will not be a "natural-gas company" under the provisions of the Natural Gas Act by reason of the operation of the facilities necessary to export natural gas as long as those facilities are used exclusively for performing the service authorized and the company does not engage in the sale of gas for resale or the transportation of gas for others within the United States by means of such facilities.

[Docket No. IT-6024]

FLORIDA POWER CORP.

ORDER SUSPENDING RATE SCHEDULE AND FIXING DATE OF HEARING

JANUARY 10, 1947.

It appears to the Commission that:

(a) Florida Power Corporation has on file an agreement and rate schedule designated in the files of the Commission as Florida Power Corporation Rate Schedule FPC No. 16, providing for the sale and delivery of electric energy by Florida Power Corporation to the City of Quincy, Florida, for resale.

(b) By letter dated November 6, 1946, Florida Power Corporation submitted to the Commission for filing a superseding agreement and rate schedule dated October 14, 1946, between Florida Power Corporation and the City of Quincy, Florida, designated as Florida Power Corporation Rate Schedule FPC No. 21, providing for changes in the rates and charges for the sale and delivery of electric energy by Florida Power Corporation to the City of Quincy, Florida.

(c) Since Rate Schedule FPC No. 21, dated October 14, 1946, was not accompanied by the information required by the Commission's rules of practice and regulations under the Federal Power Act to be filed with proposed changes in rates, Florida Power Corporation was advised of this omission by letter dated November 25, 1946, and requested to submit the required information. On December 13, 1946, Florida Power Corporation's response was received. Without waiving full compliance with the rules of practice and regulations this rate schedule was accepted for filing on December 13, 1946.

(d) By letters dated November 8, 1946 and November 30, 1946, the City of Quincy, Florida, advised the Commission of its objections to certain changes embraced in Rate Schedule FPC No. 21.

(e) Unless suspended by order of the Commission, Florida Power Corporation Rate Schedule FPC No. 21 will become effective as of January 13, 1947, pursuant to the provisions of the Federal Power Act and the rules of practice and regulations thereunder.

(f) The change in rates or charges provided for by Florida Power Corporation Rate Schedule FPC No. 21 may result in excessive rates or charges to the City of Quincy, Florida; may place an undue burden upon ultimate consumers of electric energy; may be discriminatory; and may result in increased rates or charges which have not been shown to be justified.

The Commission finds that: It is necessary, desirable and in the public interest that the Commission enter upon a hearing concerning the lawfulness of the proposed increased rates or charges and that said proposed rates or charges be suspended pending such hearing and the decision thereon.

The Commission, upon its own motion, orders that:

(A) A public hearing be held on March 3, 1947, at 10:00 a. m., in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C., concerning the lawfulness of the rates or charges provided for in Florida Power Corporation Rate Schedule FPC No. 21 for the sale and delivery of electric energy to the City of Quincy, Florida, for resale.

(B) Pending such hearing and decision thereon, the operation of the schedule of increased rates or charges for the sale of electric energy for resale provided for in said Florida Power Corporation Rate Schedule FPC No. 21 be and the same is hereby suspended and the use of such rates or charges deferred for a period of five months beyond January 13, 1947, unless the Commission shall otherwise order.

(C) During the said period of suspension the rates or charges now being collected and received by Florida Power Corporation from the City of Quincy, Florida, as provided in Florida Power Corporation Rate Schedule FPC No. 16, shall remain and continue in effect, insofar as they apply to the sale of electric energy for resale.

(D) At such hearing, the burden of proof to show that the proposed increased rates or charges are just and reasonable shall be upon the Florida Power Corporation.

Date of issuance: January 13, 1947.

By the Commission.

LEON M. FUQUAY,
Secretary.

OFFICE OF TEMPORARY CONTROLS

Civilian Production Administration

[C-440]

A. J. ORSI

CONSENT ORDER

A. J. Orsi of 40 East Mariposa Street, Stockton, California, was charged with having begun construction on a structure at 1700 Pacific Avenue, Stockton, California, consisting of the erection of a new building at an estimated cost of $75,000, without authorization from the Civilian Production Administration, and has expended in carrying on the construction the sum of $9,980.17, in violation of Veterans' Housing Program Order No. 1.

A. J. Orsi admits the violation as charged, does not desire to contest the same, and has consented to the issuance of this order.

Wherefore, upon the agreement and consent of A. J. Orsi, the Regional Compliance Director, and the Regional Attorney, and upon the approval of the Compliance Commissioner, *It is hereby ordered*, That:

(a) Neither A. J. Orsi, his successors or assigns, nor any other person under his direction shall do any further construction on the structure at 1700 Pacific Avenue, Stockton, California, including the putting up, completing or altering the structure, unless hereafter specifically authorized by the Civilian Production Administration.

(b) A. J. Orsi shall refer to this order in any application or appeal, which he may file with the Civilian Production Administration to carry on construction.

(c) Nothing contained in this order shall be deemed to prevent the processing on its merits of any application for authorization which may be filed by A. J. Orsi with the Construction Division of the Civilian Production Administration.

(d) Nothing contained in this order shall be deemed to relieve A. J. Orsi, his successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the Civilian Production Administration, except insofar as the same may be inconsistent with the provisions hereof.

This order shall take effect on January 15, 1947, and shall continue during the existence of the present controls on commercial building or unless sooner authorized by the Civilian Production Administration.

Issued this 15th day of January 1947.

It is stated in the application that Plans I, II and III are filed as amendments to and in substitution for Plans A, B and C, dated April 18, 1946, heretofore filed pursuant to section 11 (e) and presently pending before the Commission.

All interested persons are referred to said Amended Plans which are on file at the office of this Commission for a statement of the transactions therein proposed which may be summarized as follows:

PLAN I

After effecting a settlement between North American Light & Power Company (Light & Power), a registered holding company, and its subsidiary, Illinois Power Company (Illinois Power), a registered holding company, and North American of all claims and counterclaims

affecting Illinois Power on the basis hereinafter summarized, it is proposed that Light & Power be dissolved, the claims between Light & Power and North American be settled and the affairs of Light & Power be wound up.

Settlement of claims and counterclaims affecting Illinois Power. It is stated that Illinois Power, Light & Power and North American have agreed, subject to requisite approvals, to the settlement of all claims and counter claims affecting Illinois Power on the following basis (All interested persons are referred to Holding Company Act Releases Nos. 3940, 4378 and 6144, among others, for a summarization of the various claims and counterclaims):

1. There will be rescinded the transaction in 1932 whereby Illinois Power acquired from Light & Power certain securities of Central Terminal Company. Illinois Power will return to Light & Power all securities of Central Terminal Company now held and Light & Power will pay $6,800,000 in cash to Illinois Power.

2. Light & Power will exercise one-half of the 300,000 warrants which it holds entitling it to purchase Illinois Power common stock at $30 per share and purchase 150,000 shares of Illinois Power common stock for $4,500,000, and will surrender to Illinois Power for cancellation, unexercised, its remaining holdings of 150,000 warrants.

3. The power contract between Union Electric Power Company, an indirect subsidiary of North American, and Illinois Power will be revised in accordance with an agreement between these two Companies.

4. Plan C of North American will be amended to eliminate the provisions for integration of Illinois Power with Union Electric Company of Missouri, a subsidiary of North American, and the provisions for acquisition by North American of the publicly-held stock of Illinois Power. Light & Power and North American will divest themselves of all holdings of securities of Illinois Power.

5. The transactions outlined in paragraphs 1, 2 and 3 above are to be consummated on or before February 28, 1947 unless further extended by mutual consent.

6. Until completion of the transactions outlined in paragraphs 1 to 4 above, the agreement of settlement will not be ground for change or modification of the outstanding order of the Commission restraining Light & Power and North American from voting Illinois Power stock held by them for the election of directors of Illinois Power.

Settlement of claims between Light & Power and North American. It is stated that Light & Power and North American have agreed to the settlement of all claims between them, subject to requisite approvals, on the basis of the provisions of Plan I outlined below. (All interested persons are referred to Holding Company Act Releases Nos. 5687, 5791 and 6144 among others, for a summarization of such claims.)

Steps proposed to be taken under Plan I. To carry out the Plan, the following steps are proposed:

1. That Illinois Power return to Light & Power all securities of Central Terminal Company now held by Illinois Power.

2. That Light & Power pay Illinois Power $6,800,000 in cash.

3. That Light & Power acquire from Illinois Power, on original issue, 150,000 additional shares of Illinois Power common stock upon payment of $4,500,000 cash at the warrant price of $30 per share in exercise of one-half of the warrants for the purchase of Illinois Power common stock held by Light & Power; and that Light & Power surrender to Illinois Power for concellation, unexercised, the remaining warrants covering 150,000 shares of Illinois Power Company stock.

4. That Light & Power be dissolved.

5. That the outstanding publicly-held 109,255 shares of preferred stock of Light & Power be liquidated and retired by payment in cash of the liquidation price therefor provided in the charter of Light & Power in the case of dissolution, viz., $100 per share, together with all unpaid cumulative dividends in arrears (amounting to $87 as of December 31, 1946) thereon accrued to the date fixed for payment thereof.

6. That the outstanding publicly-held 960,992 shares of common stock of Light & Power be liquidated and retired by payment in cash of $7.50 per share.

7. That North American advance to Light & Power funds needed by Light & Power after application of its treasury cash to make the payments to Illinois Power and to liquidate and retire its publicly-held preferred and common stocks as above provided.

8. That after providing for the payments to Illinois Power and the public holders of Light & Power securities and the liabilities of Light & Power other than to North American, the remaining net assets of Light & Power be distributed to North American as the sole remaining creditor and stockholder of Light & Power and the obligation of Light & Power to North American for funds advanced for purposes of the Plan be discharged and all securities of Light & Power held by North American be surrendered for retirement.

Mode of consummation. At such time as the Commission may approve the Plan, North American will request the Commission, pursuant to section 11 (e) of the act, to apply to a Federal court, in accordance with the provisions of section 18 (f) of the act, to enforce and carry out the terms and provisions of the Plan. The consummation of the Plan is made subject to certain conditions and reservations including such rulings and closing agreements as to taxes as North American may require.

PLAN II

North American states that the purpose of Plan II is to obtain the funds needed to pay off its outstanding bank loans ($45,125,000 as of December 31, 1946) and needed to advance to Light & Power to enable it to complete its liquidation as outline in Plan I.

To accomplish such purpose it is proposed that North American divest itself from time to time of securities held by it which will be sold through pro-rata offerings to its stockholders, through public offerings or through negotiated sales to private purchasers, or that temporary bank loans may be made.

Concurrently with the filing of its Amended Plans, North American filed an application-declaration with the Commission relating to the proposed issuance to its stockholders of transferable Purchase Warrants to purchase Common Stock of The Cleveland Electric Illuminating Company presently held by North American. This application-declaration has been more fully summarized in a separate notice and order for hearing dated January 10, 1947, Holding Company Act Release No. 7123, setting the matter for hearing on January 23, 1947.

PLAN III

North American states that the purpose of Plan III is to effect the divestment by North American of its public-utility holding company system. The plan contemplates that North American with the approval of the Commission and of its stockholders will continue with reduced assets as a corporate enterprise not engaged in the public utility field.

To accomplish such purpose it is proposed that within one year North American will divest itself of its investment in all its public-utility subsidiaries including Union Electric Company of Missouri and in any other public-utility companies or holding companies now held or which it may receive through dissolution of Light & Power.

It is stated that the Company reserves the right to sell any or all of its holdings through pro-rata offerings to stockholders, public offerings or negotiated sales, and it is expected that part of the securities held by North American will be distributed to the stockholders of North American without payment by them. It is further stated that at an appropriate time a plan will be prepared by North American for its continuance with reduced assets as a corporate enterprise not engaged in the public utility field and that such plan will contain provision for the withdrawal of any dissenting stockholder upon the surrender of his stock and for the payment to him of his pro-rata share in the remaining net assets.

Notice is further given that Light & Power has filed an application requesting that the Commission permit Light & Power to substitute Plan I of North American for the following matters filed by Light & Power and presently pending before the Commission:

1. An application to exercise 300,000 warrants for the purchase of 300,000 shares of Common Stock of Illinois Power (File No. 70-1333).

2. An application for the approval of an amendment to its section 11 (e) plan (designated as First Amendment to Application No. 11) providing for the retirement of all its preferred stock by distributing to each share of said preferred stock 3 shares of Common Stock of The Kansas Power and Light Company and 1½ shares of Common Stock of Northern Natural Gas Company (File No. 54-50).

3. An application for the approval of an amendment to its section 11 (e) plan (designated as Second Amendment to Application No. 11) providing for the distribution of its assets to its common stockholders after the retirement of its preferred stocks and the payment of its outstanding debentures, with accrued interest thereon (File No. 54-50).

Light & Power requests that the substitution of Plan I for the foregoing filings be to the extent that such filings are in conflict with said Plan I.

Notice is further given that Illinois Power has filed an application requesting that the Commission:

1. Approve the settlement of all claims and counterclaims affecting Illinois Power upon the basis hereinbefore set forth (see paragraph captioned "Settlement of Claims and Counterclaims Affecting Illinois Power").

2. Approve Plan I of North American in so far as such plan relates to the said settlement.

3. Authorize Illinois Power to take all action necessary or proper to consummate the said settlement.

4. Upon the approval of the said settlement, to apply to a Federal court in accordance with the provisions of section 18 (f) of the act to enforce and carry out the terms and provisions of Plan I in so far as said plan relates to the said settlement.

5. Defer action with respect to plan for liquidation of Light & Power, filed November 20, 1944, by Illinois Power, and the plan of recapitalization filed July 2, 1946, by Illinois Power pursuant to section 11 (e) of the act, pending disposition of the foregoing matters, and to dismiss the two plans herein referred to at such time as the said settlement becomes effective.

The hearings in these consolidated proceedings with respect to plans for the liquidation and dissolution of Light & Power being presently in adjournment and scheduled to reconvene on January 21, 1947; and

It appearing to the Commission that Plan I may appropriately be heard at the aforementioned hearing but that the date heretofore fixed for reconvening should be postponed to afford a sufficient opportunity to all interested persons who may wish to participate;

It is ordered, That the date for reconvening the hearing in these consolidated proceedings on all plans relating to the liquidation and retirement of North American Light & Power Company which have been filed with the Commission, heretofore set for January 21, 1947, be and it hereby is postponed to January 28, 1947 at 10:00 a. m., e. s. t., in the office of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania, and that the aforementioned application for approved of Plan I filed by The North American Company shall be heard at such reconvened hearing. On such day the hearing room clerk in Room 318 will advise as to the room in which such hearing will be held.

It is further ordered, That Robert P. Reeder, or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearing in such matter. The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said act, and to a trial examiner under the Commission's rules of practice.

It is further ordered, That without limiting the scope of the issues presented, particular attention will be directed at such reconvened hearing to the following matters and questions:

1. Whether Plan I as filed, or as it may be modified, is necessary to effectuate the provisions of section 11 (b) of the act, is fair and equitable to the persons affected thereby, and, more specifically, whether the proposed settlements of the various claims and counterclaims heretofore referred to affecting Illinois Power Company, and the claims heretofore referred to between North American Light & Power Company and The North American Company, are fair and reasonable, and the transactions proposed with respect thereto meet the requirements of applicable provisions of the act and rules thereunder.

2. Whether, and, if so, in what manner, Plan I should be required to be modified to insure adequate protection of the public interest and the interest of investors and consumers and compliance with all applicable provisions of the act and rules thereunder.

3. Whether Plan I makes appropriate provision for North American Light & Power Company's contingent liability with respect to its guarantee of principal and interest on $1,233,000 principal amount of St. Clair County Gas and Electric Company 5% First Consolidated Mortgage Gold Bonds, non-callable, due 1959, being underlying bonds of Illinois Power Company.

4. What accounting treatment is proposed to be given with respect to the transactions proposed in Plan I, and whether such accounting treatment is proper and in conformity with sound accounting principles.

5. Whether the proposed acquisition by The North American Company of the assets of North American Light & Power Company in liquidation meets the requirements of applicable provisions of the act and rules thereunder.

6. Whether Plan I as filed, or as it may be modified, makes appropriate provision for the amounts, allocation and payment of fees, expenses or other remuneration in connection with Plan I and the proceedings involving North American Light & Power Company generally, and whether such fees, expenses or other remuneration are for necessary services.

7. Whether, generally, Plan I is in all respects in the public interest and the interest of investors and consumers and consistent with applicable provisions of the act and rules thereunder and, if not, what modification should be required to be made therein, and what terms and conditions should be imposed to satisfy the statutory standards.

It is further ordered, That any interested person desiring to be heard or otherwise wishing to participate at said hearing shall file with the Secretary of the Commission on or before January 27, 1947 his request or application therefor as provided by Rule XVII of the Commission's rules of practice.

It is further ordered, That the Secretary of the Commission shall serve notice of the aforesaid hearing by mailing a copy of this order by registered mail to The North American Company, North American Light & Power Company, Illinois Power Company, the Illinois Commerce Commission, the City of St. Louis, Missouri, City National Bank & Trust Company, Chicago, Illinois, and to all other participants in these consolidated proceedings, and that notice shall be given to all other persons by general release of this Commission distributed to the press and mailed to the mailing list for releases issued under the Public Utility Holding Company Act of 1935, and that further notice be given to all persons by publication of this notice and order in the FEDERAL REGISTER.

It is further ordered, That the North American Company, North American Light & Power Company and Illinois Power Company give notice of this hearing to all of their stockholders (in so far as the identity of such stockholders is known or is available), by mailing to each such stockholder, at his last known address, a copy of this notice and order at least ten days prior to the date of hearing set herein.

By the Commission.

[File No. 70-1432]

NORTH AMERICAN CO.

NOTICE OF FILING AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 10th day of January 1947.

Notice is hereby given that The North American Company (North American), a registered holding company, has filed an application and a declaration pursuant to the Public Utility Holding Company Act of 1935, regarding the issuance to its stockholders of transferable Purchase Warrants, entitling such stockholders to purchase shares of Common Stock of The Cleveland Electric Illuminating Company (Cleveland), a public utility subsidiary of North American. Applicant-declarant designates sections 6 (a), 7, 12 (c) and 12 (d) of the act and Rules U-23, U-42, U-43, U-44 and U-50 of the general rules and regulations promulgated thereunder as being applicable to the proposed transactions.

North American owns 1,847,908 shares of the Common Stock of Cleveland, representing 71.64% of that company's issued and outstanding voting stock. North American represents that as a result of the proposed transactions its ownership of voting securities of Cleveland would be reduced to 5.17%.

All interested persons are referred to the application-declaration which is on file in the office of this Commission for a statement of the provisions therein

proposed which may be summarized as follows:

North American proposes to issue to its stockholders, in March 1947, transferable Purchase Warrants, in registered form, entitling such stockholders to purchase an aggregate of 1,714,525 shares of Common Stock of Cleveland at the rate of one-fifth of a share of Cleveland Common Stock for each share of Common Stock of North American at the price of $15.00 per share for the Cleveland Common Stock. No fractional scrip will be issued for uncombined fractional Purchase Warrants. The right to purchase the Cleveland Common Stock will expire 60 days after date of issuance of the Purchase Warrants. The Commission is requested to exempt the proposed issuance of Purchase Warrants from the competitive bidding requirements of Rule U-50.

North American states that it does not anticipate that there will be any record date set for determining holders of Common Stock of Cleveland entitled to receive any dividend or distribution on such stock during the period within which the Purchase Warrants may be exercised, but states that in the event such a date should be set the holders of Purchase Warrants who have exercised their Warrants and have become stockholders of Cleveland at such time will be entitled to such dividend or distribution, and that North American will retain any dividend or distribution payable on all shares represented by unexercised Purchase Warrants.

North American proposes to provide for the sale of shares of the Cleveland Common Stock represented by the unexercised Purchase Warrants and for the payment of the proceeds from such sale to the record holders of such Purchase Warrants, less the subscription price of $15.00 per share. Details with respect to such sale will be furnished by amendment at a later date.

North American proposes to apply the net proceeds (estimated at $25,717,875, less expenses) to be derived from the proposed transactions, together with other treasury funds, toward the payment, without premium, of the company's outstanding Bank Loan Notes in the principal amount of $45,125,000 and toward other purposes as set forth in its Amended Plans (File No. 54–82), filed pursuant to section 11 (e) of the act contemporaneously with said application-declaration. The proposed payment on its Bank Loan Notes is regarded by North American as being exempt from the requirements of Rule U-42 (a) by virtue of Rule U-42 (b) (2).

Applicant-declarant represents that the proposed transactions are steps in compliance with the aforesaid Amended Plans and will be in compliance with the Commission's order of April 14, 1942, directing, among other things, that North American divest itself of its interest in Cleveland. North American requests that any order of the Commission approving the sale of the Cleveland Common Stock by North American conform to the requirements of Supplement R of Chapter 1 and section 1808 (f) of Chapter 11 of the Internal Revenue Code, as amended. Upon consummation of the proposed transactions North American proposes to charge to Capital Surplus the excess ($9,926,485) of the carrying value of the shares of Cleveland Common Stock to be sold over the amount of the proceeds of such sale, together with the expenses incurred in connection therewith, and to transfer to Capital Surplus from Reserve for Contingencies an amount equal to the aggregate of such charges. In this connection, North American has given notice to the Commission of the making of said charge as provided for by the order of the Commission dated January 30, 1939, directing, among other things, that no charge shall be made upon the books of North American against "Reserve for Contingencies provided from Capital Surplus" unless in accordance with the Commission's Classification of Accounts for Public Utility Holding Companies and good accounting practice, and after thirty days' notice to the Commission.

It appearing to the Commission that it is appropriate in the public interest and in the interests of investors and consumers that a hearing be held with respect to said application-declaration, and that said application should not be granted nor said declaration permitted to become effective except pursuant to further order of this Commission;

It is hereby ordered, That a hearing on said application-declaration under the applicable provisions of the Act and the Rules and Regulations of the Commission promulgated thereunder be held on the 23rd day of January, 1947, at 10:00 a. m., e. s. t., at the office of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. On that day the hearing room clerk will advise as to the room where the hearing will be held. At such hearing cause shall be shown why said application should be granted and said declaration be permitted to become effective.

The Public Utilities Division having advised the Commission that it has made a preliminary examination of said application-declaration, and that, on the basis thereof, the following matters and questions are presented for consideration by the Commission without prejudice, however, to the presentation of additional matters and questions upon further examination:

(1) Whether the proposed issuance of the Purchase Warrants by North American to its stockholders meets the standards of section 7 of the act.

(2) Whether the proposed sale by North American of shares of Common Stock of Cleveland to the stockholders of North American meets the requirements of section 12 (d) of the act.

(3) Whether the proposed 60-day period for exercise of the Purchase Warrants is detrimental to the interests of North American stockholders or is otherwise inappropriate under applicable provisions of the act or rules thereunder.

(4) Whether the proposed retention by North American of any dividends received on the Common Stock of Cleveland subject to sale upon the exercise of the outstanding Purchase Warrants is detrimental to the holders of the Purchase Warrants or is otherwise inappropriate under applicable provisions of the act or rules thereunder.

(5) Whether the price at which North American proposes to sell its holdings of Common Stock of Cleveland is appropriate; and specifically whether such aggregate price should be required to be increased to such extent as may be necessary to provide for the complete retirement of all of North American's outstanding Bank Loan Notes.

(6) Whether the request of North American that the proposed sale of securities be exempt from the provisions of Rule U-50 should be granted.

(7) Whether the accounting treatment proposed to be made by North American upon its books to reflect the proposed transactions is proper and in conformity with the Commission's Classification of Accounts for Public Utility Holding Companies and good accounting practice and in accordance with the aforesaid order of the Commission dated January 30, 1939.

(8) Whether the proposed sale of the Common Stock of Cleveland is an appropriate step in compliance by North American with the Commission's order of April 14, 1942 pursuant to section 11 (b) (1) of the act.

(9) What terms and conditions, if any, with respect to the proposed transactions should be prescribed in the public interest or for the protection of investors or consumers.

It is further ordered, That particular attention be directed at said hearing to the foregoing matters and questions.

It is further ordered, That any person desiring to be heard in these proceedings shall file with the Secretary of the Commission on or before January 22, 1947, his request or application therefor as provided by Rule XVII of the Commission's rules of practice.

It is further ordered, That Robert P. Reeder, or any other officer or officers of the Commission designated by it for that purpose, shall preside at the hearing so ordered. The officer so designated to preside at the hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said act and to a hearing officer under the Commission's rules and practice.

It is further ordered, That the Secretary of the Commission shall serve notice of the aforesaid hearing by mailing a copy of this order by registered mail to The North American Company and that notice of said hearing shall be given to all other persons by general release of this Commission which shall be distributed to the press and mailed to the mailing list for releases issued under the Public Utility Holding Company Act of 1935, and that further notice be given to all persons by publication of this notice and order in the FEDERAL REGISTER.

By the Commission.

ALLEGHANY CORP. ET AL.

NOTICE AND ORDER OF HEARING ON APPLICATIONS FOR UNLISTED TRADING PRIVILEGES

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 10th day of January A. D. 1947.

In the matter of applications by the Detroit Stock Exchange for unlisted trading privileges in fourteen (14) securities: File Nos. 7-955 to 7-961, inclusive; 7-963 to 7-969, inclusive.

The Detroit Stock Exchange, pursuant to section 12 (f) (2) of the Securities Exchange Act of 1934 and Rule X-12F-1 thereunder, has made application for unlisted trading privileges in the following securities, which are listed and registered on other national securities exchanges as indicated below:

Alleghany Corporation, Common Stock, $1.00 Par Value. Listed: New York Stock Exchange.

American Airlines, Incorporated, Common Stock $1.00 Par Value. Listed: New York Stock Exchange.

Baldwin Locomotive Works, Common Stock, $13.00 Par Value. Listed: New York Stock Exchange, Philadelphia Stock Exchange.

The Baltimore and Ohio Railroad Company, Common Stock, $100.00 Par Value. Listed: New York Stock Exchange.

Canadian Pacific Railway Company, Common Stock, $25.00 Par Value. Listed: New York Stock Exchange.

The Chesapeake & Ohio Railway Company, Common Stock, $25.00 Par Value. Listed: New York Stock Exchange.

Columbia Gas & Electric Corporation, Common Stock, No Par Value. Listed: New York Stock Exchange, Pittsburgh Stock Exchange.

National Biscuit Company, Common Stock, $10.00 Par Value. Listed: New York Stock Exchange.

Niagara Hudson Power Corporation, Common Stock, $1.00 Par Value. Listed: New York Curb Exchange.

Pan American Airways Corporation, Common Stock, $2.50 Par Value. Listed: New York Stock Exchange.

Sterling Drug, Inc., Common Stock, $5.00 Par Value. Listed: New York Stock Exchange.

Sunray Oil Corporation, Common Stock, $1.00 Par Value. Listed: Los Angeles Stock Exchange, New York Stock Exchange.

The United Corporation; Common Stock, $1.00 Par Value. Listed: New York Stock Exchange, Philadelphia Stock Exchange.

Warner Bros. Pictures, Inc., Common Stock, $5.00 Par Value. Listed: New York Stock Exchange.

Rule X-12F-1 provides that the applicant shall furnish a copy of the application to each respective issuer and to every other national securities exchange on which each of the above respective securities are listed or admitted to unlisted trading privileges. The applications are available for public inspection at the Commission's principal office in Philadelphia, Pennsylvania.

The Commission deems it necessary that a hearing be held in this matter to determine whether there exist in the vicinity of the applicant exchange sufficiently widespread public distribution of each of these securities and sufficient public trading activity in each of these securities to render the extension of unlisted trading privileges on the applicant exchange necessary or appropriate in the public interest or for the protection of investors; and to determine whether the extension of unlisted trading privileges to each of these securities otherwise is necessary or appropriate in the public interest or for the protection of investors.

Therefore it is ordered, That a public hearing be held before Frank D. Emerson as hearing officer at 10:00 a. m. on Monday, January 27, 1947, at the office of the Securities and Exchange Commission, 1370 Ontario Street, Cleveland, Ohio.

By the Commission.

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

[Civil Air Regs., Amdt. 61-3]

PART 61—SCHEDULED AIR CARRIER RULES

SCHEDULED AIR CARRIER APPROACH AND LANDING LIMITATIONS

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 8th day of January 1947.

Recent airline accident experience indicates that § 61.752 is inadequate to prevent low approaches under marginal weather conditions because this section is effective only when the Weather Bureau reports a "measured ceiling." When weather conditions are critical, ceilings reported as "measured" are only a small percentage of the total. The problem of instrument approach procedures and weather minimums as correlated with existing air navigation facilities is now being given joint study by the air carriers, the Administrator, and the Board; and it is anticipated that within the next few months such procedures and minimums may be modified to the extent that further change of § 61.752 may be desirable. In the meantime, immediate changes are required in order to provide for safer operations.

The Board finds that the public interest requires a revision of § 61.752 of the Civil Air Regulations, that such revision should be made effective immediately, and that compliance with paragraphs (a) and (b) of section 4 of the Administrative Procedure Act is impracticable.

Now, therefore, effective January 8, 1947, § 61.752 of the Civil Air Regulations is amended to read as follows:

§ 61.752 *Approach and landing limitations.* No instrument approach procedure shall be executed or landing made at an airport when the latest U. S. Weather Bureau weather report for that airport indicates the ceiling or visibility to be less than that prescribed by the Administrator for landing at such airport. (52 Stat. 984, 1007; 49 U. S. C. 425, 551)

FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Division of the Federal Register, the National Archives, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U. S. C., ch. 8B), under regulations prescribed by the Administrative Committee, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the Code of Federal Regulations, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended June 19, 1937.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15¢) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D. C.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

NOTICE

General notices of proposed rule making, published pursuant to section 4 (a) of the Administrative Procedure Act (Pub. Law 404, 79th Cong.; 60 Stat. 238), which were carried under "Notices" prior to January 1, 1947, are now presented in a new section entitled "Proposed Rule Making". Relationship of these documents to material in the Code of Federal Regulations, formerly shown by cross reference under the appropriate Title, is now indicated by a bold-face citation in brackets at the head of each document.

PART 1432—RICE

SET-ASIDE REQUIREMENTS AND RESTRICTIONS ON DISTRIBUTION AND MILLING OF RICE

War Food Order No. 10, as amended (11 F. R. 10649, 13144, and 14646), is hereby further amended by striking the period at the end of § 1432.1 (c) (1), and substituting a semicolon in lieu of said period, and by adding to said paragraph, after the second proviso therein, the following:

And provided further, That deliveries in January, 1947 by any miller to persons other than governmental agencies of brown and milled rice for shipment to Puerto Rico, the Virgin Islands, and Hawaii, may be credited against the set-aside requirements of (b) (1) for January, 1947 up to 40 percent of the total quantity of brown and milled rice milled by such miller during such month.

This amendment shall be effective as of 12:01 a. m., e. s. t., January 1, 1947. With respect to violations, rights accrued, liabilities incurred, or appeals taken under the provisions of War Food Order No. 10, as amended, prior to said date all such provisions shall be deemed to remain in full force for the purpose of sustaining any proper suit, action, or other proceeding with respect to any such violation, right, liability, or appeal.

Chapter VIII—Office of Housing Expediter

[Priorities Order 3, as Amended Jan. 16, 1947]

PART 801—PRIORITIES ORDERS UNDER VETERANS' EMERGENCY HOUSING ACT OF 1946

DELEGATION OF AUTHORITY

§ 801.3 *Delegation of authority*—(a) *What this section provides.* Housing Expediter Priorities Regulations 1, 2 and 4 relate to the disposal by War Assets Administration of materials and equipment needed in the Veterans' Emergency Housing Program. This section delegates to certain officials in the Office of the Housing Expediter the authority (1) to make certain determinations described in Housing Expediter Priorities Regulations 1 and 2, and (2) to issue Housing Expediter certificates in accordance with Housing Expediter Priorities Regulation 4, and to make findings in support of such certificates.

(b) *Sequence of filling orders under HEPR 1 and 2.* The Regional Housing Expediter of each Region of the Office of the Housing Expediter and the Deputy Expediter for Surplus Property and Re-use (and, in his absence, the Assistant Deputy Expediter for Surplus Property and Re-use), Office of the Housing Expediter, are hereby authorized to make the determinations described in paragraph (f) (2) of Housing Expediter Priorities Regulation 1 and in paragraph (f) (2) of Housing Expediter Priorities Regulation 2. These determinations relate to the sequence in which purchase orders received by War Assets Administration under HEPR 1 and 2 shall be accepted and filled by WAA.

(c) *Finding of short supply.* The Regional Housing Expediter of each Region of the Office of the Housing Expediter and the Deputy Expediter for Surplus Property and Re-use (and, in his absence, the Assistant Deputy Expediter for Surplus Property and Re-use), Office of the Housing Expediter, are hereby authorized to determine whether there is a shortage in the supply of any materials or equipment for which an application for a Housing Expediter certificate is filed under Housing Expediter Priorities Regulation 4.

(d) *Housing Expediter certificates.* The Regional Housing Expediter of each Region of the Office of the Housing Expediter and the Deputy Expediter for Surplus Property and Re-use (and, in his absence, the Assistant Deputy Expediter for Surplus Property and Re-use), Office of the Housing Expediter, are hereby authorized to issue Housing Expediter certificates, in accordance with Housing Expediter Priorities Regulation 4, covering materials or equipment found by the Regional Housing Expediter or said Deputy Expediter or Assistant Deputy Expediter, respectively, in accordance with paragraph (c) of this section, to be in short supply. However, this does not authorize the Regional Housing Expediters to issue Housing Expediter certificates upon applications filed under paragraphs (m) or (n), or to grant exceptions under paragraph (v) of HEPR 4.

PART 802—DELEGATIONS OF FINAL AUTHORITY

DIRECTIVE TO CIVILIAN PRODUCTION ADMINISTRATION WITH RESPECT TO MERCHANT PIG IRON

Section 802.9[1] *Directive to the Civilian Production Administration on Premium Payments Regulation 9 (§805.9[2] of this chapter) with respect to merchant pig iron*, is amended as follows:

1. Delete subdivision (iii) of paragraph (a) (4) and substitute the following:

(4) With respect to applications by producers for quota adjustments: • • •

(iii) Upon receipt of each application filed in accordance with § 805.9 (b) (5) of this chapter (Housing Expediter Premium Payments Regulation 9) indicating that a producer has shut down one or more of his furnaces for necessary repairs, the CPA shall recommend to the OHE on the basis of the facts submitted and any additional information available whether or not the producer shall be allowed a quota adjustment and shall attach to its recommendations a statement of considerations. Upon receipt of a decision from the OHE, the CPA shall notify the applicant, and the RFC (in triplicate).

2. Delete subparagraph (5) of paragraph (a) and substitute the following:

(5) Where the CPA finds that production and/or shipments in or from any plant of a producer with two or more plants has fallen below the quota for that plant in any month, the CPA shall in-

vestigate to ascertain whether or not in its opinion production and/or shipments have been shifted among plants of that producer so as to increase his total claim without a corresponding increase in output. In all cases, the CPA shall report its findings to the OHE, and, where in its opinion production and/or shipments have been shifted among plants of the producer so as to increase his total claim without a corresponding increase in output, shall recommend whether or not a combined quota should be established for all the plants of said producer; the CPA shall attach to its recommendations a statement of the facts from which its conclusions were drawn. Upon receipt of a combined quota from the OHE, the CPA shall notify the applicant, and the RFC (in triplicate).

DIRECTIVES AND CERTIFICATES FOR SURPLUS EQUIPMENT

§ 803.3 *Housing Expediter directives and certificates for surplus equipment for the Veterans' Emergency Housing Program.* This section, Housing Expediter Priorities Regulation 3, is hereby revoked. The six items of construction equipment covered by this section as amended November 14, 1946 are still covered by Housing Expediter Priorities Regulation 4. Holders of Housing Expediter directives and certificates are given a preference in obtaining such equipment as explained in HEPR 4.

§ 803.4 *Housing Expediter certificates and directives for surplus materials and equipment*—(a) *What this section provides.* This section, Housing Expediter Priorities Regulation 4, explains how special assistance, in the form of Housing Expediter certificates, will be extended to qualified persons in obtaining from War Assets Administration surplus materials or equipment which are needed for construction or production under the Veterans' Emergency Housing Program.

The Housing Expediter certificates issued under this section provide the holders with a preference in acquiring from WAA the materials and equipment listed in the certificate. They are good only for government property declared surplus to WAA. Prior to January 16, 1947, Housing Expediter certificates could be used only to obtain surplus property which had not yet been publicly advertised for sale by WAA. These certificates may now be used, as provided in this section, to obtain either unadvertised or advertised surplus.

This section explains: (1) How applications for such certificates should be filed. (2) The standards for approval of applications. (3) How certificates are issued. (4) Effect of certificates.

It also tells how, in unusual cases, Housing Expediter directives may be issued for materials or equipment for use in the Veterans' Emergency Housing Program.

DEFINITIONS

(b) *Definitions.* For the purpose of this section:

(1) An "industrially-made house, section or panel" is one which is made in a factory or, in the case of concrete, precast either in a factory or on the building site. The term does not include house trailers.

(2) A "critical product" is one which the Housing Expediter has determined to be in such tight supply that the shortage of the product presents a serious threat to the Veterans' Emergency Housing Program. All such products are listed in the table at the end of this section.

(3) "New type building material" means any building material which possesses some characteristics (such as composition, application, or design) different from existing conventional types of building materials.

(4) "Person" means any individual, partnership, association, business trust, corporation, or any other organized group of persons (whether incorporated or not), or any federal, state or local government, or agency, instrumentality or subdivision thereof.

(5) "VEHP" means the Veterans' Emergency Housing Program.

(6) "MRO" means maintenance, repair, or operating supplies (including spare and replacement parts).

(7) "CPA urgency certificate" means a certificate issued under Direction 16 to Civilian Production Administration Priorities Regulation 13.

(8) "WAA" means the War Assets Administration.

(9) "OHE" means the Office of the Housing Expediter.

(10) "This section" or "HEPR 4" means Housing Expediter Priorities Regulation 4.

MATERIALS AND EQUIPMENT COVERED

(c) *Types of materials and equipment.* The types of materials and equipment for which a Housing Expediter certificate may be issued are:

(1) Production materials which are to be incorporated directly into a product.

(2) Construction materials (building materials, supplies and equipment).

(3) Capital equipment to be used for construction, production, or services.

(4) MRO.

NOTE: The table of "critical products" at the end of this section is not a list of the materials and equipment for which certificates will be issued under this section. It is to be used only in determining who is eligible under paragraph (1) of this section.

(d) *WAA stocks covered.* This section covers all materials and equipment of the types described in paragraph (c) of this section which are held by WAA as government-owned surplus.

APPLICATIONS FOR HOUSING EXPEDITER CERTIFICATES

(e) *Filing of applications.* Applications under this section should be filed as follows:

(1) *Certificates.* Applications for Housing Expediter certificates should be made in duplicate on Form OHE 14-82. Copies of this form may be obtained from the offices of the Regional Housing Expediters and Locality Housing Expediters. All applications should be addressed to the Regional Housing Expediter of the Region in which the applicant's place of business is located. Applications filed under paragraph (m) or (n) of this section will be forwarded by the Regional Expediter, with his recommendations, to the Housing Expediter, Washington, D. C.

(2) *Renewals.* If the holder of a Housing Expediter certificate is unable to obtain the materials or equipment covered by the certificate 15 days before it expires, he may apply for a renewal to the office which issued the certificate. He should apply by letter, and include a certification in substantially the following form:

> The undersigned hereby certifies, subject to the criminal penalties of section 35 (A) of the U. S. Criminal Code, that the information and statements contained in his application dated ---------- for a Housing Expediter certificate are true, to the best of his knowledge and belief, as of the date of this letter. He also certifies that the items covered by certificate No. ------ issued upon that application are still needed and will be used in the Veterans' Emergency Housing Program, in accordance with that application and Housing Expediter Priorities Regulation 4.

(f) *Consideration of applications.* Applications for Housing Expediter certificates will be considered for approval in the following way:

(1) *Qualified applications.* An application will be considered qualified if it is properly completed and meets the standards for approval described in paragraphs (h) through (n) of this section.

(2) *Veterans' set-aside list.* A Housing Expediter certificate covering an item on the WAA veterans' set-aside list will be issued only if the applicant is a veteran who holds a WAA veterans' certificate (Form 63, 73, or 1127) for the same item.

(3) *Inventory restriction.* An application will not be approved which calls for more production materials or operating supplies than the applicant requires to meet his scheduled operations during the 60 days immediately following the date of his application, less the amount he has on hand and expects to receive from other sources during that period.

(g) *Issuance of certificates.* Housing Expediter certificates will be issued in the following way on approved applications:

(1) *Applications under paragraphs (i) through (l).* If the application is approved, the Regional Housing Expediter will issue a Housing Expediter certificate covering the required materials or equipment. The original will be forwarded to the applicant. A duplicate and triplicate will be forwarded to the appropriate WAA Zone Office.

(2) *Applications under paragraph (m) and (n).* When an application is forwarded to the Housing Expediter (see paragraph (e) of this section), he will consider it for approval and issue a Housing Expediter certificate upon a qualified application in the same manner as described in subparagraph (1) of this paragraph.

GENERAL CONDITIONS FOR APPROVAL

(h) *General conditions for approval of applications.* It is not the general policy of the Housing Expediter to channel government surplus materials and equipment to the Veterans' Emergency Housing Program through Housing Expediter certificates. Housing Expediter Priorities Regulations 1 and 2 are designed to channel into the VEHP, on a self-certifying basis, certain materials and equipment listed in those regulations. Except for the equipment listed in paragraph (o) (5) of this section, all materials and equipment not specifically listed in either HEPR 1 or 2 are normally disposed of in accordance with the Surplus Property Act and applicable regulations issued under that Act.

There are circumstances, however, which this regulation is designed to cover, under which Housing Expediter certificates will be issued. These circumstances include certain general conditions which must be met by the applicant. They are as follows:

(1) It must be determined by the Housing Expediter that the applicant's proposed use of the surplus materials or equipment requested will make a substantial contribution to the VEHP.

(2) The applicant must show that he has been unable to get the materials or equipment as soon as he needs them from sources other than government-owned surplus.

(3) In the case of construction equipment, the applicant must show that he has been unable to procure contractual services as soon as he needs them to carry out the work for which the construction equipment is required.

(4) The applicant must purchase the materials or equipment for use and not for resale, except in the case of established service and maintenance organizations who supply both parts and services to producers of any of the critical products listed at the end of this section.

In addition to the general conditions of this paragraph, an applicant must also meet one of the six special conditions described in one of the paragraphs (i) through (n) of this section.

SPECIAL CONDITIONS FOR APPROVAL

(i) *Continuous use of construction equipment for VEHP.* If the general conditions in paragraph (h) of this section are met, a Housing Expediter certificate may be issued for an item of construction equipment which is in short supply if:

(1) The applicant is a builder; building contractor; building subcontractor; erector of industrially-made houses, sections or panels; or a publicly or privately owned utility (water, power, gas, sewerage); and

(2) The Housing Expediter finds that the applicant is likely to make substantially continuous use of the equipment in support of the VEHP.

(j) *To avoid serious delays in VEHP.* If the general conditions in paragraph (h) of this section are met, a Housing Expediter certificate may be issued for an item of production material, construction material, capital equipment, or MRO which is in short supply and is needed by a Federal, state or local government agency, or a producer of industrially made houses, sections, or panels as defined in paragraph (b) (1) of this section.

(k) *Industrially made houses, sections or panels.* If the general conditions in paragraph (h) of this section are met, a Housing Expediter certificate may be issued for an item of production material, construction material, capital equipment, or MRO which is in short supply and is needed by a producer of industrially made houses, sections, or panels as defined in paragraph (b) (1) of this section.

(l) *Critical products.* If the general conditions in paragraph (h) of this section are met, a Housing Expediter certificate may be issued for an item of production material, construction material, capital equipment, or MRO which is in short supply and is needed by:

(1) A producer of a "critical product" that is listed in the table at the end of this section. (For the definition of "critical product" see paragraph (b) (2) of this section.) It should be emphasized that it is the materials or equipment needed to produce the critical product, rather than the critical product itself, for which a Housing Expediter certificate may be issued under this paragraph.

(2) A person who will use the item to provide a necessary service to a producer of a "critical product," such as a road building contractor providing access roads for a producer of logs.

(3) A producer of production materials or MRO which are required by a producer of a "critical product," if (i) the item will be used by the first producer in production of such materials or MRO, and (ii) a very high proportion of the first producer's output of these materials or MRO will be sold to such producers of "critical products." An example of a person eligible under this subparagraph is a producer of molding sand to be sold to producers of cast iron soil pipe.

(m) *New type building materials.* If the general conditions in paragraph (h) of this section are met, a Housing Expediter certificate may be issued for an item of production material, construction material, capital equipment, or MRO which is in short supply and is needed by a producer of a "new type building material" which has been approved by the Housing Expediter for use in the VEHP.

(n) *Basic materials.* If the general conditions in paragraph (h) of this section are met, a Housing Expediter certificate may be issued for an item of production material, construction material, capital equipment, or MRO which is in short supply and is needed by a Federal,

State, or local governmental agency or instrumentality or persons under contract with such agency or instrumentality for use in a specific program established by the Expediter (in cooperation with the applicant agency or instrumentality) to increase the production of a basic material, such as logs, for the VEHP.

EFFECT OF HOUSING EXPEDITER CERTIFICATES

(o) *Effect of Housing Expediter certificates.* WAA shall give the following effect to Housing Expediter certificates:

(1) *Valid for 60 days.* A Housing Expediter certificate shall be valid for 60 days after its date of issuance, and for an additional 60 days if it is renewed.

(2) *Search by WAA.* Each WAA Zone Office, upon receiving a copy of a Housing Expediter certificate, shall determine promptly whether the materials or equipment described in the certificate are in WAA stocks located within the WAA Zone. However, no such search need be made for items covered by HEPR 1 or 2.

(3) *Methods of disposal.* If the WAA Zone Office locates the materials or equipment covered by the Housing Expediter certificate, the items shall be disposed of by one of the following methods, as determined by the WAA Zone Administrator:

(i) Through sale by notification to holders of Housing Expediter certificates and CPA urgency certificates.

(ii) By transfer to the Federal Public Housing Authority for use under Title V of the Lanham Act, as amended; or to the Veterans Administration for use in the Veterans Administration Construction Program.

(iii) By publicly advertised sale to Housing Expediter certificate holders and others.

Unless otherwise directed by CPA or the Housing Expediter, disposal must be by one of these three methods.

(4) *Order of preference before advertising.* In disposing of any of the materials or equipment covered by this section before they have been publicly advertised, each WAA Regional Office shall honor whichever of the following two is received first:

(i) An order from a certificate holder.

(ii) A request for transfer from the Federal Public Housing Authority or the Veterans Administration.

(5) *Public advertisement.* Before any of the following equipment is disposed of by WAA (other than as described in subparagraph (3) (i) and (ii) of this paragraph, or upon a Housing Expediter or CPA directive), they shall be publicly advertised by the WAA Regional Office as provided in this subparagraph:

Attachments disposed of separately from cranes: boom, crane, dragline, clamshell, shovel, piledriver, backhoe, or trenchhoe attachments.
Attachments disposed of separately from tractors: bulldozer, angledozer, power control unit, hydraulic pumps, towing winch, loader, or hoists.
Batching plants.
Cranes: Truck mounted and crawler-type of ⅜, ½, ¾, 1¼ to 1½, 1¾ to 2, and 2½ cubic yard capacity. Equipped with shovel, dragline, backhoe, and other types of front ends.
Ditching machines.
Motor graders.
Portable air compressors from 105 c. f. m. to 500 c. f. m. inclusive.
Rock crushers, 35 tons per hour or under.
Straddle-lift trucks.
Tractors (track laying) and front-end loaders.
Tractor type scrapers.
Wheel tractors 100 h. p. or over.

In such advertisements, WAA shall indicate that preference will be given, as provided in subparagraph (6) of this paragraph, to holders of Housing Expediter certificates.

(6) *Order of preference after advertising.* Unless otherwise directed by CPA or the Housing Expediter, in disposing of any materials or equipment covered by this section in a publicly advertised sale, each WAA Regional Office shall give preference the following priority groups, in the order indicated, over all other persons:

(i) Holders of both an unexpired Housing Expediter certificate and a WAA veteran's certificate (Form 63, 73, or 1127) for the same materials or equipment. Within this priority group, certificates shall be honored in the order in which they are presented during the preference period established for them by the advertisement.

(ii) Holders of an unexpired Housing Expediter certificate. Within this priority group, certificates shall be honored in the same order as in priority group (i).

After a particular lot of materials or equipment covered by this section has been publicly advertised to certificate holders by WAA, and the preference period for such holders has expired, certificate holders shall have no further preference in any later offerings of the same lot on competitive bids.

(7) *Terms of sale.* WAA may make disposals under this section upon such terms and conditions as are not in conflict with this section or the Housing Expediter certificate upon which the disposal is made.

USE OF HOUSING EXPEDITER CERTIFICATES

(p) *How to use a Housing Expediter certificate.* The following are the rules governing the use of Housing Expediter certificates:

(1) *Sales by notification prior to public advertisement.* If WAA notifies a certificate holder that the materials or equipment described in his certificate are available for disposal, the holder shall, within the time specified in the notification, present his copy of the certificate and his written order as required by WAA, together with adequate identification, to the WAA office designated in the notification. (See paragraph (o) (3) (i) of this section on sales by notification.)

(2) *Publicly advertised sales.* The holder of a Housing Expediter certificate should watch for public advertisements of WAA sales, wherever located, of any materials and equipment covered by his certificate. The certificate holder should submit his order or bid in accordance with the terms of the advertised sale, noting on his order or bid that he holds a Housing Expediter certificate for the items covered by his order. Since preference among certificate holders in paragraph (o) (6) (i) or (o) (6) (ii) of this section will be on a first-come, first-served basis, promptness in placing orders or bids is important. If some of the items covered by a Housing Expediter certificate are sold to the holder, his certificate will be marked to indicate this by striking out these items, and he may retain the certificate. If all items are sold to the holder, he must surrender his copy of the certificate to WAA.

(3) *Not transferable.* A Housing Expediter certificate may be used only by the person named in it, and any rights conferred by it on that person may not be transferred.

(4) *No copies to be made.* No person shall make, or have made, a photostatic copy or other facsimile of a Housing Expediter certificate.

HOUSING EXPEDITER DIRECTIVES

(q) *Issuance of Housing Expediter directives.* In addition to Housing Expediter certificates, Housing Expediter directives may be issued covering government-owned surplus needed in the VEHP. The following rules govern the issuance of such directives:

(1) Housing Expediter directives may be issued if (i) the location of the items involved is known, and (ii) because of special circumstance, disposal under HEPR 1 or 2 or issuance of a certificate would not adequately meet the needs of the VEHP.

(2) Housing Expediter directives covering materials or equipment already publicly advertised or publicly offered for sale will, in general, be issued only if very extreme and unusual circumstances present such a serious threat to the VEHP that in the judgment of the Housing Expediter the action is mandatory.

(3) Application for a Housing Expediter directive should be made by letter to the Housing Expediter, Washington 25, D. C.

(r) *Effect of Housing Expediter and CPA directives.* Housing Expediter directives and CPA directives shall take precedence over Housing Expediter certificates. CPA directives shall take precedence over Housing Expediter directives.

RESTRICTIONS ON BUYERS

(s) *Use of materials or equipment obtained with Housing Expediter certificate or directive.* Any material or equipment obtained from WAA by the use of a Housing Expediter certificate or directive may be used only for the purpose for which the certificate or directive was issued.

(t) *Sale of materials or equipment obtained with Housing Expediter certificate or directive.* If it becomes impossible for a person who obtained materials or equipment under this section to use them for the purposes for which the Housing Expediter certificate or directive was issued, the unused materials or equipment may be disposed of only on authorization in writing by the Housing Expediter upon the basis of a letter from the person explaining the situation, and plans for disposal, if any. In general, disposal will be authorized only for purposes which would qualify for a Housing Expediter certificate under this section.

OTHER PROVISIONS

(u) *Appeals.* Any person who considers that compliance with any provision of this section would result in an exceptional and unreasonable hardship on him may appeal for relief. In addition, any person affected by action taken under this section which was based on an interpretation of the section which he considers to be incorrect may file an appeal. An appeal shall be in the form of a letter in triplicate, addressed to the Housing Expediter, Washington 25, D. C. The letter must state clearly the specific provision of the section appealed from and the grounds for claiming an exceptional and unreasonable hardship, or the specific action appealed from, as the case may be.

(v) *Exceptions.* In a very limited number of cases, an exception to the provisions of this section may be granted by the Housing Expediter so that a certificate may be issued for materials or equipment to be used in the VEHP, even though the applicant does not meet all the conditions of eligibility of the section. Any person who considers that the facts of his case are unusual enough to warrant the granting of such an exception should file his application with the Regional Housing Expediter of the region where his place of business is located. The application will be forwarded by the Regional Expediter, with his recommendation, to the Housing Expediter, Washington 25, D. C.

(w) *Violations.* Any person who wilfully violates any provision of this section or who knowingly makes any statement to the Housing Expediter or the WAA, as to any matter within their respective jurisdictions, which is false in any respect, or who wilfully conceals a material fact in any certification required to be executed under this section, or who wilfully falsifies any records to be kept under this section, shall, upon conviction thereof, be subject to fine or imprisonment, or both, under the Veterans' Emergency Housing Act of 1946 and other applicable Federal Statutes. Any such person or any other person who violates any provisions of this section may be prohibited from making or obtaining any further deliveries of, or from using any materials or facilities suitable for housing construction, and may be deprived of priorities assistance for such materials or facilities.

(x) *Reporting and record-keeping requirements.* Each person or agency participating in any transaction to which this section is applicable shall complete and preserve, for at least two years after the date of the transaction, accurate and complete records of the details of each such transaction. All persons affected by this section shall file such information and reports as may be required by the Housing Expediter (or any person or agency authorized by him to make such requests), subject to the approval of the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(60 Stat. 207; 56 Stat. 177, as amended; E. O. 9638, 10 F. R. 12591; CPA Directive 44, 11 F. R. 8936)

Issued this 16th day of January 1947.

FRANK R. CREEDON,
Housing Expediter.

TABLE OF CRITICAL PRODUCTS COVERED BY PARAGRAPH (1) OF THIS SECTION

NOTE: As explained in paragraphs (c) and (l) of this section, this table is not a list of the materials and equipment for which Housing Expediter certificates may be issued under this section. It is a list of the kinds of products an applicant must produce in order to be eligible for a Housing Expediter certificate under paragraph (1) (1) of this section.

Asbestos-cement siding shingles and flat sheets (products made from asbestos fibers and cement).
Asbestos-cement siding shingle and flat sheet specialized machinery.
Asphalt and tarred roofing products (smooth surfaced roll roofing, mineral surfaced roll roofing, strip and individual asphalt shingles, saturated felts, dry roofing felts, and saturated or coated sheathing papers).
Asphalt and tarred roofing products specialized machinery.
Bituminized fiber pipe.
Bituminized fiber pipe specialized machinery.
Boilers, low pressure, heating, steam and hot water.
Builders' hardware of the following types only:
(1) butts, hinges, hasps; (2) door locks, lock trim; (3) sash screen, and shelf hardware; (4) night latches, dead locks; (5) spring hinges; (6) sash balances, sash pulleys.
Building and sheathing papers.
Building board (board made from wood pulp, vegetable fibres, pressed paper stock, or multiple plies of fibred stock).
Cast iron soil pipe and fittings.
Cast iron pressure pipe.
Cast iron radiation.
Cement.
Cement mill specialized machinery.
Clay building products (common and face brick, clay structural tile, and clay sewer pipe).
Clay building products specialized machinery (such as dealring machines, extrusion heads, clay grinders and pulverizers, and brick presses).
Convector radiation (extended surface).
Flooring hardwood.
Furnaces (warm air, floor, wall).
Gypsum board and gypsum lath.
Gypsum board and gypsum lath specialized machinery.
Gypsum liner.
Lime, finishing.
Logs.
Lumber.
Metal doors and frames.
Metal windows, sash and frames.
Metal plaster base (metal lath).
Millwork, suitable for housing construction.
Nails.
Pig iron (foundry grade).
Plaster, hardwall.
Plumbing fixture fittings and trim, including brass tubular goods.
Plumbing fixtures (of the following types, in residential-design models only: bathtubs, lavatories, sinks, sink-and-tray combinations, shower stalls, receptors, stall-and-receptor combinations, water closet bowls, tanks. Trim is not included).
Plywood, softwood, suitable for housing construction.
Sawmill and other woodworking specialized machinery.
Screen cloth, insect.
Steel, galvanized sheet.
Wiring devices (electrical) of the following kinds only:

(1) Sockets, lampholders, and lamp receptacles—medium screw base types (lighting fixtures and portable lamps not included);
(2) Convenience receptacles (outlets) suitable for residential use;
(3) Toggle switches (types designed specifically for tools and appliances not included);
(4) Wall and face plates;
(5) Outlet, switch, and receptacle boxes suitable for residential use (covers, hangers, supports, and clamps included);
(6) Box connectors for residential-type metal or nonmetallic sheathed cable.

AUTHORITY: §§ 1.1 to 1.21, inclusive, issued under 50 Stat. 886; 50 U. S. C. 164 (b).

Effective 30 days after publication in the FEDERAL REGISTER, Part 1 is hereby amended to read as follows:

§ 1.1 *Definitions*—(a) "Act" means the act authorizing the conservation, production, exploitation, and sale of helium gas, approved September 1, 1937. (50 Stat. 885; 50 U. S. C. 161–166)

(b) "Special helium-production fund" means the fund referred to in subsection (c) of section 3 of the act.

(c) "Bureau" means the Bureau of Mines of the Department of the Interior.

(d) "Purchaser" means a person, firm, corporation, association or political authority, other than an agency of the United States Government, purchasing helium from the Bureau for medical, scientific or commercial use, or using helium containers supplied by the Bureau.

(e) "Purity of helium" means the percentage by volume of the gaseous element, helium, in a mixture of that element and other gases.

(f) "Contained helium" means the actual quantity, by volume, of helium in a mixture of that element and other gases. The volume of the contained helium bears the same proportion to the volume of the mixture that the purity of the helium bears to 100 percent.

(g) "Unit of helium" means 1,000 cubic feet of contained helium measured at, or reduced to, a pressure of 14.7 pounds per square inch absolute and a temperature of 70° Fahrenheit.

(h) "Standard-type cylinder" means a cylinder of approximately 1.5 cubic feet internal volume, designed for a filling pressure of 1,800 pounds per square inch gage or more, which will stand vertically without external support with the center of the valve outlet not less than 50½ inches nor more than 58½ inches above the floor, equipped with a standard-type cylinder valve, or a similar cylinder acceptable to the Bureau as a standard type.

(i) "Standard-type cylinder valve" means a valve acceptable to the Bureau in all respects, having an outlet conforming to following specifications: U. S. standard form left-hand threads, 14 threads per inch, threaded portion ⅝ inch in length; major diameter not more than 0.830 nor less than 0.824 inch; pitch diameter not more than 0.784 nor less than 0.780 inch; outlet opening drilled to have a diameter of not more than 0.504 nor less than 0.500 inch and a depth of not less than ⅜ nor more than ½ inch; inside edge of opening rounded out to a radius of 1/16 inch to permit insertion of a male connection tapered at an angle of 30 degrees: *Provided*, That at the Bureau's option valves with outlets conforming to other specifications may be accepted as alternative standards.

(j) "Helium tank car" means a railroad car of the type used by the Army and Navy for transporting helium, on which cylinders designed to hold helium under high pressure are mounted permanently.

(k) "Helium semi-trailer" means a vehicle without motive power of a type used by the Army or Navy for transportation of helium by road, on which cylinders designed to hold helium under high pressure are mounted permanently.

(l) "Multiple-cylinder unit" means a group of high-pressure cylinders assembled into one unit for shipment by rail or highway, of a type used by the Army or Navy for transportation of helium.

§ 1.2 *Purchase price of helium.* The purchase price per unit of helium, f. o. b. at a helium plant to be selected by the Bureau, for helium of normal plant purity of 98 percent or more, delivered into containers at pressures not exceeding the normal plant pressure of approximately 2,500 pounds per square inch gage, shall be:

(a) *When delivered into a helium tank car, helium semi-trailer, or multiple cylinder unit.* (1) $11.00 when used or to be used for medical purposes only.

(2) $13.00 when used or to be used for scientific or commercial purposes.

(b) *When delivered into standard-type cylinders.* (1) $13.00 when used or to be used for medical purposes only.

(2) $15.00 when used or to be used for scientific or commercial purposes.

(c) *When delivered into other types of containers.* If helium is delivered into containers of types other than those referred to in paragraphs (a) and (b) of this section, the purchase price shall be the same as set forth in paragraph (a) of this section, and the Bureau may make, in addition, service charges to cover the cost of handling and filling such containers as provided in § 1.3 (b).

(d) *Minimum charge.* Notwithstanding the provisions of paragraphs (a), (b) and (c) of this section, the minimum charge for the helium delivered under any one contract shall be $11.00.

§ 1.3 *Service charges.* The following charges for services and for use of equipment supplied by the Bureau shall be paid by the purchaser, in addition to the purchase price:

(a) *For work performed on standard-type cylinders supplied by the purchaser.* (1) Hydrostatic testing: $0.75 per cylinder.

(2) Sealing cylinder valves: $0.025 per cylinder.

(3) Stenciling serial numbers: $0.10 per cylinder.

(4) Installing valves supplied by purchaser in cylinders received without valves: $0.20 per cylinder.

(5) Resetting valves, or removing valves and replacing with valves supplied by purchaser: $0.35 per cylinder.

(6) Painting cylinders: $0.50 per color, per cylinder.

(b) *For extraordinary expenses.* Such expenses incurred in connection with any contract or delivery, including costs of repairing, cleaning, or drying purchasers' containers, filling containers of types other than those referred to in § 1.2 (a) and (b), compressing or purifying helium beyond normal plant pressure or purity, delivering helium at a point other than a helium plant selected by the Bureau, and unusual handling, transportation and communications, may be determined by the Bureau, on the basis of the cost of rendering the services, making due allowance for contingencies, overhead expense, commercial common-carrier rates, and intangible factors, and charged to the purchasers as they arise.

(c) *For use of helium containers supplied by the Bureau.* (1) For each standard-type cylinder: $0.45 for each month or part thereof.

(2) For each helium tank car: $100 for the first five days or part thereof, and $20 for each day or part thereof in excess of five days.

(3) For each helium semi-trailer: $10 for the first two days or part thereof, and $5 for each day or part thereof in excess of two days.

(4) For each multiple-cylinder unit: $9 for the first three days or part thereof, and $3 for each day or part thereof in excess of three days.

(d) *For use of tractor.* For a tractor with driver and fuel supplied by the Bureau for transportation of a helium semi-trailer: $30 for each day or part thereof plus $0.10 for each mile traveled pulling the semi-trailer and $0.06 for each mile traveled by the tractor without the semi-trailer.

(e) *Computation of time periods.* The time periods (one month, five days, two days, three days, and one day) referred to in paragraphs (c) and (d) of this section, shall begin the day following that in which the container or tractor is placed in service for the purchaser and end the day it is returned to the Bureau's service. Any fractional period, including the period of use of a container or tractor placed in a purchaser's service and returned to the Bureau's service later in the same day, shall count as a whole period. A container or tractor shall not be considered to be returned to the Bureau's service until it is returned to the Bureau's point of origin or some other point designated by the Bureau, and, if the container is a standard-type cylinder used in making repeated shipments to the same purchaser, until it is released from that service and made available for shipments to other purchasers or to agencies of the Federal Government. Twelve o'clock, midnight, standard time, is the dividing line between days. The charge for the use of a container or tractor shall abate during any period when it is out of service because of unserviceable condition through no fault of the purchaser.

§ 1.4 *Settlements under existing contracts.* Existing contracts for the purchase of helium and for use of containers may be settled by the Bureau in whole or in part on the basis of the amended regulations in this part, and suitable amendments of such contracts may be entered into for this purpose.

§ 1.5 *Applications*—(a) *Applications to purchase helium.* Sales of helium will be made only upon a written application, signed by the applicant, setting forth all of the information and conditions required by the Bureau's form entitled "Application to Purchase Helium," a copy of which is published in § 1.21 (a). Such forms will be furnished by the Bureau upon request. If the application is deemed sufficient by the Bureau for that purpose, and the requirements for cash advance and bond (if required) are complied with, it shall become the contract of sale upon the written acceptance thereof by the Bureau.

(b) *Applications to use helium containers.* If a purchaser desires that containers be supplied by the Bureau, he may make application therefor on the Bureau's form entitled "Application to Use Helium Containers," a copy of which is published in § 1.21 (b). Such forms will be furnished by the Bureau upon request. If the desired containers are available, and if said application is deemed sufficient by the Bureau for that purpose, and the requirements for cash advance and deposit or bond are complied with, it shall become the contract for use of containers upon the written acceptance thereof by the Bureau.

§ 1.6 *Advances, deposits and bonds*—(a) *Advances and bonds for purchase of helium.* No helium will be delivered or services performed under the regulations in this part except against cash paid in advance on account of the purchase price and services, and, when applicable, a bond or bonds as provided in §§ 1.14 and 1.18.

(b) *Advances, deposits and bonds for use of containers.* No containers or tractors will be furnished by the Bureau under the regulations in this part except against cash paid in advance on account of their use and, unless waived by the Bureau, a cash deposit or bond to guarantee the return of all Government owned containers in satisfactory condition, or the repair or replacement of, or payment for, any containers lost or damaged, and payment of any other charges that may become due.

(c) *Purchaser to maintain adequate credits and bonds.* The purchaser shall at all times maintain with the Bureau a cash credit sufficient to cover all or as much as the Bureau may require of the purchase price of the helium together with such charges for services and use of containers or tractors as may accrue, and, unless waived by the Bureau, a cash deposit or bond adequate to save the Bureau harmless from loss of or damage to containers and to guarantee payment of all charges.

(d) *Initial and supplemental advances, deposits and bonds.* Applicants for helium and for use of containers or tractors may estimate the amounts of the initial and total cash advances and deposits or bonds from the Bureau's established purchase prices, service charges, and container values, and make the necessary payments with their application, or may await a determination and statement of these items by the Bureau after the filing of the application. If the Bureau at any time deems any advance, deposit, or bond insufficient, it may require that it be made sufficient as a condition to further deliveries of helium or use of containers or tractors.

(e) *Computation of cash advance when use of helium is uncertain.* When an applicant is unable to specify with certainty that the helium applied for is for medical use, the cash advance on account of the purchase price thereof shall be computed at the rate fixed for scientific or commercial purposes, and the account shall be adjusted thereafter, pursuant to § 1.9, to the extent that the applicant is able to certify that the helium has been or will be used for medical purposes.

(f) *Computation of cash advance when method of shipment is uncertain.* When there is uncertainty, at the time helium is applied for, as to the type of container in which it will be shipped, the cash advance shall be computed at the rate fixed for helium delivered into standard-type cylinders, but in adjusting accounts pursuant to § 1.9 the prices charged shall conform to those for helium delivered into containers of the type actually used.

(g) *Form of checks for advances and deposits.* All cash advances, deposits, and additions thereto shall be made in the form of certified checks payable to the Treasurer of the United States, unless this requirement is waived by the Bureau.

(h) *Advances and deposits to be credited to special helium-production fund.* All cash advances, deposits, and other moneys received under the regulations in this part shall be credited to and deposited in the special helium-production fund.

§ 1.7 *Initial advance for purchase of helium.* Unless upon receipt of an application to purchase helium the Bureau indicates some other or different requirements, the initial cash advance may be computed as follows:

(a) *On account of purchase price.* (1) With applications for 500 units of helium or less: The full purchase price (not less than $11.00).

(2) With applications for more than 500 units of helium: The full purchase price for 500 units plus one-half of the purchase price for each unit in excess of 500.

(b) *On account of services.* The full amount of the estimated charges for the services to be rendered, not including charges for use of containers or tractors furnished by the Bureau.

§ 1.8 *Initial advance and guarantee for containers.* Unless upon receipt of an application to use containers the Bureau indicates some other or different requirements, the initial cash advance and the deposit or bond may be computed as follows:

(a) *Cash advance for use of containers.* (1) $0.90 for each standard-type cylinder.

(2) $300 for each helium tank car.

(3) $50 for each helium semi-trailer.

(4) $30 for each multiple-cylinder unit.

(5) $150 for each tractor, if supplied by the Bureau to haul a helium semi-trailer.

(b) *Cash deposit or bond as guarantee for containers and charges.* (1) $20.00 for each of the first 500 cylinders and $10.00 for each cylinder in excess of 500.

(2) $50,000 for each helium tank car.

(3) $10,000 for each helium semi-trailer.

(4) $4,000 for each multiple-cylinder unit.

§ 1.9 *Adjustment of accounts*—(a) *Delivery which fulfills contract.* The delivery of a quantity of helium within plus or minus five percent of that contracted for shall constitute performance on the part of the Bureau, but payments for the helium shall be on the basis of the number of units delivered.

(b) *Refunds to purchasers.* As contracts of sale are performed by the Bureau by the delivery of helium, and as contracts for use of containers are performed by the purchasers by the return of containers and other equipment furnished by the Bureau, the Bureau may make refunds from time to time to the purchaser, from any credits to the purchaser's account in the special helium-production fund, to the extent that the Bureau deems such credit or credits to be in excess of the amounts that may be required to secure the performance of any outstanding contract or contracts of that purchaser; and, in any event, upon full performance by both the Bureau and the purchaser of any contract of sale or contract for use of containers the Bureau shall refund to the purchaser any balance left to the purchaser's credit on account of such contract: *Provided*, That the Bureau, at its option, may transfer any such credit remaining on account of any particular contract to the account of any uncompleted contract with the same purchaser.

§ 1.10 *Shipping containers*—(a) *Containers may be provided by the purchaser or the Bureau.* The applicant may provide containers, as indicated by the Application to Purchase Helium (§ 1.21 (a)), or may request the Bureau to provide them, as indicated by the Application to Use Helium Containers (§ 1.21 (b)). Containers provided by the applicant must be satisfactory to the Bureau in all respects, and shall comply with the requirements for shipment in Interstate Commerce. The Bureau will not use or fill any container which in its opinion is unsafe or unsuitable.

(b) *Provisions applicable to all types of containers supplied by the Bureau.* (1) Agencies of the Federal Government requisitioning helium from the Bureau will have preference in the use of all such containers.

(2) The purchaser shall make every effort to prevent loss of or damage to containers supplied by the Bureau; shall not use such containers for any purpose other than transportation or storage of helium purchased from the Bureau; and shall not permit any substance to be compressed or injected into such containers without the Bureau's written consent.

(3) The purchaser shall keep account of all containers supplied by the Bureau (by serial number if a container is so numbered) and shall return such containers (including attached valves and other parts) to the helium plant or other point from which they were shipped to the purchaser, or to such other point as may be specified in writing by the Bureau, at no greater cost to the purchaser. Notwithstanding any other provisions of the regulations in this part, the purchaser shall return standard-type cylinders within 80 days and shall return helium tank cars, helium semi-trailers, and multiple-cylinder units within 30 days after receipt of notice that their return is required.

(4) The purchaser shall not remove, obliterate or obscure any of the Government's stamped or painted markings on such containers, nor stamp, paint or otherwise apply permanent markings on the metal of such containers, except records of hydrostatic tests stamped into the metal thereof in the manner prescribed by the Interstate Commerce Commission if the making of such tests by the purchaser is authorized by the Bureau: *Provided*, That the purchaser may place temporary markings on said containers if such markings are applied in a manner that will in no way affect the metal of or paint on said containers or attached fittings, but any such temporary markings not authorized by the Bureau in writing shall be removed before return of the containers to the Bureau.

(5) Title to all containers supplied to purchasers under the regulations in this part shall remain in the United States. Payment by the purchaser for a container not returned or rendered unserviceable shall not vest title to such container in the purchaser.

(6) The purchaser shall pay to the carrier all transportation charges and demurrage fees resulting from shipment

of the containers and their contents to the purchaser and return of the containers to the Bureau, unless the Bureau has agreed in writing to pay such transportation charges and fees.

(7) In the event that the Bureau pays any transportation costs (other than haulage of a helium semi-trailer by a tractor furnished by the Bureau) on containers in the service of a purchaser, the purchaser shall reimburse the Bureau for such transportation at commercial common-carrier rates for the kind of transportation used, whether or not the transportation was by common carrier, or the cost incurred by the Bureau, whichever shall be the higher.

(8) The purchaser shall not remove containers furnished by the Bureau from the continental limits of the United States without specific permission of the Bureau, except for continuous passage through Canada en route between locations in the United States, which passage shall be in accordance with all laws and regulations applying to such passage through Canada.

(9) Any use or operation by the purchaser of containers furnished by the Bureau shall be in full compliance with all applicable Federal and State laws.

(10) The purchaser shall completely indemnify the Government and hold it harmless from any loss or expense arising from claims of third persons in connection with personal injuries or damage to property or otherwise arising from any Government owned container while in the service or custody of the purchaser.

(c) *Provisions applicable to standard-type cylinders supplied by the Bureau.* (1) If any standard-type cylinder supplied by the Bureau is not returned within 80 days after receipt of notice that its return is required, or is rendered unserviceable by defects or failure to pass a quinquennial hydrostatic test as a result of mistreatment or damage beyond the effects of ordinary wear, tear, and age, occurring during the period commencing with the delivery or shipment of such cylinder to the purchaser and ending with the return of such cylinder to the Bureau, the purchaser shall be charged and shall pay to the Bureau, or cause to be paid to the Bureau, the value thereof as determined by the Bureau, which value, however, shall not be more than $25.00 nor less than $10.00. The entry of such charge on account of any cylinder not returned shall terminate the charge for the use thereof as of the end of the current month for which charge is made pursuant to § 1.3, but if said cylinder subsequently is returned, the Bureau shall credit or refund to the purchaser, from the special helium-production fund, the amount charged for the cylinder less $0.45 for each month or part thereof during the period from the date when the use charge was terminated to the date of the return of the cylinder.

(2) The purchaser shall be charged with and shall pay to the Bureau, or cause to be paid to the Bureau, the cost of repairing the damage (as estimated by the Bureau if immediate repair is not made) to any returned cylinder which, although serviceable, has suffered damage beyond that attributable to ordinary wear, tear, and age, during the period while it was in the service of the purchaser.

(d) *Provisions applicable to helium tank cars supplied by the Bureau.* (1) All movements of helium tank cars, full and empty, shall be under such Shipment Orders and in accordance with such Route Orders as the Bureau may direct.

(2) The purchaser shall be charged with any excess empty mileage of helium tank cars for which the purchaser is responsible and which has been paid by or charged to the Federal Government.

(3) At the discretion of the Bureau, the purchaser may be charged the amount of any bill received by the Bureau or other Government agency from a railroad for repair of damage incurred by a helium tank car at a discharge terminal while in the custody of the purchaser.

(e) *Provisions applicable to helium tank cars, helium semi-trailers and multiple-cylinder units supplied by the Bureau.* Bills of lading issued by the purchaser for shipment of helium tank cars, helium semi-trailers, and multiple-cylinder units shall be in such form and shall bear such notations as the Bureau may direct.

(2) The purchaser shall not remove the cylinders of helium tank cars, helium semi-trailers, or multiple-cylinder units from their mountings without specific authority of the Bureau in each case.

(3) The purchaser shall make good or cause to be made good, to the Government, by replacement of materials or by financial reimbursement, as may be appropriate and satisfactory to the Bureau, all losses and damages, not caused by any fault or negligence of the Government, to any helium tank car, helium semi-trailer, or multiple-cylinder unit during any period when such car, semi-trailer or unit is in the service or custody of the purchaser. Financial reimbursement shall be satisfactory to the Bureau and to any other Governmental agency having jurisdiction over the equipment lost or damaged, but shall not exceed the purchase price for which the Government purchased the equipment and its parts, including costs of assembly.

§ 1.11 *Repurchase rights of Government.* The Government shall have the right to repurchase helium that has been sold by the Bureau and that has not been lost or dissipated, when needed for Government use, upon the following terms and conditions:

(a) *Price for repurchase.* The price to be paid by the Government per unit of helium, for delivery at the place of use or storage, for helium of 98 percent purity or better, shall be the higher of either of the following:

(1) The price at which said helium was purchased from the Bureau, less one half of one percent of said price for each month or fraction thereof since the said helium was purchased from the Bureau, or

(2) The highest price per unit for helium purchased from the Bureau for commercial use during the fiscal year immediately preceding the repurchase.

(b) *Adjustment for purity.* For repurchased helium of less than 98 percent purity the unit price to be paid by the Government shall be the price as above determined less one percent thereof for each one percent that the purity is below 98 percent.

§ 1.12 *Reservations with respect to sales and deliveries.* The Bureau reserves the absolute right and discretion to limit or defer sales and deliveries under contracts to conform to the needs and requirements of the Government, and to give such preferences as between sales for medical, scientific, and commercial use, and requisitions by Government agencies, as it deems proper: *Provided,* That in all cases requirements for Government use shall have first preference. All furnishing of services and supplying of containers and tractors under the regulations in this part shall be at the Bureau's option.

§ 1.13 *Determination of purity and quantity.* Determinations of purity and quantity of helium shall be by methods prescribed by or acceptable to the Bureau.

§ 1.14 *Special restrictions*—(a) *Sales for the inflation of airships.* Helium produced by the Bureau shall not be sold or used for the inflation of airships except such airships as operate in or between the United States and its territories and possessions, or between the United States or its territories and possessions and foreign countries. Helium produced by the Bureau shall not be sold or used for the inflation of any airship operating between two foreign countries notwithstanding such airship may also touch at some point in the United States. Any application for the purchase of helium for the purpose of inflating any airship shall show that fact on the face of the application.

(b) *Exportation of helium.* The act places certain restrictions and conditions upon the exportation of helium, and neither the regulations in this part nor any sale or contract of sale pursuant to the regulations in this part is intended to authorize or shall be construed as authorizing the exportation of helium. Any application for the purchase of helium for exportation shall show that fact on the face of the application.

(c) *Liquidated damages.* The Bureau may require in any contract for the purchase of helium a provision for the payment by the purchaser of liquidated damages, in an amount to be fixed by the Secretary of the Interior, in the event of failure by the purchaser faithfully to comply with the act and the regulations in this part and with the terms of the contract; if such a provision is required, the contract shall be accompanied by a domestic corporate surety bond, satisfactory to the Secretary of the Interior, in like amount conditioned upon faithful compliance by the purchaser with the act and the regulations in this part and with the terms of the contract. Such bond shall continue in force as long as any of the helium delivered under such contract shall remain in captivity, or for a period of three years, whichever shall be the longer.

§ 1.15 *Power of inspection.* Authorized representatives of the United States may enter and inspect at all reasonable times the place (including places in foreign countries) where any helium produced by the Bureau is stored or used, to the extent reasonably necessary to ascertain whether it is being used or is likely to be used in violation of restrictions in the act or the regulations in this part on the exportation of helium or its use for the inflation of airships.

§ 1.16 *Implied agreements.* Every purchaser and every re-purchaser, possessor, or user of helium produced by the Bureau, shall be deemed to have expressly consented and agreed to comply with and be bound by the act and the regulations in this part, including the power of inspection provided for in § 1.15, all restrictions on the exportation of helium and its use for the inflation of airships, and the Government's right of repurchase set out in § 1.11.

§ 1.17 *Violations and penalties.* For violation of any of the provisions of the act or of the regulations in this part, the Bureau, in addition to any other penalties provided by law, may cancel all future deliveries and forfeit all deposits under existing contracts of purchasers responsible for or in any manner aiding or participating in such violations and may deny all pending or future applications from applicants who are or have been responsible for or who have participated in or in any way aided such violations. Likewise, any liquidated damages provided for on account of such violations shall become due and payable.

§ 1.18 *Purchaser's bonds.* As a condition to the acceptance of any application for the purchase of helium, the Bureau may require the applicant to give a domestic corporate surety bond upon the condition that none of the helium applied for shall be used in violation of the regulations in this part or the act, in such amount and upon such further terms and conditions as the Bureau may deem suitable.

§ 1.19 *Cancellation and assignment of contracts.* Contracts for the purchase of helium or for the use of containers may not be canceled, assigned or otherwise transferred without the written consent of the Bureau.

§ 1.20 *Federal agencies not affected.* The regulations in this part have no application to requisitions of helium by agencies of the Federal Government, nor to the use of helium by such agencies.

§ 1.21 *Forms.* Forms of applications and contracts for purchase of helium and for use of helium containers are published in paragraphs (a) and (b) of this section. The Bureau may make alterations in or additions to said forms, and may require the execution of a contract in a different form. For a reasonable time after the effective date of the amended regulations in this part, the Bureau may accept applications for the purchase of helium on the forms theretofore authorized.

APPLICATION TO PURCHASE HELIUM FROM UNITED STATES DEPARTMENT OF THE INTERIOR, BUREAU OF MINES

This space is for recording by the Bureau of Mines and is not a part of the application.
Helium application No. _____ Date _____, 19____
Application received by Bureau _____, 19____
Helium purchase contract No. _____ Date _____, 19____
Name of Applicant: _____
Address: _____
_____
Date: _____

Give full information as indicated below, attaching additional sheets if necessary for completing answers.

(1) Quantity of helium desired: _____ units. (A unit is 1000 cu. ft. of contained helium at 14.7 lbs. per sq. in. absolute and 70° F.)

(2) Desired delivery date or schedule _____
_____
(The Bureau will endeavor to make deliveries at times desired by the purchaser, but does not undertake or guarantee to do so.)

(3) (a) Use for which the helium is desired: _____
_____
(b) Place of use: _____
(4) Who will use the helium? _____
(5) Is the helium for resale? _____
(6) (a) Is the helium to be exported? _____
(b) If the helium is to be exported, give the number and date of the export license issued by the Secretary of State or, if a license has not been issued, give full information concerning the applicant's plan for obtaining an export license: _____
(7) Name, description and proposed use of aircraft for which helium is intended: _____
_____
(8) Proposed schedule of any flights to be made outside the United States with such aircraft: _____
(9) Is the helium to be used for the inflation of any airship that does not operate in or between the United States and its territories and possessions or between the United States or its territories and possessions and foreign countries? _____
(10) Is the helium to be used for the inflation of any airship operating between two foreign countries? (For the purposes of this question an airship will be considered as operating between two foreign countries notwithstanding it may also touch at some point in the United States.): _____

SHIPPING CONTAINERS

(11) Does the applicant wish the Bureau to supply containers? _____
(If the applicant wishes the Bureau to supply containers and a contract for use of containers is not in effect, an Application to Use Helium Containers, as shown in 30 CFR 1.21 (b), as amended, should be submitted with this application.)
(12) Containers to be supplied by the applicant:
(a) Number: _____
(b) Type: _____
(c) Age: _____
(d) Owner: _____
(13) (a) Do the containers meet the specifications of the Interstate Commerce Commission? _____
(b) Do the containers comply with the definition of a "standard-type cylinder" given in 30 CFR 1.1 (h), as amended? _____
(14) (a) When were the containers last tested? _____
(b) To what pressure? _____
(15) To what pressure does the applicant want containers filled? _____
(Regardless of the applicant's answer to this question, the Bureau will fill containers only to pressures it considers to be safe and to be permissible under the regulations of the Interstate Commerce Commission.)
(16) (a) When were the containers last used? _____
(b) For what gas? _____
(c) Are the containers dry inside? _____
(d) Are the containers free from oil inside? _____
(17) What do the containers now contain? _____
(18) Valves on containers: (a) Type: _____
(b) Manufacturer: _____
(c) Does the valve outlet conform with the specifications given in 30 CFR 1.1 (i), as amended? _____
(19) How are the valves protected? _____
(20) What is the condition of: (a) Containers? _____
(b) Valves? _____
(21) How can the applicant's containers be identified? _____
(22) What is the actual internal volume of the containers? _____

POINT OF DELIVERY

(23) Deliveries will be made by the Bureau at a point convenient to it, which ordinarily will be one of its helium plants. Unless and until the Bureau notifies the purchaser otherwise, deliveries under a contract arising out of this application will be made at the point specified in the Bureau's acceptance of this application, and empty containers may be shipped to that point.
(24) (a) How and from where are the applicant's containers to be transported to the point of delivery? _____
(b) How and to what point are the applicant's containers to be transported from the point of delivery? _____

____ units of helium at ½ of $ ____ per unit ____ $	$____ per unit ____ $
Service charges, except for containers supplied by the Bureau ____ $	____ $
Total ____ $	____ $

[2] When an application is for 500 units of helium or less, the minimum initial cash advance usually will be the same as the estimate of total charges. In that event only the total need be entered in this table. Neither the total charge nor the initial advance can be less than $11.00 (see 30 CFR 1.2 (d), as amended). When an application is for more than 500 units of helium, the advance for the first 500 units at the full purchase price may be entered as the first item of this table, and the initial advance for the units in excess of 500, at one-half the purchase price, may be entered as the second item (see 30 CFR 1.7 (a), as amended).

The undersigned hereby:

1. Makes application to purchase helium in the quantity and subject to the terms and conditions above set forth.

2. Certifies that he has read the act approved September 1, 1937, (50 Stat. 885; 50 U. S. C. 161–166) and regulations issued pursuant thereto (30 CFR 1, as amended); that the use to be made of the helium applied for is not in violation of said act and regulations; and that all statements and answers hereinabove set forth are true.

3. Agrees that if this application is accepted by the Bureau it shall thereupon become a contract for the purchase and sale of helium upon the terms and conditions herein set forth; that the applicant will accept deliveries and make payments according to said terms and conditions and fully comply therewith, and will abide and be bound by the terms of said act and regulations.

4. Agrees that if this application becomes a contract, no Member of or Delegate to Congress or Resident Commissioner shall be admitted to any share or part of such contract or to any benefit that may arise therefrom, but this provision shall not be construed to extend to such contract if made with a corporation for its general benefit.

TITLE 32—NATIONAL DEFENSE

Chapter IX—Office of Temporary Controls, Civilian Production Administration

AUTHORITY: Regulations in this chapter unless otherwise noted at the end of documents affected, issued under sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236, 56 Stat. 177, 58 Stat. 827, and Public Laws 270 and 475, 79th Congress; Public Law 388, 79th Congress; E. PART 3290—TEXTILE, CLOTHING AND LEATHER

[Conservation Order M-84, as Amended Jan. 16, 1947]

MANILA (ABACA) AND AGAVE FIBER AND CORDAGE

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of manila and agave and products made from them for defense for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense.

§ 3290.221 *Conservation Order M-84*—(a) *Restrictions on sales, deliveries, receipts, and use of certain cordage products*—(1) *Rope and twine (except binder and baler twine).* No processor or dealer may sell, deliver, or accept delivery of new rope or new twine produced in the United States in whole or in part from Manila or agave, or from yarn made from such fibers, for end uses for which the rope or twine may not be manufactured under this order. However, this rule shall not prohibit the sale, delivery, or acceptance of rope made from agave fiber put into process before January 16, 1947 for any end use.

(2) *Binder and baler twine.* No person may sell or deliver new binder or new baler twine (wherever produced) if he knows or has reason to believe that:

(i) The binder twine will not be used with mechanical harvesting equipment or in the growing, harvesting, or delivering of agricultural crops, or that the binder twine will be converted into rope or any other product; or

(ii) The baler twine will not be used in a self-tying machine for baling hay, straw, or other fodder crops.

(3) No person may use new binder or new baler twine (wherever produced) to manufacture rope for sale.

(b) *Purposes for which Manila or agave fiber or yarn may not be used*—(1) *Manila.* No processor may put into process any spinnable Manila fiber, or yarn made from such fiber (wherever produced), except to make rope for any end use. Non-spinnable Manila fiber may be used for any purpose unless obtained by allocations for particular uses under paragraph (f) (3) below.

(2) *Agave.* No processor may put into process any agave fiber, or yarn made from such fiber (wherever produced), except to make rope in the sizes described in Schedule A of this order, twines permitted in Schedule B of this order, and binder and baler twine.

Except as specifically authorized or directed in writing by the Civilian Production Administration, no processor may manufacture any binder or baler twine from agave fiber, unless made in accordance with the following specifications: The binder twine must measure 500 feet to the pound with a plus or minus tolerance of five per cent; and must contain a lubricant of at least ten per cent of the total weight of the twine, and an insect repellent. The baler twine must measure 200 to 225 feet to the pound with a plus or minus tolerance of five per cent; must contain a lubricant of at least ten per cent of the total weight of the twine, and an insect and rodent repellent.

(c) *Quantities of manila and agave fibers which may be used.* (1) Processing quotas will be issued in writing by the Civilian Production Administration to processors making any of the products permitted under paragraphs (b) (1) and (b) (2) above. No person shall put into process any spinnable Manila fiber or any agave fiber, until he has received such a quota, or in amounts in excess of his quota, regardless of whether the fiber is taken from inventory, or obtained by allocation under this order or in any other way. These quotas may not be transferred except as specifically authorized in writing by the Civilian Production Administration, or in accordance with Priorities Regulation 7A.

(2) In general, processing quotas for spinnable Manila fiber or agave fiber, for rope and products permitted in Schedule B, will be issued upon the following basis: The aggregate processing quota for Manila and agave fibers for each processor will be in proportion to his average monthly sales of both types of rope during the period January 1, 1939 through December 31, 1941; his processing quota for Manila fiber for rope will be in proportion to his average monthly sales of Manila rope during the period January 1 through December 31, 1939; and his processing quota for agave fiber will be in proportion to his processing quota for both fibers, less that for Manila. A manufacturer who was not in the hard fiber cordage business during 1939–40–41 may apply to the Civilian Production Administration, Textile Division, Washington 25, D. C. for a processing quota. The application should be filed by letter stating the quantity of fiber desired to be processed for each permitted product, and should include a statement of the facilities available for the manufacture of cordage products, as permitted under Order M-84, the maximum poundage of fiber which can be processed with his facilities on the basis of a 40-hour week, and the minimum poundage of fiber needed for economical operation during a three-month period. Applications from new manufacturers will be considered on an equitable basis, in view of the quotas issued to other manufacturers.

(3) Processing quotas for agave fiber for binder twine and baler twine will be prorated among processors on the basis of information previously filed with the War Production Board and Civilian Production Administration as to productive capacity, method, and rate of operation.

(4) Processing quotas for Manila fiber other than spinnable, are not required under this order.

(5) The Civilian Production Administration may also issue specific directions to processors as to the extension of more critical fibers by mixture with less critical ones (i. e., use of "extenders") in the manufacture of any product permitted under this order. No processor shall put any Manila or agave fibers into process contrary to the terms of any such direction, regardless of whether the fiber is taken from inventory, or obtained by allocation under this order or in any other way.

(d) *Inventory restrictions on Manila*—(1) *Processors' inventories.* No processor may accept delivery of any spinnable Manila fiber, or yarn made from such fiber, if his inventory of spinnable Manila fiber will be more than the amount he needs during the next 90 days, on the basis of his current or scheduled method and rate of operation, and for making only those products permitted under this order. No processor may accept delivery of any such fiber or yarn for making any product not permitted by this order.

(2) *Importers' and dealers' inventories.* No person, other than a processor or the Reconstruction Finance Corporation, may accept delivery of any spinnable Manila fiber if his inventory of such fiber held for resale will be more than the amount he would normally stock up in the ordinary course of his business to meet reasonably anticipated requirements, while continuing to dispose of such inventory as promptly as practicable in view of the orders received by him from persons permitted to accept deliveries under this order. If a person imports or buys fiber both for resale and for processing on his own facilities, and keeps separate inventory records of the fiber held for each purpose, his inventory held for resale shall be governed by this rule instead of that in paragraph (d) (1); but if he does not keep separate inventory records, his in-

ventory shall be governed by the rule in (d) (1).

(3) *Other inventory rules.* The limitations in paragraphs (d) (1) and (d) (2) above apply to deliveries and inventories within the continental United States only. Material which is being imported, but has not been released from United States Customs, is not to be considered as in inventory. The rules in Priorities Regulation 32 remain applicable, except to the extent inconsistent with this order.

(e) [Deleted Mar. 22, 1946.]

(f) *Allocation of fiber.* (1) No processor shall make or accept delivery of any Manila or agave fiber contrary to directions which from time to time the Civilian Production Administration may issue. The Civilian Production Administration may from time to time allocate to processors the available supplies of Manila and agave fiber held by the Reconstruction Finance Corporation, and specifically direct the time, manner, and quantities in which deliveries to processors shall be made or withheld.

(2) In general, allocations of spinnable Manila fiber and agave fiber held by the Reconstruction Finance Corporation, for rope and products permitted in Schedule B, and of agave fiber for binder twine and baler twine, will be prorated upon the same bases as are the processing quotas issued under paragraph (c) above. Applications need not be made by processors who have processing quotas. An application for a processing quota under paragraph (c) from a manufacturer who was not in the hard fiber cordage business during 1939–40–41 will also be considered as an application for an allocation, unless the applicant specifically indicates that he does not want to get any fiber from the Reconstruction Finance Corporation.

Since the only Manila fiber to be allocated will be that held by RFC, the amounts allocated will usually be less than those which may be accepted and used under the inventory limitations and processing quotas; and such additional amounts as may be accepted or used under this order within those limitations and quotas may be obtained from other sources without allocations.

(3) Allocations of Manila, other than spinnable, held by the Reconstruction Finance Corporation will in general be made to processors of specialty paper on an equitable basis taking into consideration prior use, facilities and other relevant factors. "Specialty paper" includes but is not limited to stencil base tissue, sausage casings paper, electrolytic condenser paper, gasket paper, and artificial leather. Applications should be made by letter to the Civilian Production Administration, Attention: Textile Division, and state the quantity of fiber desired, the products to be made from it, and the quantity used during 1945 and the first half of 1946. A processor who did not use this material during the whole period should, in addition, state his facilities available for processing Manila other than spinnable.

(g) *End use information.* No person may sell or deliver any product controlled by this order to any person who he knows or has reason to believe will use the product in a manner which this order does not permit. He should satisfy himself as to this in some reasonable manner before delivering. He may, but need not, require a statement in writing showing the specific purpose or use for which the item is ordered.

(h) *Restrictions on the use of damaged material.* Any processor or dealer who has in his possession damaged or defective manila or agave fiber or cordage, may report by letter the extent of the damage and state to the Civilian Production Administration the percentage not suitable for the manufacture of products or for use permitted by this order. He may then upon receipt of acknowledgment, without objection from the Civilian Production Administration, use or dispose of any portion unsuitable for the manufacture of products permitted by this order, free from its restrictions.

(i) *Reports.* (1) Processors of manila and agave fiber shall report monthly on CPA–2901, sections 1 and 2.

(2) Every person, except the Reconstruction Finance Corporation, who imports or purchases for import any spinnable Manila fiber, or yarn made from Manila fiber, shall report in writing (by letter or other written communication) to the Civilian Production Administration, Washington 25, D. C., Attn: Textile Division, Ref: M–84, stating the information required by the following instructions:

(i) Send this report to the above address not later than the 10th of each month to cover the preceding month. Keep one copy for your files. Date the report, state calendar month for which filed, name of your company, and its address (street, city, zone, and state).

(ii) As Item No. 1, list Manila (Abaca) Fiber (in bales); and as Item No. 2, list Manila Yarn (in thousands of pounds

(iii) For each item, show separately the monthly shipments to you from any foreign countries during the calendar month covered by the report, and your inventory of each item as of the end of the month, for United States consumption. List separately that which is afloat to the United States, and that which is in the United States. For the purpose of this report (although not under paragraph (d) above), inventory includes fiber and yarn afloat, and on hand in the continental United States, where title has not been transferred to some other person (or in the case of an importer who is also a processor, all fiber and yarn afloat, and all within the continental U. S. except that held in this country for his own use). Report in units of bales on fiber, and in thousands of pounds on yarn.

(3) The reporting requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(j) *Imports.* The importation of material or products covered by this order shall be made in conformity with the provisions of General Imports Order M–63, as amended from time to time.

(k) *Definitions.* In this order:

(1) "Manila" means fiber which is commonly known in the trade by this term and also known as Abaca or Manila Hemp wherever grown (either stripped or decorticated), but does not mean processor's mill waste or bagasse. "Spinnable Manila" means Manila which is spinnable over machinery but does not mean the fiber grades of O, T, Y, and W or equivalent as established by the Insular Government of the Philippine Islands.

(2) "Agave" means fiber, spinnable over machinery of the species agave sisalana, agave fourcroydes, and agave cantala, of all grades and qualities including tow and fiber under 20" in length, commonly known in the trade as sisal, henequen, cantala, and maguey, and sometimes preceded by an adjective designating the country or district of origin, but does not include processor's mill waste or bagasse.

(3) "Rope" means any rope or cable, treated or untreated, composed of three or more strands each strand composed of two or more yarns, and not less than 10 percent cordage lubricant (excluding tent and awning rope), but does not include strings and twines of whatever construction which are commonly used for tying, sewing, baling or other commercial packaging use.

(4) "Twine" means any single or plied yarn or roving, including marlin, for use as a tying material, for sewing or for any similar purpose, but does not include any product falling within the definition of "rope", "binder twine" or "baler twine."

(5) "Binder twine" means a single yarn twine usually containing agave, but sometimes containing manila, istle, jute, coir, hemp, cotton or paper, suitable for use in a harvesting machine and of the type customarily heretofore manufactured. It is also known as binding twine.

(6) "Baler twine" means a single yarn usually made of agave fiber and used in a self-tying machine for baling hay, straw or other fodder crops.

(7) "Processor" means any person (other than a United States Government agency) who spins, twists or otherwise uses any fiber or yarn in the manufacture of rope or twine, or who uses manila or agave fiber in the manufacture of any other product.

(l) *Appeals.* Any appeal from the provisions of this order should be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal.

(m) *Applicability of regulations.* Except as specifically otherwise provided this order and all transactions affected thereby are subject to all applicable provisions of the regulations of the Civilian Production Administration as amended from time to time.

(n) *Violations.* Any person who wilfully violates any provision of this order, or who in connection with this order wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control and may be deprived of priorities assistance by the Civilian Production Administration.

(o) *Communications.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to the Textile Division, Civilian Production Administration, Washington 25, D. C., Ref.: M–84.

Issued this 16th day of January 1947.

CIVILIAN PRODUCTION ADMINISTRATION,
By J. JOSEPH WHELAN,
Recording Secretary.

SCHEDULE A—AGAVE CORDAGE END USE

NOTE: Schedule A revised Jan. 16, 1947.

"This list specifies the permitted end uses for which rope may be manufactured from agave. It does not, however, restrict manufacture for and delivery to the Army, Navy and Maritime Commission.

"Fibers other than agave may be used in the manufacture of rope for any end use subject to applicable provisions of any Civilian Production Administration order dealing specifically with such fibers.

End use

Agave rope 7/8" diam. (2¾" cir.) and smaller, for any use."

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans' Administration

[Instruction 1, Sections 1, 2, 4, 5, 6, 8 and 9, Pub. Law 589, 79th Cong.]

PART 5—ADJUDICATION: DEPENDENTS CLAIMS SERVICE (APPENDIX)

PART 10—INSURANCE (APPENDIX)

ADJUDICATION OF CLAIMS FOR DEATH BENEFITS, NATIONAL SERVICE LIFE INSURANCE

1. *Sec. 1 (a).* Section 1 (a) amends section 601 (f) of the National Service Life Insurance Act of 1940 to provide that a stepparent may be the designated beneficiary for National Service Life Insurance. Accordingly, in those cases in which a stepparent was named beneficiary and claim has been or will be made it will no longer be necessary for claimant to establish that he or she stood in loco parentis to the insured. The establishment of the step relationship alone will suffice.

2. (a) *Sec 1 (b).* This section reads as follows:

The amendment made by subsection (a) of this section to section 601 (f) of the National Service Life Insurance Act of 1940, as amended, shall not be construed (1) to require the discontinuance, for any period prior to the first day of the third calendar month following receipt of claim by or on behalf of a person brought within the permitted class of beneficiaries by such amendment, of any insurance award made prior to the date of enactment of this Act, or (2) to require duplicate payments of benefits in any case.

(b) If claim is received after August 1, 1946, from person designated as stepparent and found in order the award to person presently receiving benefits will be discontinued effective the monthly payment date in the third calendar month following receipt of claim, e. g., if claim is received September 19, 1946, and monthly payment date is the twelfth, discontinuance date will be November 12, 1946. Award to stepparent will be based upon his or her age under option elected and will be effective date of death of insured and the brief face (VA Form 359) and the award card (VA Form 316 series) will bear the legend, "Sec. 602 (f); Subject to Prior Payments to Previous Payee(s) ----------" (Name of payee(s))

3. (a) *Sec. 2 (c) (2).* This section amends section 602 (c) of the National Service Life Insurance Act of 1940 as follows:

(2) Subject to the provisions of the first proviso under the caption "Transfer of Appropriations" contained in title II of the First Supplemental Surplus Appropriation Rescission Act, 1946 (Public Law 301, Seventy-ninth Congress), any individual who has had active service between October 8, 1940, and September 2, 1945, both dates inclusive, shall be granted such insurance upon application therefor in writing and upon payment or authorization for deduction of premiums and evidence satisfactory to the Administrator showing such person to be in good health at the time of such application. In any case in which application for life or disability insurance or for reinstatement of such insurance is made prior to January 1, 1950, the Administrator shall not deny, for the purposes of this or any other section of this part, that the applicant is in good health because of any disabilities, less than total in degree, resulting from or aggravated by such active service. In any case in which insurance is granted by reason of the immediately preceding sentence, the premiums paid on such insurance shall be credited directly to the national service life insurance appropriation and any payments of benefits on such insurance shall be made directly from such appropriation. The maximum amount of insurance for which an individual is otherwise eligible to apply under this paragraph shall be decreased by the amount of any insurance which he may have surrendered for its cash surrender value.

(b) Brief Faces (VA Form 8–359) and award cards (VA Form 316 series) covering settlements under this subsection will bear the legend, "Sec. 602 (c) (2) N. S. L. I. Appro." and the award cards should show the amount of premiums to be deducted from initial settlement checks. In cases involving converted National Service Life Insurance on the VA Form 8–362 (Public Voucher for Payment of Death Benefits, National Service Life Insurance Act of 1940) there should be substituted for the printed legend, "Appropriation: 36X6132, National Service Life Insurance Fund, V. A." the following legend, "Appropriation: 36X0126, National Service Life Insurance Appropriation, V. A. Sec. 602 (c) (2)." Awards of this type will not require action by the Committee on Extra Hazards of Service.

4. (a) Sec. 2 (c) (3). This section amends section 602 (c) of the National Service Life Insurance Act as follows:

(3) Any person in the active service between October 8, 1940, and September 2, 1945, both dates inclusive, who, while in such service, made application in writing for insurance while performing full military or naval duty, which application was denied solely on account of his condition of health, and the applicant thereafter shall have incurred a total and permanent disability in line of duty or died in line of duty, shall be deemed to have applied for and to have been granted such insurance as of the date of such application and such insurance shall be deemed to be or to have been continued in force to the date of death of such person. In any case in which insurance deemed to have been granted under this paragraph matures or has matured, there shall be deducted from the proceeds of such insurance the premiums payable thereon from the date of application to the date of incurrence of total and permanent disability in line of duty or to the date of death, if permanent and total disability was not incurred. Any payments on such insurance shall be made directly from the national service life insurance appropriation. The amount of insurance deemed to have been granted under this paragraph when added to any other insurance in force under the War Risk Insurance Act, as amended, the World War Veterans' Act, 1924, as amended, or this part, shall not in the aggregate exceed $10,000.

(b) Payment of death benefits under this subsection will be authorized only if death occurred in service in line of duty between October 8, 1940, and September 2, 1945, both dates inclusive, or, if death occurred after discharge, only if permanent and total disability is determined to have been incurred in line of duty during such period of service and to have existed continuously from date of incurrence to date of death. Determinations of permanent and total disability under this subsection will be made by the Insurance Service. Disability Insurance Claims Division, and cases will be so referred for that purpose.

(c) Brief Faces (VA Form 8–359) and award cards (VA Form 316 series) covering settlements under this subsection will bear the legend, "Sec. 602 (c) (3) N. S. L. I. Appro." and the award cards should show the amount of premiums to be deducted from initial settlement checks. Awards of this type will not require action by the Committee on Extra Hazards of Service.

5. (a) *Sec. 4.* This section provides:

Section 602 (g) of the National Service Life Insurance Act of 1940, as amended, is hereby amended by substituting a colon for the period at the end thereof and adding the following: "*Provided*, That the provisions of this subsection as to the restricted permitted class of beneficiaries shall not apply to any national service life insurance policy maturing on or after the date of enactment of the Insurance Act of 1946."

(b) Accordingly, as to claims involving insurance maturing on or after August 1, 1946, it will no longer be necessary to request proof of relationship.

6. (a) *Sec. 5 (a).* This section amends section 602 (h) of the National Service Life Insurance Act of 1940 to provide that in those cases where payment of National Service Life Insurance benefits began prior to September 30, 1944, regardless of method of payment to beneficiary to whom payment was first made, the present beneficiary, whether or not the first beneficiary, shall have the right to elect to receive a Refund Life Income based on age of first beneficiary on the date of insured's death. All such beneficiaries must be advised of this right of election within one year after August 1, 1946, by registered letter sent to last known address. The right of election terminates two years after August 1,

1946. Form letters and procedure covering notice of right of election are in course of preparation and will be available shortly.

(b) Two types of cases will not be disturbed by the review required by this subsection. (1) Those cases in which election of Refund Life Income would result in payment of installments over a period of less than 120 months certain, i. e., those cases in which beneficiary first entitled to payment was 69 or more on the date of the insured's death; (2) those cases in which the beneficiary first entitled to payment was under 30 on the date of the insured's death and who has since died or, if widow receiving gratuitous National Service Life Insurance, has remarried. The election of the Refund Life Income by the present beneficiary would result in a certain loss in all such cases and it is not believed that section 5 of the Insurance Act of 1946 was enacted to permit beneficiaries to make elections which could only be to their detriment.

(c) All awards under this subsection whether present beneficiary is beneficiary first entitled to payment or not will be effective from date of maturity (date of insured's death) and will be subject to prior payments. If award is to beneficiary first entitled to payment the brief face (VA Form 8–359) and the award card (VA Form 316 series) will bear the legend: "Sec. 602 (h) (1) or Sec. 602 (h) (2) (whichever is applicable). Subject to prior payment." If award is to beneficiary other than beneficiary first entitled to payment the brief face and the award card will bear the legend: "Sec. 602 (h) (1) or Sec. 602 (h) (2) (whichever is applicable). Subject to prior payments to previous payee(s) _____ (Name of Payee(s))."

Award to these beneficiaries will show also the amount of the final reduced installment and the end of the period certain. Tables of Values for final reduced installments all ages will be furnished.

7. (a) *Sec. 6.* Section 6 amends section 602 (m) of the National Service Life Insurance Act of 1940 by adding the following:

(2) In any case in which the insured provided for the payment of premiums on his insurance by authorizing in writing the deduction of premium from his service pay, such insurance shall be deemed not to have lapsed so long as he remained in active service prior to the date of enactment of the Insurance Act of 1946, notwithstanding the fact that deduction of premiums was discontinued because:

(A) The insured was discharged to accept a commission, or

(B) The insured was absent without leave, if restored to active duty; or

(C) The insured was sentenced by court martial, if he was restored to active duty, required to engage in combat, or killed in combat.

In any case in which the insured under any insurance continued in force by the provisions of this paragraph died while such insurance was so continued in force, any premiums due on such insurance shall be deducted from the proceeds of the insurance. Any premiums deducted or collected on any such insurance shall be credited to the national service life insurance appropriation and any payments of benefits on any such insurance shall be made directly from such appropriation.

(b) All claims heretofore disallowed for reasons enumerated in provisions of law quoted above will be reviewed and, if found otherwise in order, will be allowed. Brief Faces (VA Form 8–359) and award cards (VA Form 316 series) covering settlements under this subsection will bear the legend, "Sec. 602 (m) (2) N. S. L. I. Appro.", and the award cards should show the amount of premiums to be deducted from initial settlement checks. In cases involving converted National Service Life Insurance on the VA Form 8–362 (Public Voucher for Payment of Death Benefits, National Service Life Insurance Act of 1940) there should be substituted for the printed legend, "Appropriation: 36X8132, National Service Life Insurance Fund, V. A." the following legend, "Appropriation: 36X0126, National Service Life Insurance Appropriation, V. A., Sec. 602 (n) (2)." Awards of this type will not require action by the Committee on Extra Hazards of Service.

8. (a) *Sec. 8.* This section amends section 602 (p) of the National Service Life Insurance Act of 1940 by adding:

Notwithstanding the foregoing provisions of this subsection, any case in which prior to the date of enactment of the Insurance Act of 1946 application was made for insurance to become effective subsequent to the date of application and the applicant died in line of duty prior to the date such insurance was to become effective the United States shall be liable to the same extent as it would have been if such insurance had been in force on the date of death of the applicant. Any payments of benefits made as a result of the enactment of the preceding sentence shall be made directly from the national service life insurance appropriation.

(b) The claims heretofore disallowed under section 602 (p) because the insured died prior to the effective date of the insurance requested in his application and in which death was in line of duty should be reviewed and if found otherwise in order should be allowed.

(c) If not paid by allotment of service pay or otherwise, one premium should be deducted from initial settlement check and if more than one premium was paid and not heretofore refunded the unearned premiums should be refunded. If premiums were deducted from service pay or otherwise paid and have already been refunded one premium should be rededucted. Such refunds or deductions should be shown on the award card.

(d) Brief Faces (VA Form 8–359) and award cards (VA Form 316 series) covering settlements under this subsection will bear the legend, "Sec. 602 (p) N. S. L. I. Appro." Awards of this type will not require action by the Committee on Extra Hazards of Service.

9. (a) *Sec. 9.* This section amends section 602 of the National Service Life Insurance Act of 1940 by adding a new subsection (t) as follows:

(t) Insurance maturing on or subsequent to the date of enactment of the Insurance Act of 1946 shall be payable in accordance with the following optional modes of settlement:

(1) In one sum.

(2) In equal monthly installments of from thirty-six to two hundred and forty in number, in multiples of twelve.

(3) In equal monthly installments for one hundred and twenty months certain with such payments continuing during the remaining lifetime of the first beneficiary.

(4) As a refund life income in monthly installments payable for such period certain as may be required in order that the sum of the installments certain, including a last installment of such reduced amount as may be necessary, shall equal the face value of the contract, less any indebtedness, with such payments continuing throughout the lifetime of the first beneficiary: *Provided*, That such optional settlement shall not be available in any case in which such settlement would result in payments of installments over a shorter period than one hundred and twenty months.

Unless the insured elects some other mode of settlement, the insurance shall be payable to the designated beneficiary or beneficiaries in thirty-six equal monthly installments. The first beneficiary may elect to receive payment under any option which provides for payment over a longer period of time than the option elected by the insured, or if no option be designated by the insured in excess of thirty-six months. If the option selected requires payment to any one beneficiary of monthly installments of less than $10, the amount payable to such beneficiary shall be paid in such maximum number of monthly installments as are a multiple of twelve as will provide a monthly installment of not less than $10. If the present value of the amount payable at the time any person initially becomes entitled to payment thereof is not sufficient to pay at least twelve monthly installments of not less than $10 each, such amount shall be payable in one sum. Options (3) and (4) shall not be available if any firm, corporation, legal entity (including the estate of the insured), or trustee is beneficiary, or in any case in which an endowment contract matures by reason of the completion of the endowment period.

(b) A new form letter (FL 8–72) and a new optional settlement form (VA Form 8–1501a) have been devised and will be used to cover claims in which insurance matures on or after August 1, 1946. This form letter and this new form are now available on usual requisition. Instructions appearing on VA Form 8–1501a explain all modes of settlement (options) fully and complete tables of values appear on the reverse side of the form. VA Form 8–1501 will continue to be used for insurance maturing prior to August 1, 1946 and FL 8–64 and FL 8–62 will continue to be used in sending out claims where the insurance matured prior to August 1, 1946.

(c) Section 9 also adds a new subsection (u) as follows:

(u) With respect to insurance maturing on or subsequent to the date of enactment of the Insurance Act of 1946, in any case in which the beneficiary is entitled to a lump-sum settlement but elects some other mode of settlement and dies before receiving all the benefits due and payable under such mode of settlement, the present value of the remaining unpaid amount shall be payable to the estate of the beneficiary; and in any case in which no beneficiary is designated by the insured, or the designated beneficiary does not survive the insured, or a designated beneficiary not entitled to choose a lump-sum settlement survives the insured, and dies before receiving all the benefits due and payable, the commuted value of the insurance remaining unpaid shall be paid in one sum to the estate of the insured: *Provided*, That in no event shall there be any payment to the estate of the insured or of the beneficiary of any sums unless it is shown that any sums paid will not escheat.

(d) Under this subsection the designated beneficiary who is entitled to payment in one sum and who survives the insured has a vested right to the insurance; therefore, the rights of a contingent beneficiary, if any, are extinguished. Where the designated beneficiary in any such case has elected settlement in monthly installments, in lieu of a one sum payment, and dies before receiving all of the installments certain, the present value of the remaining unpaid installments certain will be paid to such beneficiary's estate (see § 10.3490).

(e) Settlements under this subsection will be authorized to the personal representative (administrator or executor) of the estate of the insured or the beneficiary depending upon the circumstances of the particular case. The personal representative, in addition to filing claim, will be called upon to furnish: (i) Certified copy of letters of administration, or letters testamentary, bearing the signature and seal of the appointing court, (ii) certified copy of any bond which may have been required bearing the signature and seal of the appointing court, (iii) statement bearing signature and seal of the appointing court to the effect that the court has been advised of the amount of insurance payable to the estate of the insured (or of the beneficiary) or copy of petition for letters of administration or letters testamentary showing this amount. Before settlement is authorized to any estate it must be determined that there will be no escheat. Tables of commuted values are in course of preparation. Pending their completion the commuted value of remaining installments in any particular case will be furnished on request. Pending the devising of a new form for the exclusive use of executors and administrators VA Form 8–355 will be adapted for claims under this subsection.

(f) Section 9 also adds to section 602 a new subsection (w) as follows:

(w) Subject to the provisions of section 612 of the National Service Life Insurance Act of 1940, as amended, all contracts or policies of insurance heretofore or hereafter issued, reinstated, or converted shall be incontestable from the date of issue, reinstatement, or conversion except for fraud, non-payment of premium, or on the ground that the applicant was not a member of the military or naval forces of the United States.

(g) Claims for death benefits under contracts of National Service Life Insurance heretofore and hereafter issued, reinstated or converted may not be disallowed, if otherwise in order, except for the reasons set forth in the subsection above and for the reasons contained in section 612 of the National Service Life Insurance Act of 1940.

(h) Section 9 also adds to section 602 a new subsection (x) as follows:

(x) When an optional mode of settlement of insurance heretofore or hereafter matured is available to a beneficiary who is a minor or incompetent, such option may be exercised by his fiduciary, person qualified under Public Law 373, Seventy-second Congress, February 25, 1933 (47 Stat. 907; 25 U. S. C. 14), or person recognized by the Administrator as having custody of the person or the estate of such beneficiary, and the obligation of the United States under the insurance contract shall be fully satisfied by payment of benefits in accordance with the mode of settlement so selected.

(i) Under this subsection elections made by guardians and other fiduciaries on VA Form 8–1501 and VA Form 8–1501a will no longer require approval by the appointing court.

(j) Supplementary instructions will be furnished covering section 13.

FEDERAL POWER COMMISSION

[Docket No. G-843]

INTERSTATE NATURAL GAS CO., INC.

NOTICE OF APPLICATION

JANUARY 13, 1947.

Notice is hereby given that on January 7, 1947, Interstate Natural Gas Company, Incorporated (Applicant), a corporation organized under the laws of the State of Delaware, with its principal place of business in Monroe, Louisiana, filed an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended to authorize Applicant to construct and to operate facilities as follows:

An 8-inch gas pipe-line approximately twenty-six (26) miles in length, from a point in Section 31, Township 15 North, Range 3 East, Caldwell Parish, Louisiana, in the Vixen Gas Field extending through the southeast corner of Ouachita Parish into Richland Parish to a point of connection with Interstate's main transmission line in Section 10, Township 16 North, Range 6 East, together with a metering station.

Applicant states, the facilities above described will enable it to obtain natural gas from the Shell Oil Company Inc., under terms of a contract attached to and made a part of the application.

This contract provides for the delivery and sale of natural gas to the Applicant at the point of connection in Caldwell Parish in quantities to average ten million (10,000,000) cubic feet per day for ten years unless the wells in Vixen Field fail to meet production requirements as are specifically stated in the agreement. It further provides that the price per 1000 cubic feet of gas shall be five cents (5¢) for the first five years and for the last five years the price shall be determined by agreement or otherwise.

Applicant states that the total cost of the proposed facilities is estimated at $325,000.00, to be financed from cash on hand.

Applicant further states the purpose of the proposed facilities is to secure more natural gas for its present service to its main line customers under existing contracts and for normal additional business taken on by reason of the installation of the proposed facilities.

Any interested state or state commission is requested to notify the Federal Power Commission whether the application should be considered under the cooperative provisions of Rule 37 of the Commission's rules of practice and procedure, and, if so, to advise the Federal Power Commission as to the nature of its interest in the matter, and further to specify whether it desires a conference, the creation of a board, or a joint or concurrent hearing, together with the reasons for such request.

Any person desiring to be heard or to make any protest with reference to the application of Interstate Natural Gas Company incorporated should file with the Federal Power Commission, Washington 25, D. C., not later than 15 days from the date of publication of this notice in the FEDERAL REGISTER, a petition or protest in accordance with the Commission's rules of practice and procedure.

LEON M. FUQUAY,
Secretary.

SECURITIES AND EXCHANGE COMMISSION

[File Nos. 70-1422, 70-1423]

STANDARD GAS AND ELECTRIC CO. AND OKLAHOMA GAS AND ELECTRIC CO.

NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 9th day of January 1947.

Notice is hereby given that Standard Gas and Electric Company ("Standard"), a registered holding company and its subsidiary Oklahoma Gas and Electric Company ("Oklahoma Gas"), a public utility company, have filed separate applications or declarations pursuant to the Public Utility Holding Company Act of 1935 ("Act"). Standard has designated sections 11 (b) and 12 (d) of the act and Rules U-24, U-44 and U-50 promulgated thereunder as applicable to its proposed transactions; Oklahoma Gas has designated sections 6 and 7 of the act and Rules U-24 and U-50 promulgated thereunder as applicable to its proposed transactions.

Notice is further given that any interested person may not later than January 20, 1947 at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matters, or either of them, stating the nature of his interest, the reasons for such request and the issues of fact or law raised by said filings proposed to be controverted or may request that he be notified if the Commission should order a hearing thereon. At any time thereafter (unless the Commission should prior thereto, at the request of any interested person or on its own motion, order a hearing thereon) such applications or declarations, as filed or as amended, may be granted or may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under said act, or as otherwise provided under said act and rules and regulations, or the Commission may exempt such transactions, or either of them, as provided in Rules U-20 (a) and U-100 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania.

All interested persons are referred to said applications or declarations, which are on file in the office of the Commission, for a statement of the transactions therein proposed which are summarized below:

Standard proposes to sell all of the 750,000 shares (being all the presently issued and outstanding shares of common stock, of the par value of $20 per share) of Oklahoma Gas. The sale of such stock is to be made at competitive bidding pursuant to Rule U-50. Simultaneously with such sale, Oklahoma Gas proposes to issue and sell an additional issue of 140,000 shares of its common stock, also at competitive bidding pursuant to Rule U-50.

Standard will apply the proceeds of the aforesaid sale of 750,000 shares of common stock of Oklahoma Gas towards the payment of interest and principal on its promissory notes dated April 10, 1946 issued to various banks under the Bank Loan Agreement of Standard dated December 21, 1945, as supplemented by supplemental agreements dated February 15, 1946 and April 5, 1946 (copies of which are on file with this Commission in File No. 70-1211). It is represented that the proposed transactions are for the purpose of enabling Standard to comply with the provisions of subsection (b) of section 11 of the act and with the order of this Commission dated August 8, 1941 issued pursuant thereto, File No. 59-9.

Oklahoma Gas proposes to apply $1,470,000 of the net proceeds of the sale of the additional issue of 140,000 shares of its common stock to the prepayment, without premium, of an equal principal amount of its outstanding Serial Notes bearing interest at the rate of 1⅞ percent per annum and maturing in fourteen equal semi-annual installments; such prepayments are to be applied ratably to all the outstanding Serial Notes, thereby reducing each semi-annual installment from $605,000 to $500,000. Oklahoma Gas proposes to use the balance of the proceeds of the sale of said 140,000 shares together with additional funds generated from operations to provide funds for the acquisition and construction during 1947 of additions and betterments to its physical properties. This program represents a change from that originally proposed at the time of the issuance of the notes. The Serial Notes were issued in May of 1946, in a total amount of $9,075,000, of which $4,875,000 was issued to refund an equal amount of then outstanding notes and $4,200,000 of new notes was issued to provide funds for the redemption price of 33,978 shares of Seven Per Cent Cumulative Preferred Stock of Oklahoma Gas. At the time of the issuance of the notes it was contemplated that the new Serial Notes in the amount of $4,200,000 would be refunded by the sale of Common Stock at the first opportune time. However, Oklahoma Gas states that its business has increased so substantially since that time as to require acceleration during 1947 of its construction program in order to enable the Company better to meet the increasing demand for service. Oklahoma Gas, therefore, proposes to use only $1,470,000 of the net proceeds from the sale of common stock for the prepayment of its serial notes and to use the balance of the net proceeds to provide funds for the accelerated construction program for 1947. Oklahoma Gas states that it believes that the pro-

posed program is the best means of financing these expenditures for additional property, which it estimates will total $6,100,000, and further states that to the extent these expenditures exceed the amount of net proceeds from the sale of common stock applied to this purpose, it estimates that the additional funds can be provided from the cash accrued during 1947 as a result of non-cash charges to income or surplus for depreciation or amortization.

Both Standard and Oklahoma Gas have requested that the ten-day notice period for inviting bids as provided for by subsection (b) of Rule U–50 be shortened to six days so as to minimize the possibility of the postponement of the opening of bids due to a change of market conditions between the time the day of opening of bids is designated and such day. In this connection, the applicants have not designated a day certain on which bids are to be opened, but they propose to advise this Commission by telegram on the day preceding the publication of a public invitation for bids to purchase the common stock of Oklahoma Gas of their intention so to do and the proposed date of opening of such bids.

Standard further requests that this Commission find that the sale of the 750,000 shares of common stock of Oklahoma Gas by Standard is necessary or appropriate to effectuate the provisions of section 11 (b) of the act and make the specifications and itemizations necessary in order that the provisions of sections 371 (b), 371 (f) and 1808 (f) of the Internal Revenue Code shall be applicable.

A declaration of Oklahoma Gas, dated October 1, 1943, as subsequently amended, which became effective by order of this Commission dated October 28, 1943, included the following undertaking of Oklahoma Gas:

During the 10-year period beginning September 1, 1943, the Company will not declare or pay any dividend on its capital stock of any class now outstanding or which hereafter may be issued (other than a dividend payable solely in shares of common stock), or make any other distribution on or acquire any shares of its common stock, which would reduce its earned surplus accumulated after August 31, 1943, below an amount equal to $450,000 for each year of such period then elapsed, less any amounts by which the Utility Plant account of the Company (excepting Franchises and Consents) shall have been amortized subsequent to September 1, 1943, in accordance with a program filed with regulatory authorities having jurisdiction or with an order issued by any such authority, whether such amortization shall have been effected through charges to income or charges to earned surplus accumulated after August 31, 1943: *Provided, however*, That to the extent that the capital of the Company shall have been increased to an amount in excess of $15,000,000 through the issuance and sale of common stock, there shall be a corresponding reduction in the amount of earned surplus restricted as a result of the foregoing provision, except that if the Company shall issue or sell common stock while any of the Serial Notes to be presently issued are outstanding, such reduction shall be limited to the amount by which such Notes are retired by use of the proceeds from the issuance or sale of such common stock. Earned surplus restricted in accordance with the provisions of this paragraph shall not be available for the declaration of dividends at any time.

Oklahoma Gas proposes to rescind and nullify the above-recited undertaking and requests an order permitting it to do so.

By the Commission.

UNITED CORP.

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 9th day of January 1947.

The United Corporation ("United"), a registered holding company, having filed a declaration pursuant to section 12 (c) of the Public Utility Holding Company Act of 1935 and Rule U-46 of the rules and regulations promulgated thereunder regarding the following proposed transactions:

United proposes to declare and pay the quarterly dividend of 75 cents per share which will accrue on its $3 Cumulative Preference Stock on January 1, 1947.

As of December 18, 1946, United had outstanding 1,136,199 shares of $3 Preference Stock. However, the number of shares of such stock which may be outstanding on the record date of the proposed dividend cannot be determined at this time, since the company is proceeding with the purchase of a limited number of the shares of such stock as authorized by the Commission's Order of August 9, 1946 (Holding Company Act Release No. 6936). Based on the number of shares outstanding as of December 18, 1946, the proposed dividend would amount to $852,149. United's entire balance in Earned Surplus, estimated at $766,000 as of January 1, 1947, will be utilized for the payment of such dividends, and the remaining part of the aggregate amount of such dividend will be charged to unrestricted capital surplus which as of November 30, 1946 amounted to $29,557,236.

The proposed transaction is described as a facilitating step in a program contemplated by United to effectuate further partial compliance with the Commission's Order of August 14, 1943, directing United to change its capitalization to one class of stock, namely, common stock, and to take such action as will cause it to cease to be a holding company. As part of such program, United, pursuant to authorization contained in the Commission's orders of July 17, 1946 and September 27, 1946 (Holding Company Act Release Nos. 6787 and 6921), has paid in full all dividends on its $3 Preference Stock accumulated up to and including October 1, 1946 and contemplates the filing of plans, which are not before us for approval at this time, providing for further compliance with the Commission's Order of August 14, 1943.

The declaration having been filed on December 23, 1946 and notice of filing having been duly given in the manner and form prescribed by Rule U-23 under said act and the Commission not having received a request for hearing with respect thereto within the period specified in such notice or otherwise and the Commission not having ordered a hearing thereon; and

The Commission finding that the requirements of section 12 (c) of the act and Rule U-46 thereunder are satisfied and that no adverse findings are necessary thereunder, and deeming it appropriate in the public interest and the interests of investors and consumers to permit said declaration to become effective;

It is hereby ordered, Effective forthwith, pursuant to Rule U–23 and the applicable provisions of the Act and subject to the terms and conditions prescribed in Rule U-24, that the said declaration be, and the same hereby is, permitted to become effective: *Provided, however*, That the Commission's action in permitting the declaration to become effective shall not be construed as a determination that such dividend payment is or is not taxable to the recipient pursuant to the provisions of the Internal Revenue Code.

By the Commission.

FRONTIER POWER CO. AND J. G. WHITE CO., INC.

ORDER GRANTING APPLICATION AND PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 10th day of January A. D. 1947.

A joint application-declaration, and amendments thereto, having been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935, particularly sections 6 (a), 7, 9 (a), 10, 12 (b), 12 (c) and 12 (f) thereof, by J. G. White & Company, Inc. ("White"), an exempt holding company,[1] and its public utility subsidiary, Frontier Power Company ("Frontier"), regarding the following proposed transactions:

Frontier, a Colorado corporation, proposes to change its present authorized capital stock, consisting of 20,000 shares of common stock of the par value of $100 per share, all of which is issued and outstanding, to 140,000 shares of common stock of the par value of $5 per share, and to issue such new stock to its present common stockholders, on a pro rata basis, in exchange for the 20,000 shares of $100 par value common stock presently outstanding. White, as the owner of 13,333 shares of Frontier's common stock, $100 par value per share, will receive 93,331 shares of Frontier's new common stock. The difference between the aggregate par amount of the present common stock of Frontier ($2,000,000) and the proposed aggregate par amount of the new common stock ($700,000), amounting to $1,300,000, will be credited to capital surplus. Frontier also proposes to issue to White its note in the amount of $207,000, to be dated September 30, 1946 and bearing interest at the rate of 2½% per annum, in exchange for its presently outstanding note of like amount held by White which matured on September 30, 1946. The new note is to be payable at the rate of $20,000 per annum with a final installment of $127,000 due at the end of five years from the date thereof. The New Mexico Public Service Commission, the only State commission represented to have jurisdiction in respect of the proposed transactions, has authorized the issuance of such new common stock and note.

Said application-declaration having been filed on November 13, 1946 and notice of said filing having been duly given in the form and manner prescribed by Rule U–23 promulgated pursuant to said act and the Commission not having received a request for hearing with respect to said application-declaration within the period specified in said notice or otherwise and not having ordered a hearing thereon; and

The Commission finding with respect to said application-declaration, as amended, that the requirements of the applicable provisions of the act and the rules thereunder are satisfied and deeming it appropriate in the public interest and in the interest of investors and consumers that said application-declaration, as amended, be granted and permitted to become effective; and

Applicants-declarants having requested that the Commission's order in respect of this matter become effective immediately upon issuance thereof and the Commission deeming it appropriate to grant such request:

It is hereby ordered, Pursuant to Rule U–23 and the applicable provisions of the act and subject to the terms and conditions prescribed in Rule U–24, that the aforesaid application-declaration, as amended, be, and the same hereby is, granted and permitted to become effective forthwith.

By the Commission.

[1] In connection with the acquisition of its interests in Frontier, White (which is primarily engaged in the investment banking business) was granted a temporary exemption from the act, pursuant to section 3 (a) (4), except that White and its subsidiaries as such were not exempt from the provisions of sections 6, 7, 9, 10, 12 (b), 12 (c) and 12 (f) of the act insofar as these sections concern Frontier. White, in addition to its interests in Frontier, has interests in certain foreign public utility companies in respect of which it has been granted exemption as a holding company pursuant to section 3 (a) (5) of the act. BANKERS SECURITIES CORP. ET AL.

NOTICE OF APPLICATION, STATEMENT OF ISSUES, ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 13th day of January A. D. 1947.

In the matter of Bankers Securities Corporation, City Stores Company, and R. H. White Realty Company, File No. 812–474.

Notice is hereby given that Bankers Securities Corporation ("Bankers"), City Stores Company ("City") and R. H. White Realty Company ("Realty") have filed an application pursuant to section 17 (b) of the Investment Company Act of 1940 for an order of the Commission exempting from the provisions of section 17 (a) of the act the proposed sale by Realty to City of 3,000 shares of the former's preferred stock at par or a total consideration of $300,000.

Bankers is a closed-end, management, nondiversified investment company and is registered under the Investment Company Act of 1940.

Bankers owns 78.7% of the voting securities of City. City owns all of the issued and outstanding shares of R. H. White Corporation. R. H. White Corporation owns all of the issued and outstanding stock of Realty.

The sale of such shares by an affiliated person of a registered investment company (Realty) to a company controlled by such registered investment company (City) is prohibited by section 17 (a) of the act.

The applicants have therefore filed an application pursuant to section 17 (b) of the act for an order of the Commission exempting the proposed transaction from the provisions of section 17 (a) of the act, and they assert that the proposed transaction meets the standards and requirements of section 17 (b).

All interested persons are referred to said application which is on file in the offices of the Commission for a more detailed statement of the proposed transaction and the matters of fact and law asserted.

The Corporation Finance Division of the Commission has advised the Commission that upon a preliminary examination of the application, it deems the following issues to be raised thereby without prejudice to the specification of additional issues upon further examination:

(1) Whether the proposed transaction is fair and reasonable;

(2) Whether the proposed transaction involves overreaching on the part of any person concerned;

(3) Whether the proposed transaction is consistent with the policy of Bankers Securities Corporation as recited in its registration statement and reports filed under the act;

(4) Whether the proposed transaction is consistent with the general purposes of the act.

It appearing to the Commission that a hearing upon the application is necessary and appropriate:

It is ordered, Pursuant to section 40 (a) of said act, that a public hearing on the aforesaid application be held on January 27, 1947, at 10 a. m., Eastern Standard Time, Room 318 in the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania.

It is further ordered, That Richard Townsend, or any officer or officers of the Commission designated by it for that purpose shall preside at the hearing and any officer or officers so designated to preside at any such hearing is hereby authorized to exercise all of the powers granted to the Commission under sections 41 and 42 (b) of the Investment Company Act of 1940 and to hearing officers under the Commission's rules of practice.

Notice of such hearing is hereby given to the above-mentioned Bankers Securities Corporation, City Stores Company and R. H. White Realty Company, and to any other person or persons whose participation in such proceedings may be in the public interest or for the protection of investors. COSTS AND EXPENSES INCURRED IN CERTAIN ACTIONS OR PROCEEDINGS IN CERTAIN NEW YORK COURTS

Under the authority of the Trading with the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it having been found:

1. That each of the persons named in Column 1 of Exhibit A, attached hereto and by reference made a part hereof, was a person within the designated enemy country or the enemy-occupied territory identified in Column 2 of said Exhibit A opposite such person's name;

2. That it was in the interest of the United States to take measures in connection with representing each of said persons in the court or administrative action or proceeding identified in Column 3 of said Exhibit A opposite such person's name, and such measures having been taken;

3. That as a result of such action or proceeding each of said persons obtained or was determined to have the property particularly described in Column 4 of said Exhibit A opposite such person's name;

4. That such property is in the possession or custody of, or under the control of, the person described in Column 5 of said Exhibit A opposite such property;

5. That, in taking such measures in each of such actions or procedings, costs and expenses have been incurred in the amount stated in Column 6 of said Exhibit A opposite such action or proceeding:

Now, therefore, there is hereby vested in the Attorney General of the United States, to be used or otherwise dealt with in the interest of and for the benefit of the United States, interests in the property in the possession or custody of, or under the control of, the persons described in Column 5 of said Exhibit A in amounts equal to the sums stated in Column 6 of said Exhibit A.

The term "designated enemy country" as used herein shall have the meaning prescribed in section 10 of Executive Order 9193, as amended. The term "enemy-occupied territory" as used herein shall have the meaning prescribed in rules of procedure, Office of Alien Property, § 501.6 (8 CFR, Cum. Supp., 503.6).

TITLE 7—AGRICULTURE

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders)

[Grapefruit Reg. 80]

PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN THE STATE OF FLORIDA

LIMITATION OF SHIPMENTS

§ 933.324 *Grapefruit Regulation 80*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and the order, as amended (7 CFR, Cum. Supp., 933.1 et seq.; 11 F. R. 9471), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, issued under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of grapefruit, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong.; 60 Stat. 237) is impracticable and contrary to the public interest in that the time intervening between the date when information upon which this regulation is based became available and the time when this regulation must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient for such compliance.

(b) *Order.* (1) During the period beginning at 12:01 a. m., e. s. t., January 20, 1947, and ending at 12:01 a. m., e. s. t., February 3, 1947, no handler shall ship:

(i) Any grapefruit of any variety, grown in the State of Florida, which grade U. S. No. 3, or lower than U. S. No. 3 grade (as such grades are defined in the United States standards for citrus fruits (11 F. R. 13239));

(ii) Any seeded grapefruit, other than pink grapefruit, grown in the State of Florida, which are of a size smaller than a size that will pack 80 grapefruit, packed in accordance with the requirements of a standard pack (as such pack is defined in the aforesaid United States standards), in a standard box (as such box is defined in the standards for containers for citrus fruit established by the Florida Citrus Commission pursuant to section 3 of Chapter 20449, Laws of Florida, Acts of 1941 (Florida Laws Annotated § 595.09));

(iii) Any seedless grapefruit, other than pink grapefruit, grown in the State of Florida, which are of a size smaller than a size that will pack 96 grapefruit, packed in accordance with the requirements of a standard pack (as such pack is defined in the aforesaid United States standards), in a standard box (as such box is defined in the aforesaid standards for containers for citrus fruit); or

(iv) Any pink grapefruit, grown in the State of Florida, which are of a size smaller than a size that will pack 126 grapefruit, packed in accordance with the requirements of a standard pack (as such pack is defined in the aforesaid United States standards), in a standard box (as such box is defined in the aforesaid standards for containers for citrus fruit).

(2) As used herein, "variety," "handler," and "ship" shall have the same meaning as is given to each such term in said amended marketing agreement and order. (48 Stat. 31, 670, 675; 49 Stat. 750; 50 Stat. 246; 7 U. S. C. 601 et seq.)

amended marketing agreement and the order, as amended (7 CFR, Cum. Supp., 933.1 et seq.; 11 F. R. 9471), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, issued under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of tangerines, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong.; 60 Stat. 237) is impracticable and contrary to the public interest in that the time intervening between the date when information upon which this regulation is based became available and the time when this regulation must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient for such compliance.

(b) *Order.* (1) During the period beginning at 12:01 a. m., e. s. t., January 20, 1947, and ending at 12:01 a. m., e. s. t., February 3, 1947, no handler shall ship:

(i) Any tangerines, grown in the State of Florida, which grade U. S. No. 2 Russet, U. S. No. 3, or lower than U. S. No. 3 grade (as such grades are defined in the U. S. Standards for Tangerines, issued by the United States Department of Agriculture, effective September 29, 1941, as amended);

(ii) Any tangerines, grown in the State of Florida, which are of a size smaller than the size that will pack 210 tangerines, packed in accordance with the requirements of a standard pack (as such pack is defined in the aforesaid U. S. Standards), in a half-standard box (inside dimensions 9½ x 9½ x 19⅛ inches; capacity 1,726 cubic inches); or

(iii) Any tangerines, grown in the State of Florida, which are of a size larger than the size that will pack 120 tangerines, packed in accordance with the requirements of a standard pack (as such pack is defined in the aforesaid U. S. Standards), in a half-standard box (inside dimensions 9½ x 9½ x 19⅛ inches; capacity 1,726 cubic inches).

(2) As used herein, "handler" and "ship" shall have the same meaning as is given to each such term in said amended marketing agreement and order.

(48 Stat. 31, 670, 675; 49 Stat. 750; 50 Stat. 246; 7 U. S. C. 601 et seq.)

PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN THE STATE OF FLORIDA

LIMITATION OF SHIPMENTS

§ 933.323 *Orange Regulation 108*—(a) *Findings.* (1) Pursuant to the amended marketing agreement and the order, as amended (7 CFR, Cum. Supp., 933.1 et seq.; 11 F. R. 9471), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, issued under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong.; 60 Stat. 237) is impracticable and contrary to the public interest in that the time intervening between the date when information upon which this regulation is based became available and the time when this regulation must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient for such compliance.

(b) *Order.* Except as otherwise provided in paragraph (b) (2) of this section:

(1) During the period beginning at 12:01 a. m., e. s. t., January 20, 1947, and ending at 12:01 a. m., e. s. t., February 3, 1947, no handler shall ship:

(i) Any oranges, including Temple oranges, grown in the State of Florida, which grade U. S. Combination Russet, U. S. No. 2 Russet, U. S. No. 3, or lower than U. S. No. 3 grade, as such grades are defined in the United States standards for citrus fruits (11 F. R. 13239); or

(ii) Any oranges, except Temple oranges, grown in the State of Florida, which are of a size smaller than a size that will pack 250 oranges, packed in accordance with the requirements of a

standard pack (as such pack is defined in the aforesaid United States standards), in a standard box (as such box is defined in the standards for containers for citrus fruit established by the Florida Citrus Commission pursuant to section 3 of Chapter 20449, Laws of Florida, Acts of 1941 (Florida Laws Annotated § 595.09)).

(2) During the period specified in paragraph (b) (1) of this section, no handler shall ship any oranges which are included in the variety comprising Valencia, Lue Gim Gong, and similar late-maturing oranges of the Valencia type:

(i) Which grade U. S. No. 1 Russet, U .S. No. 2. U. S. Combination Russet, U. S. No. 2 Russet, U. S. No. 3, or lower than U. S. No. 3 grade, as such grades are defined in the United States standards for citrus fruits (11 F. R. 13239); or

(ii) Which are of a size larger than a size that will pack 176 oranges, packed in accordance with the requirements of a standard pack (as such pack is defined in the aforesaid United States standards), in a standard box (as such box is defined in the standards for containers for citrus fruit established by the Florida Citrus Commission pursuant to Section 3 of Chapter 20449, Laws of Florida, Acts of 1941 (Florida Laws Annotated § 595.09)).

(3) As used herein, "handler," "variety," and "ship" shall have the same meaning as is given to each such term in said amended marketing agreement and order.

PART 955—GRAPEFRUIT GROWN IN THE STATE OF ARIZONA; IN IMPERIAL COUNTY, CALIFORNIA; AND IN THAT PART OF RIVERSIDE COUNTY, CALIFORNIA, SITUATED SOUTH AND EAST OF THE SAN GORGONIO PASS

LIMITATION OF SHIPMENTS

§ 955.303 *Grapefruit Regulation 42*—(a) *Findings.* (1) Pursuant to the marketing agreement and the order (7 CFR, Cum. Supp., 955.1 et seq.) regulating the handling of grapefruit grown in the State of Arizona; in Imperial County, California; and in that part of Riverside County, California, situated south and east of the San Gorgonio Pass, issued under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendation of the Administrative Committee established under the said marketing agreement and the said order, and upon other available information, it is hereby found that the limitation of shipments of such grapefruit, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. (i) Any grapefruit grown in the State of Arizona; in Imperial County, California; or in that part of Riverside County, California, situated south and east of the San Gorgonio Pass, which grade lower than U. S. No. 2 grade, as such grades are defined in the U. S. Standards for California and Arizona Grapefruit, issued by the United States Department of Agriculture, effective March 15, 1941; or

(ii) From the State of California or the State of Arizona (*a*) to any point outside thereof in the United States, any such grapefruit which are of a size smaller than $3\frac{11}{16}$ inches in diameter, or (*b*) to any point outside thereof in Canada, any such grapefruit which are of a size smaller than $3\frac{9}{16}$ inches in diameter ("diameter" in each case to be measured midway at a right angle to a straight line running from the stem to the blossom end of the fruit), except that a tolerance of 5 percent, by count, of grapefruit smaller than such minimum sizes shall be permitted, which tolerances shall be applied in accordance with the provisions for the application of tolerances, specified in the said U. S. Standards for California and Arizona Grapefruit: *Provided,* That in determining the percentage of grapefruit in any lot which are smaller than $3\frac{11}{16}$ inches in diameter, such percentage shall be based only on the grapefruit in such lot which are of a size $4\frac{2}{16}$ inches in diameter and smaller; and in determining the percentage of grapefruit in any lot which are smaller than $3\frac{9}{16}$ inches in diameter, such percentage shall be based only on the grapefruit in such lot which are of the size $3\frac{13}{16}$ inches in diameter and smaller.

(2) As used herein, "handler" and "ship" shall have the same meaning as is given to each such term in said marketing agreement and order.

[Lemon Reg. 205]

PART 953—LEMONS GROWN IN THE STATES OF CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 953.312 *Lemon Regulation 205*—(a) *Findings.* (1) Pursuant to the marketing agreement and the order (7 CFR, Cum. Supp., 953.1 et seq.), regulating the handling of lemons grown in the State of California or in the State of Arizona, issued under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong., 2d Sess.; 60 Stat. 237) is impracticable and contrary to the public interest in that the time intervening between the date when information upon which the regulation is based became available and the time when this regulation must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient for such compliance.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., January 19, 1947, and ending at 12:01 a. m., P. s. t., January 26, 1947, is hereby fixed at 250 carloads, or an equivalent quantity.

(2) The prorate base of each handler who has made application therefor, as provided in the said marketing agreement and order, is hereby fixed in accordance with the prorate base schedule which is attached hereto and made a part hereof by this reference. The Lemon Administrative Committee, in accordance with the provisions of the said marketing agreement and order, shall calculate the quantity of lemons which may be handled by each such handler during the period specified in subparagraph (1) of this paragraph.

(3) As used in this section, "handled," "boxes," "handler," "carloads," and "prorate base" shall have the same meaning as is given to each such word in the said marketing agreement and order.

[Orange Reg. 161]

PART 966—ORANGES GROWN IN THE STATES OF CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 966.307 *Orange Regulation 161*—(a) *Findings.* (1) Pursuant to the provisions of the order (7 CFR, Cum. Supp., 966.1 et seq.) regulating the handling of oranges grown in the State of California or in the State of Arizona, issued under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendation and information submitted by the Orange Administrative Committee, established under the said order, and upon other available information, it is hereby found that the limitation of the quantity of such oranges which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong., 2d Sess.; 60 Stat. 237) is impracticable and contrary to the public interest in that the time intervening between the date when information upon which this regulation is based became available and the time when this regulation must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient for such compliance.

(b) *Order.* (1) The quantity of oranges grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., January 19, 1947, and ending at 12:01 a. m., P. s. t., January 26, 1947, is hereby fixed as follows:

(i) *Valencia organes.* (*a*) Prorate Districts Nos. 1, 2, and 3, no movement.

(ii) *Oranges other than Valencia oranges.* (*a*) Prorate District No. 1, 600 carloads; (*b*) Prorate District No. 2, 600 carloads; and (*c*) Prorate District No. 3, unlimited movement.

(2) The prorate base of each handler who has made application therefor, as provided in the said order, is hereby fixed in accordance with the prorate base schedule which is attached hereto and made a part hereof by this reference. The Orange Administrative Committee, in accordance with the provisions of the said order, shall calculate the quantity of oranges which may be handled by each such handler during the period specified in subparagraph (1) of this paragraph.

(3) As used herein, "handled," "handler," "carloads," and "prorate base" shall have the same meaning as is given to each such term in the said order; and "Prorate District No. 1," "Prorate District No. 2," and "Prorate District No. 3" shall have the same meaning as is given to each such term in § 966.107 of the rules and regulations (11 F. R. 10258) issued pursuant to said order. (48 Stat. 31, 670, 675; 49 Stat. 750; 50 Stat. 246; 7 U. S. C. 601 et seq.)

Chapter I—Civil Aeronautics Board

[Regs. Serial No. 384]

PART 280—FORMS AND APPLICATIONS

REPORTS OF OWNERSHIP OF STOCK AND OTHER INTERESTS BY OFFICERS AND DIRECTORS OF AIR CARRIERS

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 3d day of January 1947.

The Civil Aeronautics Board, acting pursuant to the Civil Aeronautics Act of 1938, as amended, particularly section 205 (a), and for the purpose of implementing section 407 (c) thereof; having afforded interested persons an opportunity to participate in the making of this revision, having given full consideration to all relevant matters presented; and finding that it is desirable that all reports covering the past year be uniform, and that this fact constitutes good cause for making this regulation effective without delay; hereby amends § 280.1 of the Economic Regulations in its entirety, to read as follows, effective January 3, 1947:

§ 280.1 *Reports of ownership of stock and other interests by officers and directors of air carriers*—(a) *Report required.* At the times and in the manner hereinafter provided, each officer and each director of each air carrier shall transmit to the Board a report describing the shares of stock or other interests held by him in any air carrier, any person engaged in any phase of aeronautics, or any common carrier, and in any person whose principal business, in purpose or in fact, is the holding of stock in, or control of, air carriers, other persons engaged in any phase of aeronautics, or common carriers.

(b) *Time for reporting.* Not more than thirty days after such officer or director is first elected or appointed, a report shall be filed covering the period from January 1st of the preceding year to the date of election or appointment; subsequently, a report shall be filed, on or before March 1st of each year, covering such portion of the preceding calendar year as has not been previously reported, or the full year if he so desires.

(c) *Schedule of data.* Such report shall be prepared in accordance with the following schedule:

SCHEDULE

I. *Data as to individual reporting.*

1. Name;
2. Address;
3. Principal occupation;
4. All air carrier positions held (indicate title of position and name of air carrier); and
5. Positions held as officer, director or member of (1) common carriers (other than air); (2) enterprises engaged in any other phases of aeronautics; (3) enterprises whose principal business is that of holding securities and/or control of air carriers, common carriers, and enterprises which are engaged in any other phases of aeronautics (giving title of position and name of company or enterprise).
6. Append the following declaration to the report: "I hereby declare that this report, including documents attached hereto has been examined by me, and to the best of my knowledge and belief is a true, correct, and complete report, made in good faith, for the period stated." Execute the declaration, affixing date and signature.

II. *Data as to stock or other interests.* The categories for which data shall be set forth are as follows: (1) Interests held in air carriers, (2) Interests held in other common carriers, (3) Interests held in any enterprise engaged in any phase of aeronautics other than air carriers, (4) Interests held in enterprises whose principal business is that of holding securities and/or control of air carriers, other common carriers, or enterprises which are engaged in any phase of aeronautics other than air carrier. For each of the foregoing categories, the following data shall be set forth:

A. Name of enterprise (corporate or otherwise) in which interest is or was held at any time during the period covered by report.

B. Class of interest, such as common stock, preferred stock, rights, options, etc.; and description of bonds, notes, or other instruments evidencing interest or ownership. (Give names and addresses of all persons: (1) by whom any part of the foregoing items were held for reporting individual, (2) for whom any part of the foregoing items were held by reporting individual; (3) who held joint interest with reporting individual in any part of the foregoing items, and state nature of the relationship and the principal business of such persons.)

C. Number of shares or amount of each item reported under "B" held as of the last day of the period covered by report.

D. On all items reported under "C" which equal 5% or more of the total outstanding amount of the same class, show such percentages.

E. Indicate by "Yes" or "No" whether reporting individual controlled and/or exercised ALL voting rights of the items reported under "B". If the answer is "No", state amount of voting rights not controlled or exercised by reporting individual and give the names, addresses, and principal business of persons controlling and/or exercising such voting rights.

F. Maximum amount held during period covered by report.

G. On all items reported under "F" which equal 5% or more of the total then outstanding amount of the same class, show such percentages.

H. Minimum amount held during period covered by report.

(d) *General.* The reporting requirements contained in this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942; and C. A. B. Form 2786 (prepared in conformity with the Schedule) is available on request for the convenience of individuals reporting.

(52 Stat. 984, 1000, as amended; 49 U. S. C. 425, 487)

PART 3—DIGEST OF CEASE AND DESIST ORDERS

JACOB SIEGEL CO.

§ 3.6 (c) *Advertising falsely or misleadingly—Composition of goods:* § 3.55 *Furnishing means and instrumentalities of misrepresentation or deception:* § 3.96 (a) *Using misleading name—Goods—Composition.* In connection with the offering for sale, sale and distribution in commerce, of respondent's coats designated "Alpacuna" coats, or any other coats of substantially similar composition, under whatever name sold, (1) representing that respondent's coats contain guanaco hair; (2) representing that the Angora goat hair or mohair used in respondent's coats is imported from Turkestan or any other foreign country; (3) representing through the use of drawings or pictorial representations, or in any other manner, that respondent's coats contain fibers or materials which they do not in fact contain; (4) representing that coats made of fabrics which have a cotton backing are composed entirely of wool or of wool and hair; (5) using any advertising matter or causing, aiding, encouraging, or promoting the use by dealers of any advertising matter which purports to disclose the constituent fibers or materials of coats composed in part of cotton, unless such advertising matter clearly discloses such cotton content along with such other fibers or materials; or, (6) using the word "Alpacuna", or any other word which in whole or in part is indicative of the word "vicuna", to designate or describe respondent's coats, or otherwise representing, directly or by implication, that respondent's coats contain vicuna fiber; prohibited, subject to the provision, however, that nothing herein shall prohibit use of the word Alpacuna to refer to respondent's garments if in immediate connection and conjunction therewith, wherever used, there appear words clearly and conspicuously designating all the constituent materials or fibers therein contained. (Sec. 5, 38 Stat. 719, as amended by sec. 3, 52 Stat. 112; 15 U. S. C., sec. 45) [Modified cease and desist order, Jacob Siegel Company, Docket 3403, December 5, 1946]

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 5th day of December A. D. 1946.

This proceeding having heretobefore been heard by the Federal Trade Commission and an order to cease and desist having heretobefore been entered by it, which order was reversed pursuant to a

mandate of the Supreme Court of the United States by the United States Circuit Court of Appeals for the Third Circuit on May 23, 1946, and remanded to the Commission for further proceedings in conformity with the opinion of the Supreme Court, particularly for the Commission to consider and determine whether qualifying language or some change of name short of excision would eliminate the deception which the Commission found lurking in respondent's trade name "Alpacuna," and in the judgment of the Commission adequately satisfy the ends of the Federal Trade Commission Act and at the same time save said trade name;

And the Commission having further considered said matter, and being of the opinion that the deception resulting from the use of said trade name can be eliminated by the use, in connection with said name, of qualifying or explanatory language as hereinafter set forth, the Commission now issues this its modified order to cease and desist:

It is ordered, That the respondent, Jacob Siegel Company, a corporation, and its officers, representatives, agents, and employees, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act, of respondent's coats designated "Alpacuna" coats, or any other coats of substantially similar composition, under whatever name sold, do forthwith cease and desist from:

1. Representing that respondent's coats contain guanaco hair.

2. Representing that the Angora goat hair or mohair used in respondent's coats is imported from Turkestan or any other foreign country.

3. Representing through the use of drawings or pictorial representations, or in any other manner, that respondent's coats contain fibers or materials which they do not in fact contain.

4. Representing that coats made of fabrics which have a cotton backing are composed entirely of wool or of wool and hair.

5. Using any advertising matter or causing, aiding, encouraging, or promoting the use by dealers of any advertising matter which purports to disclose the constituent fibers or materials of coats composed in part of cotton, unless such advertising matter clearly discloses such cotton content along with such other fibers or materials.

6. Using the word "Alpacuna", or any other word which in whole or in part is indicative of the word "vicuna", to designate or describe respondent's coats, or otherwise representing, directly or by implication, that respondent's coats contain vicuna fiber; provided, however, that nothing herein shall prohibit use of the word Alpacuna to refer to respondent's garments if in immediate connection and conjunction therewith, wherever used, there appear words clearly and conspicuously designating all the constituent materials or fibers therein contained.

It is further ordered, That the respondent shall, within sixty (60) days after service upon it of this modified order, file with the Commission a report in writing setting forth in detail the manner and form in which it has complied with this order.

It is further ordered, That no provision in this order shall be construed as relieving respondent in any respect of the necessity of complying with the requirements of the Wool Products Labeling Act of 1939 and the authorized rules and regulations thereunder.

By the Commission.

Secretary.

(Sec. 5, 38 Stat. 719, as amended by sec. 3, 52 Stat. 112; 15 U. S. C., sec. 45b) [Cease and desist order, Williams S. L. K. Laboratories, Docket 5179, December 6, 1946]

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 6th day of December A. D. 1946.

In the Matter of H. L. Williams, an Individual Trading as Williams S. L. K. Laboratories

This proceeding having been heard by the Federal Trade Commission upon the complaint (respondent having filed no answer herein) and a stipulation as to the facts entered into between the respondent herein and Richard P. Whiteley, Assistant Chief Counsel for the Commission, which stipulation provides, among other things, that without further evidence or other intervening procedure the Commission may issue and serve upon the respondent herein findings as to the facts and conclusion based thereon and an order disposing of the proceeding, and the Commission having made its findings as to the facts and its conclusion that said respondent has violated the provisions of the Federal Trade Commission Act:

It is ordered, That the respondent, H. L. Williams, trading as Williams S. L. K. Laboratories, or under any other name, his representatives, agents, and employees, directly or through any corporate or other device, in connection with the offering for sale, sale, and distribution of respondent's medicinal preparations "Rux Compound" and "Williams Formula," or any other medicinal preparations of substantially similar composition or possessing substantially similar properties, whether sold under the same names or under any other names, do forthwith cease and desist from directly or indirectly:

1. Disseminating or causing to be disseminated, by means of the United States mails or by any means in commerce, as "commerce" is defined in the Federal Trade Commission Act, any advertisement which represents, directly or by implication:

A. With respect to said medicinal preparation "Rux Compound":

(1) That said preparation will salicylate the system.

(2) That said preparation constitutes a proved method for relieving rheumatic pains.

(3) That the ingredients of said preparation will be absorbed in the blood stream within any specific period of time.

(4) That said preparation will reduce congestion of the joints in rheumatism.

(5) That said preparation affords complete or permanent relief from the pain of rheumatism.

(6) That irritating acids accumulate in the kidneys, or that said preparation will flush out the kidneys.

(7) That said preparation will keep the blood alkaline.

(8) That the ingredients of said preparation, or any of them, act directly upon the source or cause of pain.

(9) That said preparation is unexcelled as an antipyretic and analgesic for common pains and agony.

(10) That neuralgia spasms are caused by a toxic condition, or that said preparation will relieve the pain of neuralgia spasms.

(11) That said preparation has any therapeutic value in the relief of pain in excess of providing temporary relief of minor pain.

B. With respect to said medicinal preparation "Williams Formula":

(1) That said preparation will stimulate digestion.

(2) That its use

(a) Eliminates waste material from the kidneys.

(b) Builds up the quality of the blood.

(3) That said preparation is an iron tonic which will significantly increase the hemoglobin content of the blood.

(4) That said preparation contains natural herbs.

(5) That said preparation is the equivalent of several good medicines.

(6) That said preparation will act on the whole digestive system.

(7) That said preparation is effective in the treatment of constipation in excess of affording temporary relief by reason of its laxative qualities.

(8) That said preparation will relieve irritated kidneys.

2. Disseminating or causing to be disseminated, by means of the United States mails or by any means in commerce, as "commerce" is defined in the Federal Trade Commission Act, any advertisement which fails to reveal that the medicinal preparation "Williams Formula" should not be used by one suffering from abdominal pains, nausea, vomiting, or any other symptom of appendicitis; provided, however, that any such advertisement need contain only the statement, "Caution: Use Only as Directed," if and when the directions for use, wherever they appear, on the label, in the labeling, or both on the label and in the labeling, contain a warning to the above effect.

3. Disseminating or causing to be disseminated, by any means, for the purpose of inducing, or which is likely to induce, directly or indirectly, the purchase in commerce, as "commerce" is defined in the Federal Trade Commission Act, of respondent's said preparations, any advertisement which contains any representation prohibited in paragraph 1 hereof or which fails to comply with the provisions of paragraph 2 hereof.

It is further ordered, That the respondent shall, within sixty (60) days after service upon him of this order, file with the Commission a report in writing setting forth in detail the manner and form in which he has complied with this order.

By the Commission.

TITLE 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs, Department of the Treasury

[T. D. 51601]

PART 6—AIR COMMERCE REGULATIONS

REDESIGNATION OF BAUDETTE MUNICIPAL AIRPORT, BAUDETTE, MINN., AS AN AIRPORT OF ENTRY

JANUARY 13, 1947.

The Baudette Municipal Airport, Baudette, Minnesota, is hereby designated as an airport of entry for civil aircraft and merchandise carried thereon arriving from places outside the United States, as defined in section 9 (b) of the Air Commerce Act of 1926 (U. S. C. title 49, sec. 179 (b)), for a period of 1 year from January 1, 1947.

The list of temporary airports of entry in § 6.13, Customs Regulations of 1943 (19 CFR, Cum. Supp., 6.13), is hereby amended by inserting therein the location and name of this airport, date designated, and the period "1 year."

Notice of the proposed designation of the Baudette Municipal Airport was published in the FEDERAL REGISTER on November 30, 1946 (11 F. R. 13976), pursuant to section 4 of the Administrative Procedure Act (Public Law 404, 79th Congress). The designation shall be effective on January 1, 1947, the delayed effective date requirements of section 4 (c) of the Administrative Procedure Act being dispensed with for the reason that the public convenience will be served by making the customs facilities available at once. The designation of this airport is based on a determination that a sufficient need exists to justify such designation and the designation is made for the purpose of providing for convenient compliance with customs requirements.

(Sec. 7 (b), 44 Stat. 572; sec. 611, 58 Stat. 714; 49 U. S. C., Sup., 177 (b)).

AUTHORITY: §§ 25.1 to 25.56 inclusive issued under R. S. 161, 48 Stat. 113, 53 Stat. 1424, 58 Stat. 293, Pub. Law 549, 79th Cong.; 5 U. S. C. 22, 29 U. S. C. 49–49*l*, 38 U. S. C. 695–695*l*; E. O. 9247, Sept. 17, 1942, 3 CFR Cum. Supp., E. O. 9617, Sept. 19, 1945, 3 CFR 1945 Supp.; secs. 201, 203, Reorg. Plan. No. 1, effective July 1, 1939, 3 CFR Cum. Supp.

SUBPART A—GENERAL STANDARDS

§ 25.1 *Statutory requirements.* The Wagner-Peyser Act, as amended (48 Stat. 113), and Public Law 549, 79th Congress, under which a State is granted Federal funds for the administration of its State-wide system of public employment offices, require that such funds be expended solely for the purposes and in the amounts found necessary by the Secretary of Labor, United States Department of Labor, for proper and efficient administration of the State-wide system of public employment offices.

§ 25.2 *State fiscal practice.* In determining whether an expenditure, or proposed expenditure, is necessary for proper and efficient administration of a State-wide system of public employment offices, the Department of Labor will give important weight to the existence of an established State practice. In all circumstances an established State practice is only one of the factors which will be used in determining the necessity of the expenditure by the State agency.

§ 25.3 *Evidence of State practice.* State laws and regulations covering the State's fiscal administration which are specific as to the amounts to be paid or the conditions under which administrative acts are to be performed are clear evidence of State practice. In the absence of such specific laws and State regulations, the Department of Labor will consider as evidence of State practice a custom or usage which meets the following definition and which conclusively established:

State practice is an established custom or usage accepted and generally applied as an expenditure control in the fiscal administration of the State government.

§ 25.4 *Funds accruing from custody or expenditure of granted funds.* All amounts accruing from the custody or expenditure of funds granted pursuant to the Wagner-Peyser Act and Public Law 549, 79th Cong., including interest on deposits thereof, are a part of the granted funds and all of the Department of Labor fiscal policies applicable to granted funds are applicable to amounts so accruing.

§ 25.5 *Funds available from sources other than grants.* Funds, facilities, and services which are made available to a State agency constitute factors relevant to the determination of amounts to be granted as necessary for the proper and efficient administration of a State Employment Service.

§ 25.6 *Advisory councils.* Granted funds may be used for payment of expenses incurred by a State agency in connection with the functioning of advisory councils established in accordance with State law and applicable Federal requirements for the purpose of administering the State Employment Service program.

§ 25.7 *Litigation, court costs.* Granted funds may be used for the payment of court costs in connection with litigation incident to the administration of the State-wide system of public employment offices.

§ 25.8 *Legal defense of employees including defense for Hatch Act violations.* Granted funds may not be used for:

(a) Expenses incurred in connection with the defense or representation, in civil or criminal proceedings, of officials or employees of a State agency who are involved in proceedings for acts, in the course of their official duties, which are alleged to be either unlawful or a dereliction of duty, except to the extent that the State agency has an interest in defending the legality of the act which forms the basis of the proceedings.

(b) Salary payments for periods of time devoted to services performed in connection with the representation of the State or of the State agency personnel, in civil or criminal proceedings under the provisions of the act of Congress entitled, "An Act to Prevent Pernicious Political Activities," approved August 2, 1939 (53 Stat. 1147), as amended, commonly referred to as the Hatch Act.

(c) Employment of special or private counsel to represent the State, the agency, or its officials, or employees, in proceedings involving the State Employment Service program, except upon a prior showing of necessity therefor and specific approval thereof by the head of the State agency or his authorized representative for that purpose.

§ 25.9 *Insurance; fire, flood, tornado or other elements.* Granted funds may not be used to secure insurance coverage against loss by fire, flood, tornado, or other elements except upon a showing of special circumstances involving an unusual degree of risk. In adopting this policy, however, the Department of Labor stands ready to authorize the use of granted funds for replacements in the event of such loss—it being preferred to authorize such use of granted funds in particular cases when necessary rather than to approve the payment of annual premiums to purchase such insurance protection for all of the property involved. If in any State there is in effect a State law creating a State fund for the payment of losses sustained by State properties through fire, flood, tornado, or other elements, to which fund payments are made on a pro rata basis for all State departments whose properties are protected thereby, and from which fund moneys will be available for the replacement of property loss sustained by the State agency through fire, flood, etc., granted funds may be used to pay for the pro rata share of the State agency of the cost of such self-insurance by a State, and will, in connection with future grants, consider the availability of such funds for replacements of such property losses of the State agency.

§ 25.10 *Motor vehicle liability or property damage insurance.* Granted funds may be used to pay the cost of protecting members of the public against injury to person or property occasioned by the operation by State employees of motor vehicles in the discharge of the State's business, or the payment of awards, judgments, or settlements, if:

(a) State law permits any one, or a combination, of the following methods of protection:

(1) Liability or property damage insurance; and

(2) Waiver of sovereign immunity and suit against the State itself; settlement, subject only to the availability of funds for their payment.

(b) The payment of the cost of insurance, judgments, awards or settlements with respect to all agencies which are supported principally by funds from sources other than the general fund of the State, is made out of such special funds.

(c) Where public liability or property damage insurance is authorized and utilized by other agencies of the State, the premium charged is fair and reasonable and is calculated on the same basis for all covered agencies or on a basis which is fair and reasonable as between all covered agencies.

(d) The payment of premiums, or the payment of judgments, awards, or settlements, may properly be made from the administration fund.

§ 25.11 *Bonding for the protection of the administration fund.* Bonds for the protection of the State Employment Service administration fund are not required.

§ 25.12 *Retirement and workmen's compensation.* Granted funds may be used for payment of the State agency's proper share of the cost of protecting its employees under State retirement and workmen's compensation laws, *Provided*, That:

(a) The State law is compulsory in its application to the employees of the agency, or, in the case of a law which is elective, an effective election has been made and the State or agency is by law required to pay a part or all of the cost of the protection furnished to the employees of the agency.

(b) Where such payment takes the form of premiums for insurance or of contributions to a State fund, the proceeds of such insurance or the State fund are used solely for the payment of benefits or compensation to employees entitled thereto under the State law, and, in those cases where the law establishing such a State fund so provides, the necessary cost of administration.

(c) The rate of contribution is calculated on the same basis for all State agencies, or, if more than one basis is authorized under the laws of the State, the basis of calculation for the agency is fair and reasonable as compared with that for other State agencies.

(d) Any separate charge made for administrative costs of the retirement or workmen's compensation system is in accordance with the Department of Labor policy covering payments for services performed for the State agency by other agencies of the State.

(e) The payments from the State Employment Service administration fund are legal under State law.

§ 25.13 *Unemployment compensation coverage of State agency employees.* Granted funds may be used for payment of either the full or partial contributions necessary to cover the employees of a State Employment Service under the unemployment compensation law of that State, if:

(a) The State law is compulsory in its application to the employees of the State agency or, in the case of a law which is elective, an effective election has been made and the State or agency is by law required to pay a part of all of the contributions.

(b) The payment is legal under the State law, i. e., properly chargeable to the State Employment Service administration fund.

§ 25.14 *Payments to State agencies other than the agency charged with administration of the State Employment Service.* Funds granted under the Wagner-Peyser Act may not be used to meet the cost incurred by States in furnishing goods, facilities, or services to a State agency by or through some other agency of State government unless:

(a) Such cost under State law can properly be charged to funds so granted.

(b) Such cost constitutes an extra identifiable expense of the State which would have been unnecessary except for the administrative needs of the State Employment Service.

(c) Such cost is readily ascertainable either by (1) segregation or (2) as a pro rata share of the cost to the State agency (or agencies) furnishing such goods or facilities or services.

(d) As to services, in addition to the condition set out above, the services are not of a kind usually and generally made available to all or similar agencies of the State as a part of general State administration, without charge against such agencies.

§ 25.15 *Federal taxes.* Specific exemptions in the excise tax provisions of the Federal Revenue Code, as amended, render such taxes inapplicable to many commodities and facilities sold or furnished to State agencies, i. e., telephone, telegraph, cable and radio messages; automobiles, automobile parts, tires, inner tubes, lubricating oil and gasoline; electric, gas and oil appliances (such as fans, air circulators and heaters); electric light bulbs and tubes; leather and imitation leather brief cases; wire and equipment in connection with burglar and fire alarm services; electrical energy; and transportation. Accordingly, funds granted by the Department of Labor under the Wagner-Peyser Act are not available for the payment of such taxes.

§ 25.16 *State sales taxes.* In accordance with the decision of the Comptroller General of the United States of June 19, 1942 (21 Comp. Gen. 1119), granted funds may be used for the payment of State sales taxes which State agencies are legally required to pay to vendors in connection with purchases of supplies or services necessary for the proper and efficient administration of a State Employment Service, without regard to whether the legal incidence of the tax is upon the vendor or the vendee.

§ 25.17 *Payments for services performed by agency employees.* Granted funds may not be used for salary payments to officials or employees of a State agency for which the agency has not received:

(a) With respect to each official and employee whose total salary is paid from granted funds, full-time attention to duties necessary for the proper and efficient administration of the State Employment Service program, unless otherwise expressly provided in the agency's approved compensation plan; or

(b) With respect to each official and employee whose salary is paid in part from granted funds, that proportion of time devoted to such "necessary" duties as is substantially equivalent to the proportion of the individual's total salary which is paid from granted funds, unless otherwise expressly provided in the agency's approved compensation plan.

SUBPART B—STANDARDS RELATIVE TO PERSONNEL MANAGEMENT

§ 25.18 *Salary adjustments and advancements.* Granted funds may be used for the payment of salary adjustments or salary advancements which are legal under State law or applicable approved Merit System Rule. Such salary advancements may include those made in recognition of efficiency and length of service in accordance with State law or applicable approved Merit System Rule. Appointments shall be made at the minimum of salary rate for the class, except where otherwise provided for by State law or applicable approved Merit System Rule.

§ 25.19 *Basis for agency salaries.* The Department of Labor, in determining personal service costs which are necessary for proper and efficient administration of a State Employment Service, will give consideration to prevailing rates for comparable positions in other departments of the State and to other relevant factors. In applying the principles of comparability where a State Employment Service is operating under a State-wide classification and compensation plan, the provisions of which are mandatory upon substantially all State departments including the State agency, salary comparability is considered to be established without further evidence. In the case of an agency operating under its own classification and compensation plan, evidence is needed concerning the comparability of the salaries under the agency's classification plan and prevailing salary levels for comparable positions, or classes of positions, in other departments of the State.

§ 25.20 *Leave.* Granted funds may be used for expenditures incident to granting leaves in accordance with the State agency's approved attendance and leave regulations.

§ 25.21 *Compensatory overtime leave.* Granted funds may be used for expenditures for salary during periods of compensatory leave granted for overtime services performed by State agency employees. Such compensatory leave should be granted at times which least interfere with the efficient operation of the agency and should be granted in accordance with established administrative controls. Such controls should require that authorization for overtime services be given in advance and in writing by the employees' immediate supervisor and that such authorization be filed along with the records of overtime services performed for compensatory leave granted.

§ 25.22 *Payment for overtime.* Granted funds may be used for expenditures for payment of salary for overtime services performed by State agency employees under conditions authorized by State regulations.

Where under State regulations there is an option given for the payment of salary for overtime services in lieu of compensatory time off, such payment should be made within 60 days from the time the overtime services are performed. The costs for the payment of overtime must be absorbed within the funds granted.

SUBPART C—STANDARDS RELATIVE TO PENALTY MAIL

§ 25.23 *Statutory basis for transmittal of official State Employment Service postal matter without prepayment of postage.* The Wagner-Peyser Act authorizes and directs the Postmaster General to extend to all State employment systems, which receive funds appropriated under the authority of that act, the privilege of free transmittal of official mail matter. The act of June 28, 1944

(58 Stat. 394, 39 U. S. C. 321c) provides that:

(a) All envelopes, labels, wrappers, cards, and other articles bearing the indicia prescribed by law for material mailed free of postage under the penalty privilege by executive departments and agencies, and all other organizations authorized by law to use the penalty franking privilege, shall be procured or accounted for through the Postmaster General under such regulations as he shall prescribe.

(b) Based upon the estimated cost of handling penalty mail by the Post Office Department, each agency using the frank shall bear the cost thereof by depositing in the U. S. Treasury through the United States Employment Service an amount equivalent to such costs.

(c) No article or package of official matter exceeding four pounds in weight shall be admitted to the mails under the penalty privilege.

(d) All executive departments and all other organizations authorized by law to use the penalty privilege are directed to supply all necessary information requested by the Post Office Department to carry out the provision of that act.

§ 25.24 *Limitation of use of penalty privilege.* Under these basic statutes the penalty privilege is limited to mail pertaining solely to employment service activities. In carrying out the provisions outlined in § 25.23, operating agencies will be expected to exercise a high degree of control to limit the use of penalty mail material to employment service activities.

§ 25.25 *Limitation of expenditure of postage.* Amounts expended for postage will be limited to the cost of air mail stamps, registry, special delivery fees, insurance charges on fourth-class mail, postage due, and mailing matter weighing four pounds or more.

SUBPART D—FISCAL MANAGEMENT STANDARDS

§ 25.26 *Audits conducted by agencies other than the United States Employment Service, U. S. Department of Labor.* Granted funds may be used for expenditures incident to the establishment and maintenance of day-to-day internal checks and controls necessary to insure proper handling of accounts. But it is assumed that a relationship between the State agency and the State auditing department is established which satisfies the State auditor that the internal controls of the State agency insure proper handling of the funds. Therefore, granted funds may not be used to finance an independent or separate audit of the State agency's handling of State Employment Service funds, and grants will not include amounts to defray the costs of conducting such audits of the administration fund accounts of a State agency. The United States Employment Service will conduct periodic audits of the State Employment Service administration fund accounts.

§ 25.27 *Workload analysis study.* Granted funds may be used for expenditures for studies of workloads to provide a method for measuring the staff time directed to employment service activities. State agencies shall make such studies and shall submit reports thereof as required by the Director of the United States Employment Service.

§ 25.28 *Financial reports.* The making of financial reports will be required in such form and containing such information as may be necessary in determining that funds have been expended according to law and in determining the status of unexpended granted funds. In compliance with this requirement, and to assure the correctness and verification of such reports, appropriate accounting records and procedures shall be established and maintained by each State agency. The State agency shall have authority to transfer between categories any funds made available for the administration of the State Employment Service except as may be otherwise specifically provided in the letter approving the grant of funds.

§ 25.29 *Certificates.* The submittal by each State agency of certificates of authorization will be required which certify the extent of authority delegated by the State agency to any person (a) to request a grant of funds, (b) otherwise to represent the State agency in connection with such grant, (c) to designate the payee to whom payment of granted funds is to be made, and (d) to furnish fiscal information and reports.

SUBPART E—TRAVEL STANDARDS

§ 25.30 *General.* Expenditures for official travel will be considered necessary for proper and efficient administration of a State Employment Service if they are proper under State law and are incurred in accordance with the following standards.

§ 25.31 *Allowable expenses.* Reimbursable travel expenses are confined to those which are essential to transacting the agency's official business in the administration of the State Employment Service. Such expenses are reimbursable only if incurred while in a travel status. Reimbursable travel expenses do not include:

(a) Those incurred for the convenience of the traveler, such as expenses for travel by an indirect route or stop-overs for personal reasons.

(b) Those of a strictly personal nature, such as telegrams to the headquarters office concerning leave or salary matters.

(c) Those for travel between home and office or for other non-official purposes.

(d) Per diem or subsistence at an employee's official station.

§ 25.32 *Persons eligible for reimbursement of travel expenses.* Eligibility for reimbursement of travel expenses is confined to employees of the agency and to expenses necessary to the discharge of their official duties in the administration of the State Employment Service; in addition, individuals in specified classes or groups, such as Advisory Council members, are eligible for reimbursement. In such additional cases, travel expenses will be allowed only in accordance with the rules and regulations applicable to employees of the State agency.

§ 25.33 *Travel status.* Employees may be considered in travel status when they are absent from their official station and engaged in official business which has been appropriately authorized. In order to establish travel status, it is necessary that the circumstances governing the travel be prescribed, so that expenses incurred by the traveler in performing the duties properly can be reimbursed. The circumstances to be prescribed should include the nature of the duties to be performed, the area in which they are to be performed and the period of time during which they are to be performed.

§ 25.34 *Official station.* The designated post of duty and official station mean one and the same, the extent of which should be the corporate limits of the city or town in which the employee is stationed. Normally an employee will be stationed at that point or approximate location where his official duties require him to spend the major part of his official working time.

§ 25.35 *Authorization of travel expenditures.* (a) All travel, whether intrastate or interstate, will be authorized by the head of the State agency (or by an agency official to whom such authority has been properly delegated) in such manner as to insure proper control.

(b) Expenditures from granted funds for any interstate travel by any State agency official or employee are, in addition, subject to prior authorization by the regional office of the United States Employment Service, except interstate travel performed by the administrative head of the agency for official purposes.

§ 25.36 *Mode and route of travel.* Reimbursable travel expenses are confined to those occasioned by use of the most economical standard mode of transportation and most usually traveled route, unless the head of the State agency or his designated representative determines that, due to unusual circumstances, other means of regular transportation are justified.

§ 25.37 *Maximum subsistence and mileage rates.* Establishment of reasonable maximum limitations for travel allowances is required, whether reimbursement is to be on the basis of actual expenses or a per diem allowance in lieu of subsistence. Also, where the traveler is authorized to use a privately-owned vehicle, a maximum mileage rate in lieu of actual transportation is required.

The following are the alternative bases for determining reasonable maximum subsistence and mileage rates:

(a) Specific mandatory rates prescribed by statutes or regulations applicable generally to all agencies of the State; or

(b) Rates representing reasonable maximum limitations (to be established by agreement between the State agency and the United States Employment Service)[1] where applicable State statutes or regulations do not prescribe specific limitations.

[1] In arriving at agreements with State agencies as to reasonable maximum limitations for substance, or mileage rates, established State practice, as well as rates established by the Federal Government for its employees, will be factors which the United States Employment Service will use in determining whether the proposed expenditures are reasonable. (See §§ 25.2 and 25.3 for an explanation of the significance of State practice.)

§ 25.38 *Reimbursable expenses to be specified.* (a) The items included in subsistence or per diem allowance will be specified.

(b) The State agency will set forth the minimum number of hours of absence from official station, distance from official station, or other conditions to be uniformly observed by all employees which will entitle the traveler to claim reimbursement of per diem or subsistence.

§ 25.39 *Vouchers and receipts.* Employees are required to submit travel vouchers in such form as to insure complete and necessary audits. Receipts are required for all unusual items of expenditures in such form as to establish official necessity. The State agency's regulations will specify those items which are considered unusual.

§ 25.40 *Leave of absence during travel.* Provision must be made for proper determination of allowable expenses when an employee is granted leave of absence while on official travel.

SUBPART F—STANDARDS RELATIVE TO AUTOMOBILES

§ 25.41 *Expenditures for agency-owned automobiles.* Granted funds may be used for purchase of agency-owned automobiles, but approval of such purchase and use will be dependent upon considerations of need, resulting economy, and efficiency of that method of transportation.

SUBPART G—STANDARDS RELATIVE TO TRANSPORTATION OF HOUSEHOLD GOODS AND EFFECTS

§ 25.42 *Transportation of household goods and effects.* When employees of State agencies are transferred from one official station to another for permanent duty, the Department of Labor will consider as necessary expenditures from granted funds the payment of reasonable costs of transportation of household effects and other personal property as determined in accordance with State law. Granted funds may not be used for payment of such costs where the transfer is made at the request and primarily for the benefit or convenience of the employee, or for disciplinary reasons.

SUBPART H—STANDARDS RELATIVE TO RENTAL OF PREMISES

§ 25.43 *Rental of premises.* Granted funds may be used for payments for rental of premises. Such rental may include reasonable amounts for the maintenance of proper facilities for the administration of the State Employment Service. Approval of expenditures for rental of premises does not constitute a commitment on the part of the Department of Labor to make grants under the Wagner-Peyser Act for future periods.

§ 25.44 *Rent applied toward cost of purchase or construction of buildings.* The Department of Labor will make specific determinations with respect to requests for funds to be supplied in the form of rental to offset cost of purchase or construction of State-owned buildings to provide quarters for the State Employment Service on the merits of each case.

SUBPART I—STANDARDS RELATIVE TO REPAIRS AND ALTERATIONS

§ 25.45 *Repairs and alterations.* Granted funds may be used for reasonable costs of repairs and alterations necessary for the maintenance of proper facilities for the administration of the State Employment Service.

SUBPART J—PROCUREMENT STANDARDS

§ 25.46 *General.* The following standards constitute the fundamentals of a proper procurement procedure, to be observed in the expenditure by State agencies of granted funds for the procurement of furniture, fixtures, equipment, supplies, printing and binding and contractual services.

§ 25.47 *Authorization for purchases.* Purchases of material and contracts for services are to be made by a designated procurement officer on the basis of requisitions issued by authorized individuals within the Agency. All requisitions will bear the written approval of the head of the State Agency (or his authorized deputy for such purpose) as well as the certification of the fiscal officer of the agency, showing that funds for the purpose are available.

§ 25.48 *Competition.* All purchases and contracts are required to be made on a competitive basis by:

(a) Advertising at least once a year in a newspaper or newspapers of State-wide circulation and by posting notices in appropriate places that materials and supplies are to be purchased during the year, and inviting prospective vendors to file data from which lists of prospective vendors shall be established.

(b) Submitting invitations to bid on materials and supplies required to vendors listed in accordance with paragraph (a).

(c) In addition to paragraph (b) of this section, soliciting bids at least once in a newspaper or newspapers of State-wide circulation in each case of a purchase or contract amounting to $1,000 or more.

(d) Compliance with paragraphs (b) and (c) of this section is not required where:

(1) Purchases amounting to less than $100, and approval of the head of the State agency is obtained, provided that before making such purchases effort should be made to obtain oral bids (reduced to writing, if possible) from at least three vendors.

(2) Purchases are limited by State statute.

§ 25.49 *Invitation to bid.* In submitting invitations to bid, the procurement officer will give due allowance to:

(a) Time necessary for submitting bids, in recognition of vendor's ability to submit bids promptly and make delivery within specified time.

(b) Savings, if any, to be effected by calling for bids on a lump-sum or aggregate basis.

(c) The necessity of obtaining bids and making awards on a basis which will be exclusive of Federal taxes.

§ 25.50 *Opening of bids.* Bids will be opened in public at a time and place to be specified in the invitation to bid, and abstracts of all bids (or their equivalent) inserted in a register, or the necessary information maintained in some other form, and be readily available to the public during office hours. All bids which fail to meet time and other specifications of the invitation to bid will be considered invalid.

§ 25.51 *Awards.* If a bid is accepted, award will be made:

(a) Promptly and in writing.

(b) To the responsible bidder whose proposal meets the specifications or performance test which have been set forth in the invitation to bid, and whose price is the lowest net price offered.

(c) Subject to inspection where contract calls for furniture, fixtures, supplies, and equipment, and subject to furnishing proofs where printing is involved.

(d) Subject to guarantees by bidder where the procurement officer considers it necessary to protect the interests of the State agency.

SUBPART K—EQUIPMENT STANDARDS

§ 25.52 *Equipment and furniture.* Granted funds may be used for the purchase of equipment by the State agency. Such equipment shall be used only by the State agency, except when loaned for use in the administration of a joint merit system which is financed through grants made by Federal agencies. Title to equipment purchased by a State agency from granted funds may not be transferred, unless the State Employment Service administration fund is reimbursed in an amount equal to the fair market value of the equipment.

§ 25.53 *Equipment control records.* Each State agency is required to maintain equipment control records showing for each item of equipment on hand, regardless of the manner of acquisition, unit cost, description, identification number, date received, source of acquisition, and location at all times.

In the event of disposition of any item of equipment, whether it be sold, traded in, scrapped, lost, stolen, or otherwise disposed of the equipment control records are to be properly adjusted. Such adjustments will be supported by the necessary explanatory data or documents relating to the action. When requested, the regional office will assist State agencies in arranging for sales of usable surplus equipment between State agencies within regional boundaries or in nearby States of other regions, if practicable.

§ 25.54 *Proceeds from sale of equipment.* Proceeds from the sale or disposition of any item of equipment are subject to the same conditions which are applicable to granted funds. Accordingly, such proceeds will be deposited in the State Employment Service administration fund and the amounts thereof will be included in the financial reports of the State agency.

SUBPART L—GENERAL PROVISIONS

§ 25.55 *Administrative responsibility of the State agency.* The State agency

shall establish and maintain such system of accounts (showing receipts and expenditures of the State agency with substantiating records and vouchers) as will adequately supply the information required (a) in the financial reports rendered to the United States Employment Service and (b) for post audit of expenditures by auditors of the United States Employment Service. Each voucher for expenditure of funds for State Employment Service Administration, from whatever source such funds may be derived, shall be approved by the head of the State agency or his duly authorized agent or agents. All such vouchers or certified duplicates or copies thereof shall be filed in the administrative office of the State agency.

§ 25.56 *Implementing instructions.* The Director of the United States Employment Service is hereby directed to issue such forms, procedures and instructions as are necessary to implement these standards.

L. B. SCHWELLENBACH,
Secretary of Labor.

TITLE 32—NATIONAL DEFENSE

Chapter IX—Office of Temporary Controls, Civilian Production Administration

AUTHORITY: Regulations in this chapter unless otherwise noted at the end of documents affected, issued under sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236, 56 Stat. 177, 58 Stat. 827, and Public Laws 270 and 475, 79th Congress; Public Law 388, 79th Congress; E. R. 13714; Housing Expediter's Priorities Order 1, Aug. 27, 1946, 11 F. R. 9507; E. O. 9809, Dec. 12, 1946, 11 F. R. 14281; OTC Reg. 1, 11 F. R. 14311.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 33, Direction 11 as Amended Jan. 17, 1947]

VETERANS' EMERGENCY HOUSING PROGRAM; FPHA TEMPORARY RE-USE HOUSING PROJECTS

The following direction is issued pursuant to Priorities Regulation 33:

(a) *What this direction does.* As part of the Veterans' Emergency Housing Program under the Veterans' Emergency Housing Act of 1946, the Federal Public Housing Authority (FPHA) is erecting 200,000 temporary housing units for emergency use by veterans in distress situations, pending completion of permanent housing units under the Veterans' Emergency Housing Program. Many of these temporary units are being erected for municipalities, to meet existing housing emergencies, and must be completed as soon as possible. Others are being erected at universities and colleges and must be ready for use during the coming scholastic year. Some of the building materials required for these units are in extremely short supply, and unless special assistance is given, local suppliers will not be able to meet those needs. This direction provides for special assistance to FPHA contractors in some instances. The special assistance includes several types of "super-priority" procedures which may be authorized for many of the building materials on Schedule A to Priorities Regulation 33, if efforts to get them on time through the use of HH ratings are unsuccessful. In addition, as explained in this direction, special assistance for other materials may be available under other CPA orders.

Special Assistance Available

(b) *When contractors may apply for special assistance.* It is expected that a contractor will ordinarily get most of his building materials for an FPHA temporary re-use housing project without any priorities assistance except the HH ratings assigned for the particular materials listed on Schedule A to PR 33. However, a contractor may apply to the FPHA (see paragraph (v) below for special assistance under certain circumstances. Unless otherwise specified below, he may apply only in cases where he has served purchase orders (with an HH rating, if authorized) for any building material on three or more sources of supply and received notice of their inability to deliver by the date required. The type of special assistance available and the method of applying depend on the particular material involved, as explained below.

(c) *Types of special assistance.* The various types of special assistance available are tabulated as follows and explained below:

NOTE: Table amended Jan. 17, 1947.

Material for which special assistance is required	Type of special assistance available for particular material
1. Any material listed in paragraph (d) below (certain types of building board, cast iron soil pipe). 2. Any material listed in paragraph (j) below (hardwood flooring, lumber, millwork, softwood plywood)	"Certified-HH" rating—superior to uncertified HH and CC ratings and extendible to producers. "Individual directive" or other action—requiring preferential treatment by a producer or supplier for a specific contractor's order.
3. Any material covered by paragraph (m) below (any material on Schedule A to PR 33 except those covered by #1 and #2 above). 4. Any material listed in paragraph (p) below (certain types of heating and plumbing fixtures made for FPHA projects). 5. Limited types of items, under very limited conditions (see paragraph (s) below)	HHH rating—superior to HH and CC ratings but otherwise identical with HH rating. "Authorized order"—directed at "earmarked products" made specifically for FPHA projects. CC rating under Priorities Regulation 28.

"Certified-HH" Rating Procedure

(d) *Material for which certified-HH ratings may be authorized.* Special assistance for the following materials (as listed on Schedule A to PR 33) may be given in the form of authority to use a "certified HH" rated order:

Material
Cast iron soil pipe (including fittings).
Gypsum board.
Building board.

A "certified-HH" rated order is an HH rated order to which the endorsement described in paragraph (f) below has been added by an authorized FPHA representative. A certified-HH rating has a higher priority than an uncertified HH rating or a CC rating and is extendible by suppliers (but not by producers) to get the material to be delivered on the "certified-HH" order involved. Its priority, however, is lower than ratings of AAA or MM.

(e) *Authorization for certified-HH rating.* Under the conditions stated in paragraph (b) above, a contractor may apply for certified-HH rating assistance by presenting his proposed purchase order to the FPHA. If the FPHA decides that special assistance is needed, the authorized FPHA representative may endorse the following certificate on the contractor's purchase order:

Certified-HH rated order authorized, under Direction 11 to PR 33, for materials to be used in FPHA temporary re-use housing projects.

Signature and title of authorized FPHA representative.

This certificate makes the purchase order a "certified-HH" rated order, entitled to the preferential treatment explained in paragraphs (f) and (g) below. The order will then be returned to the contractor, to be placed by him with his source of supply.

(f) *Suppliers' handling of certified-HH rated orders.* A distributor, jobber, dealer, or other supplier must not fill certified-HH rated orders out of inventory on hand or with material previously ordered. Instead, he must get the material by extending the certified-HH rating to his source of supply. Upon receiving material so ordered, he must deliver it on the order bearing the rating which was extended. Ratings are to be extended as explained in Priorities Regulation 3 except that the following statement is to be added to the certificate required by PR 3:

The items ordered herewith are for certified-HH rated orders authorized, under Direction 11 to PR 33, for materials to be used in FPHA temporary re-use housing projects.

(g) *Producers' handling of certified-HH and other rated orders.* Producers must accept and fill certified-HH rated orders in accordance with the rules of Priorities Regulation 1, for rated orders, subject to the following special rules:

(1) *Priority for certified-HH rating.* A certified-HH rating is of higher priority than an uncertified HH or a CC rating but of lower priority than an AAA or MM rating. Subject to the "ceiling" provision of paragraph (g) (2) below, a producer receiving a certified-HH order for any material listed in paragraph (d) above must fill it in preference to any uncertified HH or CC rated orders.

(2) *"Ceiling" on accepting certified-HH and AAA rated orders.* The maximum amount of certified-HH rated orders which a producer need accept for delivery of any material listed in paragraph (d) above in any month is 20% of his production of that material during that month. (AAA rated orders accepted by a producer before October 15, 1946, for any such material may be charged to the 20% ceiling for the month of delivery.) A producer may accept more than this amount of certified-HH orders but is not required to do so. The FPHA requirements for the materials listed in paragraph (d) above are so large that it is essential that they be spread evenly among all producers. If any single producer devoted a major part of his production to FPHA requirements, the resulting dislocation in his normal distribution might seriously interfere with the other phases of the Veterans' Emergency Housing Program.

(h) *Producer's equitable distribution of remainder of production.* After providing, each month, for certified-HH and AAA rated orders for a particular material listed in paragraph (d) above, a producer should distribute the remainder of the month's production of that material among his customers in each area in a fair and equitable manner, without regard to the certified-HH and AAA rated orders which any such customer may have served on him. In determining the amount of material to be shipped into each area, a producer should give due regard to the requirements of the Veterans' Emergency Housing Program.

(i) *Applicability of Schedule B to PR 33.* Quantities received by a distributor for delivery on certified-HH orders shall be excluded by him in all his ceiling and set aside calculations under Schedule B to PR 33. Quantities received by a distributor for delivery on any AAA rated order for an FPHA project shall also be so excluded, if the producer involved accepted the order, as placed with him, before October 15, 1946.

"Individual Directive" or Other Assistance Procedure for Certain Lumber Products

(j) *Materials for which special assistance may be issued.* Special assistance for the following materials (as listed on Schedule A to PR 33) may be given by the Civilian Production Administration, in the form of an individual directive or other arrangement under which a producer or supplier will provide preferential treatment for a particular purchase order:

Material
Flooring, hardwood, residential.
Lumber, housing construction.
Millwork.
Plywood, construction (softwood).

(k) *Procedure for getting special assistance.* Under the conditions stated in paragraph (b) above, a contractor may apply for this special assistance by filing a Form CPA-4473 application with the FPHA. If the FPHA believes that special assistance is needed, it will forward the application to the appropriate Civilian Production Administration office (Portland, Oregon, or Washington, D. C.). The Civilian Production Administration office will review the request and, if approved, will take appropriate assistance action, notifying the contractor and other interested persons.

(l) *Applicability of other regulations.* An order for which special assistance is given will be handled in accordance with applicable regulations (Orders L-358 and L-359), unless otherwise specified in the CPA action.

HHH-Rating Procedure

(m) *Materials for which HHH ratings may be authorized.* For any material listed on Schedule A to PR 33 except those listed in paragraphs (d) and (j) above ("certified-HH" and "individual directive" procedures), special assistance may be given in the form of authority to use an HHH rating. An HHH rating has a higher priority than a rating of HH or CC but a lower priority than a rating of AAA or MM.

(n) *Authorization for HHH rating.* Under the conditions stated in paragraph (b) above, a contractor may apply to the FPHA for authorization to use an HHH rating. Application is to be made in the manner required by the FPHA. If the FPHA decides that the special assistance is needed, it may authorize the contractor to use an HHH rating. The method for using the HHH rating is the same as for the HH rating.

(o) *Suppliers' and producers' handling of HHH ratings.* A supplier or producer must accept and fill an HHH rated order in accordance with the rules of Priorities Regulation 1, subject to the special rules mentioned in this paragraph. He must fill an HHH rated order in preference to an HH or CC rated order. As explained in Schedule B, HHH ratings for any material are extendible under the same conditions as HH ratings for that material and are subject to any rules for HH rated orders in Schedules A and B to PR 33 and in any other applicable regulations.

"Authorized Order" Procedure for "Earmarked Products"

(p) *Materials made specially for FPHA projects ("earmarked products").* The CPA has been giving certain types of special assistance for steel and iron castings to certain producers for the manufacture of specific quantities of the following kinds of plumbing and heating equipment:

Material
Cooking ranges (21" gas, up to 36" oil).
Ice refrigerators.
Shower stalls.
Space heaters (gas, oil).
Water heaters (20-gal. gas, 30-gal. oil).

Under Order L-357, the quantities so manufactured are called "earmarked products" and may be sold only as permitted by that order. Usually, sale is permitted only on "authorized orders" for FPHA temporary re-use housing projects.

(q) *Authorization for "authorized orders".* In general, where a contractor needs materials of the kinds listed in paragraph (p) above, he will ordinarily be supplied, on "authorized orders", from the production earmarked for FPHA projects. To get any such earmarked products, a contractor should present one or more proposed purchase orders to the FPHA. The authorized FPHA representative may then place the following endorsement on each purchase order:

Authorized order, under Direction 11 to PR 33 and Order L-357, for earmarked products to be used in FPHA temporary re-use housing projects.

Signature and title of authorized FPHA representative

This endorsement makes an order an "authorized order". An "authorized order" is not a rated order and is not to be treated as a rated order. It is, however, the only type of order on which "earmarked products" under Order L-357 may usually be delivered. After endorsement, an order will be returned to the contractor, together with any necessary instructions for placing it. In the case of ice refrigerators, the FPHA arrangements with the producers may provide for direct sale of this item by producers to FPHA contractors, on authorized orders.

(r) *Handling of authorized orders.* Order L-357 explains how suppliers and producers are to handle authorized orders.

CC Rating Procedure

(s) *Items for which CC rating may be authorized (PR 28).* Under Priorities Regulation 28, as recently amended, the conditions under which CC rating assistance will be given have been drastically curtailed. PR 28 explains the conditions under which such assistance will be given. In general, CC ratings will no longer be given for construction materials.

(t) *Procedure for getting CC rating authorization.* Under the conditions specified in Priorities Regulation 28, a contractor may present, to the FPHA, a Form CPA-541A application for a CC rating. If the FPHA believes that such assistance is needed, it will forward the application to the Civilian Production Administration, Washington 25, D. C., Ref: PR 28. The application will be reviewed by the CPA in accordance with PR 28. If approved, the contractor may use the CC rating as authorized.

(u) *Handling of CC rated orders.* Suppliers and producers must accept and fill CC rated orders in accordance with the rules of Priorities Regulation 1 and Schedule B to Priorities Regulation 33, where applicable.

Communications and Applications

(v) *Addressing communications and applications*—(1) *By contractors.* Contractors should address all communications concerning this direction, and make all applications under this direction, to the FPHA project engineer or to such other FPHA official as may be designated by that agency.

(2) *By other persons.* Communications by producers and suppliers concerning the operation of the various priorities provisions of this direction and obligations under them should be addressed to the Civilian Production Administration, Washington 25, D. C., Ref: Dir. 11 to PR 33. All other communications should be addressed to the Federal Public Housing Authority, either at the office of the project engineer or at the appropriate regional or field office (see Appendix A).

Definitions

(w) *Definitions.* For the purposes of this direction:

(1) "Contractor" means a contractor or subcontractor engaged to do construction work on an FPHA temporary re-use housing project.

(2) "Producer" means a person owning or operating facilities in which a building material affected by this direction is produced.

(3) "Supplier" means a person who is in the business of buying a building material, from a producer or from any other person, for resale as such. This includes distributors, jobbers, office wholesalers, brokers, and dealers of all types.

Cut-Off Dates

(x) *Cut-off dates.* No order bearing a certified-HH or HHH rating assigned under this direction may be placed by an FPHA contractor after January 31, 1947. No order bearing such a rating may specify a delivery date later than March 31, 1947. A certified-HH or HHH rated order which conforms with the specifications of this paragraph remains valid until filled.

Issued this 17th day of January 1947.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 34, as Amended Jan. 17, 1947]

§ 944.55 *Priorities Regulation 34*—(a) *What this regulation does.* There is a shortage in the supply of certain materials, held by the Reconstruction Finance Corporation and various government agencies for defense, for private account and for export. This regulation states the rules applicable to purchases of these materials from the RFC either directly from its own stock or from the stocks of other government owning agencies. The regulation indicates in respect to which materials a purchase from the RFC must first be authorized by the Civilian Production Administration and explains who may apply for such authorization and in what manner. The regulation applies only to the materials listed on Table A below. This Table includes, but is not limited to, certain so-called strategic and critical materials covered by War Assets Administration Regulation 17 (11 F. R. 9573, 12306).

(b) *Materials for the purchase of which from RFC an authorization is required from CPA.* Before a person may purchase from RFC certain of the materials on Table A, he must obtain an authorization from CPA. Whether or not an authorization is required, is indicated in Column 2. In Column 3 appears a reference to the Branch or Division of the CPA responsible for the materials. In Column 4 is specified the class of persons who may apply for an authorization to purchase from the RFC, and in respect to those materials in which the distribution is covered by CPA orders, a reference to the appropriate order is made. In some instances, Column 4 indicates that a certification will be required from the applicant.

Where Column 4 indicates applications are to be made by letter, the applicant should state: (1) the purpose for which the material is required; (2) his present inventory of the material requested; (3) the number of days supply represented by the present inventory, plus the amount requested, based on his current or scheduled rate of operation; (4) the efforts he has made to obtain the material from private sources of supply, foreign or domestic; (5) the efforts he has made to obtain and use a suitable substitute and (6) any other information pertinent to the application. In general, CPA will authorize the purchase of the material from RFC only if the material is not available from private sources of supply, foreign or domestic; no suitable substitute material is available; and the proposed purchase conforms with applicable CPA inventory restrictions on the material in question. Authorization for the purchase will be made by the CPA on Form CPAI-3669 to RFC. CPA will notify the applicant of the action taken.

(c) *Materials for the purchase of which no authorization is required from CPA.* If Column 2 in Table A indicates that no CPA authorization is required, the material may be purchased directly from RFC upon filing with the purchase order the certificate required in Column 4.

(d) *Restrictions on purchasers.* A purchaser from the RFC of any of the materials listed on Table A below, must not violate any CPA order or regulation controlling the amount of any such material he may receive or the use or disposition he may make of it. Persons buying for resale are subject to all applicable inventory restrictions, and any materials obtained under this regulation by such persons must be offered for sale promptly in accordance with applicable CPA orders and regulations.

NOTE: The application and reporting provisions of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 17th day of January 1947.

Material (1)	CPA authorization required (2)	CPA division or branch responsible for material (3)	Remarks (4)
METALS AND MINERALS			METALS AND MINERALS—continued
Aluminum: primary pig	Yes	Aluminum and magnesium branch.	Primary producers may apply by letter.
Antimony: metal, ore and concentrates; liquated (needle) antimony.	Yes	Tin, lead and zinc branch	Applications may be filed in accordance with General Preference Order M-112.
Asbestos: Rhodesian Chrysotile fiber (grade C and G1, C&G 2 and C&G3; African Amosite fiber (grades M1 and 3 DM1); and Cape Blue.	Yes	Cork, asbestos and fibrous glass branch.	Manufacturers of building materials may apply by letter.
Beryl: Ores or concentrates	Yes	Miscellaneous minerals and mining branch.	Processors may apply by letter.
Bismuth: Metal	Yes	Tin, lead and zinc branch	Processors and users may apply by letter. However, in view of the extremely limited supply, sales will be authorized only for the urgent needs of the Armed Forces or where bismuth metal is required for emergency use for public health and safety and it cannot be supplanted by drugs ordinarily furnished to hospitals and similar institutions.
Alloys, or scrap, containing 50 percent or more by weight of metallic bismuth.	No	do	May be sold only to smelters and reprocessors who give the seller in writing a certificate in substantially the form shown in Note 1 to this table.
Cadmium: Metal	Yes	do	Users may apply by letter. However, in view of the extremely limited supply, sales will be authorized only in cases of emergency.
Finished alloys containing metallic cadmium (including but not limited to low melting point alloys).	No	do	May be sold only to smelters, reprocessors or users who give the seller, in writing, a certificate in substantially the following form: "The undersigned certifies to the seller and CPA, subject to the penalties of Section 35A of the United States Criminal Code that (i) he is a smelter, reprocessor or user of finished alloys containing metallic cadmium; (ii) he is unable to get the material obtained with this certificate from private sources of supply, foreign or domestic; (iii) his inventory of the type of material covered by this purchase order (including this lot) will not be in excess of his succeeding 30 days' requirements; (iv) material obtained under this purchase order will be used or disposed of only in accordance with applicable CPA orders and regulations."
Scrap containing metallic cadmium but not containing 50 per cent or more by weight of any other one metal.	No	do	May be sold only to smelters and reprocessors who give the smelter, in writing, a certificate in substantially the form shown in Note 1 below this table.
Chromite: metallurgical and chemical ores and concentrates.	Yes	Steel branch	Processors and users may apply by letter.

Manganese: metallurgical ores	Yes	Steel branch	Processors and users may apply by letter.
Mica, Muscovite block, film and splittings; Phlogopite block and splittings.	Yes	Miscellaneous minerals and mining branch.	Fabricators may apply by letter.
Nickel: metal and nickel in oxide	No	Steel branch	May be sold only to smelters and reprocessors who give the seller, in writing, a certificate in substantially the form shown in Note 1 to this table.
Platinum, refined	Yes	Miscellaneous minerals and mining branch.	Apply by letter.
Quartz crystals: raw quartz, radio grade, and scrap	Yes	do	Processors may apply by letter.
Tin: Pig	Yes	Tin, lead and zinc branch	Applications may be filed in accordance with Conservation Order M-43.
Alloys or scrap: containing 50 percent or more by weight of metallic tins; residues	No	do	See M-43 restrictions governing tin and all tin-bearing alloys.
Zinc: Slab, zinc oxide, ores and concentrates and die cast alloys.	Yes	Tin, lead and zinc branch	Processors and users may apply by letter. However, in view of the extremely limited supply, sales of metal (slab) and zinc oxide will be authorized only in cases of emergency.
Other alloys, or scrap containing 50 percent or more by weight of metallic zinc; residues.	No	do	May be sold only to smelters and reprocessors who give the seller, in writing a certificate in substantially the form shown in Note 1 to this table.
OTHER MATERIALS			
Ethyl alcohol	Yes	Chemicals division	Industrial alcohol producers may apply on CPA Form 2947.
Manila fiber	Yes	Textile division	Applications may be filed in accordance with Conservation Order M-84.
Molasses	Yes	Chemicals division	Applications may be filed in accordance with Conservation Order M-54.
Quinidine and salts	Yes	do	Applications may be filed in accordance with Conservation Order M-131.
Quinine and salts	Yes	do	Do.
Rubber: natural rubber, natural rubber latex, butyl, GR-S synthetic.	Yes	Rubber division	Applications may be filed in accordance with Rubber Order R-1.
Sisal fiber	Yes	Textile division	Applications may be filed in accordance with Conservation Order M-84.

NOTE 1: Where required by a note in Column 4, a certificate in substantially the following form should be used by smelters and reprocessors:

The undersigned certifies to the seller and CPA, subject to the penalties of section 35A of the United States Criminal Code, that (i) he is a smelter or reprocessor and will use the material obtained with this certificate in his smelting or reprocessing operations; (ii) he is unable to get these materials from private sources of supply, foreign or domestic; (iii) his inventory of the type of materials covered by this purchase order (include this lot) will not be in excess of applicable CPA inventory restrictions; and (iv) the material obtained under this purchase order will be used or disposed of only in accordance with applicable CPA orders and regulations.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 13, Direction 3, as Amended Jan. 17, 1947]

SURPLUS PROPERTY DIRECTIVES

Direction 3 to Priorities Regulation 13 is amended to read as follows:

No. 13——3

(a) *Purpose of this direction.* This direction describes the very limited scope of the assistance which may be granted in the future to obtain Government-owned surplus property if available. Although under paragraph (d) (2) of Priorities Regulation 13 CPA preference ratings do not have any effect on disposals of surplus property, disposals under WAA Regulation 2 are still subject to any individual directives which the CPA may issue with respect to delivery of specified surplus property to a named buyer or class of buyers.

(b) *When the Civilian Production Administration may issue directives on a Government disposal agency.* (1) In general, if all the conditions of paragraph (b) (2) below are met, CPA directives may be issued in the following exceptional cases of public emergency or other extreme need:

(i) Where an item is needed to fill a military order which cannot be deferred without serious results to the defense program or to the health and welfare of the service personnel. (In this case a certification from the responsible military agencies recommending the issuance of a directive is required);

(ii) Where an item is needed in an emergency to eliminate serious hazard to the life, health or safety of a large number of people; or

(iii) In view of the critical shortage of domestic freight cars consideration will also be given to cases involving items of steel or iron, in the forms listed in M-21, required for the production or repair of domestic freight cars.

(2) Actions of the above kinds may be taken only on a determination in each instance that both the following conditions are met:

(i) The use of substitute and less scarce materials is not practicable; and

(ii) The required item cannot be obtained in time with priorities assistance from new production.

(c) *Other applicable actions of the CPA.* Disposal-agencies must also comply with the restrictions on special sales of the materials and products on Lists A and B of Priorities Regulation 13, and with any applicable directions to that regulation.

(d) *Communications.* All communications concerning this direction should be addressed to Civilian Production Administration, Washington 25, D. C. Reference PR-13, Direction 3.

Issued this 17th day of January 1947.

PART 1010—SUSPENSION ORDERS

[Suspension Order S–1015, Revocation]

DR. SHELBY ATKINSON

Suspension Order No. S–1015 was issued November 5, 1946, against Dr. Shelby Atkinson, North Little Rock, Arkansas. An appeal was filed with the Chief Compliance Commissioner. The case was reviewed by the Chief Compliance Commissioner, who directed that the suspension order be revoked forthwith. In view of the foregoing:

It is hereby ordered, That § 1010.1015, Suspension Order No. S–1015 be revoked.

Issued this 16th day of January 1947.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 13, Revocation of Direction 16]

URGENCY CERTIFICATES FOR SURPLUS MATERIALS AND EQUIPMENT

Direction 16 to Priorities Regulation 13 is hereby revoked. This action does not affect any liabilities incurred for violation of the direction or of actions taken by the Civilian Production Administration under the direction. The CPA will no longer issue new certificates or extend the expiration date of outstanding certificates. However, every outstanding urgency certificate issued under this direction before January 17, 1947 remains valid until filled or until its expiration date, whichever is earlier.

Chapter XI—Office of Temporary Controls, Office of Price Administration

PART 1300—PROCEDURE

[Amdt. 2]

PROCEDURAL REGULATIONS

The description of administrative procedures required by section 3 (a) (1) of the Administrative Procedures Act (appearing on pages 177A–634 through 177A–640 of the FEDERAL REGISTER of September 11, 1946) is amended in the following respects:

Section 1300.1101 *Procedural regulations*, is amended as follows:

1. Paragraph (c) is redesignated: *2d Revised Procedural Regulation 4 (11 F. R. 14014); procedure for issuance of rationing and priorities suspension orders and determination of violations.*

2. In paragraph (c), subparagraphs (1), (2), (3), and (4) are renumbered respectively: (2), (3), (4), and (5).

3. A new subparagraph (1) is inserted as follows:

(1) *Scope of regulation.* A rationing suspension proceeding and a determination proceeding may be joined and one hearing held for both.

PHILIP B. FLEMING,

PART 1418—TERRITORIES AND POSSESSIONS

[RMPR 373, Amdt. 119 (§ 1418.151)]

MAXIMUM PRICES OF CERTAIN COMMODITIES IN HAWAII

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Revised Maximum Price Regulation 373 is amended in the following respects:

1. Table A in section 39 is deleted.

2. A new item is added to Table B in section 39, to read as follows:

Commodity classification No.	Grocery item	Division factors	
		Column 1	Column 2
32	Rice	84	87

3. Section 58 is redesignated section 58 (a) and a new section 58 (b) is added to read as follows:

(b) *Automatic adjustment of maximum price.* If the maximum price in effect on January 6, 1947, applicable to sales of Hawaiian molasses in the continental United States, as established by section 35 (b) of Supplementary Regulation 14 F to the General Maximum Price Regulation, is thereafter increased by the Office of Temporary Controls, Office of Price Administration, the maximum price set forth in paragraph (a) above may be increased by an amount equal to such increase.

This amendment shall become effective January 22, 1947.

Issued this 17th day of January 1947.

PHILIP B. FLEMING,
Temporary Controls Administrator.

Statement of the Considerations Involved in the Issuance of Amendment 119 to Revised Maximum Price Regulation 373

Sugar, syrup and rice, the commodities remaining under control in the Territory of Hawaii, are currently priced at the retail level under section 39 of Revised Maximum Price Regulation 373. Specific dollars-and-cents prices are provided for these items in Table A of that section. If the item being priced is not listed in Table A, the retailer computes his maximum price by using the applicable division (markup) factor provided in Table B. Dollars-and-cents retail prices for specific items must be revised from time to time to reflect changes in wholesale costs and landing costs. As the Territorial Office is no longer equipped to collect the necessary data, make the computations and draft appropriate amendments, the continuation of dollars-and-cents prices is not feasible. Therefore, the accompanying amendment deletes Table A from section 39, thereby bringing all sales of sugar, syrup and rice at retail within the automatic pricing provisions of Table B. A necessary concomitant of this action is the establishment of division factors for rice. The factors for rice provided by this amendment are the same as those used prior to their deletion from Table B by amendment 82 to RMPR 373 and represent the average percentage markups as were in effect on March 31, 1946.

This amendment also adds an automatic adjustment provision to section 58 under which the dollar-and-cent price fixed for molasses may be increased by the same amount of any increases granted to mainland sellers of Hawaiian molasses sold for use by feeders or feed manufacturers. The bulk of the molasses produced and sold in the Territory is used for feed, and since the Territorial price has always been geared to the price established for mainland sales and considered together, the automatic adjustment provision will remove the necessity of amending Revised Maximum Price Regulation 373 should increased prices be authorized for mainland sales of Hawaiian molasses.

For the foregoing reasons, the Administrator finds that the actions taken by this amendment are generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and the applicable Executive orders.

PART 1334—SUGAR

[MPR 60,[1] Amdt. 8]

DIRECT CONSUMPTION SUGAR

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.

Maximum Price Regulation 60 is amended in the following respects:

1. Section 2 (a) (1) is amended to read as follows:

(1) The maximum basis prices for the following direct-consumption sugars per one hundred pounds, f. o. b. United States seaboard cane sugar refinery nearest freightwise to the point of delivery, shall be as follows:

(i) For sales of fine granulated cane sugar refined in Continental United States, $6.20.

(ii) For sales of fine granulated beet sugar processed in Continental United States, $8.10.

(iii) For sales of fine granulated cane sugar from off-shore areas, domestic or foreign, duty paid, $6.15.

(iv) For sales of turbinado, washed-white or similar sugar from off-shore areas, domestic or foreign, duty paid, for direct consumption, $5.85.

(v) For sales of plantation granulated sugar processed from United States mainland sugar cane, $6.10.

(vi) For sales of direct-consumption sugars other than those provided for above, in this section, processed from United States mainland sugar cane including but not limited to turbinado, plantation white and high-washed sugars, $6.00.

2. In section 2 (b) (1) the figure "$5.15" is substituted for the figure "4.965."

This amendment shall become effective 12:01 a. m. January 18, 1947.

Issued this 17th day of January 1947.

PHILIP B. FLEMING,
Temporary Controls Administrator.

Approved: January 15, 1947.

CLINTON P. ANDERSON,
Secretary of Agriculture.

Statement of the Considerations Involved in the Issuance of Amendment No. 5 to Maximum Price Regulation 16 and Amendment No. 8 to Maximum Price Regulation 60

The accompanying amendments to Maximum Price Regulations Nos. 16 and 60 increase the maximum prices of raw cane sugar and direct-consumption raw sugar 18½ cents per hundredweight and of all direct-consumption sugars, except direct-consumption raw sugar, 20 cents per hundredweight.

On September 18 and November 20, 1946, it was found necessary to increase maximum prices of raw cane sugar and direct-consumption sugars by Amendments 3 and 4 to MPR 16 and Amendments 4 and 7 to MPR 60 in order to permit the Commodity Credit Corporation to continue the importation of Cuban sugar into the United States under the terms of its contract with the Cuban government. This contract contains an adjustment clause which, as explained in the statements of considerations accompanying the foregoing amendments, provides for increases in the basis price which Commodity Credit Corporation must pay for the sugar when certain increases occur in either the Consumer Price Index or the Index of Retail Food Prices as published by the Bureau of Labor Statistics.

Under the terms of section 6 (c) of the "Price Control Extension Act of 1946" Commodity Credit Corporation may not "absorb any increase in the price paid for Cuban sugar over 3.675 cents per pound, f. o. b. Cuba, (the minimum basis price established by the Cuban contract) as being paid for such sugar on June 30, 1946." Accordingly, whenever the operation of the adjustment clause in the Cuban contract results in an increase in the basis price paid by Commodity Credit Corporation, its selling price must be increased by a corresponding amount to permit it to continue to import sugar and function within its legal limits. The earlier advances in maximum prices for sugar mentioned above were based upon such increases.

However, the Secretary of Agriculture has notified the Administrator that advances in the Index of Food Prices have exceeded his previous estimates, upon which the last sugar maximum price increase was predicated, and therefore recommends that at this time it is necessary to provide the increases affected by the accompanying amendments.

These increases are made applicable to all sugars covered by the regulations as has been the case with earlier increases, for the same reasons outlined in the statements of considerations accompanying the issuance of Amendments 2 and 3 to Maximum Price Regulation 16.

RAW CANE SUGAR

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Maximum Price Regulation 16 is amended in the following respects:

In sections 8 (a) (1) (i) and 8 (b) (1) the figure "4.755" is substituted for the figure "4.57."

This amendment shall become effective 12:01 a. m. January 18, 1947.

Statement of the Considerations Involved in the Issuance of Amendment No. 5 to Maximum Price Regulation 16 and Amendment No. 8 to Maximum Price Regulation 60

The accompanying amendments to Maximum Price Regulations Nos. 16 and 60 increase the maximum prices of raw cane sugar and direct-consumption raw sugar 18½ cents per hundredweight and of all direct-consumption sugars, except direct-consumption raw sugar, 20 cents per hundredweight.

On September 18 and November 20, 1946, it was found necessary to increase maximum prices of raw cane sugar and direct-consumption sugars by Amendments 3 and 4 to MPR 16 and Amendments 4 and 7 to MPR 60 in order to permit the Commodity Credit Corporation to continue the importation of Cuban sugar into the United States under the terms of its contract with the Cuban government. This contract contains an

adjustment clause which, as explained in the statements of considerations accompanying the foregoing amendments, provides for increases in the basis price which Commodity Credit Corporation must pay for the sugar when certain increases occur in either the Consumer Price Index or the Index of Retail Food Prices as published by the Bureau of Labor Statistics.

Under the terms of section 6 (c) of the "Price Control Extension Act of 1946" Commodity Credit Corporation may not "absorb any increase in the price paid for Cuban sugar over 3.675 cents per pound, f. o. b. Cuba, (the minimum basis price established by the Cuban contract), as being paid for such sugar on June 30, 1946." Accordingly, whenever the operation of the adjustment clause in the Cuban contract results in an increase in the basis price paid by Commodity Credit Corporation, its selling price must be increased by a corresponding amount to permit it to continue to import sugar and function within its legal limits. The earlier advances in maximum prices for sugar mentioned above were based upon such increases.

However, the Secretary of Agriculture has notified the Administrator that advances in the Index of Food Prices have exceeded his previous estimates, upon which the last sugar maximum price increase was predicated, and therefore recommends that at this time it is necessary to provide the increases affected by the accompanying amendments.

These increases are made applicable to all sugars covered by the regulations as has been the case with earlier increases, for the same reasons outlined in the statements of considerations accompanying the issuance of Amendments 2 and 3 to Maximum Price Regulation 16.

PART 1388—DEFENSE-RENTAL AREAS

[Transient Hotels, Residential Hotels, Rooming Houses and Motor Courts, Miami Area,[1] Amdt. 24 (§ 1388.1231)]

TRANSIENT HOTELS, RESIDENTIAL HOTELS, ROOMING HOUSES AND MOTOR COURTS IN MIAMI

The rent regulation for transient hotels, residential hotels, rooming houses and motor courts in the Miami Defense-Rental Area is amended in the following respects:

1. The first paragraph of section 2 (b) (5) is amended to read as follows:

(5) *Weekly and monthly terms of occupancy 50% or less.* A landlord who is required to rent for weekly or monthly terms of occupancy 50% or less of the rooms in the establishment, under subparagraph (2) of this paragraph, may petition the Administrator to be relieved of such requirement, provided such petition is filed and an order entered prior to January 20, 1947. Upon issuance of an order granting such petition, the provisions of subparagraphs (2) and (3) of this paragraph no longer shall apply to the rooms in the establishment; but, unless otherwise provided in the order, the maximum rent for a weekly term of occupancy shall apply where, after the date of issuance of the order, a tenant remains in occupancy for a continuous period of more than ten days, and the maximum rent for a monthly term of occupancy shall apply where, after the date of issuance of the order, a tenant remains in occupancy for continuous period of more than thirty days, regardless of whether the tenant occupies the same room in the establishment during the specified period. The maximum rent on a weekly or monthly basis, as the case may be, shall apply from the date of issuance of the order or the date on which occupancy commenced, whichever is the later.

2. Section 4 is amended by adding paragraph (h) to read as follows:

(h) *Optional decontrol of daily rates.* (1) On and after February 1, 1947, any landlord who is the proprietor or operator of an establisment classified as a transient hotel, residential hotel, or motor court, may apply to the area rent director for the decontrol of maximum daily rates on selected rooms in such establishment on OPA Form DH–DC. On such form the landlord shall list by number or location specific rooms in the building or establishment equal in number to the maximum number he is required to rent for weekly or monthly terms pursuant to the provisions of section 2 hereof and any order entered thereunder, or, if the rooms in the building or establishment were first rented subsequent to the applicable monthly period specified in section 2 (b) (2), then equal in number to the highest number actually rented for weekly or monthly terms at any one time during the month of December 1946, or to the number that the landlord is required to offer for rent for weekly or monthly terms under any order entered by the area rent director, whichever is the higher. Such rooms shall be known as permanent rooms for the purposes of this regulation and shall, after February 15, 1947, or the date of filing, whichever is later, be rented or offered for rent only on a weekly or monthly basis: *Provided, however,* That individual permanent rooms may be rented for periods less than one week at a daily rate of not to exceed one-seventh of the weekly rate or one-thirtieth of the monthly rate, whichever may be applicable to the particular room and number of occupants. Included in the permanent rooms listed by the landlord shall be those occupied by weekly or monthly tenants at the time of application up to the number the landlord is required to rent for weekly or monthly terms.

If such application is filed on OPA Form DH–DC, maximum daily rents established by this regulation for all rooms in the building or establishment other than permanent rooms shall, on and after February 15, 1947, or the date of the filing of such application, whichever is later, no longer be applicable. Such rooms may thereafter be rented for daily terms of occupancy free of the limitations imposed by this regulation: *Provided, however,* That any application which is not in proper form or omits information required from the landlord shall be void.

(2) At any time subsequent to the application of the landlord on Form DH–DC, the area rent director may require the submission of such books and records as, in his opinion, are necessary to substantiate the statements made by the landlord thereon. In default of submission of adequate records, or if the application contains material misrepresentations of fact, the area rent director may, by order, void the landlord's application and rooms in the building or establishment shall thereupon become subject to maximum rents provided by this regulation for all terms of occupancy and number of occupants and to the other provisions thereof to the same extent as if no application had been filed under this paragraph 4 (h).

(3) In the event an order has been entered on an application by the landlord under section 2 (b) (5) hereof, relieving the establishment of its obligation to offer rooms for weekly or monthly terms of occupancy to the extent provided therein, the number of permanent rooms the landlord shall be required to offer only for weekly or monthly terms, in the event application is made under subparagraph (1) of this section 4 (h), shall be the highest number rented at any one time for weekly or monthly terms during the month of December 1946.

(4) The provisions of this section 4 (h) shall not apply to rooms in hotels or motor courts which are first rented after February 1, 1947, and result from the conversion of housing accommodations subject to the rent regulation for housing.

(5) In the event the original records pertaining to the duty of a landlord to offer rooms for weekly or monthly occupancy have been destroyed or are otherwise unavailable for reasons beyond his control, the area rent director may, on petition by the landlord, and on due proof of loss and a finding that the loss or destruction of the records was without fault on the part of the petitioner, enter an order fixing the number of permanent rooms on the basis of the best available evidence or, in the default of substantial evidence, on the basis of the number of weekly or monthly guests in comparable buildings or establishments in the area during the applicable quota month. If the building or establishment is classified by the area rent director as a transient hotel, residential hotel or motor court, the landlord may thereafter apply on OPA Form DH–DC for decontrol of daily rates as provided by subparagraph (1) of this section 4 (h) and the number of permanent rooms he will be required to offer only for weekly or monthly terms shall be the number specified in the order of the area rent director, and shall be identified by him by number or location, as provided in said subparagraph (1).

(6) At intervals of not less than three months from the date of the original application, a landlord may file a supplemental application to substitute other permanent rooms for those listed in the original application: *Provided, however,* That no application for the substitution of one permanent room for another shall be made unless the permanent room for which the landlord desires to substitute another is vacant or occupied by a tenant who desires to move into the substitute room. If no maximum weekly or monthly rents are established for the substitute room, the rents charged therefor shall be no higher than the weekly or monthly rents generally prevailing in the building or establishment for comparable rooms.

3. Section 6 (d) (2) is amended to read as follows:

(2) *Daily or weekly tenants.* A tenant occupying a room within a transient hotel on a daily or weekly basis or a tenant occupying on a daily basis a room in a residential hotel, rooming house or motor court which has heretofore usually been rented on a daily basis: *Provided,* That the provisions of this section do apply to a tenant on a daily or weekly basis who has requested a weekly or monthly term of occupancy pursuant to section 2 (b) (3) or (7): *And provided further,* That the provisions of this section shall apply to a tenant occupying a permanent room on a weekly basis in a building or establishment, the landlord of which has applied for decontrol of daily rates under the provisions of section 4 (h).

4. Section 13 (a) is amended by adding paragraph (19) to read as follows:

(19) "Permanent room" means a room specified by a landlord in an application for decontrol of daily rates under section 4 (h), which may be rented only for weekly or monthly occupancy under the provisions of that section.

Issued: January 17, 1947.
Effective: January 20, 1947.

PHILIP B. FLEMING,
Temporary Controls Administrator.

Statement to Accompany Amendment 102 to the Rent Regulation for Transient Hotels, Residential Hotels, Rooming Houses and Motor Courts; Amendment 31 to the Rent Regulation for Transient Hotels, Residential Hotels, Rooming Houses and Motor Courts in the New York City Defense-Rental Area; Amendment 24 to the Rent Regulation for Transient Hotels, Residential Hotels, Rooming Houses and Motor Courts in the Miami Defense-Rental Area

By Amendment 102 section 4 (k) is added to existing regulations and provides a method whereby a landlord who is the proprietor or operator of an establishment classified by the area rent director as a transient hotel, residential hotel or motor court, may apply for the decontrol of daily rates on transient rooms. At the same time weekly or monthly guests in such establishments are protected both from unwarranted eviction and the payment of a weekly or monthly rent in excess of the present maximums.

During the war period travel by military personnel and those engaged in essential war business as well as by families of members of the services visiting them in camps and hospitals made the maintenance of rent ceilings on hotel rooms occupied by transient guests vital. With the virtual cessation of this type of travel and consistent with the desire of the Administrator to remove controls wherever feasible, this amendment now makes it possible for a landlord to obtain the decontrol of daily rates on rooms occupied by transient guests.

At the same time the Administrator feels it vital that permanent guests in hotels and motor courts should be fully protected. The vast majority of such accommodations are occupied by working people, students, many of them ex-servicemen and women, and others living on fixed incomes who would find it difficult if not impossible to find alternate accommodations in the face of the current housing shortage. Such rooms are as much a part of the general housing supply as homes and apartments. The Industry Advisory Committees both for the hotel and motor court industries are in full agreement with the Administrator in the protection of permanent tenants and have cooperated with the Administrator in drafting the text of this amendment.

Under the amendment, application can be made any time after February 1, 1947, for a decontrol of daily rates on transient rooms on a form supplied by the Administrator. On this form the landlord will report the number of rooms he is required to rent for weekly or monthly terms under present regulations and will then select specific rooms equal to this number which he will thereafter only be permitted to rent for such terms. These rooms will be known as permanent rooms. If the form is properly filled out he may, after February 15, 1947, rent the remaining rooms for daily occupancy free of the present maximum rents for such occupancy.

Since the necessity for provisions of section 2 (b) (6) is virtually done away with by the addition of section 4 (k), the amendment provides that after January 20, 1947, no further applications may be made under section 2 (b) (6).

The protection of the eviction sections of the regulation are also extended to weekly occupants of permanent rooms in transient hotels by an appropriate change in section 6 (d) (2).

In the judgment of the Price Administrator, these amendments are necessary and proper in order to effectuate the purposes of the Emergency Price Control Act.

No provisions which might have the effect of requiring a change in established rental practices have been included in the amendments unless such provisions have been found necessary to achieve effective rent control and to prevent circumvention or evasion of the rent regulations and the act. To the extent that the provisions of these amendments compel or may operate to compel changes in established rental practices, such provisions are necessary to prevent circumvention or evasion of the rent regulations and the act.

PART 1388—DEFENSE-RENTAL AREAS

[Transient Hotels, Residential Hotels, Rooming Houses and Motor Courts, New York City Area,[1] Amdt. 31 (§ 1388.1291)]

TRANSIENT HOTELS, RESIDENTIAL HOTELS, ROOMING HOUSES AND MOTOR COURTS IN NEW YORK CITY AREA

The rent regulation for transient hotels, residential hotels, rooming houses and motor courts in the New York City Defense-Rental Area is amended in the following respects:

1. The first paragraph of section 2 (b) (5) is amended to read as follows:

(5) *Weekly and monthly terms of occupancy 50% or less.* A landlord who is required to rent for weekly or monthly terms of occupancy 50% or less of the rooms in the establishment, under subparagraph (2) of this paragraph, may petition the Administrator to be relieved of such requirement, provided such petition is filed and an order entered prior to January 20, 1947. Upon issuance of an order granting such petition, the provisions of subparagraphs (2) and (3) of this paragraph no longer shall apply to the rooms in the establishment; but, unless otherwise provided in the order, the maximum rent for a weekly term of occupancy shall apply where, after the date of issuance of the order, a tenant remains in occupancy for a continuous period of more than 10 days, and the maximum rent for a monthly term of occupancy shall apply where, after the date of issuance of the order, a tenant remains in occupancy for a continuous period of more than thirty days, regardless of whether the tenant occupies the same room in the establishment during the specified period. The maximum rent on a weekly or monthly basis, as the case may be, shall apply from the date of issuance of the order or the date on which occupancy commenced, whichever is the later.

2. Section 4 is amended by adding paragraph (h) to read as follows:

(h) *Optional decontrol of daily rates.* (1) On or after February 1, 1947, any landlord who is the proprietor or operator of an establishment classified as a transient hotel, residential hotel, or motor court, may apply to the area rent director for the decontrol of maximum daily rates on selected rooms in such establishment on OPA Form DH–DC. On such form the landlord shall list by number or location specific rooms in the building or establishment equal in number to the maximum number he is required to rent for weekly or monthly terms pursuant to the provisions of section 2 hereof and any order entered thereunder, or, if the rooms in the building or establishment were first rented subsequent to the applicable monthly period specified in section 2 (b) (2), then equal in number to the highest number actually rented for weekly or monthly terms at any one time during the month of December 1946, or to the number that the landlord is required to offer for rent for weekly or monthly terms under any order entered by the area rent director,

whichever is the higher. Such rooms shall be known as permanent rooms for the purposes of tnis regulation and shall, after February 15, 1947, or the date of filing, whichever is later, be rented or offered for rent only on a weekly or monthly basis: *Provided, however,* That individual permanent rooms may be rented for periods less than one week at a daily rate of not to exceed one-seventh of the weekly rate or one-thirtieth of the monthly rate, whichever may be applicable to the particular room and number of occupants. Included in the permanent rooms listed by the landlord shall be those occupied by weekly or monthly tenants at the time of application up to the number the landlord is required to rent for weekly or monthly terms.

If such application is filed on OPA Form DH–DC, maximum daily rents established by this regulation for all rooms in the building or establishment other than permanent rooms shall, on and after February 15, 1947, or the date of the filing of such application, whichever is later, no longer be applicable. Such rooms may be rented thereafter for daily terms of occupancy free of the limitations imposed by this regulation: *Provided, however,* That any application which is not in proper form or omits information required from the landlord shall be void.

(2) At any time subsequent to the application of the landlord on Form DH–DC, the area rent director may require the submission of such books and records as, in his opinion, are necessary to substantiate the statements made by the landlord thereon. In default of submission of adequate records, or if the application contains material misrepresentations of fact, the area rent director may, by order, void the landlord's application and rooms in the building or establishment shall thereupon become subject to maximum rents provided by this regulation for all terms of occupancy and number of occupants and to the other provisions thereof to the same extent as if no application had been filed under this paragraph 4 (h).

(3) In the event an order has been entered on an application by the landlord under section 2 (b) (5) hereof, relieving the establishment of its obligation to offer rooms for weekly or monthly terms of occupancy to the extent provided therein, the number of permanent rooms the landlord shall be required to offer only for weekly or monthly terms, in the event application is made under subparagraph (1) of this section 4 (h), shall be the highest number rented at any one time for weekly or monthly terms during the month of December 1946.

(4) The provisions of this section 4 (h) shall not apply to rooms in hotels or motor courts which are first rented after February 1, 1947, and result from the conversion of housing accommodations subject to the Rent Regulation for Housing.

(5) In the event the original records pertaining to the duty of a landlord to offer rooms for weekly or monthly occupancy have been destroyed or are otherwise unavailable for reasons beyond his control, the area rent director may, on petition by the landlord, and on due proof of loss and a finding that the loss or destruction of the records was without fault on the part of the petitioner, enter an order fixing the number of permanent rooms on the basis of the best available evidence or, in the default of substantial evidence, on the basis of the number of weekly or monthly guests in comparable buildings or establishments in the area during the applicable quota month. If the building or establishment is classified by the area rent director as a transient hotel, residential hotel or motor court, the landlord may thereafter apply on OPA Form DH–DC for decontrol of daily rates as provided by subparagraph (1) of this section 4 (h) and the number of permanent rooms he will be required to offer only for weekly or monthly terms shall be the number specified in the order of the area rent director, and shall be identified by him by number or location, as provided in said subparagraph (1).

(6) At intervals of not less than three months from the date of the original application, a landlord may file a supplemental application to substitute other permanent rooms for those listed in the original application provided, however, that no application for the substitution of one permanent room for another shall be made unless the permanent room for which the landlord desires to substitute another is vacant or occupied by a tenant who desires to move into the substitute room. If no maximum weekly or monthly rents are established for the substitute room, the rents charged therefor shall be no higher than the weekly or monthly rents generally prevailing in the building or establishment for comparable rooms.

3. Section 6 (d) (2) is amended to read as follows:

(2) *Daily or weekly tenants.* A tenant occupying a room within a transient hotel on a daily or weekly basis or a tenant occupying on a daily basis a room in a residential hotel, rooming house or motor court which has heretofore usually been rented on a daily basis: *Provided,* That the provisions of this section do apply to a tenant on a daily or weekly basis who has requested a weekly or monthly term of occupancy pursuant to section 2 (b) (3) or (7): *And provided, further,* that the provisions of this section shall apply to a tenant occupying a permanent room on a weekly basis in a building or establishment, the landlord of which has applied for decontrol of daily rates under the provisions of section 4 (h).

4. Section 13 (a) is amended by adding paragraph (19) to read as follows:

(19) "Permanent room" means a room specified by a landlord in an application for decontrol of daily rates under section 4 (h), which may be rented only for weekly or monthly occupancy under the provisions of that section.

On this form the landlord will report the number of rooms he is required to rent for weekly or monthly terms under present regulations and will then select specific rooms equal to this number which he will thereafter only be permitted to rent for such terms. These rooms will be known as permanent rooms. If the form is properly filled out he may, after February 15, 1947, rent the remaining rooms for daily occupancy free of the present maximum rents for such occupancy.

Since the necessity for provisions of section 2 (b) (6) is virtually done away with by the addition of section 4 (k), the amendment provides that after January 20, 1947, no further applications may be made under section 2 (b) (6).

The protection of the eviction sections of the regulation are also extended to weekly occupants of permanent rooms in transient hotels by an appropriate change in section 6 (d) (2).

In the judgment of the Price Administrator, these amendments are necessary and proper in order to effectuate the purposes of the Emergency Price Control Act.

No provisions which might have the effect of requiring a change in established rental practices have been included in the amendments unless such provisions have been found necessary to achieve effective rent control and to prevent circumvention or evasion of the rent regulations and the act. To the extent that the provisions of these amendments compel or may operate to compel changes in established rental practices, such provisions are necessary to prevent circumvention or evasion of the rent regulations and the act.

PART 1388—DEFENSE-RENTAL AREAS

[Transient Hotels, Residential Hotels, Rooming Houses and Motor Court,[1] Amdt. 102 (§ 1388.1231)]

TRANSIENT HOTELS, RESIDENTIAL HOTELS, ROOMING HOUSES AND MOTOR COURTS

The rent regulation for transient hotels, residential hotels, rooming houses and motor courts is amended in the following respects:

1. The first paragraph of section 2 (b) (6) is amended to read as follows:

(6) *Weekly and monthly terms of occupancy 50% or less.* A landlord who is required to rent for weekly or monthly terms of occupancy 50% or less of the rooms in the establishment, under subparagraph (2) of this paragraph, may petition the Administrator to be relieved of such requirement, provided such petition is filed and an order entered prior to January 20, 1947. Upon issuance of an order granting such petition, the provisions of subparagraphs (2) and (3) of this paragraph no longer shall apply to the rooms in the establishment; but, unless otherwise provided in the order, the maximum rent for a weekly term of occupancy shall apply where, after the date of issuance of the order, a tenant remains in occupancy for a continuous period of more than ten days, and the maximum rent for a monthly term of occupancy shall apply where, after the date of issuance of the order, a tenant remains in occupancy for a continuous period of more than thirty days, regardless of whether the tenant occupies the same room in the establishment during the specified period. The maximum rent on a weekly or monthly basis, as the case may be, shall apply from the date of issuance of the order or the date on which occupancy commenced, whichever is the later.

2. Section 4 is amended by adding paragraph (k) to read as follows:

(k) *Optional decontrol of daily rates.* (1) On or after February 1, 1947, any landlord who is the proprietor or operator of an establishment classified as a transient hotel, residential hotel, or motor court, may apply to the area rent director for the decontrol of maximum daily rates on selected rooms in such establishment on OPA Form DH–DC. On such form the landlord shall list by number or location specific rooms in the building or establishment equal in number to the maximum number he is required to rent for weekly or monthly terms pursuant to the provisions of Section 2 hereof and any order entered thereunder, or, if the rooms in the building or establishment were first rented subsequent to the applicable monthly period specified in section 2 (b) (2) or 2 (b) (5), then equal in number to the highest number actually rented for weekly or monthly terms at any one time during the month of December 1946, or to the number that the landlord is required to offer for rent for weekly or monthly terms under any order entered by the area rent director, whichever is the higher. Such rooms shall be known as permanent rooms for the purposes of this regulation and shall, after February 15, 1947, or the date of filing, whichever is later, be rented or offered for rent only on a weekly or monthly basis: *Provided, however,* That individual permanent rooms may be rented for periods less than one week at a daily rate of not to exceed one-seventh of the weekly rate or one-thirtieth of the monthly rate, whichever may be applicable to the particular room and number of occupants. Included in the permanent rooms listed by the landlord shall be those occupied by weekly or monthly tenants at the time of application up to the number the landlord is required to rent for weekly or monthly terms.

If such application is filed on OPA Form DH–DC, maximum daily rents established by this regulation for all rooms in the building or establishment other than permanent rooms shall, on and after February 15, 1947, or the date of the filing of such application, whichever is later, no longer be applicable. Such rooms may be rented thereafter for daily terms of occupancy free of the limitations imposed by this regulation: *Provided, however,* That any application which is not in proper form or omits information required from the landlord shall be void.

(2) At any time subsequent to the application of the landlord on Form DH–DC, the area rent director may require the submission of such books and records as, in his opinion, are necessary to substantiate the statements made by the landlord thereon. In default of submission of adequate records, or if the application contains material misrepresentations of fact, the area rent director may, by order, void the landlord's application and rooms in the building or establishment shall thereupon become subject to maximum rents provided by this regulation for all terms of occupancy and number of occupants and to the other provisions thereof to the same extent as if no application had been filed under this paragraph 4 (k).

(3) In the event an order has been entered on an application by the landlord under section 2 (b) (6) hereof, relieving the establishment of its obligation to offer rooms for weekly or monthly terms of occupancy to the extent provided therein, the number of permanent rooms the landlord shall be required to offer only for weekly or monthly terms, in the event application is made under subparagraph (1) of this Section 4 (k), shall be the highest number rented at any one time for weekly or monthly terms during the month of December 1946.

(4) The provisions of this section 4 (k) shall not apply to rooms in hotels or motor courts which are first rented after February 1, 1947, and result from the conversion of housing accommodations subject to the rent regulation for housing.

(5) In the event the original records pertaining to the duty of a landlord to offer rooms for weekly or monthly occupancy have been destroyed or are otherwise unavailable for reasons beyond his control, the area rent director may, on petition by the landlord, and on due proof of loss and a finding that the loss or destruction of the records was without fault on the part of the petitioner, enter an order fixing the number of permanent rooms on the basis of the best available evidence or, in the default of substantial evidence, on the basis of the number of weekly or monthly guests in comparable buildings or establishments in the area during the applicable quota month. If the building or establishment is classified by the area rent director as a transient hotel, residential hotel or motor court, the landlord may thereafter apply on OPA Form DH–DC for decontrol of daily rates as provided by subparagraph (1) of this section 4 (k) and the number of permanent rooms he will be required to offer only for weekly or monthly terms shall be the number specified in the order of the area rent director, and shall be identified by him by number or location, as provided in said subparagraph (1).

(6) At intervals of not less than three months from the date of the original application, a landlord may file a supplemental application to substitute other permanent rooms for those listed in the original application provided, however, that no application for the substitution of one permanent room for another shall be made unless the permanent room for which the landlord desires to substitute another is vacant or occupied by a tenant who desires to move into the substitute room. If no maximum weekly or monthly rents are established for the substitute room, the rents charged therefor shall be no higher than the weekly or monthly rents generally prevailing in the building or establishment for comparable rooms.

3. Section 6 (d) (2) is amended to read as follows:

(2) *Daily or weekly tenants.* A tenant occupying a room within a transient

hotel on a daily or weekly basis or a tenant occupying on a daily basis a room in a residential hotel, rooming house or motor court which has heretofore usually been rented on a daily basis: *Provided*, That the provisions of this section do apply to a tenant on a daily or weekly basis who has requested a weekly or monthly term of occupancy pursuant to section 2 (b) (3) or (8): *And provided, further*, That the provisions of this section shall apply to a tenant occupying a permanent room on a weekly basis in a building or establishment, the landlord of which has applied for decontrol of daily rates under the provisions of section 4 (k).

4. Section 13 (a) is amended by adding Paragraph (19) to read as follows:

(19) "Permanent room" means a room specified by a landlord in an application for decontrol of daily rates under section 4 (k) which may be rented only for weekly or monthly occupancy under the provisions of that section.

Issued: January 17, 1947.
Effective: January 20, 1947.

PHILIP B. FLEMING,
Temporary Controls Administrator.

Statement To Accompany Amendment 102 to the Rent Regulation for Transient Hotels, Residential Hotels, Rooming Houses and Motor Courts; Amendment 31 to the Rent Regulation for Transient Hotels, Residential Hotels, Rooming Houses and Motor Courts in the New York City Defense-Rental Area; Amendment 24 to the Rent Regulation for Transient Hotels, Residential Hotels, Rooming Houses and Motor Courts in the Miami Defense-Rental Area

By Amendment 102 section 4 (k) is added to existing regulations and provides a method whereby a landlord who is the proprietor or operator of an establishment classified by the area rent director as a transient hotel, residential hotel or motor court, may apply for the decontrol of daily rates on transient rooms. At the same time weekly or monthly guests in such establishments are protected both from unwarranted eviction and the payment of a weekly or monthly rent in excess of the present maximums.

During the war period travel by military personnel and those engaged in essential war business as well as by families of members of the services visiting them in camps and hospitals made the maintenance of rent ceilings on hotel rooms occupied by transient guests vital. With the virtual cessation of this type of travel and consistent with the desire of the Administrator to remove controls wherever feasible, this amendment now makes it possible for a landlord to obtain the decontrol of daily rates on rooms occupied by transient guests.

At the same time the Administrator feels it vital that permanent guests in hotels and motor courts should be fully protected. The vast majority of such accommodations are occupied by working people, students, many of them ex-service men and women, and others living on fixed incomes who would find it difficult if not impossible to find alternate accommodations in the face of the current housing shortage. Such rooms are as much a part of the general housing supply as homes and apartments. The Industry Advisory Committees both for the hotel and motor court industries are in full agreement with the Administrator in the protection of permanent tenants and have cooperated with the Administrator in drafting the text of this amendment.

Under the amendment, application can be made any time after February 1, 1947, for a decontrol of daily rates on transient rooms on a form supplied by the Administrator. On this form the landlord will report the number of rooms he is required to rent for weekly or monthly terms under present regulations and will then select specific rooms equal to this number which he will thereafter only be permitted to rent for such terms. These rooms will be known as permanent rooms. If the form is properly filled out he may, after February 15, 1947, rent the remaining rooms for daily occupancy free of the present maximum rents for such occupancy.

Since the necessity for provisions of section 2 (b) (6) is virtually done away with by the addition of section 4 (k), the amendment provides that after January 20, 1947, no further applications may be made under section 2 (b) (6).

The protection of the eviction sections of the regulation are also extended to weekly occupants of permanent rooms in transient hotels by an appropriate change in section 6 (d) (2).

In the judgment of the Price Administrator, these amendments are necessary and proper in order to effectuate the purposes of the Emergency Price Control Act.

No provisions which might have the effect of requiring a change in established rental practices have been included in the amendments unless such provisions have been found necessary to achieve effective rent control and to prevent circumvention or evasion of the rent regulations and the act. To the extent that the provisions of these amendments compel or may operate to compel changes in established rental practices, such provisions are necessary to prevent circumvention or evasion of the rent regulations and the act.

Chapter XXIII—War Assets Administration

[Reg. 14,[1] Order 7]

PART 8314—DISPOSAL TO NONPROFIT INSTITUTIONS AND DISCOUNTS FOR EDUCATIONAL OR PUBLIC-HEALTH INSTITUTIONS OR INSTRUMENTALITIES

DISPOSAL OF PERSONAL PROPERTY TO EDUCATIONAL AND PUBLIC-HEALTH INSTITUTIONS AND INSTRUMENTALITIES

The War Assets Administrator has determined that there is an urgent need by educational and public-health institutions for various types of equipment, which need in the case of educational institutions has become acute because of an abnormal increase in enrollment in the face of an accelerated obsolescence of existing equipment; that in the case of elementary and secondary educational institutions present facilities are wholly inadequate to provide proper instruction, and existing budgets are insufficient to enable said institutions to purchase the needed equipment; that with respect to public-health institutions a similar situation exists because of increased demands for health services, and the need for suitable equipment is acute.

The War Assets Administrator has further determined that the property which is listed in Exhibit A herein is critically needed by such educational and public-health institutions, that such property is suitable for educational and public-health use, and that it would be of great public benefit to make such property available to said institutions at a nominal price.

In view of the foregoing considerations, the War Assets Administrator finds that the benefit which will accrue to the United States from the use of such property by educational and public-health institutions justifies disposal to them of such property at a nominal price, approximately sufficient to cover the cost of disposition, and that such nominal price should be five (5) percent of the fair value of the property as established by the disposal agency.

Pursuant to the foregoing, it is hereby ordered that:

§ 8314.57 *Disposal of personal property to educational and public-health institutions and instrumentalities.* (a) Notwithstanding the provisions of § 8314.9 of this part, disposal agencies, after making such provisions as may be necessary for offerings to priority claimants in accordance with the provisions of Part 8302,[2] are hereby authorized to sell property listed in Exhibit A herein to educational and public-health institutions and instrumentalities, as defined in § 8314.1, whose orders have been approved by the War Assets Administration, at a price equivalent to five (5) per cent of the fair value thereof, f. o. b. location.

(b) In considering applications or orders of individual educational institutions or instrumentalities for property listed in Exhibit A, special consideration shall be given to the needs of elementary and secondary educational institutions.

(c) Applications or orders for instructional equipment which have been or shall be approved by the Federal Works Agency, in accordance with § 8314.56[3] of this part, shall not be affected by the provisions of this section.

(d) When any of the property listed in Exhibit A herein is or shall be in conflict with any list of property set aside for veterans under Part 8302[2] as now or hereafter in effect, the provisions of Part 8302 shall be controlling.

Chapter XXIV—Department of State, Disposal of Surplus Property

[FLC Reg. 8, Order 6]

PART 8508—DISPOSAL OF SURPLUS PROPERTY LOCATED IN FOREIGN AREAS

IMPORTATION INTO UNITED STATES OF SURPLUS PROPERTY LOCATED IN FOREIGN AREAS

The functions of the Director of War Mobilization and Reconversion authorized by subsections (c) (1), (c) (2), (c) (3), and (c) (4) of section 101 of the War Mobilization and Reconversion Act of 1944 (58 Stat. 785) having been transferred to the President by paragraph 4 of Executive Order 9809, December 12, 1946 (11 F. R. 14281), Foreign Liquidation Commissioner Regulation 8, Order 6 of September 18, 1946 (11 F. R. 10709, Departmental Regulation 108.22) is hereby revised and amended as herein set forth. Supplements 1, 2, and 3 to Order 6, dated November 6, 1946, November 14, 1946, and December 17, 1946 (11 F. R. 13443, 13637, 14634; Departmental Regulations 108.32, 108.33 108.35) are hereby superseded.

The President has informed the Secretary of State that certain materials which have been or may be declared to the Foreign Liquidation Commissioner as surplus property located in foreign areas are in critically short supply and urgently needed for reconversion in the United States, and has requested the Secretary of State to take such action as may be necessary and appropriate to permit the importation of such materials into the United States for use by American industry.

It is hereby ordered, That § 8508.15 *Importations into the United States* (11 F. R. 13424) shall not apply to prevent the importation of surplus property specified in Schedule A attached hereto as the same now stands or may hereafter be amended or supplemented to include additional materials designated by the President as necessary for reconversion in the United States.

This order shall become effective immediately upon publication in the FEDERAL REGISTER.

[Public Land Order 339]

MONTANA

REVOKING PUBLIC LAND ORDER NO. 134 OF JUNE 7, 1943, WITHDRAWING PUBLIC LANDS FOR USE OF THE WAR DEPARTMENT FOR AVIATION PURPOSES

By virtue of the authority vested in the President and pursuant to Executive Order No. 9337 of April 24, 1943; *It is ordered as follows:*

Public Land Order No. 134 of June 7, 1943, withdrawing the hereinafter-described public lands for the use of the War Department for aviation purposes, is hereby revoked.

The jurisdiction over and use of such lands granted to the War Department by Public Land Order No. 134 shall cease upon the date of the signing of this order. Thereupon, the jurisdiction over and administration of such lands shall be vested in the Department of the Interior and any other Department or agency of the Federal Government according to their respective interests then of record.

This order shall not otherwise become effective to change the status of such lands until 10:00 a. m. on March 12, 1947. At that time the lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, or selection as follows:

(a) *Ninety-day period for preference-right filings.* For a period of 90 days from March 12, 1947, to June 10, 1947, inclusive, the public lands affected by this order shall be subject to (1) application under the homestead or the desert land laws, or the small tract act of June 1, 1938 (52 Stat. 609, 43 U. S. C. sec. 682a), as amended, by qualified veterans of World War II, for whose service recognition is granted by the act of September 27, 1944 (58 Stat. 747, 43 U. S. C. secs. 279–283), subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications by such veterans shall be subject to claims of the classes described in subdivision (2).

(b) *Twenty-day advance period for simultaneous preference-right filings.* For a period of 20 days from February 20, 1947, to March 12, 1947, inclusive, such veterans and persons claiming preference rights superior to those of such veterans, may present their applications, and all such applications, together with those presented at 10:00 a. m. on March 12, 1947, shall be treated as simultaneously filed.

(c) *Date for non-preference right filings authorized by the public-land laws.* Commencing at 10:00 a. m. on June 11, 1947, any of the lands remaining unappropriated shall become subject to such application, petition, location, or selection by the public generally as may be authorized by the public-land laws.

(d) *Twenty-day advance period for simultaneous non-preference right filings.* Applications by the general public may be presented during the 20-day period from May 22, 1947, to June 11, 1947, inclusive, and all such applications, together with those presented at 10:00 a. m. on June 11, 1947, shall be treated as simultaneously filed.

Veterans shall accompany their applications with certified copies of their certificates of discharge, or other satisfactory evidence of their military or naval service. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated affidavits in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the District Land Office at Billings, Montana, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations (Circular No. 324, May 22, 1914, 43 L. D. 254), and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations and applications under the desert land laws and the small tract act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

Inquiries concerning these lands shall be addressed to the District Land Office, Billings, Montana.

The lands affected by this order are described as follows:

PRINCIPAL MERIDIAN

T. 16 N., R. 23 E.,
sec. 31, SE¼SE¼.[1]

The area described contains 40 acres.

TITLE 44—PUBLIC PROPERTY AND WORKS

Chapter I—National Archives

Subchapter B—National Archives Council

PART 11—REGULATIONS RELATING TO THE DISPOSAL OF RECORDS

Sec.
11.1 Compilation and submission of lists and schedules of records proposed for disposal.
11.2 Procedures for the disposal of records authorized for disposal.
11.3 Standards for the photographic reproduction of records with a view to the disposal of the original records.

AUTHORITY: §§ 11.1 to 11.3, inclusive, issued under sec. 2, 57 Stat. 381; 44 U. S. C., Sup. 367.

§ 11.1 *Compilation and submission of lists and schedules of records proposed for disposal.* All lists or schedules of records submitted to the Archivist of the United State in compliance with the provisions of section 3 of the act of July 7, 1943 (57 Stat. 381; 44 U. S. C., Sup. 368) shall be submitted on forms supplied or approved by the Archivist in the number of copies required by him and shall contain such information as may be called for by the said forms and by instructions issued by the Archivist. The said lists or schedules shall be accompanied by samples of the several items proposed therein for disposal unless the Archivist shall have waived this requirement.

§ 11.2 *Procedures for the disposal of records authorized for disposal.* Whenever any records shall have been authorized for disposal in accordance with the provisions of sections 6, 7, or 8 of the act of July 7, 1943, as amended July 6, 1945 (57 Stat. 381, 382, 59 Stat. 434; 44 U. S. C., Sup., 371–373) and whenever any records of types that have been proposed for disposal in schedules approved in accordance with the provisions of section 6 of the said act have been in existence for the periods specified in such schedules, the agency or agencies having the custody of such records shall, subject to the proviso in section 6 and the provisions of section 9 of the act of July 7, 1943 (57 Stat. 382; 44 U. S. C., Sup., 374), (a) cause the said records to be sold as waste paper: *Provided*, That, unless the said records shall have been treated in such a manner as to destroy their record content, any contract for sale of them shall prohibit their resale as records or documents; (b) cause them to be destroyed, if they cannot advantageously be sold or if, in the opinion of the head of the agency having custody of said records, destruction is necessary to avoid the disclosure of information that might be prejudicial to the interests of the Government or of individuals; or (c) cause them to be transferred, with the approval of the Archivist of the United States and without cost to the United States Government, to any government, organization, institution, corporation, or person that has made application for them.

§ 11.3 *Standards for the photograpic reproduction of records with a view to the disposal of the original records.* The standards for the reproduction of records by photographic or microphotographic processes with a view to the disposal of the original records shall be as follows:

(a) The records shall be photographed in such order that the integrity of the files will be preserved.

(b) All photographic film or paper used and the processing thereof shall comply with the minimum standards approved by the National Bureau of Standards for permanent photographic reproduction of records or for temporary photographic reproduction of records authorized for disposal after the lapse of a specified time.

(c) The reproductions shall be placed in conveniently accessible files and adequate provisions shall be made for preserving, examining, and using them.

I hereby certify that §§ 11.1 to 11.3, inclusive, were unanimously adopted by the National Archives Council on July 30, 1945, were approved by the President of the United States on August 8, 1945, and were promulgated on August 15, 1945, by transmittal of copies thereof to the heads of all agencies of the United States Government.

SOLON J. BUCK,
Chairman of the National Archives Council.

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[File Nos. T-D-666 and 670]

PART 1—RULES RELATING TO ORGANIZATION AND PRACTICE AND PROCEDURE

PART 63—EXTENSION OF LINES AND DISCONTINUANCE OF SERVICE BY CARRIERS

MISCELLANEOUS AMENDMENTS

In the matter of Rules Relating to section 214 of the Communications Act of 1934, as amended: Discontinuance, Reduction and Impairment of service; and applications of The Western Union Telegraph Company for authority to reduce hours of service at main and branch offices under specified standards and conditions.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 30th day of December 1946;

The Commission, having under consideration applications filed under section 214 of the Communications Act of 1934, as amended, by The Western Union Telegraph Company, File Nos. T-D-666 and 670, for authority to reduce the hours of service at main and branch offices under specified standards and conditions; also having under consideration protests from The Commercial Telegraphers' Union, Telegraph Employees' Union, Telegraph Workers' Union, The Communication Workers International Union, and the American Communications Association, C. I. O.;

It appearing that public convenience and necessity might be adversely affected in some cases by a grant of authority to make reductions in hours at main and branch offices under the standards and conditions proposed in the applications and that further conditions are necessary, therefore, to protect the interests of the public; and

It further appearing that, with proper conditions, as herein set forth, the authority sought by The Western Union Telegraph Company should be granted; and

It further appearing that the Commission's rules and regulations should be amended to incorporate the procedure to be followed and the standards and conditions to be met;

It is ordered, That the rules, designated as §§ 63.67 and 63.68 and Appendices G and H of Part 63 of the Commission's rules and regulations, be, and they are hereby, adopted as rules of the Commission; and

It is further ordered, That Part 63 of the Commission's rules and regulations, entitled "Extension of Lines and Discontinuance of Service by Carriers", be, and it is hereby, amended, in the following respects:

1. Section 63.62 (c) (11 F. R. 11214) is amended to read as follows:

§ 63.62 *Type of discontinuance, reduction or impairment of telephone or telegraph service requiring formal application.* * * *

(c) The closure of, or reduction of hours of service at, a public telegraph office, except that this paragraph shall not apply to the classes of cases specified in §§ 63.64, 63.66, 63.67 and 63.68 hereof where the carrier elects to follow the procedure prescribed in those sections: (For contents of application see Appendices C and D).

2. Section 63.90 *Publication and posting of notices* (11 F. R. 11215) is amended by inserting the words "(except a request under §§ 63.67 or 63.68)" after the words "informal request" in the first lines of paragraphs (a), (b), and (c); and

It is further ordered, That Part 1 of the Commission's rules and regulations, entitled "Rules Relating to Organization and Practice and Procedure", be, and it is hereby, amended in the following respects:

1. Paragraph (e) of § 1.145[1] *Authority delegated to secretary upon securing the approval of the Law, Engineering and Accounting departments* is amended by changing "63.66" in the next to the last line to "63.68".

2. Section 1.526[2] *Application for discontinuance, reduction, or impairment of service* is amended by changing "63.66" in the seventh line to "63.68"; by changing "F" in the seventh line to "H"; and by changing "§ 63.90" in the ninth line to §§ 63.67, 63.68 or 63.90".

§ 63.67 *Alternative procedure in certain specified cases where authority to reduce hours at main telegraph offices is desired.* (a) In lieu of filing formal

[1] 11 F. R. 177A-407, 13973.
[2] 11 F. R. 177A-420.

application, a carrier may file in quintuplicate an informal request, duly verified or affirmed according to law, for authority to reduce hours at main offices under the following specified standards and conditions:

(1) Weekday hours (Monday through Friday) will not be reduced below a minimum of eight hours per day at the main [1] office;

(2) Applicant will provide substitute service, at no additional tariff charge, during the hours to be deleted, through another office of the applicant located in the same community as the main office at which the reduction is made;

(3) Hours will not be reduced unless the average number of outgoing messages filed at the main office during the latest month for which traffic statistics are available, if a normal month with respect to conditions generally affecting traffic volume, has been at a rate not greater than 2 messages per hour during the total hours to be deleted and not greater than 4 messages per hour during the maximum traffic hour to be deleted;

(4) Applicant will file with the Federal Communications Commission, not more than once each month, forms in quintuplicate for main offices at which reduction in hours is proposed, giving on one form for each such office the information called for on the sample form appearing in Appendix G, and at the same time will forward a copy of such form to the State Commission, as defined in section 3 (t) of the Communications Act of 1934, as amended, or to the Governor if there is no such Commission, of the State in which the main office is located. Applicant will make no such reductions until fifteen days after such forms are filed with the Federal Communications Commission and will not reduce hours at any particular main office if advised by the Federal Communications Commission within such fifteen day period not to make such reduction;

(5) Upon written request from the Commission at any time within 6 months from the effective date of a reduction in hours at any main office as authorized under this section, the applicant will forthwith reestablish the hours observed before the reduction and will retain such hours unless and until authorized to change them upon individual and specific application to the Commission;

(6) Applicant will post a public notice at least 20 inches by 24 inches, with letters of commensurate size, in a conspicuous place at the office affected for a period of fourteen consecutive days, seven days of which shall be prior to the effective date of such reduction and seven days following such reduction. Such notice shall be in the following form:

Notice is hereby given that The Western Union Telegraph Company proposes to reduce the hours of service at this office from the present hours of _____ m. to _____ m. to the hours _____ m. to _____ m., effective, _____. Substituted service will be available from _____ m. to _____ m. at the _____ office located at _____ _____ (or give other appropriate general description of substituted service). Any member of the public objecting to the above reduction in hours of service may communicate in writing with the Federal Communications Commission, Washington 25, D. C.

(b) Authority for the reductions proposed under this section shall be deemed to have been granted by the Commission effective as of the fifteenth day following the date of filing of such request with the Commission unless on or before the fifteenth day the Commission shall notify the carrier to the contrary.

§ 63.68 *Alternative procedure in certain specified cases where authority to reduce hours at branch telegraph offices is desired.* (a) In lieu of filing formal application, a carrier may file in quintuplicate an informal request, duly verified or affirmed according to law, for authority to reduce hours at branch offices under the following specified standards and conditions:

(1) Weekday hours (Monday through Friday) will not be reduced below a minimum of eight hours per day at the office at which hours are to be reduced;

(2) Alternate service, at no additional tariff charge, will be available at a company-operated main or branch office located in the community, which will be open during the hours to be deleted and will have equal or better pickup and delivery facilities during those hours which will be available to the area served by the office at which hours will be reduced;

(3) Hours will not be reduced unless the average number of outgoing messages filed at the branch office during the latest month for which traffic statistics are available, if a normal month with respect to conditions generally affecting traffic volume, has been at a rate not greater than:

(i) 2 messages per hour during the total hours to be deleted and not greater than 4 messages per hour during the maximum traffic hour to be deleted, if the substitute office referred to in subparagraph (2) of this paragraph is located more than one mile from the office at which hours are to be reduced; or

(ii) 4 messages per hour during the total hours to be deleted and not greater than 6 messages per hour during the maximum traffic hour to be deleted, if the substitute office referred to in subparagraph (2) of this paragraph, is located more than one quarter of a mile but not more than one mile from the office at which hours are to be reduced; or

(iii) 6 messages per hour during the total hours to be deleted and not greater than 8 messages per hour during the maximum traffic hour to be deleted, if the substitute office referred to in subparagraph (2) of this paragraph above, is located not more than one quarter of a mile from the office at which hours are to be reduced;

(4) Applicant will file with the Federal Communications Commission, not more than once each month, forms in quintuplicate for branch offices at which reduction in hours is proposed, giving on one form for each such office the information called for on the sample form appearing in Appendix H, and at the same time will forward a copy of such form to the State Commission, as defined in section 3 (t) of the Communications Act of 1934, as amended, or to the Governor if there is no such Commission, of the State in which the office is located. Applicant will make no such reductions until fifteen days after such forms are filed with the Federal Communications Commission and will not reduce hours at any particular branch office if advised by the Federal Communications Commission within such fifteen day period not to make such reduction;

(5) Upon written request from the Commission at any time within 6 months from the effective date of a reduction in hours at any branch office as authorized under this section, the applicant will forthwith re-establish the hours observed before the reduction and will retain such hours unless and until authorized to change them upon individual and specific application to the Commission;

(6) Applicant will post a public notice at least 20 inches by 24 inches, with letters of commensurate size, in a conspicuous place at the office affected for a period of fourteen consecutive days, seven days of which shall be prior to the effective date of such reduction and seven days following such reduction. Such notice shall be in the following form:

Notice is hereby given that The Western Union Telegraph Company proposes to reduce the hours of service at this office from the present hours of _____ m. to _____ m. to the hours _____ m. to _____ m., effective _____. Substituted service will be available from _____ m. to _____ m. at the _____ office located at _____ (or give other appropriate general description of substituted service). Any member of the public objecting to the above reduction in hours of service may communicate in writing with the Federal Communications Commission, Washington 25, D. C.

(b) Authority for the reductions proposed under this section shall be deemed to have been granted by the Commission effective as of the fifteenth day following the date of filing of such request with the Commission unless on or before the fifteenth day the Commission shall notify the carrier to the contrary.

[1] The term "main office" as used in this section includes Class 1 and Class 3 offices. A Class 1 office is the principal office or the only office of the telegraph company in the municipality. A Class 3 office is also the only or principal office in the municipality but for administrative purposes it is supervised by a Class 1 office in another municipality.

DEPARTMENT OF STATE

CONTROL OF CERTAIN DOCUMENTS AND OTHER ITEMS REMOVED FROM PERSONAL PROPERTY OF STAFFS OF FORMER GERMAN DIPLOMATIC OR CONSULAR ESTABLISHMENTS IN UNITED STATES

By virtue of the authority vested in me by Executive Order 9760 dated July 23, 1946 (11 F. R. 7099), and pursuant to law, the undersigned, after appropriate investigation and consultation, finding:

(1) That members of the staffs of former German diplomatic and consular establishments in the United States had included within the baggage, personal effects and household goods stored in various warehouses in the United States, to which the Secretary of State had made reference in a General Supervisory Order (Public Notice 170, issued July [illegible], 1946), books, documents, papers, photographs, maps, films, ledgers, files, and various other items believed to contain information concerning German activities in the United States, together with radios and other equipment believed to have been used to facilitate communications concerning German activities in the United States;

(2) That under the provisions of law and for the security and safety of the United States in wartime it was deemed advisable to remove all such books, documents, papers, photographs, maps, films, radios, and other pertinent materials for investigation and study by appropriate agencies of this Government;

(3) That it is necessary in the interest of national security,

hereby undertakes the direction, management, supervision, maintenance, and control, to the extent deemed necessary and advisable from time to time by the undersigned, of the property referred to above.

The action taken herein shall not be construed to limit the power of the Secretary of State to vary the extent of such direction, management, supervision, maintenance, or control, or to terminate the same.

Issued this 14th day of January 1947.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

WYOMING

STOCK DRIVEWAY WITHDRAWAL NO. 128, WYOMING NO. 13, REDUCED

The order of the First Assistant Secretary of the Interior, dated December 26, 1922, modifying certain stock driveway withdrawals in Wyoming under section 10 of the act of December 29, 1916, 39 Stat. 865, 43 U. S. C., sec. 300, is hereby revoked so far as it affects the following-described lands which are within Stock Driveway Withdrawal No. 128, Wyoming No. 13.

These lands are mountainous and rocky in character with vegetation consisting of bluestem, blackroot, and buckbrush, with a scattered growth of scrub pine timber having no commercial value. They are primarily suitable for grazing.

This order shall become effective immediately as to the leasing of the lands for grazing but shall not otherwise become effective to change the status of such lands until 10:00 a. m. on February 28, 1947. At that time the lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, or selection as follows:

(a) *Ninety-day period for preference-right filings.* For a period of 90 days from February 28, 1947, to May 30, 1947, inclusive, the public lands affected by this order shall be subject to (1) application under the homestead or the desert land laws, or the small tract act of June 1, 1938 (52 Stat. 609, 43 U. S. C. sec. 682a), as amended, by qualified veterans of World War II, for whose service recognition is granted by the act of September 27, 1944 (58 Stat. 747, 43 U. S. C. secs. 279–283), subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications by such veterans shall be subject to claims of the classes described in subdivision (2).

(b) *Twenty-day advance period for simultaneous preference-right filings.* For a period of 20 days from February 8, 1947 to February 28, 1947, inclusive, such veterans and persons claiming preference rights superior to those of such veterans, may present their applications, and all such applications, together with those presented at 10:00 a. m. on February 28, 1947, shall be treated as simultaneously filed.

(c) *Date for non-preference-right filings authorized by the public-land laws.* Commencing at 10:00 a. m. on June 2, 1947, any of the lands remaining unappropriated shall become subject to such application, petition, location, or selection by the public generally as may be authorized by the public-land laws.

(d) *Twenty-day advance period for simultaneous non-preference-right filings.* Applications by the general public may be presented during the 20-day period from May 12, 1947 to June 2, 1947, inclusive, and all such applications, together with those presented at 10:00 a. m. on June 2, 1947, shall be treated as simultaneously filed.

Veterans shall accompany their applications with certified copies of their certificates of discharge, or other satisfactory evidence of their military or naval service. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated affidavits in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the District Land Office at Buffalo, Wyoming, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations (Circular No. 324, May 22, 1914, 43 L. D. 254), and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations and applications under the desert land laws and the small tract act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

Inquiries concerning these lands shall be addressed to the District Land Office at Buffalo, Wyoming.

The lands affected by this order are described as follows:

SIXTH PRINCIPAL MERIDIAN

T. 41 N., R. 85 W.,
sec. 30, lot 5, NE¼, and E½NW¼.
T. 41 N., R. 86 W.,

SECURITIES AND EXCHANGE COMMISSION

[File No. 811-365]

PACIFIC COAST MORTGAGE CO.

NOTICE OF APPLICATION, STATEMENT OF ISSUES AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 14th day of January A. D. 1947.

Notice is hereby given that Pacific Coast Mortgage Company has filed an application pursuant to section 8 (f) of the Investment Company Act of 1940 for an order modifying the Commission's

order of May 21, 1946, which declared the Applicant to be no longer an investment company and terminated its registration under the Investment Company Act subject to the continued applicability of sections 17, 30, 36 and 37 of the act pending the distribution of all of the Applicant's assets. The application requests the Commission to issue an order providing that section 30 (a) of the act shall no longer be applicable to the Applicant and that section 30 (d) shall be applicable only to require the transmission to the stockholders at the close of the Applicant's fiscal year of an annual report in the form required by section 30 (d).

All interested parties are referred to said application on file in the offices of the Commission for a more detailed statement of the request and the matters of fact and law asserted.

The Corporation Finance Division of the Commission has advised the Commission that, upon a preliminary examination of the application, it deems the following issues to be raised thereby:

(1) Whether compliance with section 30 (a) by the Applicant is still necessary for the protection of its investors; and

(2) Whether compliance with section 30 (d) by the Applicant is still necessary for the protection of its investors beyond a requirement that the Applicant furnish to stockholders at the close of its fiscal year an annual report in the form required by section 30 (d).

It appearing to the Commission that a hearing upon the application is necessary and appropriate:

It is ordered, Pursuant to section 40 (a) of said act, that a public hearing on the aforesaid application be held on January 29, 1947 at 9:45 a. m., Eastern Standard Time, Room 318 in the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Penna.

It is further ordered, That William W. Swift or any officer or officers of the Commission designated by it for that purpose shall preside at the hearing and any officer or officers so designated to preside at any such hearing is hereby authorized to exercise all of the powers granted to the Commission under sections 41 and 42 (b) of the Investment Company Act of 1940 and to hearing officers under the Commission's Rules of Practice.

Notice of such hearing is hereby given to the above named Applicant, Pacific Coast Mortgage Company, and to any other person or persons whose participation in such proceedings may be in the public interest or for the protection of investors. Any person desiring to be heard or otherwise desiring to participate in said proceeding should file with the Secretary of the Commission, on or before January 27, 1947, his application therefor as provided by Rule XVII of the rules of practice of the Commission, setting forth therein any of the above issues of law or fact which he desires to controvert and any additional issues he deems raised by the aforesaid application.

By the Commission.

CONSUMERS POWER CO. AND MICHIGAN GAS STORAGE CO.

ORDER PERMITTING APPLICATION-DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 13th day of January A. D. 1947.

Consumers Power Company ("Consumers"), a subsidiary of The Commonwealth & Southern Corporation ("Commonwealth"), a registered holding company, and Michigan Gas Storage Company ("Storage Company"), a corporation newly organized by Consumers, having filed an application-declaration and amendments thereto pursuant to the applicable provisions of the Public Utility Holding Company Act of 1935 regarding, among other things, the issuance and sale by Storage Company of 199,990 additional shares of its common stock and the acquisition by Consumers of 10 incorporators' shares and up to 179,990 additional shares of such stock; and

A public hearing having been held after appropriate notice and the Commission having considered the record and having made and filed its findings and opinion herein:

It is ordered, That said application-declaration, as amended, be, and the same hereby is, granted and permitted to become effective subject to the terms and conditions provided in Rule U-24.

It is further ordered, That an exemption from the competitive bidding requirements of subsection (b) and (c) of Rule U-50 be granted with respect to the issuance and sale of common stock of Storage Company to Panhandle Eastern Pipe Line Company, subject, however, to the terms and conditions prescribed in Rule U-24.

By the Commission.

INDIANA GAS & WATER CO., INC.

ORDER GRANTING APPLICATION

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 13th day of January A. D. 1947.

Indiana Gas & Water Company, Inc. ("Gas-Water"), a public utility subsidiary of Public Service Company of Indiana, Inc. and an indirect subsidiary of The Middle West Corporation, a registered holding company, having filed an application and an amendment thereto pursuant to the Public Utility Holding Company Act of 1935, particularly section 6 (b) thereof with respect to transactions of which the following is a summary:

Gas-Water proposes to issue $990,000 aggregate principal amount of its first mortgage bonds, 3%, series due 1972, one half of said principal amount to be issued to each of two life insurance companies, viz., Aetna Life Insurance Company and New England Mutual Life Insurance Company. Said bonds are to be issued under and secured by a supplemental indenture under the indenture securing the company's outstanding 3⅛% first mortgage bonds. Gas-Water proposes to sell the said bonds for an aggregate principal amount of $998,712 plus accrued interest. The net proceeds, after deducting fees and expenses estimated at $19,414, which amount includes a finder's fee of $7,500, are proposed to be used to refund the note indebtedness of Gas-Water presently outstanding in the principal amount of $500,000, and for additions to the company's gas and water utility facilities.

Said application having been filed on December 4, 1946, and an amendment thereto having been filed on December 26, 1946, and notice of such filing having been duly given in the manner prescribed by Rule U-23 promulgated pursuant to said act, and the Commission not having received a request for hearing with respect to said application within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

The applicant having requested that the Commission's order granting the application be issued at any early date and became effective forthwith in order to permit the consummation of the proposed transactions not later than January 24, 1947, and the Commission deeming it appropriate to grant such request; and

The Commission finding that the Public Service Commission of Indiana has expressly authorized the transactions hereinabove set forth and the Commission being satisfied on the basis of the record that the applicable requirements of the act, particularly section 6 (b) thereof, are met, and that it is appropriate in the public interest and in the interest of investors and consumers that the application, as amended, be granted;

It is hereby ordered, Effective forthwith, pursuant to said Rule U-23 and the applicable provisions of said act and subject to the terms and conditions prescribed in Rule U-24, that the aforesaid application, as amended, be, and the same hereby is, granted.

By the Commission.

HEARINGS

1. Section 22.9 (a) (5 CFR 1944 Supp., 10 F. R. 2170, 13769, 12 F. R. 207) is amended to read as follows:

§ 22.9 *Hearings*—(a) *Right to appear personally or by representative.* The appellant shall have the right to appear personally or through or accompanied by a designated representative in connection with his appeal and if an appellant has expressed the desire for such a personal appearance arrangements will be made for a hearing at a stage of the proceedings agreed upon between the appellant and the regional office or the office of the Chief Law Officer, as the case may be.

2. This amendment shall be effective upon publication in the FEDERAL REGISTER.

NOTE: This amendment is intended to facilitate the processing of appeals under this part. Because of the importance of the availability of these procedures to appeals that may be currently pending, the Commission finds that good cause exists for making this amendment effective as of the date of publication in the FEDERAL REGISTER.

PART 903—TRANSPORTATION OF INDIVIDUALS

CHECKABLE PERSONAL BAGGAGE

Paragraph (d) of § 903.7 is rescinded and the following substituted in lieu thereof:

§ 903.7 *Checkable personal baggage.*

* * *

(d) *On transoceanic voyages*—(1) *Allowance by the carriers.* Under the terms and conditions set forth in the Joint Military Passenger Agreement (WD), Commercial Traffic Bulletin 6 (1946), the rail carriers and certain steamship lines in the continental United States, exclusive of Alaska, parties to that agreement, will, for the classes of persons indicated in subdivisions (i), (ii), (iii), and (iv) of this subparagraph, transport a free allowance of 350 pounds of personal baggage on an adult ticket and 175 pounds on a child's half-fare ticket (of all classes, except special coach tickets), which are purchased for cash or issued on War Department transportation requests, when such persons are traveling in the United States on such tickets to or from a port en route to or from the applicable oversea points indicated in subdivisions (i), (ii), (iii), (iv) of this subparagraph, as the case may be.

(i) *En route to or from trans-Pacific destinations via Atlantic, or Gulf ports (see subdivision (v) of this subparagraph), or via Pacific ports.* All military personnel; authorized dependents of military and civilian personnel for whom transportation is authorized by the War Department; civilian employees (including laborers) of the War Department; and employees of the American Red Cross when transported at the expense of the War Department.

(ii) *Ordered to or detached from duty at stations in Alaska when traveling to or from a Pacific port.* Commissioned officers and warrant officers.

(iii) *Ordered to or detached from duty at trans-Atlantic stations when traveling to or from an Atlantic port.* Commissioned officers and warrant officers.

(iv) *En route to or from all points outside the continental limits of the United States not included in subdivision (i) of this subparagraph, via Atlantic or Gulf ports (see subdivision (v) of this subparagraph), or to or from points in Alaska.* Authorized dependents of military and civilian personnel for whom transportation is authorized by the War Department.

(v) Under the terms of the abovementioned Joint Military Passenger Agreement the provisions of subdivisions (i) and (iv) of this subparagraph concerning the free allowance via Atlantic or Gulf ports will expire 6 months after the termination of the present war as officially proclaimed by the President or the Congress.

(2) *Method of obtaining the free allowance.* In order to obtain the weight allowance of baggage authorized in subparagraph (1) of this paragraph, outbound passengers will present to the baggage agent, at the time the baggage is offered for checking, a through ticket to the port of embarkation and a copy of travel orders issued by competent United States Government authority, under the authority of which the person is traveling, showing that the traveler is en route to the applicable points designated in subparagraphs (1) (i), (ii), (iii), or (iv) of this paragraph, as the case may be, by Government or commercial facilities beyond such port. Similarly, inbound passengers will present to the baggage agent, at the time the baggage is offered for checking, a through ticket from the port of entry to destination and a copy of travel orders issued by competent United States Government authority, under the authority of which the person is traveling, showing that the traveler has arrived by Government or commercial facilities en route from the applicable points designated in subparagraphs (1) (i), (ii), (iii), or (iv) of this paragraph, as the case may be.

(3) *Restrictions.* The foregoing provisions are subject to any restrictions of the War Department which may be currently applicable regarding personal property or equipment which may be taken to or from oversea points or Alaska.

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

[Regs., Serial No. 385]

PART 41—CERTIFICATION AND OPERATION RULES FOR SCHEDULED AIR CARRIER OPERATIONS OUTSIDE THE CONTINENTAL LIMITS OF THE UNITED STATES

PART 42—NONSCHEDULED AIR CARRIER CERTIFICATION AND OPERATION RULES

PART 61—SCHEDULED AIR CARRIER RULES

FIRE PREVENTION IN AIR CARRIER AIRCRAFT

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 10th day of January 1947.

It appearing that: Amendments to §§ 41.20, 42.10 and 61.30 (11 F. R. 11353) of the Civil Air Regulations effective November 1, 1946, require extensive modification of the aircraft involved; the starting and completion dates specified in these amendments were established on the best information available when said amendments were promulgated; the time required to make the design changes and tests and the inability of the manufacturers to furnish the necessary parts and materials make it impossible for the carriers to accomplish the modifications required in compliance with the dates now specified; additional time should be granted to make such modifications, compliance with the procedures required by section 4 (a) of the Administrative Procedure Act is unnecessary.

Now, therefore: Effective January 10, 1947, §§ 41.20 (f) (2), 42.10 (b) and 61.30 (b) are amended by substituting "May 1, 1947," for "January 1, 1947," and substituting "May 1, 1948," for "January 1, 1948;" §§ 41.20 (f) (3), 42.10 (c) and 61.30 (c) are amended by substituting the date "May 1, 1947," for "January 1, 1947," and by substituting the date "May 1, 1948," for the date "September 1, 1947."

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Federal Security Agency

PART 2—REGULATIONS FOR THE ENFORCEMENT OF THE FEDERAL FOOD, DRUG, AND COSMETIC ACT

NEW DRUGS

By virtue of the authority vested in the Federal Security Administrator by the provisions of section 701 (a) of the Federal Food, Drug, and Cosmetic Act (52 Stat. 1040 ff, 21 U. S. C. 301 et seq.); the Reorganization Act of 1939 (53 Stat. 561, ff, 5 U. S. C. 133-133v); and Reorganization Plans No. I (53 Stat. 1423) and No. IV (54 Stat. 1234); the regulation heretofore promulgated as § 2.109 (21 CFR, Cum. Supp., 2.109) under section 505 (a) of the act is amended to read as follows:

§ 2.109 *New drugs; exemption from section 505 of the act.* A new drug shall not be deemed to be subject to section 505 of the act if it is a drug which is licensed under the Public Health Service Act of July 1, 1944 (58 Stat. 682; 42 U. S. C. (Supp. V) 201 et seq.), or under the animal virus-serum-toxin law of March 4, 1913 (37 Stat. 832; 21 U. S. C. 151 et seq.). (Sec. 701 (a), 52 Stat. 1055, Sec. 12, Reorganization Plan No. IV, 54 Stat. 1237; 21 U. S. C. 371)

The foregoing amendment shall become effective upon its publication in the FEDERAL REGISTER.

Chapter XI—Office of Temporary Controls, Office of Price Administration

PART 1407—RATIONING OF FOOD AND FOOD PRODUCTS

[3d Rev. RO 3,[1] Amdt. 33]

SUGAR

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.

Third Revised Ration Order 3 is amended in the following respects:

1. Section 2.3 (d) is amended to read as follows:

(d) *How application is made.* An industrial user's application for the increase allowed by this section must be made, in person or by mail, to the Sugar Branch Office with which he is registered. The first application for such increase must be made on OPA Form R-357 (Revised). No further application for such increase need be filed unless one or more areas to which an industrial user delivered products in 1941 are added to the areas listed in the supplement to this order. Each time one or more listed areas are added by an amendment, he must apply on OPA Form R-357 (Revised) for the increase in allotment to which he may be entitled because of the addition of such areas for the first period to which the amendment applies.

2. Section 2.3 (g) is amended by adding a parenthetical phrase to read as follows: (If during any period an industrial user ceases to make to any listed area for which he obtained an increase the deliveries required by this paragraph, he must report such fact to the Sugar Branch Office on his next application for an allotment and the amount of the increase he was granted for such delivery shall be considered excess inventory as provided in section 2.8 of this order.)

This amendment shall become effective January 25, 1947.

NOTE: The reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 20th day of January 1947.

PHILIP B. FLEMING,
Temporary Controls Administrator.

[1] 11 F. R. 116.

Rationale Accompanying Amendment No. 33 to Third Revised Ration Order 3

Present regulations. Present regulations require industrial users to file Form R-357 (Industrial User Application for Increased Allotment Based on Population Increases) for each allotment period in which the factor for that county has changed from the preceding allotment period, or when additional counties are added to the list of counties receiving increase factors.

Proposed amendment. This amendment eliminates the requirement of filing an R-357 Form when a change in factors takes place but continues the requirement of filing R-357 when a county or counties are added to the list as shown in section 4 of Supplement 1 to Third Revised Ration Order 3.

This amendment also specifically provides that if during any period an industrial user ceases to make deliveries to any county for which he was granted an increase he must report such fact to the Sugar Branch Office when he files his next application for an allotment.

Reason for change. Since the Office of Temporary Controls, Office of Price Administration, already has all necessary data with respect to the counties in which an increased factor was granted in the preceding period, the filing of this data when the factor is changed merely represents an unnecessary duplication of effort by the user and the Office of Temporary Controls. However, a report is needed when a county is added to the list, because the previous report from the user did not cover this county. Since an industrial user may use an increase granted under the provisions of section 2.3 only in products to be delivered by him to the area for which he received the increase, a user who ceases to make such deliveries must report such fact to the Sugar Branch Office.

PART 1407—RATIONING OF FOOD AND FOOD PRODUCTS

[3d Rev. RO 3,[1] Amdt. 34]

SUGAR

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.

Third Revised Ration Order 3 is amended to read as follows:

1. Section 24.2 (a) (2) is amended to read as follows:

(2) The sum of his sugar use in each corresponding calendar month in 1944 and 1945 is divided by two and the result is multiplied by 90 percent;

2. Section 24.2 (b) (3) is amended to read as follows:

(3) The base for each calendar month, if such month is after August, is computed by multiplying the sugar use for the corresponding calendar month in 1945 by 80 percent;

3. Section 24.2 (c) (1) is amended to read as follows:

(1) The base for each calendar month from September through December will be computed by multiplying the sugar use for the corresponding calendar month in 1945 by 80 percent;

This amendment shall become effective as of January 1, 1947.

Issued this 20th day of January 1947.

PHILIP B. FLEMING,
Temporary Controls Administrator.

Rationale Accompanying Amendment No. 34 to Third Revised Ration Order 3

The purpose of using percentage factors in establishing maximum allowances under the provisions of Amendment 24 was in order to relate allowances of sugar for the manufacture of bulk sweetened condensed milk to a representative rationing period. That is, by the use of percentage factors in establishing maximum allowances, the annual use of sugar for the manufacture of bulk sweetened condensed milk will approximate the average use of sugar for such purpose during the years 1943, 1944 and 1945. However, at the time Amendment 24 was issued, estimated data were used in establishing the percentage factors. Reexamination of these percentage factors on the basis of actual rather than estimated figures indicate that the percentage factors for the year 1945 and for the years 1944 and 1945 must be revised. The revised percentage factors for the year 1945 and for the years 1944 and 1945 are incorporated in this amendment.

TITLE 34—NAVY

Chapter I—Department of the Navy

PART 29—CLAIMS FOR RELIEF BY CONTRACTORS

FILING AND SETTLEMENT OF CLAIMS

Pursuant to the authority vested in the Secretary of the Navy by the act of

[1] 11 F. R. 177, 14281.

[1] 11 F. R. 13056.

August 7, 1946, Public Law 657, 79th Congress (hereinafter referred to as the "act"), and Executive Order No. 9786 dated October 5, 1946 (hereinafter referred to as the "Executive order"), the following regulations are prescribed to govern the filing, consideration, adjustment and settlement of claims for relief by contractors against the Department of the Navy under the provisions of the act and the Executive order.

§ 29.1 *Filing of claims.* (a) Where a claim shall be filed with the Navy Department under the provisions of the Executive order, it shall be filed with the bureau or activity under whose contracts and subcontracts the loss is claimed. When the claim is made with respect to contracts and subcontracts of more than one bureau or activity, the claim shall be filed with the bureau or activity under whose contracts and subcontracts the largest claim for loss is made.

(b) Since no claim shall be received or considered by any war agency unless properly filed in accordance with the provisions of the act and the Executive order on or before February 7, 1947, the date on which a claim or an amendment to a claim is filed with a bureau or office shall be immediately noted or stamped on the four copies of the claim.

(c) The bureau or activity receiving a claim filed under the provisions of the act and the Executive order shall immediately forward it to the Office of the General Counsel.

(d) Persons requesting information with respect to the requirements for the filing of claims under the provisions of the act shall be referred to the Executive order, and advised that claims will not be considered unless filed in strict accordance with the provisions of the Executive order. All questions of interpretation in respect to either the act or the Executive order shall be referred to the Office of the General Counsel.

§ 29.2 *Settlement of claims.* (a) Because of the importance of achieving uniformity in settlements under the provisions of the act and the Executive order, the claims shall be considered and settled by a central agency to be created within the Office of the Secretary. The organization, composition and procedures to be followed by such agency will be covered in a subsequent regulation.

(b) No investigation of a claim shall be made except in accordance with the instructions of the central agency referred to in paragraph (a) of this section.

(c) No settlements will be made under the provisions of the act and the Executive order prior to February 7, 1947, the last day for filing of claims and amendments thereto.

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans' Administration

PART 36—REGULATIONS UNDER SERVICEMEN'S READJUSTMENT ACT OF 1944

GUARANTY OR INSURANCE OF LOANS TO VETERANS

The following changes are made in the Regulations governing the guaranty and insurance of loans under Title III of the Servicemen's Readjustment Act of 1944, (Pub. Law 346, 78th Cong., as amended by Pub. Law 268, 79th Cong.) as amended:

1. Section 36.4325 (b) is amended to read as follows:

§ 36.4325 *Partial or total loss of guaranty or insurance.* • • •

(b) In taking security required by the act and the regulations in this part, a holder shall obtain the required lien on property the title to which is such as to be acceptable to prudent lending institutions, informed buyers, title companies, and attorneys, generally in the community in which the property is situated, and if any holder fails in this respect or fails to comply with the act and the regulations to this part with respect to:

(1) Obtaining and retaining a lien of the dignity required on all property reported as being encumbered to secure a loan,

(2) Inclusion of power to substitute trustees (§ 36.4327),

(3) The procurement and maintenance of insurance coverage (§ 36.4326),

(4) Advice to Administrator as to default (§ 36.4315),

(5) Notice of intention to begin action (§ 36.4317),

(6) Notice to the Administrator in any suit or action, or notice of sale (§ 36.4319),

(7) The release, conveyance, substitution or exchange of security, except as provided in the regulations in this part,

(8) Lack of legal capacity of a party to the transaction incident to which the guaranty or the insurance is granted (§ 36.4328),

(9) Failure of the lender to see that any escrowed or earmarked account is expended in accordance with the agreement,

no claim on the guaranty or insurance shall be paid on account of the loan with respect to which such failure occurred until the loss, if any, resulting from such failure is determined. The burden shall be upon the holder to establish that such loss or any part thereof is not attributable to such failure. If so established, the amount payable, if any, shall be calculated as though the amount of the loss attributable to such failure had been paid on the indebtedness. If after the payment of a guaranty or an insurance loss, or after a loan is transferred pursuant to § 36.4318 (a), the failure to comply with the regulations as provided in this paragraph is discovered and the Administrator claims that a loss resulted the transferor or person to whom such payment was made shall reimburse the Administrator except as to so much of the loss as such person or transferor establishes was not attributable to such failure.

2. Paragraph (b) of § 36.4339 *Qualification for designated appraisers* is revoked January 21, 1947.

3. Section 36.4350 (a) is amended to read as follows:

REAL ESTATE LOANS

§ 36.4350 *Eligibility for guaranty or insurance.* (a) No loan for the purchase of an interest in residential, farm, or business realty, or for the cost of any construction, repairs, alterations, or improvements thereon shall be eligible for a guaranty or insurance unless the veteran has or will become vested with an estate in the subject property not less than:

(1) A fee simple estate therein, legal or equitable; or

(2) A leasehold estate running or renewable at the option of the lessee for a period of not less than 14 years from the maturity of the loan, or to any earlier date at which the fee simple title will vest in the lessee, which is assignable or transferable, if the same be subjected to the lien, or

(3) A life estate, *Provided*, That the remainder and reversionary interests are subjected to the lien.

TITLE 42—PUBLIC HEALTH

Chapter I—Public Health Service, Federal Security Agency

PART 03—PROCEDURES AND FORMS

NATIONAL INSTITUTE OF HEALTH

Pursuant to sections 3 and 12 of the Administrative Procedure Act (60 Stat. 237), the following statement is issued as an addition to the procedural statements heretofore issued under the above heading:

§ 03.309 *Relation to Food and Drug Administration; licensed products and products for investigational use only.* The Public Health Service is generally responsible to the Federal Security Administrator for the administration of the provisions of both the Public Health Service Act and of the Federal Food, Drug, and Cosmetic Act which are applicable to biological products. This responsibility extends to products licensed under the Public Health Service Act, which are deemed not subject to section 505 of the Federal Food, Drug, and Cosmetic Act, and to products intended solely for investigational use which are subject to the provisions of subsection (i) of section 505 of the Federal Food, Drug, and Cosmetic Act and the regulations thereunder. By administrative arrangement, reports are made to the Service by the Food and Drug Administration whenever, in the course of the field operations of the Food and Drug Administration, conditions or products are encountered which there is reason to suspect may be substandard. In any emergency involving protection to the public against products which may be dangerous to life or health, proceedings may be invoked under the provisions of either act as may be agreed between the Public Health Service and the Food and Drug Administration or as the Administrator may direct. (Sec. 701 (a), 52 Stat. 1055, Sec. 12, Reorganization Plan No. IV, 54 Stat. 1237, Secs. 3, 12, Pub. Law 404, 79th Cong., 60 Stat. 238, 244; 21 U. S. C. 371)

DEFINITIONS

§ 22.1 *Definitions.* As used in this part:

(a) "Act" means the Public Health Service Act (58 Stat. 682), approved July 1, 1944.

(b) "Administrator" means the Federal Security Administrator.

(c) "Surgeon General" means the Surgeon General of the United States Public Health Service.

(d) "Institute" means the National Institute of Health in the Public Health Service.

(e) "State" means a State or the District of Columbia, Hawaii, Alaska, Puerto Rico, or the Virgin Islands.

(f) "Possession" includes, among other possessions, Puerto Rico and the Virgin Islands.

(g) "Biologic product" means any virus, therapeutic serum, toxin, antitoxin, or analogous product applicable to the prevention, treatment or cure of diseases or injuries of man:

(1) A virus is a product containing the minute living cause of an infectious disease.

(2) A therapeutic serum is the product obtained from the blood of an animal by removing the clot or clot components and the blood cells and intended for administration by a route other than ingestion.

(3) A toxin is a product containing a soluble substance poisonous to laboratory animals or to man in doses of 1 milliliter or less (or equivalent in weight) of the product, and having the property, following the injection of non-fatal doses into an animal, of causing to be produced therein another soluble substance which specifically neutralizes the poisonous substance and which is demonstrable in the serum of the animal thus immunized.

(4) An antitoxin is a product containing the soluble substance in serum or other body fluid of an immunized animal which specifically neutralizes the toxin against which the animal is immune.

(5) A product is analogous:

(i) To a virus if prepared from or with a virus or agent actually or potentially infectious, without regard to the degree of virulence or toxicogenicity of the specific strain used.

(ii) To a therapeutic serum, if composed of whole blood or plasma or containing some organic constituent or product other than a hormone or an amino acid, derived from whole blood, plasma, or serum and intended for administration by a route other than ingestion.

(iii) To a toxin or antitoxin, if intended, irrespective of its source of origin, for the prevention, treatment, or cure of diseases or injuries of man through specific immunization.

(h) "Trivalent organic arsenicals" means arsphenamine and its derivatives (or any other trivalent organic arsenic compound) applicable to the prevention, treatment, or cure of diseases or injuries of man.

(i) "Products" includes biologic products and trivalent organic arsenicals. A product is deemed "applicable to the prevention, treatment or cure of diseases or injuries of man" irrespective of the mode of administration or application recommended, including use when intended, through administration or application to a person, as an aid in diagnosis or in evaluatng the degree of susceptibility or immunity possessed by a person; and including also any other use for purposes of diagnosis if the diagnostic substance so used is prepared from or with the aid of a biologic product.

(j) "Proper name", as applied to a product, means the name designated in the license for use upon each container of the product.

(k) "Dating period" means the period beyond which the product cannot be expected beyond reasonable doubt to yield its specific results.

(l) "Expiration date" means the date of termination of the dating period.

(m) The word "standards" means specifications and procedures applicable to an establishment or to the production, content, testing, labeling, or release of products prepared therein, which are prescribed in this part and which are designed to insure the continued safety, purity and potency of such products.

(n) The word "continued" as applied to the safety, purity and potency of products is interpreted to apply to the dating period

(o) The word "safety" is interpreted to apply to the relative freedom from harmful effect to the recipient when a product is prudently administered taking into consideration the character of the product in relation to the condition of the patient at the time.

(p) The word "purity" is interpreted to mean the degree of freedom from extraneous matter, whether harmful to the recipient, deleterious to the product or otherwise, in the finished product.

(q) The word "potency" is interpreted to mean the specific ability or capacity of the product, as indicated by appropriate laboratory tests or by adequately controlled clinical data obtained through the administration of the product in the manner intended, to effect a given result.

(r) "Manufacturer" includes any individual, trust or estate, association, partnership or corporation engaged in the manufacture of a product subject to license under the act.

(s) "Establishment" means that portion of the properties of any manufacturer which is given over to the manufacture of a product subject to license, including equipment and animals used, and the personnel engaged in such manufacture.

(t) "Selling agent" or "distributor" means any person engaged in the unrestricted distribution, other than by sale at retail, of products subject to license.

LICENSES; PROCEDURE

§ 22.2 *Applications.* To obtain a license for any establishment, biologic product or trivalent organic arsenical, the manufacturer shall make application to the Surgeon General on forms prescribed for such purpose, and in the case of an application for a product license shall submit samples of the product and specimens of the labels, enclosures, and containers proposed to be used for such product.

§ 22.3 *Inspection of establishments and examination of products prior to licensing.* Licenses shall be issued only after inspection of the establishment and examination of the product for which a product license is desired and upon a determination that the establishment and the product meet the standards prescribed in the regulations in this part. Additional product licenses shall be issued only upon examination of the product and a determination that the product meets the standards prescribed in the regulations in this part.

§ 22.4 *Form of license: domestic establishments.* The following form of license is prescribed for establishments located in any State or possession of the United States:

Establishment License No. --------

This is to certify that ----------
of ----------, through the establishment identified as ---------- located at ---------- is hereby licensed, pursuant to section 351 of the Public Health Service Act, approved July 1, 1944 (58 Stat. 682), and regulations thereunder, to propagate or manufacture, and to prepare for sale in the District of Columbia, or for sending, bringing or carrying from any State or possession into any other State or possession or into any foreign country any virus, serum, toxin, antitoxin, or analogous product, or arsphenamine or its derivatives (or any other trivalent organic arsenic compound) for the propagation and manufacture of which the establishment holds an unsuspended and unrevoked license issued by the Federal Security Administrator pursuant to said act and regulations.

Federal Security Administrator.

Date ----------

§ 22.5 *Product licenses.* Each product license shall designate:

(a) The manufacturer.

(b) The establishment.

(c) The license number of the establishment.

(d) The proper name of the product, with additional specifications, if any, which may be approved or required for additional labeling purposes.

§ 22.6 *Changes to be reported.* Important changes in location, equipment, management and responsible personnel, or in production methods and labeling of any licensed product or of any product for which an application for a license is pending shall be immediately reported to the Institute by any establishment holding a license, and, unless in case of an emergency, not less than 30 days in advance of the time such changes are made; failure to make such report shall constitute a ground for summary suspension of a license pending reinspection of the establishment or re-examination of the product.

§ 22.7 *Products under development.* A biologic product or trivalent organic arsenical undergoing development, but not yet ready for a product license, may be shipped or otherwise delivered from one State or possession into another State or possession, for purposes of controlled investigation, only in accordance with regulations under section 505 (i) of the Federal Food, Drug, and Cosmetic Act, as amended.

§ 22.8 *Issuance, revocation or suspension.* A license shall be issued by the Administrator upon the recommendation of the Surgeon General and upon the finding by the Surgeon General that the establishment or the product, as the case may be, meets the standards established by the regulations in this part as herein prescribed or hereafter amended. Licenses shall be valid until suspended or revoked. An establishment or product license shall be revoked upon application of the manufacturer giving notice of intention to discontinue the manufacture of all products or of intention to discontinue the manufacture of a particular product for which a license is held. The Surgeon General shall recommend to the Administrator that a license be suspended or revoked whenever he finds, after notice and opportunity for hearing, that the establishment or the product for which the license has been issued fails to conform to the standards in the regulations in this part as herein prescribed or hereafter amended to insure the continued safety, purity and potency of the manufactured product. In case of suspension, if the faulty condition is not corrected within 60 days or within such other period as may be specified in the notice of suspension, he shall recommend that the license be revoked. Except as provided in § 22.10, prior to the institution of proceedings looking to the suspension or revocation of a license the licensee shall be advised in writing of the facts or conduct which may warrant such action and shall be accorded opportunity within a reasonable period prescribed by the Surgeon General to demonstrate or achieve compliance with the regulations in this part.

§ 22.9 *Licenses heretofore issued.* Any license heretofore issued and in effect upon the effective date of the regulations in this part shall remain in effect unless and until superseded by a new license, or suspended or revoked, pursuant to the regulations in this part.

§ 22.10 *Summary suspension.* Whenever the Surgeon General has reasonable ground to believe that an establishment or product for which a license has been issued fails to conform to the standards prescribed in the regulations in this part, and that by reason of such failure and of failure of the manufacturer to take prompt corrective measures on notice thereof, the distribution or sale of a licensed product would constitute a danger to health, or that the establishment and production methods have been so changed as to require in order to protect the public health a new showing that the establishment or product meets the standards prescribed in the regulations in this part, he may recommend to the Administrator that the license for the establishment or the product be summarily suspended and the manufacturer be required (a) to notify the selling agents and distributors to whom such product or products have been delivered of such suspension, (b) to furnish complete records of such deliveries and notice of suspension, and (c) to show cause within 60 days or such other period as may be specified in the order why the license should not be revoked.

§ 22.11 *Review Board.* When deemed advisable by the Surgeon General, in matters involving the safety, purity and potency of licensed products or products for which an application for license is pending, the reports of inspection and laboratory examinations, together with any pertinent data the establishment may submit, shall be passed upon by a special board of three officers appointed by the Surgeon General for that purpose. The board shall report its findings to the Surgeon General who will forward its report, together with his findings and recommendations, to the Administrator.

§ 22.12 *Opportunity for hearing.* Any manufacturer whose application for a license has been denied, or whose establishment or product license has been summarily suspended, without prior opportunity for hearing, may appeal from such denial or suspension and shall be entitled to a hearing thereon before a review body constituted as provided in § 22.11. The Surgeon General, upon review of the record, may affirm, reverse, or modify the findings of the review board, or may direct the taking of further testimony, and shall forward his determinations and recommendations to the Administrator.

§ 22.13 *Suspension and revocation: publication.* Notice of suspension or revocation of license, with statement of cause therefor, may be published by the Administrator.

§ 22.14 *Reissuance.* An establishment license, previously revoked or suspended may be reissued or reinstated upon inspection of the establishment, or upon examination of the product showing that the reasons for revocation or suspension have been corrected, except that in case of a product license revoked upon application or because of failure to meet changes in standards prescribed by amendment to the regulations in this part after the issuance of such license, only such inspection and examination as may be considered advisable by the Institute shall be required.

FOREIGN ESTABLISHMENTS AND PRODUCTS

§ 22.20 *Licenses required; products for controlled investigation only.* Any biologic or trivalent organic arsenical propagated or manufactured and prepared in any foreign country and intended for sale, barter or exchange shall be refused entry by collectors of customs unless produced in an establishment holding an unsuspended and unrevoked establishment license and license for the product. Unlicensed products intended solely for purposes of controlled investigation are admissible only if in accord with applicable regulations under section 505 (i) of the Federal Food, Drug, and Cosmetic Act, as amended.

§ 22.21 *Procedure.* Except as otherwise provided in this part, licenses for foreign establishments and products shall be issued, suspended or revoked in the same manner as licenses for domestic establishments and products. Each foreign establishment holding a license and consigning any licensed biologic product or trivalent organic arsenical into any State or possession shall be required to file with the Surgeon General the name and address of any representative or representatives authorized by the establishment to distribute the product, and such representative or representatives shall keep such records of such distribution as are required of domestic licensed establishments, and failure to maintain such records shall constitute ground for revocation of license.

§ 22.22 *Form of license.* Licenses for establishments located in foreign countries shall be in form similar to that for domestic establishments except that they shall authorize preparation for sending, carrying, or bringing for sale, barter or exchange from the foreign country designated in the license into any State or possession of the United States and shall specify that it is issued upon the condition that the licensee will permit the inspection during all reasonable hours of the establishment by any officer, agent, or employee of the Federal Security Agency authorized by the Federal Security Administrator for such purpose.

§ 22.23 *Smallpox vaccine; importation prohibited.* The importation of smallpox vaccine into any State or possession from any foreign country is prohibited except that smallpox vaccine may be sent from any foreign country, in containers indicating plainly the limited purpose intended, to the Institute for test or research purposes or for vaccine production. (Sec. 361, 58 Stat. 702; 42 U. S. C., Sup. 262)

§ 22.24 *Samples to accompany each importation.* Each foreign importation of a biologic product or trivalent organic arsenical from a licensed establishment, whether or not intended for investigational use only, shall be accompanied by at least two final containers of each lot of any biologic product and by at least 15 final containers of each lot of any trivalent organic arsenical contained in the shipment. Such samples shall be forwarded by the collector of customs at the port of entry to the Institute for examination. If separate samples are not found accompanying the shipment, samples shall be obtained from the shipment by the collector of customs and forwarded to the Institute. (Sec. 801, 52 Stat. 1058; 21 U. S. C. 381)

ESTABLISHMENT INSPECTION

§ 22.30 *Inspectors.* Inspections shall be made by an officer of the Public Health Service having special knowledge of the methods used in the production and control of biologic products and designated for such purpose by the Surgeon General or by any officer, agent, or employee of the Federal Security Agency specifically designated for such purpose by the Administrator.

§ 22.31 *Time of inspection.* The inspection of an establishment for which a license is pending need not be made until the establishment is in operation and is manufacturing the complete product for which a product license is desired. In case the license is denied following inspection for the original license, no reinspection need be made until assurance has been received that the faulty conditions which were the basis of the denial have been corrected. An inspection of each licensed establishment shall be made at least once each year. Inspections may be made with or without notice, and shall be made during regular business hours unless otherwise directed.

22.32 *Duties of inspector.* The inspector shall:

(a) Call upon the active head of the establishment, stating the object of his visit,

(b) Interrogate the proprietor or other personnel of the establishment as he may deem necessary,

(c) Examine the details of location, construction, equipment and maintenance, including stables, barns, warehouses, production laboratories, bleeding clinics maintained for the collection of human blood, shipping rooms, record rooms, and any other structure or appliance used in any part of the propagation, manufacture, and preparation of a product,

(d) Investigate as fully as he deems necessary the methods of propagation, processing, testing, storing, dispensing, recording, or other details of manufacture and distribution of each licensed product, or product for which a license has been requested, including observation of these processes in actual operation,

(e) Obtain and cause to be sent to the Institute adequate samples for the examination of any product or ingredient used in its preparation,

(f) Bring to the attention of the manufacturer any fault observed in the course of inspection in location, construction, production methods, or administration of a licensed establishment which might lead to impairment of a product,

(g) Inspect and copy, as circumstances may require, any records required to be kept pursuant to § 23.36.

(h) Certify as to the condition of the establishment and of the production methods followed and make recommendations as to action deemed appropriate with respect to any application for license or any license previously issued.

ESTABLISHMENT STANDARDS

§ 22.35 *Responsible head.* A responsible person shall be in permanent and full control of the establishment in all matters relating to the manufacture of products. A responsible person is one who has been trained in the manufacturing techniques employed and the fundamental scientific facts upon which the manufacture of products rests, who is capable of enforcing discipline among

the employees under his supervision, and to whom sufficient authority has been delegated for such purpose.

§ 22.36 *Records, samples, cultures*—(a) *Production and distribution records.* Records shall be kept, with dates, of the various steps in the manufacture, testing, disposition, and distribution of each lot, so that at any time these steps as regards any lot number may be traced by an inspector. The records shall be retained, for such interval beyond the expiration date as is considered necessary for the individual product to permit the return of any clinical report of unfavorable reactions. This interval will vary with the type of product and its geographic distribution. A minimum of 6 months after the expiration date with 5 years as the extreme interval under all circumstances is considered adequate. Records of distribution of each lot shall in any event be kept as long as the lot remains the property of the licensed manufacturer.

(b) *Records of recall.* Complete records shall be maintained pertaining to the recall from distribution of any product upon notification from the Institute of failure to conform with the standards prescribed in the regulations in this part, deterioration of the product or any other factor by reason of which the distribution of the product would constitute a danger to health.

(c) *Sterilization records.* Records including the date, duration, and temperature of each sterilization shall be made by means of automatic registering devices or under a system of recording which gives reasonable assurance of the accuracy and reliability of the record.

(d) *Animal necropsy records.* A necropsy record shall be kept on each animal from which a biologic product has been obtained and which dies or is killed because of disease while employed in production of a product.

(e) *Retention of reference samples.* Reference samples from each lot shall be retained by the manufacturer until the entire lot has become outdated and for 6 months thereafter. Exceptions may be authorized by the Institute when the lot yields relatively few final containers and when such lots are prepared by the same method in large numbers and in close succession.

(f) *Cultures.* Cultures and other materials while used in the production of licensed products shall be labeled and preserved in a safe and orderly manner.

(g) *Records in case of divided manufacturing responsibility.* If two or more establishments participate in the manufacture of a product, the records of both establishments must show plainly the degree of responsibility of each in the manufacturing process.

§ 22.37 *Physical establishment; construction, equipment and care*—(a) *Work with spore-bearing organisms.* All work with spore-bearing micro-organisms shall be carried out in (1) an entirely separate building with its own entrance, or (2) a portion of a building used for the manufacture of other products constructed in such a manner as to be completely walled-off so that admission to the special unit may be gained only through an entrance independent of the remainder of the building. All containers used shall be permanently marked so as to avoid the possibility of contamination of products.

(b) *Work of a diagnostic nature.* Laboratory procedures of a clinical diagnostic nature involving possibly contaminated materials shall be in space set apart from that used for the production of licensed products, except that production space which is used only occasionally may be used for diagnostic work provided spore-bearing pathogenic micro-organisms are not involved and provided the space is thoroughly cleaned before production is resumed.

(c) *Laboratory and bleeding rooms.* Laboratory rooms for the production of licensed products, including the bleeding rooms and other places where cleanliness is essential, shall be efficiently screened and kept free of flies and other insects or vermin. Building construction shall be such as to insure freedom from dust, smoke and deleterious or obnoxious odors in the laboratory and bleeding rooms and such as to permit thorough cleaning and, when necessary, chemical disinfection of bleeding rooms and rooms for smallpox vaccine animals.

(d) *Stables.* Stables shall be well lighted and well ventilated, and the floors shall be so constructed and cared for as to insure cleanliness.

(e) *Sterilization.* Sterilization equipment and methods used shall be such as to insure the complete destruction of contaminating, living organisms, including living spores. The containers, filling apparatus, and other pieces of apparatus or materials which may come in contact with biologic products during manufacture shall be scrupulously clean. Such equipment shall be absolutely sterile unless the product is protected by subsequent sterilizing treatment.

(f) *Containers used in production.* All containers used in preparation of biologic products shall be of such construction as will readily permit inspection for cleanliness.

(g) *Hot water available.* Hot water shall be provided in bleeding rooms and stables for smallpox vaccine animals.

(h) *Disposal of manure.* No manure shall be so stored as to permit the breeding of flies on the premises nor shall the establishment be located in close proximity to off-property manure storage capable of engendering fly breeding.

(i) *Isolation of hog cholera production.* All personnel, animals and equipment used in the production of hog cholera serum shall be kept entirely separate from personnel, animals, and materials used in the production of biologic products for human use.

§ 22.38 *Animals used in production*—(a) *Quarantine and care.* Animals used in production of biologic products shall be kept under competent daily inspection and preliminary quarantine for a period of at least 7 days before use. Only healthy animals free from communicable disease shall be used for production purposes and at all times shall be adequately housed, fed, and humanely treated. Particular care shall be taken during the quarantine period to eliminate those animals of the equine genus which may be infected with glanders, and those of the bovine genus which may be infected with tuberculosis.

(b) *Immunization against tetanus.* All horses used in the production of biologic products, except those which are under active immunization for the production of tetanus antitoxin, shall receive injections of tetanus toxoid in such amounts and at such intervals as experience has shown adequate to insure immunity to tetanus.

(c) *Disposal of used animals.* No animal used for production or testing of products shall be removed from the premises while it is capable of transmitting disease. An animal which is unsuitable because of its physical condition for the production or testing of a product shall not be removed from the premises alive except for the purpose of being utilized for animal by-products. No animal shall be allowed to continue to live unnecessarily when to do so would be an inhumane act.

(d) *Reporting of certain diseases required.* In case of actual or suspected infection with foot and mouth disease, glanders, tetanus, anthrax, gas gangrene, equine infectious anemia, or equine encephalomyelitis among animals intended for use or used for the production of biologic products, the manufacturer shall immediately notify the Institute.

(e) *Smallpox vaccine production animals.* Animals used for propagation of smallpox vaccine shall be thoroughly cleaned with soap and water at the beginning of the quarantine and at its conclusion. No area of the animal shall be vaccinated which is liable to be contaminated by feces.

(f) *Treatment of vaccinated animals.* Preliminary to taking smallpox vaccine material from vaccinated animals, such animals shall be killed or rendered insensible to pain.

(g) *Restriction on attendants.* Personnel while caring for smallpox vaccine animals shall be excluded from horse stables and paddocks and from contact with horses.

§ 22.39 *Human blood donors.* Only those persons may serve as a source of the whole blood for use in preparing a licensed product whose physical condition is such that the withdrawal of the desired amount of blood will not endanger their health and who are certified by a qualified doctor of medicine as being free of disease transmissible by blood transfusion as far as can be determined from the donor's personal history, from physical examination and such clinical tests as appear necessary for each donor on the day upon which the blood is withdrawn from the donor, except that this requirement may be modified by the Institute if the licensed product is processed by a method which insures the destruction or complete removal of the causative agent of such disease.

STANDARDS FOR PRODUCTS: LABELS

§ 22.50 *Container labels.* The following items shall appear on the label affixed to each container of a product capable of bearing a full label:

(a) The proper name of the product;

(b) Name, address, and license number of manufacturer;

(c) Lot number;

(d) The expiration date.

If the final container is capable of bearing only a partial label, the final container shall show as a minimum the name (expressed either as the proper or common name), the lot number, and the name of the manufacturer and, if the final container is incapable of bearing any label, the items shall appear only on the outside label.

If the final container is a multiple dose container, the container label must indicate the recommended dose. When the label has been affixed to the container a sufficient area of the container must remain uncovered for its full length or circumference to permit inspection of the contents.

§ 22.51 *Proper name on outside label.* The proper name in the form designated in the product license for such purpose must appear upon the outside label in legible type and shall be given precedence in position and prominence over any trade-mark or trade name used:

(a) The "outside label" is the label of the carton enclosing one or more final containers, except that if no such carton is used the label of the individual final container is regarded as the outside label.

(b) "Legible type" includes only type of a size and character which can be read with ease when held in a good light and with normal vision.

(c) "Precedence in position" of the proper name will have been observed if it is placed above any trade-mark or trade name and provided it is symmetrically arranged with respect to other printing on the label.

(d) "Precedence in prominence" of the proper name will have been observed if the style of type is of the same or greater point size and of equal face, or heavier, than that used in printing the trade-mark or trade name, and if the contrast in color value between the proper name and the background is not less than that between the trade-mark or trade name and the background.

§ 22.52 *Outside label; additional items.* The label affixed to the outside carton shall include, in addition to the proper name and the items required on the label of the final container, the following:

(a) The preservative used and its concentration,

(b) The volume of the contents, if a liquid, or the weight, if a solid, and the potency or dosage if more than one strength is dispensed,

(c) The recommended storage temperature,

(d) The words "Shake Well," or equivalent, when indicated by the character of the product,

(e) The dose and route of administration recommended or reference to such directions in an enclosed circular,

(f) The source of the product when a factor in safe administration,

(g) Minimum potency of product expressed in terms of official standard of potency or, if potency is a factor and no standard of potency has been prescribed, the words "No U. S. standard of potency."

§ 22.53 *Divided manufacturing responsibility to be shown.* If two or more establishments participate in the manufacturing process, the name, address, and license number of each must appear on the label of the final container, if capable of bearing a full label, and on the outside label.

§ 22.54 *Name of selling agent or distributor.* The name and address of the selling agent or distributor of a product may appear on the label under the designation of "selling agent" or "distributor" provided that the name and address of the manufacturer is given precedence in prominence.

§ 22.55 *Products for export.* Labels on packages or containers of products for export may be adapted to meet specific requirements of the regulations of the country to which the product is to be exported provided that in all such cases the minimum label requirements prescribed in § 22.50 are observed.

STANDARDS FOR PRODUCTS: GENERAL

§ 22.70 *Tests prior to release.*—(a) *Required for each lot.* No lot of any licensed product shall be released by the manufacturer prior to the completion of tests for conformity with the standards applicable to such product.

(b) *Potency.* Tests for potency shall be made on each lot only after completion of those processes of manufacture which may affect the potency of the final product.

(c) *Identity and safety.* The contents of a final container of each filling of each lot shall be tested for identity, if such a test is available, and for safety either after the labels have been affixed to the final container or affixed, both outside and inside, to the multiple container storage receptacle just prior to its sealing for storage purposes, except that exceptions to this procedure may be authorized by the Institute to apply when the volume of the final container is very large and when more than one lot is processed each day.

(d) *Sterility.* Samples from final containers selected at random after each filling from each lot of products shall be tested for sterility.

§ 22.71 *Tests: by whom made.* Tests for safety, purity and potency applicable to the product shall be completed for each lot of any licensed product prior to its release by the manufacturer, and samples of any lot of any licensed product may at any time be required to be sent to the Institute for examination.

§ 22.72 *Ingredients, preservatives, diluents.* All ingredients used in a licensed product, and any diluent provided as an aid in the administration of the product shall meet generally accepted standards of purity and quality. Any preservative used shall be sufficiently non-toxic so that the amount present in the recommended dose of the product will not be toxic to the recipient, and in the combination used shall not denature the specific substances in the product below the minimum acceptable potency within the dating period when stored at the recommended temperature.

§ 22.73 *Total solids in serums.* Except as otherwise provided by regulation, no liquid serum or antitoxin shall contain more than 20 percent total solids.

§ 22.74 *Permissible combinations.* Licensed products may not be combined with other licensed products, either therapeutic, prophylactic or diagnostic, except as a license is obtained for the combined product. Licensed products may not be combined with nonlicensable therapeutic, prophylactic, or diagnostic substances except as a license is obtained for such combination.

§ 22.75 *Container and closure.* Glass used in the container of a licensed product intended for administration by injection shall be colorless and fully transparent. The quality of the glass and of the closure used shall be such as will not hasten the deterioration of the licensed product or render it less suitable for the use intended within the dating period.

§ 22.76 *Standard units or samples.* Standard units or samples for comparison made available by the Institute shall be applied in testing for potency all forms of diphtheria antitoxin, tetanus antitoxin, botulism antitoxin Type A, botulism antitoxin Type B, perfringens antitoxin, scarlet fever streptococcus antitoxin, vibrion septique antitoxin, antipneumococcic serum (Types I, II, V, VII, and VIII), dysentery antitoxin (Shiga), staphylococcus antitoxin, histolyticus antitoxin, oedematiens antitoxin, and sordelli antitoxin and other products for which such units are available.

§ 22.77 *Standards of potency; particular products.* Diphtheria antitoxin shall have a potency of not less than 500 units per milliliter. Tetanus antitoxin shall have a potency of not less than 400 units per milliliter. Scarlet fever streptococcus antitoxin shall have a potency of not less than 400 units per milliliter. Antitoxins dispensed in the dried state shall represent liquid antitoxins of not less than these potencies.

§ 22.78 *Dating period; date of manufacture.* The dating period shall be determined with reference to the date of manufacture which shall be:

(a) For products for which an official standard of potency exists or which are subject to official potency tests, the last date of satisfactorily passing a potency test;

(b) For products for which no official standard of potency exists or which are not subject to official potency tests,

(1) The date of removal from the animal in case of animal products;

(2) The date of extraction in the case of products used for specific desensitization;

(3) The date of solution in case of venoms, and

(4) The date of cessation of growth in case of other products;

(c) For products which are submitted to the Institute for approval prior to release, the date of official release notice.

§ 22.79 *Dating period; products in cold storage.* The dating period may be determined with reference to the period of issue from cold storage, *Provided*, That, except as may be otherwise pre-

scribed for individual products, the date of such issue is not more than six months after the date of manufacture and the product is kept constantly at a temperature not exceeding 10° C., or not more than 1 year after the date of manufacture if the product is kept constantly at a temperature not exceeding 5° C., or not more than 2 years if the product is kept constantly at a temperature not exceeding 0° C.

ADDITIONAL STANDARDS: TRIVALENT ORGANIC ARSENICALS

§ 22.90 *Tests prior to release.* Tests required to be made, prior to the release of each lot of a licensed product, shall be supplemented in the case of the trivalent organic arsenicals by tests for:

(a) Stability,
(b) Solubility,
(c) Arsenic content,
(d) Moisture,
(e) Relative non-toxicity.

§ 22.91 *Pre-testing by Institute; samples of each lot.* Prior to the release of any lot of the product, the manufacturer shall forward to the Institute no less than 15 ampoules of the largest single-dose size in such lot, together with protocols showing the results of each test required prior to release.

§ 22.92 *Expiration date.* Notification from the Institute that lot samples forwarded in accordance with § 22.91 have satisfactorily passed prescribed tests shall indicate a date which may be taken as the date of manufacture for the purpose of fixing the expiration date. The date of issue shall be the same as the date of manufacture.

§ 22.93 *Composition of product.* Solutions or solutions of mixtures in the concentrations recommended for clinical administration shall be of such hydrogen ion value and tonicity as to be physiologically compatible with human blood.

§ 22.94 *Container.* The product shall be hermetically sealed under vacuum or under a dry non-oxidizing gas in ampoules prepared from glass of the quality prescribed in § 22.75.

§ 22.95 *Final container label.* In addition to the labeling requirements stated in § 22.50 the final container label of the trivalent organic arsenicals shall bear the statements required in § 22.96 (b) and (c) and an additional statement giving the amount of the drug contained in the ampoule.

§ 22.96 *Outside label.* The outside label, in addition to the complete proper name and all other items required for products generally shall show conspicuously: (a) If the product is dispensed as a mixture or solution, the name of all admixed substances,

(b) If the ampoule is a multiple dose container, the fact that it is a multiple dose container,

(c) Specific method of preparation, if any, required prior to administration, as, for example, alkalinization.

Effective date; prior regulations superseded. The regulations in this part shall be effective with respect to all products, as herein defined, thirty days after their publication in the FEDERAL REGISTER, and as of such date shall supersede all regulations, not heretofore revoked, issued under the authority of the act of July 1, 1902 (32 Stat. 728); the regulations contained in §§ 21.1 to 21.9, inclusive, and §§ 22.1 to 22.114, inclusive, Title 42, Code of Federal Regulations, Cum. Supp., are hereby repealed as of such date.

Issuing authority. Regulations contained in §§ 22.35–22.39, 22.50–22.55, 22.70–22.79, and 22.90–22.96, prescribing standards designed to insure the continued safety, purity, and potency of products, issued jointly by the Surgeon General of the Public Health Service, the Surgeon General of the Army, and the Surgeon General of the Navy, with the approval of the Federal Security Administrator; regulations contained in §§ 22.1–22.14, 22.20–22.24, 22.30–22.32, issued by the Surgeon General of the Public Health Service, with the approval of the Federal Security Administrator.

§ 193.22 *Form of permit.* Coal permits will be issued on form 4–694.

Form 4–694

UNITED STATES DEPARTMENT OF THE INTERIOR
BUREAU OF LAND MANAGEMENT

District Land Office_____
Serial No._____

COAL PROSPECTING PERMIT

Know all men by these presents, That the Director, Bureau of Land Management, under and by virtue of the act of Congress entitled, "An act to promote the mining of coal, phosphate, oil, oil shale, gas, and sodium on the public domain," approved February 25, 1920 (41 Stat. 437, 30 U. S. C. sec. 181), has granted and does hereby grant a permit to_____
_____
of the exclusive right for a period of two years from the date hereof to prospect for coal on the following described lands_____
_____
_____
_____
but for no other purpose, under the provisions of said act and upon the following express conditions, to-wit _____
_____

1. To begin prospecting work within 90 days from date hereof and to diligently prosecute the same during the period of such permit in accordance with the following plan:

2. To remove from said premises only such coal or other material as may be necessary to prospecting work, and to keep a record of all coal mined and disposed of, payment of royalty thereon of 25 cents per ton of 2,000 pounds to be made to the Manager of the district land office not later than during the calendar month succeeding that during which such coal was disposed of.

3. To afford all facilities for inspection of the prospecting work on behalf of the Secretary of the Interior, and to make a report on demand of all matters pertaining to the character, progress, and results of such work.

4. To observe such conditions as to the use and occupancy of the surface of the lands as provided by law, in case any of said lands shall have been or may be entered or patented with a reservation of the coal deposits to the United States.

5. To abide by and conform to any and all reasonable regulations of the Secretary of the Interior now or hereafter in force, all of which regulations are made a part and condition of this permit: *Provided,* That such regulations are not inconsistent with any express and specific provisions hereof.

6. That the permittee shall not assign this permit or any interest therein, whether by direct assignment, operating agreement, working or royalty interest, or otherwise, except with the consent in writing of the Director, Bureau of Land Management. All such assignments must be submitted, in triplicate, within 90 days from date of execution and must contain all of the terms and conditions agreed upon by the parties thereto. If the true consideration is not stated in the instrument, an accompanying affidavit must be submitted stating the consideration in full.

7. To conduct operations under this permit in such a way as not to interfere with the administration and use of the lands to a greater extent than may be determined by the Secretary of the Interior to be necessary for the most beneficial use of the lands in case any of the lands described herein are embraced in a forest, reclamation, power, or other withdrawal or is segregated for any particular purpose.

8. That the permittee shall not discriminate against any employee or applicant for employment because of race, creed, color, or national origin, and shall require an identical provision to be included in all subcontracts.

9. That there is reserved to the United States (1) pursuant to the provisions of the Act of August 1, 1946 (60 Stat. 755), all uranium, thorium, or any other materials which are or may be determined to be peculiarly essential to the production of fissionable materials, whether or not of commercial value, together with the right of the United States through its authorized agents or representatives at any time to enter upon the lands and prospect for, mine, and remove the same; (2) the right to permit for joint or several use such easements or rights of way upon, through, or in the lands embraced herein as may be necessary or appropriate to the working of the same, or of other lands containing the deposits described in the act of February 25, 1920, *supra,* and the treatment and shipment of the products thereof by or under authority of the Government, its lessees, or permittees, and for other public purposes; (3) the right to lease, sell, or otherwise dispose of the surface of said lands under existing law or laws hereafter enacted in so far as said surface is not necessary for the use of the permittee in prospecting hereunder, and (4) the right and authority to cancel this instrument for failure of the permittee to comply with any of the conditions hereof, after 30 days' notice of the reasons for such cancellation.

The granting of this permit will not preclude the issuance of other permits or leases of the same lands for the mining of other minerals with suitable stipulations as to joint operation, in order that the full development of the mineral resources may be obtained.

Valid existing rights acquired prior hereto on the lands described herein will not be adversely affected hereby.

An application for extension of this permit should be filed only within the period beginning 90 days prior to the date to which the permit is limited and ending 30 days after that date. An application for a preference right lease should be filed promptly after discovery of coal within the permit area in commercial quantities, but in no event later than 30 days after the period for which the permit is limited; a showing as to such discovery, however, must be made prior to the expiration of the period to which the permit is limited.

Dated:_____

_____
Director, Bureau of Land Management.

§ 193.23 *Reward for discovery.* A permittee who shows that the land included in his permit contains coal in commercial quantities, is entitled to a lease for all or part of the permit lands, the area to be taken in compact form, upon due application and publication of notice thereof. Such showing shall be made within the period of his permit; and the application for lease should be filed in the district land office having jurisdiction over the lands involved promptly after discovery, but in no event later than 30 days after the period for which the permit is limited. If the lands are in a State in which there is no district land office, the application should be filed in the Bureau of Land Management. It should describe the lands desired and set forth fully and in detail the extent and mode of occurrence of the coal deposits as disclosed by the prospecting work performed under the permit. Such leases will be granted without competitive bidding, at such rental and royalty rates as may be fixed by the Secretary of the Interior.

§ 193.25 *Extension of permits.* By the act approved March 9, 1925 (45 Stat. 251, 30 U. S. C. 201a, 201b), the Secretary of the Interior may extend any coal prospecting permit issued under section 2 of the act of February 25, 1920 (41 Stat. 438, 30 U. S. C. 201) for a period of 2 years.

A permit may be extended if the permittee has been unable with the exercise of reasonable diligence to determine the existence or workability of the coal deposits, or for other reasons which may warrant an extension. An application for extension may be filed only within the period beginning 90 days prior to the date to which the permit is limited and ending 30 days after that date. The application should be filed in the district land office having jurisdiction over the lands involved. If the lands are in a State in which there is no district land office, the application should be filed in the Bureau of Land Management. It should show what efforts, if any, the permittee has made to comply with the terms of his permit and the reasons for failure fully to comply therewith, such showing to be corroborated, if possible, by an affidavit of at least one disinterested person having actual knowledge of the facts. The application should also show how much additional time is considered necessary to complete prospecting work. Extension will be limited to such period, not exceeding the 2 years authorized, as may be determined to be allowable under the circumstances in each particular case. Upon failure to file application within the specified period, the permit will be canceled.

As the permit bond is limited to the period for which the permit was granted, the permittee must file with an application for extension a properly executed assent by the surety or sureties on the bond to the extension of the bond to cover the life of the permit, if extended, or file a new bond.

Until the cancellation or termination of a coal permit is noted on the records of the district land office or on the records of the Bureau of Land Management if the lands involved are in a State in which there is no district land office, no other person will be permitted to gain any right to the same class of deposits by the filing of an application therefor.

2. Section 193.26 *Expiration of coal prospecting permits* is revoked.

(Sec. 32, 41 Stat. 450; 30 U. S. C. 189)

FRED W. JOHNSON,
Acting Director.

APPROVED: JANUARY 14, 1947.

[Public Land Order 340]

NEW MEXICO

REVOKING IN PART PUBLIC LAND ORDER 186 OF OCTOBER 11, 1943, WITHDRAWING PUBLIC LANDS FOR USE OF WAR DEPARTMENT AS AN AUXILIARY LANDING FIELD AND AS PRACTICE BOMBING RANGES

By virtue of the authority vested in the President and pursuant to Executive Order No. 9337 of April 24, 1943, it is ordered as follows:

Public Land Order No. 186 of October 11, 1943, withdrawing public lands for the use of the War Department as an auxiliary landing field and as practice bombing ranges, is hereby revoked so far as it affects the hereinafter-described public lands.

The jurisdiction over and use of such lands granted to the War Department by Public Land Order No. 186 shall cease upon the signing of this order. Thereupon, the jurisdiction over and administration of such lands shall be vested in the Department of the Interior and any other Department or agency of the Federal Government according to their respective interests then of record.

This order shall not otherwise become effective to change the status of such lands until 10:00 a. m. on March 17, 1947.

At that time the lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, or selection as follows:

(a) *Ninety-day period for preference-right filings.* For a period of 90 days from March 17, 1947 to June 16, 1947, inclusive, the public lands affected by this order shall be subject to (1) application under the homestead or the desert land laws, or the small tract act of June 1, 1938 (52 Stat. 609, 43 U. S. C. sec. 682a), as amended, by qualified veterans of World War II, for whose service recognition is granted by the act of September 27, 1944 (58 Stat. 747, 43 U. S. C. secs. 279–283), subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications by such veterans shall be subject to claims of the classes described in subdivision (2).

(b) *Twenty-day advance period for simultaneous preference-right filings.* For a period of 20 days from February 25, 1947 to March 17, 1947, inclusive, such veterans and persons claiming preference rights superior to those of such veterans, may present their applications, and all such applications, together with those presented at 10:00 a. m. on March 17, 1947 shall be treated as simultaneously filed.

(c) *Date for non-preference right filings authorized by the public-land laws.* Commencing at 10:00 a. m. on June 17, 1947 any of the lands remaining unappropriated shall become subject to such application, petition, location, or selection by the public generally as may be authorized by the public-land laws.

(d) *Twenty-day advance period for simultaneous non-preference right filings.* Applications by the general public may be presented during the 20-day period from May 28, 1947 to June 17, 1947, inclusive, and all such applications, together with those presented at 10:00 a. m. on June 17, 1947 shall be treated as simultaneously filed.

Veterans shall accompany their applications with certified copies of their certificates of discharge, or other satisfactory evidence of their military or naval

their publication in the FEDERAL REGISTER, as herein defined, to the extent that they are applicable.

permits will be issued on form 4-694.

States (1) pursuant to the provisions of the

service. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated affidavits in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the District Land Office, Las Cruces, New Mexico, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations (Circular No. 324, May 22, 1914, 43 L. D. 254), and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations and applications under the desert land laws and the small tract act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

Inquiries concerning these lands shall be addressed to the District Land Office, Las Cruces, New Mexico.

The lands affected by this order are described as follows:

Sec. 31;
Sec. 32, S½.

The areas described, including both public and non-public lands, aggregate 105,901.27 acres.

Available information indicates that the lands are desert in character, generally rolling to mountainous, and embrace some fairly level areas such as the dry bed of Danby Lake in T. 1 N., R. 18 E. The lands are located in Riverside and San Bernardino Counties, and are accessible to U. S. Highway No. 60 and to several county roads.

ARIZONA

ORDER PROVIDING FOR OPENING OF PUBLIC LANDS

JANUARY 9, 1947.

In an exchange of lands made under the provisions of section 8 of the act of June 28, 1934 (48 Stat. 1269), as amended June 26, 1936 (49 Stat. 1976; 43 U. S. C. 315g), the lands hereinafter described have been reconveyed to the United States.

At 10:00 a. m. on March 13, 1947 the lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, or selection as follows:

(a) *Ninety-day period for preference-right filings.* For a period of 90 days from March 14, 1947 to June 11, 1947, inclusive, the public lands affected by this order shall be subject to (1) application under the homestead or the desert land laws, or the small tract act of June 1, 1938 (52 Stat. 609, 43 U. S. C. sec. 628a), as amended, by qualified veterans of World War II, for whose service recognition is granted by the act of September 27, 1944 (58 Stat. 747, 43 U. S. C. secs. 279–283), subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications by such veterans shall be subject to claims of the classes described in subdivision (2).

(b) *Twenty-day advance period for simultaneous preference-right filings.* For a period of 20 days from February 21, 1947 to March 14, 1947, inclusive, such veterans and persons claiming preference rights superior to those of such veterans, may present their applications, and all such applications, together with those presented at 10:00 a. m. on March 14, 1947 shall be treated as simultaneously filed.

(c) *Date for non-preference right filings authorized by the public-land laws.* Commencing at 10:00 a. m. on June 12, 1947 any of the lands remaining unappropriated shall become subject to such application, petition, location, or selection by the public generally as may be authorized by the public-land laws.

(d) *Twenty-day advance period for simultaneous non-preference right filings.* Applications by the general public may be presented during the 20-day period from May 23, 1947 to June 12, 1947, inclusive, and all such applications, together with those presented at 10:00 a. m. on June 12, 1947 shall be treated as simultaneously filed.

Veterans shall accompany their applications with certified copies of their certificates of discharge, or other satisfactory evidence of their military or naval service. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated affidavits in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the District Land Office at Phoenix, Arizona, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations (Circular No. 324, May 22, 1914, 43 L. D. 254), and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations and applications under the desert land laws and the small tract act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

Inquiries concerning these lands shall be addressed to the District Land Office at Phoenix, Arizona.

The lands affected by this order are described as follows:

GILA AND SALT RIVER MERIDIAN

T. 6 N., R. 11 W., sec. 3, S½, S½NW¼, NE¼NW¼, and NE¼; sec. 4;
T. 6 N., R. 12 W., sec. 10, W½NE¼; sec. 23; sec. 24, N½;
T. 7 N., R. 11 W., sec. 12;
T. 6 N., R. 13 W., sec. 19; sec. 20;
T. 6 N., R. 16 W., sec. 16.

The areas described aggregate 4,842.60 acres.

These lands which are in Grazing District No. 3 are nonirrigable, have a level to gently rolling surface, and a sandy to gravelly soil. Vegetation consists primarily of southern desert shrubs, chiefly creosote bush, mesquite, cacti and palo verde. Elevations range from 800 to 1,200 feet above sea level. The arid climate precludes any production of crops in this area without the aid of irrigation.

FRED W. JOHNSON,
Acting Director.

NEVADA AND CALIFORNIA

REVOKING DEPARTMENTAL ORDER OF AUGUST 23, 1932, AS MODIFIED, WITHDRAWING PUBLIC LANDS IN AID OF LEGISLATION

The order of this Department of August 23, 1932, as modified July 19, 1934, and September 9, 1936, withdrawing the public lands in the hereinafter-described areas in aid of contemplated legislation reserving them for addition to the Fort Mohave Indian Reservation, is hereby revoked.

This order shall take effect immediately as to the administration of grazing on such lands.

This order shall not otherwise become effective to change the status of such lands until 10:00 a. m. on March 17, 1947.

At that time the lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, or selection as follows:

(a) *Ninety-day period for preference-right filings.* For a period of 90 days from March 17, 1947 to June 16, 1947, inclusive, the public lands affected by this order shall be subject to (1) application under the homestead or the desert land laws, or the small tract act of June 1, 1938 (52 Stat. 609, 43 U. S. C. sec. 682a), as amended, by qualified veterans of World War II, for whose service recognition is granted by the act of September 27, 1944 (58 Stat. 747, 43 U. S. C. secs. 279–283), subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications by such veterans shall be subject to claims of the classes described in subdivision (2).

(b) *Twenty-day advance period for simultaneous preference-right filings.* For a period of 20 days from February 25, 1947 to March 17, 1947, inclusive, such veterans and persons claiming preference rights superior to those of such veterans, may present their applications, and all such applications, together with those presented at 10:00 a. m. on March 17, 1947 shall be treated as simultaneously filed.

(d) *Date for non-preference-right filings authorized by the public-land laws.* Commencing at 10:00 a. m. on June 17, 1947 any of the lands remaining unappropriated shall become subject to such application, petition, location, or selection by the public generally as may be authorized by the public-land laws.

(d) *Twenty-day advance period for simultaneous non-preference right filings.* Applications by the general public may be presented during the 20-day period from May 28, 1947 to June 17, 1947, inclusive, and all such applications, together with those presented at 10:00 a. m. on June 17, 1947 shall be treated as simultaneously filed.

Veterans shall accompany their applications with certified copies of their certificates of discharge, or other satisfactory evidence of their military or naval service. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated affidavits in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the District Land Offices at Los Angeles or Sacramento, California, or Carson City, Nevada, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations (Circular No. 324, May 22, 1914, 43 L. D. 254), and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations and applications under the desert land laws and the small tract act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

Inquiries concerning these lands shall be addressed to the above-named district land offices.

The lands affected by this order are described as follows:

TUCUMCARI IRRIGATION PROJECT, NEW MEXICO

ANNOUNCEMENT OF ANNUAL WATER RENTAL CHARGES

DECEMBER 31, 1946.

1. I have determined that it is factually impossible, in view of the provision for construction of distribution works by the United States under the contract with the Arch Hurley Conservancy District dated December 27, 1938, to make water available for irrigation use during the season of 1947 as contemplated in article 8 of the contract.

2. *Water rental.* Pursuant to article 10 of the contract of December 27, 1938, irrigation water will be furnished, when available, upon a rental basis during the irrigation season of 1947 where the progress of construction will permit, to the irrigable lands in the Arch Hurley Conservancy District described below:

Unit No. 1. *Water to be furnished beginning about April 1, 1947.* Generally described as lying north of the Chicago, Rock Island and Pacific Railroad and west of the Southern Pacific Railroad (Dawson Branch), comprising such lands as are irrigable within the tracts of land described as follows:

3. *Charges and terms of payment.* The minimum water rental charge shall be $1.00 per irrigable acre for each irrigable acre of land for which water service is requested, payment of which will entitle the water user to one acre-foot of water per irrigable acre. Additional water, if available, will be furnished during the irrigation season at the following rates:

First additional 1½ acre feet per acre: $1.00 per acre-foot.
All additional acre feet per acre: $1.50 per acre-foot.

All charges shall be payable by the District to the United States in advance of the delivery of water.

4. Water will be delivered and measured by Government forces at the nearest available measuring device to the individual farm.

5. The District will request water delivery for, and certify to the United States as entitled to receive water, only such lands as are owned or are held under contract of purchase by persons duly qualified to receive water under the terms of the Reclamation Act of June 17, 1902 (32 Stat. 388), and acts of Congress supplementary thereto or amendatory thereof, and who have duly complied with the requirements of the contract of December 27, 1938, between the United States and the District, including:

(a) The execution and delivery of the recordable contract as provided for in article 30 (b) of said contract;

(b) The execution and delivery of the valid recordable contract, in the case of ownership of excess land, as provided for in articles 30 (a) and 32 of said contracts.

6. Individual applications for water on forms approved by the United States and the payments required by this announcement will be received at the office of the Secretary of the Arch Hurley Conservancy District, Tucumcari, New Mexico. Requests by the District for water for such lands as are entitled to receive water and payments by the District to the United States will be received at the office of the Bureau of Reclamation, Tucumcari, New Mexico.

7. This announcement shall not be construed as constituting the designation of irrigable lands provided for by article 30 of the contract of December 27, 1938, between the United States and the Arch Hurley Conservancy District.

(Act of June 17, 1902, 32 Stat. 388, as amended or supplemented.)

CRESCENT BROADCAST CORP. ET AL.

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Crescent Broadcast Corporation, Shenandoah, Pennsylvania, Docket No. 6883, File No. B2-P-4092; The Patriot Company, Harrisburg, Pennsylvania, Docket No. 6884, File No. B2-P-4091; WHP, Inc., Harrisburg, Pennsylvania, Docket No. 7115, File No. B2-P-4324; Union Broadcasting Company (WARM), Scranton, Pennsylvania, Docket No. 7851, File No. B1-P-5186; John H. Stenger, Jr. (WBAX), Wilkes-Barre, Pennsylvania, Docket No. 7852, File No. B1-P-5212; Hudson Valley Broadcasting Company, Inc., Albany New York, Docket No. 7883, File No. B1-P-5148; for construction permits.

At a session of the Federal Communications Commission held at its offices at Washington, D. C. on the 30th day of December 1946;

The Commission having under consideration the above-entitled applications of Crescent Broadcast Corporation, The Patriot Company and WHP, Inc., each requesting the use of the frequency 580 kilocycles, and the above-entitled applications of Union Broadcasting Company, John H. Stenger, Jr. and Hudson Valley Broadcasting Company, Inc., each requesting the use of the frequency 590 kilocycles; and the Commission also having under consideration petitions filed by Union Broadcasting Company and John H. Stenger, Jr. on December 4 and 9, 1946, respectively, each requesting leave to intervene in the further hearing concerning the said applications of Crescent Broadcast Corporation, The Patriot Company and WHP, Inc.; and

It appearing, that the said applications of Crescent Broadcast Corporation, The Patriot Company and WHP, Inc. were heard in a consolidated proceeding in January 1946; that the record in the said proceeding was closed on March 19, 1946; that thereafter on November 21, 1946, the Commission granted the petition of Crescent Broadcast Corporation for leave to amend its above-entitled application so as to show a new transmitter site and revised engineering information incidental thereto, reopened the record, and designated said application of Crescent Broadcast Corporation, as amended, for further hearing, and said further hearing is now scheduled for January 22, 1947, in Washington, D. C., upon the following issues:

1. Type of terrain over which measurements are to be taken in order to submit an adequate proof of performance.

2. Accessibility over the terrain over which field measurements can be taken for proof of performance.

3. The areas and populations to be served from the new site and character and type of other radio services to such areas and populations; particularly, the areas and populations which would receive their first primary service from the proposed operation.

4. Stability of proposed antenna system in operation, especially in consideration of antenna base resistance and soil conditions at the site proposed.

5. Whether and to what extent operation from the proposed site will cause interference with existing stations or pending applications, particularly with respect to Stations CKEY, Toronto, Canada, and WFIL, Philadelphia, Pennsylvania; and

It appearing further, that said amendment to the above-entitled application of Crescent Broadcast Corporation specifying a new transmitter site raises questions of interference to broadcast service of applicants whose applications were on file at the time said amendment was accepted; and

It further appearing, that the said above-entitled Crescent Broadcast Company application, as amended, may result in increased interference to and with the above-entitled pending applications of John H. Stenger, Jr. (WBAX), Wilkes-Barre, Pennsylvania (File No. B1-P-5212; Docket No. 7852) and Union Broadcasting Company (WARM), Scranton, Pennsylvania (File No. B1-P-5186; Docket No. 7851); and

It further appearing, that the said applications of the petitioners, Union Broadcasting Company and John H. Stenger, Jr., were, by separate orders of the Commission dated September 19, 1946, designated for hearing in a consolidated proceeding, and that the said application of Hudson Valley Broadcasting Company, Inc., was designated for hearing therewith by order of the Commission dated September 30, 1946;

It is ordered, That the said applications of Union Broadcasting Company (File No. B1-P-5186; Docket No. 7851), John H. Stenger, Jr. (File No. B1-P-5212; Docket No. 7852) and Hudson Valley Broadcasting Company, Inc. (File No. B1-P-5148; Docket No. 7883) be, and they are hereby, consolidated for hearing in the proceeding involving the further hearing on the said application of Crescent Broadway Company (Docket No. 6883) upon the issues heretofore defined in the orders of the Commission designating them for hearing as aforesaid.

It is further ordered, That the said order of the Commission, dated November 21, 1946, designating the said application of Crescent Broadcast Company for further hearing, as aforesaid, be, and it is hereby, amended, to include the said applications of Union Broadcasting Company, John H. Stenger, Jr. and Hudson Valley Broadcasting Company, Inc.:

It is further ordered, That the said petitions of Union Broadcasting Company and John H. Stenger, Jr., requesting leave to intervene, be, and they are hereby, dismissed.

[Docket No. 7474]

PATRICK JOSEPH STANTON

DECISION AND ORDER ON PETITION FOR RECONSIDERATION

In re application of Patrick Joseph Stanton, Philadelphia, Pennsylvania, for construction permit; Docket No. 7474, File No. B2-P-4495.

The Commission has before it a petition for reconsideration filed May 29, 1946, by L. B. Wilson, Inc., licensee of radio station WCKY, Cincinnati, Ohio, directed against the action of the Commission on May 10, 1946, granting without hearing the above-entitled application of Patrick Joseph Stanton, for a construction permit to erect a new standard broadcast station to operate on the frequency 1530 kilocycles, with 10 kilowatts power, daytime only (Class II), Station WCKY operates on the frequency 1530 kilocycles, with 50 kilowatts power, unlimited time, at Cincinnati, Ohio, and is classified as a Class I-B clear channel station.

The petitioner alleges, as the basis of its petition, that station WCKY, a Class I-B clear channel station, is entitled to protection from objectionable interference of its primary service area up to the 0.5 mv/m daytime contour; that the proposed station will emit a skywave which will interfere with station WCKY's primary service area for approximately two hours after sunrise and approximately one hour before sunset at Philadelphia; and that station WCKY will receive limitations to its service ranging from approximately 0.7 mv/m to 5 mv/m at the time of sunset in Philadelphia. An answer to the petition, filed by Stanton, maintains that the interference alleged by the petitioner is not "objectionable interference" within the meaning of the term as used in the Commission's rules and standards.

Under the Commission's rules and regulations and the Standards of Good En-

gineering Practice Concerning Standard Broadcast Stations, the primary service area of a Class I–B clear channel station daytime is entitled to protection from objectionable interference up to its 0.1 mv/m contour (See Standards, page 2). The Commission has also recognized that conditions of radio wave propagation permit operation on such clear channels by stations denominated as Class II, under conditions which do not allow objectionable interference (i. e. within the protected contours established for day and night primary service) with the so-called "dominant" clear channel station. The grant to Joseph Patrick Stanton, of which petitioner complains, is of a construction permit to operate daytime only as a Class II station. By definition under the Commission's rules (See §§ 3.6 and 3.23 (c)) the term "daytime" means that period of time between the hours of average monthly local sunrise and average monthly local sunset.

Petitioner's complaint is that the operation of the proposed Stanton station at Philadelphia will result in skywave interference[1] to Station WCKY, Cincinnati, Ohio, during a period following sunrise and preceding sunset. The Commission's rules relating to protection of daytime contours of Class I–B stations do not take cognizance of nor afford protection against skywave interference for the reason that such waves are not reflected effectively back to earth during the day. The skywave curves which are a part of the Commission's standards are based upon extensive measurements of skywave signals produced by broadcasting stations under varying conditions and at various seasons of the year. In 1935, at the time these measurements were taken and other scientific studies made, they indicated that such skywave signals as there were, were of very low order, and hence were considered of so little importance that the standards of the Commission took no cognizance of daytime skywave propagation at broadcast frequencies. The periods of diurnal change are, however, very uncertain and erratic in their effect on radio wave propagation. On some days in the periods immediately before and after sunrise and sunset, skywaves may be reflected into areas which on other days, in the same periods of time, receive no such signal. In this state of the radio art, therefore, it is virtually impossible and the Commission believes it would be unreasonable to define "daytime" operation in terms as unstable, erratic and uncertain as the conditions of radio wave propagation at sunrise and sunset.

Accordingly, the Commission is of the opinion that the grant to Patrick Joseph Stanton, Philadelphia, Pennsylvania, does not result in interference to petitioner's station WCKY, Cincinnati, Ohio, as defined by the Commission's rules and standards, and hence *It is ordered*, This 14th day of November 1946, that the said petition of L. B. Wilson, Inc. (WCKY), Cincinnati, Ohio, for reconsideration be, and it is hereby, denied.

Secretary.

[F. R. Doc. 47–564; Filed, Jan. 20, 1947; 8:50 a. m.]

[1] The distance between Cincinnati, Ohio, and Philadelphia, Pennsylvania, is about 500 miles. This distance is generally considered adequate to preclude any possibility of ground wave interference to Station WCKY from the operation of the proposed Stanton station, and petitioner does not allege ground wave interference.

DON LEE BROADCASTING SYSTEM AND KROW, INC.

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING

In re applications of Don Lee Broadcasting System, San Francisco, California, Docket No. 7680, File No. B5–PH–38; KROW, INC., Oakland California, Docket No. 7687, File No. B5–PH–990; for construction permits.

At a session of the Federal Communications Commission held at its offices in Washington, D. C. on the 2d day of January 1947;

The Commission having under consideration the above-entitled applications for construction permits for new Class B FM broadcast stations in San Francisco, and Oakland, California respectively, which have been designated for hearing in a consolidated proceeding scheduled to commence April 14, 1947; and

It appearing, that comparative consideration of the said applications is no longer necessary; and

It further appearing, that the applications of Don Lee Broadcasting System for renewal of licenses of Station KGB, San Diego (File No. B5–R–38; Docket No. 7398), KDB, Santa Barbara (File No. B5–R–48; Docket No. 7399), KFRC, San Francisco (File No. B5–R–43; Docket No. 7615) and KHJ and KHJ–FM, Los Angeles (Files No. B5–R–22, B5–RH–25; Docket No. 7616) and the application of Don Lee Broadcasting System for a construction permit to increase power of Station KGB, San Diego, from 1 kw to 5 kw on the frequency 1360 kc, install new transmitter and antenna, and change transmitter location (File No. B5–P–4330; Docket No. 7497) have been designated for hearing in a consolidated proceeding scheduled to commence January 14, 1947 at Los Angeles, California.

It is ordered, That the application of Don Lee Broadcasting System (File No. B5–PH–38; Docket No. 7680) be, and it is hereby, severed from the above-entitled proceeding; and

It is further ordered, That the said application of Don Lee Broadcasting System (File No. B5–PH–38; Docket No. 7680), heretofore designated for hearing, be, and it is hereby consolidated for hearing commencing January 14, 1947, at Los Angeles, California with the aforesaid Don Lee Broadcasting System renewal and construction permit applications (Dockets 7398, 7399, 7497, 7615, 7616) on the issues specified in the Commission's order of December 5, 1946, with respect to the said renewal and construction permit applications.

ORDER DESIGNATING APPLICATION FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of John E. Hyde, Jr., Palmer Dragsten, and Herbert H. Lee, d/b as Lee-Smith Broadcasting Co., Faribault, Minnesota, Docket No. 7875, File No. B4–P–4581; Associated Broadcasters, Inc., Wadena, Minnesota, Docket No. 8038, File No. B4–P–5351; for construction permits.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 2d day of January 1947;

The Commission having under consideration the above-entitled applications for construction permits for new standard broadcast stations to operate on the frequency 920 kc, with 1 kw power, unlimited time (using directional antennas) at Faribault and Wadena, Minnesota, respectively;

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said applications be, and they are hereby, designated for hearing in a consolidated proceeding at a time and place to be designated by subsequent order of the Commission, upon the following issues:

1. To determine the legal, technical, financial, and other qualifications of the applicant partnership and the partners and of the applicant corporation, its officers, directors and stockholders to construct and operate the proposed stations.

2. To determine the areas and populations which may be expected to gain or lose primary service from the operation of the proposed stations and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of the proposed stations, or either of them, would involve objectionable interference with any existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of the proposed stations would involve objectionable interference, each with the other, or with the services proposed in any other pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of the proposed stations would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations.

7. To determine on a comparative basis which, if either, of the applications in this consolidated proceeding should be granted.

WESTERN UNION TELEGRAPH CO.

ORDER INSTITUTING INVESTIGATION

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 30th day of December 1946;

The Commission, having under consideration a letter, dated November 18, 1946; from The Western Union Telegraph Company, advising of a change in policy with respect to making application to reduce hours of service at main and branch offices; letters from The Commercial Telegraphers' Union dated October 28, 1946, November 15, 1946, and December 19, 1946, charging that the Company's program of closing offices and reducing hours of service is detrimental to the future stability of the telegraph industry; and letters from various members of the public making complaint against specific curtailments of service;

It is ordered, That an investigation, on the Commission's own motion, be, and it is hereby, instituted into the matter of the over-all plans of The Western Union Telegraph Company with respect to the discontinuance, reduction and impairment of service, the standards to be applied in determining whether applications shall be made to the Commission for authority to close company-operated offices, to reduce hours of service at company-operated offices, or to convert from operation of offices by Western Union's own employees to agency operation of offices; the extent to which the public convenience and necessity may be impaired if such program is carried out; and the effects upon the telegraph industry which may reasonably be expected to result from such program;

It is further ordered, That a copy of this order shall be served upon The Western Union Telegraph Company and that said Company be, and it is hereby, made a party respondent herein; and that it shall appear at the offices of the Commission in Washington, D. C. at 10:00 a. m. on the 17th day of February, 1947, and give full information with respect to the matters referred to above; and

It is further ordered, That a copy of this order shall be served upon the following: the agency of each state which under the laws of such state has regulatory jurisdiction with respect to intrastate operations of The Western Union Telegraph Company; the Governors of Delaware, Iowa, and Texas; the Secretary of War, the Secretary of the Navy, the National Association of Railroad and Utilities Commissioners; the American Communications Association, The Commercial Telegraphers Union, the Telegraph Workers' Union, the Telegraph Employees' Union, the American Federation of Labor, the Congress of Industrial Organizations, and The Communications Workers' International Union; and each such person, organization or agency be, and it is hereby, given leave to intervene and participate fully in the proceedings herein.

LESTER LEE MAY ET AL.

ORDER DESIGNATING APPLICATION FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Lester Lee May, San Antonio, Texas, Docket No. 8042, File No. B3-P-5542; The Walmac Company (KMAC), San Antonio, Texas, Docket No. 7983, File No. B3-P-4360; for construction permits. The Walmac Company (KMAC), San Antonio, Texas, Docket No. 7866, File No. B3-R-411; for renewal of license.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 31st day of December 1946;

The Commission having under consideration the above-entitled application of Lester Lee May requesting a construction permit for a new standard broadcast station to operate on 630 kc. 5 kw, day and night, unlimited time, in San Antonio, Texas, together with the petition of said Lester Lee May requesting that said application be set for hearing with the application for construction permit of Howard W. Davis, tr/as The Walmac Company, hereinafter described;

It appearing, that the Commission on November 29, 1946, designated for hearing in a consolidated proceeding the applications of Howard W. Davis, trading as The Walmac Company (KMAC) (File No. B3-P-4360, Docket No. 7983) requesting a construction permit to change the frequency of Station KMAC, San Antonio, Texas, from 1240 kc to 630 kc, increase its operating power from 250 w to 5 kw and to make certain changes in equipment and Howard W. Davis, tr/as The Walmac Company (KMAC) (File No. B3-R-411, Docket No. 7866) requesting a renewal of license of Station KMAC, San Antonio, Texas;

It is ordered, That the said petition of Lester Lee May be, and it is hereby, granted; and

It is further ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said application of Lester Lee May be, and it is hereby, designated for hearing in the above consolidated proceeding at a time and place to be designated by subsequent order of the Commission, upon the following issues:

1. To determine the legal, technical, financial, and other qualifications of the applicant to construct and operate the proposed station.

2. To determine the areas and populations which may be expected to gain primary service from the operation of the proposed station and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of the proposed station would involve objectionable interference with any existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of the proposed station would involve objectionable interference with the services proposed in any other pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of the proposed station would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations.

7. To determine on a comparative basis which, if any, of the applications

in this consolidated proceeding should be granted.

It is further ordered, That the order of the Commission dated November 29, 1946, designating for hearing in a consolidated proceeding the application of Howard W. Davis, tr/as The Walmac Company (KMAC) with that of Howard W. Davis, tr/as The Walmac Company (KMAC) for renewal of license, be, and it is hereby amended to include the application of Lester Lee May.

By the Commission.

[Docket Nos. 8043, 7609]

MID-STATE BROADCASTING CO. AND RADIO PEORIA, INC.

ORDER DESIGNATING APPLICATION FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Mid-State Broadcasting Company (WMMJ), Peoria, Illinois, Docket No. 8043, File No. B4-P-5551; Radio Peoria Inc., Peoria, Illinois, Docket No. 7609, File No. B4-P-4177; for construction permits.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 31st day of December 1946;

The Commission having under consideration the above-entitled application of Mid-State Broadcasting Company, licensee of Station WMMJ, Peoria, Illinois, for a construction permit to change frequency and power from 1020 kc, 1 kw day, to 970 kc, 1 kw day and night, to change hours of operation from daytime to unlimited, to install a directional antenna for day and nighttime and to make other changes;

It appearing, that the Commission on May 24, 1946, designated for hearing the application of Radio Peoria, Inc. (File No. B4-P-4177, Docket No. 7609), requesting a construction permit for a new standard broadcast station to operate on 970 kc, 1 kw, using a directional antenna, unlimited time and on September 20, 1946, granted leave to the University of Wisconsin (WHA) to intervene in said hearing;

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said application of Mid-State Broadcasting Company be, and it is hereby, designated for hearing in a consolidated proceeding with the application of Radio Peoria, Inc. (File No. B4-P-4177, Docket No. 7609) said proceeding to commence at 10:00 o'clock a. m. Friday, January 10, 1947, at Washington, D. C., upon the following issues:

1. To determine the legal, technical, financial, and other qualifications of the applicant corporation, its officers, directors and stockholders to construct and operate station WMMJ as proposed.

2. To determine the areas and populations which may be expected to gain or lose primary service from the operation of station WMMJ as proposed and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of station WMMJ as proposed would involve objectionable interference with any existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of station WMMJ as proposed would involve objectionable interference with the services proposed in any other pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of station WMMJ as proposed would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations.

7. To determine on a comparative basis which, if either, of the applications in this consolidated proceeding should be granted.

It is further ordered, That the Commission's order of May 24, 1946, designating the application of Radio Peoria, Inc., for hearing be amended to include the application of Mid-State Broadcasting Company (WMMJ);

It is further ordered, That issue number 1 of the Commission's order of May 24, 1946, above, deleted by the Commission's order of December 19, 1946, be reinstated in said order of May 24, 1946.

By the Commission.

COSTS AND EXPENSES INCURRED IN CERTAIN ACTIONS OR PROCEEDINGS IN CERTAIN CALIFORNIA COURTS

Under the authority of the Trading with the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it having been found:

1. That each of the persons named in Column 1 of Exhibit A, attached hereto and by reference made a part hereof, was a person within the designated enemy country or the enemy-occupied territory identified in Column 2 of said Exhibit A opposite such person's name;

2. That it was in the interest of the United States to take measures in connection with representing each of said persons in the court or administrative action or proceeding identified in Column 3 of said Exhibit A opposite such person's name, and such measures having been taken;

3. That, in taking such measures in each of such actions or proceedings, costs and expenses have been incurred in the amount stated in Column 4 of said Exhibit A opposite the action or proceeding identified in Column 3 of said Exhibit A;

Now, therefore, there is hereby vested in the Attorney General of the United States, to be used or otherwise dealt with in the interest of and for the benefit of the United States, interests in the property which said persons obtain or are determined to have as a result of said actions or proceedings in amounts equal to the sums stated in Column 4 of said Exhibit A.

The term "designated enemy country" as used herein shall have the meaning prescribed in section 10 of Executive Order 9193, as amended. The term "enemy-occupied territory" as used herein shall have the meaning prescribed in rules of procedure, Office of Alien Property, § 501.6 (8 CFR, Cum. Supp., 503.6).

COSTS AND EXPENSES INCURRED IN CERTAIN ACTIONS OR PROCEEDINGS IN CERTAIN CALIFORNIA COURTS

Under the authority of the Trading with the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it having been found:

1. That each of the persons named in Column 1 of Exhibit A, attached hereto and by reference made a part hereof, was a person within the designated enemy country or the enemy-occupied territory identified in Column 2 of said Exhibit A opposite such person's name;

2. That it was in the interest of the United States to take measures in connection with representing each of said persons in the court or administrative action or proceeding identified in Column 3 of said Exhibit A opposite such person's name, and such measures having been taken;

3. That, in taking such measures in each of such actions or proceedings, costs and expenses have been incurred in the amount stated in Column 4 of said Exhibit A opposite the action or proceeding identified in Column 3 of said Exhibit A;

Now, therefore, there is hereby vested in the Attorney General of the United States, to be used or otherwise dealt with in the interest of and for the benefit of the United States, interests in the property which said persons obtain or are determined to have as a result of said actions or proceedings in amounts equal to the sums stated in Column 4 of said Exhibit A.

The term "designated enemy country" as used herein shall have the meaning prescribed in section 10 of Executive Order 9193, as amended. The term "enemy-occupied territory" as used herein shall have the meaning prescribed in rules of procedure, Office of Alien Property, § 501.6 (8 CFR, Cum. Supp., 503.6)

EMMA J. VOGEL

In re: Trust under the will of Emma J. Vogel deceased. File D-28-2407; E. T. sec. 3731.

Under the authority of the Trading with the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That John Gebhart, Adolph Gebhart, Mary Grass, Barbetta Henny, Louise Braun, Otto Vetter and Albert Vetter, whose last known address is Germany, are residents of Germany and nationals of a designated enemy country (Germany);

2. That the children, names unknown of John Gebhart, the children, names unknown of Adolph Gebhart, the children, names unknown of Mary Grass, the children, names unknown of Barbetta Henny and the children, names unknown of Louise Braun, who there is reasonable cause to believe are residents of Germany, are nationals of a designated enemy country (Germany);

3. That all right, title, interest and claim of any kind or character whatsoever of the persons identified in subparagraphs 1 and 2 hereof, and each of them, in and to the trust created under the will of Emma J. Vogel, deceased, is property payable or deliverable to, or claimed by, the aforesaid nationals of a designated enemy country (Germany);

4. That such property is in the process of administration by Guarantee Trust Company of Atlantic City, N. J., as executor and trustee, acting under the judicial supervision of the Atlantic County Orphans' Court, Mays Landing, New Jersey;

and it is hereby determined:

5. That to the extent that the above named persons and the children, names unknown of John Gebhart, the children, names unknown of Adolph Gebhart, the children, names unknown of Mary Grass, the children, names unknown of Barbetta Henny and the children, names unknown of Louise Braun, are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-1430]

EAST COAST PUBLIC SERVICE CO. AND VIRGINIA EAST COAST UTILITIES, INC.

NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 10th day of January A. D. 1947.

Notice is hereby given that a joint declaration has been filed with this Commission, pursuant to sections 7 and 12 (b) of the Public Utility Holding Company Act of 1935 and Rule U-45 promulgated thereunder, by East Coast Public Service Company, a registered holding company and its public utility subsidiary company Virginia East Coast Utilities, Incorporated.

Notice is further given that any interested person may, not later than January 22, 1947, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request and the nature of his interest, or may request that he be notified if the Commission should order a hearing thereon. At any time thereafter such declaration, as filed or as amended, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated pursuant to said act, or the Commission may exempt the transactions therein proposed as provided in Rules U-20 (a) and U-100 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania.

All interested persons are referred to said declaration, which is on file in the offices of the Commission, for a statement of the transactions therein proposed, which are summarized below:

Virginia East Coast Utilities, Incorporated, proposes to issue and sell to Baltimore National Bank of Baltimore, Maryland, its promissory note in the principal amount of $200,000, bearing interest at the rate of 2½% per annum, maturing six months after date of issue. The proceeds of such sale are to be used in part to retire its present loan of $150,000 from the Baltimore National Bank, and in part for the construction of property additions. East Coast Public Service Company proposes to guarantee to Baltimore National Bank the repayment of the loan of $200,000 with interest.

Declarants request that the Commission's order permitting the declaration to become effective be issued on or before January 23, 1947.

By the Commission.

EASTERN NEW YORK POWER CORP.

FINDINGS AND ORDER GRANTING APPLICATION

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 14th day of January A. D. 1947.

Eastern New York Power Corporation, a registered holding company and a subsidiary of International Hydro-Electric System, also a registered holding company, having filed an application pursuant to section 5 (d) of the Public Utility Holding Company Act of 1935, reciting, inter alia, that it had filed a Notification of Registration under section 5 (a) of the act proposing to become a holding company until certain transactions then pending before the Commission were completed; that these transactions were approved by the Commission by order dated December 4, 1946 (Holding Company Act Release No. 7042), and have since been consummated; and

The Commission having issued a notice of filing on December 20, 1946, with respect to said application and said notice having stated that any interested person may not later than January 3, 1947, request the Commission in writing that a hearing be held on such matter and the Commission not having received a request for hearing with respect to said application within the period prescribed in said notice, or otherwise, and not having ordered a hearing thereon; and

Eastern New York Power Corporation and others having now filed a Certificate of Notification, pursuant to Rule U-24, wherein it is stated that the transactions so authorized by the Commission on December 4, 1946 have been consummated; and

The Commission finding that Eastern New York Power Corporation does not directly or indirectly own, control or hold with power to vote, or otherwise, any of the outstanding securities of a public utility company, or of a holding company, as defined in the act, and that Eastern New York Power Corporation has ceased to be a holding company, and that its registration as a holding company should cease to be in effect and that it is not necessary to impose any terms or conditions for the protection of investors in connection with the termination of such registration:

It is ordered and declared, That Eastern New York Power Corporation has ceased to be a holding company, and that the registration of Eastern New York Power Corporation as a holding company shall from the date of the entry of this order cease to be effective.

By the Commission.

SEATTLE GAS CO.

ORDER APPROVING AMENDED PLAN

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 13th day of January A. D. 1947.

Seattle Gas Company ("Seattle"), a gas utility subsidiary of Portland Electric Power Company and Portland General Electric Company, registered holding companies, having filed on April 17, 1946 an application pursuant to the provisions of section 11 (e) and other applicable sections of the Public Utility Holding Company Act of 1935 and the rules and regulations of the Commission promulgated thereunder, for approval of an amended plan of reorganization for the purpose of complying with the provisions of section 11 (b) of the act;

The applicant having requested that the Commission enter an order finding that the proposed transactions set forth in said amended plan are necessary to effectuate the provisions of section 11 (b) of the Public Utility Holding Company Act of 1935, are fair and equitable to the persons affected thereby, and that such order contain recitals in accordance with the requirements of section 371 and subsection (f) of section 1808 of the Internal Revenue Code, as amended; and having further requested the Commission, pursuant to section 11 (e) of the act to apply to an appropriate United States District Court to enforce and carry out the terms of the amended plan;

Public hearings having been held after appropriate notice and the Commission having considered the record herein and having made and filed its findings and opinion herein; and

The Commission having found that the amended plan is necessary to effectuate the provisions of section 11 (b) and is fair and equitable to the persons affected thereby;

It is ordered, That such application be, and it hereby is, granted and that the amended plan be, and it hereby is, approved, subject, however, to the conditions specified in Rule U-24 and to the further condition that the Department of Public Utilities of the State of Washington shall have approved the issuance of the new common stock of Seattle;

It is further ordered, That jurisdiction be and hereby is reserved:

1. To approve, disapprove, modify, allocate or award by further order or orders, all fees or other compensation and all remuneration or expenses claimed or hereafter claimed by any persons in connection with the amended plan, the transactions incident thereto and the consummation thereof;

2. To take such further action as the Commission may deem necessary or appropriate to effectuate the requirements of section 11 (b) of the act; and

3. To entertain such further proceedings, to make such supplemental findings and to take such further action as the Commission may deem appropriate in connection with the amended plan, the transactions incident thereto and the consummation thereof, and, in the event such amended plan be not consummated, to enter such further orders as the Commission may deem appropriate under sections 11 (b), 11 (f) and 20 (a) of the act.

It is further ordered, That counsel for the Commission be, and they hereby are, authorized and directed to make application forthwith on behalf of the Commission to an appropriate United States District Court, pursuant to the provisions of sections 11 (e) and 18 (f) of the act, to enforce and carry out the terms and provisions of the amended plan.

It is further ordered, That this order shall not be operative to authorize the consummation of any of the transactions proposed in the amended plan until an appropriate United States District Court shall, upon application thereto, enter an order enforcing such amended plan.

It is further ordered and recited, That all steps and transactions involved in the consummation of the amended plan, including particularly the issuances, exchanges, acquisitions, transfers, distributions, deliveries of sales, hereinafter described and recited in subparagraphs numbered I through VI set forth below are necessary or appropriate to effectuate the provisions of section 11 (b) of the Public Utility Holding Company Act of 1935 and are hereby authorized, approved and directed; the stock and securities and other property which are ordered to be issued, exchanged, acquired, transferred, received and sold upon such transactions being specified and itemized as follows:

I. The applicant will issue 259,078 shares of new Common Stock with a par value of $10 per share to the holders of its existing 47,105 shares of $5 First Preferred Stock in the proportion of 5½ shares of new Common Stock for each share of $5 First Preferred Stock upon surrender of and in exchange for the certificates representing such $5 First Preferred Stock.

II. The applicant will issue 2,734 shares of new Common Stock with a par value of $10 per share to the holders of its existing 27,338 shares of Second Preferred Stock in the proportion of 1/10 of a share of new Common Stock for each such share of Second Preferred Stock upon surrender of and in exchange for the certificates representing such Second Preferred Stock.

III. No fractional shares of new Common Stock will be issued by the applicant under subparagraphs I and II next above, but in lieu thereof the applicant will issue Scrip Certificates, exchangeable for full shares within two years from the first day of the month in which the amendment to the Articles of Incorporation of the applicant creating such new Common Stock shall become effective. After the expiration of such two year period, the applicant will sell the shares of new Common Stock reserved for issue in exchange for Scrip Certificates, and for a period of three additional years holders of Scrip Certificates will be entitled to receive their pro rata share of the proceeds of sale, at the end of which time the Scrip Certificates shall be void for all purposes.

IV. Holders of existing $5 First Preferred Stock and Second Preferred Stock who do not surrender their stock certificates in exchange for shares of the new Common Stock and/or Scrip Certificates (or cash proceeds after the initial two year period referred to in subparagraph III next above) within five years from the first day of the month in which the amendment to the Articles of Incorporation of the applicant creating such new Common Stock shall become effective, shall not thereafter be entitled or permitted to make such exchange, and the shares of the existing stock then held by them shall be void for all purposes.

V. All existing Common Stock of the applicant will be cancelled and no new shares will be issued therefor.

VI. The foregoing transactions or any of them may be effectuated through and deliveries may be made directly by the applicant or to or through exchange agents or otherwise, the certificates for such shares of new Common Stock and such Scrip Certificates shall be in such form and the sale of such shares of new Common Stock reserved for issue in exchange for Scrip Certificates shall be made in such manner and upon such terms and conditions, all as may be determined by the Board of Directors of the applicant consistent with the Court order enforcing the amended plan and within the time limits, specified in the amended plan or in said Court order.

[Docket No. G-669]

MICHIGAN-WISCONSIN PIPE LINE CO.

NOTICE OF ORDER DENYING APPLICATIONS FOR RECONSIDERATION AND VACATION, OR, IN THE ALTERNATIVE, FOR A REHEARING OF ORDER ISSUING CERTIFICATE OF PUBLIC CONVENIENCE AND NECESSITY

JANUARY 15, 1947.

Notice is hereby given that, on January 15, 1947, the Federal Power Commission issued its order denying applications for reconsideration and vacation, or, in the alternative, for a rehearing of order issuing certificate of public convenience and necessity, entered January 14, 1947, in the above-designated matter.

[Docket No. IT-6016]

COORDINATION OF ELECTRIC FACILITIES IN THE CONSERVATION OF COAL

ORDER TERMINATING EMERGENCY AND REVOKING EXEMPTIONS

JANUARY 10, 1947.

It appears to the Commission that:

(a) Because of the virtual cessation of coal mining, this Commission on November 22, 1946, entered a finding and determination of the existence of an emergency within the meaning of section 202 of the Federal Power Act in the production of electric energy in the United States.

(b) As an aid in alleviating the critical coal situation, the Commission authorized electrical utility systems to coordinate operations through use of interconnections without such use affecting the jurisdictional status of electric utilities under the Federal Power Act.

The Commission finds and determines that: The emergency for which the finding and determination of November 22, 1946, was issued no longer exists; and wherefore

The Commission orders that: The authority and exemption provided for in the said action of November 22, 1946, be and it hereby is revoked, effective thirty (30) days from the date of issuance of this order.

Date of issuance: January 10, 1947.

By the Commission.

Chapter III—Farmers Home Administration, Department of Agriculture

PART 391—WATER FACILITIES LOANS

MISCELLANEOUS AMENDMENTS

Section 391.1 (11 F. R. 177A-252) of Title 6, Chapter III of the Code of Federal Regulations, paragraphs (b) and (d) are amended and paragraph (e) is added to read as follows:

§ 391.1 *General.* • • •

(b) No loan may be made in excess of $50,000 in connection with a single project or facility. Regional Directors are authorized to approve Water Facilities loans to individuals in amounts not to exceed $5,000 and to associations in amounts not to exceed $7,500. State Directors are authorized to close Water Facilities loans, which were approved, or conditionally approved, prior to the transfer of functions from the Regional FSA Directors to the State FHA Directors. State FHA Directors are authorized to approve Water Facilities loans to individuals, subject to the following limitations: (1) No Water Facilities loan, initial or subsequent, shall be approved by State FHA Directors or their subordinates which will result in a total outstanding Water Facilities indebtedness to that individual in excess of $5,000; (2) The aggregate of loans made to all individuals in connection with any one water facilities group service shall not exceed $5,000. State FHA Directors are authorized to redelegate to District FHA Supervisors all or any part of their authority to approve Water Facilities loans to individuals, except the approval of loans for irrigation purposes. State FHA Directors are authorized to redelegate to FHA Supervisors, in charge of County Offices, all or any part of their authority to approve Water Facilities loans to individuals, except FHA Supervisors shall not be authorized to approve: (i) Loans for irrigation purposes; (ii) any loan, initial or subsequent, which will result in a total outstanding Water Facilities indebtedness to one individual in excess of $1,000; and (iii) loans to establish Water Facilities group services. Loans may be made for the expected life of the facility or for twenty years, whichever is less, and will bear interest at the rate of three percent per annum. Generally a first mortgage on the facility, and additional security, when available, and when needed to protect the Government's interests, are required.

• • • • • •

(d) Applications of individuals for loans will be filed on Form FHA–197, "Application for FHA Services," with the local FHA office. Applications of associations will be by informal letter filed with the local FHA office. Associations will also be required to execute a loan agreement on Form WF–3b, "Agreement for Loan and Supplementary Grant." Assistance in planning and constructing the facility is furnished. The individual or association assumes the responsibility for the completion of the installation.

Representatives of the FHA give technical assistance and engineering service as needed.

(e) Generally the benefits of the program will be extended to owners or operators of not larger than family-type farms. These farms should be capable of producing a substantial part of the total family income and utilize a substantial portion of the family labor in carrying on farming and stock-raising operations. Loans are limited to those individuals who cannot obtain credit for the purposes of the loan on reasonable terms and conditions and in sufficient amount from any other responsible source available in or near the community in which they reside. Cooperative water associations, mutual water companies, or irrigation districts having general corporate powers are eligible to receive Water Facilities loans for approved purposes: *Provided*, (1) The organization does not have sufficient funds to carry out the objectives for which the loan is sought, and cannot obtain such funds by levying special assessments or charges on its members, or obtain such funds from any other responsible source on reasonable terms and conditions; (2) a majority of the farm units to be benefited are family-type farms; and (3) at least two-thirds of the membership or voting stock in the association is held by the owners or operators of not larger than family-type farms. Each applicant for an individual Water Facilities loan must certify on Form FHA-121, "Certification—Water Facilities Loans," before a loan is approved, that he is unable to obtain credit on reasonable terms and conditions, and in sufficient amount, from any responsible source available in or near the community in which he resides, to carry out the objectives for which the loan is sought. Each incorporated association applying for a loan must certify on a separate sheet, before the loan is approved, that it is unable to obtain the necessary funds by levying special assessments or charges on its members or stockholders, or from any other responsible source, on reasonable terms and conditions to carry out the objectives for which the loan is sought. The County FHA Committee must certify on Form FHA-121, "Certifications—Water Facilities Loans," before loans to individuals are approved, that the applicant is eligible to receive a loan under the requirements of the Water Facilities Program and that the applicant in its opinion will honestly endeavor to carry out the undertakings and obligations required of him. The County FHA Committee must also certify as to the eligibility of all incorporated associations. The committee certification will be made on the association's certification sheet.

PART 3—DIGEST OF CEASE AND DESIST ORDERS

C. H. ROBINSON COMPANY ET AL.

§ 3.45 (e) *Discriminating in price—Indirect discrimination—Brokerage payments.* I. In connection with the purchase of fruits, vegetables, and other commodities in commerce, and on the part of respondent C. H. Robinson Company (engaged in the produce brokerage business), and on the part of its officers, etc., (1) receiving or accepting from any seller, directly or indirectly, anything of value as a commission or brokerage, or any compensation, allowance, or discount in lieu thereof, on or in connection with purchases made by respondent Nash-Finch Company (engaged as wholesale grocer, and owner of substantially all the outstanding stock of said C. H. Robinson Company) while acting under the control of and in fact for and on behalf of said respondent Nash-Finch Company; (2) receiving or accepting from any seller, directly or indirectly, anything of value as a commission or brokerage, or any compensation, allowance, or discount in lieu thereof, on or in connection with purchases made for respondent's own account or while acting for or in behalf of a purchaser as an intermediary or agent or subject to the direct or indirect control of such purchaser; or, (3) paying, transmitting, or delivering to or for the benefit of any purchaser, either directly in the form of money or credits or indirectly in the form of dividends, or otherwise, any commission or brokerage, or any compensation, allowance, or discount in lieu thereof, received from any seller while acting as an intermediary or agent for such purchaser or while subject to the direct or indirect control of such purchaser; and II, in connection with the purchase of fruits, vegetables, and other commodities in commerce, and on the part of said respondent Nash-Finch Company (engaged as aforesaid as wholesale grocer, and owner of substantially all the outstanding stock of said respondent C. H. Robinson Company), and on the part of its officers, etc. (1) receiving or accepting from any seller, directly or indirectly, anything of value as a commission or brokerage, or any compensation, allowance, or discount in lieu thereof, on or in connection with purchases made for respondent's own account, either directly or by or through respondent C. H. Robinson Company; or, (2) receiving or accepting from respondent C. H. Robinson Company, either directly in the form of money or credits or indirectly in the form of dividends, or otherwise, any commission or brokerage, or any compensation, allowance, or discount in lieu thereof, received by said C. H. Robinson Company from any seller while acting for or in behalf of said respondent Nash-Finch Company as an intermediary or agent for said respondent or while subject to the direct or indirect control of said respondent; prohibited. (Sec. 2 (c), 49 Stat. 1527; 15 U. S. C., sec. 13 (c)) [Cease and desist order, C. H. Robinson Company et al., Docket 4589, January 6, 1947]

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 6th day of January A. D. 1947.

In the Matter of C. H. Robinson Company, a Corporation, and Nash-Finch Company, a Corporation

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission and substitute answer of the respondents, which substitute answer admits all the material allegations of fact set forth in said complaint and waives all intervening procedure and further hearing as to said facts, and the Commission having made its findings as to the facts and its conclusion that said respondents have violated the provisions of subsection (c) of section 2 of the act of Congress entitled, "An Act to supplement existing laws against unlawful restraints and monopolies, and for other purposes," approved October 15, 1914 (the Clayton Act), as amended by an act of Congress approved June 19, 1936 (Robinson-Patman Act):

I. *It is ordered*, That the respondent C. H. Robinson Company and its officers, agents, representatives, and employees, directly or through any corporate or other device, in connection with the purchase of fruits, vegetables, and other commodities in commerce as "commerce" is defined in the aforesaid Clayton Act, do forthwith cease and desist from:

1. Receiving or accepting from any seller, directly or indirectly, anything of value as a commission or brokerage, or any compensation, allowance, or discount in lieu thereof, on or in connection with purchases made by respondent Nash-Finch Company while acting under the control of and in fact for and on behalf of said respondent Nash-Finch Company.

2. Receiving or accepting from any seller, directly or indirectly, anything of value as a commission or brokerage, or any compensation, allowance, or discount in lieu thereof, on or in connection with purchases made for respondent's own account, either directly or by or through respondent C. H. Robinson Company, or while acting for or in behalf of a purchaser as an intermediary or agent or subject to the direct or indirect control of such purchaser.

3. Paying, transmitting, or delivering to or for the benefit of any purchaser, either directly in the form of money or credits or indirectly in the form of dividends, or otherwise, any commission or brokerage, or any compensation, allowance, or discount in lieu thereof, received from any seller while acting as an intermediary or agent for such purchaser or while subject to the direct or indirect control of such purchaser.

II. *It is further ordered*, That the respondent Nash-Finch Company and its officers, agents, representatives, and employees, directly or through any corporate or other device in connection with the purchase of fruits, vegetables, and other commodities in commerce as "commerce" is defined in the aforesaid Clayton Act, do forthwith cease and desist from:

1. Receiving or accepting from any seller, directly or indirectly, anything of value as a commission or brokerage, or any compensation, allowance, or discount in lieu thereof, on or in connection with purchases made for respondent's own account, either directly or by or through respondent C. H. Robinson Company.

2. Receiving or accepting from respondent C. H. Robinson Company, either directly in the form of money or credits or indirectly in the form of dividends, or otherwise, any commission or brokerage, or any compensation, allowance, or discount in lieu thereof, received by said C. H. Robinson Company from any seller while acting for or in behalf of said respondent Nash-Finch Company as an intermediary or agent for such purchaser or while subject to the direct or indirect control of such purchaser.

3. Paying, transmitting, or delivering to or for the benefit of any purchaser, either directly in the form of money or credits or indirectly in the form of dividends, or otherwise, any commission or brokerage, or any compensation, allowance, or discount in lieu thereof, received from any seller while acting as an intermediary or agent for such purchaser or while subject to the direct or indirect control of such purchaser.

III. *It is further ordered*, That the respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which they have complied with this order.

By the Commission.

TITLE 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs, Department of the Treasury

[T. D. 51602]

PART 6—AIR COMMERCE REGULATIONS

AIRPORTS OF ENTRY

JANUARY 15, 1947.

The following-named airports are hereby redesignated as airports of entry for civil aircraft and merchandise carried thereon arriving from places outside the United States, as defined in section 9 (b) of the Air Commerce Act of 1926 (U. S. C. Title 49, sec. 179 (b)), for a period of 1 year from the dates shown opposite their names:

Grand Forks Municipal Airport, Grand Forks, N. Dak.	Jan. 1, 1947
Bellingham Airport, Bellingham, Wash.	Jan. 10, 1947
Sault Ste. Marie Airport, Sault Ste. Marie, Mich.	Jan. 15, 1947

The list of temporary airports of entry in § 6.13, Customs Regulations of 1943 (19 CFR, Cum. Supp., 6.13), as amended, is hereby further amended by changing the dates opposite the names of the airports in question to show such redesignations.

Notice of the proposed redesignations of these airports as airports of entry was published in the FEDERAL REGISTER on December 17, 1946 (11 F. R. 11470), pursuant to section 4 of the Administrative Procedure Act (Public Law 404, 79th Congress). The redesignations shall be effective on the dates above stated, the delayed effective date requirements of section 4 (c) of the Administrative Procedure Act (Public Law 404, 79th Congress) being dispensed with for the reason that the previous designations expire prior to the expiration of 30 days after the publication of these redesignations. The redesignations of these airports are based on a determination that a sufficient need exists to justify such redesignations and the redesignations are made for the purpose of providing for convenient compliance with customs requirements.

(Sec. 7 (b), 44 Stat. 572; sec. 611, 58 Stat. 714; 49 U. S. C., Sup., 177 (b))

PART 1010—SUSPENSION ORDERS

[Suspension Order S-1060]

HARRY ROSEN

Harry Rosen of West Warren, Massachusetts, under authorization from the Federal Housing Administration began construction of a residence on Tecumseh Drive, Long Meadow, Massachusetts. The authorization was granted as a result of an application filed by Harry Rosen under National Housing Agency Regulation 80-2, paragraph (3) (a). Harry Rosen represented in this application among other things that he owned or had acquired all or substantially all of the materials needed for the construction prior to March 26, 1946, which was a misrepresentation. The authorization was made in reliance upon this misrepresentation. The result of this misrepresentation was that critical materials were diverted to uses not authorized by the Civilian Production Administration. In view of the foregoing, it is hereby ordered that:

§ 1010.1060 *Suspension order No. S-1060.* (a) The authorization to Harry Rosen granted by the Federal Housing Administration on May 21, 1946, Project Serial No. 6-025-923 is revoked.

(b) Neither Harry Rosen, his successors or assigns, nor any other person shall do any further construction on the premises located on Tecumseh Drive, Long Meadow, Massachusetts, unless hereafter authorized in writing by the Civilian Production Administration.

(c) Harry Rosen shall refer to this order in any application or appeal which he may file with the Federal Housing Administration for authorization to carry on construction.

(d) Nothing contained in this order shall be deemed to relieve Harry Rosen, his successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the Civilian Production Administration, except insofar as the same may be inconsistent with the provisions hereof.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-1071]

WILSHIRE REALTY CO. AND HAYES CONSTRUCTION CO.

Wilshire Realty Company, a Michigan corporation with principal place of business at 12603 Dexter Avenue, Detroit, Michigan, and Hayes Construction Company, a Michigan corporation with principal place of business at 13061 East Eight-mile Road, Detroit, Michigan, without authorization of the Civilian Production Administration, on August 9, 1946, began and thereafter carried on construction of a structure at 12603 Dexter Avenue, Detroit, Michigan, for use as an automobile bumping shop, the estimated cost of which was in excess of $1,000. The beginning and carrying on of this construction constituted violations of Veterans' Housing Program Order No. 1, and has diverted critical materials to uses not authorized by the Civilian Production Administration. In view of the foregoing, it is hereby ordered that:

§ 1010.1071 *Suspension Order No. S-1071.* (a) Neither Wilshire Realty Company nor Hayes Construction Company, their successors or assigns, nor any other person, shall do any further construction on the premises located at 12603 Dexter Avenue, Detroit, Michigan, including putting up, completing or altering the structure, unless hereafter authorized in writing by the Civilian Production Administration.

(b) Wilshire Realty Company and Hayes Construction Company shall refer to this order in any application or appeal which they may file with the Civilian Production Administration or the Federal Housing Administration for priorities assistance or for authorization to carry on construction.

(c) Nothing contained in this order shall be deemed to relieve Wilshire Realty Company or Hayes Construction Company, their successors and assigns, from any restriction, prohibition or provision contained in any other order or regulation of the Civilian Production Administration, except insofar as the same may be inconsistent with the provisions hereof.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-1073]

MALKOV LUMBER CO. AND JAMES BURTON CO.

Malkov Lumber Company, a corporation, 1201 South Campbell Avenue, Chicago, Illinois, as owner, and James Burton Company, a Corporation, 179 West Washington Street, Chicago, Illinois, as contractor, began on or about August 15, 1946, construction of an addition to an existing structure on the premises at 1235 South Campbell Avenue, Chicago, Illinois, to be used as a warehouse at an estimated cost in excess of $1,000 in violation of Veterans' Housing Program No. 1. The officers of Malkov Lumber Company had knowledge of the provisions of Veterans' Housing Program Order 1 and the beginning of such construction was a wilful violation of the provisions of said order. The officers of James Burton Company had knowledge of the restrictions of Veterans' Housing Program Order 1 and the beginning of construction constituted gross negligence amounting to a wilful violation of said order. This violation has diverted critical materials to uses not authorized by the Civilian Production Administration. In view of the foregoing, it is hereby ordered that:

§ 1010.1073 *Suspension Order No. S-1073.* (a) Neither the Malkov Lumber Company, a corporation, or James Burton Company, a corporation, their successors or assigns, nor any other person shall do any further construction on the premises located at 1235 South Campbell Avenue, Chicago, Illinois, including completing, putting up or altering of any structure located thereon, unless hereafter specifically authorized in writing by the Civilian Production Administration.

(b) The Malkov Lumber Company, a corporation, and James Burton Company, a corporation, shall refer to this order in any application or appeal which they may file with the Civilian Production Administration, for priorities assistance or for authorization to carry on construction.

(c) Nothing contained in this order shall be deemed to relieve the Malkov Lumber Company, or James Burton Company, their successors or assigns, from any restrictions, prohibitions or provisions contained in any other order or regulation of the Civilian Production Administration, except insofar as the same may be inconsistent with the provisions hereof.

Issued this 20th day of January 1947.

RICE AND RAW CANE SUGAR IN PUERTO RICO

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Third Revised Maximum Price Regulation 183 is amended in the following respects:

1. Section 4.3 is amended to read as follows:

SEC. 4.3 *Rice*—(a) *Maximum prices.*

Item	Case of—	At wholesale	At retail
			Per unit
All grades of imported packaged milled rice containing from 4% to 15% broken kernels.	30/2-lb. pkg.	$7.30	$0.27
	20/3-lb. pkg.	7.20	.40
	12/5-lb. pkg.	6.80	.63
All grades of imported packaged milled rice containing from 16% to 25% broken kernels.	20/3-lb. pkg.	6.90	.38
Imported milled rice (bulk or loose):		*Cwt.*	*Per lb.*
Short grain rice		$10.60	$0.12
Rice with 5% or more broken kernels.		9.40	.11
Long grain rice			
Fortuna, Prelude, Edith		11.50	.13
Long grain rice:			
Nira, Rexoro, Texas, Patna, Bluebonnet		12.40	.14
Parboiled rice		12.45	.14

(b) *Rice sold loose from a broken package.* The maximum prices for all grades of imported milled rice sold loose from a broken package shall be the same as those established for bulk or loose rice in paragraph (a) above.

2. A new section 4.23 (a) (3) is added to read as follows:

(3) *Sales of raw cane sugar on and after November 20, 1946.* On and after November 20, 1946, the maximum price for sales of raw cane sugar determined under subparagraphs (1) and (2) above may be increased by 36.5 cents per hundredweight.

3. The schedule in section 4.23 (b) (1) is amended to read as follows:

All brands packaged in—	At refiners level [1] (per 100 lbs.)	At wholesale (per 100 lbs.)	At retail (per unit)
100-lb. container	[2] $7.70	[2] $7.90	$0.09
25-lb. container	7.80	8.00	2.15
10-lb. container	7.85	8.05	.92
5-lb. container	7.95	8.15	.46
2-lb. container	7.95	8.15	.19
1-lb. container	8.15	[3] 8.35	[4] .10

[1] Prices include transportation to buyer's place of business.
[2] Deduct 5 cents if packaged in paper bags.
[3] 2 for $0.19.

NOTE: The maximum prices specified above shall be reduced by any discounts customarily allowed for cash or prompt payment.

This amendment shall become effective as of November 20, 1946.

Issued this 21st day of January 1947.

PHILIP B. FLEMING,
Temporary Controls Administrator.

Statement of Considerations Involved in Issuance of Amendment 9 to Third Revised Maximum Price Regulation 183

The accompanying amendment increases the maximum wholesale prices of rice to reflect the increased prices which wholesalers in Puerto Rico must pay to their suppliers. Corresponding increases are granted at the retail level. At the same time the coverage of the regulation is broadened to include specific prices for additional container sizes of packaged rice and additional varieties of bulk rice.

This amendment also increases the maximum prices of raw cane and refined granulated sugars. On November 20, 1946, maximum prices of raw cane sugar were increased on the mainland 36.5 cents per hundredweight and of refined sugar 40 cents per hundredweight through amendment 4 to MPR 16 and amendment 7 to MPR 60, respectively. Reference to the statement of considerations accompanying those amendments is hereby made. The same increases are made effective in Puerto Rico under this amendment for the same reasons the previous increases granted on the mainland were made applicable to Puerto Rico, as explained in the earlier statements of considerations.

The maximum prices established by this amendment were heretofore set by interim orders of the Director and have been in effect since November 20, 1946. The new prices are calculated to return to distributors no less than the average percentage markups as were in effect on March 31, 1946, and are in accord with and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended.

PART 1418—TERRITORIES AND POSSESSIONS

[RMPR 288, Revocation (§ 1418.351)]

SPECIFIC MAXIMUM PRICES IN ALASKA

Revised Maximum Price Regulation 288 is hereby revoked, except that any violations which occurred or rights or liabilities which arose before the effective date of this order of revocation shall be governed by the order in effect at the time the violations occurred or the rights or liabilities arose.

This order shall become effective 12:01 a. m. January 22, 1947.

Issued this 21st day of January 1947.

TITLE 41—PUBLIC CONTRACTS

Chapter II—Division of Public Contracts, Department of Labor

PART 203—RULES OF PRACTICE

EXCEPTIONS AND EXEMPTIONS OF PUBLIC CONTRACTS ACT

Pursuant to the authority vested in the Secretary of Labor by section 4 of the Public Contracts Act (49 Stat. 2036, 41 U. S. C. 35–45), §§ 203.13 and 203.14 are hereby revised to read as follows:

§ 203.13 *Requests for exceptions and exemptions.* (a) Request for the exception or exemption of a contract or class of contracts from the inclusion or application of one or more of those stipulations required by § 201.1 of this chapter must be made by the head of a contracting agency or department and shall be accompanied with a finding by him setting forth reasons why such inclusion or application will seriously impair the conduct of Government business.

(b) Request for the exception or exemption of a stipulation respecting minimum rates of pay and maximum hours of labor contained in an existing contract must be made jointly by the head of a contracting agency and the contractor and shall be accompanied with a joint finding by them setting forth reasons why such exception or exemption is desired.

(c) All requests for exceptions and exemptions shall be transmitted to the Public Contracts Division of the Department of Labor.

§ 203.14 *Decisions concerning exceptions and exemptions.* Decisions concerning exceptions and exemptions shall be in writing and approved by the Secretary of Labor or officer prescribed by him, originals being filed in the Department of Labor, and certified copies shall be transferred to the department or agency originating the request, to the Comptroller General, and to the Procurement Division of the Treasury. All such decisions shall be promulgated to all contracting agencies by the Public Contracts Division of the Department of Labor.

Production and Marketing Administration

[7 CFR, Part 26]

OFFICIAL GRAIN STANDARDS OF THE UNITED STATES FOR OATS

NOTICE OF HEARINGS ON PROPOSED AMENDMENT

Notice is hereby given that a proposed amendment to the official grain standards of the United States for oats (7 (CFR and Cum. Supp. 26.251) promulgated under the authority and provisions of the United States Grain Standards Act, 1916, as amended (39 Stat. 482; 54 Stat. 765; 7 U. S. C. 71 et seq.), is being considered. The proposed amendment if promulgated shall be effective not later than July 1, 1947.

The amendment is proposed to provide a better description on certificates for oats of all classes and of all grades except Grade No. 1 which have a test weight per bushel of 32 pounds or more but less than 35 pounds.

If promulgated, the amendment will be in the form of a special grade of Medium Heavy oats substantially as follows:

Definition. Medium Heavy oats shall be oats of any grade other than Grade No. 1 which have a test weight per bushel of 32 pounds or more but less than 35 pounds.

Grades. Medium Heavy oats shall be graded and designated according to the grade requirements of the standards applicable to such oats if they were not medium heavy, and, except in the case of Grade No. 1, there shall be added to, and made a part of, the grade designation, preceding the name of the class, the words "Medium Heavy."

Informal hearings will be held at Minneapolis, Omaha, and Chicago, at which interested persons may present their views and opinions orally with respect to the desirability of promulgating the proposed amendment. The time and

place of each such hearing will be as follows:

February 11, 2:30 p. m., Room 150 Grain Exchange Building, Minneapolis, Minn.

February 13, 2:30 p. m., Room A26 Grain Exchange Building, Omaha, Nebr.

February 14, 2:30 p. m., Room 660 Board of Trade Building, Chicago, Ill.

Interested persons may submit written data, views, or arguments to the Director, Grain Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C., to be received by him not later than February 20, 1947.

Consideration will be given to all information obtained at the hearings, to written data, views, and arguments received not later than February 20, 1947, and to all other information available in the United States Department of Agriculture before a decision is made as to whether or not an amendment to the official grain standards of the United States for oats in substantially the form proposed shall be promulgated.

Robert H. Black, Assistant to the Director, Grain Branch, Production and Marketing Administration, is hereby designated to conduct the hearings held pursuant to this notice.

Issued this 17th day of January 1947.

[SEAL] JESSE B. GILMER,
Acting Administrator.

NON-GOVERNMENT FIXED AND MOBILE SERVICES IN THE BAND 152–162 Mc

REVISION OF PROPOSED FREQUENCY SERVICE-ALLOCATIONS

JANUARY 10, 1947.

On October 1, 1946, the Commission released Public Notice 98709 which constituted a revision of Public Notice 95408 of July 12, 1946. These public notices were proposals for frequency service-allocations to the non-government fixed and mobile services in the band 152–162 Mc and provided for oral argument.

In view of the many statements and briefs received from representatives of the various services affected outlining statements to be presented at the oral argument on the Commission's most recent proposal, and discussions at the informal engineering conference held in Washington, D. C. on December 2 and 3, 1946, the Commission issues the following revision of the last paragraph on page 2 of Public Notice 98709:

Since equipment in this band is immediately available, all applicants for new municipal police and municipal fire radio systems will be required to operate on frequencies in the 152–162 Mc band except in those instances where the applicant furnishes a satisfactory factual showing of need for some other frequency in order to provide adequate radio communication facilities. An applicant requesting replacement of an entire or major part of an existing municipal police or municipal fire system will also be required to adhere to the frequency utilization policy set forth herein.

Oral argument on the Commission's proposal outlined in Public Notice 98709, revised as indicated herein, will be held in the Commission's offices in Washington, D. C., on February 3, 1947 at 2:00 p. m. Those desiring to appear should file a brief outlining the statement to be presented with the Secretary, Federal Communications Commission, Washington 25, D. C., by January 27, 1947. Each statement will be limited to thirty minutes and data or material which normally would require more time should be presented in written form for the record.

Approved: January 9, 1947.

[Docket No. 8050]

MULTIPLE OWNERSHIP

ORDER SETTING FORTH DATE OF ORAL ARGUMENT

In the matter of the rules and regulations concerning multiple ownership of broadcast stations.

At a session of the Federal Communications Commission held at its offices in Washington, D. C. on the 9th day of January 1947;

Whereas, Part 3 of the Commission's rules and regulations contains provisions concerning the multiple ownership of broadcast stations, viz.:

(1) Subpart A, § 3.35, relating to standard broadcast stations, which provides as follows:

§ 3.35 *Multiple ownership.* No license shall be granted for a standard broadcast station, directly or indirectly owned, operated or controlled[eb] by any person[ec] where such station renders or will render primary service to a substantial portion of the primary service area of another standard broadcast station, directly or indirectly owned, operated or controlled by such person, except upon a showing that public interest, convenience and necessity will be served through such multiple ownership situation.

(2) Subpart B, § 3.240 (a), relating to FM broadcast stations, which provides as follows:

§ 3.240 *Multiple ownership.* (a) No person (including all persons under common control)[1] shall, directly or indirectly, own, operate, or control more than one FM broadcast station that would serve substantially the same service area as another FM broadcast station owned, operated, or controlled by such person.

(3) Subpart D, § 3.640 (a), relating to television broadcast stations which provides as follows:

§ 3.640 *Multiple ownership.* (a) No person (including all persons under common control)[1] shall, directly or indirectly, own, operate, or control more than one television broadcast station that would serve substantially the same service area as another television broadcast station owned, operated, or controlled by such person.

Whereas, the Commission has received many applications for broadcast facilities which involve the application or interpretation of the said provisions concerning multiple ownership of broadcast stations; and

Whereas, certain of these applications, particularly those requesting FM and television facilities, raise questions (in some instances questions of first impression) which can more appropriately be considered in a general hearing than in hearings limited to particular applications; and

Whereas, the Commission deems it desirable to obtain the views and opinions of interested persons upon the foregoing matters;

Now, therefore, *It is ordered*, That oral argument be held before the Commission en banc on the 7th day of February 1947, upon the following issue:

1. To determine what application or interpretation of the Commission's rules and regulations concerning multiple ownership of broadcast stations, particularly FM and television broadcast stations, would best serve the public interest.

It is further ordered, That the following person or parties be, and they are hereby, made parties to this proceeding for the purpose of participating in the oral argument on the said issue:

The Yankee Network, Inc., applicant for Class B FM stations at Boston, Massachusetts, Bridgeport, Connecticut and Providence, Rhode Island (File Nos. B1–PH–590, B1–PH–591, B1–PH–592; Docket Nos. 6993, 7462, 7027);

FEDERAL COMMUNICATIONS COMMISSION

MULTIPLE OWNERSHIP

ORAL ARGUMENT

JANUARY 9, 1947.

The Commission today adopted an order[1] scheduling for February 7, 1947, oral argument before the Commission en banc on the following issue:

1. To determine what application or interpretation of the Commission's rules and regulations concerning multiple ownership of broadcast stations, particularly FM and television broadcast stations, would best serve the public interest.

Named as parties to the proceeding were various applicants for FM and Television facilities who have applications pending before the Commission which involve questions of multiple ownership and overlap of service areas.

The order recites that "the Commission deems it desirable to obtain the views and opinions of interested persons" upon the foregoing issue.

The order provides that any named parties desiring to participate in the oral argument must file a notice of appearance in duplicate on or before January 27, 1947. It further provides that any other persons desiring to participate in the oral argument should file a petition in duplicate requesting leave to participate and stating their interest in the proceeding on or before January 27, 1947.

The purpose of the oral argument is to assist the Commission in determining the policy best calculated to serve the public interest in connection with the following provisions of Part 3 of the Commission's rules and regulations which contain the multiple ownership rules: Subpart A, § 3.35, relating to Standard broadcast stations; Subpart B, § 3.240 (a), relating to FM broadcast stations; Subpart D, § 3.640 (a), relating to Television broadcast stations.

It is contemplated that the Commission's staff will prepare as exhibits to be introduced in evidence at the oral argument lists of precedents involving the previous application of the multiple ownership rules by the Commission including a statement showing the extent of multiple ownership and contour maps showing the overlap in service areas involved in particular cases. Similar exhibits will be prepared as to all applicants named as parties to the proceeding. Copies of all proposed exhibits will be provided in advance of the oral argument to all parties named in the order, and also to all other persons permitted by the Commission to participate in the oral argument. This procedure should render it unnecessary for any person or party to present testimony or exhibits at the oral argument and should make it possible for them to limit themselves to the oral presentation of their views on the policies and matters involved.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-1397]

BIRMINGHAM ELECTRIC CO.

MEMORANDUM OPINION AND ORDER

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 16th day of January A. D. 1947.

On November 29, 1946, the Commission issued its order granting and permitting to become effective the application-declaration of Birmingham Electric Company ("Birmingham"), an electric utility subsidiary of Electric Bond and Share Company, a registered holding company, relating to the following transactions: the issuance of 64,000 shares of 4.20% Cumulative Preferred stock of the par value of $100 per share ("New Preferred"); an offer to exchange for each share of the 40,000 shares of outstanding $7 and $6 Preferred Stocks ("Old Preferred"), one share of New Preferred plus an amount equal to the difference between the public offering price of the New Preferred and the call price of the Old Preferred; the redemption of the unexchanged Old Preferred; the sale at competitive bidding of the unexchanged shares of New Preferred; and the issuance and private sale of $2,500,000 of 10 Year 2% Serial Notes.[1]

In the findings and opinion approving the transactions described above, the Commission stated: [2]

> While our usual practice is to have the dividend rate determined by competitive bidding so that the price paid to the company will not exceed $102.75 per share, we are not imposing any conditions with respect to the company's proposal to invite bids on a dividend rate of 4.20%, in view of the company's position with respect to Alabama law concerning charter amendments. In the opinion of counsel for the company, the Alabama statutes require that the dividend rate and call price of the New Preferred must be stated in the charter amendment as proposed by the Board of Directors and as finally approved by the stockholder, and the stockholders must be given thirty days' notice of the proposed charter amendment.

On December 27, 1946, in accordance with the authorization granted by our order of November 29, 1946, Birmingham publicly invited competitive bids to be submitted on January 7, 1947 for the purchase of 45,478 shares of New Preferred,[3] which represented the unexchanged portion of such stock at a dividend rate of 4.20 percent and a minimum price of $100 net to the Company. Three underwriting syndicates, represented respectively by First Boston Corporation, Kidder, Peabody and Company, and Smith, Barney and Company, qualified with the Company in accordance with the invitation for bids.

Shortly before the time fixed for opening of bids, Birmingham learned that none of the qualified syndicates would submit a bid on the basis of the fixed dividend rate of 4.20 percent and the minimum price of $100 to the Company. Thereupon, on January 7, 1947 the Company arranged for an extension of time for the consummation of its $2,500,000 bank loan and advised the representatives of the three groups of prospective bidders by telegraph that the time for receipt of bids had been extended to January 17, 1947.

On January 8, 1947, after consultation with the staff of the Commission, Birmingham filed an application requesting that the Commission exempt the proposed sale of the 45,478 shares of New Preferred from the competitive bidding requirements of Rule U-50. The Company states that the transactions could be consummated at this time only through a negotiated sale because of the restrictive provisions of Alabama law with respect to the necessity for a fixed dividend rate and the requirements of further notice to stockholders with respect to any change in the 4.20% dividend rate. It is further stated that failure to consummate the transaction at this time would result in the abandonment of the present financing program including the proposed bank loan, the return of the shares of Old Preferred heretofore deposited for exchange, and substantial losses to the Company in connection with the transactions. In addition, the abandonment of the present program would seriously jeopardize the completion of the Company's plan for modernization of its transportation system and the improvement of its electric system, in connection with which the Company has already made firm commitments of a substantial nature.

Birmingham has now filed an amendment setting forth the results of the negotiations with respect to the private sale of New Preferred. The transactions proposed in said amendment have been expressly authorized by the Alabama Public Service Commission. A further public hearing having been held before this Commission we now make the following findings:

The amendment states that as a result of the negotiations, an agreement was entered into between the Company and the First Boston Corporation, as the representative of an underwriting syndicate, with respect to the sale of 45,478 shares of New Preferred, wherein it was agreed that the price to be paid to the Company would be $100 per share, and that the Company would pay a fee to the underwriters of $2.75 per share, resulting in an annual cost of money to the Company of 4.32%. It is proposed that the stock will be offered for sale to the public at $100.00 per share.[4]

The record made at the adjourned hearing, in addition to including the terms of the underwriting agreement set out above, covers the negotiations between Birmingham and the representatives of the underwriting syndicate for the purchase and sale of the 45,478 shares of New Preferred. The record also indicates that during the course of negotiations with First Boston Corporation, the Company received an informal offer from another syndicate at a slightly higher annual cost of money to the Company. The Company indicated that although the price agreed upon was not as favor-

[3] During the exchange period, 18,522 shares of the Old Preferred were deposited for exchange pursuant to the exchange offer.

[4] The holders of Old Preferred who deposited their shares for exchange will receive $10 per share instead of some lesser amount which would have been received had the original proposals been consummated.

able as had been originally anticipated, such price was satisfactory in view of all of the circumstances.

Opinions have been submitted by counsel for the company and counsel for the underwriters that the validity of the exchange offer as originally proposed is not affected by the present amended proposals, and that upon completion of all steps necessary to the consummation of the transactions proposed, all provisions of Alabama law will have been complied with.

Although the compensation to be paid to the underwriters appears high, we conclude under the circumstances of this case that no adverse findings are necessary with respect thereto; we also conclude on the basis of the record that no adverse findings are necessary with respect to the amount to be paid to the company for the New Preferred. We also deem it appropriate to grant the Company's request for exemption from the competitive bidding requirements of our Rule U-50.

At the adjourned hearing, data was also submitted and testimony given with respect to the legal fees proposed to be paid in connection with the transaction. After examination of such data and the full record herein, we find that the fees proposed to be paid by the Company are not unreasonable, such fees being as follows: $5,000 to Reid and Preist, New York counsel for the Company, and $10,000 to White, Bradley, Arent and All, local counsel for the Company, and $6,500 to Sullivan and Cromwell, counsel for the underwriters.

On the basis of the entire record herein we conclude that the application-declaration as amended should be granted and permitted to become effective forthwith, without the imposition of terms and conditions.

Wherefore it is ordered, That jurisdiction heretofore reserved over the price to be paid for the New Preferred, the underwriters' compensation and its allocation, and the legal fees proposed to be paid, be, and the same hereby is, released, and said application-declaration as amended is granted and permitted to become effective forthwith subject, however, to the terms and conditions prescribed in Rule U-24, and

It is further ordered, That an exemption from the competitive bidding requirements of Rule U-50 be, and the same hereby is, granted with respect to the sale of the 45,478 shares of New Preferred.

By the Commission.

ORDER POSTPONING HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 14th day of January 1947.

The Commission having given notice on December 20, 1946 of the filing of an application-declaration pursuant to the Public Utility Holding Company Act of 1935 by The North American Company with respect to the sale by The North American Company of its holdings of all the Capital Stock of the St. Louis County Gas Company to The Laclede Gas Light Company for a cash consideration of $11,250,000, and having ordered a hearing to be held on January 16, 1947; and

Counsel for St. Louis County, Missouri having requested that the Commission stay proceedings in this matter due to the pendency of a hearing on January 14, 1947 before the Public Service Commission of Missouri with respect to the acquisition by The Laclede Gas Light Company of the Capital Stock of The St. Louis County Gas Company; and

The Commission having considered such request and it appearing that a postponement of the date heretofore fixed for hearing may appropriately be granted;

It is ordered, That the date for hearing in this matter heretofore fixed for January 16, 1947 be, and it hereby is, postponed until February 5, 1947.

NEW YORK STATE ELECTRIC AND GAS CORP. AND GENERAL PUBLIC UTILITIES CORP.

ORDER GRANTING APPLICATION AND PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 13th day of January 1947.

General Public Utilities Corporation (GPU), a registered holding company, and its subsidiary, New York State Electric & Gas Corporation (New York State), having filed a joint application-declaration, and amendments thereto, pursuant to sections 6 (a), 6 (b), 7, 12 (b) and 12 (c) of the Public Utility Holding Company Act of 1935 and Rules U-42, U-45 and U-50 promulgated thereunder, regarding the following transactions:

1. GPU will make a capital contribution of $7,500,000 in cash to New York State prior to the proposed issue by New York State of its new bonds.

2. New York State proposes:

(a) to issue and sell $13,000,000 principal amount of First Mortgage Bonds ----% Series, due 1977, the interest rate to be determined by competitive bidding. Concurrently with the delivery of and payment for the new bonds, New York State will call for redemption all of its issued and outstanding First Mortgage Bonds, 3¾% Series, due 1964, and will deposit, in trust, cash in amounts sufficient to effect the redemption of the 3¾% bonds in accordance with the terms thereof.

(b) Subsequent to the issuance and sale of the new bonds, New York State intends to issue and sell 150,000 shares of ----% Cumulative Preferred Stock, the dividend rate to be determined by competitive bidding. Concurrently with the delivery of and payment for the new preferred stock, New York State will call for redemption all of its issued and outstanding 5.10% Cumulative Preferred Stock and will deposit, in trust, cash in an amount sufficient to effect the redemption of such 5.10% stock in accordance with the terms thereof.

Part of the cash to be realized as the result of the above mentioned transactions will be applied to the redemption of the securities described below at the indicated redemption prices thereof.

Security	Principal amount or shares	Redemption price	Aggregate redemption price
First mortgage gold bonds, 3¾% series due 1964	$13,000,000	*Percent* 105¾	$13,747,500
Serial preferred stock, 5.10% cumulative preferred	*Shares* 120,000	105	12,600,000

$8,800,875 of the cash realized will be placed in escrow for new construction, and the balance of such proceeds will be applied to the payment of interest and dividends on securities to be redeemed, amounting to $91,625, and to the payment of certain costs and expenses of the financing, estimated at $260,000.

New York State further proposes to make certain adjustments to its accounts including an increase in the capital applicable to its common stock from $21,294,455.12 to $22,000,000 by a transfer of $705,544.88 from unappropriated earned surplus.

In connection with the issuance of the new bonds, New York State proposes to execute a supplemental indenture to be dated January 1, 1947, and to obtain the written consent of the holders of all outstanding $35,393,000 principal amount of First Mortgage Bonds, 3¼% Series, due 1971 (created under a supplemental indenture dated April 1, 1941) to the execution of the proposed supplemental indenture, such bonds to be endorsed with a legend signifying such consent.

New York State having been authorized by the Public Service Commission of the State of New York to invite proposals for the purchase of its new bonds and subsequent thereto to invite proposals for the preferred stock; and

Applicants-declarants having requested that the Commission enter an order finding that the proposed capital contribution by GPU to New York State is, to the extent of $2,209,435.03, necessary or appropriate to effectuate the provisions of section 11 (b) of the act, and the simplification of the GPU holding company system, and that such order conform to the pertinent requirements of the Internal Revenue Code, as amended, including sections 371 and 373 (a) thereof, and contain the recitals, specifications, and itemizations therein required; and

A public hearing having been held after appropriate notice, and the Commission having considered the record in this matter, and having made and filed its findings and opinion herein:

It is hereby ordered, That pursuant to the applicable provisions of said act, including sections 6 (a), 6 (b), 7 and 12 therof, and the rules and regulations promulgated thereunder the aforesaid application-declaration, as amended, be, and hereby is, granted and permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24 of the general rules and regulations under the act and subject to the following additional conditions:

1. That New York State obtain from the Public Service Commission of the State of New York a final order expressly authorizing the issue and sale of said bonds and preferred stock.

2. That the proposed issue and sale of said bonds and preferred stock shall not be consummated until the results of the competitive bidding pursuant to Rule U-50 have been made a matter of record in this proceeding and a further order shall have been entered by this Commission in the light of the record so completed, which order may contain further terms and conditions as may then be deemed appropriate, jurisdiction being reserved with respect to the imposition thereof in connection with the proposed transactions.

It is further ordered, That the ten-day period for inviting bids on the new bonds as provided by Rule U-50, be, and the same hereby is, shortened to a period of not less than seven days, so as to permit the opening of bids on the new bonds on January 21, 1947.

It is further ordered, That jurisdiction be, and hereby is, reserved over the payment of all legal fees and expenses of all counsel in connection with the proposed transactions.

It is further ordered, That the capital contribution by GPU to New York State, to the extent of $2,209,435.03, representing a portion of the funds derived from the sale of certain shares of the common stock of Florida Power Corporation, as approved by our orders dated October 11, 1945 and October 23, 1945 (File No. 70-1161), is necessary or appropriate to effectuate the provisions of section 11 (b) of the Public Utility Holding Company Act of 1935 and the simplification of the GPU holding company system.

By the Commission.

PUBLIC SERVICE COMPANY OF INDIANA, INC., ET AL.

ORDER GRANTING APPLICATIONS AND PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 16th day of January A. D. 1947.

In the matter of Public Service Company of Indiana, Inc., Indiana Gas & Water Company, Inc., File No. 70-1411; The Middle West Corporation, File No. 70-1414.

Public Service Company of Indiana, Inc. ("Service Company"), a public utility company and an exempt holding company, and its public utility subsidiary, Indiana Gas & Water Company, Inc. ("Gas-Water"), having filed a joint application-declaration and an amendment thereto pursuant to the Public Utility Holding Company Act of 1935, and The Middle West Corporation ("Middle West"), a registered holding company and the parent of Service Company, having filed an application and an amendment thereto pursuant to said act, regarding the following proposals:

1. Service Company proposes to dispose of substantially all of its holdings of common stock of Gas-Water by declaring dividends from time to time on its common stock payable in common stock of Gas-Water, with scrip certificates in lieu of fractional shares.

2. Gas-Water proposes to amend its articles of incorporation so as to provide for the issuance of scrip certificates representing fractional share interests in its outstanding common stock, all of which is held by Service Company.

3. Gas-Water proposes to issue from time to time bearer scrip certificates representing fractional share interests in its outstanding common stock in exchange for their equivalent in shares of such stock to be surrendered by Service Company.

4. Service Company proposes to change the maturity dates of $3,250,000 aggregate principal amount of notes due certain banks and now maturing September 1, 1955, so that said notes will become due as follows: $125,000 on December 1, 1949 and $125,000 quarterly thereafter to and including June 1, 1955, and the balance of $375,000 on September 1, 1955.

5. Middle West proposes to acquire from time to time shares of common stock of Gas-Water (or scrip certificates representing fractional shares) to which it may be entitled by reason of its ownership of 224,586 shares (approximately 20.27%) of outstanding common stock of Service Company; and

Said application-declaration having been filed on December 4, 1946, and an amendment thereto having been filed on December 26, 1946, and said application having been filed on December 9, 1946, and an amendment thereto having been filed on December 24, 1946, and notice of such filings having been duly given in the manner and form prescribed by Rule U-23 promulgated pursuant to said act, and the Commission not having received a request for hearing with respect to any of said matters within the period specified in such notice, or otherwise, and not having ordered a hearing thereon; and

The Commission finding that the Public Service Commission of Indiana has, by appropriate orders, authorized and permitted the aforesaid transactions by and between Service Company and Gas-Water; and

The Commission finding that the requirements of sections 6 (b), 7, 10, 12 (d) and 12 (f) of the act and Rules U-43 and U-44 thereunder are satisfied and that no adverse findings are necessary thereunder, and the Commission finding that the proposed acquisition by Middle West satisfies the requirements of section 10 of the act and that no adverse findings are necessary thereunder, subject, however, to a reservation of jurisdiction with respect to the ownership or disposition by Middle West of shares of common stock of Gas-Water acquired pursuant to said proposals:

It is hereby ordered, Effective forthwith, pursuant to Rule U-23 and the applicable provisions of the act, that the application-declaration, as amended, and the application as amended, be, and the same are hereby, granted and permitted to become effective respectively, subject, however, to the terms and conditions prescribed in Rule U-24 and to the further condition that jurisdiction is reserved with respect to the ownership or disposition by The Middle West Corporation of shares of common stock of Indiana Gas & Water Company, Inc.

By the Commission.

MIDDLE WEST CORP. ET AL.

NOTICE OF AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 15th day of January A. D. 1947.

In the matter of the Middle West Corporation, Central and South West Utilities Company, and American Public Service Company, File No. 54-81.

Pursuant to orders of the Commission heretofore entered on April 30, 1946 (Holding Company Act Release No. 6606) and December 18, 1946 (Holding Company Act Release No. 7078), a hearing is to be held on January 27, 1947 at 2:30 p. m., e. s. t., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania, with respect to the following transaction:

By orders entered April 30, 1946 and June 19, 1946, the Commission and the United States District Court for the District of Delaware, respectively, approved a plan filed by the parties pursuant to the provisions of section 11 (e) of the Public Utility Holding Company Act of 1935 providing, among other things, for the merger of American Public Service Company (American) into Central and South West Utilities Company (Central) and for the reorganization of the surviving company on a common stock basis with a capitalization of 6,600,000 shares of common stock of the par value of $5 per share. In general, the plan provides that the publicly held prior lien and preferred shares (preference shares) of Central and American may be exchanged for such number of shares of the new common stock as, taken at the initial

public offering price of the shares of common stock to be sold at competitive bidding, shall equal the respective redemption prices of such preference shares, or, at the option of the holders thereof, may be surrendered for cash in an amount equivalent to the respective redemption prices of such shares, including dividends accrued thereon to the effective date of the merger. Cash required for the retirement of the unexchanged preference stocks is to be raised by the sale at competitive bidding pursuant to the provisions of Rule U-50 of the minimum number of shares of the new common stock necessary for the purpose. The balance of the shares of common stock of the New Company remaining after the sale or exchange to provide for the preference stocks will be issued in exchange for the common stock of Central and American in accordance with the terms of the plan. In the order of April 30, 1946, the Commission reserved jurisdiction, among other things, with respect to the reasonableness of the price to be paid for the New Company's common stock, the underwriter's spread and the fees and expenses in connection therewith.

In order to effectuate the exchanges mentioned above, the companies filed a supplemental declaration for authority to employ security dealers to solicit exchanges of the various preference stocks. In said declaration a time schedule was established for the consummation of the various remaining steps of the plan. Under this schedule, bids for the new common stock are to be opened at 10:30 a. m., e. s. t., on January 27, 1947; the Commission has been requested to enter its order with respect to price and spread on or before January 28, 1947, and the stock is to be publicly offered by underwriters on January 30, 1947. The terms of the bid accepted by the company will become a matter of public information on the day bids are opened, will be released to the press on that day, and any interested person can ascertain this information by inquiry to the Secretary of the Commission at its offices in Philadelphia.

Notice is therefore given and *It is hereby ordered*, That a hearing on such matters, under the applicable provisions of the act and rules of the Commission, be held on January 27, 1947 at 2:30 p. m., e. s. t., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. On such date the hearing room clerk in Room 318 will advise as to the room in which such hearing will be held. All persons desiring to be heard or otherwise wishing to participate in the proceedings shall notify the Commission in the manner prescribed by Rule XVII of the rules of practice on or before January 24, 1947.

It is further ordered, That Richard Townsend or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearing in such matter. The officer so designated to preside at the hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said act and to a hearing officer under the Commission's rules of practice.

The issues to be considered at said hearing are:

1. Whether the price to be paid for the New Company's common stock, the underwriter's spread or compensation and the fees and expenses in connection therewith are reasonable, and, generally, whether the provisions of Rule U-50 have been complied with.

2. Whether, in the light of the Commission's findings and opinion and order of April 30, 1946, approving the plan, issuance and sale of the stock at the initial public offering price set forth in the bid should be approved.

3. What conditions, if any, should be imposed in the public interest or for the protection of investors or consumers.

It is further ordered, That notice of said hearing be given to Central, American, The Middle West Corporation, to all persons who have heretofore applied for or who have been granted participation in the proceedings and to all other persons. Said notice to be given be registered mail to Central, American, The Middle West Corporation and to all other persons who have heretofore applied for or who have been granted participation in the proceedings, and to all other persons by publication of this notice and order in the FEDERAL REGISTER, by release to the press of this notice and order and by mailing a copy of this notice and order to all persons on the Commission's mailing list for releases under the Public Utility Holding Company Act of 1935.

By the Commission.

Civilian Production Administration

[C-453]

D. L. BOOZER

CONSENT ORDER

D. L. Boozer of Anniston, Alabama, is charged by the Civilian Production Administration with violation of Veterans' Housing Program Order No. 1 in that subsequent to March 26, 1946, and on or about July 30, 1946, he began construction of an L-shaped concrete block commercial building of the approximate size of 80 ft. by 84 ft., less 44 ft. by 48 ft. on the southeast corner which forms the L, located on U. S. Highway 78, about 2½ miles west of Anniston, Alabama, at an estimated cost of $5,500.00. Construction of said building was begun without obtaining authorization from the Civilian Production Administration and was carried on until a stop violation telegram was dispatched to D. L. Boozer on August 21, 1946, up to which time labor and materials amounting to approximately $1,200.00 had been incorporated into said structure. Subsequent to August 21, 1946, D. L. Boozer made application to the Civilian Production Administration, Birmingham, Alabama, for authorization to continue construction on said building which application was denied.

D. L. Boozer admits the violation as charged and does not desire to contest the same and has consented to the issuance of this order. D. L. Boozer asserts, however, that the violation, which he admits, was not wilful or intentional.

Wherefore, upon the agreement and consent of D. L. Boozer, the Regional Compliance Director and the Regional Attorney, and upon the approval of the Compliance Commissioner, *It is hereby ordered*, That:

(a) Neither D. L. Boozer, his successors or assigns, nor any other person shall do any further construction on the premises herein described or any part thereof located on U. S. Highway 78, about 2½ miles west of Anniston, Alabama, including the putting up, completing or altering of any structure located on said premises, unless hereafter specifically authorized in writing by the Civilian Production Administration.

(b) D. L. Boozer shall refer to this order in any application or appeal which he may file with the Civilan Production Administration for priorities assistance or for authorization to carry on construction.

(c) Nothing contained in this order shall be deemed to relieve D. L. Boozer, his successors and assigns, from any restriction, prohibition or provision contained in any other order or regulation of the Civilian Production Administration, except insofar as the same may be inconsistent with the provisions hereof.

Issued this 20th day of January 1947.

[RMPR 194, Order A-5]

RETAILER'S MAXIMUM PRICES FOR RICE AND SUGAR

Pursuant to the provisions of section 18 (a) of RMPR 194, and regardless of any provision or provisions of RMPR 288, it is ordered:

SECTION 1. *Scope of this order.* (a) This order applies to all sales of rice and sugar in the localities specified in Tables I and II below, sold at retail in the Territory of Alaska.

(b) *Relationship of this order to Revised Maximum Price Regulation 194.* This order replaces the pricing provisions of sections 5 and 6 and modifies other provisions of RMPR 194. All other provisions of RMPR 194 not inconsistent with the provisions of this order remain in effect. All letters, letter orders and general orders previously issued under MPR 194 or RMPR 194, approving or establishing your maximum price for rice or sugar in these localities are hereby superseded.

SEC. 2. *How to figure your ceiling prices under this order.* (a) Your ceiling price for rice and sugar, provided you sell these commodities in the localities specified in Tables I or II, shall be your landed costs plus the lawful percentage margins expressed as division factors for these commodities as hereinafter set out in Tables I and II.

TABLE I—RICE

Bulk	Packaged	Brown
[1] $0.70	$0.75	$0.67

[1] One cent per lb. If packaged and sold by the retailer in cellophane bag may be added to the price otherwise established by this order. The cost to him, however, of the bags may not be included in "landed costs".

Ketchikan, Wrangell, Petersburg, Juneau, Douglas, Sitka, Skagway, Haines, Cordova, Valdez, Seward, Kodiak, Anchorage, Palmer and railroad points north of Anchorage and south of Fairbanks, Fairbanks, Nome and other west coast towns accessible by seagoing vessels and lighters.

TABLE II—SUGAR

	S. E. Alaska [1]	Gulf [2]	Kodiak	Nome [3]	Anchorage	Palmer [4]	Fairbanks [5]
1-lb. bulk	$0.75	$0.75	$0.78	$0.67	$0.75	$0.73	$0.88
1-lb. carton	.78	.74	.79	.67	.72	.73	.80
2-lb. carton or bag	.77	.76	.80	.68	.76	.74	.86
5-lb. bulk or bag	.82	.77	.81	.67	.81	.75	.88
10-lb. bulk or bag	.86	.79	.83	.71	.81	.77	.88
25-lb. bulk or bag	.86	.79	.83	.74	.81	.81	.89
100-lb	.87	.79	.83	.77	.85	.83	.89

[1] Applicable only to Ketchikan, Wrangell, Petersburg, Juneau, Douglas, Sitka, Skagway and Haines.
[2] Applicable only to Cordova, Valdez and Seward.
[3] Applicable to Nome and all other west coast towns accessible by seagoing vessels and lighters.
[4] Applicable to Palmer and all railroad points north of Anchorage and south of Fairbanks.
[5] Applicable to landed cost only as if incurred for carlot amounts.

SEC. 3. *Definitions.* "Landed costs" means cost at wholesale but no more than the applicable maximum wholesale price, plus shipping costs incurred by the retailer which shall include only wharfage and handling costs, ocean freight costs and sureharge thereon, the transportation tax of 3%, and war risk and marine insurance. It shall not include local drayage.

SEC. 4. *How a retailer should calculate his maximum prices under this order.* (a) Determine the lawful landed costs of purchase from a wholesaler.

(b) Divide the lawful landed costs by the appropriate division factor.

(c) The quotient is the maximum price.

EXAMPLE: If the landed costs in Haines for a 10 lb. bag of cane sugar refined are $0.96, and the appropriate division factor is 0.82, divide 0.82 into $0.96; the quotient is $1.17. The ceiling price is, then, $1.17.

SEC. 5. All prior regulations or orders fixing the price of rice and sugar shall remain in full force and effect for the purpose of enforcing the provisions thereof for any violations which occurred, or rights or liabilities which arose, before the effective date of this order.

In the opinion of the Administrator, this order will assure more effective price control, greater ease in pricing and permit the proper margins under section 2 (t) of the act.

This order shall become effective January 22, 1947.

Issued this 21st day of January 1947.

PHILIP B. FLEMING,
Temporary Controls Administrator.

STORAGE AND TERMINAL SERVICES; COLD STORAGE WAREHOUSING IN EASTERN WASHINGTON

For the reasons set forth in an opinion issued simultaneously herewith and under the authority vested in the Regional Administrator of the Office of Price Administration by section 8 (a) of Maximum Price Regulation No. 586 is amended as follows:

(1) Appendix B is amended to read as follows: "Yakima Area: Yakima, Benton, Klickitat and Skamania Counties, Washington." Maximum prices of cold storage warehousing services:

Item	*Maximum price*
Packed winter apples and pears:	*(per box)*
First month or fraction thereof	$0.16
Second month or fraction thereof	.06
Each succeeding month or fraction thereof up to May 1	.03
Each month or fraction of month thereafter	.05
	(Per ton)
Other cannery fruits and vegetables:	
Season through Sept. 30	$7.50
Each succeeding 15 days or fraction thereof (or at seller's option)	1.00
First 30 days	6.65
Each succeeding 15 days or fraction thereof	1.00

This amendment shall become effective as of November 8, 1946, except that it shall apply to sales made theretofore under Maximum Price Regulation No. 586.

Issued: January 10, 1947.

BEN C. DUNIWAY,
Regional Administrator.

Opinion Accompanying Amendment 1 to Order G-2 Under Maximum Price Regulation 586

The accompanying amendment clarifies and makes more certain the intention of Order No. G-2 as it was originally issued. The order as amended more clearly defines the scope of the order as covering the enumerated cold storage services in Yakima, Benton, Klickitat and Skamania Counties in the State of Washington. In Order No. G-2 the last two named counties were inadvertently omitted.

The second one concerns the optional rates for "other cannery fruits and vegetables." It was intended to continue the practice of permitting the buyer to charge an alternative rate at his option in those classes where the charges were formerly made on such a basis and not to authorize buyers to insist upon these rates in storage plants in other localities.

The order therefore accomplishes the original purpose intended by Order No. G-2 under Maximum Price Regulation No. 586.

Pursuant to the authority conferred under the Regional Administrator by General Order No. 75, issued by the Price Administrator November 25, 1946, and effective November 30, 1946, there is hereby delegated to the Directors of the Sugar Branch Offices in this Region IV, of the Office of Price Administration, all authority heretofore delegated by the Regional Administrator to District Offices, District Directors, District Sugar Rationing Representatives, or other District Office personnel concerning the receipt and processing of applications relating to sugar rationing and exercised pursuant to Third Revised Ration Order 3, Sugar; Revised General Ration Order 5, Food Rationing for Institutional Users, or Revised General Ration Order 18, Distribution of Bases to Certain Former Members of the Armed Forces, except as follows:

R-146—Application for Sugar Ration Book.

R-194—Consumer Replacement Application.

R-353—Application for a Temporary Sugar Ration, and except as modified by Ration Issuance Notifications Instructions, Sugar Branch Office, Revised November 25, 1946, or by instructions or delegations of authority hereafter issued by the Regional Sugar Executive.

This order shall be effective as of November 30, 1946.

Issued this 31st day of December 1946.

JAMES P. DAVIS,
Acting Regional Administrator.

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders)

PART 927—MILK IN THE NEW YORK METROPOLITAN MARKETING AREA

MISCELLANEOUS AMENDMENTS

Pursuant to the provisions of § 927.4 (b) of Order No. 27, as amended (7 CFR, 1945 Supp., 927.1 et seq.; 11 F. R. 11115), regulating the handling of milk in the New York metropolitan milk marketing area, and of the Administrative Procedure Act (60 Stat. 237), a public meeting was held at New York, N. Y., on December 11, 1946, to consider certain proposed amendments to the rules and regulations which were issued under said order, as amended, effective November 1, 1945 (7 CFR, 1945 Supp., 927—Appendix A). Following such meeting and on December 19, 1946, the market administrator of said order, as amended, issued the tentative amendment, set forth in Appendix A attached hereto and made a part hereof, to the aforesaid rules and regulations. Due consideration having been given to the data, views, and arguments presented at said public meeting, the aforesaid tentative amendment to the said rules and regulations is hereby approved and shall be effective on and after the 1st day of February 1947.

It is hereby found and determined that the effectuation of the terms and provisions of said order, as amended, requires that the tentative amendment become effective February 1, 1947, and that the publication of this approval and the tentative amendment in the FEDERAL REGISTER thirty days prior to said effective date, as provided in the Administrative Procedure Act, is impracticable, unnecessary, and contrary to the public interest.

The aforesaid tentative amendment will replace the temporary amendment to the said rules and regulations which was issued effective October 1, 1946 (11 F. R. 11266). Copies of the tentative amendment to the rules and regulations may be procured from the Market Administrator, 205 East 42d Street, New York, N. Y.

(48 Stat. 31, 670, 675; 49 Stat. 750; 50 Stat. 246; 7 U. S. C. 601 et seq.; 7 CFR, 1945 Supp., 927.1 et seq.)

Done at Washington, D. C., this 17th day of January 1947.

[SEAL] CLINTON P. ANDERSON,
Secretary of Agriculture.

Appendix A—Rules and Regulations Issued by Market Administrator

Amending rules and regulations which became effective on November 1, 1945 (7 CFR, 1945 Supp., 927—Appendix A.)

1. Delete paragraphs (q) and (r) of section 1 and insert, in lieu thereof, the following:

(q) "Other concentrated milk products" mean the products named and described as follows:

(1) Malted milk products, products which are made by combining milk or other products containing butterfat with liquid separated from mash of ground barley malt and wheat flour, with or without the addition of other products, and by removing water. They shall contain not more than 40 percent moisture and not more than 15 percent butterfat.

(2) Ice cream powder, the product containing milk solids, sugar (or other sweetening agent), and other ingredients, prepared for use in making frozen desserts. It shall contain not less than 26 percent butterfat and not more than 5 percent moisture.

(3) Sweetened, part skim, condensed milk, the product resulting from the evaporation of water from milk or plain condensed milk and the addition of sugar or other sweetening agent. It shall contain not less than 5 percent but less than 8 percent butterfat, not less than 28 percent total milk solids and not less than 38 percent sugar or equivalent sweetening agent. Other milk products may be added during the process of manufacture.

2. Delete the first sentence of section 3 and insert, in lieu thereof, the following: "As used in this section, the terms Class I-A, Class II-A, Class II-B, and Class V-A are deemed to exclude any such classification based on some product leaving or on hand at the plant in some form other than milk, cream, plain condensed milk, frozen desserts or homogenized mixtures, skim milk, or other than cultured or flavored milk drinks shipped to or distributed in the marketing area."

PART 975—MILK IN THE CLEVELAND, OHIO, MARKETING AREA [1]

ORDER SUSPENDING CERTAIN PROVISIONS

Pursuant to the applicable provisions of Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 1940 ed. 601 et seq.), hereinafter referred to as the "act," and of the order regulating the handling of milk in the Cleveland, Ohio, marketing area, hereinafter referred to as the "order," it is hereby found and determined that § 975.6 (d) (3) of such order does not tend to effectuate the declared policy of the act.

It is hereby further found and determined that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong., 60 Stat. 237) in connection with the issuance hereof is impracticable, unnecessary, and contrary to the public interest, in that (1) the information upon which this action is based did not become available in sufficient time for such compliance; and (2) the issuance of this suspension order effective as specified below is necessary to the effectuation of the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended.

It is therefore ordered, That paragraph (d) (3) of § 975.6 *Minimum prices* of the order be and it hereby is suspended effective at 12:01 a. m., e. s. t., January 20, 1947.

Chapter XI—Production and Marketing Administration (War Food Distribution Orders)

[WFO 63, Amdt. 6]

PART 1596—FOOD IMPORTS

RESTRICTIONS ON IMPORTS OF CERTAIN FOODS

War Food Order No. 63, as amended (10 F. R. 8950; 11 F. R. 2630, 8828), is further amended to read as follows:

§ 1596.1 *Food imports*—(a) *Definitions.* (1) "Consignee" means the person to whom a food is consigned at the time of importation.

(2) "Administrator" means the Administrator of Production and Marketing Administration, United States Department of Agriculture.

(3) "Food" means an item or commodity listed from time to time in Appendix A as being subject to this section.

(4) "Governing date" with respect to any food means the date when such food first became subject to War Food Order No. 63 as shown in Appendix A.

(5) "Import" means to transport in any manner into the continental United States, Puerto Rico, the Virgin Islands, or any territory or insular possession of the United States from any foreign country or from any territory or possession of the United States. It includes shipments into a free port, free zone, or bonded custody of the United States Bureau of Customs (bonded warehouse) in the continental United States, Puerto Rico, or the Virgin Islands and shipments in bond into the continental United States, Puerto Rico, or the Virgin Islands for transshipment into Canada, Mexico, or any other foreign country.

(6) "In transit" means that food (i) is afloat, (ii) has had an on-board ocean bill of lading actually issued with respect to it, or (iii) has actually been delivered to and accepted by a rail, truck, or air carrier, for transportation to a point within the continental United States, Puerto Rico, or the Virgin Islands.

(7) "Owner" of any food means any person who has any property interest in such food except a person whose interest is held solely as a security for the payment of money.

(8) "Person" means any individual, partnership, association, business trust, corporation, or any organized group of persons, whether or not incorporated.

(b) *Restrictions on imports*—(1) *General restriction.* No person, except as authorized in writing by the Administrator, shall import, purchase for import, receive or offer to receive on consignment for import, or make any contract or other arrangement for the importing of any food listed in Appendix A to this section after the governing date. The foregoing restrictions shall apply to the importation of any food listed in Appendix A regardless of the existence on the governing date or thereafter of any contract or other arrangement for the importation of such food.

In the issuance of authorizations, the Administrator shall act in accordance with the standards and guides set forth in paragraph (e) of this section.

(2) *Application for authorization.* Any person desiring such authorization, whether owner, purchaser, seller, or consignee of the food to be imported, or agent of any of them, shall make application therefor on Form WFO–63–2 or such other form as may be issued for this purpose by the Administrator, addressed to the Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C. Ref: WFO 63. Unless otherwise expressly permitted, such authorization shall apply only to the particular food and shipment mentioned therein and to the persons and their agents concerned with such shipment. Such authorizations shall not be assignable or transferable either in whole or in part, except as authorized in writing by the Administrator.

(3) *Restrictions on financing.* No bank or other person shall participate, by financing or otherwise, in any arrangement which such bank or person knows or has reason to know involves the importation after the governing date of any food subject to this section, unless such

bank or person either has received a copy of the authorization by the Administrator under the provisions of paragraph (b) (2) of this section or is satisfied from known facts that the proposed transaction comes wtihin the exceptions set forth in paragraphs (b) (4) and (b) (5) of this section.

(4) *Exceptions.* Unless otherwise directed by the Administrator the restrictions set forth in this paragraph shall not apply:

(i) To any United States Governmental department, agency, or corporation, or any agent acting for any such department, agency, or corporation; or

(ii) To food of which any United States Governmental department, agency, or corporation is the owner at the time of importation, or to any food which any United States Governmental department, agency, or corporation sells or otherwise transfers to a person at the time of importation; or

(iii) To food which on the governing date was in transit; or

(iv) To food consigned or imported as a sample where the value of each consignment or shipment is less than $25.00; or

(v) To food consigned as a gift or imported for personal use where the value of each consignment or shipment is less than $100.00; or

(vi) To food consigned as gifts for personal use by or to members of the Armed Services of the United States; or

(vii) To food grown, produced, or manufactured in the continental United States, or food imported into the United States, which, after being shipped outside the continental United States for storage only, is returned to the United States; or

(viii) To food shipped into the United States in transit from one point in Mexico to another point in Mexico, or from one point in Canada to another point in Canada; or

(ix) To food which is located in, and which has been grown, produced, or manufactured in Canada, Mexico, Guatemala, or El Salvador and transported therefrom into the continental United States overland, by air, or by inland waterway. This exception shall not, however, extend to food which is marked with the designation (1) in Appendix A.

(x) To food produced in the territories of Alaska and Hawaii or insular possessions of the United States, provided each shipment is accompanied by a certificate issued by a duly designated officer of the Department of Agriculture specifically excepting such shipment.

(5) *Imports into Puerto Rico and the Virgin Islands.* (i) The restrictions of this section:

(*a*) Shall not apply to inter-island shipments of food between Puerto Rico and the Virgin Islands;

(*b*) Shall not apply to imports of food into Puerto Rico or the Virgin Islands from the continental United States;

(*c*) Shall apply to any shipment of food listed in Appendix A which originates in a foreign country and simply passes through the continental United States en route to Puerto Rico or the Virgin Islands; and

(*d*) Except as provided in subdivision (c) of this subdivision, shall apply to imports into Puerto Rico or the Virgin Islands only with respect to food which is marked with the designation (2) in Appendix A.

(ii) This section shall not affect any regulations now or hereafter issued by any governmental authority covering shipments of food from the continental United States to Puerto Rico and the Virgin Islands.

(c) *Restrictions after importation.* Unless otherwise provided by the terms of the authorization (or amendments thereof) issued pursuant to paragraph (b) (2) of this section, any food which is imported in accordance with the provisions of this section after the governing date, may be sold, delivered, processed, consumed, purchased, or received without restriction under this section; but all such transactions shall be subject to all applicable provisions of the regulations, orders, and directions of the United States Department of Agriculture which now or hereafter may be in effect with respect to such food.

(d) *Change of commodities listed in Appendix A.* The Administrator may from time to time add or remove commodities from Appendix A; *Provided,* That, in so doing he shall follow the standards and guides set forth in paragraph (e) of this section.

(e) *Standards and guides.* In the issuance of authorizations, and in the addition or removal of commodities from Appendix A to this section, the Administrator shall follow these standards and guides;

(1) He shall be satisfied that in the absence of such action the fulfillment of requirements for the defense of the United States will result in a shortage in the supply of materials or facilities for defense or for private account or for export;

(2) He shall take into consideration the following factors: the allocation, if any, of such food by the International Emergency Food Council; the effect of the importation of such food on the procurement of strategic materials; the availability of shipping facilities for the importation of such food; and

(3) In the issuance of authorizations, the Administrator shall allocate the authorizations granted by him on a fair and equitable basis among different groups of applicants and among applicants within the same group.

(f) *Records and reports*—(1) *Reports on customs entry.* No food which is imported after the governing date, including food imported by or for the account of any United States Governmental department, agency, or corporation, shall be entered through the United States Bureau of Customs for any purpose, whether for consumption, for warehouse, in transit, in bond, for re-export, for appraisal, or otherwise, unless the person making the entry shall file in duplicate with the entry Form WFO 63-1. The filing of such form a second time shall not be required upon any subsequent entry of such food through the United States Bureau of Customs for any purpose; nor shall the filing of such form be required upon the withdrawal of any food from bonded custody of the United States Bureau of Customs, regardless of the date when such food was first transported into the continental United States. Both copies of such form shall be transmitted by the Collector of Customs to the Administrator, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C., Ref: WFO 63.

(2) *Records and other reports.* The Administrator shall be entitled to obtain such information from, and require such reports and the keeping of such records by, any person as may be necessary or appropriate, in the Administrator's discretion, in the enforcement or administration of the provisions of this section.

(g) *Audits and inspections.* The Administrator shall be entitled to make such audits or inspection of the books, records, and other writings, premises, or stocks of imported foods of any person, and to make such investigations as may be necessary or appropriate, in his discretion, to the enforcement or administration of the provisions of this section.

(h) *Communications.* All reports required to be filed hereunder and all communications concerning this section shall, unless instructions to the contrary are issued by the Administrator, be addressed to the Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C. Ref.: WFO 63.

(i) *Revocation.* Any import authorization issued hereunder may be revoked at any time by the Administrator. Such revocation shall not affect food in transit at the time of revocation.

(j) *Petition for relief from hardship.* Any person affected by this section who considers that compliance herewith would work an exceptional or unreasonable hardship on him may file a petition for relief with the Order Administrator. Petitions shall be in writing and shall set forth all pertinent facts and the nature of the relief sought. The Order Administrator may take any action with reference to such petition which is consistent with the authority delegated to him by the Administrator. If the petitioner is dissatisfied with the action taken by the Order Administrator, he may, by request addressed to the Order Administrator, obtain a review of such action by the Administrator. After said review, the Administrator may take such action as he deems appropriate, which action shall be final.

(k) *Violations.* Any person who violates any provision of this section may, in accordance with the applicable procedure, be prohibited from receiving, making deliveries of, or using any food covered by this section which is subject to allocations or priority control by the Secretary of Agriculture. In addition, any person who wilfully violates any provision of this section is guilty of a crime, and may be prosecuted under any or all applicable laws. Civil action may also be instituted to enforce any liability or duty created by, or to enjoin any violation of, any provision of this section. The Administrator may direct the disposition and use of any food which is imported without authorization as required by paragraph (b) of this section.

(l) *Delegation of authority.* The administration of this section and the powers vested in the Secretary of Agriculture insofar as such powers relate to the administration of this section are hereby delegated to the Administrator. The Administrator is authorized to redelegate to any employee of the United States Department of Agriculture any or all of the authority vested in him by this section.

(m) *Effect on liability of removal of food from order.* The removal of any food from this section shall not be construed to affect in any way any liability for violations of this section which accrued or were incurred prior to the date of removal.

(n) *Effective date.* This amendment shall become effective at 12:01 a. m., e. s. t., January 21, 1947. With respect to violations, rights accrued, liabilities incurred, or appeals taken prior to said date, under War Food Order No. 63, as amended, all provisions of said order shall be deemed to remain in full force for the purpose of sustaining any proper suit, action or other proceeding with respect to any such violation, right, liability or appeal.

NOTE: All reporting requirements of this order have been approved by, and subsequent reporting and record-keeping requirements will be subject to the approval of, the Bureau of the Budget, in accordance with the Federal Reports Act of 1942.

(E. O. 9280, December 5, 1942, 3 CFR Cum. Supp., E. O. 9577, June 29, 1945, 3 CFR 1945 Supp.)

Issued this 17th day of January, 1947.

[SEAL] CLINTON P. ANDERSON,
Secretary of Agriculture.

TITLE 14—CIVIL AVIATION

Chapter II—Administrator of Civil Aeronautics, Department of Commerce

PART 510—GENERAL REGULATIONS OF WASHINGTON NATIONAL AIRPORT

This part of the regulations of the Administrator of Civil Aeronautics was originally made effective on September 26, 1941. Since that date the Washington National Airport has undergone some physical alterations and has experienced an increased volume of air traffic and of other aviation activity. Because of these reasons and due to experiences gained in operating this airport since September 26, 1941, it has become necessary to revise this part by alteration, rewording and rearrangement of certain sections, and by making a few minor changes in substance. This part, as now revised, including such alterations, rewording, rearrangement, and changes, was submitted to and discussed with interested persons at an informal public hearing held for that purpose, notice of which (hearing) was published in the FEDERAL REGISTER. All data, views and arguments, oral and written, submitted by interested persons pursuant to such notice or at such public hearing were considered in this revision of Part 510.

Now, therefore, acting pursuant to the authority vested in me by act to provide for the administration of the Washington National Airport (54 Stat. 686–688), I hereby revised Part 510 of the regulations of the Administrator of Civil Aeronautics to read as follows:

The purpose of Part 510 of the regulations of the Administrator of Civil Aeronautics is to establish and adopt general rules and regulations for the care, operation, maintenance, and protection of the Washington National Airport.

AUTHORITY: §§ 510.1 to 510.9, inclusive, issued under sec. 2, 54 Stat. 688.

§ 510.1 *Definitions.* (a) "Airport" means the Washington National Airport. (b) "Administrator" means the Administrator of Civil Aeronautics.

(c) "Airport Administrator" means the Airport Administrator appointed by the Administrator of Civil Aeronautics to govern, superintend, control, and protect the Washington National Airport.

(d) "Person" means any individual, firm, copartnership, corporation, company, association, joint-stock association, or body political; and includes any trustee, receiver, assignee, or other similar representative thereof.

(e) "Board" means Civil Aeronautics Board.

§ 510.2 *General rules and regulations.*

§ 510.20 *Airport administrator.* All persons on any part of the property comprising the airport shall be governed by the regulations prescribed in this part and by orders and instructions of the Airport Administrator relative to the use or occupation of any part of the property comprising the airport.

§ 510.21 *Restricted areas.* No person shall enter any restricted areas posted as being closed to the public except upon written permission of the Airport Administrator.

§ 510.210 *Particular areas.* No person shall enter upon the levy road, landing field, runways, taxi-strips, ground floor of the Terminal Building, nor enter the Control Tower, mirador room, third floor offices of the Terminal Building, any hangar, or the apron of the airport except:

(a) Persons assigned to duty therein;

(b) Authorized representatives of the Administrator, or the Board;

(c) Persons authorized by the Airport Administrator;

(d) Passengers under appropriate supervision, entering the apron for the purpose of embarkation and debarkation.

§ 510.22 *Observation terrace and balcony.* No person shall throw paper, cigars, cigarettes, bottles, or any other material from the Observation Terrace, Observation Balcony, or any other balcony in the Terminal Building.

§ 510.23 *Conduct of business or commercial activity.* No person shall engage in any business or commercial activity of any nature whatsoever on the airport except with the approval of the Administrator or Airport Administrator, and under such terms and conditions as may be prescribed.

§ 510.230 *Soliciting.* No person shall solicit funds for any purpose on the airport without the permission of the Airport Administrator.

§ 510.231 *Taxicabs.* No person shall operate any taxicab carrying passengers for hire from the airport unless such operation is with the approval of the Administrator and under such terms and conditions as he may prescribe.

§ 510.232 *Advertisements.* No person shall post, distribute, or display signs, advertisements, circulars, printed or written matter at the airport except with the approval of the Administrator and in such manner as he may prescribe.

§ 510.24 *Commercial photography.* No person shall take still, motion, or sound pictures for commercial purposes on the airport without permission of the Administrator except that the following persons may take pictures for commercial purposes with permission of the Airport Administrator only:

(a) Professional photographers and motion picture cameramen taking scenes of events in the airport as representatives of news concerns and bona fide news publications.

(b) Professional photographers and motion picture cameramen taking scenes of events in the airport, for nonprofit exhibits, for the purpose of stimulating general interest in air commerce or travel.

(c) Professional photographers and motion picture cameramen taking scenes of events in the airport for nonprofit educational purposes.

(d) Professional photographers taking scenes in the airport for general artistic purposes.

§ 510.25 *Use of roads and walks.* (a) No person shall travel on the airport other than on the roads, walks or places provided for the particular class of traffic.

(b) No person shall occupy the roads or walks in such manner as to hinder or obstruct their proper use.

(c) No person shall operate any type of vehicle for the disposal of garbage, ashes or other waste material on the airport without the approval of the Airport Administrator.

§ 510.26 *Dogs.* No person shall enter the Terminal Building or landing area of the airport with a dog or other animal except that seeing-eye dogs may be permitted in the Terminal Building for appropriate purposes, and where dogs are to be transported by air and are restrained by leash or properly confined. Dogs and other animals may be permitted in other areas of the airport if restrained by leash or confined in such manner as to be under control.

§ 510.27 *Lost articles.* Any person finding lost articles shall deposit them at the office of the Airport Administrator. Articles unclaimed within 60 days may be turned over to the finders thereof.

§ 510.3 *Motor vehicle regulations.*

§ 510.30 *General.* No person shall operate any motor vehicle on the airport otherwise than in accordance with the general rules prescribed by the Airport Administrator for the control of such vehicles, except when given special instructions by authorized employees of the airport, or in cases of emergency involving danger to life or property.

§ 510.31 *Motorized equipment.* No person shall operate any motorized equipment on the apron of the Terminal Building or anywhere on the aircraft landing area or levy road or in the inner-baggage tractor concourse of the Terminal Building except:

(a) Persons assigned to duty thereon and who have been issued an operator's certificate by the Airport Administrator;

(b) Persons specifically authorized by the Airport Administrator.

§ 510.32 *Operator's certificate.* No person shall operate motorized equipment of any kind on the roadways of the airport unless possessed of a valid operator's license issued by some legal political jurisdiction or by the Airport Administrator. No person shall operate motorized equipment of the CAA other than aircraft on the airport unless possessed of a valid CAA Operator's Certificate.

§ 510.33 *Speed.* (a) No person shall operate a motor vehicle of any kind on the roadways of the airport in excess of the speed limits prescribed by the Airport Administrator and indicated by posted traffic signs. Motor vehicles shall be so operated as to be under safe control at all times, weather and traffic conditions considered. No person shall operate a motor vehicle of any kind on the apron of the airport in excess of 25 miles per hour. No person shall operate a motor vehicle of any kind in the inner-baggage concourse at a speed greater than 6 miles per hour.

§ 510.34 *Operation rules.* (a) Any person operating a vehicle travelling slowly on any road in the airport, when overtaken by a faster moving vehicle, and upon suitable signal from such overtaking vehicle, shall move to the right to allow safe passage.

(b) Pedestrians within pedestrian lane markings shall have the right-of-way over vehicular traffic.

(c) No person shall operate a vehicle following another vehicle on the airport closer than 15 feet to the preceding vehicle.

(d) No person shall sound a motor vehicle horn except as a warning signal.

(e) No person shall cause or permit a motor vehicle under his control to obstruct traffic by making right or left turns from the wrong traffic lane or by weaving in and out of traffic or in any other improper manner.

(f) No person operating a motor vehicle on the airport shall fail to give proper hand signals. The following signals shall be given by extending the hand and arm from the left side in the following manner:

(1) *Left turn.* The hand and arm shall be extended horizontally.

(2) *Right turn.* The hand and arm shall be extended upward.

(3) *Stop or decrease speed.* The hand and arm shall be extended downward: *Provided, however,* That in lieu of such hand signals, signals may be given by a signal lamp or a signal device which conveys an intelligible warning to another driver approaching from the front or rear.

(g) No person shall operate a motor vehicle on the airport contrary to the directions of posted traffic signs.

(h) No person under the influence of liquor or narcotic drugs shall operate a motor vehicle or aircraft of any kind on the airport.

(i) No person shall operate any motor vehicle on the airport overloaded or carrying more passengers than that for which the vehicles were designed. Riding on the running board, standing up in the body of moving vehicles, riding on the outside of the body of a vehicle, or with arms or legs protruding from the body of motor vehicles are prohibited.

§ 510.35 *Accident reports.* All persons involved in any accidents on the airport and all witnesses thereto shall make a full report thereof to the Airport Administrator or to the nearest airport guard or police officer as soon after the accident as possible, together with their names and addresses.

§ 510.36 *Parking.* No person shall park a motor vehicle on the airport other than in areas specifically established for parking and in the manner prescribed by the Airport Administrator. No person shall abandon or park as dead storage any motor vehicle on the airport. No person shall park any motor vehicle in excess of the time limit prescribed by the Airport Administrator, nor in restricted or reserved areas unless authorized to do so.

§ 510.37 *Motor vehicle lights.* All motor vehicles, except motorcycles, shall be equipped with two headlights and one or more red tail lights, the headlights to be of sufficient brilliance to assure safety in driving at night, and all lights shall be kept lighted after sunset when the vehicle is on any roadway of the airport, and at all times when passing through unlighted tunnels. Headlights shall be dimmed when meeting other vehicles or pedestrians.

§ 510.38 *Repair of motor vehicles.* No person shall clean or make any repairs to motor vehicles on the roadways or in the parking areas of the airport except those minor repairs necessary to remove such motor vehicle from the airport unless authorized by the Airport Administrator, nor shall any person move, interfere, or tamper with any motor vehicle, or put in motion the engine, or take, or use any motor vehicle part, instrument, or tool thereof, without the permission of the owner or satisfactory evidence of the right to do so duly presented to the Airport Administrator.

§ 510.39 *Buses.* No carrier by motor bus for hire shall load or unload passengers at the airport at any place other than that designated by the Airport Administrator.

§ 510.4 *General rules of conduct.*

§ 510.40 *Disorderly conduct.* No person shall commit any disorderly, obscene or indecent act or commit any act of nuisance on the airport.

§ 510.41 *Gambling.* No person shall engage in or conduct gambling in any form or operate gambling devices anywhere on the airport.

§ 510.42 *Sanitation.* (a) No person shall dispose of garbage, papers, or refuse or other material on the airport except in the receptacles provided for that purpose.

(b) No person shall use a comfort station other than in a clean an sanitary manner.

§ 510.43 *Preservation of property.* No person shall: (a) Destroy, injure, deface or disturb in any way any building, sign, equipment, marker, or other structure, tree, flower, lawn or other public property on the airport.

(b) Trespass on lawns and seeded areas on the airport.

(c) Abandon any personal property on the airport.

§ 510.44 *Airport and equipment.* No person shall interfere with, tamper with or injure any part of the airport or any of the equipment thereof.

§ 510.45 *Weapons, explosives and inflammable material.* (a) No persons except peace officers, duly authorized post office, airport, and air carrier employees or members of the armed forces of the United States on official duty shall carry any weapons, explosives, or inflammable material on the airport without the written permission of the Airport Administrator.

(b) All persons other than the excepted classes shall surrender all such

objects in their possession to the first officer or guard on the airport.

(c) The Government and the Airport Administrator assume no responsibility for the loss or damage to any such objects so surrendered to the airport guard or officer.

§ 510.5 *Fire hazards.*

§ 510.50 *Cleaning of aircraft.* No person shall use inflammable volatile liquids in the cleaning of aircraft, aircraft engines, propellers, and appliances unless such cleaning operations are conducted in open air, or in a room specifically set aside for that purpose, which room must be properly fireproofed and equipped with adequate and readily accessible fire extinguishing apparatus.

§ 510.51 *Open flame operations.* No person shall conduct any open flame operation in any hangar, or on the airport grounds, or part thereof unless specifically authorized by the Airport Administrator.

§ 510.52 *Storage.* No person shall store or stock material or equipment on the airport in such manner as to constitute a fire hazard.

§ 510.520 *Storage of inflammable material.* No person shall keep or store any inflammable liquids, gases, signal flares or other similar material in the hangars or in any building on the airport: *Provided*, That such materials may be kept in an aircraft in the proper receptacles installed in the aircraft for such purpose, or in rooms or areas specifically approved for such storage by the Airport Administrator.

§ 510.521 *Lubricating oils.* No person shall keep or store lubricating oils in or about the hangars: *Provided*, That such material may be kept in aircraft in the proper receptacles installed in the aircraft for such purpose or in containers provided with suitable draw-off devices.

§ 510.522 *Waste.* Lessees of hangars shall provide suitable metal receptacles with self-closing covers for the storage of oily wastes, rags, and other rubbish. All such waste shall be removed by the lessees daily.

§ 510.53 *Smoking.* No person shall smoke in any hangar or shop or in any building, room, or place on the airport where it is specifically prohibited by the Airport Administrator.

§ 510.54 *Cleaning fluid.* No person shall use volatile inflammable substances for cleaning floors in the hangars or in other buildings of the airport.

§ 510.55 *Floor care.* All lessees on the airport shall keep the floors of the hangars and hangar and terminal apron pits and areas adjacent thereto, leased by them respectively, free and clear of oil, grease and other inflammable material.

§ 510.56 *Doping.* "Doping" processes shall be conducted only in properly designed, fireproofed and ventilated rooms or buildings in which:

(a) All illumination, wiring, heating, ventilation equipment, switches, outlets, and fixtures shall be sparkproof and vaporproof and;

(b) All windows and doors shall open easily;

(c) No person shall enter or work in a "dope" room while "doping" processes are being conducted unless such person wears sparkproof shoes.

§ 510.57 *Fueling operations.* The following rules govern the draining and fueling of aircraft:

(a) No aircraft shall be fueled or drained while the engine is running, or being warmed by applications of exterior heat, or while such aircraft is in a hangar or enclosed space.

(b) No smoking shall be permitted within 100 feet of an aircraft being fueled or drained.

(c) No person shall operate any radio transmitter or receiver, or switch electrical appliances off or on in an aircraft during fueling or draining.

(d) During refueling the aircraft and the fueling dispensing apparatus shall both be grounded to a point or points of zero electrical potential.

(e) Persons engaged in the fueling and draining of aircraft shall exercise care to prevent overflow of fuel.

(f) No passenger shall be permitted in any aircraft during fueling unless a cabin attendant is present at or near the cabin door.

(g) Only personnel engaged in the fueling, maintenance, and operation of an aircraft shall be permitted within 100 feet of such aircraft during any such operation.

(h) No person shall use any material during fueling or draining of aircraft which is likely to cause a static spark.

(i) Adequate fire extinguishers shall be within ready reach of all fueling and draining operations.

(j) No person shall start the engine of any aircraft when there is any gasoline on the ground under such aircraft.

(k) Fueling hoses and draining equipment shall be maintained in a safe, sound, and non-leaking condition.

(l) All hoses, funnels, and appurtenances used in fueling and draining operations shall be equipped with a grounding device to prevent ignition of volatile liquids.

(m) The fueling and draining of aircraft shall be conducted at least 50 feet from any hangar or other building.

§ 510.58 *Radio operation.* No person shall operate any radio equipment in any aircraft when such aircraft is in a hangar.

§ 510.7 *Motor vehicle operation in hangar.* No person shall operate a tractor in any hangar unless the tractor exhaust is protected by screens or baffles to prevent the escape of sparks or the propagation of flame. Motor scooters, trucks, and other motor vehicles shall not be operated in any hangar proper at any time.

§ 510.8 *Obligations of tenants.*

§ 510.80 *Signs and bulletin boards.* The lessees of hangars shall maintain a bulletin board in a conspicuous place for the purpose of posting any and all notices issued by the Administrator and his representatives.

§ 510.81 *Workmen's compensation.* The lessees of hangars shall post on the bulletin board workmen's compensation notices, lists of competent physicians, and names of liability insurance carriers.

§ 510.82 *First aid equipment.* All tenants or lessees of hangars or shop facilities on the airport shall provide in such hangars or shops conveniently accessible first aid kits approved by the Airport Administrator.

§ 510.83 *Storage of equipment.* No tenant or lessee of any hangar or shop facility on the airport shall store or stack material or equipment in such a manner as to constitute a hazard to personnel or property.

§ 510.84 *Fire apparatus.* All tenants or lessees of hangars or shop facilities shall supply and maintain such adequate and readily accessible fire extinguishers and fire equipment and provide for such periodic fire drills as the Airport Administrator may prescribe.

§ 510.9 *Penalties.* Any person who violates any rule or regulation prescribed herein, or any order or instruction issued by the Airport Administrator authorized herein, may be removed or ejected from the airport by the Airport Administrator and his representatives and may be deprived of the further use of the airport and its facilities for such time as may be necessary to insure the safety of the airport and the public.

This part as revised herein shall become effective February 25, 1947.

[SEAL] T. P. WRIGHT,
Administrator of Civil Aeronautics.

PART 511—AERONAUTICAL RULES FOR THE WASHINGTON NATIONAL AIRPORT

This part of the regulations of the Administrator of Civil Aeronautics was originally made effective on September 26, 1941. Since that time the Washington National Airport has experienced an increased volume of air traffic. Because of the increased air traffic and due to experience gained in operating this airport since September 26, 1941, it has become necessary to revise this part by the alteration, rewording and rearrangement of certain sections, and by making a few minor changes in substance. This part, as now revised, including such alterations, rewording, rearrangement, and changes, was submitted to and discussed with interested persons at an informal public hearing held for that purpose, notice of which (hearing) was published in the FEDERAL REGISTER. All data, views and arguments, oral and written, submitted by interested persons pursuant to such notice or at such public hearing were considered in this revision of Part 511.

Now, therefore, acting pursuant to the authority vested in me by act to provide

for the administration of the Washington National Airport (54 Stat. 686–688), I hereby revise Part 511 of the regulations of the Administrator of Civil Aeronautics to read as follows:

The purpose of Part 511 of the regulations of the Administrator of Civil Aeronautics is to establish and adopt aeronautical rules for the care, operation, maintenance and protection of the Washington National Airport and for the safety of all persons who make use thereof.

Sec.
511.1 General aeronautical rules.
511.10 Definitions.
511.2 Radio contact.
511.20 Report of arrival.
511.3 Aircraft operation rules.
511.4 Aircraft equipment rules.
511.5 Landing area.
511.6 Taxying rules.
511.7 Landing and take-off rules.
511.8 Visual signal procedures.
511.9 Penalties.

AUTHORITY: §§ 511.1 to 511.9 inclusive, issued under sec. 2, 54 Stat. 688.

§ 511.1 *General aeronautical rules.* All aeronautical activities at the Washington National Airport, and all flying of aircraft departing from or arriving at the Washington National Airport, in the airspace which constitutes the control zone of the Washington National Airport, shall be conducted in conformity with the current pertinent provisions of the Civil Air Regulations and orders issued by the Airport Administrator or air-traffic control-tower operator, not in conflict with the said regulations.

§ 511.10 *Definitions.* The term "person" means any individual, firm, copartnership, corporation, company, association, joint-stock association, or body politic; and includes any trustee, receiver, assignee, or other similar representative thereof.

§ 511.2 *Radio contact.* (a) Radio contacts between pilots of aircraft and airtraffic control-tower operators shall be conducted in accordance with the procedures and by means of the phraseologies prescribed by the Administrator of Civil Aeronautics whenever practicable.

(b) Pilots of outbound aircraft equipped with functioning two-way radio shall not taxi or take off without a control tower clearance.

(c) Pilots of aircraft not equipped with functioning two-way radio shall not land, taxi, or take off without a clearance by radio or light signal: *Provided, however*, That this shall not prohibit sufficient movement of an outbound aircraft not equipped with a functioning transmitter to attract the attention of the control-tower operator.

§ 511.20 *Report of arrival.* Unless impracticable because of weather conditions or unless Airway Traffic Control instructions preclude such action, pilots of inbound aircraft equipped with functioning two-way radio shall report at or near a contact reporting point and as they enter the airport zone.

§ 511.3 *Aircraft operation rules.* (a) Aircraft operations shall be confined to hard surfaced areas. Taxi strips shall not be used for take-offs or landings.

(b) *Parking of aircraft.* No person shall park aircraft in any area on the Airport other than that prescribed by the Airport Administrator or his authorized representative.

(c) *Payment.* Payment for use of Airport facilities, storage, repairs, supplies, or other service rendered by the Airport shall be made before flight clearance will be granted unless satisfactory credit arrangements have been made with the Airport Administrator.

(d) *Disabled aircraft.* Aircraft owners, their pilot, or agent, shall be responsible for the prompt disposal of disabled aircraft and parts thereof unless required or directed to delay such action pending an investigation of an accident.

(e) *Accident reports.* Witnesses of and participants in accidents on or within the environs of the Airport shall make a full report thereof to the Airport Administrator as soon after an accident as possible, together with their names and addresses.

(f) *Refusal of clearance.* The Airport Administrator may delay or restrict any flight or other operations at the Airport and may refuse take-off clearance to any aircraft for any reason he believes justifiable.

§ 511.4 *Aircraft equipment rules.* (a) No aircraft shall be operated on the Washington National Airport unless it is equipped with two-way radio, tail or nose wheel, and wheel brakes.

(b) *Interfering and tampering with aircraft.* No person shall interfere or tamper with any aircraft or put in motion the engine of such aircraft, or use any aircraft, aircraft parts, instruments or tools without permission of the owner, or satisfactory evidence of the right to do so presented to the Airport Administrator.

(c) *Repairing of aircraft.* No aircraft, aircraft engines, propellers, and apparatus shall be repaired in any area of the Airport other than that specifically designated by the Airport Administrator.

§ 511.5 *Landing area.* The Anacostia Naval Air Station, Bolling Field, and the Washington National Airport shall be regarded as one landing area in observing the circling requirements of the Civil Air Regulations.

§ 511.6 *Taxying rules.* (a) No person shall taxi an aircraft to or from the hangar line or to or from an approved parking space until he has ascertained that there will be no danger of collision with any person or object in the immediate area by visual inspection of the area and, when available, through information furnished by airport attendants.

(b) No aircraft shall be taxied except at a safe and reasonable speed.

(c) Pilots shall not taxi onto or across runway in use until specifically cleared to do so by radio or visual signal.

(d) No aircraft not equipped with adequate brakes shall be taxied near buildings or parked aircraft unless an attendant is at the wing of the aircraft to assist the pilot.

(e) Aircraft shall be taxied in accordance with the taxying patterns prescribed when any particular runway is in use.

(f) No person shall start or run any engine in aircraft, unless a competent person is in the aircraft attending the engine controls. Blocks shall always be placed in front of the wheels before starting the engine or engines, unless the aircraft is provided with adequate parking brakes.

§ 511.7 *Landing and take-off rules.* (a) Landings and take-offs shall be made on the runway according to the direction given by the Control Tower.

(b) No landing or take-off shall be made except at a safe distance from buildings and aircraft.

(c) Aircraft landing or taking off shall conform to the air traffic pattern published jointly by the Anacostia Naval Air Station, Bolling Field and the Washington National Airport.

§ 511.8 *Visual signal procedures.* (a) Visual signal procedures prescribed by the Administrator of Civil Aeronautics shall be observed.

(b) To an aircraft approaching for a landing, (1) An illuminated red cross at the end of a runway shall mean: "Runway Not Clear For Landing."

(2) An illuminated green arrow shall mean: "Runway To Be Used In Direction Of Arrow."

(c) To an aircraft on the ground (1) A red light at the take-off end of the runway in use shall mean: "Do Not Taxi Onto Runway."

(2) A red light at far end of runway in use shall mean: "Hold, Do Not Take Off."

(3) A green light at take-off end of a runway in use shall mean: "Cleared To Take Off."

(4) A green flush light at junction of taxi lane and runway shall mean: "Cleared To Taxi."

(5) A red flush light at any junction shall mean: "Do Not Taxi Beyond This Point."

§ 511.9 *Penalties.* In addition to penalties otherwise provided, any person operating or handling any aircraft in violation of the regulations in this part, or refusing to comply therewith, may promptly be removed or ejected from the airport by or under the authority of the Airport Administrator and upon the order of the Airport Administrator, may be deprived of the further use of the airport and its facilities for such length of time as may be required to insure the safeguarding of the same and the public and its interest therein.

This part as revised herein shall become effective February 25, 1947.

[SEAL] T. P. WRIGHT,
Administrator of Civil Aeronautics.

TITLE 20—EMPLOYEES' BENEFITS

Chapter II—Railroad Retirement Board

MISCELLANEOUS AMENDMENTS

Pursuant to the general authority contained in section 10 of the act of June 24, 1937 (Sec. 10, 50 Stat. 314; 45 U. S. C. 228j), Part 265 of the Regulations of the Railroad Retirement Board under such act (4 F. R. 1477) is repealed; and Part 220, §§ 220.2, 220.3 (a), (b), (d), and (h), Part 222, §§ 222.1, 222.2, 222.3, and 222.4, Part 225, §§ 225.3 (a) and (b), 225.5, 225.6, 225.7, 225.8, 225.9 and 225.10, Part 230, § 230.1, Part 235, §§ 235.1, 235.2, 235.3, and 235.4, Part 236 and Part 250, § 250.3 (4 F. R. 1477, 6 F. R. 298, 7 F. R. 2211) are revised, and Part 230, § 230.15, Part 234, and Part 235, § 235.9, are adopted, by Board Order–47–1 dated January 7, 1947, to read as follows:

PART 220—DEFINITION AND CREDITABILITY OF SERVICE

§ 220.2 *What constitutes a month and a year of service.* Any calendar month in which an individual renders service for compensation or for which he receives remuneration for time lost as an employee constitutes a month of service, irrespective of the amount of such service or of the amount of time for which such remuneration is received. Twelve such months, consecutive or otherwise, shall be a year of service: *Provided, however,* That in totaling the service of an employee who has performed fifty-four months or more of creditable service, an ultimate fraction of six months or more shall constitute a year of service. In all other cases, ultimate fractions shall be taken at their actual value. (Secs. 1, 10, 50 Stat. 309, 314; sec. 202, 60 Stat. 726; 45 U. S. C. and Sup. 228a, 228j)

§ 220.3 *Creditability of service*—(a) *When a company is not an employer.* Service rendered to any person or company other than an employer shall not be creditable except as follows: (1) Service rendered prior to August 29, 1935 for a person or company which was an employer on August 29, 1935 shall be creditable even though such person or company was not an employer at the time the service was rendered; (2) service rendered to any person or company which was at some time during its existence an express company, sleeping-car company or carrier by railroad and which was a predecessor of an express company, sleeping-car company or carrier by railroad subject to the Act on August 29, 1935 shall be creditable even though such person or company was not an employer at the time such service was rendered and (3) service rendered prior to August 29, 1935 to any person or company in the performance of operations involving the use of standard railroad equipment provided such operations were performed by an employer on August 29, 1935.

(b) *Place of performance of service.* Service performed for an employer shall be creditable whether rendered within or without the United States, if such employer conducts the principal part of its business within the United States; but if an employer other than a local lodge or division or a general committee of a railway-labor-organization, does not conduct the principal part of its business within the United States, service to such an employer shall be creditable only when performed by the employee within the United States. Service performed for a local lodge or division or for a general committee of a railway-labor-organization shall be creditable in accordance with § 203.5 (b) and (c) of this chapter. Service rendered outside the United States by an individual not a citizen or resident of the United States to an employer who is required under the laws applicable in the place where the service is rendered to employ therein, in whole or in part, citizens or residents thereof is not creditable.

* * * * * * *

(d) *Service after age sixty-five.* Service rendered as an employee in any month after the end of the calendar year in which the age sixty-five is attained shall not be creditable toward an annuity under Part 208 of this chapter unless rendered prior to July 1, 1937. This paragraph shall not affect the provisions of Part 237 of this chapter. (Secs. 3, 10, 50 Stat. 311, 314; sec. 207, Pub. Law 572, 79th Cong.; 45 U. S. C. and Sup. 228c, 228j)

* * * * * * *

(h) *Service performed subsequent to the beginning date of an annuity.* Service rendered as an employee after the beginning date of an annuity shall not be creditable toward any annuity under Part 208 of this chapter, nor shall such annuity be recomputed because of such service except, if such annuity be granted upon the basis of disability and the disability annuity ceases, service performed after such cessation of the annuity and before the end of the calendar year in which age sixty-five is attained may be credited toward any other annuity to which such individual may become entitled. Nothing contained in this paragraph shall affect the provisions of Part 237 of this chapter. (Secs. 3, 10, 50 Stat. 311, 314; sec. 205, Pub. Law 572, 79th Cong.; 45 U. S. C. and Sup. 228c, 228j)

PART 222—DEFINITION AND CREDITABILITY OF COMPENSATION

§ 222.1 *Statutory provisions.*

The term "compensation" means any form of money remuneration paid to an individual for services rendered as an employee to one or more employers, or as an employee representative, including remuneration paid for time lost as an employee, but remuneration paid for time lost shall be deemed earned in the month in which such time is lost. Such term does not include tips, or the voluntary payment by an employer, without deduction from the remuneration of the employee, of any tax now or hereafter imposed with respect to the compensation of such employee. For the purposes of determining monthly compensation and years of service and for the purposes of subsections (a), (c), and (d) of section 2 and subsection (a) of section 5 of this act, compensation earned in the service of a local lodge or division of a railway-labor-organization employer shall be disregarded with respect to any calendar month if the amount thereof is less than $3 and (1) such compensation is earned between December 31, 1936, and April 1, 1940, and taxes thereon pursuant to section 2 (a) and 3 (a) of the Carriers Taxing Act of 1937 or sections 1500 and 1520 of the Internal Revenue Code are not paid prior to July 1, 1940; or (2) such compensation is earned after March 31, 1940. A payment made by an employer to an individual through the employer's pay roll shall be presumed, in the absence of evidence to the contrary, to be compensation for service rendered by such individual as an employee of the employer in the period with respect to which the payment is made. An employee shall be deemed to be paid, "for time lost" the amount he is paid by an employer with respect to an identifiable period of absence from the active service of the employer, including absence on account of personal injury, and the amount he is paid by the employer for loss of earnings resulting from his displacement to a less remunerative position or occupation. If a payment is made by an employer with respect to a personal injury and includes pay for time lost, the total payment shall be deemed to be paid for time lost unless, at the time of payment, a part of such payment is specifically apportioned to factors other than time lost, in which event only such part of the payment as is not so apportioned shall be deemed to be paid for time lost. Compensation earned in any calendar month before 1947 shall be deemed paid in such month regardless of whether or when payment will have been in fact made, and compensation earned in any calendar year after 1946 but paid after the end of such calendar year shall be deemed to be compensation paid in the calendar year in which it will have been earned if it is so reported by the employer before February 1 of the next succeeding calendar year or, if the employee establishes, subject to the provisions of section 8, the period during which such compensation will have been earned. In determining the monthly compensation, the average monthly remuneration, and quarters of coverage of any employee, there shall be attributable as compensation paid to him in each calendar month in which he is in military service creditable under section 4 the amount of $160 in addition to the compensation, if any, paid to him with respect to such month.

* * * In computing the monthly compensation, no part of any month's compensation in excess of $300 shall be recognized.

§ 222.2 *Definition of compensation*—(a) *Compensation paid for services performed.* Compensation shall mean the amount an individual is paid for service performed as an employee and shall include amounts paid in the form of a commodity, service, or privilege, only if the employer and employee, before the performance of the service for which it is payment have agreed (1) upon the value of such commodity, service, or privilege, and (2) that such part of the amount agreed upon to be paid may be paid in the form of such commodity, service, or privilege.

(b) *Remuneration paid for time lost.* Compensation shall also include amounts paid by an employer to an individual for time lost during which time the individual was absent from the active service of the employer. An employee shall be deemed to be paid "for time lost" whenever any such amount is paid to him by an employer (1) with respect to an identifiable period of absence from the active service of the employer, including absence on account of personal injury, or (2) for loss of earnings with respect to an identifiable period, resulting from his displacement to a less remunerative position or occupation. The entire amount of a payment made with respect to a personal injury shall be deemed to be remuneration paid for time lost provided such an amount includes pay for time lost and is not, at the time of payment, specifically apportioned to factors other than time lost. In any case where an amount paid with respect to personal injury is, at the time of payment, apportioned to factors other than time lost, only that part of the amount not so apportioned shall be deemed to be remuneration paid for time lost.

(c) *Waiver or refund of organization dues.* A waiver or refund of organization dues, in all cases in which the amount waived or refunded does ont include elements in addition to the consideration for membership in the organization (such as, for example, insurance payments), even though motivated by the rendition of valuable services on the part of the individual to the organization, does not constitute compensation unless it appears by affirmative evidence that such waiver or refund was intended to be and was accepted as a discharge of an obligation of the organization to compensate the individual for service rendered.

§ 222.3 *Creditability of compensation*—(a) *Compensation for one month in excess of $300.00.* In no case shall compensation in excess of three hundred dollars be credited for any one month of service. (Secs. 3, 10, 50 Stat. 311, 314; sec. 209, Pub. Law 572, 79th Cong.; 45 U. S. C. and Sup. 228c, 228j)

(b) *Compensation earned after age sixty-five.* Compensation for service after the end of the calendar year in which the individual becomes sixty-five years of age shall not be creditable toward an annuity under Part 208 of this chapter unless the service was rendered prior to July 1, 1937. This paragraph shall not affect the provisions of Part 237 of this chapter. (Secs. 3, 10, 50 Stat. 311, 314; sec. 207, Pub. Law 572 (79th Cong.), 45 U. S. C. and Sup. 228c, 228j)

(c) *Compensation dependent upon creditability of service.* No amount shall be credited as compensation unless it is paid for service creditable in accordance with § 220.3 of this chapter. (Secs. 3, 10, 50 Stat. 311, 314; 45 U. S. C. 228c, 228j)

(d) *Remuneration received by an annuitant.* Remuneration paid to an individual for service performed while he is in receipt of an annuity shall not be creditable, as compensation, toward an annuity under Part 208 of this chapter. This paragraph shall not affect the provisions of Part 237 of this chapter.

(e) *Employee representative compensation.* (1) If an individual occupies the position or office of employee representative as defined in section 1 (b) of the 1937 Act and is paid remuneration in that position or office, all such remuneration is paid for services rendered as an employee representative within the meaning of section 1 (h) of the act, even though the individual performs either in connection with or outside of that position or office some services which are not related to the representation of employees in negotiations with employers regarding wages, hours, working conditions, etc. However, any other remuneration which the individual receives is not paid for service rendered as an employee representative within the meaning of section 1 (h).

(2) If an individual does not occupy the position or office of employee representative and is paid remuneration in another position or office, none of such remuneration is paid for services rendered as an employee representative within the meaning of section 1 (h) of the 1937 Act, even though the individual performs either in connection with or outside of the non-employee representative position some services which are related to the representation of employees in negotiations with employers regarding wages, hours, working conditions, etc. Likewise, if the individual does occupy the position or office of employee representative in addition to his other position or office, but is paid remuneration only in the non-employee representative position or office or for services not related to the representation of employees in negotiations with employers, none of such remuneration is paid for service rendered as an employee representative within the meaning of section 1 (h).

(f) *Compensation earned after December 31, 1936, for service rendered to a local lodge or division.* Compensation earned in any month after December 31, 1936, for service rendered to a local lodge or division of a railway-labor-organization employer shall be disregarded unless (1) it is $3.00 or more, or (2) if less than $3.00 it was earned prior to April 1, 1940, and with respect thereto the income and excise taxes prescribed in the Carriers Taxing Act of 1937 were paid prior to July 1, 1940.

(g) *When compensation earned will be deemed compensation paid.* Compensation earned in any calendar month before 1947 shall be deemed paid in such month regardless of whether or when payment will have been in fact made, and compensation earned in any calendar year after 1946 but paid after the end of such calendar year shall be deemed to be compensation paid in the calendar year in which it will have been earned if it is so reported by the employer before February 1 of the next succeeding calendar year or, if the employee establishes, subject to the provisions of section 8 of the act, the period during which such compensation will have been earned.

(h) *Compensation; payment.* Compensation is deemed to be paid:

(1) When it is actually paid; or

(2) When it is constructively paid, that is, credited to the account of or set apart for an employee without any substantial limitation or restriction as to the time or manner of payment or condition upon which payment is to be made, and made available to him so that it may be drawn upon at any time and its payment brought within his own control and disposition.

§ 222.4 *Amount of compensation attributable to each calendar month of military service creditable.* In determining the "monthly compensation" of any employee who performed military service which is creditable under Part 209 of this chapter and section 4 of the act, there shall be attributable as compensation for each such month of creditable military service the amount of $160 in addition to the compensation, if any, paid him with respect to such month. (Secs. 1, 10, 50 Stat. 309, 314, sec. 25, 54 Stat. 1100, sec. 2, Pub. Law 572, 79th Cong.; 45 U. S. C. and Sup. 228a, 228j)

PART 225—COMPUTATION OF ANNUITY

§ 225.3 *Determination of "monthly compensation".* (a) Except as otherwise provided in this part the "monthly compensation" of an individual shall be:

(1) If his "years of service" include only service subsequent to December 31, 1936, and, in the case of station employees described in paragraph (b) (2) of this section, only service subsequent to August 31, 1941, the result obtained by totalling the compensation received for his "years of service" and dividing that sum by the number of months of his "years of service";

(2) If his "years of service" include only service prior to January 1, 1937, and, in the case of station employees described in paragraph (b) (2) of this section, only service prior to September 1941, his monthly compensation for service prior to January 1, 1937, or prior to September 1941, respectively, determined as hereinafter provided;

(3) If his "years of service" include service subsequent to December 31, 1936, and service prior to January 1, 1937, the result obtained by (i) multiplying his monthly compensation for service prior to January 1, 1937, determined as hereinafter provided by the number of months in such portion of his "years of service" as is prior to January 1, 1937, (ii) adding to the product the total compensation earned by him in such portion of his "years of service" as is subsequent to December 31, 1936, and (iii) dividing the sum by the total number of months in his "years of service": *Provided, however,* That in the case of station employees described in paragraph (b) (2) of this section, if his "years of service" include service subsequent to August 31, 1941, and service prior to September 1941, the result obtained by (i) multiplying his monthly compensation for service prior to September 1941 determined as hereinafter provided by the number of months in such portion of his "years of service" as is prior to September 1941, (ii) adding to the product the total compensation earned by him in such portion of his "years of service" as is subsequent to August 31, 1941, and (iii) dividing the sum by the total number of months in his "years of service". (Secs. 3, 10, 50 Stat. 311, 314; secs. 208, 209, Pub. Law 572, 79th Cong., 45 U. S. C. and Sup. 228c, 228j)

(b) Except as otherwise provided in this part:

(1) An individual's "monthly compensation for service prior to January 1, 1937," shall be the result obtained by dividing (i) the total compensation earned by him in such portion of his "years of service" as is within the period 1924–1931 by (ii) the number of months in such portion of his "years of service"; and

(2) The amount of compensation paid or attributable as paid to an individual with respect to each month of service before September 1941 as a station em-

ployee whose duties consisted of or included the carrying of passengers' hand baggage and otherwise assisting passengers at passenger stations and whose remuneration for service to the employer was, in whole or in substantial part, in the form of tips, shall be the result obtained by dividing (i) the total compensation earned by him as a station employee in the period September 1940–August 1941 by (ii) the number of months he rendered service as a station employee during that period.

In any case within the purview of paragraphs (j), (k), (l), or (m) of this section, service in the period 1924–1931 is, in the judgment of the Board, insufficient to constitute a fair and equitable basis for determining the "monthly compensation for service prior to January 1, 1937," and it is, in the judgment of the Board, just and equitable that such monthly compensation be determined in the manner provided in the applicable provisions of such paragraphs. In any case in which service of a station employee described in subparagraph (2) of this paragraph in the period September 1940–August 1941 is, in the judgment of the Board, insufficient to constitute a fair and equitable basis for determining the amount of compensation paid or attributable as paid to him in each month of service before September 1941, the Board shall determine the amount of such compensation for each such month in such manner as in its judgment shall be fair and equitable. The following paragraphs of this section shall not be applicable to such station employees. (Secs. 3, 10, 50 Stat. 311, 314; sec. 208, 209, Pub. Law 572, 79th Cong., 45 U. S. C. and Sup. 228c, 228j)

• • • • •

§ 225.5 *Annuities subject to reduction where individual is under age sixty-five.* Where eligibility for an annuity is based on age sixty to sixty-five and service the amount of the annuity, as computed under §§ 225.1 to 225.4 inclusive, shall in the case of male applicants be reduced by one one-hundred-and-eightieth for each calendar month during all of which the individual is less than sixty-five years of age when the annuity begins to accrue. (Secs. 2, 10, 50 Stat. 309; sec. 205, Pub. Law 572, 79th Cong.; 45 U. S. C. and Sup. 228b, 228j)

Section 225.6 is repealed. Sections 225.7, 225.8, 225.9 and 225.10 are renumbered §§ 225.6, 225.7, 225.8 and 225.9, respectively.

§ 225.8 *Minimum amount of annuity.* In the case of an individual having a current connection with the railroad industry as defined in § 208.2 of this chapter and subsection (o) of section 1 of the act and at least fifty-four months of creditable service, the minimum annuity payable shall, prior to any reduction pursuant to section 2 (a) 3 of the act, be whichever of the following is the least:

(a) $3 multiplied by the number of the individual's "years of service", or

(b) $50, or

(c) The individual's "monthly compensation" as determined by § 225.3.

(Secs. 3, 10, 50 Stat. 311, 314; sec. 210, Pub. Law 572, 79th Cong., 45 U. S. C. and Sup. 228c, 228j)

PART 230—ELECTIONS OF JOINT AND SURVIVOR ANNUITIES

NOTE: Part 230 is repealed except with respect to elections of joint and survivor annuities made before July 31, 1946, by:

(a) Individuals to whom annuities have accrued before January 1, 1947, but have not been awarded prior to July 31, 1946, and who do not, prior to July 31, 1947, revoke their election in such manner and form prescribed by the Board; and

(b) Individuals to whom annuities have not accrued before January 1, 1947 and who, prior to January 1, 1948, reaffirm their election in such manner and form prescribed by the Board.

§ 230.1 *Statutory provisions.*

An individual whose annuity shall not have begun to accrue may elect prior to January 1, 1938, or at least five years before the date on which his annuity begins to accrue, or upon furnishing proof of health satisfactory to the Board, to have the value of his annuity apply to the payment of a reduced annuity to him during life and an annuity after his death to his spouse during life equal to, or 75 per centum of, or 50 per centum of such reduced annuity. The amounts of the two annuities shall be such that their combined actuarial value as determined by the Board shall be the same as the actuarial value of the single-life annuity to which the individual would otherwise be entitled. Such election shall be irrevocable, except that it shall become inoperative if the individual or the spouse dies before the annuity begins to accrue or if the individual's marriage is dissolved or if the individual shall be granted an annuity under subdivision 3 of section 2 (a): *Provided, however,* That the individual may, if his marriage is dissolved before the date his annuity begins to accrue, or if his annuity under subdivision 3 of section 2 (a) ceases because of failure to make the required proof of disability, make a new election under the conditions stated in the first sentence of this subsection. The annuity of a spouse under this subsection shall begin to accrue on the first day of the calendar month in which the death of the individual occurs.

Section 4 is repealed.

The election of a joint and survivor annuity made before the date of approval of this act by an individual to whom an annuity accrues before January 1, 1947, shall be given effect as though the provisions of law under which the election was made had continued to be operative unless no annuity was awarded to such individual prior to the date of approval of this act and, within one year after the approval of this act, he revokes the election in such form and manner as the Board may prescribe. Such election by an individual to whom no annuity accrues before January 1, 1947, shall also be given such effect if the individual, before January 1, 1948, reaffirms the election in such form and manner as the Board may prescribe.

(Sec. 4, 10, 50 Stat., 311, 314, secs. 212, 405, Pub. Law 570, 79th Cong., 45 U. S. C. and Sup. 228d, 228j)

PART 234—ANNUITIES DUE BUT UNPAID AT DEATH

Sec.
234.1 Statutory provisions.
234.2 Annuities due but unpaid at death; to whom payable.

AUTHORITY: §§ 234.1 and 234.2 issued under secs. 3, 10, 50 Stat. 311, 314; sec. 211, Pub. Law 572, 79th Cong., 45 U. S. C. and Sup. 228c, 228j.

§ 234.1 *Statutory provisions.*

Annuity payments which will have become due an individual but will not yet have been paid at death shall be paid to the same individual or individuals who, in the event that a lump sum will have become payable pursuant to section 5 hereof upon such death, would be entitled to receive such lump sum, in the same manner as, and subject to the same limitations under which, such lump sum would be paid, except that, as determined by the Board, first, brothers and sisters of the deceased, and if there are none such, then grandchildren of the deceased, if living on the date of the determination, shall be entitled to receive payment prior to any payment being made for reimbursement of burial expenses. If there be no individual to whom payment can thus be made, such annuity payments shall escheat to the credit of the Railroad Retirement Account.

§ 234.2 *Annuities due but unpaid at death; to whom payable.* Annuity payments, including survivor annuity payments under the Railroad Retirement Acts of 1935 or 1937, which will have become due an individual but will not yet have been paid at death, if such death shall have occurred on or after January 1, 1947, shall be paid to the following person (or if more than one there shall be distributed among them) whose relationship to the deceased employee will have been determined by the Board, and who will have been living on the date of such determination: to the widow or widower of the deceased; or, if no such widow or widower be then living, to any child or children of the deceased and to any other person or persons who, under the intestacy law of the State where the deceased will have been domiciled, will have been entitled to share as distributees with such children of the deceased, in such proportions as is provided by such law; or, if no widow or widower and no such child and no such other person be then living, to the parent or parents of the deceased, in equal shares. If none of the persons described above be living on the date of such determination, such amount shall be paid to any person or persons, equitably entitled thereto, to the extent and in the proportions that he or they shall have paid the expenses of burial of the deceased employee: *Provided, however,* That, as determined by the Board, first, brothers and sisters of the deceased employee, and if there are none such, then grandchildren of the deceased employee, if living on the date of the determination, shall be entitled to receive payment prior to any payment being made for reimbursement of burial expenses. If there be no individual to whom payment can thus be made, such annuity payments shall escheat to the credit of the Railroad Retirement Account.

PART 235—PAYMENTS UPON DEATH OCCURING BEFORE JANUARY 1, 1947

§ 235.1 *Statutory provisions.*

Payments upon death as provided in sections 5 of the Railroad Retirement Acts of 1935 and 1937, other than survivor annuities pursuant to an election, shall be made only with respect to deaths occurring before January 1, 1947.

[Sec. 5, 1937 Act, prior to July 31, 1946] • • • (a) The death benefit shall be an amount equal to 4 per centum of the aggregate compensation (determined in accordance with section 1 (h) of this act but exclusive of the excess over $300 in any month's earnings) earned by an individual as an employee after December 31, 1936, less any annuity payments paid him, and less any annuity payments due him but not yet paid at his death, and, if he is survived by a spouse entitled to a joint and survivor annuity, less any annuity payments paid such spouse under sections 3 (f) and 4 of this act, and less any annuity payments due such spouse under said sections but not yet paid at death.

(b) The amount of the death benefit computed under subsection (a) of this section shall be due upon the death of an individual who was an employee after December 31, 1936, or, if he is survived by a spouse entitled to a joint and survivor annuity, upon death of such spouse and, upon application therefor, as provided in subsection (c) of this section, shall be paid in a lump sum to the person or persons designated by such individual in a writing filed, on or before the date of his death, with the Board, in such manner and form as provided by the Board: *Provided, however,* That if such designation has not been filed, or was improperly executed or improperly filed, or no designee is alive on the day the death benefit becomes due, the amount of the death benefit shall be paid to the person determined by the Board to have been such individual's spouse on the day of his death; if no such spouse is alive on the day the death benefit becomes due, such amount shall be paid to the person determined by the Board to be his child, by blood or by legal adoption, and alive on the day the death benefit becomes due, and if there be more than one such child they shall share equally; if there be no such child, such amount shall be paid to the person determined by the Board to be his parent and alive on the day the death benefit becomes due, and if both parents are so determined they shall share equally; if there be no such parent, such amount shall be paid to the person determined by the Board to be his brother or sister, by blood or through legal adoption, and alive on the day the death benefit becomes due, and if there be more than one such brother or sister they shall share equally; and if there be no such brother or sister such amount shall be paid to the person determined by the Board to be his grandchild, by blood or through legal adoption, and alive on the day the death benefit becomes due, and if there be more than one such grandchild they shall share equally. If there be no such persons enumerated above in this subsection the Board may compensate other persons to the extent and in the proportions that they have borne the expenses of the last illness or funeral or both of such individual in an amount or amounts, and upon such conditions, as the Board may fix as equitable, but the total of such amounts shall not exceed the amount of the death benefit.

(c) No payment shall be made to any person under this section unless application therefor, in such manner and form as provided by the Board, shall have been filed, by or on behalf of any such person (whether or not legally competent), prior to the expiration of two years after the date the death benefit becomes due as provided in subsection (b) of this section. For the purpose of this subsection, if the death benefit became due as provided in subsection (b) of this section before the enactment of this amendment, such death benefit shall be considered to have become due on the date of the enactment hereof.

[Sec. 5, 1935 Act] • • • If a person receiving or entitled to receive an annuity [under the provisions of the Railroad Retirement Act of 1935] shall die, the Board, for one year after the first day of the month in which the death may have occurred, shall pay, as herein provided, an annuity equal to one-half of the annuity which such person so dying may have received or may have been entitled to receive, to the widow or widower of the deceased, or if there be no widow or widower, to the dependent next of kin of the deceased. • • •

§ 235.2 *Death benefit; amount of, when payable, to whom payable.* (a) If an individual to whom no annuities have become payable shall die prior to January 1, 1947, there shall become due a death benefit equal to 4 per centum of the aggregate compensation, if any, earned by that individual as an employee after December 31, 1936, excluding compensation in excess of three hundred dollars in any one month and compensation that is required to be disregarded under the provisions of § 222.3 (f) of this chapter.

(b) If an individual to whom annuities have become payable and who is not survived by a spouse entitled to a survivor annuity shall die prior to January 1, 1947, there shall become due a death benefit equal to an amount computed as in paragraph (a) of this section, less all annuities paid or payable to the individual.

(c) In any case wherein an individual dies prior to January 1, 1947 and is survived by a spouse entitled to a survivor annuity, there shall, upon the death of such surviving spouse, prior to January 1, 1947, become due a death benefit equal to an amount computed as in paragraph (b) of this section, less all survivor annuities paid or payable to such surviving spouse.

(d) Any death benefit due under section 5 of the Railroad Retirement Act of 1937, as it existed prior to July 31, 1946, and still in effect with respect to deaths occurring prior to January 1, 1947, upon the death of an individual prior to January 1, 1947 shall, upon proper application therefor, as provided in § 233.3, be paid in a lump sum to the person or persons designated by such individual on the designation form provided by the Board and filed with it on or before the date of his death: *Provided, however,* That if such designation has not been filed, or was improperly executed or improperly filed, or no designee is alive on the day the death benefit becomes due, the amount of the death benefit shall be paid to the person determined by the Board to have been such individual's spouse on the day of his death; if no such spouse is alive on the day the death benefit becomes due, such amount shall be paid to the person determined by the Board to be his child, by blood or by legal adoption, and alive on the day the death benefit becomes due, and if there be more than one such child they shall share equally; if there be no such child, such amount shall be paid to the person determined by the Board to be his parent and alive on the day the death benefit becomes due, and if both parents are so determined they shall share equally; if there be no such parent, such amount shall be paid to the person determined by the Board to be his brother or sister, by blood or through legal adoption, and alive on the day the death benefit becomes due, and if there be more than one such brother or sister they shall share equally; and if there be no such brother or sister such amount shall be paid to the person determined by the Board to be his grandchild, by blood or through legal adoption, and alive on the day the death benefit becomes due, and if there be more than one such grandchild they shall share equally. If there be no such persons enumerated above the Board may compensate other persons to the extent and in the proportions that they have borne the expenses of the last illness or funeral or both of such individual in an amount or amounts and upon such conditions, as the Board may fix as equitable, but the total of such amounts shall not exceed the amount of the death benefit.

§ 235.3 *Application for death benefits under section 5 of the 1937 act as it existed prior to July 31, 1946; time limit for filing.* No payment of a death benefit under section 5 of the Railroad Retirement Act of 1937 as it existed prior to July 31, 1946 and still in effect with respect to deaths occurring prior to January 1, 1947 shall be made to any person unless application therefor, in such manner and form as provided by the Board, shall have been filed, by or on behalf of any such person (whether or not legally incompetent), prior to the expiration of two years after the date the death benefit becomes due as provided in § 235.1. For the purpose of this section, if the death benefit became due prior to April 8, 1942, such death benefit shall be considered to have become due on April 8, 1942.

§ 235.4 *Death benefit annuity payable under section 5 of the Railroad Retirement Act of 1935.* Payment of death benefit annuities under section 5 of the 1935 act by reason of the death of individuals receiving or entitled to receive annuities under the 1935 act shall be made only with respect to those deaths which occurred prior to January 1, 1947.

• • • • •

§ 235.9 *Individual deterred from filing.* Where an individual has notified the Board in writing of his intention or desire to file an application for death benefits payable upon the death of an employee or the spouse of an employee, but has been deterred to his detriment from filing an application upon the form prescribed by the Board, such writing of the individual, if subsequently supplemented by an application duly executed upon the prescribed form, shall be considered by the Board as a proper and sufficient application within the meaning of section 5 (f) of the Railroad Retirement Act of 1937 as still in effect with respect to deaths occurring prior to January 1, 1947, subject to the provisos contained in § 210.2 (a) (1) and (2) of this chapter. (Secs. 5, 10, 202, 50 Stat. 312, 314, 318; sec. 12, 56 Stat. 208, secs. 213, 406, Pub. Law, 572, 79th Cong.; 45 U. S. C. and Sup. 228e, 228j, 202 of note following 228)

PART 236—PAYMENT OF BENEFITS OF $500 OR LESS

Section 236.1 is repealed. Sections 236.2, 236.3, 236.4 and 236.5 are renumbered as §§ 236.1, 236.2, 236.3 and 236.4, respectively.

PART 250—REPORTS, INFORMATION, HEARINGS AND WITNESSES

§ 250.3 *Employers' reports of compensation of employees.* (a) Each employer shall, in accordance with instructions issued by the director of wage and service records, file with the Board (1) on or before the last day of each month, a report of the compensation adjustments appearing on pay rolls or other disbursement documents for the month immediately preceding such month, (2) on or before the last day of the month immediately following the end of each calendar quarter, a summary of compensation adjustments reported for the quarter, and (3) on or before the last day of the month immediately following the end of each calendar quarter or, for employers authorized to report annually, on or before the last day of the month immediately following the end of each calendar year:

(i) A report of the compensation paid to each employee for the calendar quarter or calendar year, respectively, showing with respect to each employee his name, his account number, and, except in the case of an employee of a railway-labor-organization employer, his occupational class under the appropriate Interstate Commerce Commission occupational classification as supplemented or varied for this purpose by instructions issued by the director of wage and service records and approved in this respect by the director of research.

(ii) A summary report of the compensation of the employees for the period covered by the report.

If such last day of the month is a Sunday or legal holiday, the report may be filed on the next following business day. If placed in the mails, the report shall be posted in ample time to reach the office of the Board at Chicago, Illinois, under ordinary handling of the mails, on or before the date on which the report is required to be filed. Authorization to file reports on dates later than hereinabove prescribed may be granted by the director of the bureau of wage and service records.

Authorization to report annually the compensation paid to each employee shall be granted upon application by the employer to the director of wage and service records and the approval of such application by the Board.

(b) An employer having intermittent or seasonal pay rolls shall file a summary report of compensation for each quarter or year in which no pay roll was maintained and shall show "Nil" in the space provided for reporting the compensation.

(c) Upon termination of employer status as determined under §§ 202.11 and 202.12 of this chapter, a final report of compensation of employees shall be submitted. The summary report of compensation shall be marked "Final Compensation Report," and the period covered by the report shall be indicated. Such report shall be filed with the Board on or before the last day of the month following the final month for which there was compensated service. (Secs. 8, 10, 50 Stat. 313, 314, sec. 214 Pub. Law 572, 79th Cong., 45 U. S. C. and Sup. 228h, 228j)

PART 265—APPLICABILITY OF 1935 OR 1937 ACT

Part 265 is repealed.

Dated: January 15, 1947.

By authority of the Board.

[SEAL] MARY B. LINKINS,
Secretary of the Board.

TITLE 32—NATIONAL DEFENSE

Chapter I—Office of Temporary Controls

PART 3—ESTABLISHMENT AND ORGANIZATION OF THE OFFICE OF PREMIUM PRICE PLAN FOR COPPER, LEAD, AND ZINC

Sec.
3.301 Establishment of the Office of Premium Price Plan.
3.302 Organization of the Office of Premium Price Plan.
3.303 Appointment and functions of Director.
3.304 Appointment and functions of the Premium Review Board.
3.305 Basic Regulations of the Premium Price Plan.
3.306 Responsibilities of the Office of Metals Reserve, Reconstruction Finance Corporation.
3.307 Transfer of personnel, records, and funds.
3.308 Effective date.

AUTHORITY: §§ 3.301 to 3.308 inclusive issued under E. O. 9809, Dec. 12, 1946, 11 F. R. 14281.

§ 3.301 *Establishment of the Office of Premium Price Plan.* Pursuant to authority of Executive Order No. 9809, dated December 12, 1946, there is hereby established in the Office of War Mobilization and Reconversion, the Office of Premium Price Plan for Copper, Lead, and Zinc, hereinafter referred to as the Office of Premium Price Plan.

§ 3.302 *Organization of the Office of Premium Price Plan.* The Office of Premium Price Plan shall be composed of a Director, a Premium Review Board, and other necessary staff as determined by the Commissioner of War Mobilization and Reconversion.

§ 3.303 *Appointment and functions of Director.* (a) The Director shall be appointed by the Commissioner of War Mobilization and Reconversion. Under the policies of the Premium Review Board as approved by the Commissioner in the manner outlined in paragraph (b) of this section and § 3.304, he shall operate the Premium Price Plan pursuant to section 6 (a) of the Price Control Extension Act of 1946, Public Law 548, 79th Congress, approved July 25, 1946, and to directives and rules heretofore issued for the operation of the Premium Price Plan and such directives and regulations as may hereafter be issued by the Commissioner of War Mobilization and Reconversion, including regulations and amendments issued in accordance with § 3.305.

(b) *Assignment and revision of quotas.* The Director shall be responsible for the analytical work in connection with applications for and revisions of quotas and shall make recommendations to the Premium Review Board with respect to each quota and revision, subject to the exception provided in § 3.304.

§ 3.304 *Appointment and functions of the Premium Review Board.* The Premium Review Board shall be composed of three members, one appointed by the Commissioner of Civilian Production and who shall act as chairman; one appointed by the Commissioner of Price Administration and one appointed by the Board of Directors of the Reconstruction Finance Corporation. The Director shall not be appointed to the Premium Review Board. The Premium Review Board shall consider the recommendations of the Director as to the assignment and revision of quotas and shall determine, in each case, the assignment of the quota or the revision of the quota: *Provided*, That the Premium Review Board may establish standards and classifications which when certified to the Director in writing by the Board, will permit the assignment of quotas or quota revisions in accordance therewith without further reference to the Premium Review Board. Upon such determination the Director shall then issue, over his signature, the assignment or revision as so determined. The Premium Review Board shall also consider and determine questions of policy, subject to the approval of the Commissioner of War Mobilization and Reconversion. The Premium Review Board shall pass on appeals arising in the operation of the Plan. Appeals from a final decision of the Board may be taken to the Commissioner of War Mobilization and Reconversion, whose decision shall be final.

§ 3.305 *Basic regulations of the Premium Price Plan.* The Director shall cause to be prepared and upon approval by the Premium Review Board, shall submit to the Commissioner of War Mobilization and Reconversion for publication in the FEDERAL REGISTER, basic regulations under which the Premium Price Plan is operated, and shall cause them to be amended subject to the same approval, from time to time, as may be required.

§ 3.306 *Responsibilities of the Office of Metals Reserve, Reconstruction Finance Corporation.* The Office of Metals Reserve, Reconstruction Finance Corporation, shall be responsible for the fiscal operations of the Premium Price Plan and shall make the payments required by the quota assignments.

§ 3.307 *Transfer of personnel records and funds.* Prior to organization of the Office of Premium Price Plan, the Commissioner of War Mobilization and Reconversion, the Commissioner of Civilian Production and the Commissioner of Price Administration shall present for the approval of the Temporary Controls Administrator a budget for the operation of the Office of Premium Price Plan for the remainder of the current fiscal year supported by a listing of the positions and personnel to be transferred, and a schedule showing details of the estimated cost for each object of expenditure and the amount which it is proposed to transfer from each appropriation currently

available for the purpose. Upon approval of the said budget the positions, personnel and funds listed therein shall be transferred to the Office of War Mobilization and Reconversion together with the necessary records and equipment as agreed upon by the respective commissioners and approved by the Administrator. Any unpaid obligations not listed specifically in the approved budget shall be liquidated by the office in which such obligations are now recorded.

§ 3.308 *Effective date.* The provisions of this order shall become effective on January 27, 1947.

Issued this 16th day of January 1947.

PHILIP B. FLEMING,
Temporary Controls Administrator.

Chapter VI—Selective Service System

[Local Board Memorandum 115, Reissued: 7/22/46, As Amended: 1/22/47]

PART 671—LOCAL BOARD MEMORANDA

OCCUPATIONAL CLASSIFICATION

Pursuant to the provisions of the Administrative Procedures Act, the following directive issued under authority of the Selective Training and Service Act of 1940, as amended, is hereby made a matter of record:

§ 671.115 *Occupational classification*—(a) *General policies*—(1) *General.* (i) This section describes the policies and procedures which govern the occupational classification of registrants ages 19 through 29. The classification of registrants engaged in agriculture is governed by §§ 622.25–1 and 622.25–2 of this chapter.

(ii) The policies stated in this section shall not be construed to interfere with the classification into Class I–A, Class I–A–O, or Class IV–E, of a registrant age 19 through 29 who is a delinquent, or a registrant who volunteers for induction and is placed in a class available for service under § 624.4 of this chapter.

(2) *Objectives in classification.* It is the objective of the Selective Service System to select and forward for induction the number and type of men required by the armed forces in accordance with the provisions of the Selective Training and Service Act of 1940, as amended.

(3) *Responsibility of local boards.* It is the continuing responsibility of the local boards to determine, subject to the prescribed appeal procedure, whether registrants within their jurisdiction are entitled to occupational deferment in accordance with existing regulations and occupational classification policies.

(b) *Classification policies and procedures*—(1) *General.* A registrant age 19 through 29 may be retained or placed in Class II–A if the local board finds that he is irreplaceable in and indispensable to an activity essential to the national existence. An activity essential to the national existence is one of such importance that any disruption thereof would adversely affect the physical well-being, the public safety, or economic life of the community or the nation.

(2) *Deferment consideration for certain professional students.* Local boards will give consideration to the deferment of registrants for whom there is on file or is hereafter filed a DSS Form 42A (Special-Revised) if they come within the group described as follows:

(i) *Students in medicine, dentistry, veterinary medicine, or osteopathy.* Registrants for whom a DSS Form 42A (Special-Revised) is filed and in whose case the local board determines that they are pursuing a full-time course of study in medicine, dentistry, veterinary medicine, or osteopathy in a recognized school of medicine, dentistry, or veterinary medicine, or osteopathy, until their graduation, and that they have completed a satisfactory preprofessional course prior to their entrance, will be given special consideration provided that a student of veterinary medicine should not be considered for occupational deferment if he commenced the study of veterinary medicine in a school of veterinary medicine on or after March 15, 1945. A "satisfactory preprofessional course" shall mean such work as is ordinarily required for entrance by medical, dental, veterinary medicine, and osteopathy schools of good reputation.

(3) *Applicable forms.* DSS Form 42A (Special-Revised) will be used for the making of all requests for the occupational deferment, including agriculture, of registrants ages 19 through 29.

(4) *Local board report.* In order to provide the Director of Selective Service with accurate information concerning the classification of registrants 19 through 29 under the provisions of this section, the local board will report as follows:

(i) When a DSS Form 42A (Special-Revised) has been filed requesting deferment other than in agriculture, the local board, immediately after taking action with respect to the registrant, will make sure that the registrant's order number on the front of the DSS Form 42A (Special-Revised) is correct, and complete the Report of Local Board on the back of the duplicate copy of such form, and will transmit the duplicate copy to its State Director. The State Director will then forward DSS Form 42A (Special-Revised) to the Director of Selective Service, Tenth Floor, Gimbel Building 35 South Ninth Street, Philadelphia, Pennsylvania.

(ii) When a DSS Form 42A (Special-Revised) has been filed requesting deferment for a registrant engaged in agriculture, the local board may transmit the duplicate copy to the State Director if so instructed by him, but in no event shall any copy of DSS Form 42A (Special-Revised) for registrants in agriculture be forwarded to the Director of Selective Service.

(c) *Certification plan*—(1) *General.* Pursuant to a request from the Office of Temporary Control, the certification of certain registrants specified in paragraph (d) of this section is authorized. The Office of Temporary Control has requested the Civilian Production Administration of the Office of Temporary Control, the United States Office of Education, and the National Housing Agency to assist the Selective Service System in this program.

(2) *Operation of plan.* Employers or individual registrants who are self-employed will submit DSS Form 42A (Special-Revised) in triplicate, or other specified information which will assist in determining the essentiality of the registrant, to the appropriate Federal Government agency listed in subparagraph (1) of this paragraph. Requests for deferment approved by the Federal Government agencies will be transmitted to the Director of Selective Service. The Director of Selective Service will transmit recommendations for deferment to local boards through the appropriate State Director.

(3) *Classification policies.* Pursuant to the provision of paragraph (b) (1) of this section, local boards will give the most serious consideration to the occupational deferment of registrants engaged in the specialized, technical and scientific fields set forth in paragraph (d) of this section.

(d) *Standards and procedures*—(1) *Advanced studies in the physical sciences and engineering.* Registrants accepted by an accredited college or university for a Master's or Doctor's degree in the physical sciences or engineering will be certified by the United States Office of Education to the Director of Selective Service.

(2) *University research in the physical sciences or engineering.* Registrants employed by or attached to the staff of an accredited college or university for research in the physical sciences or engineering will be certified by the United States Office of Education to the Director of Selective Service.

(3) *Submission of information in certain cases.* Any registrant who wishes to be certified under the provisions of subparagraphs (1) and (2) of this paragraph, must present to the United States Office of Education, Temporary Building M, 26th and Water Streets NW., Washington 25, D. C., the following documents in triplicate:

(i) A notarized statement of his intention:

(*a*) To undertake graduate studies leading to a Master's or Doctor's degree in the physical sciences or engineering; or

(*b*) To undertake advanced research in the physical sciences or engineering.

(ii) A statement from an accredited college or university signed by a responsible official of the college or university, indicating that the registrant:

(*a*) Has been accepted as a candidate for a Master's or Doctor's degree in the physical sciences or engineering; or

(*b*) Is to be employed by or attached to the staff of the college or university for research in the physical sciences or engineering.

(iii) A statement showing the registrant's name, address, age, Selective Service local board number and address, classification, and educational qualifications.

(4) *Industrial and foundational research in the physical sciences or engineering.* Scientific personnel necessary to and engaged in basic research in the

physical sciences or engineering in the employ of laboratories not connected with colleges or universities, and scientific personnel in industry who are not engaged directly in production, will be certified by the Civilian Production Administration of the Office of Temporary Control to the Director of Selective Service. Employers will submit DSS Form 42A (Special-Revised) in triplicate in each individual case to the Civilian Production Administration of the Office of Temporary Control, Washington 25, D. C., for certification.

(5) *Teachers.* Teachers employed by an accredited college or university will be certified by the United States Office of Education to the Director of Selective Service. Employers will submit DSS Form 42A (Special-Revised) in triplicate in each individual case to the United States Office of Education, Temporary Building M, 26th and Water Streets, N. W., Washington 25, D. C.

(6) *Production and transportation.* The Civilian Production Administration of the Office of Temporary Control will certify to the Director of Selective Service registrants engaged in production and transportation as follows:

(i) Supervisory, technical, or scientific personnel whose removal would significantly retard production in industries essential to reconversion or otherwise essential to the national existence;

(ii) Qualified and irreplaceable production workers in industries designated as critical by the Civilian Production Administration of the Office of Temporary Control. (This agency has established a list of critical industries essential to reconversion or otherwise essential to the national existence. Employers have been notified by the United States Maritime Commission that they will be required to file requests for the occupational deferment of all seamen under policies and procedures described in paragraphs (b) (1) and (b) (3) of this section.

(2) *Deferment consideration.* In considering the deferment of a registrant employed in the Merchant Marine, the local board shall give consideration to the number of months of substantially continuous service which the registrant has completed and which service constitutes a credit towards completion of service in the Merchant Marine and prospective classification in Class I–G.

(3) *Completion of service in the Merchant Marine.* (i) Certain registrants who have completed a period of substantially continuous service in the Merchant Marine should be relieved from consideration for military service.

(ii) The United States Maritime Commission will issue to a registrant who has completed a period of substantially continuous service in the Merchant Marine a certificate of service to that effect, but such a certificate will not furnish a basis for a finding that such a registrant may be relieved from consideration for military service unless, in addition to the issuance of a certificate, the United States Maritime Commission notifies the local board in writing or places a stamp or notation upon the certificate stating that the registrant is "eligible to be relieved from any future consideration for classification into a class available for service.

Chapter XI—Office of Temporary Controls, Office of Price Administration

PART 1305—ADMINISTRATION

[Amdt. 2]

THE ADMINISTRATOR, SUGAR DEPARTMENT; CONSOLIDATION AND LIQUIDATION OF FIELD OFFICES

The description of organization as required by section 3 (a) (1) of the Administrative Procedure Act (11 F. R. 177A–640 through 177A–710 of the FEDERAL REGISTER of Sept. 11, 1946) is amended in the following respects:

1. In Subpart A (text) § 1305.510, paragraph (f) is deleted and the following paragraphs are added:

lished procedures for the formal determination of critical products, in programs such as veterans' housing, public health, and food and famine relief, requiring special government action.) Employers will submit DSS Form 42A (Special-Revised) in triplicate in each individual case to the Civilian Production Administration of the Office of Temporary Control, Washington 25, D. C.

(7) *Construction workers.* The National Housing Agency will certify to the Director of Selective Service registrants engaged in the home building trade as follows:

(i) Skilled workmen in the home building trade where shortages of such men have been established. Such persons must have had at least three years of training and experience in key building crafts such as bricklaying, plastering, plumbing, and carpentering, and it must be established that the loss of such person is delaying or immediately threatens to delay the Veterans Emergency Housing Program.

(ii) Managerial or supervisory personnel possessing a minimum of three years' experience in home construction. Employers will submit DSS Form 42A (Special-Revised) in triplicate in each individual case to the National Housing Agency, Washington 25, D. C.

(e) *Occupational classification of men in the Merchant Marine*—(1) *General.* As of January 1, 1947, the United States Maritime Commission discontinued the submission of deferment requests for registrants employed as merchant seamen in the Merchant Marine. Effective October 1, 1946, the United States Maritime Commission will indicate to a local board that it deems a registrant who has been released from service in the Merchant Marine "eligible to be relieved from any future consideration for classification into a class available for service" only if the registrant has served at least eighteen (18) months in the Merchant Marine, and provided his service in the Merchant Marine has been substantially continuous.

(iv) Under the provisions of § 622.17 (d) of this chapter, a registrant who has completed a period of substantially continuous service in the Merchant Marine of the United States, and who has a certificate to that effect issued by the United States Maritime Commission, may be placed in Class I-G.

(f) *Occupational classification of Federal Government employees*—(1) *General.* Registrants employed in or under the Federal Government may be considered for occupational classification in Class II-A on the same basis as other registrants under the policies and procedures described in paragraph (b) of this section: *Provided*, That an authorized Government request for deferment is filed with the local board.

(2) *Filing of requests.* Every request (DSS Form 42A (Special-Revised)) for the occupational deferment of an employee in or under any branch of the Federal Government must be filed in accordance with 57 Stat. 57, and Executive Order 9309 (3 CFR Cum. Supp.), and must bear the stamp or notation reproduced below:

1. In the list of commodities set forth in paragraph (b) the following Schedule B Nos. 790700, 790800, 790900 and 791000, together with the description of commodities thereunder, are hereby deleted and there is substituted in lieu thereof the following:

§ 1305.1311 *Authority and responsibility.* The Temporary Controls Administrator delegates to the sugar department authority and responsibility to discharge, under his general supervision, functions, powers, and duties, (except those related to common carrier and public utility rate increases and those involved in subsidy operations pertaining to price and rationing controls of specifically designated commodities.

(a) *Price.* Authority of OPA for its price activities derives from the Emergency Price Control Act of 1942 as amended by the Price Control Extension Act of 1946 and the Stabilization Act of October 2, 1942, supplemented by executive orders 9250, 9328, and 9697. Supplementary Order 193, issued November 12, 1946, exempts from price control all services and all commodities except rice, sugar, and certain sugar products. Executive Order 9809, effective December 12, 1946, vests in the Temporary Controls Administrator the functions of the Price Administrator.

(1) Under these acts the Administrator has, among others, the following responsibilities and powers:

(i) To establish, by regulation or order, generally fair and equitable maximum prices whenever prices have risen or threaten to rise contrary to the purposes of the Emergency Price Control Act, and to adjust maximum prices to correct gross inequities and remove impediments to the effective transition to a peacetime economy.

(ii) To issue temporary regulations and orders effective up to 60 days.

(iii) To issue regulations containing such classifications and differentials, and providing for such adjustments and reasonable exceptions as the Administrator deems necessary to carry out the purposes of the act.

(iv) To enter into voluntary arrangements or agreements with sellers relating to the fixing of maximum prices.

(v) To issue rules and regulations necessary to execute the purposes of the Emergency Price Control Act, to control speculative and manipulative practices, and to prevent circumvention and evasion.

(vi) To utilize the services of federal, state, and local agencies.

(vii) To make such studies and investigations and obtain such information as the Administrator deems necessary and proper to assist him in prescribing any regulation or order under the act. To require the furnishing of information by those engaged in dealing with commodities; the keeping of prescribed records; the making of prescribed reports; and the submission of books, records, and inventories for inspection.

(2) In discharging these responsibilities the Administrator must conform to the requirements of the cited price control acts and executive orders including among others that the Administrator shall:

(i) Issue with each regulation or order (except a temporary 60-day regulation or order) a statement of the considerations involved in the issuance of the regulation or order.

(ii) Advise and consult so far as practicable, with representative members of the industry which will be affected, before issuance of any regulation or order (except a temporary 60-day regulation or order).

(iii) Withdraw maximum prices in conformity with decontrol provisions of the Emergency Price Control Act.

(iv) Obtain the prior approval of the Secretary of Agriculture or Price Decontrol Board in cases specified by the Stabilization laws.

(3) Under the general direction of the Administrator, the price department is responsible for discharging the responsibilities and exercising the functions, powers, and duties of OPA for price control.

(b) *Rationing.* Authority of OPA for its rationing activities derives from the Second War Powers Act and from directives of the Secretary of Agriculture.

(1) Under the act and the directives, the Administrator has the responsibility of providing equitable rationing of designated commodities allocated to meet civilian requirements.

(2) Under the general direction of the Administrator, the price department is responsible for discharging the responsibilities and exercising the functions, powers, and duties of OPA for rationing commodities.

§ 1305.1312 *Office of the Deputy Commissioner for Sugar*—(a) *Organization.* The office of the deputy commissioner for sugar shall comprise the associate deputy commissioner, the office of field relations, and the administrative office.

(b) *Deputy Administrator.* In the discharge of the designated responsibilities of the department, the deputy commissioner for sugar, subject to the general supervision of the Administrator, shall:

(1) Be responsible for the administration of price programs, exclusive of policy, collect information on price, and provide technical supervision for the price program in the field.

(2) Determine commodity rationing policies, collect information on supply, flow, and distribution of commodities which are or may be subject to rationing controls, prepare commodity rationing orders and amendments, and provide technical supervision for the rationing program in the field.

(3) Direct and supervise the sugar department in the national office.

(c) *Associate deputy commissioner.* The associate deputy commissioner shall be responsible to the deputy commissioner for:

(1) Coordination of activities of the several divisions of the sugar department.

(2) Technical direction of price and rationing programs in field offices.

(3) Direction and supervision of the office of field relations and of the administrative office.

§ 1305.1313 *Office of field relations*—(a) *Organization.* The office of field relations, under the chief liaison officer, shall comprise the field liaison section and the procedures and field information section.

(b) *Chief liaison officer.* The chief liaison officer shall be responsible to the deputy commissioner for sugar for:

(1) Review and appraisal of regional office and sugar branch office rationing operations based on field office surveys.

(2) Consultation with division directors and branch chiefs to recommend changes in policy, regulations, and procedures.

(3) Preparation of administrative procedures and informational material for field offices.

(4) Direction and supervision of the office of field relations.

(5) Recommendations regarding personnel or operational changes deemed necessary in field offices.

(c) *Field liaison section.* Field liaison officers comprising this section shall be responsible to the chief liaison officer for:

(1) Continual travel within and inspection of regional offices, sugar branch offices, and regional issuance, verification, and distribution centers to determine the effectiveness of all sugar rationing and the degree of compliance with existing procedures of each field office.

(2) Review of operating procedures in field offices to determine that they are practical and conducive to efficiency and to recommend needed amendments.

(3) Review of issuances by field offices to determine that the several types of users receive appropriate allotments promptly pursuant to the sugar rationing regulations.

(4) Survey of field offices to determine the competency of organization and personnel and to recommend changes deemed necessary.

(d) *Procedural and field information section.* The procedures and field information section, under the section head, shall be responsible to the chief liaison officer for:

(1) Preparation of new procedures and revision of existing procedures to implement changes in regulations and improvements recommended by the field liaison section or the regional sugar executives.

(2) Periodic issuance of informational materials to field offices, including background information, statistics, suggestions for improving operation, and answer to field questions.

(3) Advance notice, whenever possible, of changes of policy, procedures, or regulations.

§ 1305.1314 *Administrative office* The administrative office, under the principal administrative officer, shall be responsible to the office of the deputy commissioner for sugar for:

(a) *Administrative management.* The administrative office shall provide management services in the sugar department, develop and install basic systems of work control and program reporting, and supervise the preparation of budget estimates and the control of budget allotments.

(b) *Management liaison.* The administrative office shall maintain liaison with the offices of administrative service, budget and planning, and personnel, to secure central management services for the sugar department.

(c) *Advice.* The administrative office shall advise the deputy commissioner for sugar and the executive heads of organization units in the sugar department concerning administrative management.

§ 1305.1315 *Divisions and branches.* Divisions and branches of the sugar department shall have the functions and responsibilities specifically assigned to them in the OPA Manual.

SUGAR LEGAL DIVISION

§ 1305.1320 *General responsibilities.* The sugar legal division, under the associate general counsel, shall be responsible for advising the sugar department staff as to the application of legal requirements and standards to administrative actions of the department and as to the development of policies and procedures to implement such requirements and standards.

§ 1305.1321 *Specific functions.* The specific functions assigned to the sugar legal division are:

(a) *Price legal.* (1) Advising the director of the price and supply division on legal requirements, standards, and procedures of price operations.

(2) Appraising for legal propriety, and approving, or objecting to, proposed formal price actions.

(3) Drafting all formal actions for the price branch, price and supply division.

(4) Preparing interpretations of the application to specific questions of legal requirements of price regulations, except those arising in connection with commodities and services decontrolled January 1, 1947.

(b) *Rationing legal.* (1) Preparing interpretations of the application of legal requirements of rationing regulations, including the application to specific questions of legal requirements of the veterans' regulations.

(2) Advising the director of the allotment division on legal requirements, standards, and procedures of ration adjustment operations and on legal requirements respecting veterans' applications for industrial user bases.

(3) Appraising for legal propriety and approving, or objecting to, proposed rationing actions and adjustment policies.

(4) Drafting all formal rationing actions of the sugar department.

§ 1305.1322 *Associate General Counsel.* The associate general counsel shall be responsible to the deputy commissioner for sugar for:

(a) Advising the deputy commissioner on all legal matters affecting the work of the department and provide counsel to the departmental staff as needed.

(b) Establishing legal policies and standards of legal workmanship for the department and securing conformity with legal policies and standards established by OPA.

(c) Maintaining liaison with other federal agencies and, in consultation with the deputy commissioner for sugar, representing the department and, when directed by the general counsel, representing OPA in legal matters concerning the sugar department.

(d) Directing and supervising the operations and personnel of the sugar legal division.

(b) Formulating policies for allotment adjustments and processing adjustment petitions.

(c) Formulating criteria and determining levels of allotment on the basis of supplies available for distribution.

(d) Determining allotments which may be available for new classes of users.

§ 1305.1352 *Office of the Director.* The director of the allotment division shall be responsible to the deputy commissioner for sugar for:

(a) Advice in the formulation of rationing plans, policies, and programs.

(b) Development of regulations, amendments to regulations, and orders for rationing sugar.

(c) Equitable administration of rationing regulations and adjustments of allotments under the regulations.

(d) Direction and supervision of the allotment division.

§ 1305.1353 *Institutional branch.* The institutional branch shall determine policies and administer sugar rationing programs governing all types of institutional users of sugar, including hospitals, hotels, and restaurants. Specifically, it shall:

(a) Formulate and establish institutional user policies.

(b) Determine and recommend methods for administering sugar rationing with respect to institutional users.

(c) Analyze, process, and pass upon special appeals of institutional users forwarded to the national office including petitions for adjustments and veterans' petitions for institutional refreshment bases.

§ 1305.1354 *Trade and industry branch.* The trade and industry branch shall formulate and establish policies for rationing sugar to industrial users, and certain condensed milk manufacturers, formulate and determine policies for the distribution of sugar at wholesale and retail levels, and administer sugar rationing programs for individual consumers and all levels of trade. Specifically, it shall:

(a) Formulate and administer the sugar rationing program with respect to industrial users and provisional allowance users.

(b) Formulate policies and administer the sugar rationing program with respect to wholesalers, retailers, and consumers, including inventories allowed and ration evidences used.

(c) Formulate policies and administer the sugar rationing program with respect to certain manufacturers of condensed milk, computing and authorizing allotments to be transmitted.

§ 1305.1355 *Industrial petitions branch.* The industrial petitions branch shall participate in the establishment of adjustment policies respecting industrial users and decide petitions of industrial users including candy manufacturers, bakeries, and beverage manufacturers. Specifically, it shall:

(a) Formulate policies affecting applications of veterans for industrial user bases; review, analyze, and prepare decisions on veterans' petitions; and post audit field office actions on veterans' petitions.

(b) Review, analyze, and prepare decisions on petitions for adjustment and relief of manufacturers of beverage products, and manufacturers of bakery products.

(c) Review, analyze, and prepare decisions on petitions for adjustment, new bases, or relief of industrial users who require sugar for manufacture of pharmaceuticals or chemicals, or for other industrial uses not specifically covered by the other sections of the industrial petions branch.

3. In Subpart L (text) the following item is inserted after § 1305.2304:

CONSOLIDATION AND LIQUIDATION OF FIELD OFFICES

§ 1305.2325 *Purpose of chapter.* This chapter establishes the authority and procedure for consolidation and liquidation of district and branch offices, and delegates requisite administrative authority to the regional administrators to effectuate consolidation and liquidation orders.

§ 1305.2326 *Authority and responsibility.* The Temporary Controls Administrator delegates to the regional administrator of each OPA region authority to issue such administrative orders as may be necessary to effectuate consolidation and liquidation of district and branch offices under his jurisdiction, upon issuance of a consolidation or liquidation order by the Administrator. Each regional administrator is responsible for seeing that the consolidation and liquidation of district and branch offices are accomplished in accordance with reorganization instructions issued by the Assistant to the Commissioner.

§ 1305.2327 *Actions of district and branch offices.* Actions taken by any liquidated or consolidated district or branch office authorizing or requiring any person to perform any act authorized or required under OPA orders, regulations, or directives, shall be taken as the action of the regional office and remain in full force and effect until the authorization or requirement expires or is terminated or modified by appropriate authority.

§ 1305.2328 *Residual functions.* (a) All functions, powers, and duties delegated or assigned to any district office under any OPA order, regulation, or directive are transferred to the regional office which has jurisdiction of the office at the time of its closing.

(b) All functions, powers, and duties delegated or assigned to any branch office under any OPA order, regulation, or directive are transferred to the branch office with which it is consolidated or to the regional office which has jurisdiction at the time of closing, as directed in the reorganization instruction ordering the action.

AUTHORITY: §§ 150.6a to 150.6n, inclusive, issued under sec. 2, Pub. Law 695, 79th Cong., 60 Stat. 949.

§ 150.6a *Statutory authority.* The act of August 8, 1946 (60 Stat. 949), authorizes the Secretary of the Interior, when he deems such action to be in the best interests of the United States, to accept title to any non-Federal lands, interest in lands, buildings, or other property, real or personal, within the authorized boundaries of the Glacier National Park, as then or thereafter established, and in exchange therefor, to convey to the grantors of such property, or to their nominees, any Federally owned lands, interests in lands, buildings, or other property, real or personal, within the boundaries of the Glacier National Park, located in the State of Montana, and administered by the National Park Service, which the Secretary determines are of approximately equal value to the property being acquired. In order to facilitate the making of such exchanges, the Secretary is authorized to enter into agreements for the reservation in conveyances to the United States or for the grant in conveyances from the United States, of such estates for years, life estates, or other interests, as may be consistent with the purposes of the act, but all such limitations must be considered in determining the equality of the interests to be exchanged.

Sections 150.6a to 150.6n, inclusive, do not apply to exchanges which involve no interest in real property.

§ 150.6b *Informal application.* All preliminary negotiations relating to an exchange under the above act are to be conducted with the National Park Service. Any owner of property within the boundaries of the Glacier National Park who desires to take advantage of the privileges conferred by said act, must file with the Director, National Park Service, an informal application describing the privately owned property, which is offered to the United States and the property which is selected in exchange therefor. If the Director, National Park Service is of the opinion that the value of the property offered is equal to or more than the value of the selected property, and that the exchange should be consummated, he will so advise the applicant by letter, stating, among other things, his determination as to values, and will instruct the applicant to file in the District Land Office at Great Falls, Montana, the letter, together with a formal application to exchange.

§ 150.6c *Formal application.* The formal application, which must be filed in duplicate, should contain the full name and post office address of the applicant, a description of the property offered to the Government and the property selected in exchange therefor; a statement as to what, if any, reservations, easements, or rights-of-way are being made in the offered land; a statement that the applicant is the owner of the property offered in exchange, that he is legally capable of consummating the exchange, and that such property is not the basis of another selection or exchange; a statement by the applicant or some credible person possessed of the requisite knowledge, that the land selected is nonmineral in character, contains no salt springs or deposits of salt in any form to render it chiefly valuable therefor, and is not in any manner occupied or claimed adversely to the applicant; and a statement corroborated by two credible witnesses as to springs and water holes in accordance with 43 CFR 292.1–292.9. The application should be accompanied by the letter received from the National Park Service signifying its approval of the consummation of the proposed exchange. Any application not accompanied by such a letter will be rejected. The offered and selected property in the formal application must be identical with the property referred to in the letter of the National Park Service and all lands should be described by legal subdivisions of the public land surveys, except where unsurveyed land is selected and in which case, the description thereof must conform to 43 CFR 101.6. Where application is made to select unsurveyed land, such land must be surveyed, and the application and valuation must be adjusted to survey before patent can issue for such selected land.

Where the application is filed by an individual he will be required to show he

is 21 years of age, and otherwise capable of carrying through the transaction.

Where the application is made by or in behalf of a corporation, a certified copy of the articles of incorporation must be furnished. If the corporation is organized under a State other than Montana the articles of incorporation must be accompanied by a certificate showing that the corporation is authorized to do business in the State of Montana.

§ 150.6d *Fees.* Fees must be paid by the applicant at the rate of $2 for each 160 acres, or fraction thereof, of the base lands offered and conveyed to the Government.

§ 150.6e *Action by District Land Office.* If the application appears regular and in conformity with the law and §§ 150.6a to 150.6n, inclusive, the District Land Office will assign a serial number thereto and after appropriate notations have been made upon the records of that office, the application and accompanying papers should be forwarded to the Bureau of Land Management together with a report as to the status of any of the lands involved in the application.

§ 150.6f *Action by Bureau of Land Management.* Upon receipt of all the evidence required in the Bureau of Land Management, examination will be made at as early a date as practicable and if the evidence is found defective an opportunity will be given the parties in interest to cure the defects, if possible. If the application appears regular and in conformity with the law and §§ 150.a to 150.n, inclusive, it will, in the absence of objection, be transmitted to the Secretary of the Interior by the Director, Bureau of Land Management with appropriate recommendation.

If the Secretary determines that the value of the offered property is equal to or more than the value of the selected property and that the application should be allowed, the exchange will be approved, subject to the submission of acceptable title to the offered property and to full compliance by the applicant with §§ 150.a to 150.n, inclusive, and subject to any protests or other valid objections which may appear.

§ 150.6g *Publication and posting of notice.* Upon approval of the application by the Secretary, instructions will issue to the District Land Office regarding publication of notice thereof. The applicant will begin publication of notice thereof, at his own expense, in some newspaper, designated by the Bureau of Land Management and having general circulation in the county, or counties, in which the property offered and the property selected are situated. Such notice must be published once each week for four successive weeks during which time a similar notice of the application must be posted in the District Land Office. The notice should describe the property applied for as well as the property offered in exchange and give the date of filing of the application, and state that the purpose thereof is to allow all persons claiming the property selected, or having bona fide objections to such application, an opportunity to file their protests with the District Land Office at Great Falls, Montana. Proof of publication shall consist of an affidavit of the publisher or of the foreman or other proper employee of the newspaper in which the notice was published, with a copy of the published notice attached. The Manager shall certify to the posting in his office. The date of such publication and posting must be given in all cases.

§ 150.6h *Protests; additional papers to be filed; action by Manager.* If a protest is filed, all the papers should be transmitted to the Bureau of Land Management for consideration; but should no protest be filed against the allowance of the selection within 30 days from the date of the first publication of notice, and no objections appear on the records of the District Land Office, the Manager will notify the applicant that he is allowed 60 days from receipt of notice within which to file the deed or other instrument conveying the offered property to the Government, together with such title evidence as may be required by §§ 150.a to 150.n, inclusive. After the filing of the required evidence, the Manager will promptly transmit all papers to the Bureau of Land Management.

§ 150.6i *Deed or instrument of conveyance.* The deed of conveyance or other instrument transferring title to the offered property to the United States must be executed, acknowledged and duly recorded in accordance with the laws of the State of Montana. Such revenue stamps as are required by law must be affixed to the instrument and canceled. The instrument should recite that it is made "for and in consideration of the exchange of certain property as authorized by the Act of August 8, 1946 (60 Stat. 949)."

Where such instrument is executed by an individual, it must show whether the person making the conveyance is married or single. If married, the wife or husband of such person as the case may be, must join in the execution and acknowledgement of the instrument in such manner as to bar effectually any right of curtesy or dower, or any claim whatsoever to the property conveyed, or it must be fully and satisfactorily shown that under the laws of the State of Montana in which the property conveyed is situated, such husband or wife has no interest whatsoever, present or prospective, which makes his or her joining in the instrument necessary. Where the instrument is executed by a corporation, it should recite that it was executed pursuant to an order or by the direction of the board of directors, or other governing body, and a copy of such order or direction must accompany such instrument and both should bear the impression of the corporate seal.

§ 150.6j *Abstract of title; title insurance; certificate of title.* Where land or an interest in land is conveyed, applicant must file an abstract of title, a policy of title insurance or a certificate of title, as hereinafter provided.

The abstract of title must show that the title memoranda contained therein are a full, true and complete abstract of all matters of record or on file in the offices of the recorder of deeds and in the offices of the clerks of courts of record of that jurisdiction, including all conveyances, mortgages, pending suits, judgments, liens, lis pendens, or other encumbrances or instruments which are required by law to be filed with the recording officer and which appear in the records of the office of the clerks of courts of record affecting in any manner whatsoever the title to the land or property to be conveyed to the United States. The abstract of title may be prepared and certified by the recorder of deeds or other proper officer under his official seal, or it may be prepared and authenticated by an abstractor or by an abstract company, which is satisfactory to the Department of the Interior.

A policy of title insurance, or a certificate of title, may be accepted in lieu of an abstract, in proper cases, when issued by a title company. A policy of title insurance when furnished must be free from conditions and stipulations not acceptable to the Department of the Interior. A certificate of title will be accepted only where the certificate is made to the Government, or expressly for its benefit, and where the interests of the Government will be sufficiently protected thereby.

§ 150.6k *Taxes.* The applicant must furnish a certificate by the proper official of the county in which the property conveyed to the United States is situated, showing that all taxes levied or assessed against the property, or that could operate thereon as a lien, have been fully paid, or whether there is a tax due on such property that could operate as a lien thereon but which tax is not yet payable, and that there are no unredeemed tax sales and no tax deeds outstanding against such property. In case taxes have been assessed or levied on such property, and such taxes are not due and payable until some future date, the applicant, in addition to the certificate above required relative to taxes and tax assessments, may furnish a bond with a qualified corporate surety for the sum of twice the amount of taxes paid on the property for the previous year in order to indemnify the United States against loss for the tax as assessed or levied but not yet due and payable. In lieu of the bond the applicant may submit a sum similar to that required in the case of a bond, and if and when proper evidence is furnished showing the taxes on the property conveyed have been paid in full, the said sum will be returned to the applicant.

§ 150.6l *Further action by Bureau of Land Management.* The publication of notice, deed or other instrument of conveyance, abstract of title and other evidence required of the applicant will, upon receipt in the Bureau of Land Management, be examined, and if found regular and in conformity with law, and there are no objections, title will be accepted to the property conveyed to the United States and patent or other instrument of transfer will issue for the property selected in exchange. Notice of additional requirements, rejection or other adverse action will be given the applicant.

§ 150.6m *Conveyed property a part of the Glacier National Park.* All property conveyed to the United States pursuant to §§ 150.6a to 150.6n, inclusive, shall, upon acceptance of title, become a part of the Glacier National Park, and shall be subject to all laws applicable to such area.

§ 150.6n *Appeals.* Any party aggrieved by any action of the Manager may appeal to the Director of the Bureau of Land Management and any party aggrieved by any action of the Director, Bureau of Land Management or the Director, National Park Service, may appeal to the Secretary, pursuant to rules of practice (43 CFR, Part 221).

FRED W. JOHNSON,
Acting Director.

Approved: January 15, 1947.

OSCAR L. CHAPMAN,
Acting Secretary of the Interior.

TITLE 45—PUBLIC WELFARE

Subtitle A—Federal Security Agency, General Administration

PART 1—ORGANIZATION AND DELEGATIONS OF FINAL AUTHORITY

MISCELLANEOUS AMENDMENTS

1. Section 1.1 (11 F. R. 177A–518–519) is hereby amended to read as follows:

§ 1.1 *In general.* The Federal Security Agency is under the general supervision, direction and control of the Federal Security Administrator. In the absence or disability of the Administrator or in case of a vacancy in the Office of the Federal Security Administrator, the Assistant Federal Security Administrator acts as Administrator. The Agency is composed of six staff offices, to wit: Office of Administration, Office of the General Counsel, Office of Federal-State Relations, Office of Inter-Agency and International Relations, Office of Research, and Office of Information, and four operating branches, to wit: Public Health Service, Social Security Administration, Office of Education, and Office of Special Services. The Office of the Federal Security Administrator consists of the Administrator, Assistant Administrator, Assistants to the Administrator Staff Offices, heads of Operating Branches, and such staff committees and boards as the Administrator from time to time may establish. The Assistant Administrator is authorized to make contracts for personnel services, supplies, and equipment.

2. Section 1.3 (11 F. R. 177A–519) is hereby amended to read as follows:

§ 1.3 *Office of the General Counsel.* The Office of the General Counsel is under the supervision and direction of the General Counsel. It furnishes legal services and advice to the Administrator, Assistant Administrator, and all offices, branches and units of the Federal Security Agency, and generally supervises all legal activities of the Agency and its constituent units. The Office represents the Agency in litigation when direct representation is authorized by law and performs all liaison functions in connection with legal matters involving the Agency. The Office of the General Counsel is composed of a departmental staff located in Washington, D. C. and Baltimore, Maryland, a division in New York, New York, to service the Bureau of Employees' Compensation, and a regional staff under the direction of the regional attorneys, whose offices are located as follows:

No. 1. Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut; Boston, Mass.

Nos. 2 and 3. New York, New Jersey, Pennsylvania, Delaware; New York, N. Y.

No. 4. Maryland, Virginia, North Carolina, West Virginia, District of Columbia; Washington, D. C.

No. 5. Kentucky, Michigan, Ohio; Cleveland, Ohio.

No. 6. Illinois, Indiana, Wisconsin; Chicago, Ill.

No. 7. South Carolina, Georgia, Tennessee, Mississippi, Alabama, Florida; Atlanta, Ga.

No. 8. North Dakota, South Dakota, Nebraska, Iowa, Minnesota; Minneapolis, Minn.

No. 9. Missouri, Kansas, Arkansas, Oklahoma; Kansas Cty, Mo.

No. 10. Louisiana, Texas, New Mexico, San Antonio, Tex.

No. 11. Montana, Idaho, Wyoming, Utah, Colorado; Denver, Colo.

No. 12. California, Oregon, Washington, Nevada, Arizona; San Francisco, Calif.

3. Section 1.4 (11 F. R. 177A–519) is hereby amended to read as follows:

§ 1.4 *Office of Federal-State Relations.* The Office of Federal-State Relations is under the supervision and direction of the Director of Federal-State Relations. It studies and investigates the operation of the various grant-in-aid programs conducted by the Agency and consults with representatives of Federal and State agencies administering such programs to secure their advice on standards and procedures for the better coordination of the administration of such programs. The Office develops and recommends to the Administrator policies, methods, and procedures whereby the Administrator can establish, insofar as possible, uniform standards and procedures relating to fiscal, personnel and other matters common to two such programs and standards and procedures under which a State agency participating in more than one grant-in-aid program may submit a single plan of operation and be subject to a single Federal fiscal and administrative review of its operations.

4. Section 1.7 (11 F. R. 177A–519) is hereby amended to read as follows:

§ 1.7 *Office of Information.* The Office of Information is under the supervision and direction of the Director of Information. It is responsible for the general direction and coordination of all information activities within the Agency and for the establishment of unified informational policies and procedures within the Agency. The Office prescribes procedures for clearance of publications and other informational materials prepared by and for the use of the various organizations within the Federal Security Agency and in matters relating to informational activities, serves as clearance and liaison office in contacts with other agencies.

5. The first paragraph of § 1.21 (11 F. R. 177A–519–520) is hereby amended to read as follows:

§ 1.21 *Social Security Administration.* The Social Security Administration is under the supervision and direction of the Commissioner for Social Security. The Deputy Commissioner assists the Commissioner in the performance of all his duties and acts for him in his absence; the Deputy Commissioner is responsible for the effectuation, through the several bureaus and offices of the Administration, of the policies and decisions of the Commissioner, and for the coordination of all operations and activities of the Administration, and for the general direction of staff services. The Administration includes four operating bureaus, namely, Bureau of Old-Age and Survivors Insurance, Bureau of Employment Security, Bureau of Public Assistance, and the Children's Bureau; three staff bureaus, namely, Bureau of Accounts and Audits, Bureau of Research and Statistics, and Informational Service; the Office of the Actuary; the Office of the Appeals Council; the State Technical Advisory Service; Personnel and Business Management Service; and divisions or offices aiding the Deputy Commissioner directly in his responsibilities for coordination and budget preparation and control, direction of field operations, publications preparation and reviews, and staff training. In addition, the Commissioner has and performs, under the general supervision, direction and control of the Administrator, all duties, powers and functions relating to Civilian War Assistance vested in the Administrator by the Federal Security Agency Appropriation Act, 1947. The Administration maintains thirteen regional offices, each under the supervision of a Regional Director as representative of the Commissioner.

6. Part 1 is hereby amended by adding §§ 1.30 and 1.31.

§ 1.30 *Federal Security Agency Claims Board.* The Federal Security Agency Claims Board in the Office of the Federal Security Administrator, is composed of three members appointed by the Administrator, two of whom shall have been nominated by the General Counsel. The Administrator designates the Chairman. The Board is authorized, as the designee of the Administrator for the purpose, to perform the duties and exercise the authority vested in the Administrator by the Federal Tort Claims Act and to formulate and prescribe rules, regulations, procedures or instructions for investigating and otherwise handling throughout the Agency claims and situations out of which claims or suits may arise under the Federal Tort Claims Act and situations of the character contemplated by the Federal Tort Claims Act out of which claims or suits by the Government for damage to Government property may arise. All decisions of the Board are by majority vote. Any notice or writing required by sections 403 and 410 of the Federal Tort Claims Act to be served on the Agency or on a constituent organization or office thereof may be served on the Board.

§ 1.31 *Committee on Subversive Activities.* The Committee on Subversive Activities in the Office of the Federal Security Administrator, is composed of a Chairman, two other members, and an Executive Secretary, all of whom are appointed by the Administrator. The Committee investigates complaints of subversive activity on the part of employees of the Agency and makes reports to the Administrator together with recommendations as to appropriate action to be taken in each case. If the Committee finds that an employee may have engaged in activities of a subversive nature, the employee is furnished with a statement indicating the nature of the charge against him and he is provided with an opportunity to be heard. The Committee also cooperates with the Department of Justice and other Federal agencies or committees concerned with the investigation of subversive activities on the part of Federal employees.

The foregoing statement is ordered to be published in the FEDERAL REGISTER in compliance with section 3 of the Administrative Procedure Act.

PART 10—PUBLIC INFORMATION AND INSPECTION OF FINAL OPINIONS, ORDERS AND OFFICIAL RECORDS

MISCELLANEOUS AMENDMENTS

1. Section 10.1 (11 F. R. 177A-520) is hereby amended to read as follows:

§ 10.1 *Public information.* Information concerning the Federal Security Agency generally or the functions of the Federal Security Administrator, Assistant Administrator, Staff Offices and Operating Branches of the Agency may be obtained, and submittals or requests made in person or by letter at the Office of Administration, Federal Security Agency Federal Security Building, Washington 25, D. C. For places at which information may be obtained or submittals or requests made with respect to particular programs administered within the Federal Security Agency, see 20 CFR Chapter I, Part 01, Bureau of Employees' Compensation; 20 CFR 421.1 (b), 421.6 (b), Social Security Administration (Old-Age and Survivors Insurance); 21 CFR 1.3, Food and Drug Administration; 42 CFR 02.107, Public Health Service; 42 CFR 205.5, Children's Bureau; 42 CFR 300.1, Saint Elizabeths Hospital; 42 CFR 400.1, Freedmen's Hospital; 45 CFR 100.3, Office of Education; 45 CFR 200.7, Public Assistance; 45 CFR 300.7, Employment Security; 45 CFR 605.3, Office of Vocational Rehabilitation.

2. Section 10.5 (11 F. R. 177A-520) is hereby amended to read as follows:

§ 10.5 *Inspection of final opinions, orders and official records.* All final opinions and orders of the Federal Security Administrator in the adjudication of cases, all rules and official records relating to particular programs administered within the Federal Security Agency are available for inspection in accordance with rules set forth at 20 CFR 01.5, 01.6, Bureau of Employees' Compensation; 20 CFR 422.2, 422.7, Social Security Administration (Old-Age and Survivors Insurance); 21 CFR 1.5, 1.6, Food and Drug Administration; 42 CFR 02.111, 02.112, Public Health Service; 42 CFR 205.6, 205.7, Children's Bureau; 42 CFR 300.5, Saint Elizabeths Hospital; 42 CFR 400.6, Freedmen's Hospital; 45 CFR 100.4, 100.5, Office of Education; 45 CFR 200.8, 200.9, Public Assistance; 45 CFR 300.8, 300.9, Employment Security; 45 CFR 605.4, 605.5, Office of Vocational Rehabilitation. Except as relates solely to internal management of the Agency, all other final opinions and orders in the adjudication of cases, all other rules and, as to persons properly and directly concerned, all other official records are available for inspection at the Office of Administration, Federal Security Agency, Federal Security Building, Washington 25, D. C., except that the Administrator, for good cause, may hold any official records, final opinion or order or any part thereof confidential, in which event such opinion, or order or part thereof will not be cited as a precedent.

The foregoing statement is ordered to be published in the FEDERAL REGISTER in compliance with section 3 of the Administrative Procedure Act.

PART 30—ADMINISTRATIVE PROCEDURES AND FORMS

MISCELLANEOUS AMENDMENTS

1. Section 30.1 (11 F. R. 177A-520-521) is hereby amended to read as follows:

§ 30.1 *In general.* (a) The procedures and forms relating to the particular programs administered within the Federal Security Agency are set forth in 20 CFR Chapter III, Social Security Administration (Old-Age and Survivors Insurance); 21 CFR Chapter I, Food and Drug Administration; 42 CFR Chapter I, Public Health Service; 42 CFR Chapter II, Children's Bureau; 42 CFR Chapter III, Saint Elizabeths Hospital; 42 CFR Chapter IV, Freedmen's Hospital; 45 CFR Chapter I, Office of Education; 45 CFR Chapter II, Public Assistance; 45 CFR Chapter III, Employment Security; 45 CFR Chapter VI, Office of Vocational Rehabilitation.

(b) The procedures and forms, other than those relating to internal management, employed in connection with recruitment and employment of personnel are those prescribed by the United States Civil Service Commission. See Code of Federal Regulations, Title 5. The procedures and forms used in connection with the procurement of supplies and the making of contracts are those prescribed by the Procurement Division, Department of the Treasury, and other Federal agencies having jurisdiction. See Code of Federal Regulations, Title 41 (Public Contracts).

2. Section 30.2 (11 F. R. 177A-521) is hereby amended to read as follows:

§ 30.2 *Claims for damages.* (a) The Federal Security Agency Claims Board has been authorized, as the designee of the Federal Security Administrator for the purpose, to perform the duties and exercise the authority vested in the Administrator by the Federal Tort Claims Act. No formal procedures have been established for the consideration of claims for damage to or loss of property or injury to person alleged to have been caused by commissioned or civilian officers or employees of the Federal Security Agency while acting within the scope of their employment. Claims should be filed in writing within the time limit prescribed by law at the field office of the constituent organization of the Agency by which the officer or employees allegedly causing the damage is employed, at the departmental office of the constituent organization, or with the Federal Security Agency Claims Board, Federal Security Building, Washington 25, D. C.

(b) Upon receipt of a written claim, a form is mailed to the claimant at the address indicated in his claim. The form should be completed and returned together with a repair bill if the damage has been repaired, or if not repaired, with estimates of the cost of making the repairs. Separate estimates by three reputable individuals or concerns who are in the business of making the repairs required to remedy the damage allegedly caused by the officer or employee of the Agency should be submitted. If the property is destroyed or damaged beyond repair competent proof of the value of the property at the time of loss in addition to evidence of its original cost should be submitted. If personal injuries are involved, a complete medical statement and bills for such medical expenses as have been incurred should be submitted together with an itemized statement of all elements of the claim.

(c) In case of damages occasioned by collisions or incident to the operation of vessels of the Public Health Service, a board of investigation may be convened to investigate the accident. Notice of the creation of the investigatory board, if convened, is given to the claimant and he may submit pertinent and relevant evidence for its consideration. Upon receipt of the report of the field office, or in cases where an investigatory board has been convened, by the investigatory board, and the forms properly completed together with the other requisite information, the head of the constituent organization considers the claim and makes appropriate recommendations to the Federal Security Agency Claims Board indicating whether the claim should be allowed or disallowed, and if allowed, the amount that should be awarded. The Office of the General Counsel reviews the contents of the file for legal sufficiency, after which they are considered by the Federal Security Agency Claims Board which may accept, reject, or modify the recommendations. The Federal Security Agency Claims Board may fix the attorney's fees to be paid to the claimant's attorney out of but not in addition to amount awarded. The claimant is promptly notified of the action of the Federal Security Agency Claims Board.

The foregoing statement is ordered to be published in the FEDERAL REGISTER in compliance with section 3 of the Administrative Procedure Act.

SECURITIES AND EXCHANGE COMMISSION

[File Nos. 54-68 and 59-55]

COMMUNITY GAS AND POWER CO., ET AL.

ORDER APPROVING AMENDMENT

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 14th day of January A. D. 1947.

In the matter of Community Gas and Power Company, American Gas and Power Company, File No. 54-68; Community Gas and Power Company, American Gas and Power Company, and the subsidiary companies thereof, respondents, File No. 59-55.

The Commission on February 27, 1946, and on April 10, 1946, having issued its findings and opinion and its supplemental findings and order approving a modified plan of reorganization filed, pursuant to section 11 (e) and other sections of the Public Utility Holding Company Act of 1935, by Community Gas and Power Company ("Community") and American Gas and Power Company ("American"), registered holding companies;

The Commission on April 11, 1946, at the request of Community and American, having instituted proceedings, pursuant to the provisions of sections 11 (e) and 18 (f) of the act, in the District Court of the United States for the District of Delaware to enforce and carry out the terms and provisions of said plan, the hearing in said proceedings having been adjourned by order of said Court to a date to be fixed by further order of said Court;

Community and American thereafter having filed an amendment to said plan, designated as Amendment No. 14; and

The Commission having this day issued its supplemental findings and opinion, in accordance with said findings and opinion;

It is ordered, Pursuant to section 11 (e) of the act, that said Amendment No. 14 be and it is hereby approved and said plan as modified and amended be and it is hereby approved, subject, however, to the terms and conditions specified in our order of April 10, 1946.

It is further ordered and recited, That the issues, exchanges, conveyances and dissolutions specified and itemized in the plan, as amended and modified, are necessary or appropriate to the integration or simplification of the holding company system of which Community, American and Minneapolis are members, and are necessary or appropriate to the effectuation of the provisions of section 11 (b) of the Public Utility Holding Company Act of 1935.

By the Commission.

NEW ENGLAND GAS AND ELECTRIC ASSN. AND DEDHAM AND HYDE PARK GAS CO.

NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 16th day of January 1947.

Notice is hereby given that a joint application has been filed with this Commission, pursuant to the Public Utility Holding Company Act of 1935, by New England Gas and Electric Association ("New England"), a registered holding company, and by its wholly-owned subsidiary, Dedham and Hyde Park Gas Company. Sections 6 (b) and 10 of the act and Rule U-20 thereunder are designated as being applicable to the proposed transaction.

Notice is further given that any person may, not later than January 24, 1947, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law raised by said application proposed to be controverted, or may request that he be notified if the Commission should order a hearing thereon. At any time thereafter, such application, as filed or as amended, may be granted as provided in Rule U-23 of the rules and regulations promulgated pursuant to said act, or the Commission may exempt such transaction as provided in Rule U-20 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Street, Philadelphia 3, Pennsylvania.

All interested persons are referred to said application, which is on file in the

office of this Commission, for a statement of the transactions therein proposed, which are summarized as follows:

1. Dedham proposes to issue and sell to its parent, New England, 6,000 additional shares of common capital stock at the par value of $25 per share (total proceeds $150,000) and to use the proceeds thus realized for the purpose of paying the $150,000 principal amount of open account indebtedness owing to New England.

2. Dedham proposes to issue and sell privately to Massachusetts Mutual Life Insurance Company $125,000 principal amount of 3½% Serial Notes, Series A due 1961, at 102¼. Said notes are to be issued under an Indenture of Trust naming the Old Colony Trust Company as Trustee. The net proceeds to be realized from the sale of the note issue, together with $87,140 to be drawn from the company's Plant Replacement Fund Asset's Account, will be used to pay a short-term note in the amount of $25,000 payable to The First National Bank of Boston and to finance extensions, additions and improvements to Dedham's plant and properties during the three year period ended December 31, 1948.

Applicants state that the proposed transactions were expressly authorized by the Massachusetts Department of Public Utilities by order dated December 10, 1946.

By the Commission.

ELECTRIC BOND AND SHARE CO.

NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 16th day of January A. D. 1947.

Notice is hereby given that an application and declaration have been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by Electric Bond and Share Company (Bond and Share), a registered holding company. Applicant-declarant has designated sections 9 (a), 10 and 12 (d) of the act and Rule U-44 of the rules and regulations promulgated thereunder as applicable to the proposed transactions.

Notice is further given that any interested person may, not later than January 27, 1947, at 11:00 a. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest and the issues of fact or law raised by said application-declaration which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. At any time after 11:00 a. m., e. s. t., January 27, 1947, such application and declaration, as filed or as amended, may be granted and may become effective, respectively, as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rule U-20 (a) and Rule U-100 thereof.

All interested persons are referred to said application and declaration which is on file in the offices of this Commission for a statement of the transactions therein proposed which are summarized as follows:

Bond and Share's Plan II-A, as amended, approved by the Commission on September 6, 1946, provided, among other things, that the company offer to its common stockholders warrants evidencing the right to purchase for each share of the common stock of Bond and Share held, .16 of a share of the common stock of American Gas and Electric Company (American), and .20 of a share of the common stock of Pennsylvania Power & Light Company (Pennsylvania). The company set January 17, 1947 as the record date for determining the common stockholders of the company who shall be entitled to receive such warrants and it is anticipated that the offering period will be in the early part of February 1947, although exact dates have not yet been determined. The offering period will commence on the day following the date on which notice thereof together with the warrants are mailed to the company's stockholders and will remain open for a period of 18 days.

The price at which the American and Pennsylvania common stocks will be offered will be a price (reduced by any amount necessary to equal the nearest one-quarter dollar) equal to $7 and $3.50 less, respectively, than the closing sale price of such stocks on the New York Exchanges on the day (to be selected by the company) which shall not be more than 16 days immediately preceding the first day of the offering period.

In the present application and declaration, Bond and Share requests permission to purchase at any time during the offering period common stock of American and Pennsylvania and warrants to be issued by Bond and Share in connection therewith, for the purpose of stabilizing the market prices of these securities. Any purchases by Bond and Share for the purpose of such stabilization will commence as to the common stock of American at a price (exclusive of commissions) not in excess of $7 per share above the offering price of said stock to the common stockholders of Bond and Share or the last preceding sale price on the New York Curb Exchange, whichever is lower; and as to the common stock of Pennsylvania, at a price not in excess of $3.50 per share above the offering price of said stock to the common stockholders of Bond and Share or the last preceding sale price of said stock on the New York Stock Exchange, whichever is lower. Any purchase of warrants of these securities will commence at a price not in excess of the price at which the last preceding sale of such rights was made on the New York Curb Exchange, or in the event no preceding sale has occurred, such initial purchase will be made at a price not in excess of the computed value of the rights based on differential between the offering price of the security and the last preceding sale price of such security on the respective New York Exchanges on which they are traded.

Bond and Share also requests permission to sell, during the offering period, the shares of stocks or warrants so acquired, by sales on or off the Exchanges. Any sales of stock effected off the Exchanges are to be at a price substantially equivalent to the last sales price during the day on the respective New York Exchanges where such stocks are traded. Any sale of warrants will be effected at prices not exceeding the current prices thereof quoted on the New York Curb Exchange.

The purchase by the company of warrants which are not thereafter resold will constitute a withdrawal by the company of certain shares of American and Pennsylvania from the proposed offering to its common stockholders. The company, therefore, also requests permission to sell during the offering period the number of shares of common stock of American or Pennsylvania which the rights purchased by the company (and not thereafter resold) entitle the holder thereof to purchase.

In connection with the stabilization transactions relating to the common stock of American and Pennsylvania, Bond and Share represents that it will at no time acquire a net long position (exclusive of shares presently owned by the company and not being offered to common stockholders) of shares of common stock of either American or Pennsylvania in excess of 10% of the aggregate number of shares of common stock of each of said companies being offered to its common stockholders. If the company retains any of the shares so acquired after the termination of the offering period, it will sell such shares in accordance with the provisions of Plan II-A, as amended, relating to any shares of such stock not offered to, or not purchased by, Bond and Share common stockholders.

Bond and Share requests that the order of the Commission approving the proposed transactions contain findings and recitations conforming to the provisions and requirements of section 1808 (f) of the Internal Revenue Code, as amended.

Bond and Share also requests that the Commission's order granting the application and permitting the declaration to become effective be issued as soon as possible and become effective forthwith so that the company may be in a position to expedite the consummation of its Plan II-A, as amended.

By the Commission.

VOLUME 12 NUMBER 17

Washington, Friday, January 24, 1947

TITLE 7—AGRICULTURE

Subtitle A—Office of the Secretary of Agriculture

PART 4—OIL AND GAS LEASES

OIL AND GAS RIGHTS; POLICY

By virtue of the authority vested in the Secretary of Agriculture by the act of August 14, 1946 (60 Stat. 1062), and 40 Ops. Att'y Gen. No. 7, I, Clinton P. Anderson, Secretary of Agriculture, do hereby amend §§ 4.1 and 4.2 of Part 4, Subtitle A, Title 7, Code of Federal Regulations, as follows:

1. Section 4.1 is amended to read as follows:

§ 4.1 *Oil and gas rights to which the regulations in this part apply.* The regulations promulgated are applicable to oil and gas rights owned by the United States and under the jurisdiction of the Department of Agriculture or any agency thereof. They are not applicable to oil and gas rights in (a) lands with respect to which the mineral functions were transferred to the Secretary of the Interior for administration pursuant to Reorganization Plan No. 3 of 1946 (11 F. R. 7875); (b) lands reserved from the public domain or acquired by exchange pursuant to the act of March 20, 1922 (42 Stat. 465, 16 U. S. C. 485, 486), as such lands are subject to the laws applicable to the public domain and the authority to execute such laws is vested in the Secretary of the Interior; or (c) lands acquired by any agency under the supervision of the Farm Credit Administration.

Information as to the lands and mineral rights as to which the regulations in this part apply can be obtained from the local forest supervisor or from the State Director of the Farmers Home Administration.

2. Paragraph (a) of § 4.2 is amended to read as follows:

§ 4.2 *Policy as to development.* (a) In lands subject to the provisions of the Farmers Home Administration Act of 1946 (60 Stat. 1062), the Secretary will issue leases for general development of oil and gas resources upon his determination that such leases are for the best interests of the United States.

PART 904—MILK IN THE GREATER BOSTON, MASSACHUSETTS, MARKETING AREA

TERMINATION OF EMERGENCY PERIOD NO. 1

On January 7, 1947, notice of proposed rule making was published in the FEDERAL REGISTER (12 F. R. 105) regarding the termination of § 904.201 *Emergency Period No. 1* (11 F. R. 12221), which became effective by declaration of the market administrator pursuant to the applicable provisions of Order No. 4, as amended, regulating the handling of milk in the Greater Boston, Massachusetts, marketing area, that an emergency existed in said marketing area in that the milk supply available to the marketing area from producers and from plants designated as pool plants under Order No. 27 was insufficient to meet the demand for Class I milk in the marketing area. After consideration of all relevant matters presented pursuant to the aforesaid notice, it is hereby found and determined that: (1) milk supply available to the marketing area from producers and from plants designated as pool plants under Order No. 27 is now sufficient to meet the demand for Class I milk in the Greater Boston, Massachusetts, marketing area and that the aforesaid emergency no longer exists; and (2) any delay in the effective date of the termination of the aforesaid emergency period beyond that herein specified would tend to obstruct the

Chapter I—Office of Temporary Controls

Subchapter D—Rules Affecting the Office of War Mobilization and Reconversion

PART 31—ESTABLISHMENT AND ORGANIZATION OF THE OFFICE OF PREMIUM PRICE PLAN FOR COPPER, LEAD, AND ZINC

Corrected Reprint

The following Part 31 which appeared as Part 3 in the issue of Thursday, January 23, 1947, page 470, is recodified and reissued as follows:

Sec.
31.1 Establishment of the Office of Premium Price Plan.
31.2 Organization of the Office of Premium Price Plan.
31.3 Appointment and functions of Director.
31.4 Appointments and functions of the Premium Review Board.
31.5 Basic regulations of the Premium Price Plan.
31.6 Responsibilities of the Office of Metals Reserve, Reconstruction Finance Corporation.
31.7 Transfer of personnel, records, and funds.
31.8 Effective date.

AUTHORITY: §§ 31.1 to 31.8, inclusive, issued under E. O. 9809, Dec. 12, 1946, 11 F. R. 14281.

§ 31.1 *Establishment of the Office of Premium Price Plan.* Pursuant to authority of Executive Order No. 9809, dated December 12, 1946, there is hereby established in the Office of War Mobilization and Reconversion, the Office of Premium Price Plan for Copper, Lead, and Zinc, hereinafter referred to as the Office of Premium Price Plan.

§ 31.2 *Organization of the Office of Premium Price Plan.* The Office of Premium Price Plan shall be composed of a Director, a Premium Review Board, and other necessary staff as determined by the Commissioner of War Mobilization and Reconversion.

§ 31.3 *Appointment and functions of Director.* (a) The Director shall be appointed by the Commissioner of War Mobilization and Reconversion. Under the policies of the Premium Review Board as approved by the Commissioner in the manner outlined in paragraph (b) of this section and § 31.4, he shall operate the Premium Price Plan pursuant to section 6 (a) of the Price Control Extension Act of 1946, Public Law 548, 79th Congress, approved July 25, 1946, and to directives and rules heretofore issued for the operation of the Premium Price Plan and such directives and regulations as may hereafter be issued by the Commissioner of War Mobilization and Reconversion, including regulations and amendments issued in accordance with § 31.5.

(b) *Assignment and revision of quotas.* The Director shall be responsible for the analytical work in connection with applications for and revisions of quotas and shall make recommendations to the Premium Review Board with respect to each quota and revision, subject to the exception provided in § 31.4.

§ 31.4 *Appointment and functions of the Premium Review Board.* The Premium Review Board shall be composed of three members, one appointed by the Commissioner of Civilian Production and who shall act as chairman; one appointed by the Commissioner of Price Administration and one appointed by the Board of Directors of the Reconstruction Finance Corporation. The Director shall not be appointed to the Premium Review Board. The Premium Review Board shall consider the recommendations of the Director as to the assignment and revision of quotas and shall determine, in each case, the assignment of the quota or the revision of the quota: *Provided*, That the Premium Review Board may establish standards and classifications which when certified to the Director in writing by the Board, will permit the assignment of quotas or quota revisions in accordance therewith without further reference to the Premium Review Board. Upon such determination the Director shall then issue, over his signature, the assignment or revision as so determined. The Premium Review Board shall also consider and determine questions of policy, subject to the approval of the Commissioner of War Mobilization and Reconversion. The Premium Review Board shall pass on appeals arising in the operation of the Plan. Appeals from a final decision of the Board may be taken to the Commissioner of War Mobilization and Reconversion, whose decision shall be final.

§ 31.5 *Basic regulations of the Premium Price Plan.* The Director shall cause to be prepared and upon approval by the Premium Review Board, shall submit to the Commissioner of War Mobilization and Reconversion for publication in the FEDERAL REGISTER, basic regulations under which the Premium Price Plan is operated, and shall cause them to be amended subject to the same approval, from time to time, as may be required,

[1] 19 CFR, Cum. Supp.

§ 31.6 *Responsibilities of the Office of Metals Reserve, Reconstruction Finance Corporation.* The Office of Metals Reserve, Reconstruction Finance Corporation, shall be responsible for the fiscal operations of the Premium Price Plan and shall make the payments required by the quota assignments.

§ 31.7 *Transfer of personnel records and funds.* Prior to organization of the Office of Premium Price Plan, the Commissioner of War Mobilization and Reconversion, the Commissioner of Civilian Production and the Commissioner of Price Administration shall present for the approval of the Temporary Controls Administrator a budget for the operation of the Office of Premium Price Plan for the remainder of the current fiscal year supported by a listing of the positions and personnel to be transferred, and a schedule showing details of the estimated cost for each object of expenditure and the amount which it is proposed to transfer from each appropriation currently available for the purpose. Upon approval of the said budget the positions, personnel and funds listed therein shall be transferred to the Office of War Mobilization and Reconversion together with the necessary records and equipment as agreed upon by the respective commissioners and approved by the Administrator. Any unpaid obligations not listed specifically in the approved budget shall be liquidated by the office in which such obligations are now recorded.

§ 31.8 *Effective date.* The provisions of this order shall become effective on January 27, 1947.

Issued this 16th day of January 1947.

PHILIP B. FLEMING,
Temporary Controls Administrator.

PART 806—TECHNICAL DATA

Part 806 *Technical data* is hereby amended to read as follows:

Sec.
806.1 Definition.
806.2 General licenses:
806.3 General provisions.

AUTHORITY: §§ 806.1 to 806.3, inclusive, issued under sec. 6, 54 Stat. 714, 55 Stat. 206, 56 Stat. 463, 58 Stat. 671, 59 Stat. 270, 60 Stat. 215; 50 U. S. C. App. Sup. 701, 702; E. O. 9630, September 27, 1945, 10 F. R. 12245.

§ 806.1 *Definition.* Technical data is hereby defined as "any professional, scientific or technical information, including any model, design, photograph, photographic negative, document, or commodity, containing a plan, specification, or descriptive or technical information of any kind which can be used or adapted for use in connection with any process, synthesis or operation in the production, manufacture, reconstruction, servicing, repair, or use of any commodity."

§ 806.2 *General licenses*—(a) *Definition.* A general license is a license issued by the Department of Commerce for which no application is required, available for use by all persons, permitting exportation of specified classes of technical data to specified countries or consignees in accordance with the regulations herein prescribed and those which may be prescribed at the time of issuance of such general license.

(b) *United States Government or agency thereof.* A general license is hereby issued permitting exportation of all technical data when consigned to any agency or instrumentality of the United States Government, *Provided*, That any technical data exported under this general license shall be for the official use of the United States Government or one of its agencies or instrumentalities. Included within the provisions of this general license are exportations of technical data for use by a government contractor engaged in construction of military installations when exported by a branch of the United States armed forces or consigned to a supervising military officer. Any person exporting under this general license shall mark conspicuously on the envelope or outside wrapper "General License No. TD–U. S."

(c) *General technical data.* A general license is hereby issued permitting exportation of technical data to any destination: *Provided*, (1) That no officer or agency of the United States Government has placed any condition or restriction on the dissemination or exportation of such technical data; or (2) That if such a condition or restriction exists, the exporter has obtained permission in writing to export the technical data to the country of ultimate destination from the agency or officer of the United States Government who has placed such condition or restriction thereon. Any person exporting under this general license shall mark conspicuously on the envelope or wrapper "General License TD–GEN".

§ 806.3 *General provisions.* (a) No exportation may be made under general license TB–GEN of technical data against which a restriction or condition has been placed with the knowledge or intention that the technical data so exported are to be re-exported from the country of destination to which the permission was granted.

(b) Technical data not exportable under the provisions of the general licenses described in § 806.2 may not be exported.

(c) *Patent applications.* Technical data contained in papers relating to patent applications based on inventions made in a foreign country which are to be exported for informational purposes and not for the purpose of filing in a foreign country may, if otherwise qualified, be exported under general license.

Patent applications based on inventions made in the United States, amendments thereto, or other papers relating thereto, which are to be exported for the purpose of filing in a foreign country or which may become the basis of an application or an amendment to an application already filed in a foreign country, are subject to regulations of the Commissioner of Patents, and, after licensing for filing by the Commissioner of Patents, are exportable under general license.

PART 944—REGULATIONS APPLICABLE TO THE OPERATIONS OF THE PRIORITIES SYSTEM

[Priorities Reg. 33, Direction 13, as Amended Jan. 23, 1947]

PRODUCTION AND SALE OF HOUSE TRAILERS UNDER THE VETERANS' EMERGENCY HOUSING PROGRAM

The following amended direction is issued pursuant to Priorities Regulation 33:

(a) *What this direction does.* Under this direction, trailer manufacturers have been given priorities assistance for use in getting certain materials to be used in the manufacture and sale of certain kinds of house trailers. The assistance was given on Form NHA 14-44, for the latter part of 1946 only. No further assistance is being given under this direction. Therefore, trailer manufacturers may not use the authorizations (Form NHA 14-44) to place orders after December 31, 1946. Unfilled HH-rated or certified orders placed before that date and calling for delivery by that date remain valid for delivery after that date.

The restrictions of this direction continue to apply to the manufacturers' use of materials obtained with priorities assistance and to the manufacturers' and dealers' sales of house trailers manufactured with such materials. However, the use and filing of Form NHA 14-45 (Report of Sale) are no longer required.

In general, the restrictions on the manufacture of house trailers are directed at channeling materials into moderate cost house trailers suitable for full-time housing use, and the sales restrictions are directed at channeling house trailers to purchasers needing them for full-time house use and at giving preference to veterans of World War II in buying house trailers for that purpose.

Definitions

(b) *Definitions.* For the purpose of this direction:

(1) "House trailer" means a mobile shelter made in a factory and designed as follows: (i) to be used as housing accommodations, (ii) to be towed on the public highway on an undercarriage attached to the shelter as a permanent integral part of it, and (iii) to be used or towed without dismantling or substantial change in external dimensions. Except where otherwise specified in this direction, this term includes a house trailer designed as above but sold in "demounted" condition (i. e., without an undercarriage).

(2) "VEHP house trailer" means a house trailer manufactured with the use of priorities assistance under the Veterans' Emergency Housing Program.

(3) "Trailer manufacturer" means any person engaged in the business of manufacturing house trailers for sale.

(4) "Institutional purchaser" means an educational institution or public organization buying one or more house trailers to provide housing accommodations for veterans or for local emergency housing situations.

(5) [Deleted Dec. 31, 1946.]

Priorities Assistance for Manufacturers

(c)–(f) [Revoked Dec. 31, 1946.]

Restrictions on Manufacturers

(g) *Use of materials.* A trailer manufacturer may use materials obtained under this direction only for the manufacture of house trailers in moderate-cost models of the types for which priorities assistance was granted. A "moderate-cost model" is one which, under the maximum price regulations of the Office of Price Administration applicable on November 9, 1946, had a maximum retail price of not more than (1) $2500 with at least minimum standard equipment included or (2) $2500 minus the maximum retail list prices or other appropriate amounts for any minimum standard equipment not included.

"Retail price" means retail price f. o. b. plant, exclusive of the manufacturer's federal excise tax and exclusive of any state and local sales taxes customarily separately stated by the seller as being in addition to the selling price. "Minimum standard equipment" means the equipment and furnishings necessary to provide livable housing accommodations, including at least the following: (1) sleeping facilities for at least four persons, (2) heating unit, (3) interior-lighting equipment, (4) cooking unit, (5) refrigerator, (6) sink, (7) work table, and (8) storage facilities.

(h) *Identifying marking.* Any house trailer in which materials obtained under this direction have been used must be marked by the trailer manufacturer to identify it as a VEHP house trailer. This is to be done by adding the letters "VEHP" to the serial number stamped, stencilled, or otherwise placed on the house trailer.

(i) *Prohibited sales.* A trailer manufacturer must not sell a VEHP house trailer to any purchaser except to one of those specified in paragraph (j) below. He must make reasonable efforts to verify the eligibility of such purchasers under this direction. He may rely on statements made by purchasers unless he knows, or has reason to believe, that they are not true.

(j) *Permitted sales.* A trailer manufacturer may sell VEHP house trailers to the following purchasers, under the conditions specified

(1) He may sell a mounted or demounted house trailer to a dealer from whom he has received a copy of a dealer's statement as described in paragraph (1) below.

(2) He may sell a mounted or demounted house trailer to an institutional purchaser eligible under paragraph (p) below.

(3) He may sell a mounted house trailer to an individual purchaser who is eligible under paragraph (p) below, and who, in addition, establishes veterans' preference under paragraph (q) below.

(k) [Deleted Jan. 23, 1947.]

Restrictions on Dealers

(l) *Filing of "dealer's statement".* A dealer may not accept delivery of a VEHP house trailer from the trailer manufacturer unless he has filed a "Dealer's Statement" with the National Housing Agency, Washington 25, D. C., and, in addition, has sent a copy of that statement to the trailer manufacturer. A dealer who has filed a "Dealer's Statement" with the appropriate State or District Office of the Federal Housing Administration need not file again with the National Housing Agency. The "Dealer's Statement" shall be in writing and in substantially the following form:

DEALER'S STATEMENT

I certify to the Civilian Production Administration and to the National Housing Agency that I am a dealer in house trailers; that I wish to become eligible to receive house trailers manufactured under the Veterans' Emergency Housing Program; that I am familiar with the dealers' restrictions in Direction 13 to Priorities Regulation 33 (issued by the Civilian Production Administration), including the 60-day veterans' preference; and that I will comply with the terms of that direction in making sales of VEHP house trailers.

Name of Dealer's Firm

Address
By

Title of Authorized Official

Date

(m) *Prohibited disposition.* A dealer may not dispose of a new VEHP house trailer except by sale to any purchaser specified in paragraph (n) below. He must make reasonable efforts to verify the eligibility of such purchasers under this direction. He may rely on statements made by purchasers unless he knows, or has reason to believe, that they are not true.

(n) *Permitted sales.* A dealer may sell a VEHP house trailer to any of the following purchasers under the conditions specified:

(1) *Demounted VEHP house trailers.* A dealer may sell a new demounted VEHP house trailer only to an institutional purchaser eligible under paragraph (p) below. Such a sale may be made at any time.

(2) *Mounted VEHP house trailers.* A dealer may sell a new mounted VEHP house trailer to an institutional purchaser eligible under paragraph (p) below. Such a sale may be made at any time. A dealer may also sell a new mounted VEHP house trailer to an individual purchaser who is eligible under paragraph (p) below. He may make such a sale at any time, if the eligible purchaser establishes veterans' preference under paragraph (q) below. However, he may sell it to any other eligible individual purchaser only after publicly offering it, for 60 days, for sale to purchasers with veterans' preference. In making a public offering, the dealer must keep the trailer on display and must conspicuously post, at his place of business, a sign stating that he has VEHP house trailers for sale to purchasers with veterans' preference. The sign shall be at least 9" x 12" in size.

(o) [Deleted Jan. 23, 1947.]

Eligible purchasers and veterans' preference

(p) *Eligible purchasers.* A purchaser who is not a dealer is eligible to buy a new VEHP house trailer under the following circumstances only:

(1) *Individual purchasers.* An individual may buy a mounted VEHP house trailer only if (i) he is buying it for his own full-time housing use and (ii) he certifies to that purpose in writing. An individual may buy a mounted VEHP house trailer only if he is buying it for his own full-time housing use.

(2) *Institutional purchasers.* An institutional purchaser may buy one or more mounted or demounted VEHP house trailers only if (i) it is buying them to provide housing facilities for veterans or for local emergency housing situations, and (ii) it shows, to the seller, a written statement from the Federal Public Housing Authority, signed by an authorized official, stating that it considers the specified number of house trailers necessary and desirable for the purpose.

(See paragraph (r) below about the applicability of VHP–1 to installation of demounted house trailers.)

(q) *Eligible purchasers with veterans' preference.* An individual purchaser is entitled to veterans' preference in buying a new VEHP house trailer under the following circumstances only: (1) He must be eligible under paragraph (p) above, (2) he must be in one of the classes on List 1 to this direction, and (3) he must show satisfactory documentary evidence of that status to the seller of the house trailer.

Other Provisions

(r) *Applicability of VHP–1.* The installation of a demounted house trailer on a foundation would be "construction" under Veterans' Housing Program Order 1, and, in general, requires authorization under that order. Application, by an institutional purchaser, for such authorization should be made to the appropriate regional office of the Federal Public Housing Authority.

(s) *Communications and appeals.* Communications regarding the provisions of this direction, and appeals from those provisions, should be sent to the National Housing Agency, Washington 25, D. C. Ref: Dir 13 to PR 33. An appeal should be made by letter, in triplicate, stating the particular provision appealed from and the full grounds for the appeal.

(t) *Violations.* Any person who wilfully conceals a material fact, or furnishes false information to any department or agency of the United States is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, materials under priority control and may be deprived of priorities assistance.

(u) *Reporting and record requirements approved.* The reporting and record requirements of this direction have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 23d day of January 1947.

CIVILIAN PRODUCTION ADMINISTRATION,
By J. JOSEPH WHELAN,
Recording Secretary.

NOTE: List 1 added Jan. 23, 1947.

LIST 1

PURCHASERS ELIGIBLE FOR VETERANS PREFERENCE

A purchaser is eligible, under paragraph (q) of Direction 13 to PR 33, for veterans' preference in buying a new mounted VEHP house trailer if he is in one of the following classes and if, in addition, he meets the other requirements stated in paragraph (q):

(a) A person who (1) has served in the active military or naval forces of the United States on or after September 16, 1940, (2) has been discharged or released therefrom under conditions other than dishonorable, and (3) wishes to buy the house trailer for his own full-time housing use or for the full-time housing use of his dependent family.

(b) A person who (1) is serving in the active military or naval forces of the United States, (2) requires dwelling accommodations for his dependent family, and (3) wishes to buy the house trailer for the full-time housing use of his dependent family.

(c) The spouse of a veteran (as described in paragraph (a) of this list) who died after being discharged or released from service, or the spouse of a person who served in the active military or naval forces of the United States on or after September 16, 1940 and who died in service, if the spouse wishes to buy the house trailer for full-time housing use by her (him) and a child or children of the deceased.

(d) A citizen of the United States who (1) served in the Armed Forces of an allied nation during World War II (and who has been discharged or released therefrom under conditions other than dishonorable), (2) requires dwelling accommodations for his dependent family, and (3) wishes to buy the house trailer for the full-time housing use of his dependent family.

(e) A person to whom the War Shipping Administration has issued a certificate of continuous service in the United States Merchant Marine and who (1) requires dwelling accommodations for his dependent family, and (2) wishes to buy the house trailer for the full-time housing use of his dependent family.

(f) A citizen of the United States who (1) as a civilian, was interned or held a prisoner of war by an enemy nation at any time during World War II, (2) requires dwelling accommodations for his dependent family and (3) wishes to buy the house trailer for the full-time housing use of his dependent family.

PART 944—REGULATION APPLICABLE TO THE OPERATIONS OF THE PRIORITIES SYSTEM

[Priorities Regulation 33, Revocation of List 1 to Direction 13]

PURCHASERS ELIGIBLE FOR VETERANS' PREFERENCE IN BUYING VEHP HOUSE TRAILERS

List 1 to Direction 13 to Priorities Regulation 33 is revoked, since it is being combined with Direction 13 to Priorities Regulation 33, as amended simultaneously with this revocation.

This revocation does not affect any liabilities for violation of the list or of actions taken by the Civilian Production Administration, the Housing Expediter, or the National Housing Administration under the list.

Issued this 23d day of January 1947.

PART 944—REGULATIONS APPLICABLE TO THE OPERATIONS OF THE PRIORITIES SYSTEM

[Priorities Reg. 28, Direction 6, as Amended Jan. 23, 1947]

USE OF CC RATINGS FOR TRUCKS

The following amended direction is issued pursuant to Priorities Regulation 28:

(a) *Purpose of this direction.* The purpose of this direction is to restrict the assignment of CC ratings for new trucks and the use of CC ratings which have been assigned.

(b) *Definition of truck.* For the purpose of this direction "truck" means any new light, medium or heavy motor truck, truck-tractor or the chassis therefor, or any chassis on which a bus body is to be mounted and which (1) was designed to be propelled or drawn by mechanical power; (2) was designed for use on or off-the-highway, for transportation of property or persons. This definition includes vehicles of the following types: trucks, truck chassis, truck tractors, off-the-highway motor vehicles, bus chassis, carry-all suburbans, sedan deliveries and cab pickups, but does not include station wagons, coupes fitted with pickup boxes, ambulances, hearses, taxicabs and integral type busses.

(c) *Limitation on use of CC ratings.* CC ratings may be used only to purchase new trucks from a distributor or dealer. Notwithstanding the provisions of PR–3, a distributor or dealer may not extend a CC rating.

(d) *When CC ratings will be assigned for new trucks.* CC ratings will be assigned for new trucks under the general rules of Priorities Regulation 28 as amended January 8, 1947, except that they will not be assigned under paragraph (b) (1) to provide essential utility services, and will not be assigned under paragraph (b) (1) (iii) II for capital equipment which is a bottleneck in the production or erection of housing accommodations.

ALASKA

AIR-NAVIGATION SITE WITHDRAWAL NO. 179

By virtue of the authority contained in the act of June 25, 1910, c. 421, 36 Stat. 847, as amended by the act of August 24, 1912, c. 369, 37 Stat. 497 (U. S. C., title 43, secs. 141–143), and under and pursuant to Executive Order No. 9146 of April 24, 1942, and the provisions of section 4 of the act of May 24, 1928, c. 728, 45 Stat. 729 (U. S. C., title 49, sec. 214), it is hereby ordered as follows:

SECTION 1. Executive Order No. 8344 of February 10, 1940, temporarily withdrawing public lands on Kodiak Island and certain other islands, Alaska, for classification and in aid of legislation, is hereby revoked so far as it affects the tracts of public land on Woody Island lying within the following-described boundaries:

TRACT 1

Beginning at corner No. 15 of U. S. Survey No. 626 on Woody Island in the Kodiak Group, located in approximate latitude 57°46'50" N., longitude 152°20'30" W., thence by metes and bounds,

N. 48°45' E., 723.0 feet;
N. 43°15' E., 822.0 feet;
N. 28°00' E., 800.0 feet;
East, 860.0 feet, to a point on the shore line on the east side of Woody Island;

Southerly, 13,200.0 feet, along shore of Chiniak Bay at mean high tide to corner No. 4 of U. S. Survey No. 1674;
North, 1,585.32 feet, along east boundary of U. S. Survey No. 1674 to corner No. 5 thereof;
West, 242.22 feet, along north boundary of U. S. Survey No. 1674 to corner No. 6 thereof;
N. 37°45' E., 1,267.0 feet, along southeast boundary of U. S. Survey No. 626;
N. 52°15' W., 3,007.6 feet;
N. 37°45' E., 3,285.0 feet, to point of beginning, containing 728 acres.

TRACT 2

A right-of-way 100 feet wide for an access roadway the center line of which is described as follows:

Beginning at a point on the west boundary of the tract above described, from which corner No. 15 of U. S. Survey No. 626 bears N. 37°45' E., 3,065.0 feet, thence by metes and bounds,

N. 47°52' W., 285.0 feet;
S. 60°15' W., 213.8 feet;

ALASKA

AIR-NAVIGATION SITE WITHDRAWAL NO. 205

By virtue of the authority contained in section 4 of the act of May 24, 1928, c. 728, 45 Stat. 729 (U. S. C., title 49, sec. 214), and pursuant to Executive Order No. 9337 of April 24, 1943, it is ordered as follows:

Subject to valid existing rights, the tract of public land near Barrow, Alaska, the boundaries of which are as hereinafter described, is hereby withdrawn from all forms of appropriation under the public-land laws and reserved for the use of the Civil Aeronautics Administration, Department of Commerce, in the maintenance of air-navigation facilities, the reservation to be known as Air-Navigation Site Withdrawal No. 205;

Beginning at a point on top of the escarpment, from which corner No. 3, U. S. Survey No. 2244, Tract A, in the village of Barrow, bears approximately N. 69° E., 1260 feet, latitude 71°18' N., longitude 156°30' W.

From the initial point by metes and bounds,

Northeast, 495 feet, along the top of the escarpment above the beach of the Arctic Ocean;
S. 5° W., 297 feet;
S. 40° W., 272 feet, to a point on the edge of the escarpment, above a ravine;
Northwest, 195 feet, along the top of the escarpment to the place of beginning.

The area as described contains 1.7 acres.

Permission is also granted the Civil Aeronautics Administration to construct, operate, and maintain a telephone line extending from the tract hereinabove described to the United States Army Signal Corps station at or near Barrow, over and across the public lands, the Indian School Reserve U. S. Survey No. 2244 Tracts A and B, and the Indian village lands on the location shown on the map designated DR. 8D–207–2, on file in the General Land Office. Adequate compensation shall be made for any damage to any native interests which may be caused by the construction, operation, or maintenance of the telephone line.

The reservation made and the permission granted by this order shall be subject to the withdrawals made by Executive Order No. 3797–A of February 27, 1923, for a Naval Petroleum Reserve, and Public Land Order No. 82 of January 22, 1943, withdrawing public lands in Alaska for use in connection with the prosecution of the war, so far as such withdrawals affect the above-described tract.

Jurisdiction over the lands hereby reserved shall revert to the Department of the Interior, and to any other Department or agency of the Federal Government which had any jurisdiction over such lands immediately preceding the issuance of this order, according to their respective interests, upon the expiration of the six-months' period following the termination of the unlimited national emergency declared by Proclamation No. 2487 of May 27, 1941 (55 Stat. 1647). The lands, however, shall remain withdrawn from appropriation as herein provided until otherwise ordered, pending classification and a determination as to whether the lands or portions thereof are needed for public purposes.

This order is confidential and shall not be filed in the Division of the Federal Register of the National Archives, or be published in the FEDERAL REGISTER, or be given other publicity, until publication

thereof is expressly authorized by or at the direction of the Secretary of Commerce.

NOTE: Secret status released by letter of the Secretary of Commerce dated October 31, 1946.

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

PART 1—RULES RELATING TO ORGANIZATION AND PRACTICE AND PROCEDURE

ANNUAL REPORT TO BE FILED BY LICENSEES OF BROADCAST STATIONS

At a meeting of the Federal Communications Commission held at its offices in Washington, D. C., on the 9th day of January 1947:

Whereas, Form Number 324 is a report which is required to be filed annually by licensees of broadcast stations pursuant to § 1.341 of the Commission's rules and regulations issued under the authority of sections 303 (r) and 308 (b) of the Communications Act of 1934, as amended, and

Whereas, the Commission has under consideration a revision of said Schedule 13 of Form Number 324, providing for the substitution in its place of Schedules 13 (A)[1] and 13 (B)[1] and

Whereas, Schedule 13 (A) is designed for recording thereon by all broadcast stations and networks of certain data concerning the number and compensation of non-supervisory program employees, and

Whereas, Schedule 13 (B) is designed for recording thereon by all broadcast stations and networks of certain data concerning the number and compensation of non-supervisory program employees, and

Whereas, the proposed Schedules 13 (A) and 13 (B) have been discussed with interested parties and were the subject of a special conference held in the offices of the Commission on September 20, 1946 between representatives of the Commission and representatives of the Department of Labor, the Bureau of the Budget, the networks, the radio station licensees and the radio industry, and

Whereas, general notice of proposed rule making in respect thereto has been published in accordance with section 4 (a) of the Administrative Procedure Act under date of November 29, 1946, and

Whereas, suggestions and comments pertaining to the proposed revisions have been filed with the Commission, and

NOTICES

TREASURY DEPARTMENT

Fiscal Service: Bureau of the Public Debt

[Department Circular No. 800]

⅞ PERCENT TREASURY CERTIFICATES OF INDEBTEDNESS OF SERIES B-1948

OFFERING OF CERTIFICATES

JANUARY 20, 1947.

I. *Offering of certificates.* 1. The Secretary of the Treasury, pursuant to the authority of the Second Liberty Bond Act, as amended, invites subsciptions, at par, from the people of the United States, for certificates of indebtedness of the United States, designated ⅞ percent Treasury Certificates of Indebtedness of Series B-1948, in exchange for Treasury Certificates of Indebtedness of Series B-1947, maturing February 1, 1947. Approximately $1,000,000,000 of the maturing certificates will be retired on cash redemption.

II. *Description of certificates.* 1. The certificates will be dated February 1, 1947, and will bear interest from that date at the rate of ⅞ percent per annum, payable with the principal at maturity on February 1, 1948. They will not be subject to call for redemption prior to maturity.

2. The income derived from the certificates shall be subject to all Federal taxes, now or hereafter imposed. The certificates shall be subject to estate, inheritance, gift or other excise taxes, whether Federal or State, but shall be exempt from all taxation now or hereafter imposed on the principal or interest thereof by any State, or any of the possessions of the United States, or by any local taxing authority.

3. The certificates will be acceptable to secure deposits of public moneys. They will not be acceptable in payment of taxes.

4. Bearer certificates will be issued in denominations of $1,000, $5,000, $10,000, $100,000 and $1,000,000. The certificates will not be issued in registered form.

5. The certificates will be subject to the general regulations of the Treasury Department, now or hereafter prescribed, governing United States certificates.

III. *Subscription and allotment.* 1. Subscriptions will be received at the Federal Reserve Banks and Branches and at the Treasury Department, Washington. Banking institutions generally may submit subscriptions for account of customers, but only the Federal Reserve Banks and the Treasury Department are authorized to act as official agencies.

2. The Secretary of the Treasury reserves the right to reject any subscription, in whole or in part, to allot less than the amount of certificates applied for, and to close the books as to any or all subscriptions at any time without notice; and any action he may take in these respects shall be final. Subject to these reservations, subscriptions for amounts up to and including $25,000 will be allotted in full, and subscriptions for amounts over $25,000 will be allotted to all holders on an equal percentage basis, but not less than $25,000 on any one subscription. The basis of the allotment will be publicly announced, and allotment notices will be sent out promptly upon allotment.

IV. *Payment.* 1. Payment at par for certificates allotted hereunder must be made on or before February 1, 1947, or on later allotment, and may be made only in Treasury Certificates of Indebtedness of Series B-1947, maturing February 1, 1947, which will be accepted at par, and should accompany the subscription.

V. *General provisions.* 1. As fiscal agents of the United States, Federal Reserve Banks are authorized and requested to receive subscriptions, to make allotments on the basis and up to the amounts

[1] Notice of hearing appeared 12 F. R. 49.

indicated by the Secretary of the Treasury to the Federal Reserve Banks of the respective Districts, to issue allotment notices, to receive payment for certificates allotted, to make delivery of certificates on full-paid subscriptions allotted, and they may issue interim receipts pending delivery of the definitive certificates.

2. The Secretary of the Treasury may at any time, or from time to time, prescribe supplemental or amendatory rules and regulations governing the offering, which will be communicated promptly to the Federal Reserve Banks.

[SEAL] JOHN W. SNYDER,
Secretary of the Treasury.

FEDERAL COMMUNICATIONS COMMISSION

[Telegraph Division Order 25, Revocation]

ANNUAL REPORTS OF WIRE TELEGRAPH CARRIERS

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 9th day of January 1947;

The Commission, having under consideration its Telegraph Division Order No. 25, dated July 14, 1938, requiring every wire telegraph carrier subject to the Communications Act of 1934, to file with the Commission, on or before March 31st of each year, a verified report showing the purchases of new material and net prices paid for such purchases, the rates of compensation paid its construction employees, and other general information as prescribed on F. C. C. Forms Nos. 788 and 789; and

It appearing, that said order was designed to enable the Commission to maintain on a current basis, certain reproduction cost estimates of wire telegraph carrier plant made by the Interstate Commerce Commission prior to the effective date of the Communications Act of 1934;

It further appearing, that The Western Union Telegraph Company is presently the only respondent to the above order, and that this Commission has made no tentative or final valuation of Western Union properties based upon the original estimates of the Interstate Commerce Commission;

It further appearing, that the data underlying the returns to said order will under § 42.91 of the Commission's rules, be maintained permanently by Western Union and will therefore continue to be available to the Commission at the Western Union offices in New York City, N. Y.;

It is ordered, That the aforementioned Telegraph Division Order No. 25 be, and it is hereby, revoked, effective the 1st day of January 1947.

By the Commission.

REQUEST FOR SPECIFIC FM CHANNELS BY APPLICANTS

JANUARY 9, 1947.

In announcing the tentative allocation plan for FM broadcast stations on December 19, 1945, the Commission stated:

This plan is published as a guide regarding the manner in which the Commission expects to allocate FM channels throughout the country. The Commission wishes to emphasize that this allocation pattern is tentative only, that the channels listed for particular cities (and their areas) will not be followed in a hard and fast manner and that departures will be made from the plan wherever it is found desirable or necessary to do so.

The Commission stated further:

In several instances there appears a lack of sufficient channels to meet the probable need for assignments. When the demand grows in these areas, it is usually possible to re-allocate channels from adjacent areas where the demand is less and where service may already be sufficient. As a result, a lack of channel listing for a particular locality does not necessarily mean that a channel cannot be made available there, should the need develop.

In accordance with the foregoing, persons interested in filing applications for FM stations for cities or areas to which no channel has been allocated or where previous grants have exhausted all allocated channels will be permitted to file an application specifying a particular channel. Similarly, persons with applications now on file for cities or areas where previous grants have exhausted all allocated channels may amend their application to specify a particular channel. In all such cases where a grant of the application for the channel specified would require a re-arrangement of the tentative allocation plan, the applicant will be required to submit with his application or amendment an exhibit explaining in detail the proposed re-arrangement and setting forth the facts which it is claimed justify the proposed re-arrangement. In instances where any question exists concerning the relative need for the specific channel in the cities or areas involved, the application will be set for hearing.

An applicant or prospective applicant who so desires may write the Commission to inquire whether a specific channel could possibly be utilized in a specific city or area.

In applying the procedure outlined above, the Commission does not contemplate a general re-arrangement of the tentative allocation plan. Use of the procedure will be confined to cases where experience has demonstrated that the tentative allocation plan does not conform to the demands for FM service in the cities or areas involved. In addition, the procedure will not be followed in instances where its application would result in shifting a channel from a smaller community or rural area to a larger city or metropolitan area without providing an equivalent channel for the community or area thus deprived. Furthermore, the procedure will not be applied to result in shifting a channel to New York City, or other similar large cities, from surrounding smaller cities.

[SEAL] FEDERAL COMMUNICATIONS COMMISSION,
T. J. SLOWIE,
Secretary.

FEDERAL POWER COMMISSION

[Docket No. G-831]

OHIO FUEL GAS CO.

NOTICE OF APPLICATION

JANUARY 17, 1947.

Notice is hereby given that on December 23, 1946, an application was filed with the Federal Power Commission by The Ohio Fuel Gas Company (Applicant), an Ohio corporation having its principal place of business in Columbus, Ohio, and authorized to do business in the States of Ohio and Indiana, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, to authorize the Applicant to construct and operate a regulator and measuring station on Applicant's 4-inch transmission pipeline H-101 in the southern part of York Township, Morgan County, Ohio, for the purpose of delivering and selling natural gas to Deavertown Oil and Gas Company for resale in Deavertown, Ohio.

Applicant states that the town of Deavertown has approximately 65 customers and its natural-gas requirements are estimated to be not over 25 Mcf per day or 4,000 Mcf per year. The rate to be paid for such gas is to be Applicant's standard rate for firm gas, designated as F-1 by Applicant, now on file with the Commission.

Applicant estimates the total over-all cost of construction of the facilities described herein to be $600.

Any interested State commission is requested to notify the Federal Power Commission whether the application should be considered under the cooperative provisions of the Commission's rules of practice and procedure, and, if so, to advise the Federal Power Commission as to the nature of its interest in the matter and whether it desires a conference, the creation of a board, or a joint or concurrent hearing, together with reasons for such request.

Any person desiring to be heard or to make any protest with reference to the application of The Ohio Fuel Gas Company should file with the Federal Power Commission, Washington 25, D. C., not later than fifteen days from the date of publication of this notice in the FEDERAL REGISTER, a petition or protest in accordance with the Commission's rules of practice and procedure.

Notice is hereby given that on January 8, 1947, Penn-York Natural Gas Corporation (Applicant), a Pennsylvania corporation with its principal place of business in Buffalo, New York, and authorized to do business in the States of Pennsylvania, New York and Kentucky, filed with the Federal Power Commission the following applications:

(1) An application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, to authorize Applicant to construct and operate a natural-gas transmission pipeline approximately 65 miles in length extending westerly and northerly from a point of interconnection with the pipeline of New York State Natural Gas Corporation (New York State) located in the Town of York, Livingston County, New York, to the Canadian International Boundary at a point on the Niagara River at or near Lewiston, New York, together with a 1200-horsepower compressor station to be located on the proposed pipeline within one mile of said interconnection. The proposed pipeline is to consist of 14-inch pipe from the interconnection to the compressor station and of 10.75-inch pipe thereafter (Docket No. G-844);

(2) An application pursuant to section 3 of the Natural Gas Act, as amended, for authorization to export natural gas from the United States to the Province of Ontario, Canada (Docket No. G-845);

(3) An application for a Presidential Permit pursuant to Executive Order No. 8202, for the construction, operation, maintenance and connection at the point on the International Boundary of the United States described in paragraph (1) above, of facilities for the exportation of natural gas to the Province of Ontario, Canada (Docket No. G-846).

Applicant proposes by means of the facilities described hereinbefore to purchase natural gas from New York State and to sell and deliver such gas to Dominion Natural Gas Company, Ltd. (Dominion), a corporation organized under the laws of the Province of Ontario and an affiliate of Applicant, at said International Boundary for distribution in the area served by Dominion in the Province of Ontario, Canada. It is estimated in the contracts covering such purchase and sale of natural gas that the total requirements for the first year of operation will be 1,500,000 Mcf and the maximum daily demand will be 15,000 Mcf. These contracts are for a period ending November 1, 1964, and thereafter until terminated upon twelve months prior written notice.

Applicant states that there is a critical shortage in the supply of natural gas available to Dominion for residential consumer purposes in the Province of Ontario which is of grave concern to the Ontario and Dominion Governments; that in 1941 supplies of natural gas available to Dominion began a rapid decline and since that time have been inadequate to meet consumer demand; that for the past five years Dominion has conducted extensive drilling programs and geological and geophysical surveys but has been unable to meet the full demand of its consumers; and that in the meantime Dominion has utilized large volumes of propane which use has been carried far beyond economic feasibility.

The applications recite that the natural gas to be exported is to be purchased from New York State which produces natural gas and purchases natural gas from Hope Natural Gas Company, which company produces natural gas in the Appalachian area and purchases natural gas from Tennessee Gas and Transmission Company, which latter company transports gas produced in Texas to West Virginia. Applicant believes that these sources of supply are adequate to meet all the needs of the customers in the United States who now procure or will procure their gas therefrom for as long a period in the future as a forecast can reasonably be made.

Applicant states that its customers are now being adequately served and that the proposed facilities described hereinbefore will constitute a separate pipeline operation that will not impair or affect in any degree whatsoever Applicant's ability to render natural-gas service at reasonable rates to its customers in the United States.

Applicant estimates the total overall capital cost of all the facilities described herein will be $1,235,610, all of which amount Applicant proposes to borrow from a commercial bank.

Any interested State commission is requested to notify the Federal Power Commission whether the application should be considered under the cooperative provisions of the Commission's rules of practice and procedure, and, if so, to advise the Federal Power Commission as to the nature of its interest in the matter and whether it desires a conference, the creation of a board, or a joint or concurrent hearing, together with reasons for such request.

Any person desiring to be heard or to make any protest with reference to the application of Penn-York Natural Gas Corporation should file with the Federal Power Commission, Washington 25, D. C., not later than fifteen days from the date of publication of this notice in the FEDERAL REGISTER, a petition or protest in accordance with the Commission's rules of practice and procedure.

[Docket No. G-848]

CITIES SERVICE GAS CO.

NOTICE OF APPLICATION

JANUARY 20, 1947.

Notice is hereby given that on January 9, 1947, Cities Service Gas Company (Applicant), a Delaware corporation having its principal place of business in Oklahoma City, Oklahoma, and authorized to do business in the States of Oklahoma, Texas, Kansas, Nebraska and Missouri, filed an application with the Federal Power Commission for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, to authorize Applicant to construct and operate certain natural gas facilities subject to the jurisdiction of the Federal Power Commission, and all more particularly described hereafter. Applicant further seeks permission, under section 7 of the Natural Gas Act, to abandon certain natural gas facilities subject to the jurisdiction of the Federal Power Commission, as more particularly described hereafter.

The description of the facilities for which a certificate is sought is as follows:

Approximately one mile of 6-inch pipe line in Section 6, Township 32 South, Range 1 East, Sumner County, Kansas.

Applicant states the facilities will be used to serve the City of Wellington, Kansas, from Applicant's 20-inch pipeline. Applicant states it is necessary to serve the City of Wellington main line gas because local gas from the Wellington field has depleted to the point where no local gas is available.

Applicant estimates the total overall cost of construction of the proposed facilities is $10,620, which amount Applicant states it proposes to disburse from its own treasury.

The description of the facilities for which permission to abandon is sought is as follows:

(a) Approximately three and one-half miles of 8-inch pipe line formerly used to transmit gas from Wellington Compressor Station to the main line system and to the point of mixing of field and main line gas for the City of Wellington, Kansas.

(b) Approximately one mile of 8-inch pipe line formerly used to transmit a mixture of Wellington field gas and main line gas to the City of Wellington, Kansas.

(c) Approximately one mile of 6-inch pipe line formerly used to transmit gas from the main line to the point of mixture of field and main line gas for the City of Wellington, Kansas.

(d) Wellington Compressor Station including engines, compressors, build-

ings and other equipment used to pump gas from the Wellington, Kansas field.

Applicant states the facilities sought to be abandoned are no longer used or useful in view of the depletion of local gas from the Wellington field; and that the requirements of the City of Wellington, Kansas, will be met by main line gas. Applicant further states that the facilities sought to be abandoned by this application will, because of shortage of materials, become useful to Applicant elsewhere in connection with operation of its transmission system.

Any interested State commission is requested to notify the Federal Power Commission whether the application should be considered under the cooperative provisions of the Commission's rules of practice and procedure, and, if so, to advise the Federal Power Commission as to the nature of its interest in the matter and whether it desires a conference, the creation of a board, or a joint or concurrent hearing, together with the reasons for such request.

Any person desiring to be heard or to make any protest with reference to the application of Cities Service Gas Company should file with the Federal Power Commission, Washington 25, D. C., not later than fifteen days from the date of publication of this notice in the FEDERAL REGISTER, a petition or protest in accordance with the Commission's rules of practice and procedure.

[Docket No. G-849]

UNITED FUEL GAS CO.

NOTICE OF APPLICATION

JANUARY 17, 1947.

Notice is hereby given that on January 10, 1947, United Fuel Gas Company, a West Virginia corporation with its principal place of business at Charleston, West Virginia, a subsidiary of Columbia Gas & Electric Corporation, filed with the Federal Power Commission an application for a certificate of public convenience and necessity pursuant to the Natural Gas Act, as amended, for authority to construct and operate the following facilities, to-wit:

Approximately 70 miles of 20-inch O. D. gas transmission lines in West Virginia, in the Counties of Roane, Calhoun, Gilmer, Doddridge and Wetzel. Such lines to connect those portions of Applicant's 16-inch transmission lines, the construction of which was authorized in Docket No. G-736. The proposed and authorized transmission lines will form a single high-pressure transmission line of approximately 115.7 miles extending from Applicant's Cobb Compressor Station in Roane County to a point in Monongalia County, West Virginia, where it will connect with the line of The Manufacturers Light and Heat Company.

A measuring station with four 10-inch orifice meter runs and appurtenant equipment on the aforesaid transmission line near Hundred, West Virginia, and the installation of six high-pressure compressor cylinders on three existing 1000 HP units at the Cobb Compressor Station.

Applicant states that the above facilities are necessary for the adequacy and continuity of service to present markets, including the increased requirement of the Pittsburgh Group of the Columbia System. Such facilities are estimated to increase by 41,000 Mcf per day the maximum authorized capacity of the existing facilities for delivery of natural gas to the Pittsburgh Group and they will be operated as an integral part of Applicant's system.

The total over-all capital cost of the proposed facilities is estimated to be $2,970,000, which amount Columbia Gas & Electric Corporation will provide or cause to be provided if called upon to do so.

Any interested State commission is requested to notify the Federal Power Commission whether the application shall be considered under the cooperative provisions of Rule 37 of the Commission's rules of practice and procedure and, if so, to advise the Federal Power Commission as to the nature of its interest in the matter and further to specify whether it desires a conference, the creation of a board, or a concurrent hearing as defined in said rule and the reasons for such request.

Any person desiring to be heard or to make any protest with reference to the application of United Fuel Gas Company should file with the Federal Power Commission, Washington 25, D. C., not later than 15 days from the date of the publication of this notice in the FEDERAL REGISTER, a petition or protest in accordance with the Commission's rules of practice and procedure. The time and place of hearing herein will subsequently be duly given.

INTERSTATE COMMERCE COMMISSION

[S. O. 665]

UNLOADING OF COKE BREEZE AT BALTIMORE, MD.

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 17th day of January A. D. 1947.

It appearing, that 62 cars containing coke breeze at Baltimore, Md., on The Pennsylvania Railroad Company, shipped by Keystone Acceptance Company from Sparrows Point, Md., have been on hand for an unreasonable length of time and that the delay in unloading said cars is impeding their use; in the opinion of the Commission an emergency exists requiring immediate action; it is ordered, that:

(a) *Cars at Baltimore, Md., be unloaded.* The Pennsylvania Railroad Company, its agents or employees, shall unload immediately cars B&O 636801, B&O 324601 and 60 other cars, all containing coke breeze, now on hand at Canton Tidewater Coal Piers, Baltimore, Maryland, consigned to C. W. Hendley and Company.

(b) *Demurrage.* No common carrier by railroad subject to the Interstate Commerce Act shall charge or demand or collect or receive any demurrage or storage charges, for the detention under load of any car specified in paragraph (a) of this order, for the detention period commencing at 7:00 a. m., January 20, 1947, and continuing until the actual unloading of said car or cars is completed.

(c) *Provisions suspended.* The operation of any or all rules, regulations, or practices, insofar as they conflict with the provisions of this order, is hereby suspended.

(d) *Notice and expiration.* Said carrier shall notify V. C. Clinger, Director, Bureau of Service, Interstate Commerce Commission, Washington, D. C., when it has completed the unloading required by paragraph (a) hereof, and such notice shall specify when, where, and by whom such unloading was performed. Upon receipt of that notice this order shall expire.

It is further ordered, that this order shall become effective immediately; that a copy of this order and direction be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission, at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

SECURITIES AND EXCHANGE COMMISSION

[File No. 7-973]

CINCINNATI GAS AND ELECTRIC CO.

NOTICE AND ORDER OF HEARING ON APPLICATION FOR UNLISTED TRADING PRIVILEGES

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 20th day of January A. D. 1947.

The Philadelphia Stock Exchange, pursuant to section 12 (f) (2) of the Securities Exchange Act of 1934 and Rule X-12F-1 thereunder, has made application for unlisted trading privileges in the $8.50 Par Value Common Stock of Cincinnati Gas & Electric Company, a security listed and registered on the Cincinnati Stock Exchange and the New York Stock Exchange. Rule X-12F-1 provides that the applicant shall furnish a copy of the application to the issuer and to every exchange on which the security is listed or already admitted to unlisted trading privileges. The application is available for public inspection at the Commission's principal office in Philadelphia, Pennsylvania.

The Commission deems it necessary that a hearing be held in this matter to determine whether there exist in the vicinity of the applicant exchange sufficiently widespread public distribution of this security and sufficient public trading activity in this security to render the extension of unlisted trading privileges on the applicant exchange necessary or appropriate in the public interest or for the protection of investors, and to determine whether the extension of unlisted trading privileges otherwise is necessary or appropriate in the public interest or for the protection of investors.

Therefore it is ordered, That a public hearing be held before William W. Swift as hearing officer at 10:00 a. m. on Wednesday, February 5, 1947, at the office of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania.

By the Commission.

ILLINOIS POWER CO.

ORDER RELEASING JURISDICTION OVER LEGAL AND AUDITING EXPENSES

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 17th day of January 1947.

A declaration in the above-captioned matter regarding the issue and sale by Illinois Power Company of $45,000,000 principal amount of first mortgage bonds and $9,000,000 principal amount of sinking fund debentures having been permitted to become effective by the Commission by order dated April 18, 1946, subject to certain terms and conditions, among which was a reservation of jurisdiction over legal and auditing fees and expenses proposed to be paid in connection with the aforementioned security issues; and

The Commission having released jurisdiction over certain legal and auditing fees by order dated December 16, 1946; and

Illinois Power Company having requested the Commission to release jurisdiction over certain legal and auditing expenses and having furnished a statement of the nature and amounts of such expenses, which are as follows:

Pam, Hurd & Reichmann, $1,239.16; Anderson, Gilbert, Wolfort, Allen & Bierman, $5.12; Price, Waterhouse & Co., $341.60; Donovan, Leisure, Newton, Lumbard & Irvine (counsel for underwriters), $999.79; and

It appearing to the Commission that the foregoing expenses under the circumstances of this proceeding are not unreasonable;

It is hereby ordered, That jurisdiction over the payment of the above-described legal and auditing expenses be, and it hereby is, released.

By the Commission.

UNITED CORP.

NOTICE OF THE FILING OF APPLICATION FOR MODIFICATION OF COMMISSION'S FINDINGS AND OPINION

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 17th day of January 1947.

The Commission having, on August 14, 1943, entered its order in the above entitled proceeding directing that The United Corporation ("United") change its present capitalization to one class of stock, namely, common stock, and to take such further action to cause it to cease to be a holding company, and its accompanying findings and opinion concluding, among other things, that:

Abandonment of United's present business as a public utility holding company and embarking upon a new type of business, whether that of investment company or any other type of business, involves a drastic change in the activities of the company. Such a change will devote the funds which security holders have invested to a purpose different from that for which they were contributed. It would seem necessary that United should consult its security holders before embarking on such a program. In the light of the existing maldistribution of voting power and for other reasons, we believe no such program would be fair which does not require majority approval either of the present preferred and common stock voting by classes, or of the new common stock, should United choose to recapitalize on a one-stock basis before seeking stockholder approval of the proposed new venture. The literature soliciting such approval would, of course, be subject to our scrutiny.;

and United having filed an application for modfication of said findings and opinion so as to require only that United's plan for future operations be approved by the holders of the majority of the present common stock voting as a class, and having stated in its application that:

(a) Since entry of the Commission's Order of August 14, 1943, it has disposed of securities in its portfolio to the extent that it has ceased to be a holding company with respect to Philadelphia Electric Company, Delaware Power and Light Company and The United Gas Improvement Company, has reduced its holdings of the voting securities of Columbia Gas & Electric Corporation and retired 1,352,313 shares, or approximately 54% of its issue of $3 Cumulative Preference Stock;

(b) It anticipates within the next 12 months that it will have retired the remaining shares of its $3 Cumulative Preference Stock and asserts that it does not intend to eliminate the preference stock through a recapitalization of such stock into common stock; and

(c) It anticipates that it will have disposed of a substantial part of its holdings of voting securities of Columbia Gas & Electric Corporation, The Cincinnati Gas & Electric Company and Niagara Hudson Power Corporation, and may also dispose of its holdings of Public Service Corporation of New Jersey within the same period if pending reorganization proceedings with respect to that company are meanwhile completed; and

United having further stated that it has formulated a plan for future operations as an investment company which it proposes to submit for approval of stockholders at the annual meeting to be held on April 9, 1947, but that it will not proceed with its program as an investment company until such time as all of the outstanding shares of Preference Stock shall have been retired or adequate provision for retirement of such shares shall have been made; and

It appearing to the Commission that it is appropriate in the public interest and in the interests of investors that notice of the filing of said application for modification and opportunity for requesting a hearing thereon be given to all interested persons;

It is therefore ordered, That notice of the filing of United's request for modification of the Commission's findings and opinion dated August 13, 1943 be given to The United Corporation and to all persons previously granted intervention or participation in the above-captioned proceeding be registered mail and to all other persons by publication in the FEDERAL REGISTER. Any interested persons may, not later than January 27, 1947, at 12 noon, e. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law raised by said application proposed to be controverted, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. At any time after 12 noon, January 27, 1947, the Commission may take such action as may be deemed appropriate with respect to the requested modification.

By the Commission.

CAROLINA COACH CO. AND ROWAN-CABARRUS BUS LINE, INC.

NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 20th day of January A. D. 1947.

Notice is hereby given that Carolina Coach Company ("Carolina Coach"), a direct subsidiary of Consolidated Electric and Gas Company ("Consolidated"), a registered holding company, and Rowan-Cabarrus Bus Line, Incorporated ("Rowan"), a wholly-owned direct subsidiary of Carolina Coach, have filed a joint declaration, pursuant to the Public Utility Holding Company Act of 1935 and certain rules and regulations promulgated thereunder. The declaration designates sections 12 (b), 12 (c), 12 (f) and Rules U-43, U-45, U-46 and certain exemption provisions of Rules U-43, U-45, and U-49, as being applicable to the transactions embraced therein.

Notice is further given that any interested persons may, not later than February 3, 1947, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest and the issues of fact or law raised by such declaration which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. At any time after February 3, 1947, said declaration as filed or as amended, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rule U-20 (a) and Rule U-100.

All interested persons are referred to said declaration, which is on file in the offices of this Commission, for a statement of the transactions therein proposed, which are summarized below:

Carolina Coach is proposing to cause Rowan to be liquidated and dissolved. As at October 31, 1946, the total outstanding securities of Rowan, all owned by Carolina Coach, consisted of 150 shares of capital stock, par value $100 per share. In addition Carolina Coach owns all of the open account indebtedness of Rowan, amounting, at the same date, to $29,929.

Preliminary to the proposed liquidation and dissolution of Rowan, all of its open account indebtedness will be cancelled by Carolina Coach and treated as a capital contribution by Rowan. Thereafter Rowan proposes to undertake a program for its complete liquidation to be accomplished by the declaration and payment to Carolina Coach of a liquidating dividend, consisting of all of Rowan's property and assets at the date of the final distribution in liquidation.

The filing states that it is contemplated that all known liabilities of Rowan will have been satisfied prior to the payment of the liquidating dividend and that any liabilities existing at the date of the liquidation of Rowan and not theretofore known will be assumed by Carolina Coach. Upon the making of its final distribution in liquidation, Rowan will be dissolved in accordance with the laws of the State of North Carolina, and Carolina Coach will surrender the capital stock of Rowan to Rowan for retirement and cancellation. It is indicated in the declaration that the contribution of the open account indebtedness by Carolina Coach to Rowan and the subsequent liquidation and dissolution of Rowan are subject to the jurisdiction of the North Carolina Public Utilities Commission.

By the Commission.

[Orange Reg. 162]

PART 966—ORANGES GROWN IN THE STATES OF CALIFORNIA AND ARIZONA

LIMTATION OF SHIPMENTS

§ 966.308 *Orange Regulation 162*—(a) *Findings.* (1) Pursuant to the provisions of the order (7 CFR, Cum. Supp., 966.1 et seq.) regulating the handling of oranges grown in the State of California or in the State of Arizona, issued under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendation and information submitted by the Orange Administrative Committee, established under the said order, and upon other available information, it is hereby found that the limitation of the quantity of such oranges which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong., 2d Sess.; 60 Stat. 237) is impracticable and contrary to the public interest in that the time intervening between the date when information upon which this regulation is based became available and the time when this regulation must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient for such compliance.

(b) *Order.* (1) The quantity of oranges grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., p. s. t., January 26, 1947, and ending at 12:01 a. m., p. s. t., February 2, 1947, is hereby fixed as follows:

(i) *Valencia oranges.* (a) Prorate Districts Nos. 1, 2, and 3, no movement.

(ii) *Oranges other than Valencia oranges.* (*a*) Prorate District No. 1, 450 carloads; (*b*) Prorate District No. 2, 750 carloads; and (c) Prorate District No. 3, unlimited movement.

(2) The prorate base of each handler who has made application therefor, as provided in the said order, is hereby fixed in accordance with the prorate base schedule which is attached hereto and made a part hereof by this reference. The Orange Administrative Committee, in accordance with the provisions of the said order, shall calculate the quantity of oranges which may be handled by each such handler during the period specified in subparagraph (1) of this paragraph.

(3) As used herein, "handled," "handler," "carloads," and "prorate base" shall have the same meaning as is given to each such term in the said order; and "Prorate District No. 1," "Prorate District No. 2," and "Prorate District No. 3" shall have the same meaning as is given to each such term in § 966.107 of the rules and regulations (11 F. R. 10258) issued pursuant to said order.

[Lemon Reg. 206]

PART 953—LEMONS GROWN IN THE STATES OF CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 953.313 *Lemon Regulation 206*—(a) *Findings.* (1) Pursuant to the marketing agreement and the order (7 CFR, Cum. Supp., 953.1 et seq.), regulating the handling of lemons grown in the State of California or in the State of Arizona, issued under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendation and information submitted by the Lemon Administration Committee, established under the said marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong., 2d sess., 60 Stat. 237) is impracticable and contrary to the public interest in that the time intervening between the date when information upon which the regulation is based became available and the time when this regulation must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient for such compliance.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., p. s. t., January 26, 1947, and ending at 12:01 a. m., p. s. t., February 2, 1947, is hereby fixed at 250 carloads, or an equivalent quantity.

(2) The prorate base of each handler who has made application therefor, as provided in the said marketing agreement and order, is hereby fixed in accordance with the prorate base schedule which is attached to Lemon Regulation 205 (12 F. R. 376) and made a part hereof by this reference. The Lemon Administrative Committee, in accordance with the provisions of the said marketing agreement and order, shall calculate the quantity of lemons which may be handled by each such handler during the period specified in subparagraph (1) of this paragraph.

(3) As used in this section, "handled," "boxes," "handler," "carloads," and "prorate base" shall have the same meaning as is given to each such word in the said marketing agreement and order.

(48 Stat. 31, 670, 675; 49 Stat. 750; 50 Stat. 246; 7 U. S. C. 601 et seq.)

Done at Washington, D. C., this 23 day of January 1947.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Branch, Production and Marketing Administration.

TITLE 13—BUSINESS CREDIT

Chapter I—Reconstruction Finance Corporation

PART 01—ORGANIZATION

CENTRAL ORGANIZATION

1. Paragraph (c) of § 01.5 (11 F. R. 177A-454) is deleted in its entirety and the following substituted therefor:

§ 01.5 *Offices* • • •

(c) *Office of Defense Plants.* The Office of Defense Plants performs functions which were originally performed by the Defense Plant Corporation, a former subsidiary of the Reconstruction Finance Corporation which was created on August 2, 1940 under authority of section 5d of the Reconstruction Finance Corporation Act. The Office of Defense Plants is engaged in the establishment of facilities for the production and transportation of materials and supplies, the acquisition of critical items and the operation of facilities constructed by the Office of Defense Plants. The Office of Defense Plants is now engaged in the continuance in accordance with section 5d of the Reconstruction Finance Corporation Act and the War Mobilization Act of such operations and activities as are deemed essential by Agencies of the Government which had recommended the established programs or by the Director of the Office of War Mobilization and Reconversion as well as new programs designated by the proper Agencies of the Government including Office of War Mobilization and Reconversion. In addition to such continuing projects, Office of Defense Plants is engaged in the liquidation and disposition of RFC properties, particularly in relation to clearance of Government property from privately owned and Government owned plants; placing of plants in shut-down or stand-by condition and the protection and maintenance thereof; settlement of termination claims in accordance with the Contract Settlement Act; disposition of property in accordance with contractual obligations and in accordance with the provisions of the Surplus Property Act; settlement of the accountability of contractors to whom facilities have been made available; activities necessary for the protection of the Government's investment in Reconstruction Finance Corporation owned properties and declaration of excess property as surplus in accordance with the Surplus Property Act.

2. Paragraph (d) of § 01.5 (11 F. R. 177A-455) is amended by deleting the last clause of the last sentence thereof and substituting therefor the following:

(d) *Office of Rubber Reserve.* • • • and in the warehousing and distribution of all natural rubber which it imports and of all synthetic rubber which it produces.

3. Paragraph (c) of § 01.6 (11 F. R. 177A-455) is deleted in its entirety and the following substituted therefor:

§ 01.6 *Affiliated organizations.* • • •

(c) *Federal National Mortgage Association.* The Federal National Mortgage Association (formerly the National Mortgage Association of Washington) was organized pursuant to the provisions of Title III of the National Housing Act, as amended. The capital stock of the Association is owned by the Reconstruction Finance Corporation. The Association is staffed by Reconstruction Finance Corporation employees and functions through a principal office in Washington with agents stationed in the various Loan Agencies of the RFC. The principal objectives of the Association are (1) to establish a market for first mortgages, insured under Title II of the National Housing Act, as amended, covering properties upon which are located newly constructed houses or housing projects; (2) to facilitate the construction and financing of economically sound rental housing projects, apartment buildings which may be operated at a moderate scale of rentals, and groups of houses or multi-family dwellings for rent or sale, by making loans secured by first mortgages, insured under section 207 of the National Housing Act, as amended, covering such projects, apartment buildings, or groups of houses or multi-family dwellings; (3) to make available to individual and institutional investors, notes, bonds, or other such obligations issued by the Association pursuant to the provisions of section 302 of Title III of the National Housing Act, as amended, and the regulations of the Federal Housing Administration. The Association is managed by a Board of Directors.

4. Paragraph (d) of § 01.6 (11 F. R. 177A-455) is deleted in its entirety and the following substituted therefor:

(d) *The RFC Mortgage Company.* The RFC Mortgage Company was incorporated under the laws of Maryland on March 14, 1935. The Company functions through its principal office in Washington, D. C., and Agents located in the 31 Reconstruction Finance Corporation Loan Agencies in various cities throughout the United States. The Company (1) makes real estate mortgage loans on urban income-producing properties when the needed financing can not be obtained elsewhere at reasonable rates and terms, and considers applications for loans to finance new construction of the same type if there is a demonstrated economic need for such construction; (2) maintains a market for mortgages insured under Title I, Class 3, and Title VI of the National Housing Act by purchasing such mortgages from mortgagees approved by Federal Housing Administration; and (3) assists in establishing a market for Veterans' Administration guaranteed or insured home loans by purchasing such loans from original lenders. Applications for loans and offerings of mortgages are processed through the Agent of the Company serving the territory in which the underlying properties are located.

PART 02—PROCEDURE[1]

1. Section 02.1 (11 F. R. 177A-456) is deleted in its entirety and the following substituted therefor:

§ 02.1 *Loans to business enterprises.*—(a) *Statutory authority.* The authority of Reconstruction Finance Corporation to make, and cooperate with banks or other lending institutions (hereinafter collectively called "banks") in the making of, loans to business enterprises is contained in section 5d of the RFC Act, as amended, and pursuant to the transfer effected by Executive Order 9665, dated December 27, 1945, (3 CFR, 1945 Supp.) of the authority contained in section 4 (f) of the SWPC Act of June 11, 1942 (56 Stat. 354). Other statutory provisions bearing on such lending authority are found in section 16 (a), (b), and (e) of the RFC Act, as amended, and section 4 of the act approved June 10, 1933. Pursuant to, and in compliance with such statutory provisions, the Reconstruction Finance Corporation will:

(b) *Direct loans.* Make a direct loan.

(c) *Participation loans made and administered by RFC.* Authorize the execution of an agreement (RFC Form L-299) to sell to a bank a specified participation in a loan to be made by Reconstruction Finance Corporation.

(d) *Participation loans made and administered by banks.* Authorize the purchase of a specified participation

[1] Forms referred to in this amendment not filed with the Division of the Federal Register.

(RFC Form L–298), or the execution of an agreement (RFC Form L–300) to purchase a specified participation in a loan to be made by a bank.

(c) *Blanket participations.* Enter into a Blanket Participation Agreement (under which Reconstruction Finance Corporation agrees to purchase a participation of 75%, or such lesser percentage as may be requested by bank, of each loan approved by bank thereunder) with a bank approved by the Reconstruction Finance Corporation Directors, which bank, after the execution of such Agreement, can make loans to business enterprises of not in excess of $100,000 to any one business enterprise, upon such terms and conditions and for such purposes as the bank may prescribe, provided that all applicable statutory conditions and the provisions of such Agreement are complied with.

(f) *Terms and conditions.* All loans, participations or agreements to participate, except those referred to in paragraph (e) of this section, are made on such terms and conditions and for such purposes as are satisfactory to Reconstruction Finance Corporation.

(g) *Applications.* Applications for the loans and participations referred to in paragraphs (b), (c) and (d) of this section should be made on RFC Form L–236 to the appropriate Reconstruction Finance Corporation Loan Agency.

(h) *Additional information.* Specific information may be found in Reconstruction Finance Corporation Circular No. 15 (Revised), dated January 1942; Reconstruction Finance Corporation Circular No. 25, dated March 1945; and Reconstruction Finance Corporation Circular No. 13 (Revised), dated May 1946, copies of which circulars may be obtained from the Reconstruction Finance Corporation Loan Agencies. Further information, if desired, may be procured by direct consultation with members of the Reconstruction Finance Corporation Loan Agencies.

2. Section 02.3 (11 F. R. 177A–456) is deleted in its entirety and the following substituted therefor:

§ 02.3 *Loans to railroads and railroad receivers*—(a) *Introductory.* The Reconstruction Finance Corporation may, to aid in the financing, reorganization, consolidation, maintenance or construction thereof, purchase for itself or for account of a railroad obligated thereon, the obligations of a railroad or receivers or trustees thereof, including equipment trust certificates or guarantee the payment of the principal of, and/or interest on, such obligations, including equipment trust certificates, or make loans to such railroads or to receivers or trustees thereof for the purposes aforesaid; subject to the limitations prescribed in paragraph (b) of this section.

(b) *Limitations.* (1) The Board of Directors of the Reconstruction Finance Corporation must be of the opinion that such railroads or railways are unable to obtain funds upon reasonable terms through private channels, and that the Corporation will be fully and adequately secured.

(2) Loans, purchases and guarantees must have the approval of the Interstate Commerce Commission, including, in the case of purchases, approval of the price to be paid, and the form of obligation and terms and security therefor must comply with the requirements of the Interstate Commerce Commission and of the Corporation.

(3) Loans to any one corporation and its subsidiary or affiliated organizations may not exceed at any one time $100,000,000.

(4) No fee or commission shall be paid by any applicant for a loan under the provisions of the act in connection with any application or any loan made or to be made under the act, and the agreement to pay or payment of any such fee or commission is unlawful.

(5) The applicant must consent to such examinations as the Corporation may require and that reports of examinations by the Interstate Commerce Commission, or other constituted authorities, may be furnished to the Corporation upon request therefor.

(6) Statements and valuations of securities offered by or in behalf of an applicant are subject to all of the governing provisions of the act, and all such provisions should be read and studied by the individual or individuals making such statements or valuations.

(c) *Form of application.* No special form of application is required. Ten copies of each application should be filed, four copies, including two signed originals, to be delivered to the Reconstruction Finance Corporation at its office at 811 Vermont Ave., N. W., Washington, D. C., and the remaining six copies to be delivered to the Interstate Commerce Commission, Washington, D. C. Representations and material in support of applications should be arranged in the following order, as uniformity in presentation will expedite consideration:

(1) Designation of applicant:

(i) If a receiver, or receivers, trustee, or trustees, full title, with date of appointment, qualification, and court having jurisdiction.

(ii) Full corporate name of railroad, with states of incorporation and dates of incorporation.

(iii) Whether applicant is engaged in interstate commerce, with essential facts.

(iv) Whether applicant is a railroad in process of construction.

(2) The name, title, and address of the person with whom conferences or correspondence should be had with respect to the application.

(3) State whether applicant can secure the necessary funds in whole or in part from any other source and, if so, upon what terms. If not, the efforts which have been made and the reasons for this situation should be stated, giving full details of all negotiations undertaken. Copies of letters from three or more financial organizations should accompany application.

(4) Consent of applicant to such examinations as the Corporation may require for the purposes of the act and/or that reports of examinations by constituted authorities may be furnished by such authorities to the Corporation upon request therefor.

(5) Statement that no agreement has been or will be made by the applicant to pay any person, association, firm, or corporation, either directly or indirectly, any commission or fee for the loan or purchase applied for and that no such payments have been or will be made by the applicant.

(6) The purpose of the loan or purchase, the maturity thereof, and uses to which it will be applied and the date or dates on which the funds must be available to the applicant.

(7) The present status of the applicant's existing financial relations with the United States as to;

(i) Loans made to the applicant and the security therefor: (*a*) under Federal control; (*b*) under section 210, Transportation Act, 1920; (*c*) under section 203 (a) Federal Emergency Act of Public Works; and (*d*) under section 5 of the Reconstruction Finance Corporation Act of January 22, 1932, as amended.

(ii) Claims under section 209, Transportation Act, 1920, and the security pledged therefor.

(iii) Claims on account of deficits under section 204, Transportation Act, 1920.

(iv) Any other debits or credits existing between the applicant and the United States other than mail pay, transportation of troops, or income-tax matters.

(8) State whether applicant desires the entire amount of the loan for the full term applied for. If so, full particulars should be given.

(9) The latest valuation placed by the Interstate Commerce Commission upon applicant's property, separately stated for owned carrier and noncarrier property, and date as of which valuation was determined, together with the aggregate net property changes to the latest date to which such changes have been reported to the Bureau of Valuation.

(10) State whether any subsidiary or affiliated organization of the applicant, or any organization of which the applicant is a subsidiary, has applied for or received loans from the Reconstruction Finance Corporation. If so, full particulars should be given.

(11) State whether the applicant was a party to the marshaling and distributing plan, 1931, of the Railroad Credit Corporation. If not, the reasons therefor should be given.

(12) State whether the applicant has received loans from the Railroad Credit Corporation. If so, full particulars should be given.

(13) Statement of principal commodities carried, and statement of ten most important industries served.

(14) Statement in detail as to the particular facts upon which applicant relies as to its present and prospective ability to repay the loan and to discharge its obligations in regard thereto.

(15) Detailed description of the security to be offered for the loan. The applicant must furnish full information, together with copies of documents, and data appropriate to the security offered. The applicant should state its opinion of the value of any collateral offered and the basis for that opinion.

(16) Schedules A to R, below:

SCHEDULE A

Miles of line owned; miles operated, subdivided as to first track, other main tracks, yard track, and sidings, and total all tracks operated; also, the principal termini of the road operated. State number of units of locomotives, freight cars, and passenger cars, owned and leased.

SCHEDULE B

(i) Comparative income account for the years ended December 31, 1931, to the latest complete year, inclusive, and for each month of the current year, so far as available, in the form prescribed by the Interstate Commerce Commission in Schedule 300–I of annual report Form A for large roads and Schedule 1801 of annual report Form C for small roads, together with an estimated income account, showing the basis therefor, for each remaining month of the current year and for each month of the year subsequent thereto.

State whether the amounts reported include revenues from actual or anticipated increases in freight rates permitted by the Interstate Commerce Commission in Ex Parte No. 148 or from any actual or anticipated increases under decisions issued subsequently by the Interstate Commerce Commission (including Ex Parte 162), and, if so, show such amounts separately. If such amounts are not included, give estimates, by months, on separate schedule for current year and year subsequent thereto. Also, in this connection, if the Interstate Commerce Commission should cancel or modify downward its decision in Ex Parte 148, or other later decisions, show how this would affect revenues after the modifications became effective.

If applicant prepares a report to stockholders containing a consolidated system income account, covering two or more steam railway companies, which differs from returns in Schedule 300–I, copies of such report should also be furnished.

(ii) Actual and estimated effect of wage increases, by months, for current year and for year subsequent thereto.

(iii) The total dividends declared and the total dividends paid for each of the years indicated under (i) preceding, and to date in the current year.

(iv) Comparative statement of expenditures for maintenance of (1) way and structures and (2) equipment for the years ended December 31, 1931, to the latest complete year, inclusive, and for each month of the current year, together with estimates for the remaining months of the current year, and the basis of such estimates.

(v) For the years indicated in (i) above, details of dividend income (account 513), income from funded securities (account 514), income from unfunded securities and accounts (account 515), income from sinking and other reserve funds (account 516), and miscellaneous income (account 519).

NOTE: The data required by paragraphs (i), (iii), (iv), and (v) above must give effect to any restatement of the accounts which has been made by the Interstate Commerce Commission.

SCHEDULE C

(i) State whether any corporation or corporations, transportation or other, hold control over the applicant. If control is so held, (1) the form of control, whether sole or joint; (2) the name of the controlling corporation or corporations; (3) the manner in which control was established; (4) the extent of control; (5) whether control is direct or indirect; and (6) the name of the intermediary through which control, if indirect, was established.

(ii) State whether any individual, association, or corporation holds control, as trustee or otherwise, over the applicant. If control is so held, (1) the name of the individual or trustee; (2) the name of the beneficiary or beneficiaries for whom the trust is maintained; and (3) the purpose of the trust.

SCHEDULE D

Statement of comparative general balance sheets as of December 31, for the past 10 years, and as of the close of the latest month for which figures are available. Use the Interstate Commerce Commission's annual report Form A, Schedules 200–A and 200–L for large roads and annual report Form C, Schedules 400–A and 400–L for small roads. If applicant prepares a report to stockholders containing a consolidated system balance sheet, covering two or more operating steam railway companies, which differs from returns in Schedules 200–A and 200–L, a copy of the information thus reported to the Interstate Commerce Commission should also be furnished.

SCHEDULE E

Details of capital stock. Large roads should use the Interstate Commerce Commission's annual report Form A, Schedule 251. Small roads should use Form C, Schedule 690.

SCHEDULE F

Details of long-term debt and contingent assets and liabilities. Large roads should use the Interstate Commerce Commission's annual report Form A, Schedules 261–M, 261–E, 110–A, 261–P, and 263. Small roads should use Form C, Schedules 670, 695, 901, and 1702. A list of the mortgages, pledges, or other liens should be given, together with a brief statement concerning each, indicating the property or securities encumbered; the mortgage limit per mile, if any; and particulars as to priority and as to whether "open," "closed," or "open-end." If practicable, copies of all mortgages, deeds of trust, or other similar instruments pertinent to the loan requested should be furnished; it will be necessary to furnish only one copy to the Interstate Commerce Commission and two copies to the Corporation.

SCHEDULE G

Details of loans and bills payable. Large roads should use the Interstate Commerce Commission's annual report Form A, Schedule 271. Small roads should use Form C, Schedule 1701. Class II and III roads should report in detail items in excess of $10,000 and $5,000, respectively. Information on bank loans must include name of lending banks, amounts, date of notes, date loans initially made, maturities, interest rate of obligations, and security therefor.

SCHEDULE H

Details of special deposits and of loans and bills receivable. The Interstate Commerce Commission's annual report Form A, Schedules 224 and 225, should be used. Class II and III roads should report in detail items in excess of $10,000 and $5,000, respectively.

SCHEDULE I

State whether or not the applicant is under obligation as guarantor or surety for the performance by any other corporation, association, firm, or individual of any agreement or obligation. If so, particulars should be given.

SCHEDULE J

Details of other unadjusted debits. The Interstate Commerce Commission's annual report Form A for large roads, Schedule 227, should be used.

SCHEDULE K

Details of other unadjusted credits. The Interstate Commerce Commission's annual report Form A for large roads, Schedule 281, should be used.

SCHEDULE L

The par value of securities of other companies, owned, pledged, and unpledged, listing each class of securities separately, showing purposes for which such securities are pledged. Large roads should use Schedules 217 and 218 of the Interstate Commerce Commission's annual report Form A and small roads should use Schedules 1001 and 1002 of annual report Form C.

SCHEDULE M

Comparative statement for the past 5 years ended December 31 of the amount charged to operating expenses under depreciation accounts, separately for way and structures and equipment, and the estimated amount of such charges for the current year, and subsequently by years during the period for which the loan is desired. State whether applicant has received or applied for authority to charge amortization depreciation and, if so, the basis and reason for such accounting, also the annual rates used in each account.

SCHEDULE N

An estimate of (a) other income, and (b) miscellaneous deductions for income, as defined and classified under Schedule 300–I of the Interstate Commerce Commission's annual report Form A for large roads (Schedule 1801 of annual report Form C for small roads), for the term of the loan applied for, stating under each account the basis of the estimate.

SCHEDULE O

Statement in detail of applicant's probable fixed charges and appropriations of income and surplus for the current year ended December 31, and subsequently by years during the period for which the loan is desired.

SCHEDULE P

If a loan is requested for any construction purpose other than ordinary additions and betterments, copy of complete engineering estimates of costs and time required for completion, contracts, maps, etc., should be furnished. Show such costs separately as between amounts chargeable to operating expenses and to the capital account.

SCHEDULE Q

If an advance is requested for financing an ordinary program of additions and betterments, give description and estimated cost for all items involving gross expenditures in excess of $10,000, with supporting detail regarding any very large special items, the sum total involved, discussion of benefits of the program as a whole, and the extent to which the program is under way. Separate costs between amounts chargeable to operating expenses and to the capital account.

SCHEDULE R

A statement for the current year of the actual cash balance at the beginning of each month and the actual cash receipts and disbursements during each month to date, together with a carefully prepared monthly forecast for the balance of the current year and the year subsequent thereto, stating controlling factors used in making estimates.

NOTE: In connection with all comparative statements supporting the application, substantial fluctuations should be explained. Omit cents from all financial and statistical statements. One complete set of applicant's annual reports to stockholders since December 31, 1931, should be furnished to the Interstate Commerce Commission and one set to the Reconstruction Finance Corporation with application.

(d) *Legal requirements.* (1) Applicants other than receivers or trustees are

required to furnish with the application the following papers:

(i) Documents evidencing the legal power and authority of the applicant to enter into the obligations and give the security contemplated by the application and showing what corporate action by stockholders, directors, or otherwise will be required to validly exercise such powers. These data will generally include special statutes, charters, by-laws, or certified extracts of the same, showing the corporate powers, etc., of the applicant.

(ii) Preliminary opinion of counsel that he is familiar with the corporate powers of the applicant, that the applicant is authorized to make the application; and that when proper corporate action has been taken and the obligations executed, and security delivered as contemplated by the application, such obligations will constitute the valid and subsisting obligations of the applicant duly secured by a first and paramount lien on the same, or by a lien of the rank and priority stated in the application. Such opinion should also cover the validity and lien of each item of the collateral offered.

(iii) Certified copy of resolutions of applicant's board of directors or executive committee will be required showing the authority of the officers to execute and deliver the application.

(2) When and if the application is approved, the following papers will be required for deposit with the security:

(i) Resolutions of the board of directors or executive committee of the applicant, and where necessary, of meetings of the stockholders, authorizing the execution and delivery of the obligations of the applicant delivered to the Corporation, and pledge of the security described therein, pursuant to and under the terms of the application, and authorizing the designated officers to receive and receipt for the proceeds of the loan or purchase.

(ii) Certificate of election and present incumbency in office of officers designated in the foregoing resolutions, such certificate to contain specimen signatures of such officers and to be duly acknowledged before a notary public.

(iii) Final opinion by counsel for the applicant to the effect that he is familiar with the corporate powers of the applicant; that the applicant is authorized to execute and deliver the notes or other obligations evidencing the same, and to pledge and hypothecate the securities described in the application; that the notes or other obligations so executed and so delivered constitute the valid and binding obligations of the applicant, secured by the collateral described in the application and indicating that the Corporation will obtain a lien on such security of the rank and priority stated in the application. Such opinion should also cover the priority and lien of each item of the collateral offered.

(3) In the case of applications by receivers, or trustees, the application should be accompanied by the following:

(i) Certified copy of the order of court authorizing the receiver to make the application.

(ii) Opinion of counsel for the receiver, or trustee, that such receiver, or trustee, is properly qualified and acting, and that he is authorized to make the application; that the court appointing such receiver, or trustee, has jurisdiction and may legally authorize execution of the obligations and pledge of the security as contemplated by the application; that if and when proper decree or order of the court is entered, the receiver, or trustee, will be authorized to execute such obligations or give the security contemplated in the application. Such opinion should also cover the priority and lien of each item of the collateral offered.

(iii) If and when the application of the receiver, or trustee, is approved by the Corporation, the receiver, or trustee, will be required to deposit with the Corporation certified copies of the court orders and decrees authorizing him to execute and deliver the obligations, and to give the security under and according to the terms of the application, together with final opinion of counsel as to the validity of the obligation and the lien of the corporation upon the security so pledged. Such opinion should also cover the priority and lien of each item of the collateral offered.

(4) Under special circumstances, additional legal documents and information may be required.

(e) *Acknowledgment and verification.* The application should be executed in the name of the applicant by the authorized officers and its corporate seal affixed and attested. It should be acknowledged in the usual form and verified substantially as follows with appropriate changes and omissions in the case of receivers or trustees:

STATE OF ----------
County of ----------, *ss:*

---------- makes oath and says that he is the ---------- of the ------
(Title)

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

[Civil Air Regs., Amdt. 42–4]

PART 42—NONSCHEDULED AIR CARRIER CERTIFICATION AND OPERATION RULES

REQUIRED INSTRUMENTS AND EQUIPMENT

At a session of the Civil Aeronautics Board held at its office in Washington, D. C., on the 15th day of January 1947.

A review of recent aircraft accidents indicates the need for additional operating requirements for nonscheduled air carriers to be made effective without unnecessary delay, and the Board finds good cause to make the following amendments effective February 15, 1947:

Now, therefore: Effective February 15, 1947, Part 42 of the Civil Air Regulations is amended as follows:

1. By amending § 42.13 (b) (14) (11 F. R. 5213) to read as follows:

§ 42.13 *Required instruments and equipment.* * * *

(b) *CFR-VFR (night) and IFR.* * * *

(14) Power failure warning light or vacuum gauge on instrument panel connecting to lines leading to gyroscopic instruments.

2. By adding a new § 42.130 to read as follows:

§ 42.130 *Required instruments and equipment for aircraft of 10,000 lbs. or more maximum take-off weight*—(a) *CFR-VFR (night) and IFR.* (1) Instruments and equipment specified in § 42.13 (a) and (b),

(2) Additional air-speed indicator,

(3) Electrically heated pitot tube for each air-speed indicator,

(4) Rate-of-climb indicator,

(5) Artificial horizon indicator,

(6) Additional sensitive altimeter,

(7) Approved carburetor de-icing equipment for each engine,

(8) Additional source of energy to supply gyroscopic instruments which shall be capable of carrying the required load. Engine-driven pumps, when used, shall be on separate engines and, in lieu of one such pump, an auxiliary power unit may be used. The installation shall be such that the failure of one source of energy will not interfere with the proper functioning of the instruments by means of the other source.

PART 42—NONSCHEDULED AIR CARRIER CERTIFICATION AND OPERATION RULES

MISCELLANEOUS AMENDMENTS

At a session of the Civil Aeronautics Board held at its office in Washington, D. C., on the 15th day of January 1947.

A review of recent aircraft accidents indicates the need for additional operating requirements for nonscheduled air carriers to be made effective without delay, and the Board finds good cause to make the following amendment effective immediately.

Now, therefore: Effective January 15, 1947, Part 42 (11 F. R. 5213, 8345, 11355) of the Civil Air Regulations is amended as follows:

1. By amending § 42.15, *Maintenance,* to read as follows:

§ 42.15 *Maintenance.* The operator of the aircraft shall be responsible for maintaining the aircraft in airworthy condition and for performing all repairs, alterations, and overhauls in accordance with Part 18 of this chapter.

No engine shall be operated longer than 1,000 hours between major overhauls, except where otherwise specifically authorized by the Administrator. This will not authorize use of an engine for such full period of 1,000 hours when inspection or operation indicates that a major overhaul should be accomplished prior to that time or where specifically limited by the Administrator in the air carrier operating certificate.

2. By amending § 42.21, *Flight time limitations,* to read as follows:

§ 42.21 *Flight time limitations for pilots on aircraft of 10,000 lbs. or more maximum take-off weight.*

§ 42.210 *General.* (a) A pilot may be scheduled to fly 8 hours or less during any 24 consecutive hours without a rest period during such 8 hours.

(b) A pilot shall receive 24 hours of rest before being assigned further duty when he has flown in excess of 8 hours during any 24 consecutive hours. Time spent in dead-head transportation to or from duty assignment shall not be considered part of such rest period.

(c) A pilot shall be relieved from all duty for not less than 24 consecutive hours at least once during any 7 consecutive days.

(d) A pilot shall not fly as a crew member in air carrier service more than 100 hours during any 30 consecutive days.

(e) A pilot shall not fly as a crew member in air carrier service more than 1,000 hours in any one calendar year.

(f) A pilot shall not do other commercial flying if his total flying time for any specified period will exceed the limits of that period.

§ 42.211 *For aircraft having a crew of two pilots.* (a) A pilot shall not be scheduled to fly in excess of 8 hours during any 24-hour period unless he is given an intervening rest period at or before the termination of 8 scheduled hours of flight duty. Such rest period shall equal at least twice the number of hours flown since the last preceding rest period and in no case shall such rest period be less than 8 hours. During such rest period the pilot shall be relieved of all duty with the air carrier.

(b) A pilot shall not be on duty for more than 16 hours during any 24 consecutive hours.

§ 42.212 *For aircraft having a crew of three pilots.* (a) A pilot shall not be scheduled for duty on the flight deck in excess of 8 hours in any 24-hour period.

(b) A pilot shall not be scheduled to be aloft for more than 12 hours in any 24-hour period.

(c) A pilot shall not be on duty for more than 18 hours in any 24-hour period.

§ 42.213 *For aircraft having a crew of four pilots.* (a) A pilot shall not be scheduled for duty on the flight deck in excess of 8 hours during any 24-hour period.

(b) A pilot shall not be scheduled to be aloft for more than 16 hours in any 24-hour period.

(c) A pilot shall not be on duty for more than 20 hours during any 24-hour period.

3. By amending § 42.22, *Certification and experience,* to read as follows:

§ 42.22 *Certification and experience.*

§ 42.220 *Aircraft of less than 10,000 lbs. maximum take-off weight*—(a) *First pilot.* Any pilot serving as first pilot must hold a valid commercial pilot rating with an aircraft type and class rating for the aircraft in which he is to serve, and for:

(1) Day flight CFR–VFR he must have had at least 50 hours of cross-country flight time as pilot or copilot;

(2) Day flight IFR he must possess a currently effective instrument rating and have had a total of at least 500 hours of flight time as pilot or copilot including 100 hours of cross-country flight;

(3) Night flight CFR–VFR or IFR he must possess a currently effective instrument rating and have had a total of at least 500 hours of flight time as pilot or copilot, including 100 hours of cross-country flight of which 25 hours shall have been during the hours of darkness.

(b) *Second pilot.* Any pilot serving as second pilot in an aircraft requiring more than one pilot must hold for:

(1) CFR–VFR flights a valid commercial pilot rating with the appropriate type and class ratings,

(2) IFR flights, in addition to (1), a currently effective instrument rating.

§ 42.221 *Aircraft of 10,000 lbs. or more maximum take-off weight.* (a) *First pilot.* Any pilot serving as first pilot must:

(1) Possess a valid commercial pilot rating with an aircraft type and class rating for the aircraft in which he is to serve,

(2) Possess a currently effective instrument rating,

(3) Have logged at least 1,200 hours of flight time of which 500 hours shall have been cross country,

(4) Have logged at least 100 hours of night flying of which 50 hours shall have been cross country.

(b) *Second pilot.* Any pilot serving as second pilot must:

(1) Possess a valid commercial pilot rating with an aircraft type and class rating for the aircraft in which he is to serve.

4. By amending § 42.32, *Instrument and equipment serviceability*, to read as follows:

§ 42.32 *Serviceability of equipment.* Prior to starting any flight, the aircraft, aircraft engine(s), propeller(s), and appliances, including all instruments, must be in proper operating condition. If during the flight any of the above equipment malfunctions or becomes inoperative, it shall be the pilot's responsibility to determine whether the flight can be continued with safety. The pilot shall be responsible for holding or cancelling a flight until satisfactory repairs or replacements can be made.

5. By amending § 42.33 (a), *Flight under contact flight rules (CFR)*, to read as follows:

(a) *Flight under contact (visual) flight rules (CFR–VFR)*—(1) *Aircraft of less than 10,000 lbs. maximum take-off weight.* A flight shall not be started unless the aircraft carries sufficient fuel and oil, considering the wind and other weather conditions forecast, to fly to the point of intended landing and thereafter for a period of at least 30 minutes at normal cruising consumption.

(2) *Aircraft of 10,000 lbs. or more maximum take-off weight.* A flight shall not be started unless the aircraft carries sufficient fuel and oil, considering the wind and other weather conditions forecast, to fly to the point of intended landing and thereafter for a period of at least 45 minutes at normal cruising consumption.

6. By amending § 42.34, *Weather minimums*, to read as follows:

§ 42.34 *Weather minimums.*

§ 42.340 *Dispatch.* No flight shall be dispatched unless the current weather reports and forecasts show a trend indicating that the ceiling and visibility at the place of intended landing will be at or above the following minimums at the time of arrival.

(a) *Contact (visual) flight operations (CFR–VFR)*—(1) *Day.* Ceiling 1,000 feet, visibility 1 mile,

(2) *Night.* Ceiling 1,000 feet, visibility 2 miles.

(b) *Instrument flight operations (IFR)*—(1) *Destination.* The minimums specified in the CAA Flight Information Manual, or as otherwise specified or authorized by the Administrator.

(2) *Alternate.* If the airport is served by a radio directional facility, ceiling 1,000 feet, visibility 3 miles; otherwise a ceiling of 1,500 feet with broken clouds or better, visibility 3 miles.

§ 42.341 *Take-off.* No flight shall be started when the ceiling or visibility at the point of departure is less than:

(a) *Contact (visual) flight operations (CFR–VFR)*—(1) *Day.* Ceiling 1,000 feet, visibility 1 mile,

(2) *Night.* Ceiling 1,000 feet, visibility 2 miles.

(b) *Instrument flight operations (IFR).* The minimums specified in the CAA Flight Information Manual, or as otherwise specified or authorized by the Administrator. In no case shall the ceiling be less than 300 feet or the visibility less than one mile.

§ 42.342 *Landing.* No landing shall be made when the ceiling or visibility is less than:

(a) *Contact (visual) flight operations (CFR–VFR)*—(1) *Day.* Ceiling 1,000 feet, visibility 1 mile,

(2) *Night.* Ceiling 1,000 feet, visibility 2 miles.

(b) *Instrument flight operations (IFR).* The minimums as specified in the CAA Flight Information Manual, or as otherwise specified or authorized by the Administrator.

7. By amending § 42.37, *Instrument approach and landing rules*, to read as follows:

§ 42.37 *Instrument approach and landing rules*—(a) *Letting-down-through procedure.* The pilot shall use a standard instrument approach procedure for the airport as prescribed in the CAA Flight Information Manual, or as otherwise authorized by the Administrator.

(b) *Limitations.* No instrument approach procedure shall be executed or landing made when the latest United States Weather Bureau weather report for that airport indicates the ceiling or visibility to be less than that prescribed by the Administrator for landing at such airport.

PART 42—NONSCHEDULED AIR CARRIER CERTIFICATION AND OPERATION RULES

PILOT QUALIFICATIONS

At a session of the Civil Aeronautics Board held at this office in Washington, D. C., on the 15th day of January 1947.

Effective July 15, 1947, Part 42 (11 F. R. 5213, 8345, 11355) of the Civil Air Regulations is amended as follows:

1. By adding to § 42.221 (b) a subparagraph (2) to read as follows:

§ 42.221 *Aircraft of 10,000 lbs, or more maximum take-off weight.* * * *

TITLE 24—HOUSING CREDIT

Chapter VIII—Office of Housing Expediter

[Premium Payments Reg. 1 as Amended Jan. 23, 1947, Incl. Int. 1-7]

PART 805—PREMIUM PAYMENTS REGULATIONS UNDER VETERANS' EMERGENCY HOUSING ACT OF 1946

STRUCTURAL CLAY PRODUCTS

Purpose and findings. This general regulation is issued to stimulate additional production of structural clay products by providing for premium payments with respect to units of additional production above established quotas. It describes how quotas are established, and the methods, procedures and conditions under which such payments may be obtained. This regulation is issued pursuant to the authority of the Veterans' Emergency Housing Act of 1946.

All available means of increasing the supply of structural clay products for the veterans' emergency housing program and for other construction, maintenance and repair essential to the national well-being have been considered. Based on such consideration the Expediter finds that premium payments are temporarily necessary to increase the supply of such materials, and to stimulate additional production with greater rapidity, economy, and certainty than other available methods. The premium payments provided herein are applied at a uniform rate within the industry. In applying premium payments to necessary additional production in this industry, emphasis has been placed upon avoiding either economic dislocations or adverse effects upon established business.

§ 805.1 *Structural clay products*—(a) *Definitions.* As used in this section:

(1) "Producer" means a person who operates a plant in which clay products are produced.

(2) "Person" means an individual, corporation, partnership, association, or any other organized group of any of the foregoing, or legal successor or representative of any of the foregoing, but does not include the United States, any of its political subdivisions or any agency thereof, any other Government, any of its political subdivisions or any agency thereof.

(3) "Structural clay products" means what is commonly known to the industry as burned common and face clay brick—glazed and unglazed; structural clay tile—unglazed; and structural facing tile—glazed and unglazed. It does not include drain tile, roofing tile, flue lining, floor and wall tile, paving brick, fire-clay brick, sewer pipe, quarry tile or any other clay products.

(4) "Plant" means an integrated manufacturing establishment for the production of clay products (within the United States, its Territories, possessions or the District of Columbia) occupying a single site and, where consisting of several complete manufacturing units, using common shipping and storing facilities and common operating supervision.

(5) "Month" means calendar month: *Provided, however,* Any producer on whom this provision works a hardship may apply by letter to the Expediter, Washington, D. C., for authorization to submit his application for quota and claims for payments beginning with the claim for June 1946 on the basis of a stipulated fiscal month. With respect to a producer who has received such authorization, this section shall become effective on the first day of his fiscal month, beginning on or after June 1, 1946, and shall terminate on the same date on which this section terminates as to other producers.

(6) "Full operating month" means a month in which a plant operated at least twenty days except for February during which the plant must have operated at least eighteen days.

(7) "Claim" means a claim for payment filed pursuant to this regulation.

(8) "New producer" means, with respect to a plant which prior to the effective date of this section was not operated for the production of clay products a person who operates such a plant after the effective date of this section and who did not operate prior to the effective date of this section any plant for the production of clay products.

(9) "Expediter" means the Housing Expediter as defined in the Veterans' Emergency Housing Act of 1946 or his duly authorized representative.

(10) "OHE" means the Office of the Housing Expediter.

(b) *Computation of production for quotas and claims.*

(1) For the purpose of determining the quota of a plant and for the purpose of determining the amount of a claim, production of a plant shall be computed according to the following instructions. Find the number of units of completely burned clay products produced in the month involved, computed on the basis of standard size brick equivalents. Except as hereinafter provided, all clay products must be counted immediately subsequent to their burning whether or not they have been removed from the kiln. Producers who have customarily computed their production on the basis of the number of units of completely burned clay products drawn from the kiln, regardless of when such products were burned, may continue to do so for the purpose of computing production under this section, provided that such method is employed to compute production for both quota and claim purposes; and provided further, however, that all clay products must be counted (whether or not removed from the kiln) within 30 days after they have been completely burned. For quantities of clay products counted after being drawn from the kiln, count only those products which are of a grade and character suitable for sale. For quantities of clay products counted before being drawn from the kiln, make a reasonable deduction for breakage and wastage. Do not count quantities of clay products which are in the process of being burned.

[Subparagraph (1) as amended shall become effective as of June 1, 1946]

(2) The following computations shall be used in converting to standard size brick equivalents:

(i) For structural clay tile and drain tile a factor of 1.5 tons per thousand bricks shall be used in making the conversion.

(ii) For glazed and unglazed hollow facing tile, oversize brick and any other clay products not included in subdivision (i) above, the producer shall convert to standard size brick equivalents using the conversion factor, if any, previously utilized by him in preparing reports to other Federal Government agencies, or, if no such conversion factor has ever been so used, using the conversion factor, if any, he has customarily used in his business, or, if no such conversion factor has ever been so used, using such reasonable conversion factor (subject to redetermination by the Expediter) as is applicable in each case. The same conversion factor shall be used for a clay product both for the purpose of computing the quota of the plant in which it was produced and for the purpose of computing all claims for production of that clay product in that plant.

(c) *Establishment of quota.* (1) A separate quota shall be established for each and every plant of the producer as follows:

(i) With respect to a plant where clay products were produced for at least three full operating months during January through May 1946, the quota shall be the lower of the following: (*a*) The arithmetical average of the production of all clay products stated in terms of standard size brick equivalents for the two months of highest production during January through May 1946, or (*b*) 90 percent of the production of all clay products stated in terms of standard size brick equivalents for the month of highest production during January through May 1946.

(ii) With respect to a plant where clay products were produced less than three but at least two full operating months during January through May 1946, the quota shall be 90 percent of the production of all clay products stated in terms of standard size brick equivalents for the month of highest production during those two months.

(iii) With respect to a plant where clay products were produced prior to June 1, 1945, but where no clay products of any kind were produced during the year June 1, 1945, through May 31, 1946, the quota for each month shall be two-thirds of the production of "structural clay products" stated in terms of standard size brick equivalents during that month and premium payments will be made on the remaining one-third. In determining quotas under this paragraph clay products other than "structural clay products" shall not be included.

(iv) With respect to all other plants, a special quota shall be established by the Expediter: *Provided, however,* That no such quota shall be established for a new producer which would result in the application of premium payments to more than 50 percent of the value (in terms of the producer's selling price) of the total output of such producer.

(v) Upon application therefor, a special quota adjusted for any number of consecutive months of the year may be established by the Expediter with respect to a plant where, customarily, because of the effect of weather conditions on plant operations, the production of clay products during said months is substantially less than production in the other months of the year.

(2) In the case of a producer with two or more plants, if the production in any plant falls below the quota for that plant in any month, the Expediter may establish a combined quota for any or all plants if he determines that production has been shifted among such plants so as to increase the producers total claims without a corresponding increase in total output.

(d) *Application for quota.* (1) Every person who wishes to receive premium payments under this section shall file an application for quota on prescribed forms in accordance with instructions on the forms. A separate application shall be filed for each and every plant of the applicant.

(2) With respect to those plants whose quotas are established under paragraph (c) (1) (i), (ii) or (iii) of this section, the application forms may be obtained from any Reconstruction Finance Corporation Loan Agency and shall be filed with the first claim for payment.

(3) All applications for quotas under paragraph (c) (1) (i), (ii) or (iii) of this section shall be filed with the RFC at the Loan Agency for the district in which the plant is located except that a producer operating more than one plant shall simultaneously file the applications covering all his plants at the Loan Agency for the district in which his main office is located. A producer may find out in which RFC Loan Agency district he is located by consulting his bank.

(4) All applications for special quotas under paragraph (c) (1) (iv) or (v) of this section shall be filed with the Civilian Production Administration, Washington, D. C. The application forms may be obtained from any RFC Loan Agency.

(5) Each application for an adjustment of quota pursuant to subdivision (c) (1) (v) of this secion must be filed not later than December 31, 1946: *Provided, however,* That with respect to any plant which has not operated for the

less than one mile.

include drain tile, footing tile, tile lined

for both quota and claim purposes:

of any kind were produced during the

plant which has not operated for the

production of clay products between June 1, 1946 and November 30, 1946, inclusive, such application may be filed not later than 30 days following the end of the month in which production first occurs in such plant subsequent to November 30, 1946.

(e) *Rate and computation of premium payment.* (1) A premium payment of $5 for each thousand units of production stated in terms of standard size brick equivalents in excess of established quotas will be made. The amount payable for each month will be computed by subtracting from the total number of units of production stated in terms of standard size brick equivalents during the month the amount of the established quota and multiplying the remainder by $5 per thousand units.

(2) In the case of a plant whose quota includes clay products other than structural clay products, the production for the month covered by the claim may include such other clay products up to but not exceeding the amount of other clay products in its quota. The other clay products in the quota may be found as follows:

(i) With respect to a plant whose quota is the arithmetic average of production in the two months of highest production, take the arithmetic average of the production of other clay products in these two months.

(ii) With respect to a plant whose quota is 90% of production in the month of highest production, take 90% of production of other clay products in that month.

EXAMPLE: A plant has a quota of 1,000 standard size brick equivalent, made up of 800 in structural clay products and 200 in other clay products. In August it produces 1,500 standard size brick equivalent of all clay products made up of 1,200 structural clay products and 300 other clay products. The claim for August should be for 400 standard size brick equivalents of production in excess of quota, computed as follows:

Structural clay products produced	1,200
Other clay products produced (but not in excess of amount in quota)	200
Total production in claim	1,400
Quota	1,000
Production in excess of quota	400

(f) *Claim for payment.* (1) Each claim for payment shall be filed on prescribed forms in accordance with instructions on the forms. These forms may be obtained from any RFC Loan Agency.

(2) Each claim for payment shall be filed on or before the last day of the month following the end of the month in which the production occurred: *Provided, however,* That claims for payment on account of production during the month of June, 1946, may be filed not later than August 31, 1946: *And provided further,* That a producer obtaining a special quota for any plant shall file all previously accrued claims on account of production in that plant not later than the last day of the month following the end of the month in which the special quota was established by the Expediter. With respect to any plant, no claim shall accrue on account of production occurring prior to the first day of the month in which the application for quota for such plant is filed with the Expediter: *Provided, however,* That this provision shall not become effective until November 1, 1946.

(3) Each claim for payment shall include all of the production of the month for which claim is made and no other. Any producer whose production in any month is insufficient to permit the payment of a premium shall nevertheless file a claim form on or before the end of the month following the month in which the deficit occurred as an information return to indicate the amount of such deficit.

(4) Each claim for payment or information return shall be filed with the RFC at the Loan Agency for the District in which the main office of the plant is located, except that a producer operating more than one plant shall simultaneously file the claims or information returns for all of his plants at the Loan Agency for the District in which his main office is located.

(5) No claim under this section shall be assignable except as a part of a bona fide transfer of the plant to a legal successor.

(g) *Payment*—(1) *Review by RFC.* In reviewing applications for quota and claims for payment, the RFC will determine whether such applications and claims appear to have been correctly and properly prepared.

(2) *Terms of payment.* If the claim or any part thereof is accepted by RFC subject to final verification, RFC will then pay the applicant that part of the claim so accepted: *Provided, however,* That with respect to claims for the months of April and May, 1947, RFC may require that bond be furnished in form and amount satisfactory to it before making payment thereon. Preliminary acceptance and payment of a claim shall not constitute final acceptance of the validity or amount of the claim. If, after review or audit, there is cause to question the validity of any claim, RFC may (i) Require that bond be furnished in form and amount satisfactory to it before making further payments, or, (ii) Suspend further payments.

(3) *Verification of claims.* (i) Upon receipt of applications for quota and claims for payment, RFC will forward copies to the Expediter for verification and such investigation or audit as may be deemed appropriate.

(ii) If the amount verified and approved by the Expediter is less than the amount previously paid, the claimant shall upon demand by RFC refund the overage to RFC together with interest thereon at the rate of 4 percent per annum calculated from the date of such overpayment to the date repayment is made to the RFC or such overage plus interest may be deducted from any accrued or subsequent claim for any payment by RFC to the claimant.

(iii) In the event that the Expediter establishes a combined quota under paragraph (c) (2) of this section, payment shall be made on the basis of the amount by which total production of those plants whose quotas have been combined exceeds the total quotas of these plants.

(4) *Invalidation of claims.* The Expediter shall have the right at any time to declare invalid any claim of a producer, and such producer shall upon demand refund to RFC any payment on such claim, if the Expediter finds that the producer has failed: (i) To comply with any of the requirements of this section, or (ii) To accept a rated order for structural clay products as required by the applicable priorities regulations of CPA or OHE.

[Subparagraph (4) as amended shall become effective as of November 10, 1946]

(h) *Records.* Every producer shall prepare and preserve for inspection for a period of not less than two years after the date of termination of this section, all books, records and other documents which furnish information in support of his applications for quota and claims for payment. The Expediter or his designated agents shall have the right at any time to make such examinations and audits of these books, records and other documents as may be necessary to verify the representations in producer's applications for quota and claims for payment or as may be required by the Expediter.

(i) *Official interpretations.* Official interpretations of this section may be given only in writing by the General Counsel of the Office of the Expediter, or his duly authorized representative. A request for an official interpretation must be filed in writing directly with the Expediter or the General Counsel.

(j) *Termination.* This section shall terminate on May 31, 1947. In the event the Expediter finds that any substantive amendments, including but not limited to an amendment of the termination date, have become necessary, no such amendments will be issued until after adequate notice to and discussion with representatives of the producers covered by this section.

Termination of this section shall not preclude the filing of claims for payment during the month following such termination on account of production during the immediately preceding month. Such claims shall be dealt with in accordance with the provisions of this section in the same manner as if it had not been terminated.

[Paragraph (j) as amended shall become effective as of November 10, 1946]

(k) *Effective date.* This section as amended shall become effective as of November 10, 1946.

NOTE: The reporting and record-keeping requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(Pub. Law 388, 79th Cong.)

Issued this 23d day of January 1947.

FRANK R. CREEDON,
Housing Expediter.

INTERPRETATION 1

ESTABLISHMENT OF QUOTA BY PRODUCER WHO HAS NO PRODUCTION RECORDS (PARAGRAPH (c))

If a producer has no monthly production records, but has monthly sales records and monthly inventory records, he may determine monthly production for purposes of quota by deducting his inventory at the beginning of the month from the total of his sales during the month and his inventory at the end of the month.

If a producer has neither monthly production records nor monthly inventory records, he should apply for a special quota under paragraph (c) (1) (iv) and (d) (4) of the regulation. (Issued July 11, 1946.)

INTERPRETATION 2

CONVERSION FACTOR FOR MODULAR SIZE BRICK

The conversion factor for modular size brick used under MPR 592, Order No. 17, issued by OPA may be used as the conversion factor for modular size brick under this premium payments regulation. The conversion factor under this OPA order is used in computing OPA maximum prices which are then filed by the producer with OPA. It is, therefore a conversion factor previously utilized in preparing reports to a Federal Government agency as required by this premium payments regulation. (Issued July 11, 1946.)

INTERPRETATION 3

APPLICATION OF TERM "STRUCTURAL CLAY PRODUCTS" TO CONCRETE BUILDING BRICK

Concrete and cement building bricks are not "structural clay products", as defined in paragraph (a) (3) of Premium Payments Regulation 1. (Issued July 19, 1946.)

INTERPRETATION 4

APPLICATION OF TERM "STRUCTURAL CLAY PRODUCTS" TO FLOOR BRICK

Floor bricks are not commonly known to the industry as burned common or face clay brick and consequently are not "structural clay products", as defined in paragraph (a) (3) of Premium Payments Regulation 1. (Issued August 9, 1946.)

INTERPRETATION 5

MEANING OF TERM "VALUE OF PRODUCTION" AS USED IN FORM NHA 14-43

The term "Value of production" in Form NHA 14-43 means the producer's selling price, f. o. b. plant. (Issued August 28, 1946.)

INTERPRETATION 6

STRUCTURAL CLAY PRODUCTS; COMPUTATION OF PRODUCTION

Paragraph (b) (1) of Premium Payments Regulation 1 requires that for the purpose of determining the quota of a plant and the amount of a claim, production be computed by determining the number of units of "completely burned clay products produced in the month involved." The term "produced" includes, in its usual sense, the entire process of manufacture. The process of manufacture of a structural clay unit consists of (1) the forming of the unit, (2) the drying of the unit, and (3) the burning of the unit.

When the entire process of manufacture of a structural clay unit in any plant has taken one month or less, then it is proper to determine production in any such month by counting the number of structural clay units completely burned during that month. The same method of determining production may also be used even where the process of manufacture exceeds one month if there are no radical fluctuations (other than normal seasonal fluctuations) in the number of units completely burned from month to month.

Where, however, the process of manufacture of a structural clay unit exceeds one month, and there are radical fluctuations (other than normal seasonal fluctuations) in the number of units completely burned from month to month, it is obvious that the number of units burned in any one month does not even approximate the number of units in fact produced during that month. In such cases, it is necessary to make a reasonable allocation of the number of units completely burned during one or more months to each of the months involved in the production of those units. This should be done by dividing the total number of units completely burned during a selected group of consecutive months by the number of months in such group. It is recognized that as a practical matter in most cases, it will not be possible to select a group of months during which all of the units burned were completely manufactured. However, the aim should be to select a group of months during which the predominant number of the units that were completely burned were also completely manufactured during those same months. The monthly average of the number of completely burned units arrived at in this fashion may be regarded as the production during each of the months in the group selected for this computation.

The principles stated in this official interpretation apply for purposes of determining production both during the quota period and during a claim period. (Issued September 26, 1946.)

INTERPRETATION 7

APPLICATION OF "STRUCTURAL CLAY PRODUCTS" TO IRRIGATION DITCH LINERS AND RADIAL CHIMNEY BRICK

Irrigation ditch liners and radial chimney brick are not "structural clay products" as defined in paragraph (a) (3) of Premium Payments Regulation 1, as amended. (Issued October 24, 1946.)

PART 805—PREMIUM PAYMENTS REGULATIONS UNDER VETERANS' EMERGENCY HOUSING ACT OF 1946

SAND-LIME BRICK

Purpose and findings. This general regulation is issued to stimulate additional production of sand-lime brick by providing for premium payments with respect to units of additional production above established quotas. It describes how quotas are established, and the methods, procedures and conditions under which such payments may be obtained. This regulation is issued pursuant to the authority of the Veterans' Emergency Housing Act of 1946.

All available means of increasing the supply of sand-lime brick for the veterans' emergency housing program and for other construction, maintenance and repair essential to the national well-being have been considered. Based on such consideration the Expediter finds that premium payments are temporarily necessary to increase the supply of such materials and to stimulate additional production with greater rapidity, economy, and certainty than other available methods. The premium payments provided herein are applied at a uniform rate within the industry. In applying premium payments to necessary additional production in this industry, emphasis has been placed upon avoiding either economic dislocations or adverse effects upon established business.

§ 805.10 *Sand-lime brick*—(a) *Definitions.* As used in this section:

(1) "Brick" and "Sand-lime brick" mean brick of the type described in "Federal Specification for Brick; Sand-lime", approved June 28, 1932 and published in section IV, Part 5 of the Federal Standard Stock Catalog and identified as document SS-B-681. No sand-lime product having a gross volume, computed from actual overall dimensions, in excess of 176 cubic inches shall be deemed to be "sand-lime brick" under this section.

(2) "Sand-lime product" means any product manufactured in a plant in which sand-lime brick is produced and for which the manufacturing process and the production facilities are substantially similar to those employed in the manufacture of sand-lime brick.

(3) "Person" means an individual, corporation, partnership, association, or any other organized group of any of the foregoing, or legal successor or representative of any of the foregoing, but does not include the United States, any of its political subdivisions or any agency thereof, any other Government, any of its political subdivisions or any agency thereof.

(4) "Producer" means a person who operates a plant for the production of sand-lime brick.

(5) "Plant" means an integrated manufacturing establishment for the production of sand-lime brick (within the United States, its Territories, possessions or the District of Columbia) occupying a single site and, where consisting of several complete manufacturing units, using common shipping and storing facilities and common operating supervision.

(6) "Standard size brick" means brick having a gross volume, computed from actual overall dimensions, of 67.5 cubic inches.

[Subparagraph (6) as amended shall become effective as of October 1, 1946]

(7) "Production" and "Units of Production" mean the number of units of sand-lime brick and other sand-lime products computed pursuant to paragraph (b) of this section and stated in terms of standard size brick equivalents.

(8) "Month" means a calendar month: *Provided, however,* That any producer on whom this provision works a hardship may apply by letter to the

Expediter for authorization to submit his application for quota and claims for payments on the basis of a stipulated fiscal month. With respect to a producer who has received such authorization this section shall become effective on the first day of his fiscal month beginning on or after October 1, 1946, and shall terminate on the same date as this section terminates as to other producers.

(9) "Full operating month" means a month during which a plant operated at least twenty working days except for February, during which the plant must have operated at least eighteen working days.

(10) "New producer". A person who did not operate prior to the effective date of this section any plant for the production of sand-lime brick shall be a new producer as to any plant operated by him for the production of sand-lime brick which was not, prior to the effective date of this section, substantially completed as a plant capable of producing sand-lime brick.

(11) "Claim" means a claim for payment filed pursuant to this section.

(12) "Expediter" means the Housing Expediter as defined in the Veterans' Emergency Housing Act of 1946, or his duly authorized representative.

(13) "OHE" means the Office of the Housing Expediter.

(b) *Computation of production for quotas and claims.* For the purpose of determining the quota of a plant and the amount of a claim, production shall be computed by counting the number of units of all sand-lime products completely cured in the month involved stated in terms of standard size brick equivalents. The number of standard size brick equivalents for all sand-lime products shall be computed by using 67.5 cubic inches as the gross volume equivalent to one standard size brick. For example: A sand-lime brick or other sand-lime product having actual dimensions of 3¾" x 5" x 8" and with a gross volume of 150 cubic inches equals 2.22 brick equivalent. In computing the gross volume of modular size brick for the purpose of converting to standard size brick equivalents, the nominal dimensions of the modular brick should be used rather than its actual dimensions.

[Paragraph (b) as amended shall become effective as of October 1, 1946]

(c) *Establishment of quota.* (1) A separate quota shall be established for each and every plant of the producer as follows:

(i) With respect to a plant where sand-lime products were produced for at least five full operating months during January through September 1946, the quota shall be the lower of the following: (a) The arithmetical monthly average of the production of all sand-lime products for the three months of highest production during January through September 1946 or (b) 90 percent of the production of all sand-lime products for the month of highest production during January through September 1946.

(ii) With respect to a plant where sand-lime products were produced less than five but at least two full operating months during January through September 1946, the quota shall be 90 percent of the production of all sand-lime products for the month of highest production during January through September 1946.

(iii) With respect to a plant where sand-lime products were produced prior to June 1, 1945, but where no sand-lime products of any kind were produced during the period from June 1, 1945 through September 30, 1946, the quota for each month shall be two-thirds of the production of all sand-lime brick during such month and premium payments will be made on the remaining one-third.

(iv) With respect to all other plants, a special quota shall be established by the Expediter: *Provided, however,* That no such quota shall be established for a new producer which would result in the application of premium payments to more than 50 percent of the value (in terms of the producer's selling price) of the total output of such producer.

(v) Upon application therefor, on form NHA 14-113, a special quota adjusted for any number of consecutive months of the year may be established by the Expediter with respect to a plant where, customarily, because of the effect of weather conditions on plant operations the production of sand-lime brick during said months is substantially less than production in the other months of the year.

(2) In the case of a producer with two or more plants, if the production in any plant falls below the quota for that plant in any month, the Expediter may establish a combined quota for any or all plants of such producer if the Expediter determines that production has been shifted among such plants so as to increase the producer's total claims without a corresponding increase in total output.

(3) If the production of sand-lime brick in a plant in any claim period is below the sand-lime brick component of such plant's quota, then the plant's quota for the next succeeding claim period shall consist of its established quota plus the amount of the deficit in the production of sand-lime brick in the preceding claim period; *Provided, however,* That if on the producer's application the Expediter determines that the deficit was due to unusual circumstances beyond the control of the producer, such deficit shall not be added to the established quota. Such application for waiver of the deficit carry-over shall consist of form NHA 14-112 filled out as an information return and filed with the Reconstruction Finance Corporation Loan Agency with which the claims for that plant are filed within 15 days after the end of the month in which the deficit occurred, except that applications with respect to deficits incurred during the months of October, November and December, 1946, may be filed up to and including January 31, 1947.

[Above subparagraph (3) as amended shall become effective as of October 1, 1946]

(d) *Application for quota.* (1) Every producer who wishes to receive premium payments under this section shall file promptly with the Expediter an application for the establishment of quotas for each of his plants on form NHA 14-111 which may be obtained from any Reconstruction Finance Corporation Loan Agency. A producer may find out in which RFC Loan Agency district he is located by consulting his bank.

(2) Each application for an adjustment of quota pursuant to subdivision (c) (1) (v) of this section must be filed not later than January 31, 1947: *Provided, however,* that with respect to any plant which has not operated for the production of sand-lime brick between October 1, 1946, and December 31, 1946, such application may be filed not later than 30 days following the end of the month in which production first occurs subsequent to December 31, 1946.

[Above subparagraph (2) as amended shall become effective as of October 1, 1946]

(e) *Rate and computation of premium payment.* (1) A premium payment of $5.00 for each thousand units of production in excess of established quotas will be made. The amount payable for each month will be computed by subtracting from the total number of units of production of all sand-lime products during the month the amount of the established quota (including any deficit carried over from the previous month as set forth in subparagraph (c) (3) of this section) and multiplying the remainder by $5.00 per thousand units.

(2) In the case of a plant whose quota includes sand-lime products other than sand-lime brick, the production for the month covered by the claim may include such other sand-lime products up to but not exceeding the amount of other sand-lime products in its quota. The other sand-lime products in the quota shall be determined as follows:

(i) With respect to a plant whose quota is the arithmetic average of production in the three months of highest production, take the arithmetic average of the production of other sand-lime products in these three months.

(ii) With respect to a plant whose quota is 90% of production in the month of highest production, take 90% of production of other sand-lime products in that month.

Example: A plant has a quota of 1,000 standard size brick equivalent, made up of 800 in sand-lime brick and 200 in other sand-lime products. In October it produces 1,500 standard size brick equivalent of all sand-lime products made up of 1,200 sand-lime brick and 300 other sand-lime products. The claim for October should be for 400 standard size brick equivalents of production in excess of quota, computed as follows:

Sand-lime brick produced	1,200
Other sand-lime products produced (but not in excess of amount in quota)	200
Total production in claim	1,400
Quota	1,000
Production in excess of quota	400

(f) *Claim for payment.* (1) Each claim shall be filed on form NHA 14-112. These forms may be obtained from any RFC Loan Agency.

(2) Each claim shall be filed on or before the last day of the month following the end of the month in which the production occurred: *Provided, however,* That a producer obtaining a special quota for any plant shall file all previously accrued claims on account of production in that plant not later than the last day of the month following the end of the month in which the special quota was established by the Expediter. Notwithstanding any provision contained in this subparagraph (f) (2), claims based upon production occurring during the months of October, November and December, 1946, may be filed not later than January 31, 1947.

[Above subparagraph (2) as amended shall become effective as of October 1, 1946]

(3) With respect to any plant, no claim shall accrue on account of production occurring prior to the first day of the month in which the application for quota for such plant is filed with the Expediter: *Provided, however,* That this provision shall not become effective until February 1, 1947.

[Above subparagraph (3) as amended shall become effective as of October 1, 1946]

(4) Each claim for payment shall include all of the production of the month for which claim is made and no other. Any producer whose production in any month is insufficient to permit the payment of a premium shall nevertheless file form NHA 14-112 on or before the end of the month following the month in which the deficit occurred as an information return to indicate the amount of the deficit.

(5) Each claim or information return on form NHA 14-112 shall be filed with RFC at the Loan Agency for the District in which the main office of the plant is located, except that a producer operating more than one plant shall simultaneously file the claims or information returns for all of his plants at the Loan Agency for the District in which his main office is located.

(6) No claim under this section shall be assignable except as a part of the bona fide transfer of the plant to a legal successor.

(g) *Payment*—(1) *Review by RFC.* In reviewing claims, the RFC will determine whether such claims appear to have been correctly and properly prepared.

(2) *Terms of payment.* If the claim or any part thereof is accepted by RFC subject to final verification, RFC will then pay the claimant that part of the claim so accepted: *Provided, however,* That with respect to claims for the last two months during which this section is in effect RFC may require that bond be furnished in form and amount satisfactory to it before making payment.

Preliminary acceptance and payment of a claim shall not constitute final acceptance of the validity or amount of the claim. If, after review or audit, there is cause to question the validity of any claim, RFC may:

(i) Require that bond be furnished in form and amount satisfactory to it before making further payments, or,

(ii) Suspend further payments.

(3) *Verification of claims.* (i) Upon receipt of claims, RFC will forward copies to the Expediter for verification and such investigation or audit as may be deemed appropriate.

(ii) If the amount verified and approved by the Expediter is less than the amount previously paid, the claimant shall upon demand by RFC refund the overage to RFC together with interest thereon at the rate of 4% per annum calculated from the date of such overpayment to the date repayment is made to the RFC or such overage plus interest may be deducted from any accrued or subsequent claim for any payment by RFC to the claimant.

(iii) In the event that the Expediter establishes a combined quota under paragraph (c) (2) of this section, payment shall be made on the basis of the amount by which total production of those plants whose quotas have been combined exceeds the total quotas of those plants.

(4) *Invalidation of claims.* The Expediter shall have the right at any time to declare invalid any claim of a producer, and such producer shall upon demand refund to RFC any payment on such claim, if the Expediter finds that the producer has failed:

(i) To comply with any of the requirements of this section, or,

(ii) To comply with directives, certifications, allocations, orders or regulations of the Civilian Production Administration or OHE on sand-lime brick.

[Subdivision (ii) as amended shall become effective as of November 10, 1946]

(h) *Records.* Every producer shall prepare and preserve for inspection for a period of not less than two years after the date of termination of this section, all books, records and other documents which furnish information in support of its applications for quota and claims for payment. The Expediter or his designated agents shall have the right at any time to make such examinations and audits of these books, records and other documents as may be necessary to verify the representations in the producer's applications for quota and claims for payment or as may be required by the Expediter.

(i) *Reports.* Producers must furnish such reports as may be required by the Expediter from time to time, subject to approval by the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(j) *Official interpretations.* Official interpretations of this section may be given only in writing by the General Counsel of the Office of the Expediter, or his duly authorized representative. A request for an official interpretation must be filed in writing directly with the Expediter or the General Counsel.

(k) *Termination.* This section shall terminate on May 31, 1947. In the event that the Expediter finds that any substantive amendments become necessary, including but not limited to an amendment of the termination date, no such amendments will be issued until after adequate notice to and discussion with representatives of the producers covered by this section.

Termination shall not preclude the filing of claims for payment during the month following such termination on account of production during the immediately preceding month. Such claims shall be dealt with in accordance with the provisions of this section in the same manner as if it had not been terminated.

[Above paragraph as amended shall become effective as of November 10, 1946]

(l) *Effective date.* This section shall become effective as of October 1, 1946.

NOTE: The reporting and record keeping requirements of this regulation have been approved by the Bureau of the Budget, in accordance with the Federal Reports Act of 1942.

(60 Stat. 207)

Issued this 23d day of January 1947.

FRANK R. CREEDON,
Housing Expediter.

INTERPRETATION 1

MEANING OF "SAND-LIME BRICK"

In order to meet the requirements for sand-lime brick set forth in paragraph (a) (1) of EPPR 10, a sand-lime brick must include the ingredients set forth in the Federal Specification for sand-lime brick and may also include cement but only when, and to the extent that, this is necessary to overcome strength deficiencies. In all cases, sand-lime brick must be cured under high steam pressure to develop the chemical reaction characteristic of sand-lime brick (industry practice requires the use of a chamber or auto-clave within which an average of not less than 110 pounds per sq. in. steam pressure is developed and maintained for at least eight hours)." (Issued December 11, 1946.)

TITLE 25—INDIANS

Chapter I—Office of Indian Affairs, Department of the Interior

Subchapter I—Grazing

PART 73—GRAZING, PINE RIDGE AERIAL GUNNERY RANGE

Sec.
73.1 Objectives.
73.2 Administration.
73.3 Grazing permits.
73.4 Preference in awarding permits.
73.5 Permit requirements.
73.6 Grazing fees.
73.7 Delinquent fees, their collection.

AUTHORITY: §§ 73.1 to 73.7, inclusive, issued under R. S. 161; 5 U. S. C. 22.

§ 73.1 *Objectives.* It is the purpose of the regulations in this part to achieve the preservation and rehabilitation through proper grazing practices of the forage, forest, land, and water resources of the area known as the Pine Ridge Aerial Gunnery Range, hereinafter referred to as the Gunnery Range, and to provide for the use of the area under proper permits.

§ 73.2 *Administration.* So far as applicable §§ 71.5, 71.6, 71.7, 71.8, 71.22, 71.23 (a), and 71.26 of the general grazing regulations governing the use of Indian range lands, which are contained in Title 25, Code of Federal Regulations, together with any subsequent amend-

ments, shall govern the administration of the Gunnery Range. All forms necessary to carry out the purpose of the regulations in this part shall be approved by the Commissioner of Indian Affairs.

§ 73.3 *Grazing permits.* Grazing privileges shall be granted through the medium of permits by the Superintendent of the Pine Ridge Indian Agency, Pine Ridge, South Dakota. The Superintendent shall post at public places for a period of fifteen days notices of the availability of the Gunnery Range for the grazing of livestock. Applications for grazing privileges must be submitted within the 15-day period during which the notice is posted. Permits for the cutting of hay may be issued by the Superintendent at rates comparable to the existing rates in the Pine Ridge Reservation. No permits shall be issued for farming purposes.

§ 73.4 *Preference in awarding permits.* In awarding grazing privileges preferences shall be given in the following order to:

(a) Former fee title owners, former Indian trust owners, and livestock operators owning established ranch headquarters within or adjacent to the Gunnery Range and who were using a portion of the area for grazing purposes at the time of acquisition by the War Department.

(b) Indian allottees whose former allotments were within the Gunnery Range but whose ranch headquarters were not within the area.

(c) Other livestock operators having established ranch headquarters adjacent to the Gunnery Range.

§ 73.5 *Permit requirements.* Permits shall be limited to 1-year periods on an annual renewal basis subject to the following provisions:

(a) The Secretary of War may terminate any or all permits when the use of the area for grazing interferes with the purpose of the Gunnery Range.

(b) Permittees shall be responsible for the reasonable protection of all improvements within the permitted areas. Permittees shall be allowed to use for improvement purposes within the Gunnery Range such salvage materials as may be located on any lands within their permitted areas. Title to such materials shall, however, remain in the United States.

(c) Permittees shall maintain at their own expense all existing water facilities. They may, however, also develop and maintain such additional water facilities as they may elect, and shall have the privilege of removing, at the termination of their permits, such personal property as they may have installed on the premises.

(d) Permittees assume all risks of personal damage or of injury or loss to personal property incident to the use of the Gunnery Range, and agree to waive all claims which they may now have for damages or compensation for loss of personal property incident to the acquisition by the United States of any or all lands within the Gunnery Range.

(e) Permittees are prohibited from cutting timber.

(f) Permits do not establish any permanent rights of possession or use by permittees to the areas covered by their permits and the privileges granted are temporary only.

§ 73.6 *Grazing fees.* Permittees shall be required by the terms of their permits to pay grazing fees on a level with existing rates within the Pine Ridge Indian Reservation, less 20 percent to offset the risk assumed in occupying the Gunnery Range subject to use by the War Department for military purposes. All grazing fees shall be paid to the Superintendent of the Pine Ridge Agency for appropriate disposition.

§ 73.7 *Delinquent fees, their collection.* Requests for court action to collect delinquent payments of grazing fees, trespass penalties, and damages shall be made by the Superintendent to the Commissioner of Indian Affairs. The requests shall be accompanied by all necessary information and evidence. Documents shall be submitted by the Superintendent to the Commissioner of Indian Affairs in quadruplicate.

ROBERT P. PATTERSON,
Secretary of War.
WARNER W. GARDNER,
Assistant Secretary of the Interior.

TITLE 30—MINERAL RESOURCES

Chapter II—Geological Survey, Department of the Interior

PART 226—UNIT OR COOPERATIVE AGREEMENTS

Sec.
226.1 Introduction.
226.2 Definitions.
226.3 Designation of unit area; depth of test well.
226.4 Preliminary consideration of certain unit or cooperative agreements.
226.5 Parties to unit or cooperative agreement.
226.6 Qualifications of unit operator.
226.7 State land.
226.8 Approval of unit or cooperative agreement.
226.9 Filing of papers and number of counterparts.
226.10 Bonds.
226.11 Appeals.
226.12 Form of unit agreement for unproven areas.
226.13 Form of collective bond.
226.14 Form of designation of successor unit operator by working interest owners.
226.15 Form of change in unit operator by assignment.

AUTHORITY: §§ 226.1 to 226.15, inclusive, issued under sec. 32, 41 Stat. 450, Pub. Law 696, 79th Cong., 30 U. S. C. 189.

§ 226.1 *Introduction.* The regulations in this part prescribe the procedure to be followed and the requirements to be met by holders of Federal oil and gas leases (see § 226.2 (d)) and their representatives who wish to unite with each other, or jointly or separately with others, in collectively adopting and operating under a cooperative or unit plan for the development of any oil or gas pool, field, or like area, or any part thereof (see 43 CFR, 192.20, 192.21).

§ 226.2 *Definitions.* The following terms, as used in this part or in any agreement approved under the regulations in this part, shall have the meanings here indicated unless otherwise defined in such agreement:

(a) *Unit agreement.* An agreement or plan of development and operation for the recovery of oil, gas, natural gasoline, and associated fluid hydrocarbons made subject thereto as a single consolidated unit without regard to separate ownerships and for the allocation of costs and benefits on a basis as defined in the agreement or plan.

(b) *Cooperative agreement.* An agreement or plan of development and operation for the recovery of oil, gas, natural gasoline, and associated fluid hydrocarbons made subject thereto in which separate ownership units are independently operated without allocation of production.

(c) *Agreement.* For convenience, the term "agreement" as used in the regulations in this part refers to both a unit or a cooperative agreement as defined in paragraphs (a) and (b) of this section unless otherwise indicated.

(d) *Federal lease.* A lease issued under the act of February 25, 1920, as amended (41 Stat. 437, as amended; 30 U. S. C. and Sup. 181, et seq.)

(e) *Unit area.* The area described in an agreement as constituting the land logically subject to development under such agreement.

(f) *Unitized land.* The part of a unit area committed to an agreement.

(g) *Unitized substances.* Deposits of oil, gas, natural gasoline, and associated fluid hydrocarbons recoverable by operation under and pursuant to an agreement.

(h) *Unit operator.* The person, association, partnership, corporation, or other business entity designated under a unit agreement to conduct operations on unitized land as specified in such agreement.

(i) *Participating area.* That part of a unit area to which production is allocated in the manner described in a unit agreement.

(j) *Working interest.* The interest held in unitized substances or in lands containing the same by virtue of a lease, operating agreement, fee title, or otherwise, under which, except as otherwise provided in a unit or cooperative agreement, the owner of such interest is vested with the right to explore for, develop, and produce such substances. The right vested in the unit operator as such by the unit agreement is not to be regarded as a working interest.

(k) *Secretary.* The Secretary of the Interior or any person duly authorized to exercise the powers vested in that officer.

(l) *Director.* The Director of the Geological Survey.

(m) *Supervisor.* The oil and gas supervisor of the Geological Survey for the region in which a unit area is situated.

§ 226.3 *Designation of unit area; depth of test well.* An application for designation of an area as logically subject to development under a unit or cooperative agreement and for determination of the depth of a test well may be filed by any proponent of such an agreement. Such application shall be accompanied by a map or diagram on a scale of not less than 1 inch to 1 mile, outlining the area sought to be designated under this section. The Federal, State and privately owned land should be indicated by distinctive symbols or colors. Federal oil and gas leases and lease applications should be identified by lease serial numbers. Geologic information, including the results of any geophysical surveys, and any other available information showing that unitization is necessary and advisable in the public interest should be furnished. If requested, geologic information so furnished will be treated as confidential. These data will be considered by the Director and the applicant informed of the decision reached. The designation of an area, pursuant to an application filed under this section, shall not create an exclusive right to submit an agreement for such area, nor preclude the inclusion of such area or any part thereof in another unit area.

§ 226.4 *Preliminary consideration of certain unit or cooperative agreements.* The form of unit agreement set forth in § 226.12, is acceptable for use in unproven areas. The use of this form is not mandatory, but any substantial departure therefrom should be submitted for preliminary consideration and such revision as may be deemed necessary prior to the execution of the agreement by the interested parties. In areas proposed for unitization in which a discovery of oil or gas has been made, or where a cooperative agreement is contemplated, modification of the form of unit agreement set forth in § 226.12 will be necessary. Any such proposed agreement should likewise be submitted for preliminary consideration and such revision as may be deemed necessary in advance of execution by the interested parties.

§ 226.5 *Parties to unit or cooperative agreement.* The owners of any right, title, or interest in the oil and gas deposits to be unitized are regarded as proper parties to a proposed agreement. All such parties must be invited to join the agreement. If any party fails or refuses to join the agreement, the proponent of the agreement, at the time it is filed for approval, must submit evidence of reasonable effort made to obtain joinder of such party and the reasons for nonjoinder. The address of each signatory party to the agreement should be inserted below the signature. Each signature should be attested by at least one witness, if not notarized. Corporate or other signatures made in a representative capacity must be accompanied by evidence of the authority of the signatories to act unless such evidence is already a matter of record in the Department. The parties may execute any number of counterparts of the agreement with the same force and effect as if all parties signed the same document, or may execute a ratification or consent in a separate instrument with like force and effect.

§ 226.6 *Qualifications of unit operator.* A unit operator must qualify as to citizenship in the same manner as those holding interests in oil and gas leases under the Mineral Leasing Act (see 43 CFR 192.42 (b)). The unit operator may be an owner of a working interest in the unit area or such other party as may be selected by the owners of working interests. The unit operator shall execute an acceptance of the duties and obligations imposed by the agreement. No designation of or change in a unit operator will become effective unless and until approved by the Secretary or the Director and no such approval will be granted unless the unit operator is deemed qualified to fulfill the duties and obligations prescribed in the agreement.

§ 226.7 *State land.* Where State-owned land is to be unitized approval of the agreement by appropriate State officials must be obtained prior to its submission to the Department for final approval. When authorized by the laws of the State in which the unitized land is situated, appropriate provision may be made in the agreement accepting such laws to the extent that they are applicable to non-Federal unitized land.

§ 226.8 *Approval of unit or cooperative agreement.* A unit or cooperative agreement will be approved by the Secretary upon a determination that such agreement is necessary and advisable in the public interest and is for the purpose of more properly conserving natural resources. Such approval will be incorporated in a certificate appended to the agreement. No such agreement will be approved unless one or more of the parties are holders of a Federal lease or leases in the unit area and unless the parties signatory to the agreement hold sufficient interests in the unit area to give reasonably effective control of operations. Any modification of an approved agreement will require like approval by the Secretary.

§ 226.9 *Filing of papers and number of counterparts.* All papers, instruments, documents, and proposals submitted under these regulations should be filed in the office of the oil and gas supervisor for the region in which the unit area is situated unless otherwise provided in these regulations or otherwise instructed by the Director.

An application for designation of a proposed unit area and determination of the required depth of test well should be filed in triplicate. A like number of counterparts should be filed of any geologic data and any other information submitted in support of such application.

Where substantial modification of the form of unit agreement set forth in § 226.12, is proposed, triplicate copies of the proposed agreement as modified should be submitted for preliminary consideration.

Where a duly executed agreement is submitted for final Departmental approval a minimum of six signed counterparts should be filed. If State lands are involved an additional counterpart should be provided for delivery to the appropriate State authority. The same number of counterparts must be filed for documents supplementing, modifying, or amending an agreement, including change of operator, designation of new operator, designation of a participating area, and notice of surrender, relinquishment, or termination.

Four counterparts of a substantiating geologic report, including structure-contour map, cross sections, and pertinent data, shall accompany each application for approval of a participating area or amendment thereof under an approved agreement.

Four counterparts are required of a plan of further development and operation submitted for approval under an approved agreement.

One approved counterpart of each instrument or document submitted for approval will be returned to the operator by the approving official or his representative, together with such additional counterparts as may have been furnished for that purpose.

§ 226.10 *Bonds.* In lieu of separate bonds required for each Federal lease committed to a unit agreement, the unit operator may furnish and maintain a collective corporate surety bond or a personal bond conditioned upon faithful performance of the duties and obligations of the agreement and the terms of the leases subject thereto. Personal bonds shall be accompanied by a deposit of negotiable Federal securities in a sum equal at their par value to the amount of the bond, and by a proper conveyance to the Secretary of full authority to sell such securities in case of default in the performance of the obligations assumed. The liability under the bond shall be for such amount as the Director shall determine to be adequate to protect the interests of the United States, and additional bond may be required whenever deemed necessary. The bond may be filed with the manager of the district land office or the supervisor, and shall be transmitted by such officer to the Director of the Bureau of Land Management. Evidence must be furnished the supervisor that such bond has been accepted by the Director of the Bureau of Land Management before operations will be authorized. A form of corporate surety bond is set forth in § 226.13. In case of change of unit operator a new bond must be filed or consent of surety to such change must be furnished.

§ 226.11 *Appeals.* An appeal may be taken to the Secretary, pursuant to 30 CFR, Cum. Supp. § 221.66, from any decision, order, or ruling of the Director under the regulations in this part.

§ 226.12 *Form of unit agreement for unproven areas.*

Unit agreement for the development and operation of the ---------- Unit Area, County of ----------, State of ----------, I-Sec. No. ----.

This agreement, entered into as of the --- day of ----------, 19---, by and between the parties subscribing, ratifying, or consenting hereto, and herein referred to as the "parties hereto,"

Witnesseth:

Whereas the parties hereto are the owners of working, royalty, or other oil or gas interests in the unit area subject to this agreement; and

Whereas the act of February 25, 1920, 41 Stat. 437, 30 U. S. C. secs. 181, et. seq., as amended by the act of August 8, 1946, 60 Stat. 950, authorizes Federal lessees and their representatives to unite with each other, or jointly or severally with others, in collectively adopting and operating under a cooperative or unit plan of development or operation of any oil or gas pool, field, or like area, or any part thereof, for the purpose of more properly conserving the natural resources thereof whenever determined and certified by the Secretary of the Interior to be necessary or advisable in the public interest; and

Whereas the parties hereto hold sufficient interests in the ---------- Unit Area to give reasonably effective control of operations therein; and

Whereas it is the purpose of the parties hereto to conserve natural resources, prevent waste, and secure other benefits obtainable through development and operation of the area subject to this agreement under the terms, conditions, and limitations herein set forth;

Now, therefore, in consideration of the premises and the promises herein contained, the parties hereto commit to this agreement their respective interests in the unit area and agree severally among themselves as follows:

ENABLING ACT AND REGULATIONS

1. The act of February 25, 1920, as amended, supra, and all valid pertinent regulations, including operating and unit plan regulations, heretofore issued thereunder or valid pertinent and reasonable regulations hereafter issued thereunder are accepted and made a part of this agreement.[1]

UNIT AREA

2. The following-described land is hereby designated and recognized as constituting the unit area:

(Insert land description of unit area by legal subdivisions of public survey in accordance with the following example:

SIXTH PRINCIPAL MERIDIAN, WYOMING

T. 20 N., R. 100 W.,
Sec. 2, lot 1, SW¼SE¼;
Sec. 3, NE¼;
Etc.

Total unit area ---- acres more or less.)

Exhibit A attached hereto is a map showing the unit area and the known ownership of all land and leases in said area. Exhibit B attached hereto is a schedule showing the percentage and kind of ownership of oil and gas interests in all land in the unit area. Exhibits A and B shall be revised by the Unit Operator whenever changes in the unit area or other changes render such revision necessary, and not less than six copies of the revised exhibits shall be filed with the Oil and Gas Supervisor.

The above-described unit area shall be expanded or contracted, whenever such action is necessary or desirable to conform with the purposes of this agreement, in the following manner: (a) Unit Operator, on his/its own motion or on demand of the Director of the Geological Survey, hereinafter referred to as Director, shall prepare a notice of proposed expansion or contraction describing the contemplated changes in the boundaries of the unit area, the reasons therefor, and the proposed effective date thereof.

(b) Said notice shall be delivered to the Oil and Gas Supervisor, hereinafter referred to as Supervisor, and copies thereof mailed to the last known address of each working interest owner, lessee, and lessor whose interests are affected, advising that 30 days will be allowed for submission to the Unit Operator of any objections.

(c) Upon expiration of the 30-day period provided in the preceding item (b) hereof, Unit Operator shall file with the Supervisor evidence of mailing of the notice of expansion or contraction and a copy of any objections thereto which have been filed with the Unit Operator.

(d) After due consideration of all pertinent information, the expansion or contraction shall, upon approval by the Director become effective as of the date prescribed in the notice thereof.

All land committed to this agreement shall constitute land referred to herein as "unitized land" or "land subject to this agreement."

UNITIZED SUBSTANCES

3. All oil, gas, natural gasoline, and associated fluid hydrocarbons in any and all formations of the unitized land are unitized under the terms of this agreement and herein are called "unitized substances."

UNIT OPERATOR

4. -------- is hereby designated as Unit Operator and by signature hereto commits to this agreement all interests in unitized substances vested in him/it as set forth in Exhibit B, and agrees and consents to accept the duties and obligations of Unit Operator for the discovery, development, and production of unitized substances as herein provided. Whenever reference is made herein to the Unit Operator, such reference means the Unit Operator acting in that capacity and not as an owner of interests in unitized substances.

The Unit Operator may resign as Unit Operator whenever not in default under this agreement, but no Unit Operator shall be relieved from the duties and obligations of Unit Operator for a period of 6 months after he/it has served notice of intention to resign on all owners of working interests subject hereto and the Director unless a new Unit Operator shall have been selected and approved and shall have assumed the duties and obligations of Unit Operator prior to the expiration of said 6-month period. Upon default or failure in the performance of his/its duties or obligations under this agreement the Unit Operator may be removed by a majority vote of owners of working interests determined in like manner as herein provided for the selection of a successor Unit Operator. Prior to the effective date of relinquishment by or within 6 months after removal of Unit Operator, the duly qualified successor Unit Operator shall have an option to purchase on reasonable terms all or any part of the equipment, material, and appurtenances in or upon the land subject to this agreement, owned by the retiring Unit Operator and used in his/its capacity as such operator, or if no qualified successor operator has been designated, the working interest owners may purchase such equipment, material, and appurtenances. At any time within the next ensuing 3 months any equipment, material, and appurtenances not purchased and not necessary for the preservation of wells may be removed by the retiring Unit Operator, but if not removed shall become the joint property of the owners of unitized working interests in the participating area or, if no participating area has been established, in the entire unit area. The termination of the rights as Unit Operator under this agreement shall not terminate the right, title, or interest of such Unit Operator in his/its separate capacity as owner of interests in unitized substances.

SUCCESSOR UNIT OPERATOR

5. Whenever the Unit Operator shall relinquish the right as Unit Operator or shall be removed, the owners of the unitized working interests in the participating area on an acreage basis, or in the unit area on an acreage basis until a participating area shall have been established, shall select a new Unit Operator. A majority vote of the working interests qualified to vote shall be required to select a new Unit Operator: *Provided*, That, if a majority but less than 75 percent of the working interests qualified to vote are owned by one party to this agreement, a concurring vote of at least one additional working interest owner shall be required to select a new operator. Such selection shall not become effective until (a) a Unit Operator so selected shall accept in writing the duties and responsibilities of Unit Operator, and (b) the selection shall have been approved by the Director. If no successor Unit Operator is selected and qualified as herein provided, the Director at his election may declare this unit agreement terminated.

UNIT ACCOUNTING AGREEMENT

6. If the Unit Operator is not the sole owner of working interests, all costs and expenses incurred in conducting unit operations hereunder and the working interest benefits accruing hereunder shall be apportioned among the owners of unitized working interests in accordance with a unit accounting agreement by and between the Unit Operator and the other owners of such interests, whether one or more, separately or collectively. Any agreement or agreements entered into between the working interest owners and the Unit Operator as provided in this section, whether one or more, are herein referred to as the "unit accounting agreement." No such agreement shall be deemed either to modify any of the terms and conditions of this unit agreement or to relieve the Unit Operator of any right or obligation established under this unit agreement, and in case of any inconsistently or conflict between this unit agreement and the unit accounting agreement this unit agreement shall prevail. Three true copies of any unit accounting agreement executed pursuant to this section shall be filed with the Supervisor.

RIGHTS AND OBLIGATIONS OF UNIT OPERATOR

7. Except as otherwise specifically provided herein, the exclusive right, privilege, and duty of exercising any and all rights of the parties hereto which are necessary or convenient for prospecting for, producing, storing, and disposing of the unitized substances are hereby vested in and shall be exercised by the Unit Operator as herein provided. Acceptable evidence of title to said rights shall be deposited with said Unit Operator and, together with this agreement, shall constitute and define the rights, privileges, and obligations of Unit Operator. Nothing herein, however, shall be construed to transfer title to any land or to any lease or operating agreement, it being understood that under this agreement the Unit Operator, in his/its capacity as Unit Operator, shall exercise the rights of possession and use vested in the parties hereto only for the purposes herein specified.

The Unit Operator shall pay all costs and expenses of operation with respect to the unitized land. If and when the Unit Operator is not the sole owner of all working interests, such costs shall be charged to the account of the owner or owners of working interests, and the Unit Operator shall be reimbursed therefor by such owners and shall account to the working interest owners for their respective shares of the revenue and benefits derived from operations hereunder, all in the manner and to the extent provided in the unit accounting agreement. The Unit Operator shall render each month to the owners of unitized interests entitled thereto an accounting of the operations on unitized land during the previous calendar month, and shall pay in value or deliver in kind to each party entitled thereto a proportionate and allocated share of the benefits accruing hereunder in conformity with operating agreements, leases, or other independent contracts between the Unit Operator and the parties hereto either collectively or individually.

The development and operation of land subject to this agreement under the terms hereof shall be deemed full performance by the Unit Operator of all obligations for such development and operation with respect to each and every part or separately owned tract of land subject to this agreement, regardless of whether there is any development of any particular part or tract of the unit area, notwithstanding anything to the contrary in any lease, operating agreement, or other contract by and between the parties hereto or any of them.

DRILLING TO DISCOVERY

8. Within 6 months after the effective date hereof, the Unit Operator shall begin to drill an adequate test well at a location to be approved by the Supervisor, and thereafter continue such drilling diligently until a well not less than ---- feet in depth has been drilled, unless at a lesser depth unitized substances shall be discovered which can be produced in paying quantities or the Unit Operator shall at any time establish to the satisfaction of the Supervisor that further drilling of said well would not be warranted. If the first or any subsequent test well fails to result in the discovery of a deposit of unitized substances capable of being produced in paying quantities, the Unit Operator shall continue drilling diligently one well at a time, allowing not more than 6 months between the completion of one well and the beginning of the next well, until a well capable of producing unitized substances in paying quantities is completed to the satisfaction of said Supervisor, or until it is reasonably proved that the unitized land is incapable of producing unitized substances in paying quantities. Nothing in this section shall be deemed to limit the right of the Unit Operator to resign, as provided in section 4 hereof, after any well drilled under this section is placed in a satisfactory condition for suspension or is plugged and abandoned pursuant to applicable regulations. The Director may modify the drilling requirements of this section by granting reasonable extensions of time when, in his opinion, such action is warranted. Upon failure to comply with the drilling provisions of this section, the Director may, after reasonable notice to the Unit Operator, and each working interest owner, lessee, and lessor at their last known addresses, declare this unit agreement terminated.

PLAN OF FURTHER DEVELOPMENT AND OPERATION

9. Within 6 months after completion of a well capable of producing unitized substances in paying quantities, the Unit Operator shall submit for the approval of the Supervisor an acceptable plan of development and operation for the unitized land which, when approved by the Supervisor, shall constitute the further drilling and operating obligations of the Unit Operator under this agreement for the period specified therein. Thereafter, from time to time before the expiration of any existing plan, the Unit Operator shall submit for the approval of the Supervisor a plan for an additional specified period for the development and operation of the unitized land. Any plan submitted pursuant to this section shall provide for exploration of the unitized area and for the determination of the commercially productive area thereof in each and every productive formation and shall be as complete and adequate as the Supervisor may determine to be necessary for timely development and proper conservation of the oil and gas resources of the unitized area and shall (a) specify the number and locations of any wells to be drilled and the proposed order and time for such drilling; and (b) to the extent practicable specify the operating practices regarded as necessary and advisable for proper conservation of natural resources. Separate plans may be submitted for separate productive zones, subject to the approval of the Supervisor. Said plan or plans shall be modified or supplemented when necessary to meet changed conditions or to protect the interests of all parties to this agreement. Reasonable diligence shall be exercised in complying with the obligations of the approved plan of development. The Supervisor is authorized to grant a reasonable extension of the 6-month period herein prescribed for submission of an initial plan of development where such action is justified because of unusual conditions or circumstances. All parties hereto agree that after completion of one commercially productive well no further wells, except such as may be necessary to afford protection against operations not under this agreement, shall be drilled except in accordance with a plan of development approved as herein provided.

PARTICIPATION AFTER DISCOVERY

10. Upon completion of a well capable of producing unitized substances in paying quantities or as soon thereafter as required by the Supervisor, the Unit Operator shall submit for approval by the Director a schedule, based on subdivisions of the public-land survey or aliquot parts thereof, of all unitized land then regarded as reasonably proved to be productive of unitized substances in paying quantities; all land in said schedule on approval of the Director to constitute a participating area, effective as of the date of first production. Said schedule also shall set forth the percentage of unitized substances to be allocated as herein provided to each unitized tract in the participating area so established, and shall govern the allocation of production from and after the date the participating area becomes effective. A separate participating area shall be established in like manner for each separate pool or deposit of unitized substances or for any group thereof produced as a single pool or zone. The participating area or areas so established shall be revised from time to time, subject to like approval, whenever such action appears proper as a result of further drilling operations or otherwise, to include additional land then regarded as reasonably proved to be productive in paying quantities (or to exclude land then regarded as reasonably proved not to be productive),[2] and the percentage of allocation shall also be revised accordingly. The effective date of any revision shall be the first of the month following the date of first authentic knowledge or information on which such revision is predicated, unless a more appropriate effective date is specified in the schedule. No land shall be excluded from a participating area on account of depletion of the unitized substances.

It is the intent of this section that a participating area shall represent the area known or reasonably estimated to be productive in paying quantities; but, regardless of any revision of the participating area, nothing herein contained shall be construed as requiring any retroactive apportionment of any sums accrued or paid for production obtained prior to the effective date of revision of the participating area.

In the absence of agreement at any time between the Unit Operator and the Director as to the proper definition or redefinition of a participating area, or until a participating area has, or areas have, been established as provided herein, the portion of all payments affected thereby may be impounded in a manner mutually acceptable to the owners of working interests, except royalties due the United States, which shall be determined by the Supervisor and the amount thereof deposited with the district land office of the Bureau of Land Management to be held as unearned money until a participating area is finally approved and then applied as earned or returned in accordance with a determination of the sum due as Federal royalty on the basis of such approved participating area.

Whenever it is determined, subject to the approval of the Supervisor, that a well drilled under this agreement is not capable of production in paying quantities and inclusion of the land on which it is situated in a participating area is unwarranted, production from such well shall be allocated to the land on which the well is located so long as that well is not within a participating area established for the pool or deposit from which such production is obtained.[3]

ALLOCATION OF PRODUCTION

11. All unitized substances produced from each participating area established under this agreement, except any part thereof used for production or development purposes hereunder, or unavoidably lost, shall be deemed to be produced equally on an acreage basis from the several tracts of unitized land of the participating area established for such production and, for the purpose of determining any benefits that accrue on an acreage basis, each such tract shall have allocated to it such percentage of said production as its area bears to the said participating area. It is hereby agreed that production of unitized substances from a participating area shall be allocated as provided herein regardless of whether any wells are drilled on any particular part or tract of said participating area.

DEVELOPMENT OR OPERATION ON NON-PARTICIPATING LAND

12. Any party hereto, other than the Unit Operator, owning or controlling a majority of the working interests in any unitized land not included in a participating area and having thereon a regular well location in accordance with a well-spacing pattern established under an approved plan of development and operation may drill a well at such location at his own expense, unless within 90 days of receipt of notice from said party of his intention to drill the well the Unit Operator elects and commences to drill such well in like manner as other wells are drilled by the Unit Operator under this agreement.

If such well is not drilled by the Unit Operator and results in production such that the land upon which it is situated may properly be included in a participating area, the party paying the cost of drilling such well shall be reimbursed as provided in the unit accounting agreement for the cost of drilling similar wells in the unit area, and the well shall be operated pursuant to the terms of this agreement as though the well had been drilled by the Unit Operator.

If any well drilled by the Unit Operator or by an owner of working interests, as provided in this section, obtains production insufficient to justify inclusion of the land on which said well is situated in a participating area, said owner of working interests at his

[1] Where State or privately owned lands are involved add: "and as to non-Federal land applicable State laws are accepted and made part of this agreement."

[2] Words in parenthesis may be deleted at option of proponent of a unit agreement.

[3] If the entire unit area constitutes a single participating area section 10 should be revised to read as follows, with appropriate revision in section 11 and deletion of section 12:

10. Oil unitized land shall constitute a participating area for the purpose of determining any right of participation under the terms of this agreement. The percentage interest of each owner of rights in the total participating area shall govern the ratio of participation under this agreement.

election, within 30 days after determination of such insufficiency, shall be wholly responsible for and may operate and produce the well at his sole expense and for his sole benefit. If such well was drilled by the Unit Operator and said owner of working interests elects to operate said well, he shall pay the Unit Operator a fair salvage value for the casing and other necessary equipment left in the well.

Wells drilled or produced at the sole expense and for the sole benefit of an owner of working interest other than the Unit Operator shall be operated pursuant to the terms and provisions of this agreement. Royalties in amount or value of production from any such well shall be paid as specified in the lease affected.

ROYALTIES AND RENTALS

13. The Unit Operator, on behalf of the parties hereto, shall pay in value or deliver in kind, according to the rights of the parties established by underlying leases or agreements, all royalties due upon production allocated to unitized land and shall pay all rentals or minimum royalties due on unitized land. All such payments or deliveries in kind shall be charged by the Unit Operator to the appropriate working interest owners as provided in the unit accounting agreement. Nothing herein contained shall operate to relieve the lessees of Federal land from their obligations under the terms of their respective leases to pay rentals and royalties.

Royalty due the United States shall be computed as provided in the operating regulations and paid in value or delivered in kind as to all unitized substances on the basis of the amounts thereof allocated to unitized Federal land as provided herein at the rates specified in the respective Federal leases, or at such lower rate or rates as may be authorized by law or regulation: *Provided*, That for leases on which the royalty rate depends on the daily average production per well, said average production shall be determined in accordance with the operating regulations as though each participating area were a single consolidated lease.

Rental or minimum royalty for land of the United States subject to this agreement shall be paid at the rates specified in the respective Federal leases, or such rental or minimum royalty may be waived, suspended, or reduced to the extent authorized by law and applicable regulations.

CONSERVATION

14. Operations hereunder and production of unitized substances shall be conducted to provide for the most economical and efficient recovery of said substances, to the end that the maximum efficient yield may be obtained without waste, as defined by or pursuant to State or Federal law or regulation; and production of unitized substances shall be limited to such production as can be put to beneficial use with adequate realization of fuel and other values.

DRAINAGE

15. The Unit Operator shall take appropriate and adequate measures to prevent drainage of unitized substances from unitized land by wells on land not subject to this agreement, or pursuant to applicable regulations pay a fair and reasonable compensatory royalty as determined by the Supervisor.

LEASES AND CONTRACTS CONFORMED TO AGREEMENT

16. The parties hereto holding interests in leases embracing unitized land of the United States consent that the Secretary of the Interior, hereinafter called Secretary, may, and the Secretary by his approval of this agreement does, establish, alter, change, or revoke the drilling, producing, rental, minimum royalty, and royalty requirements of such leases and the regulations in respect thereto, to conform said requirements to the provisions of this agreement, but otherwise the terms and conditions of said leases shall remain in full force and effect.

Said parties further consent and agree, and the Secretary by his approval hereof determines, that during the effective life of this agreement, drilling and producing operations performed by the Unit Operator upon any unitized land will be accepted and deemed to be operations under and for the benefit of all unitized leases embracing land of the United States; and that no such lease shall be deemed to expire by reason of failure to produce wells situated on land therein embraced. Any Federal lease for a term of 20 years or any renewal thereof or any part of such lease which is made subject to this agreement shall continue in force until the termination hereof. Any other Federal lease committed hereto shall continue in force as to the committed land so long as the lease remains committed hereto, provided a valuable deposit of unitized substances is discovered prior to the expiration date of the primary term of such lease. Authorized suspension of all operations and production on the unitized land shall be deemed to constitute authorized suspension with respect to each unitized lease.

The parties hereto holding interests in land within the unit area other than Federal land consent and agree, to the extent of their respective interests, that all leases or other contracts concerning such land shall be modified to conform to the provisions of this agreement and shall be continued in force and effect during the life of this agreement.

COVENANTS RUN WITH LAND

17. The covenants herein shall be construed to be covenants running with the land with respect to the interests of the parties hereto and their successors in interest until this agreement terminates, and any grant, transfer, or conveyance of interest in land or leases subject hereto shall be and hereby is conditioned upon the assumption of all privileges and obligations hereunder by the grantee, transferee, or other successor in interest, and as to Federal land shall be subject to approval by the Secretary.

EFFECTIVE DATE AND TERM

18. This agreement shall become effective upon approval by the Secretary and shall terminate on ---------- unless (a) such date of expiration is extended by the Director, or (b) it is reasonably determined prior to the expiration of the fixed term or any extension thereof that the unitized land is incapable of production of unitized substances in paying quantities and after notice of intention to terminate the agreement on such ground is given by the Unit Operator to all parties in interest at their last known addresses, the agreement is terminated with the approval of the Director, or (c) a valuable discovery of unitized substances has been made on unitized land during said initial term or any extension thereof, in which case the agreement shall remain in effect so long as unitized substances can be produced from the unitized land in paying quantities; or (d) it is terminated as provided in section 5 or section 8 hereof. This agreement may be terminated at any time by not less than 75 percentum, on an acreage basis, of the owners of working interests signatory hereto with the approval of the Director.

RATE OF PROSPECTING, DEVELOPMENT, AND PRODUCTION

19. All production and the disposal thereof shall be in conformity with allocations, allotments, and quotas made or fixed by any duly authorized person or regulatory body under any Federal or State statute. The Director is hereby vested with authority to alter or modify from time to time, in his discretion, the rate of prospecting and development and the quantity and rate of production under this agreement, such authority being hereby limited to alteration or modification in the public interest, the purpose thereof and the public interest to be served thereby to be stated in the order of alteration or modification.

DETERMINATIONS BY OPERATOR AND REVIEW THEREOF

20. The Unit Operator shall determine the date of first authentic knowledge or information on which revision of any participating area shall be predicated and shall determine whether any well is productive of unitized substances in paying quantities. The Unit Operator shall make all other determinations required under this agreement for which a different method of determination is not otherwise established and shall give timely notice of all determinations not herein specifically authorized to all interested parties at their last known addresses. Notice of all determinations by the Unit Operator under this section shall be furnished to the Director through the Supervisor and may be reviewed by the Director on his own initiative or on written request of any interested party, notice of any such review to be given to all interested parties, including the Unit Operator, within 60 days after receipt of notice of a determination by the Unit Operator. Any matter so reviewed may on request of the Unit Operator or at the option of the Director, be submitted to a committee of three competent persons appointed by the Director, one on nomination of the Unit Operator, one on nomination of the other interested parties, and the third on nomination of the first two. The cost of such committee shall be a cost of operation. The report of the committee, which shall be binding on the committee when concurred in by any two of its members, shall be submitted to the Director for his consideration, and the Director shall submit copies thereof to Unit Operator and other interested parties. After consideration of all credible evidence the Director shall render a reasonable decision based thereon and in conformity therewith, which decision, except for the right of appeal to the Secretary, shall be final and binding on all parties hereto.

UNAVOIDABLE DELAY

21. All obligations under this agreement requiring the Unit Operator to commence or continue drilling or to operate on or produce unitized substances from any of the lands covered by this agreement shall be suspended while, but only so long as, the Unit Operator despite the exercise of due care and diligence is prevented from complying with such obligations, in whole or in part, by strikes, lockouts, acts of God, Federal, State, or municipal laws or agencies, unavoidable accidents, uncontrollable delays in transportation, inability to obtain necessary materials in open market, or other matters beyond the reasonable control of the Unit Operator whether similar to matters herein enumerated or not.

COUNTERPARTS

22. This agreement may be executed in any number of counterparts with the same force and effect as if all parties had signed the same document, or this agreement may be ratified with like force and effect by a separate instrument in writing specifically referring hereto. Any separate counterpart, consent, or ratification duly executed after approval hereof by the Secretary shall be effective on the first day of the month next following the filing thereof with the Supervisor, unless objection thereto is made by the Director and notice of such objection is served upon the appropriate parties within 60 days after such filing.

FAIR EMPLOYMENT

23. The Unit Operator shall not discriminate against any employee or applicant for employment because of race, creed, color, or national origin, and an identical provision shall be incorporated in all subcontracts.

LOSS OF TITLE

24. In the event title to any tract of unitized land or substantial interest therein shall fail and the true owner cannot be induced to join this unit agreement, so that such tract is not committed to this unit agreement, there shall be such readjustment of participation as may be required on account of such failure of title. In the event of a dispute as to title or as to any interest in unitized land, the Unit Operator may withhold payment or delivery on account thereof without liability for interest until the dispute is finally settled: *Provided*, That, as to Federal land or leases, no payments of funds due the United States shall be withheld, but such funds shall be deposited with the district land office of the Bureau of Land Management to be held as unearned money pending final settlement of the title dispute, and then applied as earned or returned in accordance with such final settlement.

In witness whereof, the parties hereto have caused this agreement to be executed and have set opposite their respective names the date of execution.

CERTIFICATION—DETERMINATION

Pursuant to the authority vested in the Secretary of the Interior, under the act approved February 25, 1920, 41 Stat. 437, 30 U. S. C. secs. 181, et seq., as amended by the act of August 8, 1946, 60 Stat. 950, I do hereby:

A. Approve the attached agreement for the development and operation of the ---------- Unit Area, State of ---------.

B. Certify and determine that the unit plan of development and operation set forth in the attached agreement is necessary and advisable in the public interest and is for the purpose of more properly conserving the natural resources of the unit area.

C. Certify and determine that the drilling, producing, rental, minimum royalty, and royalty requirements of all Federal leases committed to said agreement are hereby established, altered, changed, or revoked to conform with the terms and conditions of this agreement.

Dated ---------

———— ————,
Secretary of the Interior.

§ 226.13 *Form of collective bond.*

COLLECTIVE CORPORATE SURETY BOND

Know all men by these presents, That we, ----------, signing as Principal (Name of Unit Operator) for and on behalf of the record owners of unitized substances now or hereafter covered by the unit agreement for the ----------, approved ---------, and (Name of Unit) (Date) ----------, as Surety, are (Name and address of Surety) jointly and severally held and firmly bound unto the United States of America in the sum of ---------- Dollars, lawful (Amount of bond) money of the United States, for the use and benefit of and to be paid to the United States and any entryman or patentee of any portion of the unitized land, heretofore entered or patented with the reservation of the oil or gas deposits to the United States, for which payment, well and truly to be made, we bind ourselves, and each of us, and each of our heirs, executors, administrators, successors, and assigns by these presents.

The condition of the foregoing obligation is such, that, whereas the Secretary of the Interior on ---------- approved under the (Date) provisions of the act of February 25, 1920, 41 Stat. 437, 30 U. S. C. secs. 181, et seq., as amended by the act of August 8, 1946, 60 Stat. 950, a unit agreement for the development and operation of the ---------- (Name of Unit ----------; and and State)

Whereas said Principal and record owners of unitized substances, pursuant to said unit agreement, have entered into certain covenants and agreements as set forth therein, under which operations are to be conducted; and

Whereas said Principal as Unit Operator has assumed the duties and obligations of the respective owners of unitized substances as defined in said unit agreement; and

Whereas said Principal and Surety agree to remain bound in the full amount of the bond for failure to comply with the terms of the unit agreement, and the payment of rentals, minimum royalties, and royalties due under the Federal leases committed to said unit agreement; and

Whereas the Surety hereby waives any right of notice of and agrees that this bond may remain in force and effect notwithstanding:

(a) Any additions to or change in the ownership of the unitized substances herein described;

(b) Any suspension of the drilling or producing requirements or waiver, suspension, or reduction of rental or minimum royalty payments or reduction of royalties pursuant to applicable laws or regulations thereunder; and

Whereas said Principal and Surety agree to the payment of compensatory royalty under the regulations of the Interior Department in lieu of drilling necessary offset wells in the event of drainage; and

Whereas nothing herein contained shall preclude the United States from requiring an additional bond at any time when deemed necessary:

Now, therefore, if the said Principal shall faithfully comply with all of the provisions of the above-identified unit agreement and with the terms of the leases committed thereto, then the above obligation is to be of no effect; otherwise to remain in full force and virtue.

TITLE 32—NATIONAL DEFENSE

Chapter VIII—Office of International Trade, Department of Commerce

Subchapter B—Export Control

[Amdt. 296]

PART 802—GENERAL LICENSES

GIFT PARCELS

Section 802.29 is hereby amended to read as follows:

§ 802.29 *General license for gift parcels*—(a) *General license.* There is hereby granted a general license authorizing the exportation of gift parcels, as defined in paragraph (b) of this section, to all destinations to which parcel post service is available: *Provided*, That such exportation is in accordance with the following provisions of this section.

(b) *Definition.* For the purpose of this general license, a gift parcel is defined as a parcel containing commodities having a total value not in excess of $25.00 donated to an individual in a foreign country free of cost to such individual, mailed by parcel post to such individual and conforming to Post Office Department regulations as to size and weight: *Provided*, That in no event shall the weight exceed 11 pounds.

(c) *General license designation.* The legend "gift parcel" shall be plainly written on the address side of the parcel and on any customs declaration required by the Bureau of Customs. The inscription of the legend "gift parcel" on the parcel shall constitute a certification by the donor that the shipment complies with the provisions of this general license.

(d) *Destinations*—(1) *Shipments to destinations other than Germany and Japan.* Gift parcels may be sent to individuals in all destinations to which parcel post service is available except Germany and Japan, in accordance with the following provisions:

(i) No gift parcel shall contain commodities other than those of a personal nature, such as: Clothing; piece goods; toilet preparations, including soaps and shaving creams; writing materials; medicinals, including vitamins; and nonperishable foodstuffs; sent free of cost to an individual in a foreign country.

(ii) Not more than one gift parcel may be sent by the same donor to the same donee in any one calendar week.

(2) *Shipments to Germany and Japan.* Gift parcels may be sent to persons in all of the occupied zones of Germany including Berlin and to persons located in the islands of Honshu, Kyushu, Shikoku, or Hokkaido in occupied Japan in accordance with the following provisions:

(i) A gift parcel shall contain no commodity other than clothing, non-perishable foodstuffs, medicinals and vitamins, soaps and shaving creams.

(ii) Not more than one gift parcel may be sent from the same donor to the same donee in any one calendar week.

This amendment shall become effective January 15, 1947.

CHARLES W. ALTHEN

Charles W. Althen, 1350 West Broad Street, Columbus, Ohio, on or about November 22, 1946, without authorization of the Civilian Production Administration, began construction and thereafter carried on construction of a one-story commercial building to be used for storage purposes located at 21 Highland Avenue, Columbus, Ohio, the estimated cost of which construction was in excess of $1,000. The beginning of construction and the carrying on of construction as aforesaid constituted a wilful violation of Veterans' Housing Program Order No. 1. This violation had diverted critical materials to uses not authorized by the Civilian Production Administration. In view of the foregoing, it is hereby ordered that:

§ 1010.1076 *Suspension Order No. S-1076.* (a) Neither Charles W. Althen, his successors or assigns, nor any other person shall do any further construction on the one-story storage building located at 21 Highland Avenue, Columbus, Ohio, including putting up, completing or altering the structure, unless hereafter authorized in writing by the Civilian Production Administration.

(b) Charles W. Althen shall refer to this order in any application or appeal which he may file with the Civilian Production Administration for priorities assistance or for authorization to carry on construction.

(c) Nothing contained in this order shall be deemed to relieve Charles W. Althen, his successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the Civilian Production Administration, except insofar as the same may be inconsistent with the provisions hereof.

Issued this 24th day of January 1947.

CIVILIAN PRODUCTION ADMINISTRATION,
By J. JOSEPH WHELAN,
Recording Secretary.

TITLE 49—TRANSPORTATION AND RAILROADS

Chapter I—Interstate Commerce Commission

PART 14—ELECTRIC RAILWAYS: UNIFORM SYSTEM OF ACCOUNTS

REVOCATION OF ACCOUNTING BULLETIN

At a session of the Interstate Commerce Commission, Division 1, held at its office in Washington, D. C., on the 17th day of January A. D. 1947.

The matter of a uniform system of accounts for electric railways being under consideration by the division pursuant to the provisions of section 20 of the Interstate Commerce Act; and,

It appearing that, by order dated April 2, 1917, Accounting Bulletin No. 14, consisting of official interpretations of the accounting regulations then in effect, was approved as mentioned in a footnote following 49 CFR Part 14; and

It further appearing that, by order dated March 29, 1946, the "Uniform System of Accounts for Electric Railways, Issue of 1947," superseded previously effective accounting regulations which had been officially interpreted in Accounting Bulletin No. 14 and rendered those interpretations inapplicable after the effective date of said system of accounts;

It is ordered, That Accounting Bulletin No. 14 be, and it is hereby, canceled and that notice of this order be given to the general public by depositing a copy thereof in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director of the Division of the Federal Register.

(54 Stat. 917, 49 U. S. C. 20 (3))

By the Commission, Division 1.

[SEAL] W. P. BARTEL,
Secretary.

TITLE 50—WILDLIFE

Chapter I—Fish and Wildlife Service, Department of the Interior

Subchapter Q—Alaska Commercial Fisheries

PART 201—ALASKA FISHERIES GENERAL REGULATIONS

1. Section 201.9 *Traps must be made inoperative within 12 hours after close of season* (8 F. R. 6854, 10 F. R. 3291, 4042, 11 F. R. 3103) is hereby amended to delete the last sentence of the regulation and substitute therefor the following: "For the Alaska Peninsula, Kodiak, and Prince William Sound areas the close of the season is defined as the end of the fishing period specified under paragraph (c) (2) of the sections pertaining to open seasons in those areas, and for districts in the Southeastern Alaska area the close of the season is defined as the end of the fishing period specified under paragraph (c) (4) of the sections pertaining to open seasons in those districts."

2. Section 201.13 is hereby amended to read as follows:

§ 201.13 *Release of small king salmon taken by trolling.* In commercial trolling operations no king salmon shall be taken which measures less than 26 inches from tip of snout to fork of tail. In the event any such undersized salmon are thus taken, they must be carefully removed from the hook without jerking or other action causing injury and returned to the water alive. Possession of any king salmon of less than this length will be regarded as prima facie evidence of unlawful taking.

3. Section 201.23 *Filing of trap site locations* (11 F. R. 3103) is hereby amended to substitute "February 15, 1947" for "April 15, 1946".

4. Section 201.25 is hereby amended to substitute "1947" for "1946".

5. A new regulation, to be known as § 201.25a, is hereby inserted following § 201.25, to read as follows:

§ 201.25a *Operation of trap site by permit holder.* No person who in the fishing season 1946 held a permit for a trap site and did not himself occupy such site but instead leased or assigned such site to another person under arrangements by which the permit holder did not bear all or a substantial part of the expenses and financial risk involved in the installation, care, service, and use of the trap shall be allowed to occupy, lease, or assign such site. The Secretary or his authorized representative may, however, in exceptional cases authorize occupation of such site for good cause shown. Any trap site occupied, leased, or assigned in violation of this section will be closed.

6. Section 201.26 *Definitions* (11 F. R. 3103) is hereby amended to substitute "201.25a" for "201.25".

PART 204—BRISTOL BAY AREA SALMON FISHERIES

1. A new regulation to be known as § 204.6a is hereby inserted following § 204.6, to read as follows:

§ 204.6a *Certification of citizenship and residence by stake and set net operators.* Every operator of a stake or set net for commercial purposes shall furnish to the local representative of the Fish and Wildlife Service in advance of the fishing season a sworn statement that he is a citizen of the United States and has resided continuously in the area embracing Bristol Bay and the arms and tributaries thereof for a period of at least two years immediately preceding the opening date for fishing.

2. Section 204.11 *Size of mesh and depth of salmon gill nets* (10 F. R. 3291, 11 F. R. 3104, 11307) is hereby amended to substitute a period for the colon in the first sentence, and delete the remainder of the sentence.

3. Section 204.12 is hereby amended to read as follows:

§ 204.12 *Opening date for red-salmon fishing; exception.* Commercial fishing for salmon with nets of mesh less than 8½ inches stretched measure between knots is prohibited each year prior to 6 o'clock antemeridian June 23, except in the Ugashik district where such fishing

is prohibited each year prior to 6 o'clock antemeridian June 30.

4. Section 204.13 is hereby amended to read as follows:

§ 204.13 *Closed seasons, salmon fishing; exception.* Commercial fishing for salmon is prohibited in the period from 6 o'clock antemeridian July 23 to 6 o'clock antemeridian August 3, except in the Ugashik district where such fishing is prohibited from 6 o'clock antemeridian July 30 to 6 o'clock antemeridian August 10.

5. Section 204.19 is hereby amended to read as follows:

§ 204.19 *Weekly closed periods, salmon fishing.* The 36-hour weekly closed period for salmon fishing prescribed by section 5 of the act of June 6, 1924, is hereby extended to include the period from 6 o'clock antemeridian Wednesday to 6 o'clock antemeridian Thusday of each week, making a weekly closed period of 60 hours.

PART 205—ALASKA PENINSULA AREA FISHERIES

1. A new regulation, to be known as § 205.1a is hereby inserted following § 205.1, to read as follows:

§ 205.1a *Definitions, fishing districts, Alaska Peninsula area.* Fishing districts in the Alaska Peninsula area are defined as follows:

(a) *Eastern district.* All waters of the Alaska Peninsula area on the south side of the Peninsula between the longitude of Castle Cape and the longitude of Seal Cape, including the Shumagin and other islands.

(b) *Central district.* All waters of the Alaska Peninsula area on the south side of the Peninsula between the longitude of Seal Cape and the longitude of Kenmore Head, including the Sanak and other islands.

(c) *Western district.* All waters of the Alaska Peninsula area on the south side of the Peninsula west of the longitude of Kenmore Head.

(d) *Port Moller district.* All waters of the Alaska Peninsula area on the north side of the Peninsula between Lagoon Point and Cape Seniavin.

(e) *General district.* All waters of the Alaska Peninsula area not defined above.

2. Section 205.8 is hereby amended to read as follows:

§ 205.8 *Size of beach seines.* The use of any beach seine less than 60 fathoms in length and 120 meshes in depth or more than 75 fathoms in length and 175 meshes in depth is prohibited. For the purpose of determinging depths of seines, measurements will be upon the basis of 3½ inches stretched measure between knots.

3. Section 205.14 *Catch limitation, Entrance Point to Cape Seniavin* (11 F. R. 3105) is hereby amended to substitute "700,000" for "500,000".

4. Section 205.15 is amended to read as follows:

§ 205.15 *Open seasons, salmon fishing, except Port Moller district.* With the exception of the Port Moller district, commercial fishing for salmon is prohibited except during the periods specified as follows:

(a) From 6 o'clock antemeridian May 27 to 6 o'clock postmeridian August 8.

(b) From 6 o'clock antemeridian August 11 to 6 o'clock antemeridian August 13.

(c) If specifically authorized by an announcement issued pursuant to § 201.21c of this chapter, commercial fishing may be permitted during the following additional periods: (1) From 6 o'clock antemeridian August 14 to 6 o'clock postmeridian August 15; and (2) from 6 o'clock antemeridian August 18 to 6 o'clock postmeridian August 19.

(d) By beach seines and gill nets from August 26 to September 30, both dates inclusive.

5. A new regulation, to be known as § 205.15a is hereby inserted following § 205.15, to read as follows:

§ 205.15a *Open season, salmon fishing, Port Moller district.* Commercial fishing for salmon is prohibited in the Port Moller district except in the period from 6 o'clock antemeridian June 20 to 6 o'clock postmeridian July 31: *Provided*, That beach seines and gill nets may be used from August 26 to September 30, both dates inclusive.

PART 208—KODIAK AREA FISHERIES

§ 227.10 *Closed season for trolling, Behm Canal.* Commercial fishing for salmon by trolling is prohibited in Behm Canal and its tributaries within a line from Point Sykes to Point Alava, across the eastern entrance of the canal, and a line from Escape Point to Point Francis, across the western entrance, from 6 o'clock postmeridian April 30 to 6 o'clock postmeridian July 15. A part of these waters is in the Southern district.

6. Section 227.15 *Areas open to salmon traps* (6 F. R. 1257, 7 F. R. 2483, 8 F. R. 7404, 9233, 9 F. R. 5176) is hereby amended by insertion of paragraphs (bb), (ii), (jj), (kk), (ll), and (mm) which were formerly § 229.15 (a), (b), (f), (g), (h), and (i) of this chapter, respectively.

7. Section 227.16 *Waters closed to salmon fishing* (6 F. R. 1257, 1261) is hereby amended by insertion of paragraphs (n), (o), (p), (q) and (r) which were formerly § 229.16 (l), (m), (n), (o) and (p) of this chapter, respectively.

PART 228—SOUTHEASTERN ALASKA AREA, SOUTH PRINCE OF WALES ISLAND DISTRICT, SALMON FISHERIES

1. Section 228.2 is hereby amended to read as follows:

§ 228.2 *Definition, South Prince of Wales Island district.* All territorial waters within a line extending from a point west of the Maurelle Islands at 55 degrees 40 minutes north latitude, 134 degrees 17 minutes 10 seconds west longitude, thence to a point west of Cape Addington at 55 degrees 25 minutes 30 seconds north latitude, 134 degrees west longitude, thence to a point southwest of Forrester Island at 54 degrees 40 minutes north latitude, 133 degrees 35 minutes west longitude, thence to the southern extremity of Cape Muzon, thence along the international boundary to a point at 132 degrees 20 minutes west longitude, thence north to a point on the southwest coast of Prince of Wales Island at 54 degrees 44 minutes 21 seconds north latitude, 132 degrees 18 minutes 36 seconds west longitude, near Point Marsh, thence northerly along the watershed of Prince of Wales Island to a point at 56 degrees 7 minutes 36 seconds north latitude, thence due west to the east coast of Kosciusko Island, thence southerly along the watershed of Kosciusko Island to the southern extremity of the island at 133 degrees 43 minutes west longitude, thence due south to 55 degrees 40 minutes north latitude, thence to the point of beginning 55 degrees 40 minutes north latitude, 134 degrees 17 minutes 10 seconds west longitude.

2. Section 228.8 is hereby amended to read as follows:

§ 228.8 *Open seasons, salmon fishing.* Commercial fishing for salmon, other than trolling, is prohibited except during the periods specified as follows:

(a) From 6 o'clock antemeridian August 18 to 6 o'clock postmeridian August 30.

(b) From 6 o'clock antemeridian September 1 to 6 o'clock antemeridian September 3.

(c) If specifically authorized by an announcement issued pursuant to § 201.21c of this chapter commercial fishing may be permitted during the following additional periods: (1) From 6 o'clock postmeridian September 4 to 6 o'clock postmeridian September 6; (2) from 6 o'clock antemeridian September 8 to 6 o'clock antemeridian September 10; (3) from 6 o'clock postmeridian September 11 to 6 o'clock postmeridian September 13; and (4) from 6 o'clock antemeridian September 15 to 6 o'clock antemeridian September 17.

(d) Fall season: From 6 o'clock antemeridian October 15 to 6 o'clock postmeridian November 15.

3. Section 228.9 (11 F. R. 3107, 4806) is hereby revoked and deleted as follows:

§ 228.9 *Weekly closed period, salmon fishing.* [Revoked.]

4. Section 228.12 *Areas open to salmon traps* (6 F. R. 1259) is hereby amended by insertion of paragraphs (t), (u), and (v) which were formerly § 226.16 (a), (b), and (c) of this chapter, respectively.

5. Three regulations, transferred from Part 226 of this chapter, are hereby inserted in § 228.13 (6 F. R. 1259) following § 228.13 (k) to read as follows:

§ 228.13 *Waters closed to salmon fishing.* All commercial fishing for salmon is prohibited as follows: • • •

(l) Devilfish Bay, east coast of Kosciusko Island: All waters within the bay.

(m) Sarkar Cove, west coast of Prince of Wales Island, tributary to El Capitan Passage: All waters inside of a line across the entrance.

(n) Tuxekan Passage and contiguous waters east of 133 degrees 17 minutes west longitude.

PART 229—SOUTHEASTERN ALASKA AREA, SOUTHERN DISTRICT, SALMON FISHERIES

1. Section 229.2 is hereby amended to read as follows:

§ 229.2 *Definition, Southern district.* All territorial waters within a line beginning at a point on the international boundary at 131 degrees 40 minutes west longitude and following that boundary to Mount Lewis Cass, thence southerly to Point Lees, thence to Claude Point, thence southerly along the watershed of Revillagigedo Island to Point Higgins, thence to Vallenar Point on Gravina Island, thence southerly and easterly along the watershed of Gravina Island to Gravina Point, thence to Walden Point on Annette Island, thence southerly along the watershed of Annette Island to Davison Point, thence west to a point at 55 degrees north latitude, 131 degrees 40 minutes west longitude, thence due south to the point of beginning on the international boundary at 131 degrees 40 minutes west longitude.

2. Section 229.8 is hereby amended to read as follows:

§ 229.8 *Open seasons, salmon fishing.* Commercial fishing for salmon, other than trolling, is prohibited except during the periods specified as follows:

(a) From 6 o'clock antemeridian July 28 to 6 o'clock antemeridian August 20: *Provided*, That in the waters along the mainland shore, including adjacent islands, south of 54 degrees 56 minutes north latitude commercial fishing is permitted from 6 o'clock antemeridian July 21 to 6 o'clock antemeridian August 20.

(b) From 6 o'clock postmeridian August 21 to 6 o'clock postmeridian August 23.

(c) If specifically authorized by an announcement issued pursuant to § 201.21c of this chapter, commercial fishing may be permitted during the following additional periods. (1) From 6 o'clock antemeridian August 25 to 6 o'clock antemeridian August 27; (2) from 6 o'clock postmeridian August 28 to 6 o'clock postmeridian August 30; (3) from 6 o'clock antemeridian September 1 to 6 o'clock antemeridian September 3; and (4) from 6 o'clock postmeridian September 4 to 6 o'clock postmeridian September 6.

(d) Fall season: From 6 o'clock antemeridian October 15 to 6 o'clock postmeridian November 15.

3. Section 229.9 (11 F. R. 3107, 4806) is hereby revoked and deleted as follows:

§ 229.9 *Weekly closed period, salmon fishing.* [Revoked.]

4. Section 229.12 *Closed season for trolling, Behm Canal* (11 F. R. 3107) is hereby amended to add a new last sentence as follows: "A part of these waters is in the Clarence Strait district."

5. Section 229.15 *Areas open to salmon traps* (6 F. R. 1261, 8 F. R. 7404) is hereby amended by deletion of paragraphs (a), (b), (f), (g), (h), and (i) which are transferred to Part 227 of this chapter and renumbered § 227.15 (hh), (ii), (jj), (kk), (ll), and (mm), respectively.

6. Section 229.16 *Waters closed to salmon fishing* (6 F. R. 1261) is hereby amended by deletion of paragraphs (l), (m), (n), (o) and (p) which are transferred to Part 227 of this chapter and renumbered § 227.16 (n), (o), (p), (q) and (r), respectively.

PROPOSED RULE MAKING

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR, Part 3]

STANDARDS OF GOOD ENGINEERING PRACTICE CONCERNING STANDARD BROADCAST STATIONS

FURTHER NOTICE OF PROPOSED RULE MAKING

JANUARY 17, 1947.

At a meeting of the Federal Communications Commission at its offices in Washington, D. C., on January 16, 1947:

1. Notice is hereby given of further proposed rule making in the above-entitled matter.

2. Initial notice was given by Notice of the Commission, dated December 20, 1946 (Mimeo. No. 1786 (12 F. R. 183)).

3. The Standards of Good Engineering Practice Concerning Standard Broadcast Stations is proposed to be further revised to the following extent:

(a) It is proposed to amend the Standards of Good Engineering Practice concerning Standard Broadcast Stations by adding Figure 1–A (10% Skywave Signal Range Chart) and Figure 6–A (Angles of Departure vs. Transmission Range) to the standards, which figures are attached hereto. Figures 1–A and 6–A will not affect clear channel frequencies.

(b) The following text revisions of the standards are proposed:

1. Page 8, next to last paragraph, labeled (b): insert ", or Figure 1–A," after the words "Figure 1".

2. Page 9, second paragraph; change to read: "In computing the 50 percent skywave field intensity values of a Class I station of a given power and also in computing the 10% sky-wave field intensity of an alleged interfering Class I or Class II station on a clear channel, use shall be made of the appropriate graph set forth in Figure 1 entitled "Average Skywave Field Intensity" (corresponding to the second hour after sunset at the recording station). These graphs are drawn for a radiated field of 100 millivolts per meter at 1 mile on the horizontal plane from a 0.311 λ antenna. In computing the 10 percent skywave field intensity of an alleged interfering station, other than Class I or Class II, at a specified distance, use shall be made of the appropriate curve in Figure 1–A entitled "10%* Skywave Signal Range." This graph is drawn for a radiated field of 100 millivolts per meter at 1 mile at the vertical angle pertinent to transmission by one reflection. This curve supersedes the 10% skywave of Figure 1, only for regional and local channels at the present time.[3a] Adoption of revised skywave curves for use on clear channels will await the outcome of the Clear Channel Hearing (Docket No. 6741) and the negotiations for a new North American Regional Broadcasting Agreement.

3. Page 18, line 17: Following the words "Figure 1" insert "or Figure 1–A".

4. Page 18, Annex II, second paragraph, insert at beginning the following phrase: "For signals from stations operating on clear channels,".

5. Page 19, before last paragraph 7, Annex II, insert the following paragraphs: "For signals from stations on regional and local channels, in computing the 10% skywave (interference) field intensity values of Class III and Class IV stations,[3a] Figure 1–A is to be used in place of Figure 1. Since Figure 1–A is predicated upon a radiated field of 100 mv/m at one mile in the pertinent direction, no comparison with the vertical pattern of a 0.311 wavelength antenna is to be made. Instead the appropriate radiated field in the vertical plane corresponding to the distance to the receiving station divided by 100 is multiplied into the value of 10% skywave field intensity determined from Figure 1–A. There are two new factors to be considered, however, namely the variation of received field with latitude of the path and the variation of pertinent vertical angle due to variations of ionosphere height and ionosphere scattering.

Figure 1–A, "10% Skywave Signal Range Chart", shows the 10% skywave signal as a function of the latitude of the transmission path and the distance from a transmitting antenna with a radiated field of 100 mv/m at the pertinent angle for the distance. The latitude of the transmission path is defined as the geographic latitude of the midpoint between the transmitter and the receiver. Latitude 35° should be used in case the midpoint of the path lies below 35° North and latitude 50° should be used in case the midpoint of the path lies above 50° North.

Figure 6–A, entitled "Angles of Departure vs. Transmission Range", is to be used in determining the angles in the vertical pattern of the antenna of an interfering station to be considered as pertinent to transmission by one reflection. Corresponding to any given distance, the curves 4 and 5 indicate the upper and lower angles within which the radiated field is to be considered. The maximum value of field intensity occurring between these angles will be used to determine the multiplying factor for the 10% skywave field intensity determined from Figure 1–A. (Curves 2 and 3 are considered to represent the variation due to the variation of the effective height of the E-layer while Curves 4 and 5 extend the range of pertinent angles to include a factor which allows for scattering. The dotted lines are included for information only.)

In the case of non-directional vertical antennas, the vertical distribution of relative fields for several heights, assuming sinusoidal distribution of current along the antenna, is shown in Figure 5. In the case of directional antennas the vertical pattern in the great circle direction toward the point of reception in question must first be calculated. Then for the distance to the point, the upper

[3] The Commission will not authorize a directional antenna for a Class IV station assigned to a local channel.

[3a] Certain simplifying assumptions may be made in the case of Class IV stations on local channels: See footnote 3a.

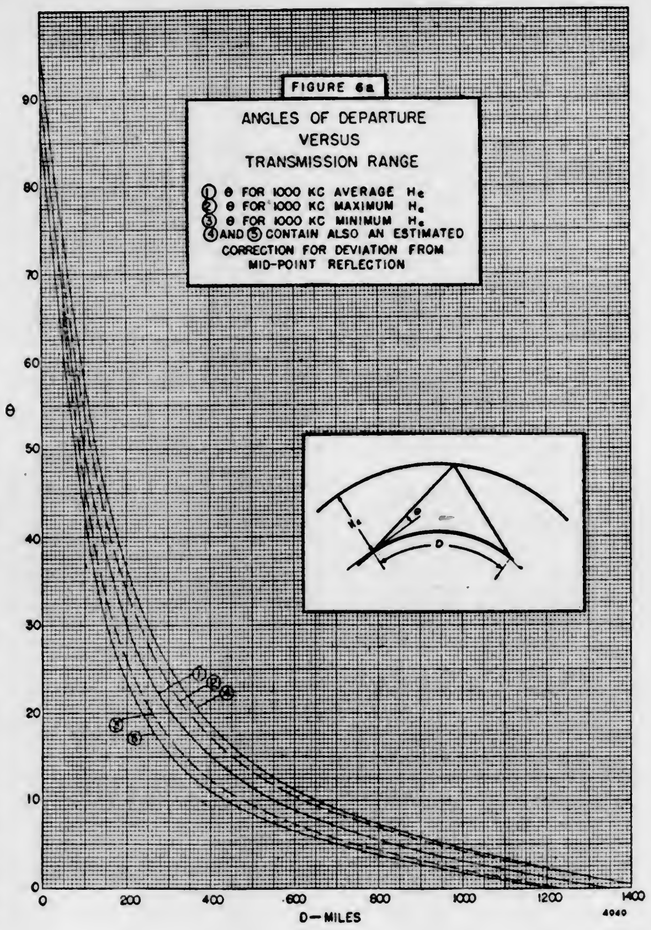
and lower pertinent angles are determined from Figure 6–A. The ratio of the largest value of radiated field occurring between these angles, to 100 mv/m (for which Figure 1–A is drawn) is then used as the multiplying factor for the value of the field read from the curves of Figure 1–A. Note that while the accuracy of the curves is not as well established by measurements for distances less than 250 miles as for distances in excess of 250 miles, the curves represent the most accurate data available today. Pending accumulation of additional data to establish firm standards for skywave calculations in this range, the curves may be used.

For example, suppose it is desired to determine the amount of interference to a Class III station at Portland, Oregon, caused by another Class III station at Los Angeles, California, which is radiating a signal of 560 mv/m unattenuated at one mile in the great circle direction of Portland, using a 0.5 wavelength antenna. The distance is 825 miles. From Figure 6–A the upper and lower pertinent angles are 7° and 3.5° and, from Figure 5 the maximum radiation within these angles is 99% of the horizontal radiation or 554 mv/m at 1 mile. The latitude of the path is 39.8° N and from Figure 1A, the 10% skywave field at 825 miles is 0.050 mv/m for 100 mv/m radiated. Multiplying by 554/100 to adjust the value to the actual radiation gives 0.277 mv/m. At 20 to 1 ratio the limitation to the Portland station is to the 5.5 mv/m contour.

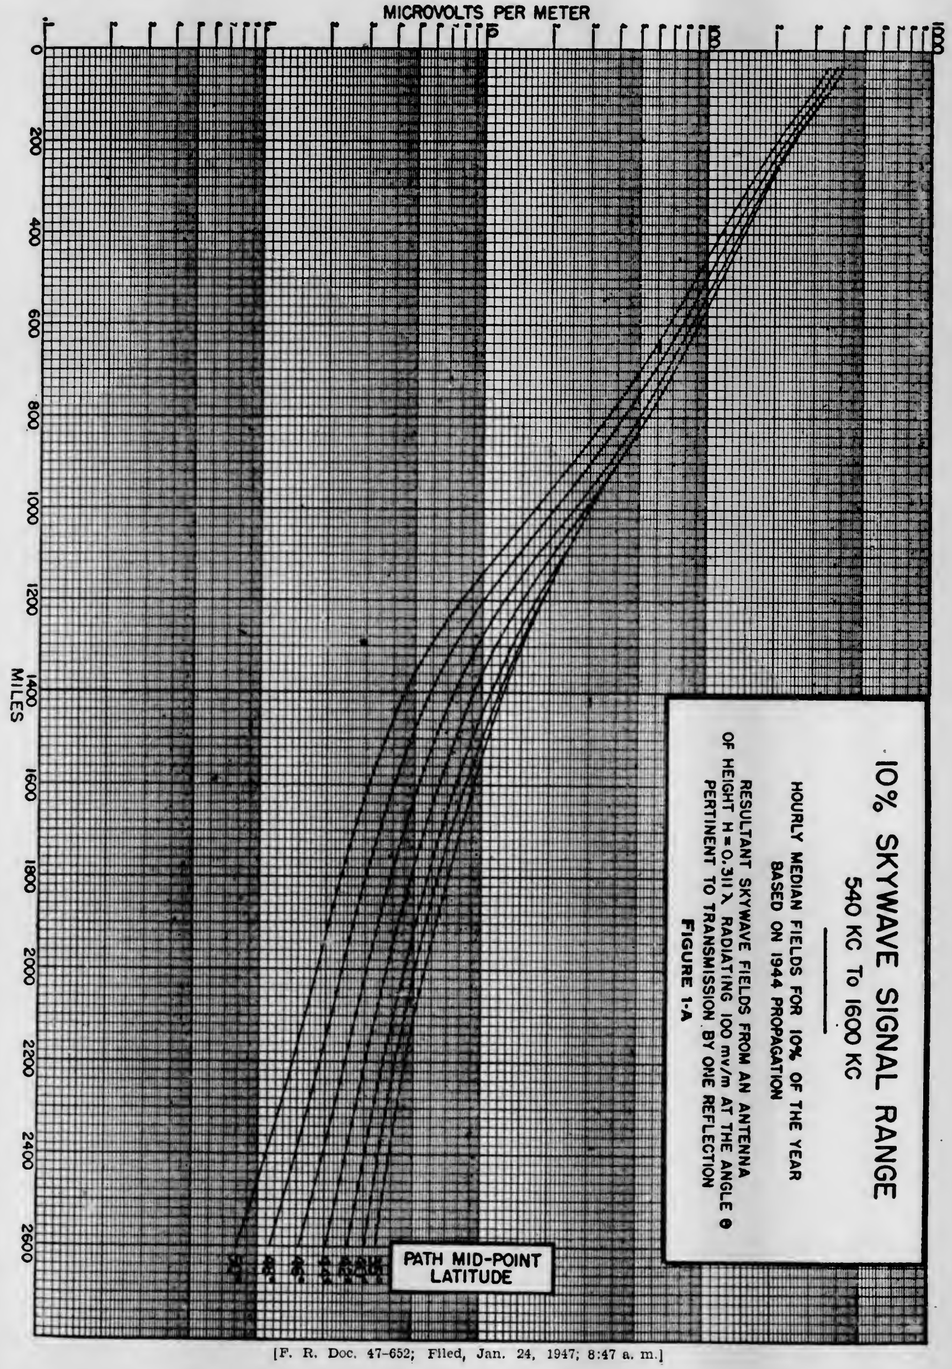
6. Footnote 3a, appearing on page 3 of Public Notice No. 1786, Notice of Proposed Rule Making, published on December 27, 1946, is amended to read:

"[3a] The following approximate method may be used. It is based on the assumption of 0.25 λ antenna height and 88 mv/m at one mile effective field for 250 watts power, using the 10% skywave field intensity curve of Figure 1–A. Zones defined by circles of various radii specified below are drawn about the desired station and the interfering 10% skywave signal from each station in a given zone is considered to be the value tabulated below. The effective interfering 10% skywave signal is taken to be the RSS value of all signals originating within these zones. (Stations beyond 500 miles are not considered.)

Zone	Inner radius (miles)	Outer radius (miles)	10 percent skywave signal (mv/m)
A		60	0.10
B	60	80	.12
C	80	100	.14
D	100	250	.16
E	250	350	.14
F	350	450	.12
G	450	500	.10



Where the power of the interfering station is not 250 watts, the 10 percent skywave signal should be adjusted by the square root of the ratio of the power to 250 watts.



4. The proposed amendments had been widely discussed with interested persons, specifically with Engineering Committees appointed to advise the Commission in the matter of Clear Channel Broadcasting in the Standard Broadcast Band (Docket No. 6741), with Industry Committees meeting to advise the Commission concerning proposals to be made to the North American Regional Radio-Engineering Meeting concerning the extension of the North American Regional Broadcasting Agreement and testimony concerning those amendments was taken in the hearing being held in Docket No. 6741. Further discussion was had with an industry engineering committee meeting held on January 6 and 13, 1947.

5. The proposed amendments are issued under the authority of sections 303 (b), 303 (f) and 303 (r) of the Communications Act of 1934, as amended.

6. Any interested person who is of the opinion that the proposed amendments should not be adopted in the form set forth may file with the Commission by January 27, 1947, a written statement or brief setting forth his comments. The Commission will consider these written statements before adopting the proposed amendments and if comments are submitted which appear to warrant the Commission to hold an oral argument notice of time and place of such oral argument will be given.

Secretary.

FORT PECK INDIAN IRRIGATION PROJECT, MONTANA

OPERATION AND MAINTENANCE CHARGES

JANUARY 20, 1947.

Pursuant to section 4 (a) of the Administrative Procedure Act approved June 11, 1946, Public Law 404—79th Congress; the Acts of Congress approved August 1, 1914 (38 Stat. 583, 25 U. S. C. 385), May 18, 1916 (39 Stat. 142), and March 7, 1928 (45 Stat. 210, 25 U. S. C. 387), and by virtue of authority delegated by the Secretary of the Interior to the Commissioner of Indian Affairs September 14, 1946 (11 F. R. 10297), notice is hereby given of intention to amend paragraphs (b) and (c) of § 130.38, *Charges* Title 25, Code of Federal Regulations, (1) by increasing the operation and maintenance assessment rate on that part of the Big Porcupine Unit of the Fort Peck Indian irrigation project, Montana, that is not under the service area of the Big Porcupine or Wiota pumping plant, and by increasing the maximum quantity of water that may be delivered without additional charge from one acre foot per acre per annum to one and one-half acre feet per acre per annum; and (2) and by providing for the furnishing of surplus water when available at the rate of $1.85 per acre foot for the irrigation of lands adjacent to and outside of that part of the Big Porcupine Unit that is under service area of the Big Porcupine or Wiota pumping plant. The proposed changes are to be effective for the calendar year of 1947 and until further notice.

Interested persons are hereby given opportunity to participate in preparing the proposed amendments by submitting their views and data or argument in writing to Paul L. Fickinger, Director, U. S. Indian Service, Billings, Montana, within 30 days from the date of the publication of this notice of intention in the daily issue of the FEDERAL REGISTER.

CONSTRUCTION OR ALTERATION OF STRUCTURES ON OR NEAR CIVIL AIRWAYS

In accordance with the provisions of section 4 of the Administrative Procedure Act (Pub. Law 404, 79th Cong.) notice is hereby given of a proposed amendment to Part 525, Notice of Construction or Alteration of Structures on or Near Civil Airways, of the Regulations of the Administrator of Civil Aeronautics (14 CFR, Cum. Supp., Part 525).

All interested persons who desire to submit comments and suggestions for consideration in connection with the proposed amendments, shall forward the same to the General Counsel, Civil Aeronautics Administration, Washington 25, D. C., not later than the 15th day after publication of this notice in the FEDERAL REGISTER.

Acting pursuant to the authority vested in me by the Civil Aeronautics Act of 1938, as amended, particularly sections 308 and 1101 of said act (52 Stat. 986, 1026, 54 Stat. 1233; 49 U. S. C. 458, 671), I hereby amend Part 525 of the regulations of the Administrator of Civil Aeronautics by adding the following new § 525.10 to read as follows:

§ 525.1 *Notice required.* • • •

§ 525.10 *Construction of landing areas.* Any person who engages in the construction of a landing area, as defined in § 525.3, any boundary of which will be within 5 miles of the nearest boundary of an existing landing area shall give notice thereof to the Administrator of Civil Aeronautics.

Office of Alien Property

[Vesting Order 7983]

CONRAD LOEHR

In re: Estate of Conrad Loehr, deceased. File No. D-28-10526; E. T. sec. 14939.

Under the authority of the Trading with the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Paul Loehr and Albert Loehr, whose last known address is Germany, are residents of Germany and nationals of a designated enemy country (Germany);

2. That the sum of $1,500.00 was paid to the Alien Property Custodian by Julius D. Cronin, Executor of the estate of Conrad Loehr, deceased;

3. That the said sum of $1,500.00 is presently in the possession of the Attorney General of the United States and was property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which was evidence of ownership or control by, the aforesaid nationals of a designated enemy country (Germany);

and it is hereby determined:

4. That to the extent that the persons named in subparagraph 1 hereof are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

This vesting order is issued nunc pro tunc to confirm the vesting of the said property in the Alien Property Custodian by acceptance thereof on August 2, 1946, pursuant to the Trading with the Enemy Act, as amended.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

In re: Stock owned by Antonie Huemmeler. F-28-23910-D-1, F-28-23910-D-2.

Under the authority of the Trading with the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Antonie Huemmeler, whose last known address is 14 Brauer Strasse, Essen, Germany, is a resident of Germany and a national of a designated enemy country (Germany);

2. That the property described as follows:

a. Twelve hundred (1200) shares of $2.50 par value common capital stock of Kent Storage Company, 69 Front Avenue, N. W., Grand Rapids 4, Michigan, evidenced by certificate number 88, registered in the names of Maria Huemmeler and Antonie Huemmeler, together with all declared and unpaid dividends thereon,

b. Two hundred (200) shares of $1.00 par value preferred capital stock of Guarantee Bond & Mortgage Co. of Grand Rapids, 225 Ottawa Avenue, N. W., Grand Rapids 2, Michigan, a corporation organized under the laws of the State of Delaware, evidenced by preferred certificate number 3126, dated April 7, 1938, registered in the names of Maria Huemmeler and Antonie Huemmeler, together with all declared and unpaid dividends thereon, and

c. One hundred and forty (140) shares of $1.00 par value common capital stock of Guarantee Bond & Mortgage Co. of Grand Rapids, 225 Ottawa Avenue NW., Grand Rapids 2, Michigan, a corporation organized under the laws of the State of Delaware, evidenced by common certificate number 3303, dated April 7, 1938, registered in the names of Maria Huemmeler and Antonie Huemmeler, together with all declared and unpaid dividends,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

3. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

FEDERAL POWER COMMISSION

[Docket No. G-757]

CITIES SERVICE GAS CO.

ORDER SUSPENDING RATE SCHEDULE

JANUARY 21, 1947.

It appearing to the Commission that:

(a) Cities Service Gas Company has heretofore filed agreements providing for gas service to its affiliates, The Gas Service Company, Kansas City Gas Company, and The Wyandotte County Gas Company, which agreements have been designated as its Rate Schedule FPC No. 87 and Supplements 1 and 2 thereto. This rate schedule and the supplements propose to supersede and cancel effective rate schedules as supplemented of Cities Service Gas Company, designated by the Commission as Rate Schedule FPC Nos. 7, 8, and 9, relating to the same aforesaid companies.

(b) The Commission by its order dated July 19, 1946, suspended said Rate Schedule FPC No. 87 and Supplements Nos. 1 and 2 thereto pending a public hearing respecting the matters involved and the issues presented concerning the lawfulness of the proposed conditions of service set forth in said Rate Schedules.

(c) On December 23, 1946, Cities Service Gas Company filed with the Commission a supplementary agreement dated December 5, 1946, designated by the Commission as Supplement No. 3 to Rate Schedule FPC No. 87. This agreement proposes to modify in certain particulars some provisions of the Rate Schedule FPC No. 87 and Supplements Nos. 1 and 2 thereto which are under suspension.

(d) The supplementary agreement which has been so filed and designated as Supplement No. 3 to Rate Schedule FPC No. 87 provides that The Gas Service Company, Kansas City Gas Company and The Wyandotte County Gas Company as distributing companies may continue to take all or a portion of their requirements for gas from local sources in seven specified communities in Kansas and Oklahoma, and that in respect to new or additional discoveries of such local gas which may be without market outlet, the Cities Service Gas Company and the aforesaid distributing companies will make every reasonable effort to agree to a satisfactory method and basis upon which the said distributing companies may purchase such local gas and be relieved of their obligations under Rate Schedule FPC No. 87 which requires the said distributing companies to purchase their entire requirements of gas from Cities Service Gas Company.

(e) The proposed conditions of service prescribed or affected by the aforesaid Supplement No. 3 to Rate Schedule FPC No. 87 may be unjust, unreasonable, unlawful and preferential and place an undue burden upon the ultimate consumers of natural gas.

The Commission finds that:

(1) A hearing regarding Rate Schedule FPC No. 87 and Supplements Nos. 1 and 2 is presently in progress in the consolidated proceedings of Dockets Nos. G-699, G-729, G-757, G-747, G-763, and G-765; and that Supplement No. 3 to Rate Schedule FPC No. 87 has been made a part of said proceedings by an Exhibit No. 92.

(2) It is necessary, desirable and in the public interest that a public hearing be held concerning the lawfulness of the charges, classifications, and proposed conditions of service set forth in the Supplement No. 3 to Rate Schedule FPC No. 87 and that said Supplement No. 3 be suspended pending hearing and decision thereon.

The Commission orders that:

(A) A public hearing be held respecting the matters involved and the issues presented thereby concerning the lawfulness of the proposed conditions of service set forth in Supplement No. 3 to Rate Schedule FPC No. 87 and that such public hearing on Supplement No. 3 to Rate Schedule FPC No. 87 be made a part of and included within the hearing and consideration of Rate Schedule FPC No. 87 and Supplements Nos. 1 and 2 thereto in consolidated proceedings of Dockets Nos. G-699, G-729, G-757, G-747, G-763, and G-765.

(B) Pending such hearing and decision thereon, Supplement No. 3 to Rate Schedule FPC No. 87, filed by Cities Service Gas Company referred to above insofar as such Supplement provides for the sale of natural gas other than for resale for industrial use only, be and it hereby is suspended until June 23, 1947, or until such time as said Rate Schedule and Supplements shall be made effective in the manner prescribed by the Natural Gas Act.

(C) During the period of suspension Cities Service Gas Company Rate Schedules FPC Nos. 7, 8, and 9, as supplemented, shall remain in force and effect, except as such may be modified by Commission order.

(D) Interested State commissions may participate in said hearings as provided in Rule 8 (18 CFR 1.8) and Rule 37 (18 CFR 1.37) of general rules including rules of practice and procedure effective September 11, 1946.

Date of issuance: January 21, 1947.

By the Commission.

[Docket No. G-805]

TENNESSEE GAS AND TRANSMISSSION CO.

ORDER FIXING DATE OF HEARING

JANUARY 21, 1947.

Upon consideration of the application filed on November 1, 1946, in Docket No. G-805 by Tennessee Gas and Transmission Company, a Tennessee corporation, having its principal place of business at Houston, Texas, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, authorizing Applicant to construct and operate the following described natural-gas pipe-line facilities, subject to the jurisdiction of the Federal Power Commission:

330 feet of 2-inch pipe line extending from a point of connection on Applicant's main transmission pipe-line system to the town of Lobelville, Tennessee.

It appearing to the Commission that:

(a) The above-described facilities are to be used for the purpose of selling natural gas to the Lobelville Gas Company for resale for ultimate public consumption for domestic, commercial and other uses in the town of Lobelville, Tennessee, and environs thereof; and

(b) This proceeding is a proper one for disposition under the provisions of Rule 32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure (effective September 11, 1946), Applicant having requested that its application be heard under the shortened procedure provided by the aforesaid rule for noncontested hearings, and no request to be heard, protest or petition having been filed subsequent to the giving of due notice of the filing of the application, including publication in the FEDERAL REGISTER on December 14, 1946 (11 FR 14332).

The Commission, therefore, orders that:

(A) Pursuant to authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, as amended, and the Commission's rules of practice and procedure (effective September 11, 1946), a hearing be held commencing on February 6, 1947, at 9:30 a. m. (e. s. t.), in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue, N. W., Washington, D. C., concerning the matters of fact and law asserted in the application filed in the above-entitled proceedings; *Provided, however*, That if no request to be heard, or protest or petition to intervene raising in the judgment of the Commission an issue of substance, has been filed or allowed prior to the date hereinbefore set for hearing, the Commission may after a noncontested hearing forthwith dispose of the proceeding by order upon consideration of the application and the evidence filed therewith and incorporated in the record of the proceeding, together with such additional evidence as may be available or as the Commission may require to be filed and incorporated in the record for its consideration.

(B) Interested State commissions may participate as provided by Rules 8 and 37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure (effective September 11, 1946).

Date of issuance: January 22, 1947.

[Docket No. G-823]

MANUFACTURERS LIGHT AND HEAT CO.

ORDER FIXING DATE OF HEARING

JANUARY 21, 1947.

Upon consideration of the application filed on November 29, 1946, in Docket No. G-823 by The Manufacturers Light and Heat Company, a Pennsylvania corporation, having its principal place of business at Pittsburgh, Pennsylvania, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, authorizing Applicant to acquire and operate the following described natural-gas pipe line facilities, subject to the jurisdiction of the Federal Power Commission:

Approximately 5 miles of 16-inch natural gas transmission pipe line located in Monongalia County, West Virginia, being the northern-most portion of the 49 miles of 16-inch transmission line to be constructed by United Fuel Gas Company pursuant to the authority of a certificate issued by this Commission at Docket No. G-736, and commencing at the point of connection between Applicant's 20-inch line of the Pennsylvania-West Virginia State line, and extending southwesterly to a proposed point of connection with the proposed 12¾-inch trans-

mission line of Applicant extending east from the Hundred Compressor Station in Church District, Wetzel County, West Virginia, being constructed pursuant to the authority of a certificate issued by this Commission at Docket No. G-773.

It appearing to the Commission that:

(a) Applicant proposes the acquisition and operation of the above-described facilities for the purpose of making its transmission pipe line system more efficient, obviating the necessity for a transportation agreement under which Applicant would be using facilities of another company for the transportation of gas to which it has sole title, and eliminating a transportation charge for the use of United Fuel Gas Company's facilities; and

(b) This proceeding is a proper one for disposition under the provisions of Rule 32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure (effective September 11, 1946), Applicant having requested that its application be heard under the shortened procedure provided by the aforesaid rule for non-contested hearings, and no request to be heard, protest or petition having been filed subsequent to the giving of due notice of the filing of the application, including publication in the FEDERAL REGISTER on December 18, 1946 (11 F. R. 14502).

The Commission, therefore, orders that:

(a) Pursuant to authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, as amended, and the Commission's rules of practice and procedure (effective September 11, 1946), a hearing be held commencing on February 10, 1947, at 9:30 a. m. (e. s. t.), in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue, NW., Washington, D. C., concerning the matters of fact and law asserted in the application filed in the above-entitled proceeding: *Provided, however,* That if no request to be heard, or protest or petition to intervene raising in the judgment of the Commission an issue of substance, has been filed or allowed prior to the date hereinbefore set for hearing, the Commission may, after a non-contested hearing, forthwith dispose of the proceeding by order upon consideration of the application and the evidence filed therewith and incorporated in the record of the proceeding, together with such additional evidence as may be available or as the Commission may require to be filed and incorporated in the record for its consideration.

(b) Interested State commissions may participate as provided by Rules 8 and 37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure (effective September 11, 1946).

Date of issuance: January 22, 1947.

OFFICE OF TEMPORARY CONTROLS

Civilian Production Administration

[C-471]

BURTON HOMES, INC. AND HARRY S. SCHACHT

CONSENT ORDER

Burton Homes, Inc., a New York corporation with its principal office and place of business at 224 41st Street, New York, New York, is engaged in building residences. It is charged by the Civilian Production Administration with violation of Veterans' Housing Program Order 1 and Priorities Regulations 1 and 3 and 33 and Direction 1 to Priorities Regulation 33 during the period February 1 to June 30, 1946, (1) in having after March 26, 1946, begun and carried on construction without authorization and at a cost in excess of $400 each of 4 houses on residential property designed for occupancy by 5 families or less each located at 75-01, 75-02, 75-45 and 75-46 168th Street, Flushing, Queens, New York; and (2) in having placed rated orders and used preference rating HH assigned for the projects numbered 66-012-00198 and 66-012-00527 to get materials of the kind listed on Schedule A of Priorities Regulation 33 in more than the minimum quantities of such materials which were needed for the projects and in having used such materials for other purposes than the construction of such projects; and (3) in having caused materials to be delivered which it had reason to believe would be used in work prohibited by Veterans' Housing Program Order 1; and (4) in having purported to give other persons the right to use the rating HH before its application for the projects numbered 66-012-00198 and 66-012-00527 was approved; and (5) in having given another person the right to use the rating HH to obtain materials for a project which was not its own and having obtained deliveries of materials pursuant thereto for its own work; and (6) in having specified and caused to be specified delivery dates on purchase orders for HH rated materials more than 30 days before the time they were to be incorporated in the project; and (7) in having failed to set up and keep in place a placard in front of each separate residential building which was to be rented or sold preferably to veterans of World War II on the project site within 5 days after construction had started; and (8) in having failed to keep and preserve accurate and complete records of each transaction to which the rules, regulations and orders of the Civilian Production Administration applied and its inventories of the material involved and of all documents. Harry A. Schacht, secretary of the corporation, was aware of Civilian Production Administration rules, regulations and orders and his and its actions constituted the violations above specified. Burton Homes, Inc., and Harry A. Schacht admit the violations as charged except charges (1) and (3), do not desire to contest the same, and have consented to the issuance of this order.

Wherefore, upon the agreement and consent of Burton Homes, Inc., Harry A. Schacht, the Regional Compliance Director, and the Regional Attorney, and the approval of the Compliance Commissioner, *It is hereby ordered,* That:

(a) Burton Homes, Inc., its successors and assigns, and Harry A. Schacht, shall be deprived of all priorities assistance and shall obtain no authorization for any construction, until April 1, 1947, except as to the 44 houses approved under FHA project authorization numbers 66-012-00527 and 66-012-00198 and 66-012-010057.

(b) Burton Homes, Inc., its successors and assigns, may proceed with construction of the 44 houses mentioned in paragraph (a) of this order and may use priorities assistance in their completion, said houses being those located at and known by the following designations: 75-01, 75-03 to 75-45, inclusive, 168th Street, Flushing, Queens, New York; and shall be bound to complete the 2 houses known as 75-01 and 75-45 168th Street, Flushing, Queens, New York, if it shall complete the 2 houses mentioned in paragraph (d) of this order, unless it shall be prevented by unavoidable conditions beyond its control.

(c) The sales price of the two houses known as 75-01 and 75-45 168th Street, Flushing, Queens, New York, shall be no more than $10,000 each, as allowed by the FHA authorizations granted for project number 66-012-010057, unless Burton Homes, Inc., its successors or assigns, shall apply to the FHA for an increase in the sales price and such application shall be approved or granted on appeal as provided in paragraph (g) (7) or (g) (8) of Priorities Regulation 33 (as amended June 14, 1946) or paragraph (i) (6) or (i) (7) of Housing Expediter Priorities Regulation 5 (as amended August 27, 1946) or similar corresponding portions of regulations adopted thereafter.

(d) The houses known as 75-02 and 75-46 168th Street, Flushing, Queens, New York, need not be placed under the Veterans' Housing Program, and, if not, may be completed and sold by Burton Homes, Inc., its successors or assigns, without restriction in price and without veterans' preference, but shall be completed without priorities assistance and without use of materials acquired by priorities assistance.

(e) The provisions of this order shall not apply to a purchaser from Burton Homes, Inc., of unimproved real property which Burton Homes, Inc., may now or at any time in the future own, provided that such purchaser is not a successor or assignee of the business of Burton Homes, Inc., and does not include in its management or control any of the officers of Burton Homes, Inc.

(f) Nothing contained in this order shall be deemed to relieve Burton Homes, Inc., Harry A. Schacht, their successors or assigns, from any restriction, prohibition, or provision contained in any order or regulation of the Civilian Production Administration, except insofar as the same may be inconsistent with the provisions hereof.

Issued this 24th day of January 1947.

KOPPERS CO., INC.

ORDER GRANTING EXTENSION OF TIME

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 21st day of January A. D. 1947.

The Commission having, by its order dated June 26, 1945 entered pursuant to section 11 (b) (1) of the Public Utility Holding Company Act of 1935, directed that Koppers Company, Inc., a registered holding company, sever its relationship with Eastern Gas and Fuel Associates and its subsidiaries by disposing of its direct and indirect ownership, control, and holding of securities issued by Eastern Gas and Fuel Associates and its subsidiaries; and

Koppers Company, Inc., having filed an application pursuant to section 11 (c) of the act for an extension of an additional year within which to comply with the Commission's order of June 26, 1945, above described, said application for extension reciting that Koppers Company, Inc., has been unable in the exercise of due diligence to comply with said order within one year from the date thereof for the reason, among others, that proceedings are pending before the Commission under sections 11 (b) (2) and 11 (e) of the act with respect to the recapitalization of Eastern Gas and Fuel Associates; and

The Commission having, by its order dated June 26, 1946, granted to Koppers Company, Inc. an additional period of six months from June 26, 1946 within which to comply with the provisions of said order of June 26, 1945:

Koppers Company, Inc., having filed a further application pursuant to section 11 (c) of the act for an additional six months' extension of time within which to comply with the Commission's order of June 26, 1945, as extended by the order of June 26, 1946, said application reciting that Koppers Company, Inc. has ben unable in the exercise of due diligence to comply with said orders within the extended time prescribed thereby for the reason, among others, that proceedings remain pending before the Commission under section 11 (b) (2) and 11 (e) of the act with respect to the recapitalization of Eastern Gas and Fuel Associates; and

It appearing to the Commission, in the light of the particular circumstances, that it is appropriate to extend the time for compliance with the order of June 26, 1945 as extended by the order of June 26, 1946, for an additional period of six months after December 26, 1946:

It is ordered, That Koppers Company, Inc. be, and hereby is, granted an additional period of six months from December 26, 1946, within which to comply with the provisions of the order of June 26, 1945, directing Koppers Company, Inc., to sever its relationship with Eastern Gas and Fuel Associates and its subsidiaries.

By the Commission.

GAS AND ELECTRIC ASSOCIATES AND GENERAL PUBLIC UTILITIES CORP.

NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 21st day of January 1947.

Notice is hereby given that a joint application-declaration has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by General Public Utilities Corporation ("GPU"), a registered holding company, and its subsidiary, Gas and Electric Associates ("Associates"). Applicants-declarants have designated sections 9 (a) (1), 10 and 12 of the act and Rules U-43 and U-44 (c) promulgated thereunder as applicable to the proposed transactions.

Notice is further given that any interested person may, not later than January

29, 1947, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law raised by said joint application-declaration proposed to be controverted or may request that he be notified if the Commission should order a hearing thereon. At any time thereafter such application-declaration, as filed or as amended, may be granted or permitted to become effective as provided in Rule U-23 of the Rules and Regulations promulgated pursuant to said act or the Commission may exempt such transactions as provided in Rules U-20 (a) and U-100 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania.

All interested persons are referred to said joint application-declaration which is on file in the offices of this Commission for a statement of the transactions therein proposed which may be summarized as follows:

The transaction herein proposed is the complete liquidation of Associates and the elimination of all GPU's interest in the certificates of beneficial interest in, and notes payable of Associates. GPU is the only creditor of, and holder of certificates of beneficial interest in, Associates.

Associates holds $18,612,700 principal amount of 8% Income Notes Due March 1, 1967 of Utilities Investing Trust (formerly known as Manson Securities Trust and hereinafter called "UIT") and is the plaintiff in certain litigation pending in the Superior Court in the Commonwealth of Massachusetts in Middlesex County, instituted on October 16, 1942, by Associates against New England Gas and Electric Association (hereinafter called "Negas") and UIT, which litigation is entitled Smith et al. *v.* Goodale et al, (hereinafter called the "Negas litigation"). Certain plans for reorganization of Negas have been proposed by Negas (see Docket File Nos. 59-34, 59-64 and 54-120) which by their terms would dispose of the Negas litigation (said plans being hereinafter called the "Negas Plan.").

Associates will assign, transfer and distribute to GPU all its assets, including said $18,612,700 principal amount of 8% Income Notes Due March 1, 1967 of UIT and all causes of action, both legal and equitable, including the causes of action asserted in the Negas litigation. GPU will transfer and deliver to Associates all the certificates of beneficial interest in, and all the notes payable of, Associates. Such notes payable will be cancelled by Associates but the certificates of beneficial interest will not be cancelled and Associates will not terminate its existence, until such time as the Negas litigation has been concluded or settled by consummation of the Negas Plan or otherwise disposed of.

Associates has agreed to continue the prosecution of the Negas litigation and the causes of action therein asserted but in the event of Associates' failure to prosecute said causes of action, it has agreed to return to GPU all the certificates of beneficial interest in Associates transferred and delivered to it by GPU.

By the Commission.

NORTH PENN GAS CO. AND PENNSYLVANIA GAS & ELECTRIC CO.

NOTICE OF FILING

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 21st day of January A. D. 1947.

Notice is hereby given that a declaration, as amended, has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by North Penn Gas Company ("North Penn"), and Pennsylvania Gas & Electric Corporation ("Penn Corp"). Penn Corp is a registered holding company of which North Penn, itself a registered holding company, is a subsidiary. Declarants designate sections 12 (c), 12 (d) and 12 (f) of the act and Rules U-42, U-43 and U-45 promulgated thereunder as applicable to the proposed transactions.

Notice is further given that any interested person may, not later than January 29, 1947, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest and the issues of fact or law raised by said declaration, as amended, which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. At any time after January 29, 1947, said declaration, as amended, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rule U-20 (a) and Rule U-100 thereof.

All interested persons are referred to said declaration, as amended, which is on file in the offices of this Commission, for a statement of the transactions therein proposed, which are summarized as follows:

All of the common stock and $7 Cumulative (Second) Preferred Stock of North Penn is owned by Penn Corp. Penn Corp. proposes to donate to North Penn all of such preferred stock consisting of 13,160 shares without par value, having a stated value of $1,316,000. North Penn, upon receipt of said shares, will cancel and retire the same and credit the amount of their stated value to capital surplus. The filing states that the reason for said proposed action is to improve and strengthen the capital structure of North Penn.

It is stated in the declaration, as amended, that said donation by Penn Corp of $7 Cumulative (Second) Preferred Stock to North Penn is an interim step in connection with a more comprehensive plan for the simplification of the capital structure and business of North Penn and Allegany Gas Company, a subsidiary, and is necessary in order to effect a more equitable distribution of voting power in conformity with requirements of section 11 (b) (2) of the act.

The Commission is also requested, pursuant to the provisions of section 1808 (f) of the Internal Revenue Code of the United States, for an order to the effect that the subject transaction is necessary or appropriate to effectuate the provisions of section 11 (b) of the Public Utility Holding Company Act of 1935.

By the Commission.

TITLE 3—THE PRESIDENT

EXECUTIVE ORDER 9823

DESIGNATING PUBLIC INTERNATIONAL ORGANIZATIONS ENTITLED TO ENJOY CERTAIN PRIVILEGES, EXEMPTIONS, AND IMMUNITIES

By virtue of the authority vested in me by section 1 of the International Organizations Immunities Act, approved December 29, 1945 (59 Stat. 669), and having found that the United States participates in the following-named international organizations pursuant to a treaty or under the authority of an act of Congress authorizing such participation or making an appropriation therefor, I hereby designate them as public international organizations entitled to enjoy the privileges, exemptions, and immunities conferred by the said Act:

Intergovernmental Committee on Refugees.
International Wheat Advisory Committee (International Wheat Council).

The designation of the above organizations as public international organizations within the meaning of the said International Organizations Immunities Act is not intended to abridge in any respect privileges and immunities which such organizations may have acquired or may acquire by treaty or Congressional action.

This order supplements Executive Orders No. 9698 of February 19, 1946, and No. 9751 of July 11, 1946.

ing cars are furnished and used in lieu thereof, standard sleeping-car rates will be required.

(b) *Standard accommodations.* (1) Subject to the provisions of §§ 903.16 and 903.17, regarding patients and their attendants, the following named persons, when traveling under orders, are entitled at public expense to a lower berth in a standard sleeping car, or a seat in a sleeping car or parlor car:

(i) Officers not traveling in a mileage status, provided that they are entitled to a separate compartment for night railway travel in foreign countries, where the type of accommodations otherwise available is not similar to that used in the United States.

(ii) Cadets, United States Military Academy, aviation cadets, and noncommissioned officers of first, second, and third grades when traveling individually, or included in parties of nine persons or less. (In counting the party there will be included cadets, United States Military Academy, aviation cadets, noncommissioned officers of all grades, other enlisted persons, applicants, and rejected applicants for enlistment or enrollment, but not officers.) See also paragraph (c) (2) of this section regarding parties of 10 persons or more.)

(iii) Members of the Reserve Officers' Training Corps while traveling, except by organizations, to and from camps of instruction, when not paid travel allowances.

(iv) Relative acting as attendant to remains, and return of attendant when required, under the provisions of AR 55–120 and TM 55–520 (when published).

(v) Civilian candidates, Citizens' Military Training Camps, when transportation is furnished by the United States.

(vi) Cadets discharged from the United States Military Academy when traveling from the academy to their homes.

(vii) Relative or friend not in the military service when acting as attendant to a military patient, when proceeding alone to the point from which the attendant service is to be performed, and when returning alone after having completed such attendant service, under the authority contained in War Department Memorandum 40–45, March 23, 1945.

(2) Wives, dependent children, and dependent fathers and mothers whose transportation is authorized by AR 55–120 and TM 55–520 (when published) are entitled to berths in a standard sleeping car or seats in a sleeping car or parlor car on the following basis, regardless of the accommodations to which the individual changing station may be entitled under the provisions of this manual (dependents, other than wives, children, fathers or mothers, whose transportation may be authorized under the "Missing Persons Act" by AR 55–120, are entitled to the same accommodations as those prescribed below for a dependent father or dependent mother:

(i) One lower berth for:
Wife alone.
Dependent father.
Dependent mother.
Child alone.
Wife and child under 6 years of age.
Wife and female child over 6 years of age.
Two children, same sex.
Two children, opposite sex, both under 6 years of age.

(ii) One section, or separated lower and upper berths for:
Wife and one child, male, over 6 years of age.
Wife and two children.
Two children, opposite sex, one or both over 6 years of age.

(iii) When the number of children exceeds two, accommodations for the additional children will be provided on the basis prescribed above for the first two children.

(iv) If a lower berth is not available, one upper berth may be furnished to each individual.

(v) The foregoing allowance is based on all the dependents of one individual traveling together at the same time. If the dependents travel separately and the total allowance becomes exhausted through being furnished the accommodations and/or by claiming monetary allowance in lieu thereof (AR 55–120 and TM 55–520 (when published)) no further accommodations may be furnished.

(3) In certain other cases, as prescribed in this manual, standard accommodations may be furnished when tourist accommodations are not available.

(c) *Tourist accommodations.* Subject to the provisions of §§ 903.16 and 903.17 regarding patients and their attendants, tourist accommodations will be furnished on the following basis when journey exceeds 12 hours and is scheduled to terminate after midnight, or when journey involves spending night on train:

(1) *Nine persons, or less.* (i) In counting the party to determine accommodations under subdivisions (ii) and (iii) of this subparagraph, there will be included aviation cadets, noncommissioned officers of all grades, other enlisted persons, applicants and rejected applicants for enlistment or enrollment, but not officers.

(ii) Noncommissioned officers below the third grade are entitled to a separate berth each in a tourist sleeping car, except as provided in subparagraph (3) of this paragraph, an upper if available, otherwise a lower. (See subparagraph (4) of this paragraph.)

(iii) Enlisted persons (other than aviation cadets and noncommissioned officers) and applicants or rejected applicants for enlistment or enrollment are entitled to accommodations in a tourist sleeping car, except as provided in subparagraph (3) of this paragraph, on the following basis:

(*a*) One person traveling individually will be furnished an upper berth, if available; otherwise a lower. (See subparagraph (4) of this paragraph.)

(*b*) Parties of two to nine persons, both inclusive, will be furnished accommodations on the basis of two persons in a lower berth; the "odd-number" person, if any, to be furnished an upper. If an upper is not available for the "odd-number" person, he will be furnished a lower. (See subparagraph (4) of this paragraph.)

(2) *Ten persons, or more (not counting officers in party).* Cadets, United States Military Academy, enlisted persons (including aviation cadets and all noncommissioned officers) and applicants or rejected applicants for enlistment or enrollment are entitled to accommodations in a tourist sleeping car, except as provided in subparagraph (3) of this paragraph, on the basis of two persons in a lower berth. The "odd-number" person, if any, is entitled to an upper berth. If there are more than a sufficient number of persons to occupy all the lower berths of an entire car on the basis of two persons in a berth, then the remaining persons will be furnished an upper berth each in the same car until its capacity is reached. Each additional car will be filled in the same manner. In special train movements one upper berth will be left unassigned for the use of the pullman conductor. (See subparagraph (4) of this paragraph, and § 903.19). When tourist sleeping cars containing drawing rooms are furnished by the carriers, the drawing room will be used as a section; that is, one lower berth and one upper berth. For example: When a party of 49 enlisted persons is traveling in tourist sleeping cars of the twelve-section, one-drawing-room type, they will be furnished a transportation request for 18 lower and 13 upper tourist berths.

First car: 13 lower berths for 26 persons; 13 upper berths for 13 persons.
Second car: 5 lower berths for 10 persons.
Total: 18 lower berths and 13 upper berths for 49 persons.

(3) *Standard accommodations in lieu of tourist.* Whenever tourist-car berths are not available, standard-car berths will be furnished under the same conditions and on the same basis as set forth in subparagraphs (1) and (2) of this paragraph. (See also subparagraph (4) of this paragraph.)

(4) *Alternative allowances.* The alternative allowances (upper or lower berths; tourist or standard accommodations) provided for in subparagraphs (1), (2), and (3) of this paragraph, contemplate furnishing the most economical accommodations available on the train (and connecting trains en route) and authorized. The higher cost berths and accommodations will be utilized only to the extent that those of lower cost are not available.

(d) *Transportation of aliens (as distinguished from enemy aliens) and other persons evacuated from military areas.* The lowest class of transportation by the facility used will be furnished aliens (as distinguished from enemy aliens) or other persons evacuated from military areas pursuant to the provisions of Executive Order No. 9066, February 19, 1942 (3 CFR, Cum. Supp.) (sec. II, WD Bull. 10, 1942), except that where transportation is by rail carriers and the journey involves spending two nights or more on the train, sleeping-car accommodations, tourist whenever available, otherwise standard, will be furnished for the entire distance from point or origin to destination only for all children under 14 years of age and females who may be included in a movement. In such cases the accommodations will be furnished on the following basis: A mother with her child or children under 14 years of age or a woman in charge of a child or children under 14 years of age, as prescribed for a wife and child or children in paragraph (b) (2) of this section. Other women 50 years of age and over, a separate lower berth for each. Other females 14 years of age and over, and under 50 years, two persons to a lower berth until all available lower berths in the car are used and the remainder of such females in an upper berth each in the same car until the capacity of the car is reached. Where lower berths or a sufficient number thereof are not available, one upper berth will be furnished each individual to the extent that lower berths are not available on the foregoing basis. PART 200—TEST FEE SCHEDULES

STANDARD VISCOSITY SAMPLES AND DETERMINATIONS

In accordance with the provisions of sections 4 (a) and (c) of the Administrative Procedure Act, it has been found that notice and hearing on this schedule of fees are unnecessary for the reason that such procedure would, because of the nature of these rules, serve no useful purpose.

These rules shall be effective upon the date of publication in the FEDERAL REGISTER.

Section 200.387 *Viscosity determinations* (15 CFR § 200.387) is hereby amended by changing the title to "Standard viscosity samples and determinations," and to read as follows:

§ 200.387 *Standard viscosity samples and determinations.*

Item	Description	Fee (f. o. b. Washington, D. C.)[1]
387a	One-pint sample of Standard Viscosity Oil D, H, I, J, K, L, M, or N with report on its absolute viscosity, kinematic viscosity, and density at 20° C., 25°C., and 100° F., per one-pint sample	$10.00
387b	Determination of absolute or kinematic viscosity of Standard Viscosity Oil D, H, I, J, K, L, M, or N at temperatures other than covered by Item 387a, additional fee, per sample per temperature	10.00

Chapter I—Office of Temporary Controls

Subchapter A—Organization, Procedure and Delegations of Authority

PART 3—DELEGATION OF AUTHORITY

NOTICES OF GENERAL RATE INCREASES

By virtue of the authority vested in me by Executive Order No. 9250 of October 3, 1942; Executive Order No. 9699 of February 21, 1946; Executive Order No. 9762 of July 25, 1946; and Executive Order No. 9809 of December 12, 1946, and in accordance with the provisions of paragraph 4 of Title VI of Executive Order No. 9250 and of Section 1 of the Stabilization Act of 1942, as amended (56 Stat. 765; 50 U. S. C. App. Secs. 961-971). *It is hereby ordered:*

§ 3.202 *Notices of general rate increases.* (a) The Commissioner for War Mobilization and Reconversion in the Office of Temporary Controls is hereby designated as the agency to receive notices of proposed general increases in common carrier or other public utility rates and charges.

(b) Because it is considered unnecessary, under present circumstances to intervene before the Authorities having jurisdiction to consider such proposed increases, the Commissioner will not so intervene.

(c) Directive No. 1 (7 F. R. 8758) of the Director of Economic Stabilization, issued October 14, 1942, is hereby revoked.

This order shall become effective upon issuance.

Done at Washington, D. C., this 21st day of January 1947.

Subchapter B—Rules Affecting Civilian Production Administration

PART 11—LIQUIDATION OF CIVILIAN PRODUCTION ADMINISTRATION

§ 11.1 *Liquidation.* Pursuant to the authority of Executive Order No. 9809, dated December 12, 1946 and Executive Order 9638, dated October 4, 1945, it is hereby directed that the Civilian Production Administration as such be liquidated and that the liquidation shall be completed not later than December 31, 1947. All residual operating and administrative functions, such as those relating to accounts, personnel, history and records shall be assumed by the Office of Temporary Controls Administrator immediately after December 31, 1947.

§ 11.2 *Responsibility for liquidation.* The Commissioner of Civilian Production shall be responsible for the orderly liquidation of the Civilian Production Administration. As rapidly as possible determination shall be made by the Commissioner as to the effective dates for the termination of individual Civilian Production Administration functions. Following such determinations appropriate steps shall be taken to effect the liquidation of these functions by the dates so determined.

Effective date. This order is effective January 21, 1947.

Chapter II—National Guard and State Guard, War Department

PART 201—NATIONAL GUARD REGULATIONS

MISCELLANEOUS AMENDMENTS

The following amendments and additions to the regulations contained in Part 201 are hereby prescribed:

1. Paragraph (c) of § 201.1 is amended by substituting the word "headquarters" in lieu of "staff" wherever it appears and by amending subparagraph (3). The section is further amended by the addition of paragraph (f) to read as follows:

§ 201.1 *Appointment* • • •

(c) *Appointments to State headquarters* • • •

(3) *Other State headquarters.* See § 201.2 (d) (2) (iv) (c).

• • • • • •

(f) *Appointments of Regular Army personnel*—(1) *Regular Army officers.* In accordance with an approved policy of the War Department, authority may be granted to officers on the active list of the Regular Army to accept commissions in the active National Guard. The following conditions govern all such appointments:

(i) The officer must be detailed as an instructor with the National Guard unless he is appointed Chief of Staff of a division under the provisions of sections 65 and 100, National Defense Act.

(ii) There must be a vacancy and appropriate assignment with the active National Guard in the grade in which the commission is tendered.

(iii) The vacancy so filled will be limited to that of the commander of a regiment or larger organization, or that of a staff officer of a brigade or higher organization.

(iv) The State authorities must make the request for the appointment to the Chief, National Guard Bureau, giving the rank proposed for the appointee and the arm or service in which he is to be commissioned.

(v) The commission in the National Guard will be in the same grade as that held by the officer in the Regular Army and not below that of major or above that of major general.

(vi) Before an officer can accept such a commission he must first receive authority from the Secretary of War.

(vii) The authority to hold the commission terminates when a qualified National Guard officer becomes available or when the Regular Army officer holding the commission is relieved from duty with the National Guard of the State in which he is commissioned.

(viii) Should the unit to which the officer is assigned be called or ordered into Federal Service, the officer will resign his commission in the National Guard effective the date of the call or order.

(ix) Assignment to be limited to 2 years, subject to extension upon further request by the Governor of the State concerned.

(2) *Regular Army enlisted men.* An enlisted man on the active list of the Regular Army may not legally accept a commission in the National Guard even though he is detailed on duty with the National Guard.

2. Section 201.2 is superseded by the following:

§ 201.2 *Federal recognition*—(a) *Definition.* Federal recognition is the action of the War Department in acknowledging and recording that officers of the National Guard have met the qualifications and requirements prescribed by the National Defense Act, and regulations, and are thereby entitled to receive Federal pay and allowances.

(b) *Effective date of recognition.* Recognition is not complete until granted by the War Department. It is effective from the date on which the requirements for recognition were met.

(c) *Persons eligible.* Persons commissioned as officers of the National Guard will not be recognized as such under any of the provisions of these regulations unless they will have been selected from the following classes, and will have taken and subscribed to the oath of office prescribed in section 73 of the National Defense Act.

(1) *Initial procurement*—(i) *From wartime officers.* In the initial reorganization of the National Guard, Federal recognition and appointment in the National Guard of the United States above the grade of second lieutenant will be limited to those officers who have served honorably in active Federal service in the armed forces of the United States for a period of at least 6 months since December 7, 1941, and who, while in that service, have demonstrated their qualifications by actual service in the grade and position contemplated, or by the satisfactory discharge of duties of corresponding and equal responsibility.

(ii) *From warrant officers and enlisted men.* Warrant officers and enlisted men of the first three grades who have served honorably in active Federal service in the armed forces of the United States for a period of at least 6 months since December 7, 1941, and who may be nominated for appointment as second lieutenants, may be exempted from attendance at an officer candidate school by examining boards when their wartime experience clearly satisfies the required standards: *Provided*, That second lieutenants may be procured from among recent graduates of the Reserve Officers' Training Corps or officer candidate schools.

(iii) *Specialists from other sources.* (*a*) Wartime service or previous military training are not required for appointment and Federal recognition in the National Guard of clergymen as chaplains, doctors as medical officers, and dentists as dental officers.

(*b*) If a candidate for appointment has had such wartime service or previous military training, the record of that service and training will be considered in determining general suitability for the position to which appointed.

(*c*) Maximum age-in-grade requirements established in paragraph (d) (3) of this section, apply to these officers.

(*d*) Grades to which appointed and in which recognized are those specified in the table of organization and equipment of the unit to which assigned.

(*e*) Requirements for professional accreditation and professional experience will be those specified in Army Regulations for the appropriate grades.

(2) *Continuing procurement.* After initial reorganization, commissioned officers will be obtained from the following sources:

(i) Individuals with honorable and creditable service as commissioned officers in any of the armed services of the United States.

(ii) Graduates of accredited senior Reserve Officer Training Corps units.

(iii) Graduates of officer candidate schools and graduate aviation cadets.

(iv) Flight officers who have served honorably and creditably in time of war.

(v) Specialists as provided in subdivision (iii) (*a*) of this subparagraph.

(vi) Officers of the Organized Reserve Corps.

NOTE: A civilian officer or employee of the United States or the District of Columbia, who is appointed an officer of the National Guard, will not be federally recognized without the consent of the head of the department or service in which he is employed.

(d) *Requirements for recognition.* The Chief, National Guard Bureau, will not grant Federal recognition to an officer until he has evidence that the following requirements have been met:

(1) *Residence.* The candidate must live in the vicinity of the unit to which he is to be assigned.

(2) *Assignment*—(i) *To a unit.* The unit must be recognized.

(ii) *To a headquarters.* The headquarters must be recognized.

(iii) *To split units.* The provisions of this paragraph apply to all split units.

(iv) *To State Headquarters*—(*a*) *Adjutant general or assistant adjutant general.* A person appointed adjutant general, or assistant adjutant general, of a State may be recognized in any arm or service. Authorized grades for recognition will conform to the allotment prescribed by the Chief, National Guard Bureau for State Headquarters. If the grade authorized is that of a general officer, the candidate must qualify for Federal recognition under the requirements prescribed for general officers of appropriate grades in the National Guard. All qualifications prescribed by Federal law and this part must be met before recognition will be granted. When recognized, a State adjutant general, or assistant adjutant general, comes under the same regulations as apply to other recognized officers.

(*b*) *Branch immaterial assignments.* A person appointed as an officer of the National Guard and assigned to a State Headquarters for selective service duty, or as United States property and disbursing officer, inspector general, or maintenance officer may be recognized in any arm or service. Authorized grades for recognition will conform to the allotment prescribed by the Secretary of War for State Headquarters.

(*c*) *Other State Headquarters officers.* A person appointed as an officer of the National Guard and assigned to the State Headquarters, except as provided in subdivisions (iv) (*a*) and (*b*) of this subparagraph, may be recognized, provided he is commissioned and qualified in the staff corps or department appropriate to the staff position to which he is assigned. If commissioned and recognized in an arm or service other than that appropriate to the existing vacancy, he may be assigned to the State Headquarters and continue to be recognized in his present arm or service until promoted. Authorized grades for recognition will conform to the allotment prescribed by the Secretary of War.

(*d*) *Total number and grade.* The total number and grades of officers recognized for the State Headquarters in any State will not exceed the total authorized in the approved allotment of grades and vacancies for the State Headquarters.

(3) *Age (effective until January 1, 1951)*—(i) *For initial recognition.* No candidate will be examined for recognition who is less than 21 or more than 62 years old, nor unless his age is such that he can serve at least 1 year before recognition will be terminated under age limitations as set forth in subdivision (ii) of this subparagraph, except that for air units no candidate for original commission as second lieutenant will be more than 27; as first lieutenant, more than 32; as captain, more than 37; as major, more than 40; as lieutenant colonel, more than 43; as colonel, more than 45.

(ii) *For continued recognition.* The following maximum age-in-grade limitations are established for officers of the National Guard. An officer will be considered over the maximum age for his grade upon reaching the birthday of the year prescribed.

Assignment	2d Lt.	1st Lt.	Capt.	Maj.	Lt. Col.	Col.
State headquarters	40	43	46	51	55	60
Air units	31	36	41	44	47	49
Other than air units	30	35	42	47	52	55

NOTE: Rated officers in air units will be subject to the age limitations above for air units. Non-rated officers in air units (including flight surgeons) will be subject to the age limitations given above for "Other than air units." (WDGPA 321 (July 29, 1946))

(4) *Examination.* The candidate must pass such physical, moral, and professional tests as the President may prescribe.

(e) *Termination of recognition.* Recognition of a National Guard officer terminates when:

(1) If a general officer, he has reached the age of 64. (i) If below the grade of general officer, he has passed the maximum age prescribed for his grade in paragraph (d) (3) (ii) of this section.

(2) When his commission is vacated.

(3) When he is convicted of a felony.

(4) When he is transferred from a position in which he is recognized to a position for which there is no provision for recognition.

(5) When recognition is withdrawn from the organization to which the officer belongs, unless he is transferred to an existing vacancy in a recognized unit.

(6) When he accepts a commission in the Regular Army (5 Bull. JAG; SPJGA 1946/4410, May 28, 1946), the Navy, or the Marine Corps.

(f) *Withdrawal of recognition.* Recognition of a National Guard officer will be withdrawn:

(1) When he has been absent without leave for 3 months.

(2) When the annual physical examination or the findings of a medical board appointed under the provisions of § 201.5 (b) (3) show that he is physically incapacitated for further service.

(3) When he is a member of the headquarters of a battalion or larger unit and that unit becomes so depleted that it no longer conforms to the prescribed recognition requirements. In such cases recognition of the commanding officer and his staff will be withdrawn 6 months after the date on which the unit became incomplete, unless the condition is corrected prior to the expiration of that period. (See NGR 15.)

(4) When the time limit of a waiver granted under § 201.4 (b) and (d) expires and the officer has not taken the prescribed examination or has failed to pass it.

(5) When an inspection conducted under the provisions of section 93, National Defense Act, as amended, shows that the individual is lacking in the required qualifications. In such cases the War Department may summarily withdraw Federal recognition.

(6) When an efficiency board, appointed under the provisions of section 76, National Defense Act, as amended, finds against him and those findings are approved by the Chief, National Guard Bureau.

(7) When he exceeds the maximum age prescribed for an officer of his grade and assignment.

(8) In the case of an officer of the Chaplains Corps, when ecclesiastical indorsement is withdrawn by the church of his faith.

(9) In the case of an officer of the medical department, when his license to practice has been terminated by proper authority.

3. Section 201.3 is amended by changing the headnote of paragraph (a) (2), and rescinding paragraphs (e) and (g) and substituting the following:

§ 201.3 *Examination.* • • •

(a) *General.* • • •

(2) *Findings of board.* • • •

(e) *Professional examination*—(1) *General.* The professional examination will consist of two parts: a written examination to determine the candidate's military knowledge qualifications; and a practical test, conducted either with or without troops, to determine his ability qualifications. The examination will be sufficiently comprehensive to determine the candidate's professional qualifications but it will not involve feats of memory requiring the reproduction of statistics, data, or kindred matter ordinarily found in reference works.

(2) *Scope*—(i) *Subjects.* In determining the subjects under professional qualifications in which a candidate (except a general officer) is to be examined and scope of the examination in each subject, the board will be governed by the following Army Regulations which set forth the minimum qualifications for appointment and promotion:

AR 140–22, Adjutant General's Department.
AR 140–23, Air Corps.
AR 140–24, Cavalry.
AR 140–25, Chaplains.
AR 140–26, Chemical Corps.
AR 140–27, Coast Artillery Corps.
AR 140–28, Corps of Engineers (to include Armored Engineers).
AR 140–29, Field Artillery (to include Armored Field Artillery).
AR 140–30, Finance Department.
AR 140–31, Infantry (to include Armored Infantry and Tank Corps).
AR 140–32, Judge Advocate General's Department.
AR 140–33, Medical Department.
AR 140–34, Military Intelligence.
AR 140–36, Ordnance Department.
AR 140–37, Quartermaster Corps (to include Transportation Corps).
AR 140–38, Signal Corps.

(3) *Evidence of prior service.* If the candidate produces evidence that he has satisfactorily discharged the duties of the grade and assignment for which examined, or has satisfactorily discharged duties of corresponding and equal responsibility, in active Federal service in the armed forces since December 7, 1941, the board may accept this service as evidence of professional qualification for the grade and arm or service for which examined and may dispense with the professional examination. The evidence accepted by the board in lieu of examination will be shown.

(4) *Evidence of commission.* If the candidate produces evidence that he is federally recognized as an officer of the National Guard in the appropriate grade and arm or service, or that he has held a commission in the Regular Army, the Marine Corps, or the Officers' Reserve Corps in the same grade and arm or service, and has served satisfactorily in that assignment, the board may accept this service as evidence of professional qualification and may dispense with the professional examination. The evidence accepted by the board in lieu of examination will be shown.

(5) *For candidates for the grade of second lieutenant*—(i) *Evidence of graduation from OCS or ROTC.* The examining board may accept evidence of satisfactory completion of Officers' Candidate School or graduation from an accredited senior Reserve Officers' Training Corps unit in lieu of any or all of the tests prescribed under proficiency qualifications for candidates for the grade of second lieutenant. In accepting such evidence, the board must give due consideration to the type of training given the candidate at the Officers' Candidate School or senior Reserve Officers' Training Corps Unit.

(ii) *Evidence of prior service as warrant officer.* If the candidate produces evidence that he has performed 6 months' active service in the armed forces of the United States since December 7, 1941, and that he has attained the grade of warrant officer while in that service, and that this wartime service clearly satisfied the required standards, the examining board may accept this service in lieu of any or all tests prescribed under proficiency qualifications for candidates for the grade of second lieutenant.

(iii) *Evidence of prior service as an enlisted man of the first three grades.* While the appointment of second lieutenants from this source is contemplated, until such time as an adequate system of evaluation of enlisted service is instituted, regulations governing the necessary procedures will not be published.

(iv) *Presentation of certificate of proficiency.* If a candidate for commission as second lieutenant has obtained, by completion of a special course for noncommissioned officers at an appropriate service school, a certificate of proficiency in any subject prescribed under professional qualifications, the board may accept this certificate in lieu of examination in the subject covered.

(6) *Evidence of graduation from general and special service schools.* If a candidate produces a certificate showing satisfactory completion of appropriate courses of instruction for officers at general and special service schools, the board may accept this evidence in lieu of any or all tests prescribed under professional qualifications.

(7) *Evidence of graduation from high school or higher educational institution.* When a candidate produces satisfactory evidence of graduation from a standard high school or from an equivalent or higher institution of learning, the board may accept this in lieu of any tests designed to determine the candidate's general education.

(8) *Transfer to another arm or service.* The examination of an officer who has been transferred to another arm or service will be the same as for original appointment.

• • • • • •

(g) *Professional examination for general officers*—(1) *General.* The professional examination for candidates for the grade of general officer will be conducted as prescribed by the president of the board and will include such military knowledge and ability tests as the board may deem necessary.

(2) *Military educational requirements.* The successful completion of an appropriate course of the Command and Staff College, or a local branch thereof, will be a prerequisite for promotion to general officer grade, except when the officer has, in time of war, performed satisfactorily in the grade for which examined or higher grade, or has clearly demonstrated his qualifications by actual performance of the duties of the higher grade, as provided in paragraph (e) (3) of this section.

4. Section 201.4 is superseded by the following:

§ 201.4 *Waivers*—(a) *Waiver of professional requirements.* Except as provided in paragraph (d) of this section, no waiver of any requirement for professional qualification of National Guard officers will be granted, except under direct authorization by the Secretary of War.

(b) *Waiver of physical requirements.* Waivers for physical defects will be authorized only to the extent prescribed for officers of the Regular Army. An officer who is found physically disqualified because of a correctible defect will be allowed a maximum of 1 year to correct the defect. At the end of the year provided, the officer will be ordered before an examining board to determine his physical qualifications for continued recognition.

(c) *Waiver of age limitations.* Age-in-grade requirements prescribed in § 201.2 (d) (3) will not be waived.

(d) *Waiver of technical requirements upon transfer.* When an officer is commissioned in a different arm or service from that in which he performed his wartime service or when, by reason of conversion of his unit, an officer is transferred to a different arm or service than that in which recognized, the examination in those technical subjects not common to the two arms or services may be waived for not more than 1 year. On or before the end of the year for which the waiver is granted, the officer will appear before an examining board for determination of his qualifications in those technical subjects in which he has not previously qualified.

5. Amend paragraph (b) of § 201.6 to read as follows:

§ 201.6 *Officers of the National Guard of the United States* • • •

(b) *Application for appointment.* Applications for appointment (WD NGB Form 62) will be forwarded in triplicate through channels to The Adjutant General of the Army. These channels will include the appropriate National Guard commanders; the State adjutant general; the Air Force, Army, or Territorial commander; and the Chief, National Guard Bureau.

AUTHORITY: Regulations in this chapter unless otherwise noted at the end of documents affected, issued under sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236, 56 Stat. 177, 58 Stat. 827, and Public Laws 270 and 475, 79th Congress; Public Law 388, 79th Congress; E. PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 13, Direction 25]

EFFECT OF UNEXPIRED URGENCY CEGTIFICATES ON WAA

The following direction is issued pursuant to Priorities Regulation 13:

(a) *What this direction does.* On January 17, 1947, the Civilian Production Administration revoked Direction 16 to Priorities Regulation 13 under which CPA urgency certificates were issued. The revocation provided that CPA will no longer issue new certificates or extend the expiration date of outstanding certificates. However, as stated in the revocation outstanding certificates issued under the direction before January 17, remain valid until filled or until they expire, whichever is earlier. This direction deals only with these unexpired certificates and explains how they are now to be handled by WAA. The major difference between this procedure and that formerly established by Direction 16 is that urgency certificates are now valid against lots of material or equipment which are advertised or publicly offered for sale by WAA if the advertisement or public offering specifically so states. This new procedure for these unexpired urgency certificates has been issued to conform with the new procedures jointly adopted by WAA and the Office of the Housing Expediter and incorporated in the recent amendments to Housing Expediter Priorities Regulations 1, 2 and 4.

(b) *Effect of urgency certificates on WAA.* (1) Unless CPA specifically directs otherwise, the regional office of WAA must give precedence to holders of CPA urgency certificates over any other class of buyers (except holders of Housing Expediter certificates) in selling any surplus materials or equipment of the type covered by unexpired urgency certificates which have been filed with it, or of which it has been notified by another regional office. The relative precedence among holders of CPA urgency certificates and Housing Expediter certificates will be determined by WAA in the manner described in Housing Expediter Priorities Regulations 1, 2 and 4. CPA urgency certificates are not valid against any particular lot of materials or equipment which WAA has advertised or publicly offered for sale unless the advertisement or public offering specifically states that the material or equipment is offered to holders of urgency certificates. Also they are not valid against any particular lot of materials or equipment which is covered by a directive issued by the Housing Expediter, or which WAA has set aside for veterans. The price and terms of sale of specific materials or equipment to a holder of an urgency certificate will be determined by WAA. If the sale is made through a dealer, WAA will designate the certificate holder who is to receive the material or equipment, and the dealer must give WAA a certification in substantially the following form:

The undersigned certifies to the seller and to the Civilian Production Administration, subject to the criminal penalties of section 35 (A) of the U. S. Criminal Code that he will resell promptly the material or equipment obtained with this certificate to ---------- (insert name of urgency certificate holder designated by WAA).

(2) If a holder of an urgency certificate is unwilling or unable to meet the price and terms of sale determined by WAA, it is not required to make the sale.

(c) *Expiration date.* This direction expires March 17, 1947, unless it is revoked or modified before that date.

Issued this 27th day of January 1947.

Recording Secretary.

1. The table of maximum prices of fermentation ethyl alcohol in § 1412.263 Appendix A (a) (1) is amended to read as follows:

CD 12	$0.576
CD 13	.576
CD 14	.573

SD 1	$0.572
SD 2 B	.565
SD 3 A	.561
SD 12 A	.557
SD 23 A	.566
SD 23 G	.612
SD 23 H	.67
Proprietary name solvent	.59

2. In § 1412.263 Appendix A (b) (1) (i), the price "$0.565" is substituted for the price "$0.535".

3. In § 1412.264 Appendix B, the following sentence is added: *"Provided, however,* That for sales made on or after June 20, 1946, the jobber's maximum price for industrial ethyl alcohol shall be the sum of his cost of acquisition and the percentage mark-up he had in effect on March 31, 1946, to the same class of purchaser on sales of such alcohol."

This amendment shall become effective January 27, 1947.

Issued this 27th day of January 1947.

PHILIP B. FLEMING,
Temporary Controls Administrator.

Statement of Considerations Involved in the Issuance of Amendment 16 to Maximum Price Regulation 28

On June 20, 1946, Order No. 69 under Maximum Price Regulation 28 was issued permitting manufacturers and jobbers to sell industrial ethyl alcohol at prices subject to upward adjustment in accordance with action, if any, that might be taken by the Office of Price Administration changing the existing maximum prices for sales of this commodity. Such action was found necessary to insure the continued production and distribution of alcohol during a period of rising costs while studies were being made of the extent of any price changes that would be necessary. No price relief was involved in sales of synthetic alcohol which by operation of the Price Control Extension Act of 1946 was freed from all price controls, nor in sales of fermentation grain alcohol (other than that purchased from the Office of Defense Supplies or other government agency for resale) since such alcohol was suspended from price controls under Amendment 13 to this regulation. Accordingly, the problem was confined to sales of molasses alcohol and resales of alcohol purchased from the Reconstruction Finance Corporation.

When Order 69 was issued, molasses was being allocated to distillers for use in their alcohol production only to the extent of 50% of sales (including internal consumption). The following month, July 1946, no molasses was allowed. Subsequently the following percentages for new molasses alcohol production were allowed: August, September, and October 1946—35%; November 1946—20%; December 1946—35%. Cost figures from all but one producer were submitted for the months of June and August 1946, such two months being deemed fairly representative of operations during the period June-November 1946. Costs and revenues derived from the sale of antifreeze (subject to Maximum Price Regulation 170) were excluded from this study which included only all industrial ethyl alcohol sales subject to this regulation. Pure alcohol of 190° and over, completely and specially denatured alcohols, and proprietary solvents were accordingly included. The figures submitted were those of producers accounting for about 70% of fermentation ethyl alcohol production. Reference was made to the recent overall earnings position of this multi-line industry which was found to be considerably in excess of its base period return. In conformity with the established policy of this Office in cases involving products of multi-line industries having favorable current overall earnings, consideration of a price adjustment to cover average total costs of the alcohol in question was appropriate under the Price Administrator's standards prior to November 10, 1946, the date when price control was removed from this commodity. On the basis of the data now before this Office it appears that an adjustment of 2.97 cents per finished gallon or 3.11 cents per 190 proof equivalent gallon in the manufacturers' maximum prices for alcohol would have been in order. Accordingly, this action effectuates an increase in the producer's maximum price per gallon for heavy tonnage formulae and undenatured fermentation ethyl alcohol by 3 cents, said increase having been determined to be the amount necessary to cover average total costs of the industry's fermentation alcohol operations during June to November 1946.

By operation of Order No. 69, this action will enable producers to recover the 3¢ increase on all sales of fermentation ethyl alcohol sold under such open billing authorization from June 20, 1946, until November 10, 1946, when, pursuant to Executive Order of the President and Supplementary Order 193 of this Office, sales of this commodity were removed from price controls.

Similarly, resellers of fermentation ethyl alcohol who have been selling the commodity on open billing pursuant to authorization of Order No. 69 are permitted to recover their increased cost of acquisition of the commodity plus the same percentage margin over costs enjoyed on such sales on March 31, 1946.

In the opinion of the Administrator, the maximum prices established by this amendment are generally fair and equitable, consistent with, and effectuating the purpose of the Emergency Price Control Act of 1942, as amended, and the Executive orders of the President.

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

PART 7—RULES GOVERNING COASTAL AND MARINE RELAY SERVICES

PART 8—RULES GOVERNING SHIP SERVICE

MISCELLANEOUS AMENDMENTS

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 13th day of January 1947;

The Commission having under consideration the matter of providing distress frequencies for the maritime and aeronautical services and having received notification from the United States Department of State that the United States Government has adopted an interim policy establishing 8280 kilocycles as the interim United States aeronautical and maritime high frequency distress frequency until the whole subject matter of such a frequency for such a purpose shall have been discussed and disposed of at the forthcoming International Telecommunications Conference, and that this interim policy includes the establishment of the following restrictions upon the use of 8280 kilocycles by United States radio stations in the mobile service, to wit:

(a) In requesting help from the maritime and aeronautical services, the frequency 8280 kilocycles shall be used for distress purposes in addition to 500 kilocycles by ship stations and aircraft stations so fitted, and in lieu thereof where 500 kilocycles is not available. It may be used only for calls and replies, as well as for distress traffic, urgent and safety messages, and signals.

(b) Transmission on this frequency with the exception of urgent and safety messages, and signals, must cease twice each hour, for 3 minutes, beginning at x:15 and x:45 o'clock, Greenwich Civil Time (GCT); and,

It appearing, that public interest, convenience, and necessity will be served and the United States interim policy implemented in regard to radio stations licensed by this Commission, by amending certain portions of the Commission's rules and regulations; and

It further appearing, that authority for the amendments hereinafter set forth is contained in sections 303 (c) and (r) of the Communications Act of 1934, as amended; that it is the purpose and effect of those amendments to promote the safety of life and property at sea and in the air in accordance with section 1 of the Communications Act of 1934, as amended; that it is necessary in the public interest that those amendments be made effective without undue delay; and that notice and public procedure for rule making as required by sections 4 (a) and (b) of the Administrative Procedure Act and the requirement of publication of this rule 30 days prior to the effective date thereof in accordance with section 4 (c) of the Administrative Procedure Act are impracticable, unnecessary, and contrary to the public interest;

Now, therefore, *It is ordered:*

1. That Parts 7 and 8 of the Commission's rules and regulations entitled, respectively, "Rules Governing Coastal and Marine Relay Services" and "Rules Governing Ship Service" be, and they are hereby, amended in the following respects:

(1) Section 7.25 *Transmission of call lists* (47 CFR, Cum. Supp.) is amended by adding after the word "500" in the second sentence the words "and 8280".

(2) Section 7.28 *Repetition of distress call* (47 CFR Cum. Supp.) is amended by adding after the word "500" in the first sentence the words "and 8280".

(3) Section 7.51 *International calling and distress frequency* (47 CFR Cum. Supp.) is amended by changing the title thereof to read "Calling and distress frequencies"; by redesignating the existing section as paragraph "(a)"; and by adding the following new paragraph:

(b) The interim United States high frequency calling and distress frequency is 8280 kilocycles. The provisions governing the use of 8280 kilocycles shall apply to all areas.

(4) Section 7.52 *Use of other frequencies for distress* (47 CFR Cum. Supp.) is amended by substituting the words "distress frequencies" for the words "international distress frequency".

(5) Section 7.53 *Use of distress frequency* (47 CFR Cum. Supp.) is amended to read as follows:

§ 7.53 *Use of distress frequencies.* (a) The calling and distress frequencies shall be used only for calls and replies, for distress traffic, for urgent and safety messages as may be necessary, and for operating signals, including announcements as authorized by § 7.25.

(b) Transmission on these frequencies with the exception of urgent and safety messages and signals, must cease twice each hour, for 3 minutes, beginning at x:15 and x:45 o'clock, Greenwich Civil Time (GCT).

(6) Section 7.54 *Use of 143 kilocycles and other calling frequencies* (47 CFR Cum. Supp.) is amended by substituting for the words "143 and 500" in the first sentence the words "143, 500, and 8280".

(7) Section 7.58, *Coastal service* (47 CFR Cum. Supp.), paragraph (a), is amended by adding the word "only" after the words "8280 Calling".

(8) Section 8.45 *Repetition of distress call* (47 CFR Cum. Supp.) is amended by adding after the word "500" in the first sentence the words "and 8280".

(9) Section 8.81, *Allocation for ship stations* (47 CFR Cum. Supp.), paragraph (a), is amended by adding the word "only" after the words "8280 Calling".

(10) Section 8.82 *International calling and distress frequencies* (47 CFR Cum. Supp.) is amended by changing the title thereof to read "Calling and distress frequencies"; by redesignating the existing paragraph as paragraph "(a)"; and by adding the following new paragraph:

(b) The interim United States high frequency calling and distress frequency is 8280 kilocycles. The provisions governing the use of 8280 kilocycles shall apply to all areas.

(11) Section 8.83 is amended to read as follows:

§ 8.83 *Use of distress frequencies.* (a) The international calling and distress frequency 500 kilocycles shall be used by ship stations and aircraft stations in requesting help from the maritime services. Ship stations and aircraft stations which are either unable to use this frequency effectively or wish to obtain further assistance, shall use the interim United States distress frequency 8280 kilocycles. These frequencies may be used only for calls and replies, for distress traffic, urgent and safety messages, and for operating signals.

(b) Transmission on these frequencies with the exception of urgent and safety messages and signals, must cease twice each hour, for 3 minutes, beginning at x:15 and x:45 o'clock, Greenwich Civil Time (GCT).

(12) Section 8.84 *Use of other frequencies for distress* (47 CFR Cum. Supp.) is amended by substituting the words "distress frequencies" for the words "international distress frequency".

(13) Section 8.85 *Use of 143 kilocycles and other calling frequencies* (47 CFR Cum. Supp.) is amended by substituting for the words "143 and 500" in the first sentence the words "143, 500, and 8280".

2. That, for the reasons set out above, this order should be, and is hereby, made effective January 15, 1947.

TITLE 49—TRANSPORTATION AND RAILROADS

Chapter I—Interstate Commerce Commission

[Rev. S. O. 620]

PART 95—CAR SERVICE

LIGHT-WEIGHING OF CARS AT ALL PORTS PROHIBITED

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 21st day of January A. D. 1947.

It appearing, that the practice of weighing empty railroad cars and again weighing them after being loaded with imported commodities at points in all United States ports is aggravating the railroad car shortage and impeding the use, control, supply, movement and distribution of such cars; in the opinion of the Commission an emergency exists requiring immediate action at all ports on the Atlantic, Pacific and Gulf ports; it is ordered, that:

§ 95.620 *Light-weighing of cars at all ports prohibited*—(a) *Railroad cars not to be light-weighed.* No common carrier by railroad subject to the Interstate Commerce Act, shall light-weigh a railroad car or cars intended for loading with imported commodities at any point in the port areas of any port on the Atlantic, Pacific or Gulf ports; nor transport or move such railroad car light-weighed and loaded with imported commodities in violation of this order from any point in the areas of such ports.

(b) *Tariffs suspended.* The operation of all tariff rules or regulations insofar as they conflict with the provisions of this order is hereby suspended.

(c) *Announcement of suspension.* Each of such railroads, or its agent, shall publish, file, and post a supplement in substantial accordance with the provisions of Rule 9 (k) of the Commission's Tariff Circular No. 20 (§ 141.9 (k) of this chapter) to each of its tariffs affected hereby, announcing the suspension as required by paragraph (b) herein.

(d) *Effective date.* This order shall become effective at 12:01 a. m., January 31, 1947.

(e) *Expiration date.* This order shall expire at 11:59 p. m., May 10, 1947, unless otherwise modified, changed, suspended or annulled by order of this Commission.

It is further ordered, that this order shall vacate and supersede Service Order No. 620 on the effective date hereof; that a copy of this order and direction be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

[S. O. 668]

PART 97—ROUTING OF TRAFFIC

REROUTING OF LOADED CARS; APPOINTMENT OF AGENT

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 21st day of January A. D. 1947.

It appearing, that there is a congestion of railroad traffic and loaded cars are not being transported with maximum efficiency to best promote the service in the interest of the public; the Commission is of opinion that an emergency requiring immediate action exists in the area named in paragraph (c) hereof: it is ordered, that:

§ 97.668 *Rerouting of loaded cars; appointment of agent*—(a) *Definitions.* (1) The term "common carrier" as used herein means a common carrier by railroad subject to the Interstate Commerce Act.

(2) The term "car" or "cars" as used herein means any loaded railroad freight car or cars.

(b) (1) *Designation.* E. W. Coughlin, 59 East Van Buren Street, Chicago, Illinois, is hereby designated and appointed as agent of the Interstate Commerce Commission and vested with authority to reroute cars to, from or between common carriers in the area named in paragraph (c) of this section.

(2) *Outline of duties.* As agent, acting on instructions of the Director, Bureau of Service, he is hereby authorized and directed to order any common carrier to divert or reroute, over the line or lines of any common carrier, cars from the line of any common carrier operating in the area listed in paragraph (c) of this section which in his opinion cannot currently accept and move such traffic. Such rerouting or diversion shall be made regardless of the routing shown on the bill of lading designated by either shipper or carrier. Such diversion or rerouting shall be made either at point of origin or as soon as possible thereafter. A copy of each order issued by the agent shall be furnished to the Director, Bureau of Service, on the date of issuance.

(c) *Area affected.* Connecticut, Delaware, District of Columbia, Illinois, Indiana, Kentucky, Maine, Maryland, Massachusetts, Michigan (lower peninsula), New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont, Virginia and West Virginia.

(d) *Execution of agent's orders.* Each common carrier, as it may be affected by Agent Coughlin's orders, shall perform the service required therein without delay.

(e) *Application.* The provisions of this order shall apply to cars moving in intrastate and foreign commerce as well as interstate commerce.

(f) *Rates to be applied.* Inasmuch as such disregard of routing is deemed to be due to carrier's disability, the rates applicable to traffic so forwarded by routes other than those designated by shippers, or by carriers shall be the rates which were applicable at date of shipment over the routes so designated.

(g) *Division of rates.* In executing the orders and directions of the Commission provided for in this order, common carriers affected shall proceed, even though no division agreements are in effect, over the routes authorized; divisions shall be, during the time this order remains in force, voluntarily agreed upon by and between said carriers; and upon failure of said carriers to so agree, the divisions shall be hereinafter fixed by the Commission in accordance with pertinent authority conferred upon it by the Interstate Commerce Act. If division agreements now exist on the traffic affected, over the routes herein authorized they shall not be changed or affected by this order.

(h) *Effective date.* This order shall become effective at 12:01 a. m., January 31, 1947.

(i) *Expiration date.* This order shall expire at 12:01 a. m., March 31, 1947, unless otherwise modified, changed, suspended or annulled by order of this Commission.

It is further ordered, that copies of this order and direction shall be served upon the State railroad regulatory bodies of each State named herein, and upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and notice of this order shall be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

(40 Stat. 101, secs. 402, 418, 41 Stat. 476, 485, secs. 4, 10, 54 Stat. 901, 912, 49 U. S. C. 1 (10)–(17), 15 (4))

By the Commission, Division 3.

PROPOSED RULE MAKING

TREASURY DEPARTMENT

Bureau of Internal Revenue

[26 CFR, Part 29]

TAXABILITY OF INCOME OF CERTAIN TRUSTS

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury. Prior to the final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing in duplicate to the Commissioner of Internal Revenue, Washington 25, D. C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under the authority of section 62 of the Internal Revenue Code (53 Stat. 32, 26 U. S. C., 62).

Regulations 111 (26 CFR, Part 29) are amended as follows:

PARAGRAPH 1. Section 29.22 (a)–21, added by Treasury Decision 5438, approved December 29, 1945 (26 CFR 29.22 (a)–21), is amended as follows:

(A) By striking out the last sentence of paragraph (a) of such section and inserting in lieu thereof the following: "Such factors are set forth in general in paragraph (b) and in detail in paragraphs (c), (d) and (e), below."

(B) By striking out the words "subsection (a)", "subsection (c)", "subsection (d)" and "subsection (e)" wherever they appear in paragraph (b) of such section and inserting in lieu thereof "paragraph (a)", "paragraph (c)", "paragraph (d)" and "paragraph (e)".

(C) By striking out of subparagraph (2) of paragraph (c) of such section the words: "or spouse living with the grantor," and inserting in lieu thereof the following: "or spouse (living with the grantor, and not having a substantial adverse interest in the corpus or income of the trust)."

(D) By striking out the second undesignated paragraph of paragraph (c) of such section beginning: "Where the grantor's reversionary interest is to take effect in possession or enjoyment" to and including subdivision (ii) and inserting in lieu thereof the following:

Where the grantor's reversionary interest is to take effect in possession or enjoyment by reason of some event other than the expiration of a specific term of years, the trust income is nevertheless attributable to him if such event is the practical equivalent of the expiration of a period less than 10 to 15 years, as the case may be. For example, a grantor is taxable on the income of a trust if the corpus is to return to him or his estate on the graduation from college or prior death of his son, who is 18 years of age at the date of the transfer in trust. Trust income is, however, not attributable to the grantor where such reversionary interest is to take effect in possession or enjoyment at the death of the person or persons to whom the income is payable.

(E) By striking out the second sentence of the first undesignated paragraph of paragraph (d) of such section and inserting in lieu thereof the following: "The grantor is not taxable, however, if the power, whether exercisable with respect to corpus or income, may only affect the beneficial enjoyment of the income for a period commencing 10 years from the date of the transfer (or 15 years where any power of administration specified in paragraph (c) of this section is exercisable solely by the grantor, or spouse living with the grantor and not having a substantial adverse interest, or both, whether or not as trustee)."

(F) By striking out the last sentence of the first undesignated paragraph of paragraph (d) of such section and inserting in lieu thereof the following: "Where the income affected by the power is for a period beginning by reason of some event other than the expiration of a specific term of years, the grantor will be taxable if such event is the practical equivalent of the expiration of a period less than 10 or 15 years, as the case may be, in accordance with the criteria stated in paragraph (c) of this section."

(G) By striking out exception (3) of paragraph (d) of such section and inserting in lieu thereof the following:

(3) A power which merely enables the grantor or another person:

(i) To distribute or apply income to or for a current income beneficiary or to accumulate such income for him, provided that any accumulated income must ultimately be payable to the beneficiary from whom distribution or application is withheld or to his estate, or, if payable upon the complete termination of the trust or in conjunction with a distribution of corpus which distribution is augmented by such accumulated income, is ultimately payable to the current income beneficiaries in shares which have been irrevocably specified in the trust instrument. Accumulated income shall be considered so payable although it is provided that if any beneficiary does not survive the date of distribution, the share of such deceased beneficiary is to be paid to one or more designated alternate takers, other than the grantor or the grantor's estate, if such date may reasonably be expected to occur within the beneficiary's lifetime and if the share of such alternate taker or the shares of such alternate takers have been irrevocably specified in the trust instrument; or

(ii) Only during the minority of a current income beneficiary to distribute or apply income to or for such beneficiary or to accumulate and add such income to corpus;

(H) By striking out of exception (4) of paragraph (d) of such section the phrase: "For the requirements of such standard, see exception (5);" and inserting in lieu thereof the following: "Such standard must be set forth in the trust instrument, and must consist of the needs and circumstances of the beneficiaries;"

(I) By striking out exception (5) of paragraph (d) of such section (to and including example (2)) and inserting in lieu thereof the following:

(5) A power to apportion income (whether by distribution or accumulation) to or within a class of beneficiaries, or a power to pay out corpus to or for a current income beneficiary, if such power is exercisable by a trustee or trustees, none of whom is the grantor or spouse living with the grantor, and its exercise is not subject to the approval or consent of any person other than such trustee or trustees. However, if any of such trustees is the father, mother, issue, brother, sister, or employee of the grantor (or is an employee of a corporation in which the grantor is an executive or the stockholdings of the grantor and the trust are significant from the viewpoint of voting control), and if the class of beneficiaries designated to receive the income includes the wife or any child of the grantor, this exception shall apply only if the power is limited by some reasonably definite external standard. For the requirements of a reasonably definite external standard, see exception (4). A power to appoint within a class of beneficiaries does not fall within this exception if the trustee is enabled to add to or eliminate from the class of beneficiaries designated to receive the income except insofar as provision may be made for after-born children.

(J) By striking out paragraph (e) of such section in its entirety and inserting in lieu thereof the following:

(e) *Administrative control.* Income of a trust, whatever its duration, is taxable to the grantor where, under the terms of the trust or the circumstances attendant on its operation, administrative control is exercisable primarily for the benefit of the grantor rather than the beneficiaries of the trust. Administrative control is exercisable primarily for the benefit of the grantor where:

(1) A power exercisable by the grantor, or any person not having a substantial adverse interest in its exercise, or both, whether or not in the capacity of trustee, enables the grantor or any person to purchase, exchange or otherwise deal with or dispose of the corpus or the income therefrom for less than an adequate and full consideration in money or money's worth; or

(2) A power exercisable by the grantor, or any person not having a substantial adverse interest in its exercise, or both, whether or not in the capacity of trustee, enables the grantor to borrow the corpus or income, directly or indirectly, without adequate security or interest; or

(3) The grantor has directly or indirectly borrowed the corpus or income and has not completely repaid the loan, including any interest, before the beginning of the taxable year; or

(4) Any one of the following powers of administration over the trust corpus or income is exercisable by any person in a nonfiduciary capacity: A power to vote or direct the voting of stock or other securities, a power to control the investment of the trust funds either by directing investments or reinvestments or by vetoing proposed investments or reinvestments, a power to reacquire the trust corpus by substituting other property of an equivalent value, and a power which enables the grantor to borrow the corpus or income with adequate security and interest.

If a power is exercisable by a person as trustee, it is presumed that the power is exercisable in a fiduciary capacity primarily in the interests of the beneficiaries. Such presumption may be rebutted only by clear and convincing proof that the power is not exercisable primarily in the interests of the beneficiaries. If a power is not exercisable by a person as trustee, the determination of whether such power is exercisable in a fiduciary or a nonfiduciary capacity depends on all the terms of the trust and the circumstances surrounding its creation and administration. For example, where the trust corpus consists of diversified stocks or securities of corporations the stock of which is not closely held and in which the holdings of the trust, either by themselves or in conjunction with the holdings of the grantor, are of no significance from the viewpoint of voting control, a power with respect to such stocks or securities held by a person who is not a trustee will be regarded as exercisable in a fiduciary capacity primarily in the interests of the beneficiaries.

The mere fact that a power exercisable by the trustee is described in broad language does not indicate that the trustee is authorized to purchase, exchange, or otherwise deal with or dispose of the trust property or income for less than an adequate and full consideration in money or money's worth. On the other hand, such authority may be indicated by the actual administration of the trust.

PAR. 2. Section 29.22 (a)–21 (26 CFR 29.22 (a)–21) as amended shall be applicable to taxable years beginning after December 31, 1945.

[SEAL] WM. T. SHERWOOD, *Acting Commissioner of Internal Revenue.*

UNITED STATES MARITIME COMMISSION

"TROPICUS"

DETERMINATION OF VESSEL OWNERSHIP

Notice of determination by United States Maritime Commission, pursuant to section 3 (b) of the act approved March 24, 1943 (Public Law 17, 78th Congress).

Whereas the title to the vessel "S/S Tropicus" of Argentine registry was requisitioned pursuant to the act of June 6, 1941 (Public Law 101, Seventy-seventh Congress; 55 Stat. 242), as amended, on or about July 31, 1942; and

Whereas section 3 (b) of the act approved March 24, 1943 (Public Law 17, 78th Congress; 57 Stat. 45), provides in part as follows:

(b) The Administrator, War Shipping Administration, may determine at any time prior to the payment in full or deposit in full with the Treasurer of the United States, or the payment or deposit of 75 per centum, of just compensation therefor that the ownership of any vessel (the title to which has been requisitioned pursuant to section 902 of the Merchant Marine Act, 1936, as amended, or the act of June 6, 1941 (Public Law 101, Seventy-seventh Congress)), is not required by the United States, and after such determination has been made and notice thereof has been published in the FEDERAL REGISTER, the use rather than the title to such vessel shall be deemed to have been requisitioned for all purposes as of the date of the original taking: *Provided, however,* That no such determination shall be made with respect to any vessel after the expiration of a period of two months after the date of delivery of such vessel pursuant to title requisition except with the consent of the owner * * *;

and

Whereas neither the full amount nor 75 per centum of just compensation for such vessel has been paid or deposited with the Treasurer of the United States; and

Whereas the former owner of the said vessel has consented to a determination that the use of the vessel is no longer required by the United States and to the return of the vessel and the conversion of the requisition of title thereto to a requisition of the use thereof in accordance with the act approved March 24, 1943 (Public Law 17, 78th Congress); and

Whereas section 202 of the act of July 8, 1946 (Public Law 492, 79th Congress), provides that effective September 1, 1946, and continuing only during the period ending December 31, 1946, "all functions, powers, and duties of the War Shipping Administration, including all of the foregoing provisions in this act relating to said Administration are hereby transferred to and shall be exercised by the United States Maritime Commission under the same legal authorities and subject to the same conditions and limitations not otherwise altered by the foregoing provisions in this act relating to said Administration, as will be applicable to the War Shipping Adminsitration on August 30, 1946, and the War Shipping Administration shall cease to exist as of September 1, 1946";

Now, therefore, I, A. J. Williams, Secretary, United States Maritime Commission, do hereby certify that on December 19, 1946, the United States Maritime Commission, acting pursuant to the act approved March 24, 1943 (Public Law 17, 78th Congress), determined that the ownership of said vessel is not required by the United States and that from and after the date of publication hereof in the FEDERAL REGISTER, the use rather than the title to such vessel shall be deemed to have been requisitioned, for all purposes, as of the date of the original taking.

Dated: January 21, 1947.

"TROPICUS"

DEPOSIT OF JUST COMPENSATION

Notice is hereby given that on January 17, 1947, the United States Maritime Commission, acting pursuant to the act of June 6, 1941, Public Law 101, 77th Congress (55 Stat. 242), as amended, particularly by section 3 (a) of the act of March 24, 1943, Public Law 17, 78th Congress (57 Stat. 45), deposited with the Treasurer of the United States the sum of $250,000.00 as just compensation for the use of the vessel "Tropicus," of Argentine registry, which was requisitioned at Los Angeles, California, pursuant to the said act of June 6, 1941, as amended, on July 31, 1942. In accordance with the said section 3 (a) of the act of March 24, 1943, the holder of any valid claim by way of mortgage or maritime lien or attachment lien upon the said vessel, or of any stipulation therefor in a court of the United States, or of any State, subsisting at the time of such requisition may commence within six months after publication of this notice in the FEDERAL REGISTER and maintain in the United States district court from whose custody such vessel was taken or in whose territorial jurisdiction the vessel was lying at the time of requisitioning, a suit in admiralty according to the principles of libels in rem against the fund so deposited, which suit shall proceed and be heard and determined according to the principles of law and to the rules of practice obtaining in like cases between private parties. Such suit shall be commenced in the manner provided by section 2 of the Suits in Admiralty Act and service of process shall be made in the manner therein provided by service upon the United States attorney and by mailing by registered mail to the Attorney General and the United States Maritime Commission and due notice shall under order of the court be given to all interested persons, and any decree shall be subject to appeal and revision as now provided in other cases of admiralty and maritime jurisdiction. Any decree in any such suit shall be paid out of this and any subsequent deposit of just compensation.

By order of the United States Maritime Commission.

Dated: January 21, 1947.

OFFICE OF DEFENSE TRANSPORTATION

[Special Allocation Order ODT R 1]

TANK CARS FOR TRANSPORTATION OF SULPHURIC ACID AND AMMONIUM NITRATE SOLUTION

ALLOCATION FOR USE

It appearing, that there is a critical shortage in the supply of tank cars of a type suitable for the transportation of sulphuric acid and ammonium nitrate solution; that the War Department now has under lease to the various commercial companies named in Appendix A hereof 318 Class ICC 103A or ARA 3 tank cars which are suitable for such transportation of which 190 are urgently needed by the War Department for the transportation of ammonium nitrate solution in connection with the Army Fertilizer Program; that the Assistant to the President of the United States has directed that said 318 cars remain in commercial service: *Provided,* That 190 tank cars of an average capacity of 7,500 gallons and of a type suitable for the transportation of ammonium nitrate solution are made available to the War Department; that because of the critical shortage in the supply of tank cars of a type suitable for the transportation of ammonium nitrate solution it will be necessary to convert certain Class ICC 103 or ARA 3 tank cars for such service; that the tank car owners named in Appendix B hereof each owns 1,000 or more tank cars; that the commercial companies named in Appendix A hereof have advised the Office of Defense Transportation that if they are permitted to retain in their service, without rental charge, the Class ICC 103A or ARA 3 tank cars under lease from the War Department, they are willing to lease from owners of Class ICC 103 or ARA 3 tank cars and make available to the War Department, without rental charge, as many such cars as will be required to equal approximately 60 per cent of the gallonage capacity of the Class ICC 103A or ARA 3 tank cars they have under lease from the War Department; that except for the expense to be borne by the War Department of painting the interiors of the tanks of the Class ICC 103 or ARA 3 tank cars to be made available to the War Department, said commercial companies will bear the expense of converting such tank cars to a type suitable for the transportation of ammonium nitrate solution, and that upon the return of such cars by the War Department they will likewise bear the expense necessary to reconvert such cars:

Now, therefore, pursuant to Title III of the Second War Powers Act, as amended, Executive Order 8989, as amended, and Executive Order 9729, and it being deemed necessary in the public interest and to promote the national defense, by reason of the short supply of tank cars of a type suitable, or capable of being made suitable, for the transportation of sulphuric acid and ammonium nitrate solution, to allocate the use of certain of such cars; *It is hereby ordered,* That:

1. Each commercial company named in Appendix A hereof shall retain in its present service each Class ICC 103A or ARA 3 tank car now leased by such company from the War Department: *Provided,* That each such commercial company shall forthwith furnish the War Department tank cars of a type suitable for the transportation of ammonium nitrate solution of an aggregate gallonage capacity shown in Appendix A hereof opposite the name of each such commercial company.

2. Notwithstanding any contract, lease, or other commitment, express or implied, each tank car owner named in Appendix B hereof shall forthwith make available, by lease, to any company or companies named in Appendix A hereof, for conversion by or for the account of such company or companies and delivery to the War Department, Class ICC 103 or ARA 3 tank cars in the number and of the aggregate gallonage capacity shown opposite the name of each such tank car owner in said Appendix B: *Provided,* That a greater or less number of tank cars may be made available by any tank car owner named in said Appendix B if the aggregate gallonage capacity of the tank cars made available equals or exceeds the aggregate gallonage capacity shown in Appendix B opposite the name of such car owner: *Provided, further,* That no tank car of a capacity of less than 6,400 gallons shall be made available by any such car owner.

3. In the event the interested parties are unable to agree upon the amount of compensation payable for the use of the Class ICC 103 or ARA 3 tank cars directed to be leased pursuant to the provisions of this order, the amount of such compensation shall be determined by the Office of Defense Transportation.

4. The provisions of this order shall be subject to special permits issued by the Director, Railway Transport Department, Office of Defense Transportation. The Director, Railway Transport Department, Office of Defense Transportation is hereby authorized to issue such special permits on behalf of the Office of Defense Transportation in exceptional cases where the issuance of any such permit is consistent with the purposes of this order. Application for the issuance of such special permits shall be made in accordance with the provisions of Administrative Order ODT 32 (11 F. R. 177A-633).

5. Communications concerning this order should refer to "Special Allocation Order ODT R-1" and should be addressed to the Railway Transport Department, Office of Defense Transportation, Washington 25, D. C.

This Special Allocation Order ODT R-1 shall become effective on January 23, 1947, and shall remain in full force and effect until further order of the Office of Defense Transportation.

UNLOADING OF PLASTER AT LOS ANGELES, CALIF.

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 21st day of January A. D. 1947.

It appearing, that car NYC 151793, containing plaster in sacks, at Los Angeles, California, on the Pacific Electric Railway Company, has been on hand for an unreasonable length of time and that the delay in unloading said car is impeding its use; in the opinion of the Commission an emergency exists requiring immediate action; it is ordered, that:

(a) *Plaster at Los Angeles, California, be unloaded.* The Pacific Electric Railway Company or its agents or employees shall unload immediately car NYC 151793, containing plaster in sacks, now on hand at Los Angeles, Calif.

(b) *Demurrage.* No common carrier by railroad subject to the Interstate Commerce Act shall charge or demand or collect or receive any demurrage or storage charges, for the detention under load of any car specified in paragraph (a) of this order, for the detention period commencing at 7:00 a. m., January 23, 1947, and continuing until the actual unloading of said car is completed.

(c) *Provisions suspended.* The operation of any or all rules, regulations, or practices, insofar as they conflict with the provisions of this order, is hereby suspended.

(d) *Notice and expiration.* Said carrier shall notify V. C. Clinger, Director, Bureau of Service, Interstate Commerce Commission, Washington, D. C., when it has completed the unloading required by paragraph (a) hereof, and such notice shall specify when, and by whom such unloading was performed. Upon receipt of that notice this order shall expire.

It is further ordered, that this order shall become effective immediately; that a copy of this order and direction be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission, at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

TITLE 12—BANKS AND BANKING

Chapter II—Federal Reserve System

Subchapter A—Board of Governors of the Federal Reserve System

PART 220—CREDIT BY BROKERS, DEALERS AND MEMBERS OF NATIONAL SECURITIES EXCHANGES

LOAN VALUES FOR AND SHORT SALES IN ACCOUNTS

This amendment is issued pursuant to the Securities Exchange Act of 1934, particularly section 7 thereof. Its purpose is to change loan values and margin requirements in order to carry out the purposes of the act in the light of present economic conditions.

1. Effective February 1, 1947, § 220.8 (11 F. R. 790) of this part (the Supplement) is hereby amended to read as follows:

§ 220.8 *Supplement*—(a) *Maximum loan value for general accounts.* The maximum loan value of a registered security (other than an exempted security) in a general account, subject to § 220.3, shall be 25 percent of its current market value.

(b) *Maximum loan value for specialists' accounts.* The maximum loan value of a registered security (other than an exempted security) in a specialists' account, subject to § 220.4 (g), shall be 50 percent of its current market value.

(c) *Margin required for short sales in general accounts.* The amount to be included in the adjusted debit balance of a general account, pursuant to § 220.3 (c) (3), as margin required for short sales of securities (other than exempted securities) shall be 75 percent of the current market value of each such security.

(d) *Margin required for short sales in specialists' accounts.* The amount to be included in the adjusted debit balance of a specialist's account, subject to § 220.4 (g), as margin required for short sales of securities (other than exempted securities) shall be 50 per cent of the current market value of each such security.

The notice and public procedure described in sections 4 (a) and 4 (b) of the Administrative Procedure Act, and the thirty day prior publication described in section 4 (c) of such act, are impracticable, unnecessary and contrary to the public interest in connection with this amendment for the reasons and good cause found as stated in § 262.2 (e) (11 F. R. 177 A-513) of this chapter of the Board's Rules of Procedure (Part 262).

(Sec. 3 (a) and (b), sec. 7 (a), (b), (c) and (d), sec. 8 (a), sec. 17 (b) and sec. 23 (a), 48 Stat. 881, 886, 888, 897, and 901, sec. 8, 49 Stat. 1379; 15 U. S. C. 78c-(a) and (b), 78g-(a), (b), (c) and (d), 78h-(a), 78q-(b), 78W-(a))

PART 221—LOANS BY BANKS FOR THE PURPOSE OF PURCHASING OR CARRYING REGISTERED STOCKS

LOAN VALUE OF STOCK

This amendment is issued pursuant to the Securities Exchange Act of 1934, particularly section 7 thereof. Its purpose is to change loan values in order to carry out the purposes of the act in the light of present economic conditions.

1. Effective February 1, 1947, § 221.4 (the Supplement) is hereby amended to read as follows:

§ 221.4 *Supplement*—(a) *Loan value of stock.* For the purpose of § 221.1, the maximum loan value of any stock, whether or not registered on a national securities exchange, shall be 25 per cent of its current market value, as determined by any reasonable method.

(b) *Loans to specialists.* Notwithstanding the foregoing, a stock, if registered on a national securities exchange, shall have a maximum loan value of 50 per cent of its current market value, as determined by any reasonable method, in the case of a loan to a member of a national securities exchange who is registered and acts as a specialist in securities on the exchange for the purpose of financing such member's transactions as a specialist in securities.

The notice and public procedure described in sections 4 (a) and 4 (b) of the Administrative Procedure Act, and the thirty day prior publication described in

TITLE 7—AGRICULTURE

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders)

PART 927—MILK IN THE NEW YORK METROPOLITAN MARKETING AREA

SUSPENSION OF CERTAIN PROVISIONS

Pursuant to notice published in the FEDERAL REGISTER (12 F. R. 129) and actual notice given to interested parties prior thereto, a public rule making proceeding was held on January 9 and 10, 1947, to consider the suspension of such of the class pricing provisions of Orders Nos. 27, 61, 45, 4, 34, and 47, as amended, regulating the handling of milk in the New York Metropolitan, Philadelphia, Pennsylvania, Washington, D. C., Greater Boston, Lowell-Lawrence, and Fall River, Massachusetts, marketing areas, respectively, as may be necessary to reflect current economic conditions affecting the market supply and demand for milk and its products in the aforesaid marketing areas.

Pursuant to the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), hereinafter referred to as the "act," and of the order, as amended, regulating the handling of milk in the New York metropolitan marketing area, hereinafter referred to as the "order," and after having considered all relevant matters presented at the aforesaid public rule making proceeding, it is hereby found and determined that:

1. The entire table contained in § 927.5 (a) (1) of the order, with the exception of the words "Dollars per cwt." and the figure or price "5.02," does not tend to effectuate the declared policy of the act with respect to milk received from producers or cooperative associations of producers during the month of February 1947; and

2. Any delay in the effective date of this suspension beyond February 1, 1947, will seriously jeopardize the orderly marketing of milk produced for the New York metropolitan milk marketing area, and therefore publication of this suspension not less than 30 days prior to its effective date (see sec. 4 (c), Administrative Procedure Act, Pub. Law 404, 79th Cong., 60 Stat. 237) is impracticable and contrary to the public interest.

It is therefore ordered, That the entire table contained in § 927.5 (a) (1) of the order, with the exception of the words "Dollars per cwt." and the figure or price "5.02," be and it hereby is suspended with respect to milk received from producers or cooperative associations of producers during the month of February 1947.

(48 Stat. 51, 670, 675; 49 Stat. 750; 50 Stat. 246; 7 U. S. C. 601 et seq.)

Done at Washington, D. C., this 23d day of January 1947.

Secretary of Agriculture.

SUBPART I—MISCELLANEOUS PROVISIONS

403.901 Disclosure of information.
403.902 Promulgation of regulations.

AUTHORITY: §§ 403.1 to 403.902, inclusive, issued under sec. 1102, 49 Stat. 647, sec. 205 (a), 53 Stat. 1400; 42 U. S. C. Sup. 1302.

INTRODUCTORY

§ 403.1 *Chronological description of pertinent statutes and regulations.* This section describes, chronologically, the statutes forming the basis for the old-age and survivors insurance system under Title II of the Social Security Act, as amended, and the regulations which have been issued thereunder.

(a) *Title II of the Social Security Act, and amendments effective prior to January 1, 1940, and regulations of the Social Security Administration thereunder*—(1) *Statutes.* Title II of the Social Security Act, approved August 14, 1935, (49 Stat. 622; 42 U. S. C., Sup. IV (1934 Ed.), 401–410a inclusive), provided in sections 202 to 210 for old-age benefits payable in lump sums beginning January 1, 1937, and for old-age benefits payable monthly, beginning January 1, 1942.

Section 15 of the Railroad Retirement Act of 1935, approved August 29, 1935 (49 Stat. 974), excludes service performed in the employ of a carrier, as defined in such act, from employment on the basis of which benefits were payable under such Title II of the Social Security Act. Similarly, section 17 of the Railroad Retirement Act of 1937, approved June 24, 1937 (50 Stat. 317; 45 U. S. C., Sup. IV (1934 Ed.), 228q) excludes service performed by an individual as an employee, as defined in such act, from employment under such Title II. The coverage provisions of section 1 of the Railroad Retirement Acts of 1935 and 1937, which affect the exclusion from employment under such Title II of the Social Security Act, were retroactively amended by Joint Resolution of June 11, 1940 (54 Stat. 264), and act of August 13, 1940 (54 Stat. 785) (which relates to coal-mining operations). Such coverage provisions of the Railroad Retirement Act of 1937 were also retroactively amended by section 13 of the act of April 8, 1942 (56 Stat. 209).

Section 902 (f) of the Social Security Act Amendments of 1939, approved August 10, 1939 (53 Stat. 1400), provides, in part, that no payment shall be made under such Title II with respect to services performed prior to January 1, 1940, in the employ of foreign governments and certain of their instrumentalities.

Section 902 (g) of the Social Security Act Amendments of 1939 (53 Stat. 1400) provides that no lump-sum payment shall be made under the provisions of section 204 of such Title II after August 10, 1939, except to the estate of an individual who dies prior to January 1, 1940.

Section 2 of the act of August 11, 1939 (53 Stat. 1420), provides, in part, that no payment shall be made under such Title II with respect to certain services rendered prior to January 1, 1940 in salvaging timber or clearing debris left by a hurricane.

(2) *Regulations.* Regulations relating to the benefits provided for under Title II of the Social Security Act, as approved August 14, 1935, and as amended or affected by the statutes set forth in subparagraph (1) of this paragraph, are set forth in Regulations No. 2 as amended from time to time and codified in Part 402, Title 20, Code of Federal Regulations, and supplements thereto.

(b) *Title II of the Social Security Act, as amended effective January 1, 1940, and regulations of the Social Security Administration thereunder*—(1) *Statutes.* The Social Security Act Amendments of 1939 (53 Stat. 1360), approved August 10, 1939, amend Title II of the Social Security Act, effective January 1, 1940, by making new provisions for monthly benefits and lump-sum death payments in substitution for the original provisions of sections 202 to 210, inclusive, of such title.

Section 907 of such amendments, as originally enacted added a provision requiring deductions to be made from benefits and lump sums under Title II in case of nonpayment of, and failure to deduct, certain taxes with respect to an individual's employment in 1939 and subsequent to attainment of age 65. This section has been amended by section 1 (b) (3) of the act approved March 24, 1943 (57 Stat. 47), more fully referred to below.

(Section 902 (f) of the Social Security Act Amendments of 1939 and section 2 of the act of August 11, 1939 (53 Stat. 1420) (see paragraph (a) (1) of this section), prohibit any payment with respect to services described therein, under the substituted provisions of Title II as well as under the provisions in effect prior to January 1, 1940. For exclusions from employment corresponding to the provisions of sections 15 and 17 of the Railroad Retirement Acts of 1935 and 1937, respectively, see § 403.816.)

The act approved March 24, 1943 (57 Stat. 45), as amended by the act approved April 4, 1944 (58 Stat. 188), provides for certain rights and benefits to officers and members of crews of vessels as employees of the United States performing wartime service; adds to such Title II of the Social Security Act, as amended, a new section, 209 (o), relating to the coverage of such wartime service; and amends section 907 of the Social Security Act Amendments of 1939 (53 Stat. 1402) by requiring deductions to be made from benefits and lump sums under Title II in case of nonpayment of, and failure to deduct, certain taxes with respect to such wartime services.

The act approved December 29, 1945 (59 Stat. 669) adds paragraph (16), excepting from employment service performed in the employ of an international organization, to section 209 (b); and also prohibits any payment under Title II of the act with respect to any such service rendered prior to January 1, 1946.

(2) *Regulations.* The regulations in this part, as from time to time amended, are applicable to such Title II, as amended effective January 1, 1940, and as subsequently amended or affected by the statutes referred to under subparagraph (1) of this paragraph. (For the extent to which the regulations in this part supersede Part 402 of this chapter (Regulations No. 2), as amended, as indicated under paragraph (a) (2) of this section, see § 403.102.)

SUBPART A—SCOPE OF REGULATIONS

§ 403.101 *Scope of the regulations in this part.* The regulations in this part relate to old-age and survivors insurance benefits and to lump-sum death payments under Title II of the act (as defined in section 801 (d)).

The act provides the following types of payments for the wage earner and for persons having a designated relation to him: primary insurance benefits (to the wage earner), wife's insurance benefits, child's insurance benefits, widow's insurance benefits, widow's current insurance benefits, parent's insurance benefits, and lump-sum death payments. The lump-sum death payments to which these regulations relate (hereinafter referred to as lump sums) are to be distinguished from lump-sum payments to estates of individuals who died prior to January 1, 1940 (see § 403.102). The subject matter of the regulations in this part is divided into eight subparts in addition to this subpart, as follows:

Subpart B: "Insured status," which is a basic condition of entitlement to each kind of benefit enumerated above and to lump sums.

Subpart C: Basic computation of benefits and lump sums: "primary insurance benefit" and "average monthly wage."

Subpart D: Conditions of entitlement to the several types of benefits and to lump sums and the method of computing the amount thereof.

Subpart E: Reduction and increase of insurance benefits in cases where such benefits would otherwise exceed a stated maximum or would total less than a stated maximum or would total less than a stated minimum and deductions required from benefits and from lump sums.

Subpart F: Adjustment of overpayments and underpayments.

Subpart G: Evidence, procedure, and payment including the administrative procedures for the determination and certification of payment of benefits, the maintenance and revision of wage records, the hearing and review of matters affecting payments and the revision of wage records, and the representation of parties.

Subpart H: Definitions:
General definitions (§ 403.801).
Employment (§§ 403.802–403.826a).
Wages (§§ 403.827–403.828).
Family relationships (§§ 403.829–403.834).

Subpart I: Miscellaneous provisions:
Penalties.
Disclosure of information, penalty.
Promulgation of regulations.

§ 403.102 *Extent to which Part 402 of this chapter (Regulations No. 2) remains operative.* The provisions of Part 402 of this chapter (Regulations No. 2) applicable to lump-sum payments to estates of individuals who died prior to January 1, 1940, continue in effect. The determination of whether services performed prior to January 1, 1940, constitute employment within the meaning of the regulations in this part is made in accordance with the applicable provisions of Part 402 of this chapter (Regulations No. 2), except as provided in § 403.802, and whether remuneration paid after December 31, 1936, and prior to January 1, 1940, constitutes wages within the meaning of the regulations in this part is determined in accordance with Part 402 of this chapter (Regulations No. 2), except as provided in § 403.827.

Sections 402.201 to 402.203, inclusive, (Chapter II of Regulations No. 2) relating to old-age benefits payable monthly, are superseded by the regulations in this part. (By virtue of the Social Security Act Amendments of 1939, effective January 1, 1940, Title II of the act no longer contains the provisions referred to in §§ 402.201 to 402.203, inclusive.

SUBPART B—INSURED STATUS

SECTION 209 (g) OF THE ACT

The term "fully insured individual" means any individual with respect to whom it appears to the satisfaction of the Board that—

(1) He had not less than one quarter of coverage for each two of the quarters elapsing after 1936, or after the quarter in which he attained the age of twenty-one, whichever quarter is later, and up to but excluding the quarter in which he attained the age of sixty-five, or died, whichever first occurred, and in no case less than six quarters of coverage; or

(2) He had at least forty quarters of coverage.

As used in this subsection, and in subsection (h) of this section, the term "quarter" and the term "calendar quarter" means a period of three calendar months ending on March 31, June 30, September 30, or December 31; and the term "quarter of coverage" means a calendar quarter in which the individual has been paid not less than $50 in wages. When the number of quarters specified in paragraph (1) of this subsection is an odd number, for purposes of such paragraph such number shall be reduced by one. In any case where an individual has been paid in a calendar year $3,000 or more in wages, each quarter of such year following his first quarter of coverage shall be deemed a quarter of coverage, excepting any quarter in such year in which such individual dies or becomes entitled to a primary insurance benefit and any quarter succeeding such quarter in which he died or because so entitled.

§ 403.201 *Fully insured status*—(a) *Benefits based upon fully insured status.* All old-age and survivors insurance benefits and lump sums are conditioned upon a wage earner's insured status. This status is determined by his wage history. Unless a wage earner is a fully insured individual, he cannot become entitled to primary insurance benefits, his wife cannot become entitled to wife's insurance benefits, nor can his child during the wage earner's lifetime become entitled to child's insurance benefits, on the basis of his wages. Unless a deceased wage earner was a fully insured individual at death, neither his widow nor his surviving parent can become entitled to widow's or parent's insurance benefits, and unless the deceased wage earner was either a fully insured individual or currently insured individual (see § 403.202) at death, neither his widow nor surviving child can become entitled to widow's current insurance benefits or child's insurance benefits, nor can any person become entitled to a lump sum, on the basis of his wages. (See Subpart D as to conditions of entitlement.)

(b) *Quarter of coverage.* An individual has a fully insured status if he has acquired the requisite number of quarters of coverage. An individual acquires a quarter of coverage in any calendar quarter (as defined in section 209 (g) of the act) if:

(1) He is paid not less than $50 in wages in such calendar quarter, or

(2) He is paid $3,000 in wages in the calendar year in which such calendar quarter occurs, and

(i) Such calendar quarter occurs after a quarter of coverage which has been acquired in such year under subparagraph (1) of this paragraph, and

(ii) Such calendar quarter occurs prior to the quarter in which the individual dies or becomes entitled to a primary insurance benefit.

The instant an individual has been paid wages of $50 in a calendar quarter,

he acquires a quarter of coverage. The fact that an individual was under the age of 21 or over the age of 65 when he was paid wages or when he rendered services for such wages does not affect his acquiring a quarter of coverage by reason of the payment of such wages. (See, however, §§ 403.802 and 403.827 as to remuneration for services performed after attainment of age 65 and before January 1, 1939.)

Example 1: A is paid $25 in wages on June 15, for services performed from June 1 to June 15. A is paid no other wages in June. He is then paid $25 in wages on July 1 (in the subsequent calendar quarter) which was payable on that date for the pay period ending on June 30.

A does not have a quarter of coverage by virtue of the payment to him of $50 in wages for services performed in June, since $25 of that amount was paid to him in July, which is the first month in the subsequent calendar quarter. If the second $25 had been paid to him on June 30, A would have had a quarter of coverage under paragraph (b) (1) of this section.

Example 2: A attains age 65 on January 1, 1942. He is paid wages of $30 in each month beginning with January 1, 1940, and ending with February 1943. He dies in March 1943.

Under paragraph (b) (1) of this section A has 4 quarters of coverage in 1940, 4 in 1941, 4 in 1942, and 1 in 1943, giving a total of 13 quarters of coverage. (He has a quarter of coverage in 1943, even though he died before the quarter had elapsed.)

Example 3: (a) A is paid wages at the rate of $1,000 in each month beginning with January 1940. On March 31, 1940, his employment is terminated and his wages cease. He dies August 1.

A has 2 quarters of coverage in 1940. The first calendar quarter in that year is a quarter of coverage under paragraph (b) (1) of this section because A was paid more than $50 in wages therein. The second calendar quarter is a quarter of coverage under paragraph (b) (2) of this section because A was paid $3,000 in wages in that year. The third calendar quarter is not a quarter of coverage under paragraph (b) (1) of this section because A was paid no wages in that quarter, and is not a quarter of coverage under paragraph (b) (2) of this section because of A's death therein.

(b) A is paid wages of $400 per month in April, May, and June of 1940, and is paid wages of $600 per month in October, November, and December of that year, making a total of $3,000 paid him during the year. He was paid no wages in January, February, or March, or in July, August, or September.

A has 3 quarters of coverage in 1940. The first calendar quarter is not a quarter of coverage under paragraph (b) (1) of this section because A was not paid $50 in wages therein, and is not a quarter of coverage under paragraph (b) (2) of this section since it is not preceded by a quarter of coverage, even though A was paid $3,000 in the calendar year. The second calendar quarter is a quarter of coverage under paragraph (b) (1) of this section because A was paid more than $50 in wages therein. The third calendar quarter is a quarter of coverage under paragraph (b) (2) of this section because A was paid wages of $3,000 during the year, and the fourth calendar quarter is a quarter of coverage under both paragraphs (b) (1) and (b) (2) of this section because A was paid more than $50 in wages therein and was paid wages of $3,000 during the year.

Example 4: A is paid wages of $750 in each month beginning with January 1940 and ending with April of that year. On April 30, 1940, he dies.

A was paid $2,250 in the first quarter of 1940, and $750 in the second, or a total of $3,000. He therefore has 2 quarters of coverage in 1940. The first quarter is a quarter of coverage under paragraph (b) (1) of this section since A was paid $50 in wages in that quarter. The second quarter is a quarter of coverage under paragraph (b) (1) of this section for the same reason, even though, since A died therein, it is not a quarter of coverage under paragraph (b) (2) of this section.

(c) *Determination of fully insured status.* An individual who has 40 quarters of coverage is a fully insured individual. An individual who has less termination of whether he has a fully insured individual. If an individual has less than 40 quarters of coverage the determination of whether he has a fully insured status is made as follows:

(1) *Elapsed quarters.* Take the number of calendar quarters which have elapsed after 1936, or after the quarter in which the individual attained the age of 21 if he attained such age after 1936, and up to but excluding the quarter in which the individual attained the age of 65 or died, whichever first occurred. If the number of such elapsed quarters is an odd number, subtract one. Take one-half of the elapsed quarters thus obtained, and the resulting number, if 6 or more, is the number of quarters of coverage required. If the resulting number is less than 6, the minimum of 6 quarters of coverage is required.

(2) *Quarters of coverage determined.* Determine the number of quarters of coverage the individual has acquired. If this number equals or exceeds the number required, the individual is fully insured.

A quarter of coverage may be acquired at any time subsequent to December 31, 1936, regardless of whether there are any elapsed quarters under subparagraph (1) of this paragraph, and regardless of the age of the individual (except as indicated in §§ 403.802 and 403.827 with respect to services performed prior to 1939 by an individual after attainment of age 65).

Quarters of coverage need not be consecutive and no particular order of their acquisition is required.

Example 1: A attained age 65 on January 1, 1935. Beginning with January 1937 he was paid $30 in each month through December 1938. He was paid wages of $30 in each month from January 1, 1939, through December 1940, except that he was paid no wages in January and February 1940.

A has no quarters of coverage before 1939 (remuneration earned prior to 1939 is not wages because A was over the age of 65 (see §§ 403.802 and 403.827)). He has 4 quarters of coverage in 1939, and 3 in 1940, giving a total of 7 quarters of coverage.

No calendar quarters elapsed after 1936 and before attainment of age 65, since A attained age 65 before January 1, 1937. The minimum requirement of 6 quarters of coverage therefore applies and A meets this minimum. A is a fully insured individual.

Example 2: A applies for primary insurance benefits on January 1, 1940. He was paid wages of $30 in each month, beginning with July 1938 and ending with December 1939. He attained age 65 in July 1939.

A has 2 quarters of coverage in 1938 and 3 in 1939, making a total of 6 quarters of coverage. The quarters elapsing after 1936 and prior to the quarter in which he attained age 65 are 10. Since one-half of the elapsed quarters is less than 6, the minimum requirement of 6 quarters of coverage is operative. A, who has 6 quarters of coverage, is therefore fully insured.

If A had attained age 65 in June 1940, 13 quarters would have elapsed. Since 13 is an odd number, one is subtracted, leaving the figure 12 as a basis for computing the number of quarters of coverage required. One-half of 12 is 6, which is the number of quarters of coverage required and is the number A has acquired. A would therefore be fully insured.

SECTION 209 (h) OF THE ACT

The term "currently insured individual" means any individual with respect to whom it appears to the satisfaction of the Board that he has been paid wages of not less than $50 for each of not less than six of the twelve calendar quarters, immediately preceding the quarter in which he died.

§ 403.202 *Currently insured status*—(a) *Benefits based upon currently insured status.* A wage earner who does not become fully insured (see § 403.201) may nevertheless have a wage history which, upon his death, will give him the status of a currently insured individual. Unless he dies either fully or currently insured, his widow or surviving child cannot become entitled to widow's current insurance benefits or child's insurance benefits, nor can any person become entitled to a lump sum, on the basis of his wages. (See subpart D as to conditions of entitlement.)

(b) *Determination of currently insured status.* An individual who has been paid wages of not less than $50 for each of not less than 6 of the 12 calendar quarters immediately preceding the quarter in which he died, is a currently insured individual. Such wages need not have been paid for consecutive quarters within such 12-quarter period. The age of the individual at death is immaterial.

(c) *"Wages" paid "for" a quarter.* (1) For the purpose of this section, in determining whether the individual has been paid "wages" of $50 for a quarter, the provisions of sections 209 (a) (1), 209 (a) (2), and 209 (g) of the act with respect to an individual who has been paid remuneration of $3,000 or more in a calendar year (see §§ 403.828 (a) and 403.201) do not apply.

(2) Moreover, the basis for determining currently insured status differs from the provisions with respect to fully insured status in that the basis for determining currently insured status is wages paid "for" a calendar quarter, while a quarter of coverage under section 209 (g) of the act is basically defined in terms of wages paid "in" a calendar quarter. In the absence of evidence showing the contrary, it will be presumed, for the purposes of determining currently insured status, that wages paid in a calendar quarter have been paid for that quarter.

Example 1: A is paid wages of $30 in each month for services performed in that month, beginning with July 1939. He dies in January 1941, at the age of 30.

A died a currently insured individual, since he was paid wages of more than $50 for each of 6 of the 12 calendar quarters immediately preceding the quarter in which he died.

If A had been paid wages semiannually, on June 30 and December 31, instead of monthly, he would likewise be currently insured, since it could be shown that he was paid more than $50 in wages for each of 6 out of the 12 calendar quarters immediately preceding the quarter in which he died.

Example 2: A is paid wages of $30 for each month during the entire year 1938, and from July 1, 1940, to December 31, 1940, a total of 6 calendar quarters. He dies in January 1941.

A died a currently insured individual, since he was paid wages of more than $50 for each of 6 out of the 12 calendar quarters immediately preceding the quarter in which he died. His status is not affected by the fact that such wages were not paid for consecutive quarters.

Example 3: In the second quarter of 1941, A is paid wages of $3,000, for the first two quarters of that year, by one or more employers, and thereafter he is paid remuneration for services rendered in "employment" at the rate of $50 or more for each subsequent quarter of the year. The wage earner has acquired four quarters toward a currently insured status during that year. The same result would apply if this remuneration had been paid in the same manner for services in employment rendered for a single employer in the year 1937, 1938, or 1939.

SUBPART C—BASIC COMPUTATION OF BENEFITS AND LUMP SUMS

SECTION 209 (e) OF THE ACT

The term "primary insurance benefit" means an amount equal to the sum of the following—

(1) (A) 40 per centum of the amount of an individual's average monthly wage if such average monthly wages does not exceed $50, or (B) if such average monthly wage exceeds $50, 40 per centum of $50, plus 10 per centum of the amount by which such average monthly wage exceeds $50 and does not exceed $250, and

(2) an amount equal to 1 per centum of the amount computed under paragraph (1) multiplied by the number of years in which $200 or more of wages were paid to such individual. Where the primary insurance benefit thus computed is less than $10, such benefits shall be $10.

SECTION 5 (b) OF THE ACT APPROVED DECEMBER 29, 1945 (59 STAT. 669)

• • • No payment shall be made under title II of the Social Security Act with respect to services rendered prior to January 1, 1946, which are described in paragraph (16) of section 209 (b) of such act, as amended.

§ 403.301 *Primary insurance benefit defined.* The amount of an individual's primary insurance benefit is computed on the basis of his average monthly wage (see § 403.302). The primary insurance benefit is computed as follows:

(a) If the individual's average monthly wage does not exceed $50, take $40 per centum of such average monthly wage. If the average monthly wage exceeds $50, take 40 per centum of $50 and add thereto 10 per centum of the amount by which the average monthly wage exceeds $50 and does not exceed $250.

(b) Determine the number of calendar years in which $200 or more of wages were paid to the individual and multiply 1 per centum of the amount computed under paragraph (a) of this section by the number of such years.

(c) Add the figure computed under paragraph (a) of this section and the figure computed under paragraph (b) of this section. The sum so obtained is the primary insurance benefit. If such sum is less than $10, it is increased to $10.

The primary insurance benefit is the monthly amount payable to an individual (subject to deductions and adjustments under subparts E and F) who has fulfilled all the conditions of entitlement to primary insurance benefits under section 202 (a) of the act (see § 403.402). It also constitutes a measure of the amount of all other benefits under section 202 of the act, and the maximum lump sum payable under section 202 (g) of the act is 6 times the primary insurance benefit. The primary insurance benefit of a wage earner who is a fully insured or currently insured individual must, therefore, always be computed for the purpose of measuring the amount of such other benefits and of the lump sum, even though the wage earner dies without having become entitled to receive any payment under section 202 (a) of the act.

The primary insurance benefit as computed under section 209 (e) of the act cannot be increased or decreased because of wages paid after the death of the wage earner. Wages paid after the wage earner has become entitled to receive primary insurance benefits under section 202 (a) of the act may be included to increase the primary insurance benefit if an application for recomputation is filed. (See § 403.704 (c).)

In the computation of benefits there will not be included any sums paid as wages for services performed prior to January 1, 1946, in the employ of an international organization as defined by section 209 (b) (16) of the act as amended (see § 403.826a).

Example 1: During the years 1937, 1938, and 1939 A was paid wages of $15 in each month. Thereafter he is paid wages of $100 in each month. He dies fully insured on January 1, 1950, at the age of 43.

A's average monthly wage determined pursuant to § 403.302 is $60.38. Forty per centum of $50 is $20, and 10 per centum of the amount by which the average monthly wage exceeds $50 is $3.04, making a total of $23.04. The number of years in which $200 or more of wages was paid is ten. Ten times 1 per centum of $23.04 is $2.30, giving a primary insurance benefit of $25.34. (If the amount so computed were less than $10, the primary insurance benefit would be $10.)

If A had been survived by a widow entitled to a widow's current insurance benefit, and by a child entitled to a child's insurance benefit, the benefits of the widow and the child would be basically computed at three-fourths and one-half, respectively, of A's primary insurance benefit, although A died without becoming entitled to receive primary insurance benefits.

SECTION 209 (f) OF THE ACT

The term "average monthly wage" means the quotient obtained by dividing the total wages paid an individual before the quarter in which he died or became entitled to receive primary insurance benefits, whichever first occurred, by three times the number of quarters, elapsing after 1936, and before such quarter in which he died or became so entitled, excluding any quarter prior to the quarter in which he attained the age of twenty-two during which he was paid less than $50 of wages and any quarter, after the quarter in which he attained age sixty-five, occurring prior to 1939.

§ 403.302 *Average monthly wage.* An individual's "average monthly wage" is computed by dividing his total wages by three times the number of his expired quarters.

"Expired quarters" means the number of calendar quarters elapsing after 1936 and before the quarter in which the individual died or became entitled (on his last application for benefits or recomputation of benefits—see § 403.704 (c)) to receive primary insurance benefits, whichever first occurred, excluding (a) any quarter prior to the quarter in which such individual attained the age of 22, during which he was paid less than $50 in wages, and (b) any quarter after the quarter in which he attained the age of 65 occurring prior to 1939.

"Total wages" means all the wages paid to the individual before the quarter in which he died or became entitled (on his last application for benefits or recomputation for benefits—see § 403.704 (c)) to primary insurance benefits, whichever occurred first, except wages for services performed in the employ of an international organization as defined by section 209 (b) (16) of the act prior to January 1, 1946 (see § 403.826a). (All wages paid for services performed before such individual attained the age of 22 are included in his total, but remuneration for services performed by such individual after he attained the age of 65, and prior to January 1, 1939, is excluded, since such remuneration is not wages under section 209 (a) of the act (see §§ 403.824 and 403.827)).

Example 1: A is paid wages of $15 per month from January 1, 1940, through December 31, 1940, and is paid wages of $90 per month from January 1, 1941, through December 31, 1945. He attains age 22 in January 1942 and dies in January 1946.

A's total wages are $180 for 1940 and $1,080 for each of the years 1941 to 1945, inclusive, making $5,580.

Quarters in the year 1940 are not counted as "expired quarters" since they occurred prior to the quarter in which A attained the age of 22 and since A was paid less than $50 in each of them. The expired quarters are, therefore, 4 for each of the years 1941 to 1945, inclusive, making a total of 20, which, multiplied by 3, gives 60.

A's average monthly wage is $5,580 divided by 60, or $93.

Example 2: A is paid wages of $100 per month during the years 1937 and 1939 and $75 per month during 1940. He is paid wages of $60 in January 1938. A attains age 65 February 1, 1938, and dies in January 1941.

A's "total wages" are $1,200 for the year 1937, $60 for the year 1938, $1,200 for the year 1939, and $900 for the year 1940, making $3,360.

Quarters in the year 1938 after the first quarter are not counted as "expired quarters" since they occurred after A attained age 65 and prior to January 1, 1939. The expired quarters are, therefore, 4 for 1937, 1 for 1938, and 4 for each of the years 1939 and 1940, making a total of 13, which, multiplied by 3, gives 39.

A's average monthly wage is $3,360 divided by 39, or $86.15.

SUBPART D—OLD-AGE AND SURVIVORS INSURANCE BENEFIT PAYMENTS

§ 403.401 *General effect of section 202 of the act*—(a) *Conditions of entitlement.* This section states the conditions of entitlement to insurance benefits under subsections (a), (b), (c), (d), (e), and (f) of section 202 of the act and to a lump-sum death payment under section 202 (g) of the act (see §§ 403.402 to 403.408 inclusive). All of the several conditions of entitlement to benefits may be met in a single month, or part may be met in one month and part in another month or months, but all of such conditions must ultimately exist in one month.

(b) *Period for which payment is made.* A benefit is payable for each month dur-

ing the period of entitlement, but a benefit for a particular month is not necessarily paid within that month. Payments of lump sums are nonrecurring and are made as soon as it is determined that a person is entitled thereto.

(c) *Determination of amount to be paid.* (1) The amount of a benefit or lump sum, as calculated under section 202 of the act, is normally the same as the amount paid to the beneficiary. In the case of benefits (other than primary insurance benefits) the amount calculated under section 202 of the act may, however, under certain circumstances, be reduced or increased for any particular month (see § 403.502); and in the case both of benefits (including primary insurance benefits) and lump sums, deductions and adjustments may be required. (See §§ 403.503 to 403.505, and § 403.601.) Under the conditions set forth in the sections of the regulations mentioned, therefore, the amount actually paid to the beneficiary for a month may be more or less than the amount calculated under section 202 of the act.

(2) The amount of a benefit for a month as calculated under section 202 of the act, as well as any such amount as reduced or increased under section 203 (a) or (b) of the act (where required, see § 403.502), is referred to in the regulations in this part as the benefit to which an individual is "entitled" or as the benefit "payable." Likewise, the amount of a lump sum as calculated under section 202 of the act is referred to as the lump sum to which an individual is "entitled" or as the lump sum "payable." It is this amount (as reduced or increased if required, in the case of benefits) which is the basis for making deductions and adjustments.

SECTION 202 (a) OF THE ACT

Every individual, who (1) is a fully insured individual (as defined in section 209 (g)) after December 31, 1939, (2) has attained the age of sixty-five, and (3) has filed application for primary insurance benefits, shall be entitled to receive a primary insurance benefit (as defined in section 209 (e)) for each month, beginning with the month in which such individual becomes so entitled to such insurance benefits and ending with the month preceding the month in which he dies.

§ 403.402 *Primary insurance benefits*—(a) *Conditions of entitlement.* An individual is entitled to primary insurance benefits if he:

(1) Is a fully insured individual (see § 403.201) after December 31, 1939; and

(2) Has attained the age of 65 (see § 403.801); and

(3) Has filed an application (see § 403.701) for primary insurance benefits.

(b) *Duration and rate of benefits.* An individual is entitled to a primary insurance benefit for each month beginning with the first month after December 1939 in which all of the conditions of entitlement are satisfied. The last month for which such individual is entitled to such benefit is the month immediately preceding the month in which he dies.

The amount of the primary insurance benefit to which an individual is entitled is computed according to § 403.301.

Example: A attains the age of 65 in March 1940, becomes fully insured in April 1940, and files application for primary insurance benefits in that month. April will be the first month for which he may be entitled. If he dies in July 1940, June is the last month for which he will have been entitled to benefits.

SECTION 202 (b) OF THE ACT

(1) Every wife (as defined in section 209 (i)) of an individual entitled to primary insurance benefits, if such wife (A) has attained the age of sixty-five, (B) has filed application for wife's insurance benefits, (C) was living with such individual at the time such application was filed, and (D) is not entitled to receive primary insurance benefits, or is entitled to receive primary insurance benefits each of which is less than one-half of a primary insurance benefit of her husband, shall be entitled to receive a wife's insurance benefit for each month, beginning with the month in which she becomes so entitled to such insurance benefits, and ending with the month immediately preceding the first month in which any of the following occurs: she dies, her husband dies, they are divorced a vinculo matrimonii, or she becomes entitled to receive a primary insurance benefit equal to or exceeding one-half of a primary insurance benefit of her husband.

(2) Such wife's insurance benefit for each month shall be equal to one-half of a primary insurance benefit of her husband, except that, if she is entitled to receive a primary insurance benefit for any month, such wife's insurance benefit for such month shall be reduced by an amount equal to a primary insurance benefit of such wife.

§ 403.403 *Wife's insurance benefits*—(a) *Conditions of entitlement.* A wife is entitled to wife's insurance benefits if she:

(1) Is the wife (see § 403.830) of an individual who is entitled to receive primary insurance benefits (see § 403.402); and

(2) Has attained the age of 65 (see § 403.801); and

(3) Has filed an application (see § 403.701) for wife's insurance benefit, and

(4) Was living with (see § 403.834) such individual at the time her application was filed (see § 403.701 (f)); and

(5) Is not entitled to a primary insurance benefit which is equal to or in excess of one-half of the primary insurance benefit of her husband.

(b) *Duration of benefits.* A wife is entitled to a wife's insurance benefit for each month beginning with the first month after December 1939 in which all of the conditions of entitlement are satisfied. The last month for which she is entitled to such benefit is the month immediately preceding the first month in which any of the following events occurs:

(1) She dies; or

(2) Her husband dies; or

(3) The bonds of matrimony between the wife and her husband are absolutely and finally terminated; or

(4) She becomes entitled to a primary insurance benefit which is equal to or in excess of one-half of a primary insurance benefit of her husband.

(c) *Rate of benefit.* The wife's insurance benefit for a month is an amount equal to one-half of the primary insurance benefit of her husband; but if the wife is, or becomes, entitled to a primary insurance benefit which is less than one-half of such benefit of her husband, then for each month, beginning with the month in which she becomes entitled to such primary insurance benefit, the wife's insurance benefit is reduced by an amount equal to her primary insurance benefit.

Example: H, husband, is entitled to a primary insurance benefit of $30. W, his wife, if otherwise qualified, will be entitled to a wife's insurance benefit of $15. If, however, for any month or months, she is entitled to a primary insurance benefit of $10, her wife's insurance benefit must be reduced to $5 for each such month, under paragraph (c) of this section.

SECTION 202 (c) OF THE ACT

(1) Every child (as defined in section 209 (k)) of an individual entitled to primary insurance benefits, or of an individual who died a fully or currently insured individual (as defined in section 209 (g) and (h)) after December 31, 1939, if such child (A) has filed application for child's insurance benefits, (B) at the time such application was filed was unmarried and had not attained the age of 18, and (C) was dependent upon such individual at the time such application was filed, or, if such individual has died, was dependent upon such individual at the time of such individual's death, shall be entitled to receive a child's insurance benefit for each month, beginning with the month in which such child becomes so entitled to such insurance benefits, and ending with the month immediately preceding the first month in which any of the following occurs: such child dies, marries, is adopted, or attains the age of eighteen.

(2) Such child's insurance benefit for each month shall be equal to one-half of a primary insurance benefit of the individual with respect to whos wages the child is entitled to receive such benefit, except that, when there is more than one such individual such benefit shall be equal to one-half of whichever primary insurance benefit is greatest.

(3) A child shall be deemed dependent upon a father or adopting father, or to have been dependent upon such individual at the time of the death of such individual, unless, at the time of such death, or, if such individual was living, at the time such child's application for child's insurance benefits was filed, such individual was not living with or contributing to the support of such child and—

(A) such child is neither the legitimate nor adopted child of such individual, or

(B) such child had been adopted by some other individual, or

(C) such child, at the time of such individual's death, was living with and supported by such child's stepfather.

(4) A child shall be deemed dependent upon a mother, adopting mother, or stepparent, or to have been dependent upon such individual at the time of the death of such individual, only if, at the time of such death, or, if such individual was living, at the time such child's application for child's insurance benefits was filed, no parent other than such individual was contributing to the support of such child and such child was not living with its father or adopting father.

§ 403.404 *Child's insurance benefits*—(a) *Conditions of entitlement.* A child is entitled to child's insurance benefits if he:

(1) Is the child (see § 403.832) of an individual who either:

(i) Is entitled to primary insurance benefits (see § 403.402); or

(ii) Died after December 31, 1939, and was fully insured or currently insured (see §§ 403.201 and 403.202) at the time of death; and

(2) Has filed an application for child's insurance benefits, and at the time of filing such application (see § 403.701)

(i) Was unmarried; and

(ii) Had not attained the age of 18 (see § 403.801); and

(iii) Was dependent upon (see paragraphs (d) and (e) of this section) the individual with respect to whose wages benefits are claimed or, if such individual had died, was dependent upon such individual at the time of the individual's death.

(b) *Duration of benefits.* A child is entitled to a child's insurance benefit for each month beginning with the first month after December 1939 in which all of the conditions of entitlement are satisfied. If the child is born after the death of the individual with respect to whose wages benefits are claimed, the first month for which the child may be entitled to such a benefit is the month in which such child is born. The last month for which a child is entitled to such benefit is the month immediately preceding the first month in which any of the following events occurs:

(1) The child dies; or

(2) The child marries; or

(3) The child is adopted by an individual other than the individual with respect to whose wages such child is entitled to benefits; or

(4) The child attains the age of 18.

(c) *Rate of benefit.* The child's insurance benefit for a month is an amount equal to one-half of the primary insurance benefit of the individual with respect to whose wages the child is entitled to benefits. If there is more than one individual (living or deceased), with respect to whose wages the child is entitled to benefits, the child's benefit is equal to one-half of the primary insurance benefit of whichever individual's primary insurance benefit is greatest.

(d) *Dependency upon a father or adopting father*—(1) *Applications based on wages of living individual.* A child who has filed application for child's insurance benefits, based on the wages of a father or adopting father then living, is deemed to have been dependent upon such individual at the time the child's application was filed if, at such time, such individual was either living with or contributing to the support of the child.

Even though the father or adopting father was not living with or contributing to the support of the child at the time the child's application was filed, the child is deemed to have been dependent upon such individual at such time if such child:

(i) Was either the legitimate or adopted child of such individual; and

(ii) Was not then the adopted child of some other individual.

(2) *Applications based on wages of deceased individual.* A child who has filed application for child's insurance benefits based on the wages of a deceased father or adopting father is deemed to have been dependent upon such individual at the time of such individual's death if, at such time, such individual was either living with or contributing to the support of the child.

Even though the father or adopting father was not living with or contributing to the support of the child at the time of such individual's death, the child is deemed to have been dependent upon such individual at such time if the child:

(i) Was either the legitimate or adopted child of such individual; and

(ii) Was not then the adopted child of some other individual; and

(iii) Was not living with and being supported by its stepfather.

(e) *Dependency upon mother, adopting mother, or stepparent.* A child who has filed application for child's insurance benefits based upon the wages of its mother, adopting mother, or stepparent is deemed to have been dependent upon such individual at the time such application was filed (if such individual was then living), or to have been dependent upon such individual at the time of the individual's death, as the case may be, if at such time both the following conditions exist:

(1) Neither its father nor adopting father was contributing to the support of the child, and

(2) The child was not living with its father or adopting father.

Example: C, the child of F and M, the father and mother, is living with an uncle. F and M each pay the uncle $5.00 per week for the support of C. C is dependent upon F. C is not dependent upon M since, under item (1) of paragraph (e) of this section, the child is not dependent upon the mother if the father contributes to its support.

SECTION 202 (d) OF THE ACT

(1) Every widow (as defined in section 209 (j) of an individual who died a fully insured individual after December 31, 1939, if such widow (A) has not remarried. (B) has attained the age of sixty-five, (C) has filed application for widow's insurance benefits, (D) was living with such individual at the time of his death, and (E) is not entitled to receive primary insurance benefits, or is entitled to receive primary insurance benefits each of which is less than three-fourths of a primary insurance benefit of her husband, shall be entitled to receive a widow's insurance benefit for each month, beginning with the month in which she becomes so entitled to such insurance benefits and ending with the month immediately preceding the first month in which any of the following occurs: she remarries, dies, or becomes entitled to receive a primary insurance benefit equal to or exceeding three-fourths of a primary insurance benefit of her husband.

(2) Such widow's insurance benefit for each month shall be equal to three-fourths of a primary insurance benefit of her deceased husband, except that, if she is entitled to receive a primary insurance benefit for any month, such widow's insurance benefit for such month shall be reduced by an amount equal to a primary insurance benefit of such widow.

§ 403.405 *Widow's insurance benefits*—(a) *Conditions of entitlement.* A widow is entitled to widow's insurance benefits if she:

(1) Is the widow (see § 403.831) of an individual who died after December 31, 1939, and who, at the time of death, was fully insured (see § 403.201); and

(2) Has not remarried; and

(3) Has attained the age of 65 (see § 403.801); and

(4) Has filed an application (see § 403.701) for widow's insurance benefits; and

(5) Was living with (see § 403.834) her husband at the time of his death; and

(6) Is not entitled to a primary insurance benefit (see § 403.402) which is equal to or in excess of three-fourths of the primary insurance benefit of her deceased husband.

(b) *Duration of benefits.* A widow is entitled to a widow's insurance benefit for each month beginning with the first month after December 1939 in which all of the conditions of entitlement are satisfied. The last month for which she is entitled to such benefit is the month immediately preceding the first month in which any of the following events occurs:

(1) She remarries; or

(2) She dies; or

(3) She becomes entitled to a primary insurance benefit which is equal to or in excess of three-fourths of the primary insurance benefit of her deceased husband.

(c) *Rate of benefit.* The widow's insurance benefit for a month is an amount equal to three-fourths of the primary insurance benefit of her deceased husband; but if the widow is, or becomes, entitled to a primary insurance benefit which is less than three-fourths of such benefit of her deceased husband, then for each month, beginning with the month in which she becomes entitled to such primary insurance benefit, the widow's insurance benefit is reduced by an amount equal to her primary insurance benefit.

SECTION 202 (e) OF THE ACT

(1) Every widow (as defined in section 209 (j) of an individual who died a fully or currently insured individual after December 31, 1939, if such widow (A) has not remarried, (B) is not entitled to receive a widow's insurance benefit, and is not entitled to receive primary insurance benefits, or is entitled to receive primary insurance benefits each of which is less than three-fourths of a primary insurance benefit of her husband, (C) was living with such individual at the time of his death, (D) has filed application for widow's current insurance benefits, and (E) at the time of filing such application has in her care a child of such deceased individual entitled to receive a child's insurance benefit, shall be entitled to receive a widow's current insurance benefit for each month, beginning with the month in which she becomes so entitled to such current insurance benefits and ending with the month immediately preceding the first month in which any of the following occurs: no child of such deceased individual is entitled to receive a child's insurance benefit, she becomes entitled to receive a primary insurance benefit equal to or exceeding three-fourths of a primary insurance benefit of her deceased husband, she becomes entitled to receive a widow's insurance benefit, she remarries, she dies.

(2) Such widow's curent insurance benefit for each month shall be equal to three-fourths of a primary insurance benefit of her deceased husband, except that, if she is entitled to receive a primary insurance benefit for any month, such widow's current insurance benefit for such month shall be reduced by an amount equal to a primary insurance benefit of such widow.

§ 403.406 *Widow's current insurance benefits*—(a) *Conditions of entitlement.* A widow is entitled to widow's current insurance benefits if she:

(1) Is the widow (see § 403.831) of an individual who died after December 31,

1939, and who, at the time of death, was fully insured or currently insured (see §§ 403.201 and 403.202); and

(2) Has not remarried; and

(3) Is not entitled to a widow's insurance benefit (see § 403.405); and

(4) Is not entitled to a primary insurance benefit (see § 403.402) which is equal to or in excess of three-fourths of the primary insurance benefit of her deceased husband; and

(5) Was living with (see § 403.834) her husband at the time of his death; and

(6) Has filed an application (see § 403.701) for widow's current insurance benefits; and

(7) Had in her care (see paragraph (d) of this section, at the time of filing her application (see § 403.701 (f)), a child of her deceased husband entitled to receive a child's insurance benefit (see § 403.404).

(b) *Duration of benefits.* A widow is entitled to a widow's current insurance benefit for each month beginning with the first month after December 1939 in which all of the conditions of entitlement are satisfied. The last month for which she is entitled to such benefit is the month immediately preceding the first month in which any of the following events occurs:

(1) No child of the widow's deceased husband is entitled to a child's insurance benefit; or

(2) She becomes entitled to a primary insurance benefit which is equal to or in excess of three-fourths of the primary insurance benefit of her deceased husband; or

(3) She becomes entitled to a widow's insurance benefit (see § 403.405); or

(4) She remarries; or

(5) She dies.

(c) *Rate of benefit.* The widow's current insurance benefit for a month is an amount equal to three-fourths of the primary insurance benefit of her deceased husband; but if the widow is, or becomes, entitled to a primary insurance benefit which is less than three-fourths of such benefit of her deceased husband, then for each month, beginning with the month in which she becomes entitled to such primary insurance benefit, the widow's current insurance benefit is reduced by an amount equal to her primary insurance benefit.

(d) *Meaning of "in her care."* A widow has a child "in her care" within the meaning of paragraph (a) (7) of this section if she takes parental responsibility for the welfare and care of such child even though she does not live in the same home with the child.

Example: W, the widow of H, places C, H's child, in the home of an aunt. W pays the aunt for the support of C although the amount is insufficient to fully support the child. W regularly advises with the aunt as to the care and training of C and has never agreed not to take C away from the aunt. W has C in her care.

SECTION 202 (f) OF THE ACT

(1) Every parent (as defined in this subsection) of an individual who died a fully insured individual after December 31, 1939, leaving no widow and no unmarried surviving child under the age of eighteen, if such parent (A) has attained the age of sixty-five, (B) was wholly dependent upon and supported by such individual at the time of such individual's death and file proof of such dependency and support within two years of such date of death, (C) has not married since such individual's death, (D) is not entitled to receive any other insurance benefits under this section, or is entitled to receive one or more of such benefits for a month, but the total for such month is less than one-half of a primary insurance benefit of such deceased individual, and (E) has filed application for parent's insurance benefits, shall be entitled to receive a parent's insurance benefit for each month, beginning with the month in which such parent becomes so entitled to such parent's insurance benefits and ending with the month immediately preceding the first month in which any of the following occurs: such parent dies, marries, or becomes entitled to receive for any month an insurance benefit or benefits (other than a benefit under this subsection) in a total amount equal to or exceeding one-half of a primary insurance benefit of such deceased individual.

(2) Such parent's insurance benefit for each month shall be equal to one-half of a primary insurance benefit of such deceased individual, except that, if such parent is entitled to receive an insurance benefit or benefits for any month (other than a benefit under this subsection), such parent's insurance benefit for such month shall be reduced by an amount equal to the total of such other benefit or benefits for such month. When there is more than one such individual with respect to whose wages the parent is entitled to receive a parent's insurance benefit for a month, such benefit shall be equal to one-half of whichever primary insurance benefit is greatest.

(3) As used in this subsection, the term "parent" means the mother or father of an individual, a stepparent of an individual by a marriage contracted before such individual attained the age of sixteen, or an adopting parent by whom an individual was adopted before he attained the age of sixteen.

§ 403.407 *Parent's insurance benefits*—(a) *Conditions of entitlement.* A parent is entitled to parent's insurance benefits if he:

(1) Is the parent (see § 403.833) of an individual who:

(i) Died after December 31, 1939; and

(ii) Was fully insured (see § 403.201) at the time of death; and

(iii) Was survived neither by a widow (see § 403.831) nor an unmarried child under the age of 18 (see paragraph (d) of this section); and

(2) Has attained the age of 65 (see § 403.801); and

(3) Was wholly dependent upon and supported by (see paragraph (e) of this section) such individual at the time of such individual's death and, except as otherwise provided in § 403.701 (j), has filed proof of such dependency and support within 2 years after the date of such death; and

(4) Has not married since the death of such individual; and

(5) Is not entitled to any other benefit or benefits under section 202 of the act (see §§ 403.402, 403.403, 403.405, and 403.406) in a total amount for any month which is equal to or in excess of one-half of the primary insurance benefit of such deceased individual; and

(6) Has filed an application (see § 403.701) for parent's insurance benefits.

One or more parents of a fully insured individual may become entitled to benefits hereunder.

(b) *Duration of benefits.* A parent is entitled to a parent's insurance benefit for each month beginning with the first month after December 1939 in which all of the conditions of entitlement are satisfied. The last month for which such parent is entitled to such benefits is the month immediately preceding the first month in which any of the following events occur:

(1) The parent dies; or

(2) The parent marries; or

(3) The parent becomes entitled to an insurance benefit or benefits (other than a parent's insurance benefit) under section 202 of the act, in a total amount for any month which is equal to or in excess of one-half of the primary insurance benefit of the deceased individual with respect to whose wages the parent is entitled to parent's insurance benefits.

(c) *Rate of benefit.* The parent's insurance benefit for a month is an amount equal to one-half of the primary insurance benefit of the deceased individual with respect to whose wages the parent is entitled to benefits; but if such parent is, or becomes, entitled to an insurance benefit or benefits (other than a parent's insurance benefit) under section 202 of the act, in a total amount for any month which is less than one-half of such primary insurance benefit of such deceased individual, then for each month, beginning with the month in which the parent becomes entitled to such other benefit or benefits, the parent's insurance benefit is reduced by an amount equal to the total of such other benefits for such month.

If there is more than one deceased individual with respect to whose wages a parent is entitled to receive a parent's insurance benefit for a month, such benefit shall be an amount equal to one-half of whichever deceased individual's primary insurance benefit is greatest.

Example: P, aged 60, is the parent of A and B. P is wholly dependent upon and supported by A during 1940; A dies in December of that year. P is thereafter wholly dependent upon and supported by B until B's death in 1942. Both A and B were fully insured at the time of their deaths and neither was survived by a widow or unmarried child under the age of 18. P, upon attaining age 65 and meeting the other conditions of entitlement, will be entitled to parent's insurance benefits based upon the primary insurance benefit of A or B, whichever is the largest, since he was wholly dependent upon and supported by A at A's death and wholly dependent upon and supported by B at B's death.

If at the time of A's death, P was dependent upon and supported by both A and B, and thereafter was wholly dependent upon and supported by B alone, P would be entitled to parent's insurance benefits based upon B's wages, but not upon A's wages, since he would not have been wholly dependent upon and supported by A at the time of A's death.

(d) *Surviving child.* The deceased insured individual shall be deemed to have left a surviving child (see § 403.832) who was unmarried and under age of 18, within the meaning of section 202 (f) (1) of the act (see paragraph (a) above), if any such child was living after the individual's death, even though born thereafter.

(e) *"Wholly dependent upon and supported by."* A parent is "wholly dependent upon and supported by" an individual if such parent is supported by such individual and:

(1) Has no income or means of support other than the income or support received from such individual; or

(2) Has only inconsequential income or means of support other than that received from such individual.

SECTION 202 (g) OF THE ACT

Upon the death, after December 31, 1939, of an individual who died a fully or currently insured individual leaving no surviving widow, child, or parent who would, on filing application in the month in which such individual died, be entitled to a benefit for such month under subsection (c), (d), (e), or (f) of this section, an amount equal to six times a primary insurance benefit of such individual shall be paid in a lump-sum to the following person (or if more than one, shall be distributed among them) whose relationship to the deceased is determined by the Board, and who is living on the date of such determination: To the widow or widower of the deceased; or, if no such widow or widower be then living, to any child or children of the deceased and to any other person or persons who are, under the intestacy law of the State where the deceased was domiciled, entitled to share as distributees with such children of the deceased, in such proportions as is provided by such law; or, if no widow or widower and no such child and no such other person be then living, to the parent or to the parents of the deceased, in equal shares. A person who is entitled to share as distributee with an above-named relative of the deceased shall not be precluded from receiving a payment under this subsection by reason of the fact that no such named relative survived the deceased or of the fact that no such named relative of the deceased was living on the date of such determination. If none of the persons described in this subsection be living on the date of such determination, such amount shall be paid to any person or persons, equitably entitled thereto, to the extent and in the proportions that he or they shall have paid the expenses of burial of the deceased. No payment shall be made to any person under this subsection, unless application therefor shall have been filed, by or on behalf of any such person (whether or not legally competent), prior to the expiration of two years after the date of death of such individual.

§ 403.408 *Lump-sum death payments*—(a) *Conditions of payment.* A lump sum is payable to one or more of the persons described in paragraph (b) of this section if:

(1) An individual has died, after December 31, 1939, who was a fully insured individual or currently insured individual (see §§ 403.201 and 403.202) at the time of his death; and

(2) Such deceased individual was not survived by a widow, child, or parent (see paragraph (d) (1) of this section) who, upon filing application therefor in the month in which such individual died, would be entitled to receive a child's insurance benefit, widow's insurance benefit, widow's current insurance benefit, or parent's insurance benefit (see §§ 403.404, 403.405, 403.406, and 403.407) for such month with respect to the wages of such deceased individual; and

(3) An application (see § 403.701) for such lump sum has, except as otherwise provided in § 403.701 (j), been filed within 2 years following the death of such individual.

A lump sum is payable under the above stated conditions even though the deceased individual was entitled to primary insurance benefits and even though, for any month prior to the month in which such individual died, his wife or child was entitled to wife's insurance benefits or child's insurance benefits with respect to his wages. The lump sum is not in lieu of, and does not affect, later entitlement of survivors to monthly insurance benefits.

Example: H was entitled to primary insurance benefits at the time of his death in June. H was survived only by W, his wife, and C, his child. C had been entitled to child's insurance benefits with respect to H's wages until he attained the age of 18 prior to H's death. W, at the time of H's death, is under 65. W will be entitled to a lump sum with respect to H's wages. If W thereafter attains the age of 65, and is otherwise qualified, she will be entitled to widow's insurance benefits.

(b) *Persons entitled to receive payments*—(1) *Survivors of deceased.* The following person or persons whose relationship to the deceased insured individual is determined by the Administration, and who are living at the time of such determination, are, in the order named, entitled to a lump sum under the conditions stated in paragraph (a) of this section:

(i) The widow or widower (see paragraph (d) (2) of this section) of such individual. If there is no such widow or widower, the lump sum is payable to

(ii) The child or children (see paragraph (d) (2) of this section) of the deceased and any other person or persons who are, under the intestacy law of the State where the deceased was domiciled, entitled to share with such child or children in the distribution of intestate personal property of such deceased individual. Persons entitled to share with such child or children are not precluded from receiving the lump sum by reason of the fact that no child survived such deceased individual or was living at the time of the Administration's determination of relationship. If there is no such child or other person, then the lump sum is payable to

(iii) The parent or parents (see paragraph (d) (2) of this section) of the deceased.

(2) *Persons equitably entitled.* If none of the persons described under subparagraph (1) of this paragraph is living on the date of the Administration's determination of relationship, the lump sum will be payable to any person or persons equitably entitled thereto, to the extent and in the proportions that he or they shall have paid the burial expenses of the deceased insured individual.

Where an estate is a person equitably entitled, payment will be made only to the legal representative of such estate.

The term "person or persons equitably entitled" does not include, among others, any of the following:

(i) The United States Government or any wholly owned instrumentality thereof.

(ii) Any person under contractual obligation to pay the burial expenses of the deceased, to the extent of such obligation.

(iii) Any person paying the expenses of the burial of a member or employee of such person, to the extent of any payment under a plan, system, or general practice.

(iv) Any person furnishing goods or services in connection with the burial of the deceased, to the extent that goods or services are furnished.

(v) Any person who has been or will be, wholly or partially reimbursed, to the extent of such reimbursement.

(c) *Amount of payment.* The lump sum to which a widow, widower, child (or distributee with the child), or parent, is entitled under paragraph (b) of this section is an amount equal to six times the primary insurance benefit (see § 403.301) of the deceased insured individual. Where there is more than one child or person entitled to share as distributee with a child, the lump sum shall be divided among them in the proportions provided by the intestacy laws of the State where the deceased was domiciled. Where there is more than one parent the lump sum shall be divided equally between such parents.

Where an applicant (other than a person named in paragraph (b) (1) of this section is equitably entitled to a lump sum under paragraph (b) (2), of this section, the amount payable to him will be determined as follows:

(1) If no person other than such applicant is, or becomes, equitably entitled under paragraph (b) (2) of this section, the amount payable will be an amount equal to the amount of burial expenses paid by the applicant, or six times the primary insurance benefit of the deceased, whichever is less.

(2) If two or more persons are, or become, equitably entitled under paragraph (b) (2) of this section, the amount payable to any such applicant is an amount equal to that proportion of six times the amount of the primary insurance benefit of the deceased which the amount of burial expenses paid by such applicant bears to the total amount of burial expenses paid by all persons equitably entitled, but in no event shall the amount paid to such applicant exceed the amount of burial expenses paid by him.

Example 1: X, who paid all of D's burial expenses of $220, is equitably entitled to a lump sum. D's primary insurance benefit is $20, so that the lump sum payable is $120 (6 times $20). X is entitled to the entire amount of the lump sum.

If X had paid $120 and a person or persons not equitably entitled had paid the remaining $100, X would nevertheless be entitled to the entire lump sum. If, under the same circumstances, he had paid $100, the amount payable to him as a lump sum would be only $100.

Example 2: X paid $165 and Y paid $55 toward D's burial expenses of $220. Both X and Y are equitably entitled to a portion of a lump sum. D's primary insurance benefit is $20, so that the lump sum payable is $120. X is entitled to 165/220 (¾) of the lump sum or $90, and Y is entitled to 55/220 (¼) of the lump sum, or $30.

If X had paid $90 and Y $30 and a person or persons not equitably entitled had paid the remaining $100, X and Y would nevertheless be entitled to $90 and $30 respectively. If, under the same circumstances, X had paid $60 and Y $15, the amount payable to X and Y as a lump sum would be only the amounts they actually paid.

Example 3: X paid $100 toward D's burial expenses of $200. The remaining $100 was unpaid. D's primary insurance benefit is

$20, and a lump sum of $120 is payable on the basis of his wages. X is equitably entitled to ½ of the lump sum of $120, or $60. If no other individual becomes equitably entitled hereunder by reason of a payment toward D's burial expenses, X will be equitably entitled to an additional $40.

(d) *Meaning of terms.* (1) The terms "widow," "child," and "parent" as they first appear in section 202 (g) of the act (see paragraph (a) of this section), are used as defined in section 209 (j) of the act (see § 403.831), section 209 (k) of the act (see § 403.832), and section 202 (f) of the act (see § 403.833), respectively.

(2) The meaning of the terms "widow," "child" (or "children"), and "parent" (or "parents"), except as they first appear in section 202 (g) of the act, and of the term "widower" as used in such section 202 (g), is determined by reference to applicable State law (see § 403.829). An individual is such a "widow," "widower," "child," or "parent" of a deceased wage earner if he is the widow, widower, child, or parent of the wage earner or has the same status as such, under applicable State law, without regard to the definitions referred to in paragraph (d) (1) of this section.

Subpart E—Reduction and Increase of Insurance Benefits and Deductions From Benefits and Lump-Sum Death Payments

§ 403.501 *Modification in amount of benefits and lump-sum death payments.* Under certain conditions the amount of benefits and lump sums, as calculated under section 202 of the act, must be modified upward or downward in determining the amount actually to be paid to the beneficiary. The modifications in the amount calculated under section 202 of the act occur where (a) reductions or increases of benefits (other than primary insurance benefits) are required under section 203 (a) or (b) of the act, or (b) deductions from benefits or lump sums are required under section 203 (d), (e), (g), or (h) of the act or under section 907 of the Social Security Act Amendments of 1939, or (c) adjustment is required under section 204 (a) of the act. Reductions and increases under section 203 (a) or (b) are always made before any deductions or adjustments are made under sections 203 (d), (e), (g), or (h) of the act, section 907 of the Social Security Act Amendments of 1939, or section 204 (a) of the act.

Regulations concerning these modifications are set forth in the following sections of this subpart and in subpart F. As to the use of the terms "entitled" and "payable" in the regulations in this part, see § 403.401 (c) (2).

Section 203 (a) of the Act

Whenever the total of benefits under section 202, payable for a month with respect to an individual's wages, is more than $20 and exceeds (1) $85, or (2) an amount equal to twice a primary insurance benefit of such individual, or (3) an amount equal to 80 per centum of his average monthly wage (as defined in section 209 (f)), whichever of such three amounts is least, such total of benefits shall, prior to any deductions under subsections (d), (e), or (h), be reduced to such least amount or to $20, whichever is greater.

Section 203 (b) of the Act

Whenever the benefit or total of benefits under section 202, payable for a month with respect to an individual's wages, is less than $10, such benefit or total of benefits shall, prior to any deductions under subsections (d), (e), or (h), be increased to $10.

Section 203 (c) of the Act

Whenever a decrease or increase of the total of benefits for a month is made under subsection (a) or (b) of this section, each benefit, except the primary benefit, shall be proportionately decreased or increased, as the case may be.

§ 403.502 *Reductions and increases of benefits.* The subsections quoted above apply only to monthly benefits. Lump sums under section 202 (g) of the act are not subject to reductions or increases hereunder.

(a) *Basis for computing reductions and increases.* Whether there is to be a reduction or increase in any benefit or benefits and the extent of such reduction or increase depends upon the total amount of benefits for a month as calculated under section 202 of the act with respect to the wages of one individual. If there is a primary insurance benefit included in such total, the primary insurance benefit is not reduced and in such a case no increase is possible (see paragraph (c)). If a beneficiary entitled to benefits based upon the wages of such individual is also entitled to benefits based on other wages, such other benefits are excluded from such total.

Example 1: H has an average monthly wage of $250, and a primary insurance benefit of $42 for each month, under section 202 (a) of the Act. H's wife, W, is entitled to a wife's insurance benefit calculated as $21 under section 202 (b) of the Act, and each of his two children, who are under 18, is entitled to a child's insurance benefit calculated as $21 under section 202 (c) of the Act. The amount of benefits for a month to which W and the two children are entitled, as calculated under section 202 of the Act, is therefore $63. This amount, when added to H's primary insurance benefit of $42, makes a total of $105 calculated under such section 202 on the basis of H's wages.

Reductions required under this section of the regulations would be made against this total of $105 (see example 1 under paragraph (b)).

Example 2: If, in the above example, W were entitled to a primary insurance benefit calculated as $15 under section 202 (a) of the Act, the amount of her wife's insurance benefit would, as calculated under section 202 (b) of the Act, be reduced to $6 ($21 less $15), and the total of benefits for the month as calculated under section 202 of the Act on the basis of H's wages would therefore be $90.

Reductions required under this section of the regulations would be made against this total of $90 (see example 2 under paragraph (b)).

(b) *Conditions requiring reduction and amount of reduction.* Reductions are made only when there are two or more benefits for a month based upon the wages of one individual, and when the total amount of such benefits for such month, as calculated under section 202 of the act, is more than $20 and also exceeds one of the following amounts:

(1) $85, or

(2) Twice the primary insurance benefit of such individual, or

(3) 80 per centum of such individual's average monthly wage.

If these conditions exist each of such benefits (except a primary insurance benefit) must be proportionately reduced so that the total of the benefits will be the amount stated in subparagraphs (1), (2), or (3) of this paragraph, whichever is least. If, however, such least amount is under $20, the total is reduced only to $20.

Example 1: In example 1 under paragraph (a) of this section, the total amount ($105) is less than 80 per centum of H's average monthly wage, but is more than $85 and more than two times H's primary insurance benefit of $42. Therefore, a reduction is required to the least of the three amounts stated under paragraph (b) of this section, which is $84 (twice the amount of H's primary insurance benefit).

This reduction is made only against the benefits of the wife and children, since a primary insurance benefit is not subject to reduction or increase under section 203 (a) or (b) of the act. The required reduction is $21 ($105 minus $84). It is divided proportionately among the wife and children, whose benefits totaling $63 are each reduced by $^{21}/_{63}$ ($^{1}/_{3}$) of $21, or $7, giving the wife and child a benefit of $14.

Example 2: In example 2 under paragraph (a) of this section, the total amount calculated under section 202 of the act ($90) is less than 80 per centum of H's average monthly wage, but is more than $85 and more than two times H's primary insurance benefit of $42. Therefore, a reduction is required under paragraph (b) of this section, to $84. The required reduction is $6 ($90 less $84) and is to be made against the benefits of the wife and children, which total $48. The benefit of the wife would be reduced by $^{6}/_{48}$ ($^{1}/_{8}$) of $6 or 75c, giving her a benefit of $5.25, and the benefit of each child would be reduced by $^{21}/_{48}$ of $6, or $2.63, giving each child a benefit of $18.37.

Example 3: H has an average monthly wage of $50, and a primary insurance benefit of $21. His wife, W, is entitled to a wife's insurance benefit calculated under section 202 (b) of the act as $10.50, and a child, C, under age 18, is entitled to a child's insurance benefit calculated under section 202 (c) of the act as $10.50, making a total of $42 calculated under section 202 of the act on the basis of H's wages.

This total is less than $85, and is equal to two times H's primary insurance benefit, but is more than 80 per centum of H's average monthly wage of $50. The total must, therefore, under this section of the regulations, be reduced $2, to $40, which is 80 per centum of H's average monthly wage. The reduction is made proportionately against the benefits of W and C, by reducing each by one-half of $2, or $1. W's and C's benefits would accordingly be $9.50 each.

Example 4: H died, and left surviving a widow, W, and 3 children. H had an average monthly wage of $20. H is primary insurance benefit is $10. W is entitled to a widow's current insurance benefit calculated under section 202 (e) as $7.50, and each child is entitled to a child's insurance benefit calculated under section 202 (c) as $5, making a total of $22.50 calculated under section 202 of the act on the basis of H's wages.

This total is less than $85, but is more than twice H's primary insurance benefit ($20) and more than 80 per centum of his average monthly wage ($16). Such total would, therefore, be reduced to $16 (the least of the three amounts under paragraph (b) of this section) except that, since such least amount is less than $20, the total is reduced only to $20. The reduction is made proportionately by reducing W's benefit by $^{7.50}/_{22.50}$ ($^{1}/_{3}$) of $2.50, or 83c, and each child's benefit by $^{5}/_{22.50}$ ($^{2}/_{9}$) of $2.50, or 56c. W's benefit would therefore be $6.67, and each child's benefit would be $4.44.

(c) *Conditions requiring increase and amount of increase.* An increase is made when the benefit or total of benefits for a month calculated under section 202 of the act with respect to the wages of one individual is less than $10, by increasing such benefit or total of benefits to $10.

If there is a primary insurance benefit for such month based on the wages of such individual, no increase is possible, since a primary insurance benefit is always at least $10 (see § 403.301).

(d) *Monthly application of provisions.* The total amount of benefits with respect to a single individual's wages, as calculated under section 202 of the act, may vary from month to month. Accordingly, a reduction or increase may be required in one month and not in another, or the amount of the reduction or increase may be greater or less in one month than in another.

Example: H dies fully insured leaving surviving him a widow, W, and three children, A, B, and C, under the age of 18. H's average monthly wage is $100, and his primary insurance benefit is $28. W is entitled to a widow's insurance benefit calculated as $21 under section 202 (e) of the act, and A, B, and C are each entitled to a child's insurance benefit calculated as $14 under section 202 (c) of the act. The total amount as calculated under section 202 of the act with respect to H's wages is therefore $63.

A reduction of this total to $56 (twice H's primary insurance benefit) is required under paragraph (b) of this section, giving W a benefit of $18.67, and each child a benefit of $12.44.

If C becomes 18 years of age, his benefit ends. The benefit for W and A and B is recalculated for the month in which C became 18, as though C had never been entitled. As recalculated, W's benefit would then be $21 for each month, and A's and B's would each be $14, making a total of $49. Since this amount is less than twice H's primary insurance benefit of $28, no reduction of the benefits as calculated under section 202 of the act is required.

(e) *Relation to provisions for deductions and adjustments.* Reductions and increases under this section of the regulations are made prior to making any deductions which may be required under subsection (d), (e), (g), or (h) of section 203 of the act or under section 907 of the Social Security Act Amendments of 1939, and prior to making any adjustments under section 204 of the act. (See following sections of this subpart and Subpart F.)

Example: H has an average monthly wage of $100 and is entitled to a primary insurance benefit of $26 for each month. W, his wife, is entitled to a wife's insurance benefit of $13 for each month, and his two children are each entitled to a child's insurance benefit of $13 for each month. The total calculated under section 202 of the act would, therefore, be $65, which exceeds twice the primary insurance benefit by $13. A reduction to $52 (twice H's primary insurance benefit) is required under paragraph (b) of this section, giving W and each child a benefit of $8.66 for each month.

If W renders services in a month for wages of $15 or more, her benefit, as reduced, would be withheld for 1 month (see § 403.503 (a)). The fact that the wife's benefit is withheld, thereby reducing the total of benefits on the basis of H's wages, does not affect the amount of the children's benefits, each of which remains $8.66 for each month.

Section 203 (d) of the Act

Deductions, in such amounts and at such time or times as the Board shall determine, shall be made from any payment or payments under this title to which an individual is entitled, until the total of such deductions equals such individual's benefit or benefits for any month in which such individual:

(1) Rendered services for wages of not less than $15; or

(2) If a child under eighteen and over sixteen years of age, failed to attend school regularly and the Board finds that attendance was feasible; or

(3) If a widow entitled to a widow's current insurance benefit, did not have in her care a child of her deceased husband entitled to receive a child's insurance benefit.

Section 203 (e) of the Act

Deductions shall be made from any wife's or child's insurance benefit to which a wife or child is entitled, until the total of such deductions equals such wife's or child's insurance benefit or benefits for any month in which the individual, with respect to whose wages such benefit was payable, rendered services for wages of not less than $15.

Section 203 (f) of the Act

If more than one event occurs in any one month which would occasion deductions equal to a benefit for such month, only an amount equal to such benefit shall be deducted.

§ 403.503 *Deductions because of employment, etc.* The subsections of the act quoted above provide for deductions from benefits upon the occurrence of certain events which are enumerated in paragraphs (a), (b), and (c) of this section.

(a) *Employment.* If an individual, in any month for which he is entitled to a benefit, renders services for wages of not less than $15, deductions are made:

(1) From any benefit or benefits to which he is or becomes entitled. The amount to be deducted is equal to the benefit or total of benefits to which he was entitled for the month in which he rendered the services.

(2) From any wife's or child's insurance benefits to which his wife or child is or becomes entitled with respect to such individual's wages. The amount to be deducted is equal to such wife's or child's insurance benefit for the month in which such individual rendered the services.

Since the amount to be deducted is measured by the benefit or total of benefits for the month in which the services were rendered, it is not material in what month the wages of $15 or more were paid.

In determining, for the purpose of this section, whether an individual has rendered services for "wages" of not less than $15, the provisions of section 209 (a) (2) of this act (see § 403.828 (a) (2) of the regulations) in this part do not apply.

Example 1: A is entitled to a primary insurance benefit of $25 for each month. He renders services for wages of $15 in both January and February but does not report this fact to the Administration until March, after the benefits for January and February have been paid.

The total amount to be deducted is $50, since the event occasioning the deduction occurred in each of 2 months. Therefore, $25 will be withheld each month for 2 months, and A will receive no further payment until the total of $50 has been withheld.

Example 2: H is entitled to a primary insurance benefit of $25, and his wife, W, is entitled to a wife's insurance benefit of $12.50 on the basis of his wages. H renders services for wages of $15 in a month. A deduction is required from W's benefits, as well as from H's benefits, because of H's work. If W instead of H rendered the services, deductions would be made from W's benefits but not from H's benefits.

Example 3: A is entitled to a primary insurance benefit of $25. In the months of April, May, and June he renders services for the total wages of $3,000. In July he renders services in employment for remuneration of $500. The total amount to be deducted is $100, notwithstanding the fact that for other purposes any amount paid in excess of $3,000 in a calendar year is not considered "wages" because of the provisions of section 209 (a) (2) of the act.

(b) *Failure of child to attend school.* If a child under 18 and over 16 years of age fails, in any month for which he is entitled to a benefit, to attend school regularly, and the Administration finds that attendance was feasible, deductions are made from any benefit or benefits to which such child is or becomes entitled. The amount to be deducted is equal to the benefit to which such child was entitled for the month in which he failed to attend school regularly.

(c) *Failure of widow to have a child in her care.* If a widow entitled to a widow's current insurance benefit does not, in any month for which she is entitled to such benefit, have in her care a child of her deceased husband entitled to a child's insurance benefit for such month, deductions are made from any benefit or benefits to which such widow is or becomes entitled. The amount to be deducted is equal to the widow's current insurance benefit to which such widow was entitled for the month in which she did not have such a child in her care.

The fact that a child's insurance benefit for a particular month is withheld to effect a deduction under section 203 (d), (e), (g), or (h) of the act or section 907 of the Social Security Act Amendments of 1939, or an adjustment under section 204 of the Act, does not affect the right of a widow who has the child in her care, to a widow's current insurance benefit since the child is nevertheless "entitled" to the benefit. See § 403.401 (c) (2).)

Example: C, the child of H, who is deceased, is entitled to child's insurance benefits based on H's wages. W, the widow of H, is entitled to widow's current insurance benefits. C renders services for wages of $15 in a month.

Although deductions must be made from C's benefits, and he will therefore receive no benefits for 1 month, on account of having rendered such services, C is still "entitled" to child's insurance benefits. Therefore, the fact that C rendered services for wages of $15 does not occasion a deduction from the widow's benefits.

(As to the meaning of the term "in her care" see § 403.406 (d).)

(d) *Manner of making deductions.* Deductions are made by withholding benefits in whole or in part, depending upon the amount to be deducted. If the

amount to be deducted is not withheld from the benefit or benefits for the month in which the event occurred which occasioned the deduction (if, for example, the occurrence has not been brought to the attention of the Administration), such amount will be withheld from benefits for one or more subsequent months. The total amount to be deducted may, therefore, at the time of withholding, be greater or less than any benefit or benefits for a month, from which such amount is to be withheld.

When it is determined that a deduction is required under paragraph (a), (b), or (c) of this section, no benefit for any month will be paid, which is designated in such paragraph as a benefit from which the deduction is to be made, until a total amount equal to the amount to be deducted has been withheld. If the amount of the required deduction is less than any such benefit or the total of any such benefits for a month, the amount to be deducted will be withheld from such benefit or total of benefits.

Example: H is entitled to a primary insurance benefit of $50, and his wife, W, is entitled to a wife's insurance benefit of $25. W works in the month of January for wages of $15, and her benefits thereby become subject to a deduction of $25. W reports to the Administration after her benefit for January has been paid. C, H's child, becomes entitled to a child's insurance benefit of $25 for the month of February. Beginning with that month, W's and C's benefits would each be reduced to $17.50 for each month under section 203 (a) of the act, to bring the total based on H's wages to $85. (See § 403.502.)

To effect the deduction of $25 from W's benefits, her benefit for February would be withheld, and $7.50 would be withheld from her benefit for March.

If C had become entitled to a child's insurance benefit for January, instead of February, W's benefit would have been reduced under section 203 (a) of the act to $17.50 for January. Consequently, the amount deducted on account of her work in January would have been $17.50, instead of $25, and the deduction would be effected by withholding 1 month's benefit.

(e) *Accumulation of deductions.* Section 203 (f) of the act prevents duplication of deductions under paragraphs (a), (b), and (c) above, by reason of the occurrence in 1 month of more than one of the events enumerated in those paragraphs. If more than one such event occurs in a month, the total amount of the deduction is the same as if only one such event had occurred. Section 203 (f) of the act has no application to any other deductions or adjustments under the law. (See paragraph (g) of this section.)

If, however, any of the events occasioning a deduction under paragraph (a), (b), or (c) of this section occurs in more than 1 month, the total amount to be deducted is equal to the sum of the deductions for all months in which any such event occurred.

(See example 1 under paragraph (a) of this section.)

(f) *Relation to provisions for reductions and increases.* In effecting a deduction, no amount can be considered as having been withheld from a benefit for a particular month, which is in excess of the amount of such benefit as reduced or increased (if required) under section 203 (a) or (b) of the act (see § 403.502). Likewise, the amount of a benefit by which a deduction is measured (i. e., a benefit for the month in which the event occasioning the deduction occurred) is the amount of such benefit as so reduced or increased. (See example under paragraph (d) of this section.)

(g) *Relations to other provisions for deductions and adjustments.* A deduction required under section 203 (d) or (e) of the act is made prior to and in addition to any deductions under section 203 (h) of the act or section 907 of the Social Security Act Amendments of 1939 (see § 403.505), and prior to and in addition to any adjustments under section 204 (a) of the act (see § 403.601).

Example: A is entitled to a primary insurance benefit of $25 for each month. He renders services for wages of $15 in each of 2 months. A deduction of $50 is therefore required under section 203 (d) of the act. In order to effect the deduction, his primary insurance benefit is withheld for 2 months. If A had received a payment of $100 under section 204 of the Social Security Act in force prior to August 10, 1939, a deduction of $100 would have to be made from his benefit (see § 403.505 (a)), and his benefits would therefore have to be withheld for an additional 4 months, making a total of 6 months. The first deductions charged against A's benefits are deductions required under section 203 (d) of the act.

(See also example under paragraph (d) of § 403.601.)

SECTION 203 (g) OF THE ACT

Any individual in receipt of benefits subject to deduction under subsection (d) or (e) (or who is in receipt of such benefits on behalf of another individual), because of the occurrence of an event enumerated therein, shall report such occurrence to the Board prior to the receipt and acceptance of an insurance benefit for the second month following the month in which such event occurred. Any such individual having knowledge thereof, who fails to report any such occurrence, shall suffer an additional deduction equal to that imposed under subsection (d) or (e).

§ 403.504 *Reports to Administration of events occasioning deductions.* This subsection of section 203 of the act imposes upon an individual the obligation to report to the Administration the occurrence of any of the events enumerated in subsection (d) or (e) of section 203 of the act (see § 403.503), if such individual is in receipt of benefits (on his own behalf or on behalf of another) from which a deduction is to be made under such subsections.

If such individual has knowledge of the occurrence of any such event and fails to report to the Administration prior to the receipt and acceptance of a benefit for the second month following the month in which such event occurred, a deduction is made (except as noted below) in addition to that required under section 203 (d) or (e) of the act. If, however, either a wage earner, or another individual in receipt of benefits based on his wages, reports to the Administration within the time prescribed, that such wage earner rendered services in a month for wages of $15 or more (see paragraph (a) of § 403.503), no such additional deduction will be made on account of the rendition of such services by the wage earner.

The amount of an additional deduction required hereunder and the manner in which it is effected are the same as provided for deductions under section 203 (d) or (e) of the act on account of the event which such individual failed to report.

Example: H is entitled to receive a primary insurance benefit of $25 for each month, and W, his wife, is entitled to a wife's insurance benefit of $12.50. H renders services for wages of not less than $15 in each of 2 months. If either H or W reported this fact to the Administration, within the time stated in this section, the deduction from H's benefits would be $50, and the deduction from W's benefits would be $25. If neither H nor W reported to the Administration as required, the deduction would be $100 from his benefit and $50 from W's benefits. If, however, A were receiving the benefits on behalf of either H or W and reported to the Administration, neither H nor W would suffer the additional deduction for failure to report.

SECTION 203 (h) OF THE ACT

Deductions shall also be made from any primary insurance benefit to which an individual is entitled, or from any other insurance benefit payable with respect to such individual's wages, until such deductions total the amount of any lump sum paid to such individual under section 204 of the Social Security Act in force prior to the date of enactment of the Social Security Act Amendments of 1939.

SECTION 4 (c) OF THE ACT OF AUGUST 13, 1940 (54 STAT. 786)
